ST. MARY'S HOSPITAL MEDICAL SCHOOL

(University of London)

TERMS BEGIN IN OCTOBER, JANUARY and APRIL

Exceptional Situation.

The situation of the Hospital and Medical School is unique, for while it is adjacent to a large, poor district with a population of 500,000, it is also within a few minutes' walk of Kensington Gardens and an extensive residential district, in which students can live, and so avoid a daily wearisome journey to and from their work. Recent structural alterations include two new operating theatres and 75 additional beds.

Rebuilding of the Medical School.

Approximately £250,000 has been spent in rebuilding the Medical School and Laboratories. The New Buildings are now in use. Apart from the Laboratories, Class-rooms, and Theatres for all the subjects in the Curriculum, they include a Library, Restaurant, Students' Club, Billiard room, full-sized Swimming Bath, Squash Rackets Court, Gymnasium, Boxing ring, and an underground Garage for fifty cars.

Special Clinical Facilities.

The formation of Clinical Units in Medicine and Surgery has been an important advance in connection with the clinical teaching, and this has been further developed by the affiliation for teaching purposes of several of the Hospitals in the neighbourhood, bringing up the total number of beds available for teaching up to 1000. By agreement with Queen Charlotte's Lying-in Hospital, all students of St. Mary's attend a short course of instruction there, without extra fee before entering upon their duties in the Maternity District of St. Mary's.

Research Studentships.

A considerable sum is devoted annually to research, and a part of this is applied to the upkeep of Research Scholarships, designed to enable students recently qualified to learn the technique of research work.

Entrance Scholarships.

All Entrance Scholarships are awarded annually in June by nomination.

The Geraldine Harmsworth Scholarship (£200) and other University Scholarships are open to members of Oxford and Cambridge Universities who have completed their examination in Anatomy and Physiology.

Appointments after Qualification.

Numerous appointments are open to newly qualified members of the Medical School. Six House Physicians (eight months), ten House Surgeons (six to eight months), and four Resident Obstetric Officers (six months) are appointed annually. Two Resident Anesthetists (six months), £150 per annum, four Casualty House Surgeons (six months), £100 per annum, with board and residence. Two Medical Registrars, and Surgical Registrar, £200 per annum, with partial board. Obstetric Registrar and Radium Registrar, each £50 per annum, with partial board.

Limitation of Numbers.

The School has decided that in future only Students who have matriculated, or obtained exemption from matriculation at one of the Universities, will be admitted.

Athletic Ground.

The Old Merchant Taylors' Ground at Teddington (13 acres) which is one of the few London grounds on gravel and is therefore dry in Winter, has recently been purchased and is now in use.

Fees.

The Composition Fee for the entire Curriculum is £205.

The Composition Fee for the Clinical portion of the Curriculum is 95 guineas.

The Fee for the Amalgamated Club is 3 guineas per annum.

The Illustrated Prospectus can be obtained from the School Secretary, St. Mary's Hospital, Paddington, W.2.

POST-GRADUATE COURSES, AND COURSES FOR EXTERN STUDENTS.

A.—Courses leading to Degrees.

The regulations under which graduates of the University and graduates of other Universities may qualify for the degrees of M.Sc. and Ph.D. are given in the pamphlet entitled "Terms and Exercises required for the several Degrees," which will be sent on application to the Assistant Registrar, Trinity College, Dublin.

Candidates for Degrees in Music are not required to be University Graduates. The regulations will be sent by the Assistant Registrar, Trinity College, Dublin.

B.—Courses leading to Diplomas.

Students who are not graduates of the University may be admitted to qualify for the Diplomas in Public Health, in Gynaecology and Obstetrics, and in Psychological Medicine. The regulations may be obtained from the Registrar of the School of Physic, Trinity College, Dublin.

Such students may also be admitted to the Diploma in Economics and Commercial Knowledge, and to the Diplomas in Geography, in the History of European Painting, in Education, and in Social Studies. The regulations for the former will be sent by the Registrar of the School of Commerce, Trinity College, Dublin; for the latter by the Assistant Registrar, Trinity College, Dublin.

C.—Other Courses.

1. Students who are not graduates of the University may, if sufficiently qualified, be permitted to attend the Courses provided in the different branches of Arts. Application is to be made to the Senior Lecturer, Trinity College, Dublin.

If leave is granted, they will be required to pay to the Bursar a fee of three guineas per Term for each Course taken.

2. The special class held to prepare candidates for the Examination for the Indian, Colonial, and Home Civil (Class I) Services is open to extern students.

Particulars may be obtained from the Registrar, Trinity College, Dublin.

3. A limited number of extern students may be admitted to pursue research work in the laboratories of the Departments of Experimental Physics, Chemistry, Botany, Geology, and Zoology. Application should be made to the Professor concerned, whose leave must be obtained in all cases.

4. Graduates in Medicine of this and other Universities are admitted to pursue research work in the Departments of Anatomy and Embryology, Physiology, Pathology, and Bacteriology. No fee is charged, beyond what is required to cover cost of materials. Application should be made in the first instance to the Dean of the Faculty of Physic, Trinity College, Dublin.

5. An intensive course in all branches of Medicine, lasting three weeks, is given during the Long Vacation, to which all qualified medical practitioners are admitted, if approved by the Professors of the School. Particulars may be obtained from the Registrar of the School of Physic, Trinity College, Dublin.

Manchester Municipal COLLEGE OF TECHNOLOGY

Principal: B. MOUAT JONES, D.S.O., M.A. (Oxford)

DEGREE COURSES IN TECHNOLOGY

The Prospectus of University Courses gives particulars of the courses leading to the Manchester University Degrees (B.Sc.Tech., M.Sc.Tech., and Ph.D.) and Certificates in the Faculty of Technology, in the following Departments:—

MECHANICAL ENGINEERING

(Professor DEMPFSTER SMITH, M.B.E., M.Sc.Tech., M.I.Mech.E.).

ELECTRICAL ENGINEERING

(Professor JOHN HOLLINGWORTH, M.A., D.Sc., M.Sc.Tech., F.C.G.I., M.I.E.E.).

MUNICIPAL ENGINEERING

(R. J. CORNISH, M.Sc. A.M.Inst.C.E., A.M.I.Mech.E., A.M.I.Struct.E., M.R.San.I.).

APPLIED CHEMISTRY, including General Chemical Technology, Metallurgy and Assaying, Fermentation Processes (including Brewing), Electro-Chemistry, Photography, Colouring Matters, Foodstuffs, Fuels, and Chemical Engineering.

(Professor JAMES KENNER, D.Sc., Ph.D., F.R.S.).

TEXTILE CHEMISTRY (Bleaching, Dyeing, Printing and Finishing. Paper Manufacture).

(F. SCHOLEFIELD, M.Sc., F.I.C., F.T.I.).

TEXTILE TECHNOLOGY

(Professor W. E. MORTON, M.Sc.Tech., F.T.I.).

BUILDING

(W. B. MCKAY, M.Sc.Tech., M.I.Struct.E.).

INDUSTRIAL ADMINISTRATION (Post-Graduate Certificate Course).

(K. G. FENELON, M.A., Ph.D.).

The Prospectuses of Part-time Courses give particulars of evening courses in Engineering, Mathematics, and Physics, leading to the external degrees of London University in Engineering and Science.

MATHEMATICS DEPARTMENT

(F. Bowman, M.A., M.Sc.Tech.).

PHYSICS DEPARTMENT

(W. H. Taylor, Ph.D., D.Sc.).

Prospectuses will be forwarded free on application to the REGISTRAR, College of Technology, Manchester, r.

BRIGHTON TECHNICAL COLLEGE

Principal:

W. MANSERGH VARLEY, M.A. (Cantab.), D.Sc. (Manchester),
Ph.D. (Strasbourg).

Commerce in preparation for Banking and Shipping Offices and the like.

Moderate Fees. Ample facilities for Social and Athletic activities. Non-local Students reside in inspected and approved rooms. Students in all departments readily placed with leading firms throughout Great Britain on satisfactory completion of courses.

Calendar on application to the Chief Clerk, Technical College, Brighton.

HERIOT-WATT COLLEGE, EDINBURGH

(Affiliated to the University of Edinburgh)

TECHNICAL CAREERS

UNDER modern conditions it is necessary for those who hope to reach the higher positions in industry to have practical training in Workshops and Drawing Offices, and also to gain sound knowledge of underlying scientific principles. It is only possible to acquire the latter systematically by following a course of instruction in a Technical College or University. The range of scientific knowledge is increasing rapidly and it is usual for a technical course of training for the higher posts to extend over three or four years. The Heriot-Watt College provides such courses in Mechanical Engineering, Electrical Engineering, Applied Chemistry, Mining Engineering, Pharmacy, Optics, Printing and Building.

Two courses are open to those who intend to follow a technical career. The first is to go to a Technical College course immediately on leaving school, and on completion of this to enter Workshops and Drawing Offices to obtain the necessary practical training. The other course is to go directly from school into Workshops and at a later stage to attend a Technical College. Arrangements are made by which students in the Heriot-Watt College may spend their Summer Terms in Workshops and so gain practical experience which can be definitely utilised in connection with the training in the College. This "sandwich" system has much to commend it and has been a course of training followed by many successful students.

Technical experts must associate themselves with one or other of the various institutions connected with their occupation, such as the Institution of Mechanical Engineers, the Institution of Civil Engineers, the Institution of Electrical Engineers, the Institute of Chemistry or the Institute of Mining. The courses of training provided at the College lead up to membership of these Institutes and in some cases provide for exemption from the examinations of the Institutes.

The openings for well-qualified technical experts are numerous. There are insufficient trained men for the technical posts available, and Engineering practical men with technical training can almost certainly find suitable posts.

Full particulars are given in the College Calendar and enquiry may be made at the College for further information.

A large Scheme of Extension is in progress, and new equipment on the most up-to-date lines is being provided.

PREFACE

THE *Yearbook* was first published in 1914. Before its advent the official University Calendars were the only authentic sources of information regarding the personnel, organization, regulations, and recent activities of universities. When British universities were few and university men took but little interest in affairs of any except their own, the Calendars sufficed; but there are now 70 and each takes a growing interest in the others. In the *Yearbook* such information has been collected as may be of interest to members of other universities and colleges, to Government Departments, clubs, school-masters and the public generally.

The introductory chapters deal with the Universities of Great Britain and Ireland, of Canada, of Australia, of South Africa and of India, their history, regulations and practice. Each section comprises three parts:

(1) A directory of the officers and members of the staff of the University. The directory gives the degrees held by the teachers as well as the University by which they were granted, except in those cases in which the honorary degrees conferred are too numerous to specify. If no name of a university follows a degree, it may be assumed that the degree was conferred by the university upon whose staff the teacher is serving. With the exception of honours conferred by H.M. the King and by the French Republic, titles other than degrees are omitted, unless they throw light upon the standing of their holders in the subjects which they profess.

(2) General Information.

(3) Reports of events of outstanding interest which occurred during the previous academic year.

The thirty-one Appendices have been re-arranged this year in what is thought to be a more logical sequence and re-numbered. Matters dealt with in them include: admission to Universities, open post-graduate scholarships, centres of scientific and industrial research, bureaux of information, professional bodies (formerly Appendices I-XXI—now grouped under arabic numbers as Appendix IV) and other subjects of general interest.

The General Index includes a series of references enabling informa-

tion to be found relating to professional schools, specialist studies, and so forth.

For the first time the Annual Report of the Executive Council of the Universities Bureau is reproduced in the *Yearbook*.

The Executive Council of the Universities Bureau desire to acknowledge the assistance given by Universities as well as other Institutions and Government Departments in the annual revision of the *Yearbook*, but cannot accept responsibility for omissions or inaccuracies in the information supplied.

On the occasion of the retirement of Miss E. S. Durrad as Assistant Secretary of the Universities Bureau and Assistant Editor of the *Universities Yearbook*, the Executive Council placed on record their high appreciation of the loyal services which she had rendered in the course of her nine years' connexion with the Bureau, as well as of her industry and her zeal which have contributed in no small measure to making the *Yearbook* an accurate and indispensable compilation of all important information relating to Universities and other institutions in the British Empire.

THE UNIVERSITIES BUREAU OF THE BRITISH EMPIRE

88A Gower Street, London, W.C.1 (entrance in Torrington Place).

Telegrams and Cables : "Uniburb, London."

Telephone : Euston 5164.

At the final meeting of the Congress of 1912 the delegates resolved that steps be taken for the formation in London of a Bureau of Information for the Universities of the Empire. In the spring of 1919 the Government offered a non-recurrent grant of £5000 to enable the Committee to secure and furnish premises suitable for the wide activities which the Bureau had developed, on condition that the Universities of the Empire undertook to provide funds adequate to its maintenance, and the Bureau was incorporated under licence of the Board of Trade. The Committee thereupon purchased the lease of No. 50 Russell Square. In 1930 the lease of these premises was sold and new offices were built at 88A Gower Street (in Torrington Place), W.C.1, on a site the lease of which was taken from the University of London. At the Fourth Quinquennial Congress of Universities of the Empire, held in Edinburgh in July 1931—the Second having been held at Oxford in 1921 and the Third, at Cambridge in 1926—new Articles of Association for the re-organization of the Bureau were considered by the delegates of the 69 Universities represented, and, subject to certain amendments, approved. The Articles were submitted in September 1931 to the Board of Trade which accorded its approval, subject to the deletion from Article 3 of the following proviso : " Provided that the powers of the Association shall not be exercised in any such way as to purport to restrict the powers and duties exercised by the constituent members under the several charters, statutes, regulations and other instruments of their self-government."

The Articles were approved at an Extraordinary General Meeting of the Association held on September 24, 1932. At the same Meeting the Association expressed its adherence to the principles of policy stated in this proviso.

At an Extraordinary General Meeting of the Association held at Cambridge on July 14, 1936, minor amendments of Schedule A were approved. The Memorandum and Articles of Association immediately follow.

MEMORANDUM AND ARTICLES OF ASSOCIATION OF THE UNIVERSITIES BUREAU OF THE BRITISH EMPIRE

(The word " Limited " being omitted by Licence of the Board of Trade)

MEMORANDUM OF ASSOCIATION

1. The name of the Association is " THE UNIVERSITIES BUREAU OF THE BRITISH EMPIRE."
2. The registered office of the Association will be situate in England.
3. The objects for which the Association is established are :—
 - (1) To take over and accept by way of gift or otherwise such of the assets and property of the unincorporated Universities Bureau of the British Empire, established in 1912, as the Association may lawfully acquire and to carry on and continue the undertaking and activities of the said Bureau.
 - (2) To collect and distribute information from time to time on matters of interest to the Universities of the British Empire.
 - (3) To arrange conferences and congresses and otherwise to facilitate communication and the interchange of information between the said Universities and between them and the Governments and other public bodies and learned institutions and societies of the British Empire and the Governments, Universities and other bodies of foreign countries.
 - (4) To facilitate the interchange of students and teachers between the said Universities and between them and the Universities of foreign countries.
 - (5) To establish and maintain a central office in London which shall serve, amongst other things, as a secretariat for the standing Committee of Vice-Chancellors and Principals of Universities in the United Kingdom and for any other Committees which the Universities may from time to time appoint.
 - (6) To establish and maintain offices in any other parts of the United Kingdom or in any state, colony, or dependency of the British Empire or in any foreign country or state, to form centres and secretariats for the work and activities of the Association.
 - (7) To print, publish and circulate handbooks, periodicals, circulars, leaflets and other publications with a view to making known and to furnishing and disseminating information about and encouraging interest in the objects, work and activities of the Association in any part of the world, and generally in connection with the carrying out of its objects.

- (8) To invite and collect subscriptions and donations to the funds of the Association by any lawful means.
- (9) To co-operate with other associations having similar objects with a view to the promotion of the objects of this Association.
- (10) To make, accept, endorse, discount and execute promissory notes, bills of exchange and other negotiable instruments.
- (11) To invest the moneys of the Association not immediately required for the purposes of the Association in or upon such securities and in such manner as may from time to time be deemed expedient provided that moneys subject or representing property subject to the jurisdiction of the Charity Commissioners or Board of Education shall not be invested except in such securities and with such sanction (if any) as may for the time being be required by law.
- (12) To borrow or raise money for the purposes of or in connexion with the Association's objects and to secure the same by mortgage or charge of any property of the Association or by the issue of debentures or debenture stock, charged on its undertaking or otherwise, or in any other manner as may be deemed expedient.
- (13) To do all such other things as may be thought calculated to promote the interests and well-being of the Universities of the British Empire or any of them.
- (14) To do all such other things as may be incidental or conducive to the attainment of the above objects or any of them.

Provided that the Association shall not support with its funds any object or endeavour to impose on or procure to be observed by its Members or others any regulation, restriction or condition which if an object of the Association would make it a Trade Union.

Provided also that in case the Association shall take or hold any property subject to the jurisdiction of the Charity Commissioners or Board of Education for England and Wales, the Association shall not sell, mortgage, charge or lease the same without such authority, approval or consent as may be required by law, and as regards any such property the Managers or Trustees of the Association shall be chargeable for such property as may come into their hands, and shall be answerable and accountable for their own acts, receipts, neglects and defaults, and for the due administration of such property in the same manner and to the same extent as they would as such Managers or Trustees have been if no incorporation had been effected, and the incorporation of the Association shall not diminish or impair any control or authority exercisable by the Chancery Division, the Charity Commissioners or the Board of Education over such Managers or Trustees, but they shall, as regards any such property, be subject jointly and separately to such control or authority as if the Association were not incorporated. In case the Association shall take or hold any property which may be subject to any trusts, the Association shall only deal with the same in such manner as allowed by law having regard to such trusts.

4. The income and property of the Association, whencesoever derived, shall be applied solely towards the promotion of the objects of the Association as set forth in this Memorandum of Association; and no portion thereof shall be paid or transferred directly or indirectly by way of dividend, bonus, or otherwise howsoever by way of profit, to the Members of the Association.

Provided that nothing herein shall prevent the payment, in good faith, of reasonable and proper remuneration to any officer or servant of the Association, or to any Member of the Association, in return for any services actually rendered to the Association, nor prevent the payment of interest at a rate not exceeding 5 per cent per annum on money lent or reasonable and proper rent for premises demised or let by any Member to the Association; but so that no Member of the Executive Committee or Governing Body of the Association shall be appointed to any salaried office of the Association, or any office of the Association paid by fees, and that no remuneration or other benefit in money or moneys worth shall be given by the Association to any Member of such Committee or Governing Body except repayment of out-of-pocket expenses and interest at the rate aforesaid on money lent or reasonable and proper rent for premises demised or let to the Association; Provided that the provision last aforesaid shall not apply to any payment to any railway, gas, electric lighting, water, cable or telephone company of which a Member of the Executive Committee or Governing Body may be a Member or any other company in which such Member shall not hold more than one-hundredth part of the capital, and such Member shall not be bound to account for any share of profits he may receive in respect of any such payment.

5. No addition, alteration, or amendment shall be made to or in the regulations contained in the Articles of Association for the time being in force, unless the same shall have been previously submitted to and approved by the Board of Trade.

6. The 3rd and 4th Paragraphs of this Memorandum contain conditions on which a licence is granted by the Board of Trade to the Association in pursuance of Section 20 of the Companies (Consolidation) Act, 1908.

7. The liability of the Members is limited.

8. Every Member of the Association undertakes to contribute to the assets of the Association, in the event of the same being wound up during the time that he is a Member, or within one year afterwards, for payment of the debts and liabilities of the Association contracted before the time at which he ceases to be a Member, and of the costs, charges and expenses of winding up the same, and for the adjustment of the rights of the contributories amongst themselves, such amount as may be required not exceeding One Pound.

9. If upon the winding up or dissolution of the Association there remains, after the satisfaction of all its debts and liabilities, any property whatsoever, the same shall not be paid to or distributed among the Members of the Association, but shall be given or transferred to some other institution or institutions having objects similar to the objects of the Association, and which shall prohibit the distribution of

its or their income and property amongst its or their Members to an extent at least as great as is imposed on the Association under or by virtue of Clause 4 hereof, such institution or institutions to be determined by the Members of the Association at or before the time of dissolution, or in default thereof by such Judge of the High Court of Justice as may have or acquire jurisdiction in the matter, and if and so far as effect cannot be given to the aforesaid provision then to some charitable object.

10. True accounts shall be kept of the sums of money received and expended by the Association, and the matter in respect of which such receipts and expenditure take place, and of the property, credits, and liabilities of the Association; and, subject to any reasonable restrictions as to the time and manner of inspecting the same that may be imposed in accordance with the regulations of the Association for the time being, shall be open to the inspection of the Members. Once at least in every year the accounts of the Association shall be examined, and the correctness of the balance-sheet ascertained by one or more properly qualified Auditor or Auditors.

ARTICLES OF ASSOCIATION

PRELIMINARY

1. The number of the Members of the Association is declared not to exceed 100, but the Council may at any time register an increase in the number of the Members.

2. These Articles shall be construed with reference to the provisions of the Companies Act, 1929, and terms used in these Articles shall be taken as having the same respective meanings as they have when used in that Act.

3. The Association is established for the purposes expressed in the Memorandum of Association.

MEMBERSHIP

4. The Members of the Association shall consist of corporate bodies with the following status:—

- (a) *Ordinary Members* who shall be (i.) such of the Universities specified in Schedule A attached to these Articles as sign the undertaking required by Article 5, and (ii.) such Universities situate within the British Empire, which may be hereafter incorporated, as are admitted members by the Council in accordance with such regulations as may be framed by the Council in this behalf.
- (b) *Associate Members* who shall be such Universities in mandated territories and such other institutions being University Colleges or Colleges of Universities within the Empire (being corporate bodies), as may hereafter be admitted members by the Council under such conditions of membership as may be prescribed by the Council in this behalf.

- (c) *Such other classes of members* (consisting of corporate bodies) as may from time to time be admitted by the Council under such conditions of membership as may be prescribed by the Council in this behalf.

5. Every Member shall sign an undertaking in such form as the Council may require to observe and perform all the conditions and provisions of the regulations of the Association for the time being in force, and thereupon the name of such Member shall be entered in the register of Members of the Association.

6. Ordinary Members shall have full rights of membership. Other Members shall be entitled to such of the privileges and benefits of the Association as may be assigned to them from time to time by the Council.

7. Every Member shall nominate a person to act as its representative. Such nomination shall be in writing and shall be deposited at the registered office of the Association. Such representative shall have the right on behalf of the Member to exercise all such rights of membership as may have been assigned to such Member by these Articles or by Regulations framed by the Council. A Member may from time to time in writing revoke the nomination of such representative, and nominate another representative in his place.

8. Any Member may withdraw from the Association by giving notice in writing to the Secretary before the expiration of any financial year, and on paying with such notice any unpaid subscription for the current year. Thereupon such Member shall be deemed to have ceased to be a Member from the date of the expiration of such financial year.

9. Upon the retirement of any Member by notice as stated in Article 8 the Member shall not be entitled to any repayment of any subscription or any part thereof paid for the current year.

10. The rights of any Member shall not be transferable and shall cease upon the Member failing to pay the annual subscription within twelve months of its becoming due. Any such Member may be re-admitted to membership upon payment of the subscription for the year during which its membership lapsed.

DUTIES OF MEMBERS

11. Every Member of the Association shall be bound :—

- (a) To pay to the Association such minimum annual subscriptions for the various classes of members as may be fixed by the Association at its first General Meeting after the adoption of these Articles, and as may subsequently be fixed from time to time at Extraordinary Meetings held during the progress of Quinquennial Congresses, under the provisions of Article 35.
- (b) To observe the provisions of these presents and of the Memorandum of Association and all the bye-laws, rules and regulations of the Association for the time being in force.

COUNCIL OF THE ASSOCIATION

12. The Executive of the Association shall be a Council consisting

of 21 persons chosen from the representatives of Ordinary Members as follows :—

| | |
|--|-------------------|
| Member Universities of Great Britain and Ireland | 9 representatives |
| “ “ “ Canada | 3 “ |
| “ “ “ Australia | 2 “ |
| “ “ “ New Zealand | 1 representative |
| “ “ “ South Africa | 2 representatives |
| “ “ “ India | 3 “ |
| “ “ “ other parts of the British Empire | 1 representative. |

13. The Members of the Council shall be appointed by the Association in General Meeting for a period of one year on the respective nominations of the Ordinary Members of the Association for the several territories specified in Article 12.

14. The office of a Member of the Council shall *ipso facto* be vacated if his appointment as a representative of a Member is withdrawn by the Member appointing him, or if the Corporation appointing him ceases to be a Member of the Association.

15. Casual vacancies shall be filled by the Council from amongst the representatives nominated by Ordinary Members under the provisions of Article 7. The person so appointed shall hold office until the Annual Meeting next after his appointment, but he shall then be eligible for re-election if nominated in accordance with the terms of Article 13.

16. No act or resolution of the Council shall be invalidated by reason of the existence of any vacancy or vacancies among Members of the Council, but if the number of Members of the Council shall be reduced below 13 the continuing Members may act for the purpose only of filling vacancies or summoning a General Meeting of the Association.

17. The Council shall manage and control all matters relating to the management and organisation of the Association and may exercise all such powers of the Association as are not by the Companies Act, 1929, or by these Articles required to be exercised by the Association in General Meeting subject nevertheless to any regulation of these Articles, to the provisions of the said Act, and to such regulations being not inconsistent with the aforesaid regulations or provisions, as may be prescribed by the Association in General Meeting ; but no regulation made by the Association in General Meeting shall invalidate any prior act of the Council, which would have been valid if that regulation had not been made.

18. The Council may appoint, in consultation with the appropriate groups of Universities, special Committees to study and report on questions of interest to the Universities in more than one region of the Empire and shall provide the necessary secretarial assistance for such Committees, but if such assistance involves exceptional expenditure, they may make it a condition of providing such assistance that a special subvention be made by the Universities concerned.

19. The Council shall study and report on, either by means of special Committees or otherwise as may be appropriate in each case, any questions referred to them by any Conference or Congress of Universities,

but if exceptional expenditure is involved they may make it a condition of undertaking the inquiry that a special subvention be made by the Universities concerned.

20. The Council may elect a Chairman of their meetings and determine the period for which he is to hold office, but if no such Chairman is elected, or if he should not be present at the commencement of any meeting of the Council, the members of the Council shall select a Chairman from those present for that meeting.

21. The Chairman of the Council may at any time, and the Secretary upon the request of six Members of the Council shall, convene a meeting of the Council. In the case of a meeting convened at the request of six Members the notice of meeting shall state the character of the business to be discussed, and only business of which notice shall have been so given shall be discussed at that meeting. Each Member of the Council shall name an address in the United Kingdom at which all notices shall be served upon him, and all notices served at such address shall be deemed to be well served. Questions arising at any meeting of the Council shall be decided by a majority of Members present and voting at such meeting. In the event of the votes being equally divided the Chairman shall have a second or casting vote.

22. The quorum for a meeting of the Council shall be five.

23. A meeting of the Council for the time being at which a quorum is present shall be competent to exercise all or any of the authorities, powers and discretions by or under the Articles of Association for the time being vested in or exercisable by the Council generally.

24. The Council may delegate such of its powers as it considers desirable to any Committee consisting of Members of the Council.

25. The meetings and proceedings of any such Committee shall be governed by the provisions herein contained for regulating the meetings and proceedings of the Council, so far as the same are applicable thereto.

26. The Council may from time to time appoint a Secretary of the Association and any other officers or servants who may be required for the performance of the business of the Association or of the Council and may from time to time appoint a temporary substitute for the Secretary who, in the absence of the Secretary, shall be deemed to be the Secretary.

27. All acts done by any meeting of the Council or by any person acting as a Member of the Council shall notwithstanding that it shall be afterwards discovered that there was some defect in the appointment of the Council, or persons acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a Member of the Council.

28. Without prejudice to the generality of the powers conferred upon the Council by Article 17 the Council may from time to time frame regulations (a) generally to give effect to the provisions of the Memorandum of Association and of these Articles and (b) particularly for the following purposes:—

- (1) for admitting Universities which may hereafter become corporations;
- (2) for admitting as Associate members Corporations which are Universities in mandated territories and other institutions

being University Colleges or Colleges of Universities within the Empire ;

- (3) for assigning privileges of membership to (a) Associate members and (b) other classes of members ;
- (4) for prescribing a form to be signed by members prior to admission as members ;
- (5) for prescribing the manner in which the groups of Universities referred to in Article 12 shall appoint representatives ;
- (6) for managing the business and defining the duties of the Association ;
- (7) for delegating to Committees of the Council such of its powers as are not inconsistent with the provisions of these Articles ;
- (8) for fixing the manner of the appointment of the special Committees referred to in Articles 18 and 19 ;
- (9) for arranging for the provision of secretarial assistance to such Committees ; and for assessing any exceptional expenditure involved and distributing it amongst Universities concerned ;
- (10) for determining the period for which the Chairman of the Council is to hold office ;
- (11) for defining the manner in which the minutes of business transacted at meetings of the Association are to be recorded ;
- (12) for providing for the custody of the seal and for determining the officer of the Association other than the Secretary who may countersign instruments to which the seal is attached ;
- (13) for prescribing the form in which instruments appointing proxies shall be framed ;
- (14) for prescribing the books of account which have to be maintained in accordance with the provisions of Article 60 ;
- (15) for prescribing the place at which such books of account shall be kept.

Provided always that no regulation made by the Council shall have any validity or effect if it amounts to or involves such an alteration of or addition to these Articles as could only lawfully be made by Special Resolution.

MINUTES

29. The Council shall cause minutes to be duly entered in books provided for the purpose of all business transacted at General and Extraordinary Meetings and at meetings of the Council and Committees thereof.

30. Any such minutes of any meeting of the Council or of Committees thereof, or of the Association, if purporting to be signed by the Chairman of such meeting, or by the Chairman of the next succeeding meeting, shall be conclusive evidence of the matters stated in such minutes.

31. The Council shall submit to the Annual General Meeting of the Association a report of its work and activities during the preceding year.

SEAL

32. The Council shall provide for the safe custody of the seal, and

the seal shall never be used except by the authority of the Council previously given, and in the presence of a Member of the Council, who shall sign every instrument to which the seal is affixed, and every such instrument shall be countersigned by the Secretary or some other person appointed by the Council.

GENERAL MEETINGS

33. A General Meeting of the Association shall be held once at least in every calendar year in London or such other University town and at such time as may be determined by the Council provided that a General Meeting shall be held within not more than fifteen months after the holding of the last General Meeting.

34. The above-mentioned General Meetings shall be called Ordinary Meetings, all other General Meetings shall be called Extraordinary Meetings.

35. An Extraordinary Meeting of the Association shall be held during the progress of each Quinquennial Congress of Universities of the Empire or within three days of the commencement or termination of that Congress.

36. Notwithstanding any provisions to the contrary in these Articles the Chairman shall have power at any Extraordinary Meeting summoned under the provisions of Article 35 to place on the agenda matters which have been the subject of a resolution passed by the delegates at the Quinquennial Congress during which the Extraordinary Meeting is being held.

37. The Council may whenever it thinks fit and it shall upon a requisition made in writing and signed by Members entitled to vote representing not less than one-tenth of the total voting rights of all the Members having at the date of the requisition a right to vote at General Meetings of the Association convene an Extraordinary Meeting. The Secretary shall at any time when required by the Chairman of the Council summon an Extraordinary Meeting.

38. Any requisition made by the Members of the Association entitled to vote as aforesaid shall express the object of the meeting proposed to be called and shall be left at the registered office of the Association.

39. Upon the receipt of such requisition the Council shall forthwith proceed to convene an Extraordinary Meeting and if they neglect to do so for twenty-one days from the time of the requisition being so left the requisitionists or any of them representing more than one half of the total voting rights of all of them may themselves convene the meeting in the same manner as nearly as possible as that in which meetings are to be convened by the Council.

40. The business of an Ordinary Meeting shall be :—

- (a) To receive and consider the accounts, the balance sheet and the reports of the Council and the Auditors ;
- (b) To appoint an Auditor or Auditors and fix his or their remuneration.
- (c) To appoint the Members of Council in accordance with the provisions of Article 13.

All other business transacted at an Ordinary Meeting and all business transacted at an Extraordinary Meeting shall be deemed special. If any Member has any proposal or any matter which he wishes to make or bring before an Ordinary Meeting he shall give fourteen days' written notice thereof to the Secretary.

41. Subject to the provisions of Section 117 (2) of the Companies Act, 1929, relating to Special Resolutions, twenty-eight days' notice at the least (or in the case of a meeting convened pursuant to a requisition of Members fourteen days' notice at the least) exclusive of the day of giving the notice but inclusive of the day of the meeting, specifying the place, the day and hour of meeting and (in case of special business) the general nature of such business, shall be given by notice to the Members in manner hereinafter stated with reference to the giving of notices, but the accidental omission to give such notice to or the non-receipt of such notice by any Member shall not invalidate the proceedings of any meeting. It shall not be necessary to give notice of a meeting to a representative of a Member who has no registered address in the United Kingdom.

42. Except as otherwise provided by these presents no business shall be transacted at any General Meeting unless a quorum of Members entitled to vote is present at the time when the meeting proceeds to business.

43. A quorum shall consist of ten Ordinary Members.

44. If within half-an-hour from the time appointed for a meeting ten Ordinary Members entitled to vote are not present the meeting if convened upon a requisition of Members shall be dissolved but in any other case it shall stand adjourned to a place to be fixed by the Chairman and to a date to be fixed by the Chairman not earlier than two weeks and not later than one month after the date of the original meeting, and if at such adjourned meeting a quorum is not present but two or more Ordinary Members entitled to vote are present the Members present entitled to vote shall be a quorum and may transact the business for which the original meeting was called.

45. At any adjourned General Meeting the Ordinary Members present entitled to vote being two or more in number shall have the power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place had a sufficient number of Members entitled to vote been present at such meeting. Notice of the time and place fixed by the Chairman for an adjourned meeting shall be given to all Members entitled to receive notices of meetings.

46. The Chairman of the Council shall be the Chairman of every General Meeting, but if within fifteen minutes from the time appointed for holding the meeting he is not present the Members present at the meeting and entitled to vote shall choose a Member entitled to vote to act as Chairman in his place.

47. The Chairman may upon the resolution of the meeting adjourn any meeting from time to time and from place to place but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

48. No poll shall be demanded on the appointment of a Chairman or on a question of adjournment.

49. At any General Meeting unless a poll is demanded by at least two Members entitled to vote a declaration by the Chairman that a resolution has been carried or has been carried unanimously or by a particular majority or lost or not carried by a particular majority and an entry to that effect in the book of proceedings of the Association shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such resolution.

50. If a poll is demanded by two or more Members entitled to vote it shall be taken in such manner as the Chairman directs and he shall have power to take the poll at once at the meeting or to adjourn the meeting for a reasonable time not exceeding fourteen days for the purpose of taking such poll and the result of such poll shall be deemed to be the resolution of the Association in General Meeting. In case of an equality of votes at any General Meeting the Chairman shall be entitled to a second vote or casting vote.

51. Minutes of all resolutions and proceedings at General Meetings signed by any person purporting to be the Chairman of the Meeting at which such Minutes were signed as correctly recorded shall be conclusive evidence of the facts therein stated.

52. Nothing in these Articles shall preclude the Council from inviting any member of the teaching or administrative staff of a corporation or institution, which is an Ordinary Member or an Associate Member, to attend a General or Extraordinary Meeting of the Association, or any meeting of the Council or Committees thereof, provided that any person so attending any meeting shall not be entitled to vote at such meeting or to participate in any discussion on any subject other than that for the discussion of which he has been invited to attend.

VOTES AT GENERAL MEETINGS

53. Every Member entitled to vote represented directly or by proxy shall have one vote and no more at a General Meeting except the Chairman, who shall, in case of an equality of votes, have a second or casting vote.

54. Votes may be given either personally by the representative of a Member or by proxy given by such representative.

55. The instrument appointing a proxy shall be in writing under the hand of the appointer and may be in the following form :—

I _____ of _____ in the County _____
being the duly authorised representative of _____
a Member of the Universities Bureau of the
British Empire hereby appoint _____ as my proxy
to vote for me and on my behalf at the (Ordinary or Extraordinary or
adjourned as the case may be) General Meeting of the Association to
be held on the _____ day of _____ and at any
adjournment thereof.

SIGNED this _____ day of _____
Or in such other form as the Council shall approve.

56. Only representatives of Members entitled to vote shall be appointed proxies.

57. The instrument appointing a proxy shall be deposited at the registered office of the Association or delivered to the Secretary not less than forty-eight hours before the time appointed for holding the meeting at which the person named in such instrument proposes to vote.

58. No objection shall be made to the validity of any vote except at the meeting or poll at which such vote shall be tendered and every vote whether given personally or by proxy not disallowed at such meeting or poll shall be deemed valid for all purposes of such meeting or poll whatsoever.

59. The Chairman of any meeting shall be the sole and absolute judge of the validity of every vote tendered at such meeting or poll and may allow or disallow the votes tendered according as he shall be of opinion that they are or are not valid.

ACCOUNTS

60. The Council shall cause proper books of account to be kept with respect to :—

- (a) all sums of money received and expended by the Association and the matters in respect of which the receipts and expenditure take place ;
- (b) all sales and purchases of goods by the Association ;
- (c) the assets and liabilities of the Association.

61. The books of account shall be kept at such place as the Council may from time to time appoint, and subject to any reasonable restrictions as to the time and manner of inspecting them that may be imposed by the Association in General Meeting, the books of account shall be open to the inspection of the Members at all times during the usual business hours.

62. The Council shall from time to time, in accordance with Section 123 of the Act, cause to be prepared and to be laid before the Association in General Meeting such income and expenditure accounts, balance sheets and reports as are referred to in that section.

63. A copy of every balance sheet (including every document required by law to be annexed thereto) which is to be laid before the Association in General Meeting together with a copy of the auditor's report shall not less than seven days before the date of the meeting be sent to all persons entitled to receive notices of General Meetings of the Association.

AUDIT

64. Auditors shall be appointed and their duties regulated in accordance with Sections 132, 133 and 134 of the Companies Act, 1929.

NOTICES

65. A notice may be given by the Association to any Member either personally to the representative of such Member or by sending it by post to such representative to his address in the United Kingdom. Every representative of a Member shall furnish to the Association an address in the United Kingdom at which notices may be served.

66. Where a notice is sent by post, service of the notice shall be deemed to be effected by properly addressing, prepaying and posting a letter containing the notice, and, unless the contrary is proved, to have been effected on the day succeeding that on which it was posted.

UNIVERSITIES BUREAU OF THE BRITISH EMPIRE

REPORT OF THE EXECUTIVE COUNCIL, TOGETHER WITH THE ACCOUNTS OF THE BUREAU FOR THE YEAR 1ST AUGUST 1936 TO 31ST JULY 1937

I. MEMBERSHIP OF THE BUREAU

A list of the Ordinary, Associate and Additional Members of the Universities Bureau of the British Empire, with the names of their representatives, is given at the beginning of this Report.* The Ordinary Members now number forty-six as compared with forty-seven last year. The number of Associate Members remains the same. The number of Additional Members has increased from one to four.

2. ALTERATION OF ARTICLES OF ASSOCIATION

At an Extraordinary General Meeting of the Universities Bureau of the British Empire, held at Cambridge on 14th July 1936, a Special Resolution was passed, making the following amendments in the Articles of Association :—

Schedule A : Delete Rangoon, and substitute a full-stop for the comma after Patna in the list of Universities of India.

Add at the end of the Schedule :—

BURMA : The University of Rangoon.

This Resolution was given effect to on 1st April 1937, when the separation of Burma from India became effective.

3. THE COMMITTEE OF VICE-CHANCELLORS AND PRINCIPALS

The Committee of Vice-Chancellors and Principals, under the Chairmanship of Dr. T. Loveday, continued to employ the Bureau as its Secretariat. Mr. H. L. Eason succeeded the late Sir Edwin Deller as Principal of the University of London. Sir Robert H. Pickard succeeded Mr. H. L. Eason as Vice-Chancellor of the University of London. Sir Hector Hetherington succeeded the late Sir Robert S. Rait as Vice-Chancellor and Principal of the University of Glasgow. The late Professor J. L. Stocks succeeded Sir Hector Hetherington as

* See p. xxv.

Vice-Chancellor of the University of Liverpool. Dr. D. J. Coffey succeeded Dr. P. J. Merriman as Vice-Chancellor of the National University of Ireland. Dr. W. E. Thrift succeeded Dr. E. J. Gwynn as Provost of Trinity College, Dublin. Mr. H. A. S. Wortley represented the three University Colleges.

The Committee of Vice-Chancellors and Principals regret to record the deaths of Sir Edwin Deller, Sir Henry Hadow, and Professor J. L. Stocks.

The quarterly meetings were held on 26th September 1936, 19th December 1936, 13th March 1937, and 10th July 1937.

Amongst subjects discussed during the year by the Committee were Regulations of the General Medical Council for the First M.B. Examination; Period of Study for the Ph.D. Degree in Overseas Universities; International University Sanatorium at Leysin; Jane Eliza Proctor Visiting Fellowships; Memorandum on the Suitability of South African Students for Admission to Universities in this Country; Exchanges of Students; International Conference in Paris on Higher Education; The Universities and Physical Instruction; Age of Selection for Teachers' Training Grants; Universities China Committee: Professorships and Readerships in Chinese; Admission of Chinese Students to Universities in this Country; Celebration of the Centenary of the University of Athens; Celebration of the Bicentenary of the University of Göttingen; Panel of Advisers in London to give Information regarding Facilities for Post-graduate Work; Proposed Investigation into the Higher School Certificate Examination; Draft Unemployment Insurance Regulations; Gift of Books to British Universities by the French Government.

In addition, some of the subjects referred to in last year's Report were further considered.

Professor F. Clarke was nominated in place of Sir Percy Nunn and Professor G. S. Veitch in place of Sir Hector Hetherington on the Central Advisory Committee for the Certification of Teachers.

Professor A. D. McNair, Vice-Chancellor Elect of the University of Liverpool, was nominated in place of the late Professor J. L. Stocks, and Sir Hector Hetherington and Dr. J. S. B. Stopford were re-nominated, as representatives of the Committee on the Boards of Architectural Education of the Architects' Registration Council and the Royal Institute of British Architects for the year 1937-38.

Dr. T. Loveday was reappointed to serve as a member of the Executive Committee of the British Institute in Paris. Dr. T. Franklin Sibly was appointed in place of the late Sir Edwin Deller. At the meeting on 10th July, Mr. H. L. Eason, Principal of the University of London, was nominated in Dr. Sibly's place.

Mr. Will Spens was appointed in succession to the late Sir Edwin Deller as the representative of the Committee on the Army Educational Advisory Board.

The Committee approved the grant of eight Free Passages to Australia and New Zealand.

At its meeting on 10th July 1937, the Committee re-elected Dr. T. Loveday as its Chairman for the ensuing year.

On 26th September the Executive Council, appointed at the Annual General Meeting, met and re-elected Mr. Will Spens as Chairman, and the late Sir Edwin Deller as Honorary Treasurer for the year 1936-37. At its meeting on 20th February the Executive Council appointed Dr. T. Franklin Sibly a member of the Council on the resignation of Dr. J. S. B. Stopford, and Honorary Treasurer in place of the late Sir Edwin Deller. The Executive Council met for ordinary business on 21st November 1936, 20th February 1937, and 22nd May 1937.

The Executive Council regret to record the deaths of Sir Edwin Deller, who was for many years Honorary Treasurer of the Bureau, and

REPORT OF THE EXECUTIVE COUNCIL xxxiii

Dr. D. F. Fraser-Harris, representative of the University of Dalhousie on the Bureau.

Amongst other business considered by the Executive Council during the year was the discussion of the subjects dealt with by the Congress of the Universities of the Empire at Cambridge in July 1936.

With reference to "The Provision in Great Britain for Post-graduate Studies for British and Overseas Students," the Executive Council have appointed a Committee to draw up the panel of advisers, mentioned in connexion with inquiries addressed to the Bureau (*vide* page xxxv).

As far as British Universities are concerned, the Executive Council understand that the Committee of Vice-Chancellors and Principals is dealing with the question of "The Functions of Universities in the Training of Teachers."

As regards "Careers for University Students," the increased employment of Graduates in Local Government Services has been, and is being, further examined by the Committee of Vice-Chancellors and Principals.

The Council felt that no action on their part was possible in respect of the two subjects "General as an Alternative to Specialised Honours Courses," and "University Examination Methods"; but as regards "Physical Education in the Universities," the Executive Council have under consideration what further action, if any, can usefully be taken.

5. THE STAFF

The staff remains the same as in 1936.

6. SIXTH QUINQUENNIAL CONGRESS OF THE UNIVERSITIES OF THE BRITISH EMPIRE

The Executive Council accepted the invitation of the University of Manchester to hold the Sixth Quinquennial Congress of the Universities of the Empire at Manchester in July 1941.

7. GENERAL ADMINISTRATION

The Bureau continued to deal with post-graduate scholarships and other awards.

(1) *Carnegie Corporation Grant.* As stated in the Report for 1935-1936, no further awards are to be made under the scheme for the distribution of the Carnegie Corporation Grant. The Bureau, however, holds a small reserve which the Executive Council propose to use as occasion arises.

(2) *French Bourses.* Three Bourses, to the value of 7200 francs per annum with remission of fees, were offered by the French Government to graduates of British Universities for 1937-38. A Selection Committee considered nine applications and recommended that the awards should be made to: Miss Kathleen Cameron, B.A., Oxford, for a study of a fifteenth-century verse translation in French of Boethius; L. C. Sykes, B.A., Sheffield, for the completion of a thesis on "Madame Cottin et le roman sentimental" to be presented for the Degree of Doctor of Philosophy in the University of Oxford; G. Laughton, B.A., Sheffield, for a comparative study of French and Spanish Literature in

the fifteenth and sixteenth centuries, leading to the degree of Ph.D. C. M. Marks, B.A., Cambridge, who proposes to continue the study of applied design, was placed *proxime accessit*.

For the scholarships of £70 each per annum, offered annually by the Universities of Oxford and London, Monsieur Xavier Le Bègue de Germigny and Monsieur Max Lacroix were selected for 1937-38. Monsieur Lacroix will study Economics. The scholarship of £80, offered jointly by the Universities of Birmingham, Leeds, Manchester, and Sheffield, was awarded to Monsieur P. E. H. P. Gariel, who will study English Literature at the University of Sheffield. The scholarship of £80 offered by Colleges of the University of Cambridge, was awarded to Monsieur L. D. A. H. Fauvel, who will study Economics.

(3) *Thomas Carlyle Stipendium*. The Selection Committee appointed to consider applications for the Stipendium granted by the Deutsche Akademie in Munich, to the value of RM. 1200, awarded the grant to G. H. Evans, B.A., London.

(4) *Cecil Peace Prize*. This prize of the value of £100 was divided between Mr. G. A. Forrest, of the University of Oxford, and Mr. J. H. Parry, of the University of Cambridge, for essays on "The Causes of the Failure of the Disarmament Conference."

During the year the Bureau dealt with the following appointments : Professor of English Literature and Institutions at the University of Athens ; Vice-Chancellor of the University of Hong-Kong and Lecturer in Commerce at the University of Hong-Kong ; Professor of Philosophy and Lecturer in the Department of Education and Philosophy, and Professor of Education, at Canterbury University College, Christchurch, N.Z. ; Professor of Anatomy at the University of Adelaide ; Lecturers in Engineering and Geography at University College, Rangoon ; Professor of English Language and Literature at Victoria University College, Wellington, N.Z. ; Professor of Economics at Raffles College, Singapore ; Professor of History, Senior Lecturer in Economics, Assistant Director of Metallurgical Research, and Research Engineer at the University of Melbourne ; Supervisor of Turkish Students sent to this country by the Sümer Bank.

The Bureau also assisted in recruiting candidates for vacant appointments at other Universities and arranged for an exchange of Lecturers in the Departments of Engineering of the Universities of Melbourne and Sheffield.

As in previous years, the Executive Council desire to express their best thanks to the members of Selection Committees, who have readily given their services to the Bureau.

The Bureau assisted in arrangements for the exchange of Belgian and British Professors, and also for the visits of Japanese Professors to Universities in this country.

At the Extraordinary General Meeting of the Universities Bureau of the British Empire held at Cambridge on 14th July 1936, the following resolution was passed :—

" That this Extraordinary General Meeting of the members of the Universities Bureau of the British Empire recommend that the Executive Council should under Article 18 of the Articles of

REPORT OF THE EXECUTIVE COUNCIL xxxv

Association, set up a committee to inquire into the possibility of effecting the exchange of members of University Teaching Staffs."

At its meeting on 21st November 1936, the Executive Council appointed a Committee consisting of the late Sir Edwin Deller, Dr. William Cullen and Dr. A. J. Harrop. It was further agreed that the Committee should have power to consult or to co-opt any others at their discretion, and Sir Walter Moberly was subsequently appointed as a member of the Committee in place of the late Sir Edwin Deller. This Committee has agreed that no useful purpose can be served by meeting until later in the year, when information may be available which may assist it to make practical recommendations.

At the same meeting, a second resolution was passed as follows:—

"That this Extraordinary General Meeting recommend to the Executive Council of the Universities Bureau of the British Empire that the Council arrange for inquiries to be made from overseas Universities regarding the extent to which degrees of British Universities are accepted as qualifications for teaching posts in the Dominions, and how far it is necessary to supplement them by an Education Diploma taken either in England or in the Dominion concerned."

As a result the Bureau instituted inquiries. A summary of the replies received was circulated to Universities.

One of the results of the publication of the Handbook for Students from Overseas has been a very great increase during the year in the number of inquiries, both in person and by letter, regarding University institutions—their admission requirements, their courses of study, and their facilities for research. The Bureau has been in a position to deal with these by making use of its collection of Calendars, Faculty Prospectuses, pamphlets relating to Higher Degrees, etc. Where the inquiries relate to specialist studies, the practice of the Bureau has been, where necessary, to consult experts, who have kindly given freely of their advice. The Executive Council desire to thank all those who have rendered this service to the Bureau.

On the suggestion of one of the representatives of Dominion Universities, the Executive Council propose to consider the possibility of drawing up a panel of advisers, who would be willing to assist students from overseas in selecting the courses of study best directed to the ends which they desire to achieve.

Information regarding students from overseas continues to be collected. The details supplied are collated, and a summary thereof is included annually in Appendix XXV* of the Universities Yearbook. The existence of this information has, on numerous occasions, enabled the Bureau to answer statistical inquiries, without having to make separate references to Universities and University Colleges.

In last year's Report it was noted that the Executive Council had approved the introduction of a scheme whereby vacant appointments in Universities in Great Britain and Ireland should be communicated

* Now Appendix VII.

to members of the staffs of Australian, New Zealand, and Indian Universities who had intimated that they desired to be considered for such vacancies. The Executive Council subsequently approved the extension of this scheme to other parts of the Empire. They, however, regret that, so far, comparatively few have indicated their desire to take advantage of this scheme. The Bureau has been able on its part to make known a number of vacancies to Conferences as well as to individuals.

Fifteen certificates of equivalence for the Baccalauréat and six certificates for admission to the University of Geneva were issued by the Bureau.

During the year the Secretary visited the Universities of Manchester (including the College of Technology), Sheffield, Edinburgh (including the Heriot-Watt College), the Queen's University, Belfast (including the College of Technology), the University Colleges of Aberystwyth, Bangor, Cardiff and Swansea, St. David's College, Lampeter, and the University College of Nottingham. He also attended meetings of representatives of Empire Societies.

The Secretary, who is an original member of the Universities' China Committee in London, was appointed a member of the Executive Council of that body with effect from 6th June 1936, and attended a conference of the Committee held at Oxford on the 9th and 10th of January 1937.

The Secretary attended a meeting of the Astor Scholarship Fund Sub-Committee on 17th September 1936, as the representative of the Principal of the University College of the South-West of England.

The Secretary was appointed to represent the Executive Council on the Advisory Committee of the British Council on British Teachers Abroad.

The Secretary attended meetings in Paris of an Experts' Commission convened by the International Student Service to inquire into the question of overcrowding in Universities and the unemployment of graduates.

The Secretary represented the Bureau at the opening ceremony of the Collège Franco-Britannique in Paris.

8. UNIVERSITIES YEARBOOK

The Universities Yearbook for 1937 was published in March. The cost of production was about £30 in excess of the 1936 edition, mainly due to extensive revisional work and additions to the information supplied. The receipts from advertisements were £76 as compared with £78 in the previous year.

During the year the Executive Council decided that the concession of a reduction in the price from 15s. to 10s. to member University Institutions should be extended to members of the staffs of these institutions.

9. HANDBOOK FOR STUDENTS FROM OVERSEAS

The Handbook for Students from Overseas was widely circulated, not only by the Universities Bureau, but also by the British Council, and is reported to have been extensively used by inquirers from over-

seas. As was reported last year, copies of this handbook were sold to the British Council with a view to their being bound together with a pamphlet relating to institutions other than Universities. This double publication was issued in one volume—an arrangement which proved to be inconvenient for purposes of ready reference. In the new edition, issued as a joint publication by the two bodies, the information, particularly that relating to subjects of study, has now been amalgamated to form an outline of the facilities for higher education provided by Universities and other institutions in Great Britain and Ireland.

10. CONFERENCES

A meeting of the Australian Vice-Chancellors' Committee was held in March 1936. The following were amongst the topics discussed: Public Service Appointments; Carnegie Corporation Grants for Institute of Education Fellowships for Research and for Travelling Allowances; Provincial University Colleges. A Universities' Conference was held at Adelaide in February 1937. Public addresses were delivered by Dr. R. E. Priestley on "Problems of the English-Speaking University World"; Professor D. B. Copland on "Harvard University and Public Affairs"; Associate Professor A. C. V. Melbourne on "The Universities of China and Japan"; and Sir James Barrett on "The University of Wisconsin." The following subjects were discussed: The Universities and Life; Residential Colleges; Appointments Boards; Affiliated Colleges; Resolution of Headmasters' Conference on School Leaving Certificate; Federal Grant to Universities for Research. In addition, Statements were made on the subject of "Student Advisers" and Papers were read on the following subjects: New Zealand University Problems; Volunteer Work by Students; Adult Education in Western Australia.

A meeting of the National Conference of Canadian Universities was held in May 1937.

No report has been received of meetings of the Vice-Chancellors' Committee of the South African Universities.

The Inter-University Board, India, held its twelfth annual general meeting at Nagpur on the 15th and 16th of February 1937. Fifteen Universities and the Public Service Commission were represented at the Conference. In addition to formal business, the following subjects were discussed: The Institution of a Degree or Diploma in Pharmaceutical Chemistry; Reorganisation of University Studies in the light of the Sapru Committee Report; Recognition of Degrees of Indian Universities by other Universities; Provident Fund Accounts for University Employees; Provision of Special Lectures; Arrangements for the Issue of Migration Certificates; Proposed Quinquennial Athletic Meeting on All-India Basis; Uniformity in Courses of Study for the LL.B. Degree; Uniformity in the Pre-medical Courses of Study in Chemistry, Physics and Biology; Supply of Central and Provincial Government Publications to University Libraries; Uniformity in Matriculation and Admission Conditions; Inclusion of Aeronautical Instruction in the Curriculum of Indian Universities; National Centre of Educational Information in India.

The Inter-University Board passed a resolution to the effect that it was desirable that Universities in India should join the Universities Bureau of the British Empire.

Pandit Amaranath Jha, M.A., of the University of Allahabad, was Chairman of the Inter-University Board during the year 1936-37. Mr. C. R. Reddy, M.A., M.L.C., Vice-Chancellor of Andhra University, was elected Chairman for the year 1937-38. Professor N. K. Sidhanta, M.A., of the University of Lucknow, was appointed Secretary of the Board for three years from 1st April 1937. The invitation of the University of Allahabad to hold the next meeting of the Inter-University Board at Allahabad was accepted.

NOTE ON THE FINANCIAL STATEMENTS

INTRODUCTORY

The form of presentation of the financial statements continues to follow the lines adopted from the year 1933-34 onwards. The Income Account shows the amount received from the publishers for sales of the Universities Yearbook, 1936.

In the Comparative Statements for the years 1933-34 to 1936-37 all entries relating to non-recurring items have been omitted from the Income and Expenditure Accounts.

I. INCOME AND EXPENDITURE ACCOUNT

The excess of Income over Expenditure was £48 : 16 : 4. This has been added to the amount brought forward from last year (£443 : 3 : 7), leaving a balance of £491 : 19 : 11 carried to the Balance Sheet.

Income

The total income of the year was £4390 as compared with £4198 last year, an increase mainly due to the receipt of £228 for the Hand-book. Subscriptions show an increase of £10 over last year. Interest on investments has decreased by £62, owing to the sale of stock to meet Congress charges.

Expenditure

The total expenditure for the year is £4341 as compared with £4171 in 1935-36. The item Salaries is higher than last year as the staff has been at full strength throughout the year. Superannuation

payments have increased because the Secretary was admitted to the Scheme with effect from August 1935. Printing and Stationery shows a decrease and Postages and Telegrams an increase, but both would have been larger had not deductions been made from these items in respect of the recoveries from overseas Universities using the Bureau for the selection of candidates for appointments to vacancies. The item Miscellaneous shows an increase of £75 over the corresponding figure for 1935-36, an increase explained by the heavier charges for entertainment and by expenses incurred by the Secretary in the course of his tours of Universities and his visit to Paris. The other items under Administration and those under Maintenance require no comment. Small variations from year to year are inevitable. The cost of producing the Congress Report, 1936, was less than in 1931.

2. BALANCE SHEET

The main difference in the Balance Sheet as compared with last year is the transfer to the Bureau of the £1390 Southern Railway 4 per cent. Debenture Stock held on behalf of the Carnegie Corporation Fund at a book value of £1148 : 8 : 9. This was taken over at the price ruling on the day of the transfer, *i.e.* £1537 : 13 : 9.

After making grants of £1130 and repaying to the Bureau the amount of £185 : 7 : 4 outstanding at the end of last year, there remains a sum of £222 : 6 : 5, shown in the Balance Sheet, which the Executive Council are holding in reserve for expenditure on such purposes as they may deem appropriate.

The item Sundry Debtors includes £164 due from Universities overseas for charges incurred by the Bureau in making appointments and £39 : 10s. Income Tax refund.

3. CARNEGIE CORPORATION GRANT CAPITAL ACCOUNT

This account has now been closed as the capital sum available for grants has been exhausted.

UNIVERSITIES OF GREAT BRITAIN AND IRELAND

HISTORICAL AND GENERAL SUMMARY

UNIVERSITIES were the outcome of the great intellectual revival which affected Europe in the twelfth and thirteenth centuries. Shortly after the Schools of Bologna and Paris had developed into what we now term Universities, similar seats of learning arose at Oxford and Cambridge, the nucleus of organization being, as at Paris, a corporation of masters—not, as at Bologna, a corporation of students—and many of the students being boys of fourteen or even younger. Instruction was in the form of lectures by licensed teachers. To the Seven Liberal Arts of the mediæval schools (the “trivium”—grammar, logic and rhetoric, and the “quadrivium”—arithmetic, geometry, music and astronomy) the Universities added the three higher “Faculties” of theology, law and medicine in order to provide complete preparation for the learned professions. The Scottish Universities, except Edinburgh, were founded in the fifteenth century, but the country had not been greatly influenced by the Revival of Learning, and although the earliest Reformers were in touch with continental scholars, and some attempts were made to introduce the New Learning into the schools and universities, the mediæval scholastic tradition remained paramount in St. Andrews and Glasgow until the seventeenth century. Aberdeen was more receptive to *renaissance* influences. The University of Edinburgh originated in a College established by the Town Council in 1583. Trinity College, Dublin, was founded by Queen Elizabeth in 1591 on the lines of the Oxford and Cambridge colleges.

After the Reformation a demand arose in England for education of a more secular type, but the Acts of Uniformity (1559 and 1662) and similar measures stereotyped the schools and universities as clerical and theological institutions, and by the latter half of the eighteenth century the teaching in the Universities had become mainly traditional and formal and they were rapidly losing their hold on the national life.

Readjustment to modern conditions took place in the course of the nineteenth century. Already in 1779 Protestant Dissenters, and in 1791 Roman Catholics, had been emancipated from the ban against their following the teaching profession. The few Denominational

tests retained by the older Universities were abolished in 1871. Oxford in 1800 established a system of written examinations for the bachelorship, and Cambridge, in 1824, the classical Tripos. Soon afterwards both Universities instituted non-classical Honour examinations. The University Commissioners of 1850 and 1877 made provision at Oxford and Cambridge for the endowment of the teaching of modern subjects and the throwing open of scholarships to students of such subjects removed practically all obligations to take orders in the Church of England and did much to make the Universities accessible to all classes of the community.

Pursuant to the recommendations made by the Royal Commission of 1919, important constitutional and other changes have been effected at Oxford and Cambridge by the Statutory Commissioners appointed in 1923. See the sections relating to these Universities.

Meanwhile the foundation in 1827 on a strictly undenominational basis of the "University of London," which obtained a charter in 1836 as University College, London, provided a teaching institution of University rank which was free from all restriction of tests and dared to include Chemistry and Engineering in its curriculum. The University of London received its charter at the same time and the University of Durham in 1837. In its original conception Durham followed closely the lines of Oxford. It was partly endowed out of the funds of the See and Chapter of Durham. The Colleges in which the other English Universities originated were founded as follows: Owens College, Manchester, 1851; Yorkshire College, Leeds, 1874; University College, Bristol, 1876; Firth College, Sheffield, 1879; Mason College, Birmingham, 1880; University College, Liverpool, 1881; the University Extension College, in conjunction with the Schools of Science and Art, Reading, in 1892. Created to minister to local needs and supported largely by local benefactions, they were naturally closely associated with local industries, and from the first laid stress upon the study of mathematical, scientific and modern subjects. Reading differs from the others in having been established in a town of comparatively small size (population less than 100,000), in the prominence given to work bearing on the agricultural and associated industries and in its policy of making residence in college or hostel the rule for its students. The Royal College of Science and the Royal School of Mines originated in a Technical School formed in 1851 in connexion with a Museum of Practical Geology. They, with the City and Guilds (Engineering) College, founded in 1881, became integral parts of the Imperial College of Science and Technology which was established in 1907 with the declared purpose of giving the highest specialized instruction and providing for research in the various branches of science, especially in its applications to industry.

A University of Wales was projected early in the fifteenth century, and the project was revived in Cromwell's time, but it did not materialize until 1893. The constituent colleges at Aberystwyth, Cardiff, Bangor, and Swansea were founded in 1872, 1883, 1884 and 1920 respectively. They are thoroughly indigenous to the Principality, much of the funds having been collected in very small sums from workpeople at the doors of churches and chapels. The Welsh National

School of Medicine at Cardiff was incorporated in the University in 1931.

The two modern Irish Universities both date from 1909. In 1850 a Royal Charter was granted to the recently established Queen's Colleges of Belfast, Cork, and Galway, constituting them a Federal University, which was absorbed in 1880 in the Royal University. University College, Dublin, representing the Catholic University established by the Irish Bishops in 1854, became with the Cork and Galway Colleges in 1909 constituents of the National University of Ireland, while Queen's College, Belfast, became the Queen's University of Belfast.

A characteristic of British Universities, as compared with those of the Continent of Europe, has from the earliest days been the provision of colleges or halls of residence, in which students live as members of a community, with the privileges of social intercourse and subject to the mutual influence which corporate life exerts.

Women were first admitted to Degrees by the University of London in 1878. Bedford College had already been founded in 1849; the three other colleges for women in connexion with the University of London were founded, Westfield in 1882, Holloway in 1886 and King's in 1902. The last was merged in King's College, London, in 1885. King's College of Household and Social Science was founded in 1908 as a department of King's College for Women, and became a separate "School" of London University in 1928. At Oxford, Lady Margaret Hall was opened in 1878, Somerville in 1879, St. Hugh's in 1886 and St. Hilda's in 1893. Of the Cambridge colleges, Girton originated at Hitchin in 1869 and was removed to the near neighbourhood of Cambridge in 1873. Newnham was founded in 1880. Cambridge admitted women informally to Tripos examinations in 1872 and to the titles of degrees in 1923; in 1926 women were declared eligible to university teaching posts and therefore to membership of boards of faculties. Oxford admitted them to examinations in 1884, to degrees and full membership in 1920 and to university teaching posts in 1927. Women have been admitted to the Universities of Scotland since 1892, Durham since 1896, Dublin since 1904 and to all the modern Universities from their foundation.

Unlike those of most other countries, the Universities of the United Kingdom have been, since their origin, independent of State control, although for many years they have been in receipt of State aid.

Up to the year 1913-14 the Board of Education presented to His Majesty the King in Council a Report supplying information in regard to University institutions in England and Wales which were in receipt of grants from the Board. This publication was discontinued during the war. In July, 1919, the Chancellor of the Exchequer appointed a Standing Committee "to enquire into the financial needs of University Education in the United Kingdom and to advise the Government as to the application of any grants that may be made by Parliament towards meeting them." The creation of this Committee furnished a suitable opportunity for the introduction of a uniform system for presenting the chief facts and figures relating to the Universities and Colleges of the whole country, and on its constitution as the University Grants

Committee (22A Queen Anne's Gate, S.W.1) in July 1919 an amount of £786,500 was made available for distribution to Universities and University Colleges in the year 1919-20. Since that date there have been periodic increases in the amount of the grant which "subject to the overriding necessities of national finance," now stands at £2,100,000 for the period ending July 31, 1941. A reserve of £150,000 was provided in 1936-37 for non-recurrent grants.

In the year 1935-36 grants were paid by the Board of Education to the University training departments under the Board's Regulations for the Training of Teachers, amounting to £309,035.

In the year 1935-36 Local Education Authorities provided £334,455 for aiding students at Universities (including members of Training Departments) and £72,960 for students in training colleges, and Local Authorities also made grants to Universities amounting to £492,187.

For information regarding scholarships, *see* p. 14.

The academic year is divided into three terms, which run from about October 1 to the middle of December; middle of January to end of March; middle of April to end of first week in July.

DEGREES CONFERRED BY THE UNIVERSITIES OF GREAT BRITAIN AND IRELAND

The older Universities have developed out of the Universities of the Middle Ages under the compulsion of internal forces, with very little influence from outside. The historical continuity of their evolution and their individual independence account for certain customs and usages in which they differ one from another and from Universities in other lands. Their titles of degrees afford an illustration of this. A University of the Middle Ages was a Guild of learned men. Teaching was the craft of the Guild, whose fellowship carried with it the right to teach. An admitted aspirant for fellowship was termed a bachelor. The members of the Guild recognized his apprenticeship after submitting him to certain tests or, as we should term them, examinations. After gaining some experience in teaching, and successfully maintaining a thesis in public disputation, the bachelor attained to his degree. Admitted into the Guild, with its *jus ubique docendi*, he was known indifferently as doctor, master or professor. Still following this ancient usage, the degree in Scotland is the mastership, M.A. In Oxford, Cambridge and Dublin, where the examination for the bachelorship grew to be the determining test, the mastership, which carries with it all the privileges of membership of the Guild or Senate, follows without further examination after an interval of two or three years, but in no case less than six years from matriculation. For convenience in standardizing the attainments of their alumni, modern Universities have divided the degree into stages—usually described as the "first" and the "higher" degrees—Bachelorship, Mastership and Doctorate. The conferment of a first degree now marks the satisfactory completion of a three or four years' University course.

At Oxford and Cambridge the Faculty of Arts is not subdivided. B.A. is the "first degree," whether the course leading to it be literary

or scientific. At Oxford the B.Litt. and B.Sc. are awarded for special study and research, like the M.Litt. and M.Sc. of Cambridge. At Cambridge there is no B.Sc. At St. Andrews the B.Phil. or the B.Litt. may be taken either conjointly with, or after, the M.A. In Trinity College, Dublin, a B.Sc. course, including no classical language, was introduced in 1926, but it is expected that most Science students will continue to take the B.A., which remains the primary degree, and must be obtained before proceeding to any other degree except Mus.B., Mus.D., B.Sc. and Ph.D.

At all other Universities a course in Arts leads to the B.A. (in Scotland, M.A.), in Science to the B.Sc. and similarly to other titles in other departments of knowledge.

Each of the Faculties of Theology, Law, Medicine and Music has its own bachelor's degree (*v. infra*).

The first degree may be obtained in most Faculties either as an ordinary degree or with Honours.

In addition, at all Universities Diplomas and Certificates are granted in a variety of subjects (*see* the several Universities).

The signatures of the titles of the Degrees conferred in the various Faculties are set forth below—the more usual signature being placed first. Fuller details will be found under the several Universities and in the Introductory Chapter relating to the Scottish Universities.

Faculty of Arts and Cognate Subjects

First Degrees

Bachelor of Arts. B.A. (all Universities except Scottish).

Master of Arts. M.A. (Scottish Universities only).

Administration. B.A. (Admin.) Manchester.

Architecture. B.A. (Arch.) London; B.A. (Hons. in Architecture) Manchester, Sheffield; B.Arch., Durham, Liverpool, Wales, N.U.I.

Commerce. B.Com., B.Comm. (Dublin, N.U.I.); B.Com.Sc. Belfast; B.A.Com. Bristol, Manchester.

Literature. B.Litt. St. Andrews. (With or after M.A.)

Philosophy. B.Phil. St. Andrews. (With or after M.A.)

Faculty of Science and Cognate Subjects

First Degrees

Bachelor of Science. B.Sc.

Agriculture. B.Sc. (Agr.) Bristol, London, Reading, Aberdeen, Edinburgh, Glasgow; B.Agr. Belfast; Agr.B. Dublin; B.Agr.Sc. N.U.I.

Applied Chemistry. B.Sc. (App. Chem.).

Applied Science. B.Sc. (App. Sc.) (as distinguished from the B.Sc. in Pure Science). *See also* p. 343.

Architecture. B.Sc. (Arch.) Glasgow. *See also* Arts Degrees.

Dairying. B.Sc. (Dairying) Reading, N.U.I.

Domestic Science. B.Sc. (Dom. Sc.) Bristol.

Economics. B.Sc. (Econ.) London.

Engineering. B.A. Cambridge, Oxford ; B.Sc., B.Sc.(Eng.), B.Eng. Liverpool, Sheffield ; B.Sc.Tech. Manchester ; B.A.I. Dublin ; B.E. N.U.I.

Estate Management. B.Sc. (Est. Man.) London (External students only).

Forestry. B.Sc. (For.) ; Agr. (Forest.) B. Dublin.

Horticulture. B.Sc. (Hort.) London, Reading.

Household and Social Science. B.Sc. (H. & S. S.) London (Internal students only).

Industrial Fermentation. B.Sc. Birmingham ; B.Sc.Tech. Manchester.

Metallurgy. B.Sc. ; B.Eng. Liverpool ; B.Sc.Tech. Manchester ; B.Met. Sheffield.

Mining Engineering. B.Sc. ; B.Eng. Sheffield ; B.Sc.Tech. Manchester, Sheffield.

Naval Architecture. B.Sc. ; B.Eng. Liverpool.

Oil Engineering and Refining. B.Sc. Birmingham, London.

Technology. B.Sc.Tech., Manchester, Sheffield ; Sc.B. (Tech.) Dublin ; B.Tech. Wales.

Textile Technology. B.Sc. (Textiles) Leeds ; B.Sc.Tech. Manchester ; B.Sc. (Text. Tech.) Belfast.

General Honours Degrees in Arts

Birmingham—A General Honours Degree is conferred in three allied or grouped subjects in the Faculty of Arts.

Leeds—Candidates for the Degree of B.A. with General Honours attend approved courses and pass the prescribed examinations in (a) three subjects studied for three years, of which one subject, selected from fifteen, shall be taken at General Honours standard, (b) one other subject studied for one year.

Liverpool has abolished the distinction between the Ordinary Degree and the Degree with Honours. The Degree of B.A. is now conferred either as a degree in General Studies or as a degree in Special Studies in one of the Schools of the Faculty. Honours may be awarded in both General and Special Studies.

Manchester—Composite Honours Schools have been instituted, the first being a combination of Greek and English.

Sheffield—Honours are awarded in the General B.A. Examination.

General Honours Degrees in Science

Bristol—An Honours Degree in General Science has been instituted with two main subjects and one subsidiary.

Durham—A General Honours Degree in Science has been instituted, courses being available at King's College, Newcastle-upon-Tyne.

Leeds—Candidates for the degree of B.Sc. with General Honours attend approved courses for at least 3 yrs. and pass examinations in two subjects at General Honours standard and in either (a) one other subject

at subsidiary (2 yr.) standard, or (b) two other subjects at introductory (1 yr.) standard.

London—Honours are awarded in the B.Sc. General Examination.

Manchester—An Honours Degree in General Science may be conferred in any one of the following *four* sections : (i.) Chemistry, Physics and Maths. ; (ii.) Botany, Zoology and Chemistry ; (iii.) Geology, Geography and Botany or Zoology ; (iv.) Maths. and Physics with Elem. Botany and Zoology.

Sheffield—Honours are awarded in the General B.Sc. Examination.

Higher Degrees in the Faculties of Arts, Science and Cognate Subjects

Bachelorships

B.Litt., B.Sc. Awarded at Oxford for special study and research. Students reading for the B.Sc. may change over in the middle of their course to the D.Phil. (*q.v.*), or *vice versa*.

B.Litt. Dublin. Obtained by Thesis. Candidates must have at least one year's standing as B.A.

B.Ed.; Ed.B. Scottish Universities. (Two years after a first degree.)

Masterships

M.A. At Cambridge a Bachelor of Arts may, without further examination, proceed to the M.A. at the close of the 6th yr. after the end of his first term ; at Oxford in the twenty-first term after matriculation ; at Dublin 3 yrs. after passing the B.A. examination. At Durham graduates in Honours—1st or 2nd class—of 3 yrs.' standing are admitted to the M.A. without examination ; other graduates must pass the M.A. examination. At Sheffield the M.A. may be conferred on a B.A. of the University of not less than 1 yr.'s standing who has presented a thesis approved by the Faculty concerned, passed an oral examination and, if required by Faculty, a written examination in matters relevant to the subject of the thesis ; and on graduates of other Universities subject to specified conditions. Other Universities exact a further period of study from their own graduates, followed by the presentation of a thesis, or an examination, or both, of 1 yr. at Birmingham, Leeds, Belfast and the N.U.I. ; of 1 yr. from graduates with Honours, and 2 yrs. from others, at Bristol, Manchester and Wales ; of 2 years from all graduates at Liverpool, London and Reading. Graduates of approved Universities can obtain the Mastership after 1 yr. of advanced study and research at Birmingham and the N.U.I. ; after 2 yrs. at Bristol, Leeds, Liverpool, London, Manchester, Reading and Wales (thesis required). At London a thesis is required from Internal students in all branches, except Mathematics and Geography, in which it is optional, and an examination. At Leeds, Liverpool and Manchester persons who have not graduated can obtain the M.A. degree after a course of advanced study and research extending, usually, over 3 years.

M.Sc. This degree is not conferred by Oxford or any of the Scottish Universities. At Cambridge the degree is conferred upon students

admitted to a course of research extending over not less than 2 yrs. and after submission of a dissertation. At other Universities it can be obtained by graduates of the University under conditions similar to those for the M.A. At Durham, by graduates, B.Sc., of 2 yrs.' standing after examination or thesis. At Leeds, by graduates, B.Sc., with Honours, of 1 yr.'s standing (other Bachelors of any Faculty of 2 yrs.' standing), after research (thesis required). At Liverpool, by graduates, B.Sc., with Honours, after 1 yr.'s higher study (thesis required). At London, by Internal students of 1 yr.'s or 2 yrs.', by External students of 2 yrs.' standing from B.Sc. with thesis (optional in Mathematics and Geography) and examination. At Manchester, by graduates, B.Sc., of 1 yr.'s standing after thesis and examination (at the discretion of the Faculty). At Sheffield, by graduates, B.Sc., of the University of not less than 1 yr.'s standing who have presented a thesis approved by the Faculty concerned, passed an oral examination and, if required by Faculty, a written examination in matters relevant to the subject of the thesis; and on graduates of other Universities subject to specified conditions. The M.Sc. is also conferable upon a B.Sc. of the University of not less than 2 yrs.' standing who has presented a thesis approved by the Faculty and passed an examination. The M.Sc. Wales may be conferred on a graduate in Science of the University of Wales or of another approved University: 2 yrs. required from a Pass graduate, 1 from an Honours graduate. Graduates of other Universities must pursue a scheme of research in a constituent College of the University for not less than 2 yrs. A thesis is required from all candidates. In other Universities which confer the degree, graduates of approved Universities can obtain the M.Sc. on terms similar to those for the M.A.; at Durham or Reading, after 2 yrs.' advanced study in the University.

Other Titles of Mastership conferred by various Universities

M.A. (Admin.) (Manchester); M.Agr. (Belfast); M.Agr.Sc. (N.U.I.); M.A. (Arch.) (London); M.Arch. (Liverpool, N.U.I.); M.A.I. (Dublin); M.Comm. (N.U.I.); M.Com. (Birmingham, Durham, Leeds, Liverpool, London); M.A. (Com.) (Manchester); M.Ed. (Durham, Leeds, Manchester); M.Econ.Sc. (N.U.I.); M.Eng. (Liverpool, Sheffield); M.Litt. (Cambridge, Durham); M.Met. (Sheffield); M.Sc. (Agriculture) (Reading); M.Sc. (Dairying) (Reading, N.U.I.); M.Sc. (Horticulture) (Reading); M.Sc.Tech. (Manchester, Sheffield).

Doctorates

The Doctorate in Letters or in Science (Litt.D., D.Lit., D.Litt., Sc.D., D.Sc.) is conferred upon Masters of Arts or Science or Doctors of Philosophy (Wales and Dublin, also Bachelors) distinguished by their contributions to the advancement of learning or science. The claim to the degree must be based either upon a special thesis, as at London, or upon published works. In certain Universities the Faculty may require the applicant to appear for examination. An applicant for the Doctorate must be of the following standing: 3 yrs.' from graduation at Dublin, Belfast (for D.Sc.), N.U.I. (for D.Sc.Pub.Health). 4 yrs.' from graduation at Manchester and London (for D.Sc. and External D.Lit.). 5 yrs.' from

graduation at Birmingham (for D.Litt., D.Sc.) ; at Sheffield (for Litt.D., D.Sc., D.Eng., D.Sc.Tech., D.Met.) ; at N.U.I. (for D.Litt., D.Litt.Celt., D.Sc.) and at the Scottish Universities. 6 yrs.' from graduation at Durham (for D.Sc.) ; at Belfast (for D.Lit.) ; at Leeds (for Litt.D. and D.Sc.) ; at Bristol and Reading (4 yrs.' from M.A. or M.Sc., 3 yrs.' from Ph.D.). 7 yrs.' from graduation at Oxford (D.Litt.) ; at London (for Internal D.Lit.). 8 yrs.' from graduation at Cambridge (for Litt.D. and Sc.D.). 10 yrs.' from graduation at Durham (Litt.D.) ; at Wales (3 yrs.' from M.A. or M.Sc., 2 yrs.' from Ph.D.). For Litt.D., D.Sc. and D.Eng. at Liverpool, *see* p. 118.

Graduates of other Universities who have been admitted to the degree of M.A. or M.Sc. (Oxford M.A., B.Sc. or B.Litt. ; Dublin B.A.) can proceed to the Litt.D. or Sc.D. under the prescribed regulations. In Scotland Honours graduates of approved Universities of 5 yrs.' standing, who have spent the equivalent (4 terms) of two winter sessions in research at a Scottish University, have submitted a satisfactory thesis or published work and have, if required, passed an examination, are admitted to the Doctorate (*see* p. 343). At Bristol the degree of D.Sc. can be obtained without previous admission to the M.Sc. At London a candidate for the Doctorate may be specially exempted from the examination for M.A. or M.Sc. ; at Manchester, from the examination for M.Sc. At Wales, graduates of other Universities are not eligible to become candidates for the Degree of Doctor unless they have previously qualified for a degree of the University of Wales, *i.e.* Bachelor, or Master, or Ph.D. degree. For Doctorates in other Faculties *v. infra*.

Degrees in the Faculty of Divinity

B.D. After examination in the Scottish Universities and the Universities of Durham, London, Manchester and Wales. After examination (waived in the case of graduates in Theological Studies) and submission of a thesis at Leeds ; graduates of other Universities being required to attend at Leeds courses for 2 yrs. After examination and submission of a thesis at Dublin. After examination and the submission of a dissertation and published works at Cambridge (examination may be omitted) and at Oxford. At London the course must extend over 3 yrs., subsequent to matriculation. In Scotland a candidate must be M.A. of a Scottish University who has taken a theological course in a specially recognized institution, or a graduate of an approved University who has taken a complete theological course of at least 2 yrs. in the University conferring the degree ; at Dublin, a B.A. of 3 yrs.' standing ; at Durham he must be either a graduate of 2 yrs.' standing or the holder of the Diploma in Theology ; in Wales, a graduate who, subsequent to graduation, has studied for 3 yrs. at one of the Associated Theological Colleges or Schools of Theology of the University ; at Cambridge, a candidate who is a graduate of the University of not less than five years' standing from admission to his first degree ; at Oxford, a candidate must be M.A. or must be 26 yrs. of age, have followed a course of study in Christian Theology extending over 6 terms and resided at the University during 6 terms. The B.D. may be taken with Hons. at some Universities.

D.D. In Scotland the degree is conferred *honoris causa tantum*. At

London it is conferred upon Bachelors of Divinity who took Honours in at least one subject, on presentation of a dissertation, followed by an examination if the examiners so desire. At other Universities it is conferred in consideration of published works or a dissertation (and, at Oxford, a *viva voce* examination, if the judges so desire). The requisite standing is, at Cambridge, 3 yrs. from B.D.; Dublin, 8 yrs. from B.A.; Durham, 10 yrs. from B.A.; Manchester, 4 yrs. from B.D. (or 6 yrs. for Bachelors of Divinity of other Universities who have studied for 2 yrs. at Manchester); Oxford, 14 yrs. from matriculation, or, if he was admitted to the degree of B.D. as a graduate of another University, the candidate must have attained the age of 33; Wales, 6 yrs. from B.D.

Degrees in the Faculty of Law

LL.B., B.C.L. (Durham, Oxford), **B.L.** (Aberdeen, Edinburgh, Glasgow). At the English Universities (except Cambridge and Oxford), at Wales and Belfast the course for the LL.B. extends over 3 yrs. from matriculation (with honours, 4 yrs. in some cases). At Cambridge students who have obtained Honours in Part I. or II. of the Law Tripos are admitted to the LL.B. examination not earlier than the end of their fourth year and other approved students are also admitted subject to regulations regarding residence and study. At Aberdeen, Edinburgh and Glasgow candidates must be graduates of approved Universities and pursue a course of study for 3 yrs. At Dublin they must be graduates of Dublin, Cambridge or Oxford and pass two examinations in Law. At N.U.I. they must pursue an approved course of study for at least 2 yrs. subsequent to obtaining the Degree of Bachelor of Arts of the University.

B.C.L. At Durham candidates must be Bachelors of Arts of the University of 2 yrs.' standing. At Oxford they must be graduates and keep residence for 6 terms (Bachelors of Arts of the University, 12 terms from matriculation).

B.L. Candidates must pass the Preliminary or an equivalent examination and pursue an approved course of study for 3 yrs.

LL.M. Bristol, Cambridge, Durham, Leeds, Liverpool, London, Manchester, Sheffield, Wales. By standing for graduates in Law with Honours, except at Durham, Leeds, Manchester and Sheffield, where a dissertation must be presented. For others, after examination, or dissertation must be presented. For others, after examination, or dissertation (Cambridge) or both (Wales). Liverpool requires 2 yrs. of approved study after Hons. LL.B.; other candidates 2 or 3 yrs.' study with dissertation and/or examination.

LL.D. or D.C.L. (Oxford, Durham). By the Scottish Universities the Doctorate is awarded only *honoris causa tantum*. Other Universities, unless the degree be awarded *honoris causa*, require the submission of a thesis, dissertation or published works, and may require attendance at an examination; in Dublin a candidate may elect to undergo examination in lieu of offering a thesis, etc. The requisite standing for the Doctorate is, at London, any time after the LL.M. or Ph.D.; Belfast, 3 yrs. from LL.B. if thesis; Dublin, 3 yrs. from B.A. of Dublin, Oxford or Cam-

bridge; Manchester and Sheffield, 4 yrs. from LL.B.; N.U.I., 5 yrs. from LL.B.; Oxford (D.C.L.), 5 yrs. from B.C.L.; Cambridge, 8 yrs. from first degree; Bristol, 4 yrs. from LL.M.; Liverpool, 5 yrs. from LL.M.; Leeds, 6 yrs. from LL.B.; Durham (D.C.L.), 10 yrs. from B.A.; Wales, 10 yrs. from graduation or 3 yrs. from LL.M. or 2 yrs. from Ph.D.

Degrees in the Faculties of Medicine and Surgery and Cognate Subjects

M.B., B.M. (Oxford), **Ch.B., B.Chir.** (Cambridge), **B.Ch.** (Oxford, Wales, Belfast, Dublin, N.U.I.), **B.S.** (Durham, London). (Obtainable as an ordinary degree or with Hons.) The regulations for these degrees are practically uniform. Preliminary examinations must satisfy the requirements of the General Medical Council (*see* Appendix IV. 11). Registration as a medical student by the G.M.C. is recommended. Satisfactory attendance is required during at least 5 yrs. at courses of study and hospital practice. Four examinations (in some Universities grouped as three or two) must be passed. All examinations must be passed at the University granting the degree, with the exception of the first, in Chemistry, Physics, and Biology (and, at St. Andrews, the second in Anatomy and Physiology), from which a candidate may be exempted if he has passed an equivalent examination at the University, or elsewhere (Scottish Universities, Birmingham, Bristol, Dublin for S. African students only, Durham, London, Oxford Senior Students, Sheffield). Study in the University for at least 3 yrs. is required, except for External degrees of the University of London where candidates must study for 4½ yrs. (after the First Professional Examination), at a recognized Medical School, 1 yr. being spent in the United Kingdom; for 2 yrs., Scottish Universities, Leeds, Manchester. The Universities of Oxford and Cambridge exact 3 yrs.' residence, but allow students to do any or all of their medical work at other recognized medical schools. At Oxford, Dublin, Wales, candidates must graduate B.A. (or B.Sc., Wales) before admission to a medical degree. The B.A.O. and the M.A.O. (Obstetrics) are conferred by Belfast, Dublin and N.U.I.

M.D. or D.M. (Oxford). Candidates must be Bachelors of Medicine and Surgery of the University of, ordinarily, 2 yrs.' standing (Birmingham, Manchester and Scottish Universities, 1 yr.'s standing; Sheffield, 3 yrs.'; Belfast, 3 yrs.' or 2 yrs. from B.A. or B.Sc. with M.B.; Dublin of M.A. standing; Cambridge, 8 yrs. from admission to first degree; Oxford, 10 yrs. from matriculation). A dissertation is compulsory at most Universities followed by an examination, unless the examiners pronounce the dissertation to be of such merit as to render further examination unnecessary. At Birmingham graduates in medicine of other approved Universities may present themselves for the M.D. after two years of approved study. This University also grants an M.D. in State Medicine; candidates must hold the D.P.H. of a British University.

Ch.M., M.Ch., M.S. (London and Durham), **M.Chir.** (Cambridge). Regulations somewhat similar to those for M.D. The **M.Ch.(Orth.)** is

granted by Liverpool; candidates must be graduates of an approved University. Attendance and study at Liverpool during 15 mths. before examination is required. In addition to the M.S. Durham grants a **D.Ch.** open to candidates who subsequent to having obtained a registrable qualification have devoted 3 yrs. (including at least one in the University) to the study of surgery and ancillary subjects.

Degrees in Dentistry—**B.D.S.**, **B.Ch.D.** (Leeds), **B.Dent.Sc.** (Dublin)—are granted by all Universities except Cambridge, Oxford, Reading, Wales, Aberdeen, Edinburgh and Glasgow (period of study generally about 5 yrs.). Diplomas in Dental Surgery—**L.D.S.**—are awarded by the Universities of Birmingham, Bristol, Durham, Leeds, Liverpool, Manchester, Sheffield, St. Andrews and Belfast (period of study generally 4 yrs.). The degree of Master of Dental Surgery—**M.D.S.**, **M.Ch.D.** (Leeds), **M.Dent.Sc.** (Dublin)—is awarded by all Universities granting a first degree, except London. Candidates must generally be Bachelors of Dental Surgery of 1 to 3 yrs.' standing and must present a thesis and/or undergo an examination. At Leeds, in addition to having been admitted to the degree of Bachelor of Surgery at least 1 yr. previously, candidates must also have obtained a registrable medical qualification. The University of London awards the degree of M.S. in Dental Surgery. In order to be admitted to the examination candidates must first have obtained the degrees of Bachelor of Medicine and Surgery.

Degrees in Pharmacy are conferred by London and Wales (**B.Pharm.**), by Manchester and Glasgow (**B.Sc.** in Pharmacy) and by Belfast (**B.Sc.** in Pharmaceutics). The course extends over 3 yrs. except at Glasgow where it extends over 4 yrs. and leads to an Honours degree.

Degrees in Public Health are conferred by Durham (**B.Hy.** and **D.Hy.**) and by Glasgow and N.U.I. (**B.Sc.** and **D.Sc.** in Public Health). Candidates for the Bachelor's degrees must be graduates in medicine of 2 yrs.' standing; the **D.Hy.** and **D.Sc.** (N.U.I.) are conferred 2 yrs. after the Bachelor's degree and the **D.Sc.** (Glasgow) 5 yrs. after the Bachelor's degree.

Degrees in Veterinary Science are awarded by Liverpool (**B.V.Sc.**, **M.V.Sc.** after 2 yrs.' further study and **D.V.Sc.** 3 yrs. after **M.V.Sc.** for published contributions to science), London (**B.Sc.** in Veterinary Science, **M.Sc.** 1 or 2 yrs. later by examination and **D.Sc.** open to Masters for original contributions to advancement of science) and Edinburgh (**B.Sc.** in Veterinary Science and **D.Sc.** 3 yrs. later by thesis).

Degrees in the Faculty of Music

Mus.B., **B.Mus.**, **Mus.Bac.** At Birmingham, Cambridge, London, Manchester, Wales, Edinburgh, Glasgow, Dublin, and N.U.I. students must pass the same Entrance examination (Matriculation, Previous, or Preliminary) as students in Arts; with, at Birmingham, where the degree is an Honours degree, an examination in theory and in execution. At Durham they are admitted on a *testamur* as Students of Music. At Oxford they must pass Responsions. At Sheffield they must pass the Intermediate Examination for the B.A. degree. In Wales they must

attend an intermediate class in Arts or Science in addition to the Music course. Residence is not obligatory at London, Dublin or Durham. At Edinburgh students must study Music in the University for one whole winter session. As a rule, the course extends over 3 yrs. with two, or three, examinations, including an exercise for the Final examination. Honours in this degree are obtainable at Birmingham, Manchester, Edinburgh, Glasgow and Wales.

Mus.M., M.Mus. At Cambridge and Wales conferred on Bachelors of Music (and Bachelors of Arts with Honours in Music at Wales) of the University of ordinarily 2 yrs.' standing after examination and submission of an exercise; at Birmingham on Bachelors of Music of Birmingham and other approved Universities after 1 yr. of approved study or research, examination and submission of 3 original compositions or thesis.

Mus.D., D.Mus., Mus.Doc. Conferred at Cambridge on graduates not less than 30 yrs. of age, in recognition of distinction as Composer; in Wales (D.Mus.) on B.Mus. of 10 yrs.' or M.Mus. of 3 yrs.' standing on consideration of original compositions; at Edinburgh on Mus.Bac.'s of 3 yrs.' standing and at Glasgow of 5 yrs.' standing, after examination as Composer, Executant or Theorist or Historian (Dissertation), and also *honoris causa tantum*; at Dublin on Mus.B.'s after further examination or practical test; at London on Mus.B.'s of 2 yrs.' standing, Oxford 3 yrs.', Manchester 4 yrs.', Durham, Sheffield and N.U.I. (all D.Mus.) 5 yrs.', after exercise and examination.

Doctor of Philosophy

In May 1917 representatives of the Universities and University Colleges met in Conference to devise measures for the further encouragement of Post-graduate Study and Research. It was resolved that it was desirable that a degree should be instituted carrying the title of Doctor (Ph.D., D.Phil. Oxford), obtainable by graduates of British and foreign Universities after a course of advanced study and research. The conditions and regulations for such a degree were further considered at adjourned meetings held on May 10, 1918, Jan. 24, 1919, and March 14, 1919. All the Universities of the United Kingdom now confer the degree of Philosophiæ Doctor. Candidates entering upon a course of advanced study and research for the Ph.D. must be at least 21 (Oxford, Cambridge, Bristol, Liverpool, Durham, Wales, Reading, St. Andrews, Dublin—no minimum age); must ordinarily be graduates either of the University or of some other approved University; must have pursued their studies at a University or Universities for a period of at least 3 yrs. (Durham—2); must produce evidence of fitness for the proposed course of study and research. The course for the degree is 2 yrs.; at Cambridge, Liverpool, Reading, Aberdeen, Glasgow, St. Andrews and N.U.I., 3 yrs. which may under certain conditions be reduced to 2 yrs. Candidates on completion of research must present thesis and submit to oral examination on thesis. The degree is granted in any faculty in which the University is prepared to receive advanced students.

A candidate for the degree of Ph.D., as an External student of the University of London, must have graduated in the Faculty of Theology, Arts, Laws, Music, Science, Engineering, or Economics in this University not less than 2 academic yrs. previously.

LAMBETH DEGREES

Under the Peter Pence Act (25 Henry VIII. Chapter 21) the Archbishop of Canterbury has power to grant degrees which previous to the Reformation were obtained from Rome. The degrees generally conferred are those of D.D., Mus.Doc. and B.D.

STUDENTS

The number of full-time students in Universities and University Colleges in receipt of Treasury Grant is given in the Returns published by the University Grants Committee for the year 1935-36 as 50,529, including 11,879 women. To these must be added the students of the Irish Universities and of certain schools of the University of London not included in the Returns of the University Grants Committee, making a total of about 58,000. These statistics do not include the students of the institutions, other than Universities and University Colleges, in which professional education of university grade is given in Theology, Teaching, Agriculture, Mining, etc.; nor students reading privately for the external degrees of the University of London, for the Bar, etc. This makes comparison with statistics of other countries difficult, as does also the fact that the work of the higher forms of many of our secondary and public schools corresponds with the earlier stages of the work done in Colleges and collegiate departments of some foreign Universities, *e.g.* in America.

For information regarding admission as an undergraduate from home and abroad and school examinations, *see* Appendix I. For recognition of study at other Universities—(a) as undergraduates, *see* Appendix I.; (b) as graduates, *see under* the several Universities and Appendix I. For fees and other charges, *see under* the several Universities. For student organizations, *see* Appendix VI.

SCHOLARSHIPS

Few countries offer a richer variety than Great Britain of facilities for access to the highest forms of education. The lead of the "pious founder" has been followed by city companies and professional bodies, and, since the Education Act of 1902 brought higher education within the purview of Local Authorities, by the State. The response to the principle which found expression in the words of Mr. Fisher's Education Act of 1918 that "children and young persons should not be debarred by inability to pay fees from receiving the benefits of any form of education by which they are capable of profiting" has been so remarkable that L.E.A.'s are now assisting more students to take courses at Universities than they were helping to obtain Secondary education before the Act of 1902 was passed. From the grant-aided Secondary

Schools of the country alone, with their 481,767 pupils (on Oct. 1, 1936), 226,058 of whom were free pupils, a fairly steady stream of students, averaging some 4000 over the last four years, more than 67 per cent. of whom were previously educated in Public Elementary Schools, passes each year to the Universities and University Teachers' Training Departments. The number of scholarships available and their variety, as regards conditions of tenure, put any attempt to give a comprehensive list out of the question. Those in search of assistance should apply for their Local Education Authority's Scholarship Handbook.* The main agencies in England and Wales by which scholars are assisted to attend Universities may be classified in the order of the probable number of awards made and the annual expenditure incurred : (i.) *Local Education Authorities*. The majority of awards are given to candidates who have done good work in College Scholarship and the Higher School Certificate Examinations, though some Authorities hold examinations of their own or grant assistance upon a consideration of school records. The expenditure of L.E.A.'s for 1936-37 in aid to students at Universities was £334,000 (approx.). (ii.) "*Open*" *Scholarships awarded by the Universities or their individual Colleges*. A brief notice of scholarships open to graduates will be found in the general information regarding each University. No particulars are readily available to show the total number of entrance scholarships and exhibitions awarded annually. About 700 awards are made each year by Oxford and Cambridge. (iii.) *State Scholarships*. About 360 are now awarded annually by the Board of Education to boys and girls in full-time attendance at Secondary Schools, on the recommendation of the Bodies that conduct the Higher Certificate Examinations. The scholarships are tenable by students reading for an Honours degree. Analyses of these awards and the courses and degrees taken will be found in the statistical information published annually by the Board of Education. The expenditure upon State scholarships during the financial year ended March 31, 1937, was £124,924. (iv.) *Leaving Scholarships and Exhibitions awarded by Endowed Schools*. The expenditure upon such awards in the year 1935-36 was £47,769 incurred by 214 of the 479 Endowed Schools on the grant list of the Board. To these must be added over 100 of the 397 Schools recognized as efficient by the Board, but not on the grant list, for which figures are not readily available. (v.) *Charities unattached to Schools, but with power to offer Exhibitions under their Instruments of Government*. The number of educational charities in the country is extremely large. Information in regard to scholarships available in any particular area can usually be obtained by application to the L.E.A. Some of the larger funds open to the whole country are indicated in App. II. Further particulars will be found in the Annual Charities Register and Digest. It should be understood that assistance is often accorded from complementary sources. The holder of a Major Scholarship of a L.E.A. may, for

* Some of the Scholarship Handbooks, e.g. that published by the London County Council (P. S. King & Son, Ltd., 14 Gt. Smith St., Westminster, S.W.1, price 3d.) include a great deal of information in regard to general sources of assistance open to the whole country as well as that available for persons resident in a particular area.

instance, also hold a State Scholarship or College award, or possibly (with an upward limit of the total amount) all three.

In Ireland conditions are similar. For Scholarships in Scotland, *see* PP. 344-5.

ADULT EDUCATION

University Extension Courses have been promoted by the Universities of Cambridge, Oxford and London for the last 60 years. At Cambridge they were known as local lectures and were initiated in 1873. Oxford and London took up the work soon afterwards, and since then the other Universities and University Colleges have followed suit. These courses number several hundreds and vary in length from 6 to 25 lectures. In 1926 the Universities Extra-mural Consultative Committee was established to consider, especially from the point of view of administration, the many aspects of extra-mural work now undertaken by the Universities, and to contribute towards the formation of a common policy. Each University and independent University College of England and Wales is represented by one member, generally the chief executive officer of the Extra-mural Department, and certain persons are co-opted. An Annual Report is printed giving a tabular statement of University Extension Courses and other activities of University Extra-mural Departments.

In 1903 *The Workers' Educational Association* was founded. In 1907 relations were established with Oxford University. Since that date relations have been established with all the Universities and University Colleges, and there are joint committees composed of representatives of the University or College and the W.E.A., which promote Preparatory Classes, Three-Year Tutorial Classes, Advanced Tutorial Classes, Vacation Courses, etc. Most of these classes and courses are recognized by the Board of Education for purposes of grant under Chapter II. of the Adult Education Regulations.

The *Adult Education Committee* was appointed by the President of the Board of Education, in April 1921, to promote the development of liberal education for adults, and in particular to bring together national organizations concerned with the provision of adult education, so as to secure mutual help and prevent overlapping and waste of effort; to further the establishment of local voluntary organizations for the purpose and of arrangements for co-operation with Local Education Authorities; and to advise the Board of Education upon any matters which the Board might refer to the Committee. It has been reappointed by successive Presidents. It includes representatives of all Universities in England and Wales, and of the principal voluntary organizations engaged in the work of Adult Education; also four representatives of Local Education Authorities. Assessors are appointed by the Board of Education, the Admiralty, the Army Council and the Air Ministry. Since 1921 the Committee has been engaged on many inquiries, and their Reports have been published by H.M. Stationery Office, Adastral House, Kingsway, London, W.C.2. The more recent are: No. 6—*The Drama in Adult Education*. (1s.) No. 7—*Full-time Studies*. (6d.) No. 8—*Natural Science in Adult Education*. (6d.) No. 9—*Pioneer Work and*

other Developments in Adult Education. (6d.) No. 10—The Scope and Practice of Adult Education. (1s. 6d.) No. 11—Adult Education and the Local Education Authority. (2s. 6d.)

The *British Institute of Adult Education*, 29 Tavistock Square, London, W.C.1, is a central co-ordinating body on adult education. Its work includes research into problems connected with the movement and investigation of new methods of progress. The Institute arranges an Annual Conference at which are represented : Local Education Authorities, Universities, Voluntary Associations and the Board of Education.

Publications. *Adult Education*—a quarterly review of adult education in England (issued Sept., Dec., March and June, 4s. 6d. p.a. post free). *Life and Leisure Pamphlets*, 6d. each, still available: 2. COMMITTEE OF VICE-CHANCELLORS AND PRINCIPALS

In May 1918 Mr. Balfour summoned at the Foreign Office a Conference of representatives of all the Universities for the purpose of putting before them a proposal that on the invitation of the Government of the United States a Universities' Mission should be sent to America. At this meeting Mr. Balfour took the opportunity of pressing upon the Universities the desirability of establishing a representative body to which matters of interest to the Universities might be referred by Government Departments. He urged the necessity of the creation of "an organ of expression" which would voice the desires and aspirations of the British Universities and represent them in their relations with the Universities of other nations. At a subsequent meeting the Conference resolved that "it is desirable in the interests of the Universities and of the nation that steps be taken to promote co-operation and mutual consultation among the Universities of Great Britain and Ireland, and, further, that the Vice-Chancellor or Principal of each University or a deputy appointed by him, together with the Executive Committee of the Universities Bureau, be appointed a 'Standing Committee' to consider any matters of common interest arising out of the proceedings of this Conference or submitted to it by the Government, and to report from time to time to the Conference."

The Standing Committee of Vice-Chancellors dealt with a number of subjects of common interest to the Universities, which are mentioned in previous issues of the *Yearbook*.

In 1929 the Standing Committee of Vice-Chancellors was dissolved and a Consultative Committee of Vice-Chancellors and Principals was established in its place, the members of which are appointed by the several Universities and by one of the three University Colleges in rotation. The deliberations of this Committee now cover all subjects of common interest to Universities; in consequence, University Conferences, which had been held annually up to and including 1929, have been discontinued.

Amongst subjects discussed during the year 1936-37 by the Committee were Regulations of the General Medical Council for the First

M.B. Examination ; Period of Study for the Ph.D. Degree in Overseas Universities ; International University Sanatorium at Leysin ; Jane Eliza Proctor Visiting Fellowships ; Memorandum on the Suitability of South African Students for Admission to Universities in this Country ; Exchanges of Students ; International Conference in Paris on Higher Education ; The Universities and Physical Instruction ; Age of Selection for Teachers' Training Grants ; Universities China Committee : Professorships and Readerships in Chinese ; Admission of Chinese Students to Universities in this Country ; Celebration of the Centenary of the University of Athens ; Celebration of the Bicentenary of the University of Göttingen ; Panel of Advisers in London to give Information regarding Facilities for Postgraduate Work ; Proposed Investigation into the Higher School Certificate Examination ; Draft Unemployment Insurance Regulations ; Gift of Books to British Universities by the French Government.

The Universities Bureau acts as the Secretariat of the Committee of Vice-Chancellors and Principals.

GENERAL INFORMATION

The University, formerly the Mason College founded by Sir Josiah Mason in 1880, was incorporated by Royal Charter in 1900. The Charter prescribes instruction in all branches of a liberal education, and such instruction especially as may be of service in the manufactures, commerce, and industrial pursuits of the Midlands. The Faculties of Arts, Medicine, and Law are still housed in the buildings of Mason College in the centre of the city. Other buildings have been erected and equipped at a cost of £850,000 at Edgbaston on a site of 100 acres.

FACULTIES : Arts, Commerce, Law, Science, Medicine. Deans : Prof. L. J. Russell, Prof. J. G. Smith, Prof. Smalley-Baker, Prof. K. Neville Moss, Dr. Stanley Barnes.

Departments of Education (training for teaching in primary, secondary, and continuation schools) ; Malting and Brewing and other Industrial Fermentation Processes ; Social Study. Connected with the Medical Faculty are a School of Dentistry and a Dept. of Industrial Hygiene and Medicine.

LIBRARY, about 200,000 vols. *Special Collections :* Sargant, rich in French economic literature of about 1830–1860 ; Collings, some 350 books on agric. and land problems ; Bunce, rich in nineteenth-century biography ; Corbett, county, especially Shropshire, history ; Holliday and others, art and architecture. **MUSEUMS,** Anat., Dent., Geol., Zool., Mining, Herbarium (Bot.).

LABORATORIES : Chemical (special organic, phys., electro-chem., analytical, and public health depts.) ; Physics, Biol., Engin., Metallurgy, and Mining (exceptionally well-equipped, expl. coal-mine and oil-boring plant, petroleum engineering being a speciality) ; Brewing ; Power-station supplying whole Univ. with lighting, heat and power ; Physiol. ; Pathol. ; Cancer

Research, Research in Mental Disease; Bacteriol. A small OBSERVATORY is attached to the dept. of Physics. HOSPITALS (750 beds) available for clinics—Birmingham United (General and Queen's) and many special.

JOINT BOARD OF RESEARCH FOR MENTAL DISEASE (the University and City). *Director*—F. A. Pickworth, B.Sc., M.B., B.S. Lond., A.I.C.; 3 assts. The research work at present is carried out in a laboratory at Hollymoor Mental Hospital.

ADMISSION. See Appendix I.

DEGREES. B.A., B.Mus., M.A., M.Mus., D.Litt., D.Mus.; B.Sc. (in pure Science, in Engineering—Mech., Civ., Elec.; in Oil Engin. and Refining; in Industrial Fermentation; in Metallurgy; in Mining—Coal and Metal; Coal Utilization), M.Sc., D.Sc.; M.B., Ch.B., B.D.S., M.D., M.D. (State Med.), Ch.M., M.D.S.; B.Com., M.Com.; LL.B., LL.M., LL.D.; Ph.D. (in any Faculty).

No degree can be obtained without attendance upon prescribed courses in the Univ. extending over at least 3 academic yrs. after matricn. except in the case of graduates of other approved Univs., who are, under certain conditions, admitted to the 1 yr. courses for the M.A. and M.Sc. and to 2 yr. courses for the B.Sc. (courses in technical subjects), B.Com., Ph.D. (v. p. 13), M.D., or Ch.M. B.A., with Honours, may be obtained in a Special School or in Grouped Subjects. (a) Special Schools: Classics, Engl., French, German, Italian, Spanish, Hist., Social and Polit. Science; Philos., Maths., Geog., Econ. (b) Various Groups, each of 3 subjects, have been approved by the Faculty of Arts (see p. 7).

There is an Honours School of Music in which B.Mus. (Hons.) can be obtained. Candidates must have passed the matricn. or an equivalent examn. and must satisfy the Prof. of Music that they have a sufficient knowledge of the Theory of Music and an adequate power of performance on some musical instrument.

In the B.Com. courses one-third of the student's time may, if he chooses, be devoted to work in Applied Science. There is a 4 yrs.' B.Com. course for students entering at Inter. B.Sc. standard, the first 2 yrs. in the Faculty of Science and the remaining 2 yrs. in the Faculty of Commerce.

B.Sc. Honours in Pure Science (3 yrs.) may be taken in all subjects in the Faculty. In Applied Science the B.Sc. courses in Engin., and in Oil Engin. and Refining, and Hons. Courses in Industrial Fermentation, in Mining and in Metallurgy cover 4 yrs. Those in Mining involve practical work underground. The B.Sc. course in Coal Utilization extends over 3 yrs.

Subject to certain provisos, graduates of Oxford who have obtained the Oxford Diploma in Scientific Engin. and Mining Subjects are eligible for the B.Sc. degree in Engin., Mining or Metall., and graduates of Oxford with Hons. in the Final Honour School of Nat. Sci., Eng. Sci., or of Cambridge with 1st or 2nd class in Mech. Sci. Trip., are eligible for the B.Sc. degree in Mining after 2 yrs.' study at Birmingham.

Med. students may spend their final yr. at any school or schools of Med. recognized by the Univ., and the Senate may recognize examns. passed therein as exempting from the 1st Med. examn. They may obtain the B.Sc. as well as their Med. degrees by devoting 7 yrs. instead of 6 to study in the Univ.

The M.A., M.Com., M.Sc. and M.Mus. involve at least 1 yr. of study after completing the course for the bachelor's degree.

The M.A. may be taken in Educn. as well as in the ordinary Arts subjects.

The D.Litt., D.Mus., D.Sc., or LL.D. may be taken 3 yrs. after the M.A., M.Mus., M.Sc. or LL.M.

Advanced Standing. Candidates who, before admission, pass certain examns. of other approved Univs. and Examining Bodies may be permitted to take the final examn. for the B.Sc. (Hons.) at the end of their 2nd yr., and to do advanced or research work in their 3rd yr.

DIPLOMAS. *Education*, 1 yr. for graduates of approved Univs. or others equally qualified; *Psychology of Childhood*, 1 yr. for graduates and other approved persons; *Public Health*, 1 yr. for persons who have obtained a registrable qualification in Med., Surg. and Midw., at least two years previously; *Dentistry*, 6 yrs.; *Commerce*, 1 yr. for graduates of approved Univs. who have passed adequate test in accounting; *Social Study*, 2 yrs. for intending officials in national or municipal administration, welfare superintendents, philanthropic workers, etc.; Higher Diploma in *Social Study*, 1 yr. after ordinary Diploma for graduates and other approved persons; Malting and Brewing, 3 yrs., graduates, 1 yr.

A Joint *Coal-mining* Diploma of the Univs. of Oxford and Birmingham may be taken by Oxford graduates in Engineering who, after 4 months' practical experience in coal-mining, pursue courses covering one session in this Univ. Tuition fee, £60. A similar Joint Diploma of Camb. and Birm. is given.

CERTIFICATES. Malting and Brewing (2 yrs.). Under the control of a joint board of Univ. and Trade Union representatives. The certificate is awarded after examn., and is not based on the principle of evening work but on full-time day work. The instruction is provided by members of the Univ. Staff. Evening classes are not provided by the Univ., this work being left to the Birm. and Midland Inst., Birmingham Commercial Coll., etc.

RESEARCH. A joint standing committee of members of council and members of senate co-ordinates research work in all faculties, formulates policies of research, obtains funds, and co-operates with Govt. agencies and external bodies. Trust Funds amount to £30,970. There are special committees for research in Mental Diseases and in Cancer.

FEES. Matricn., £2. Membership fee, £3 : 3s. p.a. Tuition for B.A., £100; B.Sc., £75-£96; Engin., £190; Mining, £140; Metall., £140; Med., including Hospl. fees, £192 : 17s.; B.D.S., £296 : 13s.; L.D.S., £270 : 0 : 6; B.Com., £89; LL.B., £29. Examns., Interm. and Final, for first degree, £10, except in Med., £21, and Engin., and Arts, £12 : 10s. Laboratory research fees, £15 to £30.

POSTGRADUATE AND RESEARCH SCHOLARSHIPS. 3 open to all Faculties; 17 in Sci.; 12 in Arts (1 of them reserved for Music); 2 in Com.; 3 in Law; also a Travelling Studentship (£300 for 1 yr.) biennially for research in Path.; 1 (£90) annually in one of the Facs. of Med., Com., or Law. Some of these are open to graduates of other Univs., but preference is always given to Birmingham graduates. For Fellowship and Research Studentships, v. App. II. 4 and 12.

RESIDENCE. For women there is a Hall of Residence—Univ. House, Edgbaston Park Rd. (Warden, Janet Carpenter, M.A.), with grounds of 2½ acres. For men—Chancellor's Hall (Warden, R. C. Panton, M.A., M.Sc.), Augustus Road, Edgbaston (96 students), with grounds of 7 acres. The cost of board and lodgings is from £2 : 2s. upwards a week.

APPOINTMENTS BOARD (Secy.—The Registrar, The University, Edmund Street, Birmingham; Asst. Secy., W. P. Brooks).

In 1936-37, 173 full-time permanent posts were obtained through the Board and Staff. These included: Educational, 70; manufacturing and technical, 75; administrative posts in commerce and industry, 28. In addition 52 graduates and others were found temporary employment.

GUILD OF GRADUATES. Six representatives serve on the Univ. Court of Governors and one representative is a member of the Univ. Council. A *Register of Graduates* and a *News Letter* are circulated annually to all members.

UNIVERSITY EXTENSION work includes Lectures and Tutorial Classes in the city of Birmingham and the Midland area. The Tutorial Classes are under the control of a Jt. Committee of the Univ. and the W.E.A.

PUBLICATIONS. *Calendar* (Oct.), 2s. ; Faculty and Departmental syllabuses, Regulations for Higher Degrees and Postgraduate Diplomas (during the Summer Term) ; *Careers in Science* ; *Report of University Research Committee*, including a bibliography of the research work published during the session (Feb.) ; students' magazine, the *Mermaid*.

THE YEAR 1936-37

BENEFACTIONS. The following are the chief items : Hugh Morton Estate, £2354 (final balance of residue of Estate for general purposes). A. E. Hills, £25,000 (Post-Graduate Scholarships) ; Lady Scott-Moncrieff Bequest, £5000 ; James Baldwin Bequest, £1008 ; Baron Profumo, £500 (Dept. of Legal Studies) ; Walter Barrow Trust, £500 ; Edith Harrold Bequest, £198 ; Execs. of Joseph James, £100 (Dept. of Legal Studies) ; G. R. Edgar and R. Edgar, £100 (Chamberlain Memorial Museum). For Dept. of Industrial Hygiene and Medicine : contributions of about £2000 p.a. for a term of years from a number of firms. Contributions towards equipment of Chemistry Block, about £1000.

NEW BUILDINGS. Work on Barber Institute of Fine Arts proceeding. New (Hills) Chemistry Block completed. New Hospitals Centre and Medical School expected to be opened early in 1938.

NEW POSTS. Chair of Applied Mathematics founded ; Readership in Bacteriology converted into a Professorship.

OTHER DEVELOPMENTS. A special Course, leading to Degree of B.Sc. in Coal Utilization, instituted. Its object is to train young men of sound general education in the processes connected with the treatment of coal, its use, and the economic factors involved in marketing the finished product. Attendance at the Univ. is required for three sessions, and the curriculum embraces Lecture and Laboratory Courses in fundamental sciences, technology, and business principles and administration, and these are supplemented by practical experience during the vacations. The course is designed throughout to supply a comprehensive training in treating and marketing fuels under modern conditions of supply and demand.

EXTRA-MURAL WORK. The Joint Committee of University and W.E.A. continues to extend and consolidate its work in Birmingham and adjoining counties. A successful summer school was held.

VISITORS TO THE UNIVERSITY. Among those who lectured were : Prof. G. B. Barbour (London—Univ. Coll.), "Across the Western U.S.A. by Rail, Road and Air" (illustrated by colour film) ; Sir William Holdsworth (Oxford), "The Influence of Roman Law on British Equity" ; Miss Helen Darbyshire (Oxford), "Paradise Lost" ; Prof. Bernard Ashmole (London—Univ. Coll.) ; Dr. Dudley Stamp (London—Sch. of Econ.), "The High Andes of Bolivia" ; Rt. Hon. GENERAL INFORMATION

The Bristol Medical School, founded in 1833, merged with the University College which was established in 1876. The College was dissolved and the University received its Charter in 1909. Its main buildings, opened in 1925, occupy a commanding site between the City and the residential districts, cost £500,000 ; the H. H. Wills Physics Laboratory, opened in 1927, cost £200,000. The Faculty of Engineering is housed in the Merchant Venturers' Technical College, and a grant for the maintenance of the Faculty is made by the Society of Merchant Venturers. Canynge Hall, within easy reach of the University, accommodates the Departments of Preventive Medicine, Pathology, Medicine, Surgery and Obstetrics.

LIBRARIES, 114,000 vols. LABORATORIES: Scientific, Medical, and Engineering, all equipped for purposes of research. Hospitals available for clinical

study, 2 General (675 beds), Children and Women (120), Eye (40), in all 835 beds.

FACULTIES. Arts, Science, Medicine, Engineering, Law. Deans: Prof. W. W. Jervis, D.Sc. (Geog.), Prof. C. M. Yonge (Zool.), Prof. R. J. Brocklehurst (Physiol.), Prof. A. Robertson (Mech. and Mining Eng.), Prof. M. M. Lewis (Law).

Special Departments. Education (places for 290 men and women students); Law; Agriculture and Horticulture; Preventive Medicine Laboratory (for investigation of epidemic and other outbreaks, examination of waters and foods).

ADMISSION.* See Appendix I.

DEGREE COURSES. B.A., B.A. (Com.), B.Sc., B.Sc. in Agriculture, B.Sc. in Engineering, LL.B.—3 yrs., including at least 2 in the Univ.; Honours in Arts, Pure Science and General Science—4 yrs., except for those who enter with Higher School Certif.; B.Sc. in Domestic Science—4 yrs.; by research in case of a graduate of another Univ.—2 yrs.; M.B., Ch.B.—5 yrs., after passing a Prelim. Science examn. in Chem. and Physics; B.D.S.—5½ yrs., including at least 3 in the Univ.

Instruction given in Theological subjects in the Associated Colleges to undergraduates of the Univ. by the Principal or teachers mentioned above is, for the purpose of the B.A. degree, deemed to be given in and by the Univ.

HIGHER DEGREES. M.A., D.Litt.; M.Sc., D.Sc. (in Pure Sc. or Engineering); Ch.M., M.D.; LL.M., LL.D.; Ph.D. (see p. 13). Graduates of other Univs. are placed practically on the same footing as graduates of Bristol as regards facilities for proceeding to all these except the Medical Degrees. Candidates who graduate with Honours in Science may take the M.Sc. one yr. later. Otherwise the Mastership is not granted within 2 yrs. after graduating. The M.D. may be taken 2 yrs. after graduating in Med., the D.Litt. 4 yrs. after the M.A., and the D.Sc. 4 yrs. (3, if devoted to original work in the Univ.) after the M.Sc. The LL.M. 2 yrs., the LL.D. 4 yrs. after graduating. V. also Changes in Regns., *infra* p. 40.

DIPLOMAS. Education (post-graduate) 1 yr., Public Administration 2 yrs., L.D.S. 4 yrs., Engineering 3 yrs.

CERTIFICATES. Testamur in Social Study, 2 or (Higher Testamur) 3 yrs., Biblical Studies, 2 yrs., Applied Bacteriology (postgraduate), 1 yr., Midwife Teachers', 9 months.

FEES. Matricn., 3 gs.; Registration, £1:10s.; Tuition, annual, B.A., 24 gs., Theol. Students (1st year only), 20 gs.; B.Sc., 30 gs.; B.Sc. in Engin., 40 gs. (Lab. practice alone, 4 gs. per term for one day a week); M.B., Ch.B., entire curriculum, 220 gs.; B.D.S., including mech. lab. and hospl. practice, 214 gs.; LL.B., 24 gs.; Testamur in Social Study, 2 yrs., 27 gs.; Dip. in Public Admin., 2 yrs., £18; Certif. in Biblical Studies, 2 yrs., £10; Midwife Teachers' Certif., 9 months, 9 gs. Examination and degree fees: B.A., B.Sc., LL.B., 12½ gs.; M.D., 24 gs.; M.D.S., 24 gs.; M.A., M.Sc. and LL.M., 9½ gs.; LL.D., 24 gs.; Ph.D., 13 gs. Univ. Union, £3:10s. per annum. Home Students' Societies, 10s. 6d.

RESEARCH. The Colston Research Society devotes annually from £600 to £700 to the promotion of Research in the Univ. It offers, preferably to Bristol graduates, fellowships of £150 each, the money being provided by donors, who are allowed to determine the subject of the research and, subject to the approval of the Board of the Faculty, to nominate the holder. The donor has a right of

access to the research work and to receive the result of it 12 months prior to publication

SCHOLARSHIPS FOR GRADUATES. £160 for research in Engin.; £40 and £31 (women only); £52 for Chemical Metall. research; £30 for study in English Lit.; Graduate Scholarships for Research (total not exceeding £2000 p.a.), value £60 to £100 each; Studentship in Philosophy, £100; Fellowship for Medical research, £100. For particulars of the Michael Hiatt Baker Scholarship, etc., v. App. II. 1 and 18.

RESIDENCE. Mortimer House and Wills Hall for men—from £75 p.a.; Clifton Hill House and Manor Hall for women students—from 60 gs. p.a.

APPOINTMENTS BOARD. Secy., T. A. Leach, M.A. Victoria Rooms, Bristol 8.

During the calendar year 1936 the number of permanent posts obtained through the Board and otherwise by graduates and others who had registered with the Board was 117, viz. 80 men, 37 women. Educational 70; Government and Local Government Services, 8; Commerce and Industry, 24; Miscellaneous, 15.

For **FORMER STUDENTS** there is an Association of Alumni. Secretary—Mrs. I. A. Warne.

UNIVERSITY EXTENSION. Co-operation with Rural Community Councils. The Univ. appoints 3 representatives to the R.C.C. of Gloucestershire and Somerset respectively. The Director of Extra-mural Studies in the Univ. is Chairman of the Education Committee of each of the two Councils. Both Rural Community Councils contribute to the salary of whole-time tutors for Adult Education appointed by the Univ. for those Counties.

Schemes for Wiltshire and Dorset have been organized in co-operation with the Education Committees for these Counties, each of which contributes to the cost. Resident Tutors have been appointed to organize the work in each county, v. p. 35.

GENERAL INFORMATION

The legislative and executive authority of the Univ. is vested in the REGENT HOUSE, which comprises those Univ. Officers, Fellows of Colls., and others, who are concerned with its teaching and administrative work. A meeting of the Regent House is called a *Congregation*.

There is a right of appeal against a decision of the Regent House, on the motion of at least one-third of its members, to the SENATE, which consists of graduates of six or seven years' standing from their first term of residence, who have taken a degree of Doctor or Master, or the degree of Bachelor of Divinity. In order to be successful an appeal must be sustained by a majority prescribed by statute. The Senate elects the Chancellor and certain other officers, confers degrees, and holds meetings for the discussion of proposals.

Changes of statute can be made by the Univ. with the approval of the Privy Council and Parliament.

Many executive duties, and the duty of sanctioning the submission of resolutions (called *Graces*) to a Congregation, are entrusted to the *Council of the Senate*, which is elected by the Regent House.

The titular presiding officer at a Congregation, and the Chairman of the Council, is the Chancellor, who is by custom a non-resident distinguished in public life. His duties are in fact performed by the Vice-Chancellor, who is a Head of a College, appointed annually, in theory by the Regent House, in practice by the Council. It is customary for the Vice-Chancellorship not to be held for more than two years in succession by one person.

There are numerous *Boards* and *Syndicates* for dealing with the various branches of University business: the most important of them are the *General Board of the Faculties*, whose duty it is to advise the Univ. as to educational policy and to supervise and co-ordinate the work of the Faculties, and the *Financial Board*, whose duty it is to supervise the finance of all spending departments.

There are twenty Faculties, a Faculty being a body of persons furthering the study of a subject or group of subjects. The organization of teaching, research, and examinations in the various subjects is in the hands of the several Faculty Boards, subject to the control of the General Board. A Faculty Board is in part composed of members elected by the Faculty. Some of the Faculties are divided into Departments, under a Head, generally a Professor, who is responsible for the management of his Department.

For an outline of the statutes which became operative in 1926, v. *Yearbook* 1932, p. 66.

The INCOME of the Univ. is derived from the endowments of specific posts, from general endowment (though to a small extent only), from the fees of students, from the statutable contributions of Colls., and from a Treasury Grant.

DISCIPLINE outside the walls of the Colls. is maintained by the Proctors.

The UNIV. TEACHING OFFICERS are the Professors, Readers, Univ. Lecturers, Univ. Demonstrators, and Asst. Directors of Research. They, as well as most of the administrative officers, are required to join the Federated Superannuation System for Univs. The retiring age is 65, but 60 (with the possibility of extension to 65) for women Univ. Lecturers.

The COLLEGES are self-governing corporate bodies distinct from the Univ., owning and managing their separate property, the incorporators being the Head and Fellows. Their powers are, however, limited by their statutes, which cannot be altered by them without notice to the Univ. and approval

by the Privy Council. The functions of the Colls. in regard to students are to provide lodging, corporate life, and personal tuition, while the function of the Univ. is to provide public instruction by means of lectures and demonstrations, examinations leading to degrees, and facilities for research. The affairs of the Colls. are, however, closely interwoven with those of the Univ. Most of the Fellows of Colls. are Univ. officers, indeed the statutes require that a certain proportion of the Fellowships of each Coll. shall be held by Univ. officers. And each Coll. is required by statute to contribute a certain fraction of its income to the funds of the Univ., the scale of contribution being graduated according to the wealth of the College.

The Colls. also maintain Fellowships for the furtherance of research, and a large number of Scholarships. The title of scholar is awarded on purely intellectual grounds, but, as at Oxford, no Coll. emolument other than an allowance for rooms is paid to an undergraduate scholar unless he satisfies the Coll. that his circumstances justify the payment.

NON-COLLEGIATE STUDENTS reside in licensed lodgings or in "Houses" recognized by the Non-Collegiate Students' Board. Such students may, by becoming members of Fitzwilliam House, obtain opportunities for taking part in communal life (dining in Hall, belonging to athletic clubs, etc.) similar to those enjoyed by members of Colleges.

WOMEN STUDENTS. Subject to the condition that the joint number of women students receiving instruction in the Univ. shall not exceed five hundred, the students of the women's Colls. (Girton and Newnham) are admitted to instruction and examinations in the Univ. and to the titles of degrees, including research degrees. Women who have received, or are qualified to receive, titles of degrees share with men graduates, under the Representation of the People Acts 1918 to 1928, the privilege of voting for the election of the two Burgesses who represent the Univ. in the House of Commons. Women are eligible for all Univ. teaching offices and for membership of Faculties and Faculty Boards, but cannot become members of the Senate or Regent House. From 1872 women were informally admitted to Tripos examns. in the Univ., and from 1881 have been formally admitted to the Previous Examn., the Tripos examns., and certain examns. in Med. and Music. They were subsequently admitted to the courses and examns. for the Diplomas in Agric., Horticulture, Forestry, Geog., and Education. In Oct. 1921 the Grace admitting them to titular degrees was passed. Under the New Statutes in Oct. 1926 women became eligible for all Univ. teaching offices, and in the following year were enabled to compete on the same footing as men for Univ. Studentships, Scholarships, and Prizes, except where specially excluded. Since 1934 they have been admitted to all courses of study alike.

ADMISSION. See Appendix I.

NON-MEMBERS OF THE UNIVERSITY. A teacher of subjects pertaining to a Faculty or Dept., or a person pursuing research upon such subjects, may be admitted to courses of instruction by the Chairman of the Faculty or the Head of the Dept., paying such fees, if any, as may be determined in each case. In some special cases the approval of the Council of the Senate is required.

A candidate for a Diploma or Certificate which is open to non-members may attend courses leading thereto, paying, in addition to the fees proper to the courses, a single fee of a guinea and a half.

Under the same conditions as to fees, other non-members may attend courses by leave of the Council of the Senate, normally not for more than two terms. Applicants, before making their arrangements to come to Cambridge, should

inform the Registry of their scholastic or academic status, subjects of study, proposed length of sojourn, and reasons for not joining the Univ. or one of the Women's Colleges.

If it is doubtful which of the preceding paragraphs is relevant, application should be made to the Registry.

INCORPORATION. Students who before admission as members of this Univ. have kept terms by *bona fide* residence at Ox. or Dub. (Trinity College) are, subject to certain provisos, allowed terms corresponding to those which they have so kept; a graduate of Ox. or Dub. (Trinity College) who took a degree or degrees after having duly qualified himself therefor not only by having passed the examns., etc., required, but by having kept his terms by residence in his own Univ., may be admitted on certain conditions to the same degree or degrees in Camb. Women graduates of Ox. or Dub. (Trinity College) may be admitted by incorporation to the title of the same degree or degrees in Camb.

INTERCOLLEGIATE INDIAN STUDENTS COMMITTEE: Secy., R. B. Whitehead, M.A., 22 Fitzwilliam St.

TERMS. In order that a term may be counted towards qualifying for a degree, a student must reside in Cambridge (*i.e.* within a circle of $2\frac{1}{2}$ miles' radius from Gt. St. Mary's Church) during three-fourths of the term. Full terms begin: 1937-38—Oct. 8, Jan. 12, Apr. 19; 1938-39—Oct. 7, Jan. 16, Apr. 18; end: 1937-38—Dec. 6, Mar. 12, June 10; 1938-39—Dec. 5, Mar. 16, June 9.

DEGREES. B.A., M.A.; M.Litt., Litt.D.; M.Sc., Sc.D.; B.D., D.D.; LL.B., LL.M., LL.D.; M.B. and B.Chir., M.Chir., M.D.; Mus.B., Mus.M., Mus.D.; Ph.D.

ARTS. The qualifications for the B.A. are: (i.) 9 terms' residence; (ii.) passing or being exempted from the *Previous Examn.*; (iii.) passing the examns. for the Ordinary Degree or a Tripos examn. or examns.

Exemption from (i.) to the extent of 3 terms can be obtained by students entitled to the privileges of *affiliation* (v. App. I.).

(ii.) The *Previous Examn.* includes Latin or Greek, one other language, Maths., and English. Subject to certain provisos, natives of Asia or Africa who are not of European parentage may substitute papers in Arabic, Chinese, Sansk., or Pali for the Latin papers. For details and exemptions, see Appendix I.

(iii.) Ordinary Degree: (a) the General Examn. (which comprises a number of subjects) and a Special Examn. in one of the following subjects: Div., Engl. Lit., Econ., Law, Rural Econ., Military Studies, Psych., Physics, Chem. Or (b) the Examns. in *Agriculture* and allied subjects. Or (c) the Examns. in *Architectural Studies*. Or (d) the Examns. in *Engineering Studies*.

Certain combinations of (a), (b), (c), and (d) are allowed, and also certain combinations of parts of (a) with parts of the course for the M.B. or the Mus.B., or with parts of a Tripos course.

Honours Degree: obtained by passing in one or more of the following Triposes: Archæological and Anthropological, Classical, Economics, English, Geog., Hist., Law, Maths., Mech. Sciences, Mod. and Med. Langs., Moral Scs., Nat. Scs., Oriental Langs., Theol.

A Bachelor may be admitted Master of Arts at the end of six years from the end of his 1st term, provided that not less than 2 yrs. have elapsed from his admission as B.A.

DIVINITY. A graduate proceeds to the B.D. when he is of not less than five years' standing from his first degree, either (1) by submitting an original dissertation composed by himself on some subject connected with Biblical Criticism, Exegesis, or History, or with the Nature and Grounds of Christian Belief, or with Dogmatic Theology, or with the study of other Religions in relation to the Christian Religion, or with Ecclesiastical History, Literature, or Antiquities, or with the Philosophy of Religion, or (2) by specifying his published works on one or more of these subjects. He is required to satisfy the Degree Committee, either by his dissertation, etc., or otherwise, that he possesses a competent knowledge of Christian Theology. A B.D. of 3 yrs.' standing proceeds to the D.D. by submitting published works or a printed dissertation on the same subjects as those for the B.D.

LAW. A student who has kept 9 terms and obtained Hons. in both parts of the Law Tripos, or Hons. in some other Tripos and subsequently Hons. in either part of the Law Tripos, is entitled to proceed to the degree of B.A. To qualify for the LL.B. it is necessary to pass the LL.B. examn. after having kept 9 terms and obtained hons. in Pt. I. or Pt. II. of the Law Tripos, or passed in either Part at the hons. standard, or taken the degree of B.A. and qualified for practice as a barrister or solicitor in England or Ireland, or as an advocate or law agent in Scotland. (For an Affiliated Student these requirements may be modified.) A LL.B. may, not less than 6 years after the end of his 1st term and not less than 2 years since his admission, ask leave to submit a dissertation on some branch of law or of the hist. or philosophy of law, and, if such dissertation is approved, he may be admitted to the Degree of LL.M. Any graduate may be admitted LL.D., not less than 8 yrs. after admission to his 1st degree, if he has published one or more original contributions, approved for the purpose, to the advancement of the science or study of Law.

MEDICINE. The qualifications for the M.B. and B.Chir. are: (i.) 9 terms' residence; (ii.) passing (or exemption from) the *Previous Examn.* (iii.) 5 yrs.' Med. study; (iv.) passing in due order several examns. (of which one must be a Tripos examn.). Admission to certain examns. is conditnl. on proof of diligent attendance on prescribed courses of lectures and practical work. Admission to the Final M.B. is conditnl. on proof of 5 yrs.' Med. study, of which 3 yrs. must have been spent in hospl. practice, and diligent attendance on prescribed courses of instruction and practical work. A graduate of the Univ., on submission of a thesis or dissertation, may be admitted M.D. when 8 yrs. have elapsed since admission to his first degree. A candidate for the M.Chir. Degree must pass an examn. to which, if Master of Arts, he may be admitted after he has become legally qualified to practise Surgery. A candidate who is not a Master of Arts may be admitted to the examn. 2 years after completing all the requirements for the B.Chir. Degree; but 3 years must have elapsed since he was admitted B.Chir. before admission to the M.Chir. Degree. Addenbrooke's Hospl., containing over 300 beds and large out-patient depts., is available for clinics. Overseas examns. exempting from the 1st M.B. (except Part IV.): examns. for B.Sc. of Univ. of S. Africa (subject for subject); 1st yr. examn. for M.B. and Ch.B. or B.Sc. of Univ. of Cape Town or Witwatersrand; 1st examn. for med. degrees in Univ. of Adel., Melb., or Syd., or 1st examn. in Science in Univ. of Queensland, W. Aust., or Tasm.

MUSIC. The qualifications for the Mus.B. include (i.) 9 terms' residence; (ii.) passing (or exemption from) the *Previous Examn.*; (iii.) passing an examn. in two parts whereof the first may not be taken before the 2nd term, nor the 2nd before the 8th term. The Mus.M. may be taken after at least 3 yrs.

have elapsed since admission as Mus.B. and after passing the prescribed examn.

Graduates of not less than 8 years' standing from admission to their first degree who have given proof of distinction in musical composition may be candidates for the Mus.D.

The Sc.D. and Litt.D. Either degree is open to a graduate of not less than 8 years' standing from admission to his first degree. These degrees are granted in consideration of published original contributions to the advancement of Science or Learning.

DIPLOMAS. In addition to degrees, which are for the most part conferred only on its own members, the Univ. grants 2 Diplomas which are open to other persons—in Geog., and in Med. Radiology and Electrology; and 7 which are restricted, or almost restricted, to members of the Univ.—Agric. Sc., Anthropol., Architect., Class. Archæol., Education, General Archæol., and Oriental Langs., the diplomas in Anthropol., General Archæol., and Orient. Langs. being open to non-members in certain exceptional circumstances only. *Certificates* of competent knowledge of certain foreign langs., open to members of the Univ. only, are awarded. *Certificates of Proficiency* in Agriculture, Estate Management, Architectural Studies, and Engineering Studies are awarded to those who proceed to the Ordinary B.A. by way of the examn. in those subjects. A *Divinity Testimonium* is granted on proof of diligent attendance at 6 courses of lectures.

The *Joint Coal Mining Diploma* of the Univs. of Cambridge and Birmingham enables Cambridge graduates in Engineering to shorten by one year the period of training at Birmingham otherwise required. It is approved by the Board of Trade.

The Diploma in Anthropology may be obtained after residence for one term only by *Officers of any of the Public Services of the Empire*, not ordinarily resident in the British Isles, having exceptional qualifications, or by *Missionaries who have served abroad*.

The Univ. makes provision for training candidates for the Higher Civil Services; Indian Civil Service selected candidates; candidates for administrative appointments in Tropical Africa and other branches of the Civil Service, and candidates for service under the Govt. of the Sudan. To meet the wants of Civil Service candidates a series of lectures supplementary to the courses for regular Tripos candidates has been arranged by the Board of I.C.S. Studies, and by a Committee of Associated Colls. Detailed information may be obtained from the Director of Civil Service Studies, appointed by this Committee (C. J. B. Gaskoin, M.A., Fitzwilliam House), and from O. V. Guy, D.S.O., M.C., M.A., Lensfield House, Lensfield Road, who is Secy. to the Board of I.C.S. Studies and to the Appointments Board.

A system of MILITARY INSTRUCTION has also been organized by the Univ. The Board of Milit. Studies (Secy.—Lt.-Col. G. J. Hornsby Wright, D.S.O., M.A. Emm.) are in direct communication with the War Office and responsible for the nomination of Camb. Univ. candidates for Regular commissions in H.M. Forces. See Appendix IV. 1.

AVIATION. Official recognition has also been given to the University Air Squadron. The Squadron, membership of which is strictly limited, is primarily a technical organization affiliated to the University and under the direction of the Air Ministry; but practical flying instruction is also given to members. See Appendix IV. 1. Other students, with the permission of their parents or

guardians and also of their Tutors, are permitted to fly, under certain restrictions, as members of a Civil Flying Club.

The *TRAINING OF TEACHERS* is under the management of the Teachers Training *Syndicate*, established in 1878 (Secy.—F. E. E. Harvey, M.A.; address—17 Brookside, Cambridge).

Examns. for the *Certificate in Education*, held in June and Dec., are open to students of certain colleges, and to graduate teachers who have had at least a year's experience in a Secondary or other approved School, if their attainments are satisfactory.

Students of the *University Training College* (Principal—C. Fox, M.A. Chr.; address—17 Brookside, Cambridge) devote their first 3 yrs. to reading for the B.A. degree, the 4th to professional training. Several exhibitions are offered to intending schoolmasters. Students who have not previously been attached to the college may also take a post-graduate course of training.

There is also the *Cambridge Training College for Women* (*Post-graduate*) (Principal—Miss H. Dent, M.A. Girton), which admits women who have graduated at any British Univ. to a course of professional training in preparation for work in all types of schools. Recognized students receive a grant from the Board of Education, and graduates in receipt of the four years' grant at any Univ. may be transferred for their 4th year to this College after compliance with the necessary formalities. Total number of students, about 55.

For *HOLY ORDERS* in the Church of England Cambridge graduates are trained at Ridley Hall, founded in 1879 (Principal—Rev. J. P. S. R. Gibson, M.A., F.I.A. Sid. Suss.); or at Westcott House, founded in 1881 (Principal—Rev. Canon B. K. Cunningham, O.B.E., M.A. Trin.). Other theological colleges recognized by the Univ. as Houses of Residence for students: Westminster Coll., founded 1844 (Principal—Rev. W. A. L. Elmslie, B.D. Chr., Presbyterian); Cheshunt Coll., founded 1768 (President—Rev. J. S. Whale, M.A. Magd., mainly Congregational); St. Edmund's House, founded in 1896 (Rector—Rev. J. E. Petit, M.A. Chr., Roman Catholic); and Wesley House, founded 1924 (Principal—Rev. H. M. Hughes, M.A. Jes., D.D. Lond.). Cheshunt and Westminster Colleges were moved from Cheshunt and London in 1905 and 1899 respectively.

RESEARCH STUDENTS. Each application for admission must be made to the Secretary, and accompanied by (i.) a diploma or other certif. of graduation at a Univ.; (ii.) a statement as to the course of research which the applicant desires to pursue, together with evidence of qualification, attainments and previous study; (iii.) a statement of the degree, if any, for which the applicant wishes to be a candidate; (iv.) a certif. or declaration of the applicant's age at the date of application. In exceptional cases requirement No. (i.) may be dispensed with. The application is not granted unless it appears (a) that the course of research can conveniently be pursued within the Univ., and (b) that the applicant has produced adequate evidence that he is qualified to enter upon the proposed course. Before admission he is required to become a member of a College, or a Non-Collegiate Student.

Secretary of the Board of Research Studies: J. T. Saunders, M.A. Chr. Correspondence should be addressed to the Secretary at the Univ. Registry, Cambridge.

A Research Student pursues his course under direction and supervision, prescribed by the Degree Committee of the Faculty concerned. If he should wish to obtain a degree elsewhere he may, after he has pursued his studies in the Univ. for not less than 2 terms with regularity and industry, receive a

Certificate to that effect signed by his supervisor and by the V.C. After a course extending over 2 yrs. and residence in the Univ. for at least 6 terms (Cambridge graduates, 3 terms) after admission as a Research Student, the M.Sc. or M.Litt. degree may be obtained. For the Ph.D. degree (v. p. 13) 3 yrs. are ordinarily required. One year of the 3-yrs.' course may be remitted if the applicant satisfies the Board of Research Studies that he or she has done at least a yr.'s satisfactory research work before admission to Cambridge Univ. For any degree six terms' residence is essential.

UNIVERSITY SCHOLARSHIPS open to graduates number about 60, and are worth about £6000 p.a. In almost every instance they are open only to persons who have graduated in this Univ., or have kept a certain number of terms. For details see *Students' Handbook* (price 7s. 6d., Univ. Press), which also gives details of *Entrance Scholarships*.

For scholarships and grants open to others than graduates of the Univ. see App. II.

DOMINION AND COLONIAL EXHIBITIONS. In view of the difficulties experienced by Dominion and Colonial students in competing for scholarships and exhibns. in the open examn. held each Dec., Trinity Coll. is prepared to consider applications made by Dominion and Colonial Univs. on behalf of their students for the grant of exhibns.; value £40 a yr. either more or less according to holder's financial circumstances. See also App. II. Candidates must apply through the principal authority of their Univ. Applications for next award must reach the Senior Tutor, Trinity Coll., by May 1, 1938, from whom particulars should be obtained.

EXPENSES. Since each student, in addition to Univ. fees, pays bills to a College (or to the Non-Collegiate Body), and the charges vary from College to College, a concise general estimate gives only a rough indication, which may be supplemented by particulars obtained from the College of the student's choice; but Chap. IV. of *The Students' Handbook to Cambridge, 1937-38*, gives copious detail, and contains the following passage:

"The total annual expenditure of a student, *exclusive of initial, occasional, and additional expenses*, may be fairly estimated at about £270, although on the one hand it is possible by great care to live upon less, and on the other hand a larger expenditure will often enable the student to obtain greater advantages from a University career."

The items on which this estimate is based, including "guesses" as to personal expenses, are: Univ. fees (capitation tax), £5 : 5s.; Lecture fees, £18; College fees, £34 to £50 (tuition, £21 to £27; establishment charge, £12 to £15; College dues, £1 to £8); board and lodging, £80 to £182 (rooms and service, £30 to £54; food expenses, £41 to £107; fuel, £6 to £12; laundry, £3 to £9); personal expenses, £51 to £112 (books, travelling, tradesmen—including tailor, etc., clubs, and societies). The excluded initial expenses are caution-money, College admission fee (£2 to £5), matricn. £5, furniture, linen, china, etc., £15 to £65, and (£2 to £4 : 10s.) cap, gown, and surplice. The "occasional" fees are for examns. £8 : 10s., and degree fees, £3. The "additional" expenses (which may be heavy, especially if much private tuition has to be allowed for) are additional lecture and laboratory fees, long vacation expenses, and private tuition.

THE UNIVERSITY APPOINTMENTS BOARD is concerned with appointments of all kinds (Secy.—O. V. Guy, D.S.O., M.C., M.A.; Asst. Secs.—A. L. Maycock, M.C., M.A. (Education); W. N. C. van Grutten, O.B.E., M.C., M.A. (Engineering)). Address: Lensfield House, Lensfield Rd. *Telegrams*—Appointments, Cambridge. *Telephone*—54242.

1937.—586 permanent appointments, including : Government Services, 86 ; Educational, 214 (24 temporary) ; Commerce and Industry, 272 ; Professional Clerkships, etc., 14. In addition, technical training in vacations was found for 101 men.

CAMBRIDGE UNIVERSITY WOMEN'S APPOINTMENTS BOARD. Secy.—Miss S. Campbell, M.A., 4 Brick Court, Temple, London, E.C.4. Interviews by appointment only.

The UNIVERSITY LIBRARY contains over 1,500,000 vols., including many early printed books, and over 10,000 MSS. and 200,000 maps. It is entitled under the Copyright Act to a copy of every book published in Gt. Britain and Ireland, and a large number of foreign books and periodicals are acquired by purchase. It contains, amongst others, the following remarkable collections : Acton library (mediæval, ecclesiastical, and modern history, 60,000 vols.) ; W. G. Aston's Japanese library ; Sir T. Wade's Chinese books ; J. W. Clark collection (Cambridge books, pamphlets, papers, etc.) ; the Paul Hirsch collection of music. The annual budget is about £30,000.

Each College has a library. Some are interesting survivals of mediæval rooms kept in the state in which they were originally arranged. Among special collections in College libraries are : in Christ's College the Robertson Smith collection of Oriental books, many of which are connected with Semitic literature ; in Gonville and Caius College 800 MSS., 60 *incunabula*, heraldic collections of Dr. John Knight (17th cent.), 1300 books and controversial pamphlets of Dr. Wm. Branthwaite (d. 1619), Norfolk and Suffolk topographical and genealogical works ; in Girton College small collections of Oriental books, chiefly Sanskrit (Cowell) and Hebrew (Frere—printed catalogue), and Botany books and pamphlets (Ethel Sargent).

DEPARTMENTAL LIBRARIES. In the Old Schools (formerly the Old University Library) are now housed the following : The Squire Law Library ; the Seeley Historical Library ; the English Library ; the Modern Languages Library (including the Beit Library of German books) ; the Moral Sciences Library. The Marshall Library of Economics is in Downing Street. The Oriental Languages Library (including the Bendall Sanskrit books) and the Music School are in what was formerly the Balfour Laboratory in Downing Place. In the Arts School are the library of the Philosophical Society and the Mathematical Institute.

MUSEUMS. (a) Art and Archæology.

The Fitzwilliam Museum (Director—L. C. G. Clarke, M.A. Trin. H.) contains a large and valuable collection of paintings, drawings, engravings, Egyptian and Greek antiquities, ceramics, coins, illustrated MSS., autographs, early printed books, and music.

The Museum of Classical Archæology (Curator—Prof. A. J. B. Wace, M.A. Pemb.) contains a collection of casts illustrating the history of Greek sculpture.

The Museum of Archæology and Ethnology (Curator—T. T. Paterson, M.A. Trin.) has a large and increasing collection, including Saxon urns and ornaments, casts of Central American monuments, Egyptian stone implements, unique Fijian collections, and numerous others resulting from scientific expeditions by Cambridge men.

(b) Science.

The Museums of Science include museums, laboratories, lecture-rooms, classrooms, and workshops for Agric., Biochem., Bot., Chem., Engin. (including Engine-room, Elasticity, Elec., and Hydraulic Labs., and drawing office), Exper. Physics, Hum. Anat., Ethnol., Medicine, Mineralogy, Path., Physiol., Psychol., Zool., and Comp. Anat.

The Museum of Zoology (Director—.....) includes very complete series of vertebrates and invertebrates, a series of invertebrata from Naples, valuable collection of Polyzoa, extensive collection of marine animals from Pacific and Indian Oceans, and an important collection illustrating heredity, protective resemblance, and mimicry.

The Sedgwick Museum of Geology (Curator—A. G. Brighton, M.A. Chr.) includes a fine collection of British and foreign building stones lately added to the Economic section.

LABORATORIES AND FIELD STATIONS.

The Zoological Laboratory, in addition to providing for the ordinary work of the Dept. and for research, affords peculiar facilities for the study of diseases of animals and of economic entomology.

Low Temperature Station for Research in Biochemistry and Biophysics (Superintendent—F. Kidd, M.A. Joh.). See App. III. A. I. (f.).

The Botanic Garden (Director—H. Gilbert-Carter, M.B., Ch.B. Edin., M.A. Trin.).

The Scott Polar Research Institute (Director—Prof. F. Debenham, O.B.E., M.A. Cai.). See App. III. A. (VI.).

Institute for Research in Genetics, Storey's Way. Adjoining is the *Small Animal Breeding Institute* (Director—Prof. R. C. Punnett, M.A. Cai., F.R.S.). See App. III. A. I. (d.)

The Molteno Institute of Biology and Parasitology (Director—Prof. D. Keilin, M.A. Magd.). See App. III. A. I. (d.).

Research Institutes attached to the School of Agriculture:

Animal Nutrition Institute. There is a branch laby. at the Univ. Farm (Director—W. S. Mansfield, M.A. Emm.). See App. III. A. I. (d.).

Plant Breeding Institute (Director—H. Hunter, M.A. Cath.). See App. III. A. I. (a.).

Virus Diseases of Potatoes Section (Director—R. N. Salaman, M.D. Trin. H.).

Horticultural Research Station (Director—D. Boyes, M.A. Emm.). See App. III. A. I. (b.).

Institute of Animal Pathology (Director—Prof. T. Dalling, M.R.C.V.S.). See App. III. A. I. (c.).

A SCHOOL OF PATHOLOGY was endowed by the Rockefeller Foundation (£133,000) and Ernest Gates (£33,000) in 1924.

The OBSERVATORY (Director—Sir A. S. Eddington, M.A. Trin., F.R.S., Plumian Prof. of Astr.), about a mile from Cambridge, has a meridian circle of 8½ in. aperture; the Northumberland equatorial 12 in. aperture; the Sheepshanks photographic equatorial 12½ in.; a number of smaller instruments, and a good library.

The SOLAR PHYSICS OBSERVATORY (Director—Prof. F. J. M. Stratton, D.S.O., M.A. Cai.) standing close to the older Obs. has the Newall telescope (25 in.), McClean cœlostast and spectrograph, Huggins telescopes, etc. The Univ. has taken over charge (for the Govt.) of the Solar Physics Obs. formerly at South Kensington, receiving a grant-in-aid.

The OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD, established 1873, examines or inspects and reports on the work of schools which provide education of the highest grade. It also holds yearly exams. and awards certificates—Higher, School, and Lower. The two former exempt the holder, under certain conditions, from Responsions and the Previous Examination, the Matricn. exams. of London, the Northern and other English Univs., and the Preliminary exams. of various professional bodies, etc. The Regulations

of the Board are published by the Ox. and Camb. Univ. Presses (post free 1s. 3d.). Secretaries: at Cambridge—T. G. Bedford, M.A., Brook House, Trumpington St.; at Oxford—C. H. Wilkinson, M.A., 74 High St.

The CAMBRIDGE LOCAL EXAMINATIONS, instituted in 1858, are held at 440 centres in the U.K. and 195 overseas, notably in India, Ceylon, Malaya, W. Indies, and Africa. Approx. number of candidates in 1937: Home 12,410, Overseas 16,250. Regns. for the School and the Higher School Certificates and Junr. examns. and for Certif. of Proficiency in English (for foreign students) may be obtained from Syndicate Buildings, Cambridge.

Local Examns. were held in December 1936 at 420 centres, including 49 in India, 33 in Ceylon, 54 in Straits Settlements and Malay States, 34 in Africa, 19 in W. Indies, 4 in China, 3 in S. America, 4 in Netherlands Indies, and others in Aden, the Bahamas, Belgium, Bermuda, British Honduras, British North Borneo, Fiji, Germany, Gibraltar, Japan, Malta, Manchuria, Mauritius, Portugal, Sarawak, Seychelles, and Switzerland. The number of candidates was 18,306. In July 1937 the examns. were held in 410 centres, of which 55 were overseas, and the number of candidates was 11,777.

UNIVERSITY EXTENSION Lectures are delivered and classes in connexion with them held by a staff of about 40 itinerant lecturers in various towns in different parts of England, under a system initiated in Cambridge in 1873. The characteristic features of the method of teaching adopted are (i.) the Lecture presenting the subject in broad outline, (ii.) the Class, held for about an hour before or after the lecture, at which questions are given out by the lectr., (iii.) the essays written on these questions, and (iv.) the examination. A Certificate is awarded to those whose work during the course is satisfactory and who pass the examination. A *Travelling Library* is provided for each course. The work is under the management of the BOARD OF EXTRA-MURAL STUDIES, on which there are, in addition to members of the Senate, representatives of the Local Centres Union and the Workers' Educational Assn. In 1936-37 41 full courses of 10 or 12 lectures and 12 short courses of 6 lectures were given, attended by 3768 persons.

THE SUMMER MEETING (University Extension) is held in Cambridge in alternate years. In other years there is a Vacation Course for Foreign Students, and also Summer Courses in Geography, History, English Literature, etc. A summer meeting will be held in 1938.

TUTORIAL CLASSES are arranged in connexion with the Workers' Educational Assn. They are managed by a Committee appointed by the Board of Extra-Mural Studies, including all the members of the Board nominated by the W.E.A. Attendances, 1936-37: men 289, women 334. The Tutorial Classes Summer School is held every year for 2 or 3 weeks. In 1937 it was held for 2 weeks in July and August and was attended by 52 students.

Six extra-mural students were resident in Cambridge for the year.

COURSES IN RURAL AREAS. The Board in co-operation with the Local Education Authority and other bodies arrange short courses of lectures in the villages of Cambridgeshire. Similarly the Board have entered into co-operation with the Local Education Authority and the Workers' Educational Association for the development of adult education in the rural parts of Bedfordshire and the Isle of Ely. Resident tutors supervise the work of the Board in Bedfordshire, Cambridgeshire, and Northamptonshire.

Full particulars of all the above obtainable from the Secretary (G. F. Hickson, M.A.), Board of Extra-Mural Studies, Stuart House, Cambridge.

PUBLICATIONS. The *Camb. Univ. Reporter*, weekly during term, 3d. a copy,

(St. John's, Newfoundland); Salisbury; Warminster; Bishop Wilson School, Isle of Man; Queen's Coll., Birmingham.

Students may take in these Colleges courses extending over 3 years, which qualify for the L.Th. Nine terms kept in one of these Colleges, after passing the matricn. examn., may be counted in lieu of 6 of the terms required for the B.A. degree in the case of a student who obtains the L.Th.

GENERAL INFORMATION

The University was established under Act of Parliament, passed in 1832, and reconstituted in two divisions in 1908. The College of Medicine, founded in 1832, and associated with the University first in 1852, and more closely in 1870, and Armstrong College founded in 1871 as the Durham College of Physical Science, were merged in 1937 in King's College, Newcastle-upon-Tyne. The Vice-Chancellorship is held for a period of two years alternately by the Warden of the Durham Colleges and the Rector of King's College.

GENERAL INFORMATION

The University of Durham College of Medicine was originally founded in 1834 and became associated with the University of Durham in 1852. Armstrong College, Newcastle-upon-Tyne, was founded in 1871, as a part of the University of Durham. In 1937 the two Colleges were merged to form King's College, Newcastle-upon-Tyne, in the University of Durham.

LIBRARY, 132,768 vols., 38,727 pamphlets (including the Medical libraries). There are also departmental libraries. Access to Lit. and Philos. Society's 100,000 vols., and to library of N. of England Inst. M.M.E. Scientific periodicals subscribed for in co-operation with City Public Library. Special libraries: English Bibles from 1535; Heslop, English dictionaries (277 vols.); Kieper, fifteenth to eighteenth century printed books, mostly classics (600 vols.); Merz, philosophical, mathematical and general (3940 vols.); Spence Watson, early English texts (564 vols.); Oriental, with special reference to India (2762 vols. and 2082 pamphlets); Gilchrist, Agricultural (529 vols.); Gertrude Bell, Oriental (1963 vols.).

MUSEUMS. Anat., Hygiene, Mat. Med., Path., Dental, Zool., Geol., Mineral., Chem., Mining, Technological specimens.

LABORATORIES with special facilities for research in Engin. and Hydr., Elect. Eng. and Mining, and Experimental Phonetics; special branches of Chem., Physics, Geol., Bot. and Agric.; Marine Biol. (Dove Marine Lab., Cullercoats. See App. III. A. III.).

The Agric. Dept. undertakes the scientific control of Cockle Park, the Northumberland County Experiment Station, and has the use of other County and Crown estates for teaching, research, and demonstration purposes.

ADMISSION. See Appendix I.

DEGREE COURSES. Complete Courses for degrees in Arts, Architecture, Medicine, Surgery, Hygiene, Dental Surgery, Science, Applied Science, Law and Commerce, and for Univ. Diplomas in Education, Public Health, Psychiatry and the Univ. Licence in Dental Surgery.

Instruction in Clinical Medicine and Surgery is given in the Royal Victoria Infirmary (700 beds) and other hospitals; in Practical Midwifery and Clinical Gynaecology at the Princess Mary Maternity Hospital; in Clinical Dental Surgery in the Newcastle-upon-Tyne Dental Hospital. The Pathological Museum provides an exceptional collection of specimens prepared by modern methods. Post-graduate medical and dental teaching is supervised by committees representing the College and associated hospitals. Research facilities are available in the various departments.

The Applied Science courses are in Agriculture, Engineering (Mechanical, Marine, Civil, or Electrical), Naval Architecture, Mining, and Metallurgy. The Teachers' Training Dept. is available for both Elementary and Secondary School Work.

Under the Tutorial System, each student in faculties other than medicine is assigned on entry to a tutor, who is responsible for advising him on his course and generally looking after his interests. The Dean of Medicine performs similar duties in the Medical School.

COLLEGE DIPLOMAS. Fine Art (4 yrs.), Principles of the Teaching of Art (1 yr. after Fine Art Diploma or other approved qualification), Architecture (5 yrs.), Town Planning (1 yr. after Certificate), Economics, History, and Political Science (2 yrs.), Agriculture (3 winters of 2 terms), Mining (3 yrs.), Commerce (2 yrs., evening students only), Public Administration (3 yrs., evening students only).

For admission to study for the College Diploma (i.) in Agric., Mining, or Commerce, Economics, History, and Political Science, Public Administration, or for the Certificate in Fine Art, no regular entrance examn. is required; (ii.) in Fine Art an entrance examn. accepted for the purpose of matriculation.

COLLEGE CERTIFICATES. Fine Art (4 yrs.), Architecture (5 yrs.), Town Planning (2 yrs.).

Short courses are provided in Agriculture (10 weeks).

GENERAL INFORMATION

The Leeds School of Medicine, founded 1831, and Yorkshire College, established as a College of Science in 1874, were united in 1884. The College formed part of the Victoria Univ. from 1887 to 1904, when a Univ. was established by Royal Charter in the city of Leeds.

BROTHERTON LIBRARY, 209,022 books and pamphlets. **Medical Library**, 18,161 books and pamphlets. **Agricultural Library**, 19,090 books and pamphlets. The Brotherton Collection (MSS., some 300 *incunabula*, early printed books, and other special collections) is housed in the Brotherton Library. Other special collections: (a) 2300 vols. in French on Great Britain, printed before 1801; (b) 270 vols. on events in France in 1870–71; (c) Icelandic and Scandinavian collection of 10,661 vols. and pamphlets; (d) Mitresey Collection of 612 vols. on occultism; (e) All Souls Collection of 2294 vols. in early science and theology; (f) Library of the Leeds Philosophical and Literary Society, presented in 1936; (g) Chaston Chapman Chemistry Library, 3000 vols. and many thousands of pamphlets.

MUSEUMS: Anatomy, Dyeing, Materia Med., Path., Textile, Zool. **LABORATORIES**: Agricultural Chemistry, Botany, Chemistry, Colour Chem. and Dyeing, Engin. (Elec., Civ., Mech.), Geol., Leather Industries (including Procter Internat. Research), Maths., Metallurgy, Mining, Path. and Bacteriology, Cancer, Physics, Physiol., Textile, Zool. **OBSERVATORY**, 18½" reflector telescope. **FARM**, 348 acres, including Poultry School. **HOSPITALS** available for Clinics: Infirmary (627 beds) and several others; Asylum (2400 inmates).

FACULTIES. Arts (including Theology), Economics and Commerce, Law, Science, Technology [including Agric., Coal Gas and Fuel with Metallurgy, Colour Chemistry and Dyeing, Engineering (Civ., Elec., Mech.), Leather Industries, Mining, Textile Industries], Medicine (including Dentistry and Pharmacy). *Deans*: Profs. A. Hamilton Thompson (Arts), P. Barbier (Econ. and Commerce), J. D. I. Hughes (Law), R. Whytlaw-Gray (Science), E. L. E. Wheatcroft (Technology), Harold Collinson (Medicine). *Tutor of Women Students*: Dora M. Hibgame, M.A. Ox.

In connexion with each of the technological departments there is an Advisory Committee, which includes representatives of the industry concerned.

ADMISSION. See Appendix I.

DEGREES. Obtainable after a 3 yrs.' course from matricn.—B.A., B.Sc. (Honours degree usually 4 yrs.), LL.B., B.Com. (which may be taken with an Applied Science as one of the principal subjects), 3 yrs. for degree, or 4 yrs. including Diploma of Printing Dept. of Leeds Tech. Coll.; M.B., Ch.B., B.Ch.D. 5½ to 6 yrs.

General Honours B.A. and B.Sc. degree are conferred (v. p. 6).

Mining students receive practical instruction in mines under arrangements made with local owners, but the courses are not intended to supersede the usual apprenticeship.

Hons. students of Mod. Langs. (French, German, Russian, Spanish) normally spend 3rd term of 2nd year at some approved foreign Univ.

Supplementary Textile studies may be combined with a B.A. or B.Com. course. Any of the Tech. subjects may be taken in a B.Sc. course. The

Law Dept. prepares students for the Bar and Solicitors' examns. as well as for the Univ. degrees.

HIGHER DEGREES. B.D., M.A., LL.M., M.Com., M.D., Ch.M., 1 yr.; M.Ed., M.Sc., 2 yrs. (for holders of Hons. B.Sc., 1 yr. after the bachelorship). Graduates of approved Univs. (all the chief Univs. of the world, including institutions recognized by the Assocn. of Amer. Univs., v. App. VIII.) may obtain the M.A., Ph.D. (v. p. 13), or M.Sc. by 2 yrs. of research. M.A., Ph.D., or M.Sc. of this Univ. may obtain the Litt.D. or D.Sc. 6 yrs. after the bachelorship.

Graduates of other Univs. who have been admitted to degrees of equal or similar rank in Leeds may, in proceeding to higher degrees, count their standing as graduates from the date of original graduation.

DIPLOMAS. Animal Biology, Commerce, Education, Fuel and Metallurgy, Gas Engineering, Geography, Textiles, 1 yr. (sometimes 2) after graduation. Educational Administration, Public Administration, 2 winter sessions. Biblical Studies, 2 yrs. part-time. Social Organization and Public Services, 2 yrs. (1 for graduates). Engineering (Civil, Electrical, Gas, Mechanical, Mining), Fuel and Metallurgy, Mining and Metallurgy, Dyeing, Leather, Textile Industries, 3 yrs., reducible under certain conditions to 2. Agriculture, 3 yrs. (2nd and 3rd yrs. 2 winter terms only). Colour Chemistry, 4 yrs. Part-time for apprentices Gas Engineering, Fuel and Metallurgy, 4 yrs.; Colour Chemistry and Dyeing, 5 yrs. Public Health, 12 mos. after graduation. Psychological Medicine, 6 mos. after graduation. Nursing, involving 4 yrs.' hospital training and 3 mos.' lectures. Dental Surgery, 4 yrs. including 2 in Univ.

EVENING COURSES for advanced students in Technological subjects are conducted in co-operation with the Leeds and West Riding Education Committees.

FEES Matricn., £2. Registration, £2 (£5 for overseas students). Composition fees for tuition (including Union): Arts, £34 a session; Law, £14 : 11s.; Science, £42, Technology, £46 (special materials charge in addition of £10 for overseas students in Textiles Dept.); Agric. Degree, 1st session £42, 2nd and 3rd sessions (and 4th if required) £46; Agric. Dipl., 1st session £31, 2nd and 3rd sessions £20. The several Incorporated Institutions, Departments, and Schools of the University, together with other Institutions having Recognized Teachers, are referred to on pp. 136-223 below.

University teaching is organized under 3 categories: (1) conducted by the Univ. itself; (2) conducted by the several "Schools of the Univ."; (3) conducted at the other Institutions at which there are "Recognized Teachers of the Univ." For explanation of these terms, see below.

GENERAL INFORMATION

The University authorities desire that it should be clearly understood that they can accept no responsibility for any information concerning examns. or procedure except such as is contained in their own official Regns. These can always be obtained on application at the Univ. offices.

The Univ. was constituted by Royal Charter in 1836 as a body empowered to grant degrees to students of approved institutions after examination, and, until 1900, its work was confined to the examination of students. The system whereby entrance to its examns. was restricted to students of certain affiliated Colleges was abolished, except for examns. in Medicine, in 1858. In 1878 its degrees were thrown open to women, London being the first of the Univs. of Great Britain to adopt this policy.

In 1900 the Univ. was reconstituted so as to strengthen the ties between it and the institutions engaged in Higher Education within a radius of 30 miles. The Senate was empowered to admit as *Schools of the University* institutions situated within the administrative county of London and not carried on for the private gain or profit of the owners which provide education of Univ. standard, and required to obtain reports at prescribed intervals on the efficiency of such schools. A special form of recognition could be given to an institution within the same area founded for research or the cultivation of any special branch of science or learning, and the Lister Institute of Preventive Medicine, the Maudsley Hospital, the Bethlem Royal Hospital, the School of Pharmacy, and the School of Oriental Studies have been admitted in this category.

The two original Colleges of the Univ. have been incorporated in it, the University Coll. in 1905 and King's Coll. in 1908, the Senate taking over the responsibility for their administration.

Further changes in the constitution of the Univ. were made by the Statutes under the University of London Act of 1926. These Statutes came into force in March 1929. The most important change was the creation of a new body known as the Court, which is responsible for the finances of the Univ.

COURT. Under the Statutes, the Court has the custody, control and disposition of all the property, funds and investments of the Univ. and controls its finances. One of its most important duties is to distribute among the Schools the grants received for the purpose from the Government, the London County Council and other bodies. Prior to the reconstitution the Government grant had been allocated to Schools by the University Grants Committee.

The Court is also responsible for the development of the Bloomsbury site and the Buildings.

SENATE. Under the Statutes the Senate is the supreme governing and executive body of the Univ. in all academic matters. It has power to recognize as Teachers of the Univ. any members of the teaching staff of public educational institutions, whether Schools of the Univ. or not. Matriculated students of Schools of the Univ. or studying under such *Recognized Teachers* are eligible under certain conditions for registration as *Internal Students*, and are allowed, after pursuing Approved Courses of Study, to enter for the "Internal" examns. of the Univ. *External Students* may pursue their studies where and how they please, and are admitted, without any conditions as to attendance at Approved Courses but after a specified period of Registration, to examns. for degrees in all subjects except Medicine, Pharmacy, Mining, Engineering, and Architecture. The examns. for Internal and External students are in some cases separate, in others identical.

LIBRARIES. The libraries belonging to the Univ. of London contain in the aggregate c. 767,000 vols. and pamphlets distributed in three chief centres, as follows: (1) *The University Library* * at S. Kensington (c. 310,000 vols. and pamphlets), which provides a free lending library for students and well-

COMMITTEES OF THE SENATE. The five standing Committees are—The Academic Council, the Council for External Students, the Collegiate Council, the University Extension and Tutorial Classes Council and the Matricn. and School Examinations Council. There are about 30 other Committees, besides the 50 Boards of Studies.

TERMS for Univ. and Inter-collegiate courses, 1937-38: 7 Oct.-16 Dec.; 11 Jan.-22 March; 26 April-28 June.

DEGREES. B.D., D.D.; B.A., M.A., D.Lit.; LL.B., LL.M., LL.D.; B.Mus., D.Mus.; M.B., B.S., M.D., M.S.; B.D.S.; B.Pharm.; B.Sc., M.Sc., D.Sc.; B.Com., M.Com.; Ph.D. (in Faculties of Theol., Arts, Laws, Music, Medicine (non-clinical subjects), Science, Engin., and Econ.).

The B.Sc. and D.Sc. are granted in the Faculties of Science (including Agric., Hortic., Vet. Sc., and, for Internal students, Household and Social Science—B.Sc. only), Engineering, and Economics (including for External students, Estate Management); the M.Sc. in Science (including Agric., Hortic., Vet. Sc., and, for Internal students, Household and Social Science), Engineering, and Economics (including for External students, Estate Management).

ADMISSION. See Appendix I.

EXTERNAL students preparing for the Bachelorship undergo Intermediate and Final examns. at intervals prescribed in the Regns., and approximating (except in Med., Dental Surgery, and Vet. Sc.) to 3 yrs. in all. All External students (except, for the present, those overseas) are required to register for each examn., and all must previously have matriculated. Copies of all Regns. may be obtained gratis and post free from the External Registrar.

An External student who has been absent through illness from part of the Final examn. for a First Degree may apply to the Univ. for an Aegrotat Degree.

EXTERNAL EXAMINATIONS IN THE OVERSEAS DOMINIONS. Certain of the examns. of the Univ. for External students are held not only in London and at Provincial centres within Great Britain, but also in certain of the overseas Dominions of the Empire. In India, only the examns. in the Faculty of Theol. are held for civilians; but other examns. may be held for military personnel. The Matricn. examn. and the examns. in Theol., in Arts, in Laws, and in Economics have been held at about 150 overseas centres. The Univ. Examns. in Science have also been held under special arrangements at 16 overseas centres, including Ceylon, the Government of which colony now awards annually scholarships of a total value of £2400 per annum upon the results of the Univ. Final examns. in Arts and in Science.

AN INTERNAL student before being allowed to enter as such for any examn. must, unless specially exempted, have attended Instruction courses in all the subjects thereof. For a first degree in any Faculty he must have completed an Approved Course of Study extending over at least 3 yrs. which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. A minimum number of hours of attendance is as a rule prescribed for each course, and a reduction is allowed in the case of an evening student who is certified by an employer to be engaged in his service for not less than 25 hours a week. The Intern. course generally extends over 1 yr. As a general rule, Hons. may be taken at the Final examns. A course of study extending over not more than 1 yr. taken in another Univ. approved for the purpose subsequently to a student's passing the Intern. may be accepted subject to regns. in lieu of a course taken in this Univ.

An Internal student who has been absent through illness from part of the Final examn. for a First Degree may apply to the Univ. for an Aegrotat Degree.

Any person who has passed the Intern. examn. as an *External* student may be allowed to take the Final examn. for the first degree after having attended for 2 yrs. as an Internal student an approved course of study for it, but the degree is not conferred till after a further yr.'s course of approved study.

ARTS. In the Intern. examn. 4 subjects must be taken including 2 langs., of which one must be Latin with Rom. Hist., or Greek with Greek Hist. Natives of Asia or Africa may apply for permission to substitute for Latin or Greek—Classical Arabic, Classical Persian, Sanskrit, Pali, Classical Hebrew or Classical Chinese. In the Final examn. for the B.A. (General) Degree 3 subjects must be taken. The B.A. Honours Degree may be taken in any of the following branches: Archæol., Chinese, Classics, Greek, Latin, Hebrew and Aramaic (including Syriac), Hist., Geog., Maths., Philos., Psychol., English, French, German, Italian, Portuguese, Spanish, Slavonic Studies, Indo-Aryan, Arabic, Persian, Japanese, also Celtic for External students, and, for Internal students, Dutch, Scandinavian Langs., Anthropol., Sociol., Hist. of Art.

The B.A. course in Archit. for Internal students extends over 5 yrs., but

graduates of approved Univs. may be exempted from such part of the earlier yrs.' courses of study and examns. as the Senate may determine.

The M.A. is conferred in Archæol., Class. Hist., Hist. of Art, Maths., Mediæval and Mod. Langs., Oriental Langs., Philos., Educn., Geog., and, for Internal students only, in Anthropol., Comp. Philol., Modern Greek, Psychol., Slavonic Studies, and Sociology. Internal students are required (except in Maths.) to submit a thesis. In some cases candidates must have taken Hons. at the B.A. examn. External students may take the M.A. examn. 2 yrs. after graduation in Arts. Candidates may only take 1 branch or section at a time. In most there is a *viva-voce* examn.

The D.Lit. is open to M.A.'s and Ph.D.'s only, and is conferred for original work.

Diplomas. Teacher's, 1 yr. post-graduate; Journalism, 2 yrs., graduates, 1 yr. (also for External students); Librarianship, 2 yrs. for day students, 3-5 yrs. for evening students; Fine Art, 3 yrs. Academic Diplomas in Town Planning and Civic Archit. or Civic Engin., 2 evenings a week for 2 terms or 1 day a week for 3 terms; Hist. of Art, 1 yr. post-graduate; Geography, 2 yrs. (also for External students); Archæol. 2 yrs. post-graduate. Academic Post-graduate Dips. in Comparative Philol., Military Studies, Psychol. and Anthropol. 2 yrs. For Diplomas in the Humanities v. University Extension, *infra*.

SCIENCE. For the Interm. examn. Pure or Applied Maths. or Physics must be taken with 3 other subjects. For Final (General) examn. any 3 of the following may be selected: Pure Maths., App. Maths., Astron., Physics, Chem., Geol., Bot., Zool., Physiol., Psych., Anthropol., Milit. Studies, Geog., Human Anat. and Morph., and Logic and Method (Ext. students), Statistics (Int. students). For B.Sc. (Special) examn. a student selects 1 principal and (except in case of Human Anat. and Morphol. or Maths.) 1 subsidiary subject. Honours may be awarded at both B.Sc. (General) and B.Sc. (Special) examn. For the M.Sc. for Internal students a thesis is required except in Maths.

For the Degree in Agric. the Interm. examn. includes Chem., Bot., Zool., and one alternative subject; the Final is in 2 parts, Pt. I. including Sciences in relation to Agriculture and Pt. II. Professional subjects. In Horticulture the subjects for the Interm. are Chem., Bot., Zool., Geol. or Applied Physics, and Garden Operations; for the Final, Pt. I. Principles of Hortic., Pt. II. Practice of Hortic. For the Degree in Vet. Sc. there are 4 examns. to be taken in their proper order. Bachelors of Science (Agric. or Vet. Sc.) are held to be eligible for the ordinary D.Sc. For the Degree in Household and Social Science there are 3 examns.: 1st Interm. (Phys., Inorg. Chem., Biol., and Social and Econ. Hist.); 2nd (Chem.—Org. and Phys., Gen. and Econ. Biol., Principles of Econ.); and Final (App. Chem., Physiol. and Bio-Chem., Hygiene and Bacteriol., and Household Work).

Diplomas. Academic Post-graduate Dip. in Bacteriology, 1 yr.; Academic Dip. in Biology, 1 yr. (also for External students).

THEOLOGY. The Interm. course is in Elementary Hebrew, New Testament Greek, either Classical Greek or Latin, Ancient Hist., and Psych. and Ethics; the Final in Old Test., New Test., Bibl. and Hist. Theol., Church Hist., Philos. Introdn. to Theol., and a selected subject. The Examn. in Theol.—Advanced Subjects, is open to those who have obtained Honours at the B.D. examn. or who have obtained a Pass at the B.D. examn. and have passed a further qualifying examn. Any one of the following subjects may be offered:—Hebrew and Aramaic, including Syriac; Greek New Test. and Apocrypha; Church Hist.; Biblical and Historical Theol.; the Study of Religion.

Candidates for the D.D. Degree must have obtained the B.D. Degree and have passed the Examn. in Theol.—Advanced Subjects, and must submit original published work.

Diplomas. Academic Dip. in Theol., 2 yrs. (also for External students).

LAW. The subjects of the Intern. course are Rom. Law, Engl. Const. Law, Engl. Legal System, and Crim. Law and Crim. Procedure, *or* Indian Penal Code and Crim. Procedure. For the LL.B. candidates must offer General Principles of English Law and Jurisprudence and Legal Theory and three other subjects selected from limited groups. Candidates for the LL.M. are examined in three selected subjects. Candidates for the LL.D. must hold the LL.M. or the Ph.D. degree in the Faculty of Laws.

MEDICINE. The course extends normally over 5½ yrs. In the first yr. courses in Inorg. Chem., Phys., and Genl. Biol. in preparation for the 1st examn. for Med. degrees are taken. The 2nd and 3rd yrs. are devoted to Org. Chem. (the only subject at Pt. I. of the 2nd examn.), Hum. Anat. and Embryol., Physiol., Pharmacol. Pt. II. of the 2nd examn. is normally taken 18 mos. after passing the 1st. The Final course for the M.B., B.S. degrees falls into 2 groups as follows: Group I.—Med., Path., For. Med. and Hyg.; Group II.—Surg., and Obstetrics and Gynæcology. Examns. in the groups may be taken separately or together, but degrees are not conferred until candidates have passed in both groups.

Institutions outside the U.K. and Irish Free State, certificates from which for the complete course of Med. educn., including Clin. Med. and Surg. preparatory to the M.B., B.S. degrees for External students, are accepted by the Univ. of London: Univs. of Dalhousie, McGill, Adel. (with Infirmary), Melb. (with Melb. and Alfred Hospls.), Syd. (with Infirmary and Prince Alfred Hospl.), N.Z. (with Dunedin Hospl.); following Indian Med. Colleges—Grant (Bombay), Bengal (Calcutta), Lahore, Madras; Med. Coll., Colombo; Univ. of Malta; Sch. of Med., Cairo.

The M.D. may be taken in any of the following: Med., Path., Psych. Med., Midw. and Dis. of Women, Hygiene, Trop. Med.

The M.S. may be taken in Surg., Dent. Surg., Ophth., or Laryn., Ot., and Rhin.

For the M.D. or M.S. a thesis or published work may be submitted.

The course for the B.D.S. extends normally over 5 yrs.—there are 4 examns. The subjects of the Final examn. are Med., Surg., Pharm. and Mat. Med., Pathol. and Bacteriol., Dental Surg. and Orthodontics.

B.Pharm. The Intern. subjects are Bot., Chem., Physics, and Zool.; Final subjects are Bot., Chem., Pharmacognosy, and Pharmacy.

Diplomas. Academic Post-graduate Diplomas in Clinical Path. (also for External students), Medical Radiol., Public Health (also for External students) 1 yr.; in Dietetics, 2 terms and 30 weeks' practical work. For Post-graduate Diploma in Psychological Medicine and Diploma in Nursing, v. University Extension *infra*.

MUSIC. The subjects for the Intern. examn. are Harmony and Counterpoint, Form and Analysis, and Hist. of Mus. For the B.Mus. examn.: Harmony and Compn., Counterpoint and Canon, Fugue, Hist. of Music, Musical Analysis, Musical Exercise. Candidates for the B.Mus. must submit a musical exercise. For the D.Mus. there is a written examn. and a musical exercise.

ENGINEERING. Intern. examn. subjects: Pure Maths. and Applied Maths., Heat, Elec. and Magn., Engin. Drawing, and either Sound and Optics or Chem. or Geol. In the Final examn. in *Engin.* not less than 5

subjects are taken, a wide choice being allowed; in *Metall.* 6. In *Mining* the Final examn. is divided into 2 parts, with 5 subjects in each part. For an Honours degree in Engin. or Metall. at least 1 extra subject must be taken at the Final examn. and a higher standard reached in all the subjects taken. In Chem. Eng. the Final examn. is divided into 2 parts and candidates must pass Pt. I before they may enter for Pt. II.

ECONOMICS. The Interm. examn. for B.Sc. (Econ.) is in 2 parts, which may be taken together or on different occasions. Pt. I.—Elements of Econ., Geog., Maths. or Logic or French or German. Pt. II.—English Econ. Hist., British Constitution. For the Final—Econ., two alternative subjects, an essay, translation from two languages, and a selected subject.

MILITARY EDUCATION. See Appendix IV. 1. Military Studies is one of the optional subjects for the Interm. and Final B.A. and B.Sc. (General) examns. An Academic Dip. in Military Studies is awarded. All indoor instruction, lectures, etc., for this Diploma are held at King's Coll. from 5.30 to 7 P.M. on two evenings a week during term time.

AIR SQUADRON. The Univ. of London Air Squadron was founded in 1935 by the Air Ministry with the assistance of the Univ. Authorities. Its main object is to promote a serious interest in flying and its allied subjects. It does not form part of any Air Force either regular or non-regular and is intended to be civilian in character. It possesses a ground training centre in London at the Imperial College—City and Guilds College, and has allotted to it a flight of aeroplanes stationed at Northolt Aerodrome. Applications for membership should be addressed to the Chief Instructor, U. of L. Air Squadron, Exhibition Rd., London, S.W.7.

POST-GRADUATE STUDY AND RESEARCH. In most of the Colleges and Schools of the Univ. special arrangements are made for Research students, and the facilities offered are not restricted to Internal graduates of the Univ. External graduates and graduates of, and persons who have passed the degree examns. of, other approved Univs. are allowed, under certain conditions, to enter as Internal students for the degree of Bachelor or of Ph.D. in the several Faculties), and for the degree of M.A., LL.M., or M.Sc. Application for registration may be submitted with evidence of graduation, etc., through the authorities of the College, School, or Institution at which the applicant proposes to study, and supported by their certificate of his fitness to undertake a course of study or research with a view to the proposed degree, and that they are

willing to supervise his work. An Overseas student may himself submit an application on the prescribed form, and the Univ. will, if so requested, advise as to the selection of the College, School, or Institution at which, and Teacher under whom, he should study. Application for such advice should be addressed to the Academic Registrar. Overseas students should apply for registration before coming to London, and their applications should reach the Univ. by May 1, or, if from Australia or New Zealand, March 1, to enable them, should their applications be successful, to enter upon their course of study in Oct., *i.e.* at the beginning of the session. Students whose applications are approved are required to pursue a course extending over at least 2 yrs. (*v. infra*—Publications).

An Internal student who is a candidate for the Ph.D. degree must have graduated in the Univ. in the faculty of Theology, Arts, Laws, Music, Medicine, Science, Engineering, or Economics, or have been registered as a candidate for the degree after passing approved examns. for a degree in another Univ. An Internal student is further required to pursue a course of study of not less than two years' full-time, or four years' part-time, training in research and research methods. Any graduate of the Univ. may become a candidate for the Ph.D. degree in his first degree Faculty as an External student on receiving the approval of the Council for External students.

FEES. Matricn.—2½ gs.; Examn. and Graduation—12 gs. (Med., 29 gs.) for first Degree. Other Degree fees, 10 to 20 gs. Tuition, see the sections relating to the several colleges.

STUDENTSHIPS AND SCHOLARSHIPS. Studentships are awarded by the Senate in aid of advanced work or research. These include one of £50 p.a. for 1 or 2 yrs., open to students of Univ. Coll. in Maths.; one of £100 in Physiology, offered biennially; £100 and £140 in Arts; £100 in Econ.; £200 for the man or woman who, being resident in London and a graduate of the Univ., has done most in the preceding 5 yrs. to advance Medical Art or Science; £200 for a graduate of a British Univ. for the promotion of postgraduate research; 2 Univ. *Travelling Studentships* of £275 each, and 9 Univ. Studentships of £150 each, open to Internal and External graduates in all faculties; *Duveen Travelling Studentship* of £450 for research in Oto-Rhino-Laryngology. Three Scholarships of £50 each for 1 yr. are awarded annually for proficiency in Oriental Langs. The Scholarships Pamphlet, obtainable post free on application to the Univ., gives details of many others.

The *Sir Ernest Cassel Travelling Scholarships* (4) of £200 to £300 each, open to British students who pass the B.Com. Exam., and propose to pursue study of Commerce abroad.

For Research grants, etc., open to grads. of other Univs., *see* App. II.

ADVISORY SERVICE FOR EXTERNAL STUDENTS. Any External Student who is duly registered for an external examn. and experiences any difficulty in connexion with the appropriate studies may apply to the External Registrar for guidance. Such guidance may take the form of detailed schemes of study or personal discussion with an Advisor. For preliminary consideration there is no fee, but for detailed study scheme a fee of 1 to 5 guineas is charged.

THE COMMERCE DEGREE BUREAU exists to help in their studies External (especially extra-London) students proposing to take the Commerce Degree examns., to assist in the employment of Commerce Degree students and graduates at home and abroad, to provide a reference and lending library for students, and generally to promote the value and usefulness of the Commerce degree. The Bureau is administered by a Board of Governors. Offices were opened in 1922 in Russell Square and have now been transferred to the new

building. There is a Bureau Educational Advisory Staff (Chief Advisor: Prof. A. J. Sargent, M.A.). Prospectus and enquiry forms obtainable on application to the Secretary, H. J. Crawford, B.A.

The UNIVERSITY APPOINTMENTS BOARD is closely associated with the Commerce Degree Bureau and their offices adjoin. Secretary, H. J. Crawford, B.A.; Assistant Secretary for Women's Appointments, Miss E. A. Rand, B.Sc.

RESIDENCE. Hostels recognized by the Senate: Connaught Hall of Residence, 16-20 Torrington Square, W.C.1, for 55 men students; Univ. Coll. Hall, Ealing, for 66 men students; College Hall, Malet Street, W.C.1, for 170 women students; King's Coll. Theological Hostel, 71 Vincent Square, S.W.1, for 75 men students; The Platanes, Denmark Hill, S.E.5, for 75 men students from King's Coll. and its Med. School.

Residence is also provided at or in connexion with the S.E. Agric. Coll., Wye, Bart's, Guy's and Middlesex Hospl. Med. Schools, the Theol. Colls. at Hampstead and Highbury, and the Women's Colleges. London House, 1-8 Caroline Place, Mecklenburgh Sq., W.C.1, provides accommodation for 83 Dominion and British men students.

LODGINGS BUREAU, 42 Torrington Square, W.C.1. Enquiries to be addressed to the Lodgings Officer.

A UNION SOCIETY on the lines of those of Oxford and Cambridge was founded in March 1921. Address—University Union, 42 Torrington Square, W.C.1. The University Athletic Ground is at Motpur Park, near Wimbledon.

UNIVERSITY EXTENSION. The work of the University Extension and Tutorial Classes Council may be considered to fall under the following heads: (a) Univ. Extension Lectures and Tutorial Classes; (b) Holiday Courses for Foreigners; (c) Examn. for the Certif. of Proficiency in Religious Knowledge; (d) Examns. for Certificate of Proficiency in English, and for Certifs. of Proficiency in Danish, French, German, Italian, Norwegian, Russian, Spanish, and Swedish; (e) Examn. for Certif. of Proficiency in Diction and Drama; (f) Examns. for Diplomas in Hist., Lit., Economics and Social Sc., Hist. of Art, the Literary, Historical and Comparative Study of the Bible; (g) Examn. for Postgrad. Diploma in Psychological Med.; (h) Examn. for Diploma in Dramatic Art; (i) Examn. for Diploma in Nursing; (j) Examn. for Diploma in Theory and Practice of Phys. Educn.; (k) Examn. for Diploma in Theology.

(a) *Univ. Extension Lectures* have been carried on by the Univ. since 1902 (prior to that, 1876-1902, by the London Society for the Extension of Univ. Teaching). Courses are held, at about 50 centres, on Hist., Lit., Econ. and Social Sc., Study of the Bible, Philos., Psychol., Painting, Architecture, and Nat. Sc. A class is held in connexion with each lecture, and students are encouraged to do regular written work for the lectr. An examn. for certifs. may be held at the end of each Sessional (24 or 25 lectures) or Terminal (10 or 12 lectures) course. A few short courses (5 or 6 lectures) of a *pioneer* or illustrative kind are arranged; in connexion with these there is no examn. Continuous study over several years is encouraged by the *Diplomas in the Humanities* (Hist., Lit., Econ. and Social Science, Hist. of Art, the Literary, Historical and Comparative Study of the Bible), awarded, under the Seal of the Univ., to students who carry on an approved co-ordinated course of study usually covering 4 yrs., and pass the required examns. (Diplomas in Hist., Lit., and Econ. and Soc. Sci. are also awarded on the result of One Year Full-time study; Diplomas in Econ. and Soc. Sci., and Hist. of Art on the result of 2 yrs. part-time study.)

The *Tutorial Classes for Working-people* extend over 3 consecutive years, and membership is usually limited to about 24 students, who undertake to attend regularly and to do regular written work for the tutor. Certifs. are not awarded.

(b) *A Holiday Course in English for Overseas Students* is held annually in London; (1938—July 15—Aug. 11). Special stress is laid upon Phonetic teaching. The course is designed to widen the students' knowledge not only of the Engl. Lang., but of English customs, institns., and art, by means of lectures, classes, excursions, etc. The total number of students admitted to the course is limited to about 300, and the number in each class to 8. During the 30 years 1904-1914 and 1919-1937 the course was attended by 7655 students from 54 countries.

(c) The *Examination for the Certificate of Proficiency in Religious Knowledge* is held once a year in June. It may be held at certain of the Provincial centres at which the June Matricn. examn. is appointed to be held, as well as in London.

(d) *Examinations for Certificate of Proficiency in English* (i) for foreigners, in Aug. and Dec., (ii) for English-born, in Aug. They are intended to provide evidence, which may not be guaranteed by a teacher's other certificates, of such a practical working knowledge of the English language, written and spoken, and of such acquaintance with Phonetics, as may be of special value for teaching English in foreign countries (Scheme A), or to foreign students (Scheme B).

(e) *Examinations for Certificates of Proficiency in* (i) *French*, (ii) *German*, (iii) *Italian*, (iv) *Russian*, (v) *Spanish*, (vi) *Danish*, (vii) *Norwegian*, and (viii) *Swedish* are held—(ii) (iv) (vi) (vii) and (viii) in June, and (i) (iii) and (v) in July. They are intended primarily for teachers who are not specialists in, but who require a Certif. testifying to their practical working knowledge of, the language, both spoken and written.

(f) The *Examination for the Certificate of Proficiency in Diction and Drama* is held once a year, in July, and is open to Registered Teachers, to Teachers on the Provisional and Associate Registers, and to others specially approved, who have taken a one-yr. course at Training Schools or Institutions approved for the third-yr. course for the Diploma in Dramatic Art.

(g) The *Examinations for the Diplomas in History*—General Hist. or Modern Hist.; *Literature*—English Lang. and Lit. or General Lit.; *Economics and Social Science*; *History of Art*; and the *Literary, Historical and Comparative Study of the Bible*—are held once a year for students who have followed a recognized course of study for 4 yrs. as part-time students, or in some cases for a shorter period.

(h) The *Examn. for the Postgraduate Diploma in Psychological Medicine* is held twice a year, in March and Apr. and in Oct. and Nov., and is open to candidates whose names are in the Medical Register. There are two forms of this Dip., for those desiring to specialize (i) in Mental diseases (Psychiatry), and (ii) in Mental Deficiency.

(i) The *Examn. for the Diploma in Dramatic Art* is held once a year, in July, and is open to students whose general education satisfies the Council and who have studied at least 2 yrs., after attaining the age of 17 yrs., at Training Schools or Institutions where courses have been approved.

(j) The *Examn. for the Diploma in Nursing* is held once a year in October and November, and is open to Registered Nurses (or Nurses eligible to sit for the prescribed examn. for registration) whose general education satisfies the

Council, subject to certain specified conditions with regard to Part B of the Examn.

(k) *Examns. for the Diploma in the Theory and Practice of Physical Education* are held—Part I. twice a yr., in June and Dec., Part II. once a yr., in May, open to students who, after completing their 18th yr., have studied at least 2 yrs. before Part I. and 3 yrs. before Part II. at Physical Training Colleges whose courses have been approved.

(l) *Examn. for the Diploma in Theology* is held once a year, in July, and is open to students not less than 19 yrs. of age who have taken 2 sessions of full-time study or 3 sessions of part-time study at a Theological College recognized for the Diploma.

[Further information and copies of the Regns. may be obtained from the University Extension Registrar, University of London, W.C. 1.]

INSPECTION AND EXAMINATION OF SCHOOLS. A close relationship between examination and inspection has been carefully and continuously developed by the Univ. The County Councils of Middlesex and Surrey have placed their Secondary Schools to the number of 80 under the Univ. for regular inspection and for the holding of the School examns., the local authority in each case making a special financial arrangement with the Univ.

Inspection may include either a general inspection of the whole school or a special inspection of certain subjects or groups of subjects. It may be so combined with the Certificate examns. that these form an integral part of it. It may also include an examn. carried on by the Inspectors and the Staff of the school in co-operation. This system of combined inspection and examn. is known as Examination Inspection, and is capable of considerable variation to meet the requirements of any particular school.

The *Examinations for School Certificates* are held only in Schools inspected by the Univ. or under other approved inspection. See App. I.

The *Higher and General School Examinations* are recognized by the Board of Education as "Second" and "First" examns. respectively (v. App. I.), and the Certifs. A. and B. awarded to candidates attending schools recognized by it as efficient Secondary Schools are attested by it.

In the case of each of the School examns. an Inspector visits the school for the purpose of conducting an oral examn. in such Mod. Langs. as are taken. Practical examns. in Science are optional, except in the case of the Higher School examn., in which they form an essential part of the examn.

THE YEAR 1936-37

In August 1936 the administrative offices were moved from South Kensington to the new University building. The Library is in process of being transferred (1937-38).

BENEFACTIONS. The Chancellor has presented a series of cartoons from *Vanity Fair*, representing former notabilities of the Univ. The Royal Institution has given a letter written in 1859 by Michael Faraday to the Rev. John Barlow and containing references to the institution of Science Degrees in the Univ. Lord Macmillan, Mr. Eason, and Sir Robert Witt have given an interesting portrait of Lord Brougham, of whom the poet Thomas Campbell wrote in *The Times* of 9 February 1825, urging the foundation of a University of London, and who introduced in Parliament a measure to provide for University education in London. The late Mrs. Wharrie, anonymous donor of £10,000 in 1935 for the repair and upkeep of St. John's Lodge as a home for the Inst. of Archæol., two further donations, each of £2500, for the same purpose. The Inst. also received help from Mr. A. L. Reckitt. Mrs. Weldon (widow of Prof. Weldon, formerly Jodrell Prof. of Zool. at University Coll.) bequeathed her residuary estate for a Chair of Biometry, preferably at University Coll. Miss A. B. Marshall left her residuary estate for the "advancement of surgery" in the name of her father, Dr. John Marshall, F.R.S. The Hungarian Government are providing £350 p.a. for 4 yrs. for a Lectureship in Hungarian Lang. and Lit. at the School of Slavonic and East European Studies. Two Prizes (books), founded in memory of Professors of the Univ. by means of an endowment raised by Memorial Fund Committees, viz. a Robert Priebisch Prize in German and an Edmund Gardner Prize in Italian.

Univ. Library: Mr. Harry Price deposited on permanent loan his Library of Magical Literature (over 14,000 vols., covering four centuries) and made provision for its upkeep. The Univ. of Monte Video, nearly 1000 books, distributed between the Univ. Library and the Libraries of University Coll. and the Inst. of Historical Research. The Hydrographic Dept. of the Admiralty, 274 cancelled charts for the Map Dept., to be followed by copies of all charts on cancellation. The Central Bureau of the International 1:1,000,000 Map of the World, a set of the sheets of Gt. Britain pubd. by the Ordnance Survey. The Trustees of the British Museum, facsimiles of old maps issued by the Museum, including a complete set of Saxton's Maps of the Counties of England. Mr. Basil Long, Keeper of the Dept. of Paintings, Victoria and Albert Museum, bequest of any of his books up to 200 vols. to be chosen by a representative of the Univ.

NEW BUILDINGS. Accommodation for other institutions to be housed on the Bloomsbury site is in progress.

A few months after the transfer of the administrative offices to the new buildings ("The Senate House") an accident happened in the Tower, where work was still in progress, which resulted in the death of Sir Edwin Deller, Principal, on Nov. 30, 1936, and serious injury to another member of the staff.

NEW POSTS. At *Univ. Coll.*: Weldon Chair of Biometry. At *King's Coll.*: Readership in English Law. At *Imperial Coll.*—*City and Guilds Coll.*: Clothworkers' Readership in Applied Thermodynamics. At *London Hosp.*

Med. Coll. : Readership in Physiology. At *Lister Inst. of Preventive Med.* : Readership in Biochemistry.

UNIVERSITY EXTENSION. Number of Lecture Courses : Sessional (24 or 25 Lectures), 43 ; Terminal (10 or 12 Lectures), 35 ; Short (4 or more Lectures) 33. Terminal entries of Students for all Courses, 7280. Humanities Diploma Students, 468. Three Year Univ. Tutorial Classes, 69 ; Preparatory Classes, 1 ; Students, 1327.

The Holiday Course in English for Overseas Students was again very successful : there were 298 students, representing 31 nationalities.

VISITORS who lectured in the University : Prof. G. Florovsky of Paris (Theol.) ; Prof. H. Frankfort of Amsterdam (Archæol.) ; Dr. R. Theodore Roosevelt (Watson Chair Foundation Lectures).

DEATH. Sir Edwin Deller, Principal of the University, who died on Nov. 30, 1936, entered the service of the Univ. in 1912. He was appointed Academic Registrar in 1921 and Principal in 1929.

HONORARY DEGREE. *D.Sc.*—Prof. Niels Erik Nörlund.

STUDENTS. Total admissions in the year 1936 were 13,462, of whom 3754 were exempted from the ordinary matric. examn. : 709 as graduates of other Univs., 2712 as holders of approved certificates, and 333 after passing the Special Univ. Entrance examn. Of 5455 candidates for first degrees, 3074 were internal and 2381 external. The total number of internal students on the rolls was 13,613, while about 13,000 were registered as external.

GENERAL INFORMATION

Founded in 1826 and opened Oct. 1, 1828, under the name of "The University of London," the College was incorporated as "University College, London," by Royal Charter in 1836. On Jan. 1, 1907, it was incorporated in the University of London.

LIBRARIES (containing over 377,000 bound vols. and pamphlets): (1) General, including Barlow (Dante), Carnegie (American History and Institns.), Field (Fine Art), Robertson (German), Morris, Ricardo (Polit. Econ.), Rotton, Strong (Oriental), and Whitley Stokes (Celtic) collections, the Library of the Philological Society, and the Bentham MSS.; (2) Science, including Ramsay (Chem.), Grant (Zool.), and Graves (Maths.), collections, the Library of the Geologists' Assn., the books deposited by the London Mathematical Soc., the Hertfordshire Nat. Hist. Soc., and the Malacological Soc., and an exceptionally good collection of scientific journals; (3) Med. Sciences (Thane), including

Sharpey (Anat. and Physiol.) collection; (4) Special Arts Libraries for: Archit., Classical Archæol. (Yates), Classics and Anc. Hist., Egyptol. (Edwards), English, French, German, Geog., Hist., Italian, Jewish Hist. and Antiq. (Mocatta), Librarianship, Hist. of London, Philos. and Psychol., Phonetics, Scandinavian, incl. Viking Society Library and a general Advanced Arts Library; (5) Law Library, including Blackburn and Quain collections.

MUSEUMS. Anat., Archit., Bot., Egypt., Engin., Geol. and Mineral. Vulcanological (Johnston-Lavis Collection), Zool. Three Astron. OBSERVATORIES.

FACULTIES. Arts, Laws, Science, Engineering, Medical Sciences. Deans: Prof. S. R. K. Glanville, Prof. H. F. Jolowicz, Prof. E. J. Salisbury, Prof. G. T. R. Hill, Prof. C. Lovatt Evans.

TUTORS. Arts and Laws, L. Solomon (Senior Tutor); Science, D. O. Wood; Engineering, H. E. M. Barlow; Medicine, Prof. H. H. Woollard. Women Students, Edith Goodyear.

COURSES. Arts, Laws, Science, Eng., Medical Prelim. and Intermediate. Open to students of both sexes. The Arts Faculty includes Slade School of Fine Art, School of Librarianship and Bartlett School of Archit. The Engineering Faculty includes Depts. of Eng. (incl. Civil, Mech., Munic., Graphics, Surveying, Munic. Hyg.), Elec. Eng., and Chem. Eng. A Dipl. in Eng. is given after a 3 yrs.' course, and Certif. in Eng. (2 yrs.); a Dipl. in Archit. (5 yrs.) and a Certif. in Archit. (3 yrs.); a Certif. in Decoration (3 yrs.); a Dipl. in Chem. Eng. (3 terms); a Certif. in Town Planning (3 terms).

All departments of the College are available for POST-GRADUATE AND RESEARCH WORK, and the respective Professors are always prepared to advise students wishing to undertake research.

DEPARTMENT OF EUGENICS. The Francis Galton Laboratory was founded in 1904 for the study of those agencies under social control that may improve or impair the racial qualities of future generations, either physically or mentally. Open to Research students in Eugenics of both sexes. Research workers can start at any time during the session, but, unless attending the lectures in the Dept., are expected to have a preliminary training either in Biology or Maths. For staff v. *supra*.

Courses of Instruction are given on National Eugenics and cognate subjects, and also short courses of popular lectures. Fees (for Research workers): per term, £4:14:6. A fee of 17 gs. per session admits to the Eugenics Laboratory on all days and to all lectures, as well as to the use of the Library and of the material in the Archives. Fee for use of calculators, 1½ gs. per term.

THE BARTLETT SCHOOL OF ARCHITECTURE was established in 1914 by the combination of the Archit. Schools of University and King's Colleges. The Certificate (3 yrs.) and Degree or Diploma (5 yrs.) courses are recognized by the R.I.B.A. as exempting from the R.I.B.A. Intermediate and Final exams. respectively. A Division of Decoration, instituted with the co-operation of the Inc. Institute of British Decorators, provides a 3 yrs.' Certificate Course. The accommodation includes two large Studios, a Museum, a Cast Gallery, a Library, a Lecture Theatre, and a Class Room. Rooms are also provided for the Department of Town Planning instituted in Oct. 1914. The day work is supplemented by evening classes in design. There is an Atelier for graduates and advanced students. For staff v. *supra*.

FOREIGN STUDENTS are admitted to the College on the same terms as British.

They are expected to produce identification papers. In August a *Vacation Course* is held in Phonetics and Spoken English (Director: Prof. Daniel Jones). Men attending that Course can reside at University College Hall, Ealing; women at College Hall, London, W.C.1. Courses in Aspects of British Life and Civilization take place *throughout the session*. The Ramsay Memorial Fellowships in Chemical Science founded by certain Foreign Governments are tenable at Univ. Coll., London, among other places; 4 Fellows are now working there.

FEES. Entrance Registration—1 g.; overseas students—2 gs.; Composition for 3 sessions' course in Arts—98 gs.; 5 sessions' course in Archit.—228 gs.; 3 sessions' course in Science—108 to 140 gs.; Chem. Engin., 188 gs.; Engin.—168 gs.; Econ.—26 gs. per session; Med. for 1st examn.—38, 2nd—80 gs.; Laws—Day 28 gs., Evening 21 gs. per session; Fine Art—28 gs. per session; for Higher Civil Service—35 gs. (25 gs. to those who have taken undergraduate course at the College).

SCHOLARSHIPS, ETC. Annual value, about £4391 (including £1611, Entrance Scholarships). Extra Bursaries amounting to £474 were granted in 1936-37. In addition, Exhibition Bursaries (towards fees) and special remissions amounting to £391 were granted.

RESIDENCE. A Hall for 69 men at Ealing (Warden: A. S. Gilbert, LL.M.), £70 to £90 per session (three College terms). One for 172 women in Malet Street, W.C.1 (Principal: Miss T. B. Alleyne, M.Litt.), 81 to 117 gns. per session.

PUBLICATIONS. *Calendar* (Oct.), 3s. 6d.; *Annual Report*; *University College Magazine*; the various Faculty and Departmental Prospectuses; *Prospectus* of post-graduate courses and arrangements for research.

Galton Laboratory. *Annals of Eugenics*, a Journal for the genetic study of Human Population; *Eugenics Lab. Memoirs and Lecture Series* (popular exposition of conclusions); *Treasury of Human Inheritance*.

THE YEAR 1936-37

GENERAL INFORMATION

Founded by Royal Charter in 1829 for "instruction in the various branches of Literature and Science and the doctrines and duties of Christianity," King's College consisted at first of a School and Departments of General Literature, Science, and Medicine, to which were added successively Engineering, Theological, and Oriental Depts. The Hospital was built in 1839; the Evening Classes were started in 1856, and a Women's Dept. in 1881. In 1910 the College School became a separate Corporation, the Hospl. and Advanced Med. School were made independent, the other Depts. (except the Theological) doing work of University standard were incorporated in the Univ. of London, while the Council remained the governing body of the Theol. Dept., which became a School of the Univ. In 1915 the Arts and Science Departments of King's College for Women, previously housed in South Kensington, were

transferred to the buildings of King's College, and the Household and Social Science Department to new buildings on Campden Hill. The Halley Stewart Laboratories of Physics Research, 30 Chesterford Gardens, Hampstead, were formally opened as a department of the College on May 4, 1933. The Dept. of Household and Social Science became a separate instn. in 1928 under the title of King's Coll. of Household and Social Science, v. *infra*. The School of Slavonic and East European Studies (40 Torrington Square, W.C.1) was constituted a separate department of the Univ. as from Aug. 1, 1932.

GENERAL INFORMATION

London Day Training College was founded by the London County Council in 1902 as an institution in connexion with the Univ. working under the Regulations of the Board of Education for the Training of Teachers. The first Principal (1902-22) was Prof. (later Sir) John Adams. From 1909 to 1932 the Coll. was a School of the Univ. in Pedagogy, and as such was governed by a College Council composed equally of representatives of the L.C.C. and of the Senate. On Sept. 1, 1932, as the result of an agreement between the Board of Education, the L.C.C., and the Univ., the Coll. was transferred to the educational and financial control of the Univ., and its title was changed to "University of London, Institute of Education." The Institute is administered as a "central activity" of the Univ. by a Delegacy appointed by the Senate, and composed of representatives of that body, of the L.C.C., and of the teaching staff, together with certain co-opted members. Its work is carried on in the building erected by the L.C.C. in 1907 for London Day Training Coll., but will eventually be transferred to a new building on the Bloomsbury site provided by a special grant from the Council to the Univ.

Students are trained under the Regulations for the Training of Teachers (H.M. Stationery Office, Kingsway, W.C.2) for Elem. and Secondary Schools. Undergraduates can take a 4 yrs.' course so as to combine B.A., B.Sc., or B.Sc.Econ. courses (taken at other Colls.) with Professional training. One who has already graduated may devote himself continuously for a year to the theory, etc., of Educn. and obtain the Univ. diploma.

FEEES AND COURSES. "Recognized" students taking 4-yr. or 1-yr. course under Regulations for Training of Teachers, entrance fee only, £20; private students taking 1-yr. course, £45; special Colonial 1-yr. course, £55; 1-yr. course for Teachers of Art, £30; 1-yr. course in Dept. of Child Development, £31: 10s. In addition, Union and Library Fee of £2: 10s. for students taking any of above courses. M.A. (Education) 2-3 yrs., inclusive fee for course, £22: 1s. plus £1: 1s. registration. Ph.D. (Education) 2-4 yrs., inclusive fee for course £44: 2s. plus £1: 1s. registration.

PUBLICATIONS. The *Yearbook of Education* (pubd. by Messrs. Evans Brothers in assn. with the Institute), 35s. *Studies and Reports*: No. I—"Educational Problems in the Far East and the Near East," by C. H. Becker. No. II—"The Outlook in Education," by I. L. Kandel. No. III—"Tendencies in University Education," by Edwin Deller. UNIVERSITY OF LONDON, INSTITUTE OF ARCHÆOLOGY

Founded 1934

Temporary Address—Inner Circle, Regent's Park, London, N.W.1.

CHAIRMAN OF MANAGEMENT COMMITTEE—Sir CHARLES R. PEERS,
C.B.E., Litt.D. Leeds, D.Lit., F.S.A., F.B.A., F.R.I.B.A.

HON. DIRECTOR—R. E. M. WHEELER, M.C., D.Lit., V.P.S.A.

SECRETARY—KATHLEEN KENYON, M.A., F.S.A.

Hon. Lectr. in Geochronology—F. E. Zeuner, Ph.D.

GENERAL INFORMATION

Equipment provided in the first instance for the study of the Archæology of the British Isles and Near East, esp. of those countries for which Gt. Britain has special responsibilities, such as Palestine, Mesopotamia, etc.

Teaching collections for British and Palestine archæology, notably the Petrie Palestinian collection, are available to students.

Courses arranged in Repair of Archæological Objects, Archæological Draftsmanship, and Archæological Photographs.

UNIVERSITY OF LONDON, BROWN ANIMAL
SANATORY INSTITUTION

Founded 1871

149 Wandsworth Rd., Vauxhall, S.W.8.

Telephone : Macaulay 1450.

SUPERINTENDENT—Prof. F. W. Twort, M.R.C.S., L.R.C.P., F.R.S.

Established in 1871 for “investigating, studying, and, without charge beyond immediate expenses, endeavouring to cure maladies, distempers, and injuries any quadrupeds or birds useful to man may be found subject to.” It contains a Hospital, in which the diseases and injuries of animals are treated, and a Laboratory, where the investigation and study of diseases are carried on. Both In- and Out-Patients are treated (No. in 1936 : In, 60, Out, 1421). Clin. students may be admitted to the Vet. Depts., and Research students are received in the Laboratory. 5 lectures free to the public, based on the researches conducted in the Instn., are given annually at a College of the Univ. or the R. Coll. of Surgeons.

UNIVERSITY OF LONDON, INSTITUTE OF
HISTORICAL RESEARCH

Founded 1921

Malet Street, W.C.1.

Telephone : Museum 3068.

HON. DIRECTOR—A. F. POLLARD, M.A., D.Litt. Ox., Litt.D. Manc., D.Lit., F.B.A.

SECRETARY AND LIBRARIAN—C. G. PARSLÖE, B.A.

The Institute of Historical Research was opened in 1921 in temporary premises built, furnished, and presented to the University by an anonymous donor. The Institute is primarily a laboratory for the training of post-

graduate students in the methods of historical research, and for the use of visiting scholars while working in London. It is a department of the Univ., administered by a Committee appointed annually by the Senate. Situated behind the British Museum on part of the University site, it consists of a systematically planned series of seminar libraries, equipped with the books containing or describing the main sources of medieval and modern history. It is open not only to every professor, reader, or other teacher of history in the Univ. and his research students, but to historians, archivists, and teachers and research students from other Univs. approved by the Committee. Instruction, undertaken by members of the History Depts. of the Schools of the Univ., is carried on in (1) a series of preliminary courses dealing with the sources of English and Imperial history, an introduction to work in archives, and palæography classes; (2) a series of seminars dealing with special historical subjects. In addition, the Institute is active in promoting the organization of historical studies in general, undertaking bibliographical and other investigations, the results of which are published in its *Bulletin*, and arranging conferences.

LIBRARY. 51,591 books, periodicals, and pamphlets; also 948 maps, 536 facsimiles, 956 MSS.

PUBLICATIONS. *Handbook*; *Annual Report*; *Bulletin* published thrice a year with two annual supplements ("Guide to the Historical Publications of the Societies of England and Wales," and "Historical Research for University Degrees in the United Kingdom") and occasional Special Supplements. *Victoria History of the Counties of England* (General Editor: L. F. Salzman, M.A., F.S.A.).

THE YEAR 1936-37

BENEFACTIONS. £10,000 from the Court of the University of London, and £7000 from the University Grants Committee toward the Fund for a Permanent Building. £1250 from the City of Oxford and the Colleges of the University of Oxford for the *Victoria History of Oxfordshire*, Vol. III—*The City and University of Oxford*. 2600 vols. on German History from the German Government. Mr. H. Guy Harrison, about 2500 books on English local history and kindred subjects, partly as loan but mostly as a gift.

UNIVERSITY OBSERVATORY

Founded 1929

Mill Hill Park, N.W.7.

Telephone: Mill Hill 1618.

DIRECTOR—.....

WILSON OBSERVER—C. C. L. GREGORY, M.A. Camb., D.I.C., F.R.A.S.

THE UNIVERSITY OBSERVATORY is situated in Mill Hill Park, London, N.W.7, on a site granted by the Hendon Urban District Council on a 999 years' lease at a nominal rent. It contains a 24-inch reflecting tele-

scope, the gift of Mr. J. G. Wilson ; an 8-inch refracting equatorial telescope, the gift of Mr. H. R. Fry ; and a spectrographic laboratory. The work of the Observatory is designed to meet the needs of post-graduate research workers in Astronomy. At present researches are in progress on the following subjects : proper motions of faint stars ; photo-electric photometry ; absorption band spectra. A stellar spectrograph is now available for work in the ultra-violet. The 24-inch photographic and 18-inch visual twin telescopes from the Radcliffe Observatory, Oxford are in process of erection, and should be available for work on parallax and proper motion in the spring of 1938. The telescopes, dome, and a valuable collection of proper motion plates, charts, etc., are the gift of the Radcliffe trustees.

The Observatory is open to all properly qualified students of the University. Application for admission should be made to the Director.

GENERAL INFORMATION

Founded by Royal Charter in 1907 for the purpose of giving the highest specialized instruction and providing the fullest equipment for the most advanced training and research in various branches of Science, especially in its application to Industry, the Imperial College includes as integral parts the following Associated Colleges with the departments and (in brackets) sub-departments attached to them :

ROYAL COLLEGE OF SCIENCE : Biology (Botany, Bio-Chemistry, Plant Physiology, Plant Pathology, Bacteriology), Chemical Technology (Fuel and Refractory Materials, Electro-Chemistry), Chemistry (Inorganic, Organic, and Physical), Geology (Mining Geology, Oil Technology), Mathematics and Mechanics, Physics (Astrophysics, Technical Optics, Instrument Design, Applied Geophysics, Meteorology), Zoology and Applied Entomology.

ROYAL SCHOOL OF MINES : Metallurgy, Mining (Mining Geology), Oil Technology. For Research Laboratory, v. App. III. p. 907.

CITY AND GUILDS COLLEGE : Aeronautics (Aerodynamics), Engineering—Chemical, Civil and Surveying (Highways), Electrical, Mechanical and Motive Power.

The total staff exceeds 200. The College is a School of the University in Science and Engineering. Students who are registered as candidates for one of the Associateships, and who have matriculated at the Univ. of London by examn. or exemption, are eligible for the B.Sc. Degree of the Univ., in the Facs. of Sci. or Eng., on the examns. for the relative Associateship, if the Univ.'s regns. are complied with. The buildings occupy about 8 acres and cost with equipment over £1,000,000.

The courses of study are designed for students of Univ. standard whose vocations will be concerned with the scientific aspects of industries.

ADMINISTRATION. The administration of the Imperial College is vested in a Governing Body consisting of 47 members representing the Crown, the Indian Empire, the self-governing Dominions, the Board of Education, the University of London, the London County Council, the City and Guilds of London Institute, the Royal Commissioners for the Exhibition of 1851, the Royal Society, the Professorial Staff of the Imperial College, and learned societies concerned with industries. The Rector, as chief administrative officer of the Imperial College, for the time being, is also a member.

LIBRARIES, ETC. The Library of the Science Museum is available for the use of Students, and each Dept. is provided with a special Library, Research Laboratories, and full facilities for advanced study.

SPECIAL RESEARCH DEPARTMENTS. The Research Institute in Plant Physiology was established in 1913 at the College. For staff, v. *supra*, v. also Appendix III. A.I.a.

The Biological Field Station at Hurworth, Slough, Bucks, was established in 1929, and is under the direction of the Professor of Zoology and Applied Entomology. The facilities available at the station are also used by other departments. For staff, v. *supra*, v. also Appendix III. A.I.f.

ADMISSION. The conditions of admission are as under, but the College reserves power to admit in special cases candidates whose qualifications do not in every respect coincide with those prescribed, but whose previous training fits them to take full advantage of the course proposed ; the prescribed quali-

cations give no right to admission, but will be considered with others of which the candidate may give evidence. For Admission to 1st yr. candidates must either pass the September Entrance Exam. in Maths. and Mechanics, Chem., Physics, English, and one of French and German, or an accepted equivalent examn., e.g. Matricn. of the Univ. of London, in English, French, Chemistry, Electricity and Magnetism, and Elementary Maths. would exempt from all subjects of the College Examn., excepting Maths. and Mechanics. More advanced Maths. and elementary Mechanics of the Matricn. Examn. would exempt from the College papers in Maths. and Mechanics. Candidates desiring to be admitted direct to the 2nd yr. must take the higher or B papers of the Entrance Examn. in Maths., Mechanics, Chem., and Physics; these papers may also be taken for Intermed. B.Sc. of London in the case of matriculated candidates. Candidates for the Engineering College must take Machine Drawing in addition, and, if matriculated candidates, may thus qualify for the Intermed. B.Sc. in Engineering. The normal age of admission is 17 years or over.

DIPLOMA AND OTHER COURSES. The undergraduate courses extend over 3 or 4 yrs. and lead up to an Associateship (A.R.C.S., A.R.S.M., A.C.G.I.), and, in the case of matriculated students, to the B.Sc. (Special) or B.Sc. (Engineering), as the case may be. The Associateship and the Degree are awarded on the same examns. The post-graduate courses and research lead up to the Diploma of Membership of the Imperial College (D.I.C.), and to the higher Degrees of the Univ. of London. Special courses are arranged for graduates and persons engaged in scientific industrial pursuits.

FEES. Entrance, £2; Tuition, per session, for full-time undergraduate students, £60 (including Union fees); for less than full-time, at the rate of £63 per session; for post-graduate students at the R.C.S. and R.S.M., £30, at the C. and G. Coll., £60. An additional charge may be made for expensive apparatus or chemicals.

SCHOLARSHIPS for post-grad. work: Beit Fellowships for Research, v. Appendix II. 15 and 17; Plimmer Fellowship in Pathology, approx. £230; £100 in Botany; and many others (v. *Calendar*).

AFFILIATION, ETC. The Univ. of Sheffield is associated with the Coll. for Advanced Studies in the Metallurgy of Iron and Steel. Students of Huddersfield Technical Coll. may be admitted, subject to certain conditions, without examn.

APPOINTMENTS BOARD. The College Appointments Board assists Associates and Members of the College to find employment on the completion of their College courses.

HOSTEL. There is a residential hostel at the College, with accommodation for 100 students, at a cost of about 39s. to 47s. per week. Applications for admission should be addressed to the Warden (A. A. Eldridge, B.Sc., F.I.C.).

STUDENTS' UNION. The Imperial College Union building in Prince Consort Road is the home of the various student organisations, including the Imperial College Union, the Royal College of Science Union, the Royal School of Mines Union, the City and Guilds College Union, and a large number of Societies and Athletic Clubs. There is a College Refectory in the building, and a College Bookstall.

PUBLICATIONS. *Annual Report*; *Calendar*, with list of Associates, pubd. by the Coll.

GENERAL INFORMATION

Founded 1895. A School of the Univ. recognized in the Faculties of Economics and Political Science (including Commerce and Industry), of Laws, and of Arts (in History, Geography, Sociology, and Anthropology).

Matriculated students are registered as Internal students of the Univ. with a view to the B.Sc. Econ., B.Com., LL.B., and B.A. (with Honours in Geog., Sociology, Anthropol., or History, or the General degree with Geog.), or to Higher degrees. Non-matriculated students can be registered for the Academic Diplomas in Geography and Public Administration, and for the School Certificates in Social Science, in Mental Health, and in International Studies. Post-graduate students may take the Academic Diplomas in Psychology, and Sociology and Social Administration.

The lectures and classes at the School are open also, under certain conditions, to those who have not matriculated and do not wish to pursue a full Univ. course—in particular to those engaged in banking, accounting, railway and other transport, commerce and industry, to civil servants and municipal officials, to teachers, and to those engaged in or qualifying for social work. To all these the School affords the opportunity of specialized or advanced study on particular topics. The School is open on the same terms to men and to women. Classes and lectures are given both in the day and in the evening.

The School offers special facilities for post-graduate research, under the supervision of professors or otherwise. The *British Library of Political and Economic Science*, which includes the British Library of *Political Science*, the Edward Fry Library of *International Law*, and the Schuster Library of *Comparative Legislation*, also contains a number of special collections, such as the Acworth collection on Transport, the Hutchinson collection of works in all languages for and against Socialism, and other collections on Trade Unionism, Local Government, and Public Administration. The Library is open not only to those who are taking courses at the School, but, by permission of the Director, also to any person desiring to utilize it for research or consultation.

The fee for a complete day course in Economics or Commerce, spread over 3 or 4 years, is 78 guineas; in Law the day fee is 28 guineas a year, and in Arts about £35 a year. In the case of evening students considerable reductions in these fees are made. The fees include privileges of Students' Common Rooms

and Athletic Societies. Playing fields at Malden are available for members of the Students' Union.

Scholarships are awarded on the results of the University Intermediate Exams. There are entrance scholarships, bursaries, and valuable prizes. Two Research Studentships for Evening Students (equivalent to a remission of fees) open to grads. of the School. For open postgrad. Studentships, v. Appendix II. 9.

ASSOCIATED COLLEGES

THE COLLEGE OF TECHNOLOGY became connected with the Univ. of Manchester in 1905 in the Fac. of Techn., the greater part of the work of which is conducted in the College, whose Principal is Dean. The work of the College includes advanced study and research in the subjects specified above and hydraulic experimental work, motor-car engineering, and india-rubber technology. From Oct. 1934 recognized for B.Sc. (Eng.) degree for external students, London Univ.

COLLEGES recognized for External Lectures in Theology :

BAPTIST COLLEGE, EGERTON HALL, HARTLEY VICTORIA METHODIST COLLEGE, MORAVIAN COLLEGE, Fairfield, and UNITARIAN COLLEGE at Manchester ; LANCASHIRE INDEPENDENT COLLEGE, Whalley Range ; METHODIST COLLEGE, Didsbury.

Recognized for instruction in Maths., Physics, Chem., and Biol. up to Interm. standard for B.Sc. and B.Sc.Tech. : the HARRIS INSTITUTE, Preston.

For third year of B.Sc. Tech. course in Metal Mining : the CAMBORNE SCHOOL OF METALLIFEROUS MINING.

GENERAL INFORMATION

The Victoria University of Manchester was reconstituted by Royal Charter in 1903 and Owens Coll. incorporated with it by Act of Parl. in 1904. For early history, see *Yearbook* for 1929.

Most of the buildings, arranged in two quadrangles, and erected from time to time during the past 50 years, are situated in the city. The Departments of Bacteriology and Preventive Medicine and Pathology are $\frac{1}{2}$ mile distant, adjoining principal hospitals. The athletic ground (30 acres) is at Fallowfield, about $1\frac{1}{2}$ miles distant, while a further 41 acres were acquired for athletic purposes at Wythenshawe, about 3 miles distant.

LIBRARIES. The main library (over 300,000 vols.) is housed in two divisions. The books concerning the Arts and allied faculties are placed in the new building (completed in 1936). The books on scientific subjects remain in the old (Christie) building, which also contains the Library of the Manchester Museum. The library includes the private collections of Profs Freeman and Stanley Jevons and Dr. Christie. Scientific periodicals are taken in by the Univ. in co-operation with the Manchester Literary and Philosophical Society, so that between them all the most important are available for both. The Medical Society's and the Radford Library (80,000 vols.) are housed in the Med

School, and available for students. The Library for Deaf Education (over 7000 vols.) is available to all interested in the educn. of the deaf. There is also in the city of Manchester the John Rylands (350,000 vols.), which includes the Althorp Library and the Crawford collection of MSS. It contains one of the most important collections of early printed books in existence. The ancient Chetham Library (100,000 vols.) has valuable mediæval MSS. and printed books of 17th and 18th centuries and a collection of vols. dealing with local history. The Municipal Reference Library (287,000 vols.) is valuable for more recent books and periodicals, and in connexion with it there is a Technical and Science Library (45,000 vols.). The College of Technology Library (20,000 vols.) includes the abridgements of specifications of patents from 1855 to date, and is devoted to applied science and technol.

LABORATORIES, ETC. Ample equipment for advanced study and research in all departments; special provision for Electro-Technics, Economic Zoology (including Agric. Entom.) and Botany (including Horticulture), Radio-activity, Ionization of Gases, Colloids, and Cancer. *Pathological Museum* (Hon. Curator—Emer. Prof. E. D. Telford, M.A., B.C. Camb., M.Sc., F.R.C.S.). The *Manchester Museum* (Keeper—R. U. Sayce, M.A.), forming part of the Univ. buildings, and containing among other special depts. the Flinders Petrie Egyptol. Collection, is utilized for Univ. teaching in Zool., Bot., and Geol.; it is also used for systematic instruction of Elem. school children. Available for clinical instruction are 4 general Hospitals, 1 Dental and 9 other special hospls., including the Christie Hospital (Cancer), and Holt Radium Institute.

FACULTIES. (1) Arts [including School of Architecture]; (2) Science; (3) Law; (4) Medicine [including Departments of Dental Science, Pharmaceutics, and Bacteriology and Preventive Medicine and Pub. Health]; (5) Music; (6) Commerce and Administration [including Social Study]; (7) Theology; (8) Technology (provided by the Municipal College of Technology); (9) Education [training for work in Secondary, Elementary, and Day Continuation Schools, in Schools for the Deaf, and with Young Children.] *Deans of Faculties:* (1) Prof. T. B. L. Webster (Greek); (2) J. M. F. Drummond (Bot.); (3) Prof. R. A. Eastwood (Law); (4) Prof. H. B. Maitland (Bacteriol.); (5) Prof. D. R. Hartree (Music); (6) Prof. J. Jewkes (Social Econ.); (7) Rev. W. L. Wardle (Old Test.); (8) Principal B. Mouat Jones (Technol.); (9) (Edn.) *Tutors:* J. Marks, M.A.; (2) J. E. Myers, O.B.E., D.Sc.; (3) D. Blank, LL.B. (Art Clerks); (4) W. Schlapp, B.Sc., M.B., Ch.B., Ph.D. (6) Frances Collier, M.A.

WOMEN STUDENTS. Adviser—Phyllis E. Crump, M.A.

ADMISSION. See Appendix I.

INDIAN STUDENTS. Adviser, J. K. Wood, D.Sc. Applications from Indian students for registration should be received, with references as to character and educational qualifications, not later than May 31.

DEGREE COURSES. 3 yrs. (graduates of other approved Univs., 2 yrs.)—B.A., B.Sc., LL.B., Mus.B., B.A. (Com.), B.A. (Admin.), B.D. (after Intern. courses in Arts), B.Sc.Tech.; 5 yrs.—B.A. (Hons. in Archit.), B.D.S.; 6 yrs.—M.B., Ch.B. The B.A. (Com.) and B.A. (Admin.) courses can be completed by attendance on evening lectures.

The B.Sc. degree may be awarded with Honours in General Science (v. p. 7).

Hons. students of mod. foreign langs. may count attendance on approved courses for a term at a foreign Univ. as equivalent to attendance at Manc.

Minimum attendance in the Univ. for graduation—3 yrs. Minimum attendance for Bachelorship in 2 Faculties—5 yrs.

HIGHER DEGREES. Open to Bachelors of 1 yr. standing—M.A., M.Sc. (2 yrs. if graduates of other Faculties), Ch.M., M.D., M.D.S., M.A. (Com.), M.A. (Admin.), M.Sc.Tech.; 2 yrs.—LL.M., M.Ed.; 4 yrs.—D.Sc., LL.D., Mus.D., D.D. Open to Masters or Doctors of Philosophy of the Univ. only: Litt.D.

Open to graduates of other approved Univs. through research in Manc. during 2 (non-graduates 3) yrs.—M.A., M.Sc., LL.M., M.A. (Com.), M.A. (Admin.), M.Sc.Tech., M.Ed. (open only to graduates). Graduates of other approved Univs. of 4 yrs.' (D.D. 6 yrs.) standing who have obtained the degree of Master or one substantially equivalent thereto and spent 2 yrs. in study or research in Manc. may qualify for the D.Sc., LL.D., D.D.

The Ph.D. differs from the Litt.D. and D.Sc. in requiring a definite course of study, and is of a lower standard, though higher than the M.A., M.Sc., and M.Sc. Tech. (v. p. 13).

DIPLOMAS. Geog. (grads.), 1 yr. course; D.V.S.M., open to M.R.C.V.S. only, 12 mos.; Psych. Med. 1 yr., including 2 terms at the Univ.; D.P.H., 1 yr. Teacher's (grads.), 1 yr.; Archit., 5 yrs. Town and Country Planning (1 yr. after Certif. status); L.D.S., 4 yrs.; Dp. Bact. (1 yr. post-grad.); Social Study (2 yrs.; approved grads. and holders of Certif. in Pub. Admin., 1 yr.); Chem. Engin. (1 yr. post-grad.).

CERTIFICATES. Engin., 3 yrs.; Applied Chem., 3 yrs.; Mining, 3 yrs.; Higher Commercial, 2 yrs. (grads. 1 yr.); Public Administration, 2 yrs.; Social Administration, 2 yrs.; Theol., 3 yrs.; Biblical Knowledge, 1 yr.; Tech. (Assoc. Coll. Tech.), 3 yrs.; Tech. (Distinction), 1 yr. after Cert. in Tech.; Photog. Tech., 2 yrs.; Indust. Admin., 1 yr. (grads. or holders of Cert. in Tech.); Certif. for Teachers of the Deaf, 1 yr. (grads. and certificated teachers); Town and Country Planning, 2 yrs. Candidates for certificates are required, before entering on the course, to pass or obtain exemption from an entrance examn.

Certif. in Mining and the B.Sc.Tech. in Mining are accepted by Govt. in lieu of 2 out of 5 yrs.' practical experience for Mine Manager's Certif.

SCHOLARSHIPS, ETC., FOR GRADUATES. A considerable number are offered every year by the Univ., most of them reserved for its own graduates, but some—in Anatomy, £150; Econ., £100 and £120; Engin., £200; Bot. or Zool., £200; Diseases of Children, £100; History, £50; Local Govt., £50; Maths., £70; Physics, £200; Physiol., £90; Cancer Research, £300; Prev. NEW BUILDINGS AND EXTENSION OF BUILDINGS. New Library Building opened by Sir Walter Moberly (June). Completion of reconstruction of Rectory block. New Staff House completed and occupied. Plans for new Dental Hospital on site facing Medical School in preparation.

NEW DEPARTMENTS AND POSTS. Institution of Chair of Theoretical Physics. Staffing of Dental Dept. reorganized, including full-time Lectureship in Operative Technique. Appointment of part-time Secretary to Appts. Board.

OTHER DEVELOPMENTS. Various General Lectures (open to all students) arranged by Fac. of Arts. Increased co-operation between Fac. of Music and Royal Manchester Coll. of Music. Investigation of cost of milk production, and research on problems of eelworm and wireworm undertaken by Agricultural Advisory Dept., with support of Ministry of Agriculture and farmers' organizations. Museum Library transferred to Univ. Library building (Science section). Signal Unit with establishment of 55 cadets, formed Oct. 1936 and attached to O.T.C. contingent. Publicn. of first annual issue of "Univ. Journal," distributed gratis to every graduate. Large numbers of general public visited Univ. on two Open Days (July 1937).

CHANGES IN REGULATIONS. Amendment of Ord. to permit presentation for M.A. in a subject other than that of first degree after attendance upon approved addnl. courses. Revision of Regns. for Hons. Sch. of Chem. making provision for subsidiary options in Biol. and Physiol.

EXTRA-MURAL WORK. 65 Tutorial Classes, 21 Preparatory Classes, and one Advanced Class in 42 different towns and villages. 14 Extension Courses at Univ. and outside centres in addition to 39 single lectures and one Extension course given for public and Secondary Schools of Lancashire and Cheshire

County authorities. 173 students and 21 tutors attended Summer School at Bangor in July and August.

VISITS OF TEACHERS FROM OTHER UNIVERSITIES AND OF MEMBERS OF STAFF TO OTHER UNIVERSITIES. Prof. Carl Henschen (Basel) lectured in Surgery Dept. in Mich. Term, and Prof. John Morley lectured in Surgery Dept. at Univ. of Basel in May 1937.

Other Visitors included: Conference of Advisory Entomologists held in Univ., July 1937. Vacation Course for Teachers of Deaf Education, July 1937. Members of Staff and students of Engin. Dept., Univ. of Capetown, Jan. 1937. The Faraday Society, including many representatives of colonial and foreign Univs., held a symposium on Reaction Kinetics in the Univ. in Sept. 1937.

The students keep statutable residence under conditions approved for them by the Delegates of Lodgings. They may reside in their own homes or in houses or Hostels approved for them. There are two Hostels maintained by Religious Orders: S. Frideswide's, Cherwell Edge (Roman Catholic) and Springfield S. Mary (Anglican). Students over 25 yrs. of age are permitted to live in lodgings.

GENERAL INFORMATION

CONSTITUTION. The *Congregation of the University* consists mainly of the teaching and administrative elements in the Univ. and Colleges. It is the principal legislative body in the Univ. and, subject to the postponing power of Convocation explained below, can adopt, reject, or amend legislative proposals submitted by the Hebdomadal Council. *Convocation*, a larger body consisting of all Masters of Arts and Doctors of the Faculties of Divinity, Civil Law, and Medicine, who have their names on the Univ. books, has the power of postponing, but not of rejecting or amending, Statutes or Decrees which have been passed by the vote of less than two-thirds of the members of Congregation present and voting. It also confers honorary degrees and degrees granted by Decree or Diploma. It sanctions petitions to Parliament, and authorises the affixing of the Univ. seal when necessary. The *Hebdomadal Council* consists of the Chancellor, Vice-Chancellor, immediate ex-Vice-Chancellor (for a certain period after the expiry of his term of office), the Proctors, and 18 members elected by Congregation. It takes the initiative in all legislation of the Univ. and forms the central administrative body. Other important bodies, endowed with considerable powers and responsibilities, are the *General Board of the Faculties* and the *Curators of the University Chest*.

The Chancellor, elected for life by Convocation, is a non-resident Officer. The executive power is chiefly in the hands of his Deputy, the Vice-Chancellor, who is annually nominated by him from among the Heads of Colleges, and the Proctors annually elected by the Colleges and Halls in rotation.

The Colleges are corporate bodies distinct from the Univ. They manage their own property, and elect their own officers; and the Proctors have no power within their walls. Their Statutes, however, render them subject to certain Univ. Statutes which deal, among other things, with reservation of a proportion of Fellowships for Univ. teachers and officers, the assignment of Fellowships to University Professorships, the admission of undergraduates, contributions for Univ. purposes, the presentation and audit of accounts, and the special examination of catering accounts. The relation between the Univ. and the Colleges is intimate. The great majority of the members of the Univ.

belong to the Colleges, and all who belong to the various Colleges are at the same time members of the Univ. Teaching is given partly by Univ. Profs., Readers, Lecturers, and Demonstrators, partly by the more numerous body of College Tutors and Lectrs.

Entrance scholarships (£100) and exhibitions (£40-£80) are awarded by the various Colleges. Their actual value, in the larger majority of cases, is £30 a year (or its equivalent) but a scholar or exhibitioner, after election, may be granted an additional sum not exceeding the advertised maximum of his award if he supplies satisfactory evidence that he is in need of further assistance.

Under the Universities of Oxford and Cambridge Act, 1923, which set up a Statutory Commission for Oxford, new Statutes were made for the University and for the Colleges. These Statutes were laid before Parliament and received the approval of the King in Council. A summary of the most noteworthy changes embodied in them, prepared by Sir Henry Sharp, K.C.I.E., the Secretary to the Commission, will be found in the *Yearbook* for 1929, pp. 221 and 222.

FACULTIES. Theol., Law, Med., Literæ Humaniores, Mod. Hist., Engl. Lang. and Lit., Med. and Mod. Langs., Oriental Studies, Phys. Sciences (including Maths.), Biol. Sciences, Social Studies. There are Boards of Studies for Music and Geography.

ADMISSION. See App. I.

NON-MEMBERS OF THE UNIVERSITY may obtain permission to attend lectures given by Professors and University Readers, and University Lecturers in English Language and Literature, on payment of a fee of £3 a term at the office of the University Chest, Clarendon Building, Broad Street.

They may attend lectures and classes in Mod. Foreign Langs. on payment of fees varying from 10s. to 15s. per Term for one hour a week. Application should be made to the Clerk to the Curators, Taylor Institution.

THE ADVISER OF OVERSEAS STUDENTS (H. S. Williamson, M.A. Ch.Ch., Indian Institute) will advise applicants from the Dominions and Colonies and foreign countries (other than Rhodes Scholars).

The Secretary to the Delegacy for Oriental Students (H. S. Williamson, M.A., Indian Institute) will advise Indian and other Oriental Students, who should apply for admission through him, but they are recommended to consult the Secy. of the Advisory Committee of their own Province in the first instance. See also p. 680.

INCORPORATION. Members of the Univs. of Cambridge and Dublin can be, under certain conditions, "incorporated" into this Univ., i.e., admitted to the status and degree held in their own Univ. Notice of intention to incorporate as an undergraduate must be sent to the Registrar through the Head of a Coll., Hall, or Society. The privileges of incorporation as a graduate are limited to B.A., M.A., Litt.D., B.D., D.D., and D.Sc. of those Univs., LL.B., LL.D., M.B., M.D., M.Chir., Ph.D. of Cambridge. Graduates in Law of Cambridge shall when incorporated become B.C.L. or D.C.L., and Litt.D.'s of Dublin shall become D.Litt. of Oxford. Any applicant for incorporation must have kept by residence at his Univ. before taking his degree the same number of terms that he would have been required to keep at Oxford for the corresponding degree. While an undergraduate is allowed to incorporate as a matter of course, a graduate must first satisfy the Hebdomadal Council that there are adequate reasons.

In 1910 a Delegacy for **WOMEN STUDENTS** was constituted, and provision made for recognition by the Univ. of Societies for their reception for academical study, students on the books of such Recognized Societies being accorded a

privileged status. Under the provisions of a Statute approved by Convocation on May 11, 1920, which came into force on Oct. 7, 1920, women may be matriculated and admitted to degrees in the Univ. Previous to matriculation a woman must have been admitted as a member of one of the 5 Societies of Women Students. A woman may be admitted to *Responsions* before matriculation, provided her name is sent in to the Asst. Registrar by the Head or a Tutor of a Soc. to which she *bona fide* desires admission. Women members of the Univ. are admitted to all degrees under the same conditions as those prescribed for men as regards standing, examns., course of study, exercises, and fees, and under analogous conditions as regards residence. A Women Students' Property Committee administers all property vested in the Univ. for the benefit of women members of the Univ. generally, and in particular the Nettleship Library and Bertha Johnson Loan Fund. The Delegacy for Women Students was abolished in 1920.

The number of resident undergraduate members of the Society of Home-Students (who keep statutable residence in houses approved by the Delegates for Lodgings) is limited at present to 220, exclusive of "Advanced students," and of an additional number not exceeding 5 in any term as may for exceptional reasons be given permission to reside. Preference is given to those applicants for admission to the Society whose homes are in Oxford.

The number of undergraduates in residence at the other Societies of Women Students are also limited by Statute to 160 in the cases of Lady Margaret Hall and St. Hugh's Coll., and to 150 in the cases of Somerville Coll. and St. Hilda's Coll.

TERMS. The Academical year, which begins in Oct. and ends in July, consists of 3 terms, Michaelmas, Hilary, and Trinity, beginning, respectively, on Oct. 1, Jan. 10, and the Wednesday after Easter Day, and ending Dec. 17, the day before Palm Sunday, and the Saturday after the first Tuesday in July. Residence within the walls of a College or Hall, or in licensed lodgings,* during a certain number of terms, usually 9, and never less than 6, is a condition of admission to any degree. Full terms begin: 1937-38—Oct. 10, Jan. 16, April 24; 1938-39—Oct. 9, Jan. 15, April 23; end: 1937-38—Dec. 4, March 12, June 18; 1938-39—Dec. 3, March 11, June 17.

DEGREES. B.A., M.A., B.Litt., D.Litt.: B.Sc., D.Sc.; D.Phil.; B.D., D.D.; B.C.L., D.C.L.; B.M., B.Ch., M.Ch., D.M.; B.Mus., D.Mus.

The degrees which are open to graduate students of other Univs. who are qualified for matriculation at Oxford are those of B.A., B.Litt., B.Sc., D.Phil., B.C.L., and B.D.

ARTS. Examns. in Arts, more usually called "Schools," are sharply divided into Pass and Honour examns.; in the former there is but one standard, in the latter successful candidates are distributed into 3 or 4 classes. No one is admitted to a place in the Class Lists who has exceeded a certain number of terms reckoned from Matriculation. No conditions of residence are attached by the Univ. to either Pass or Honour examns.; it is simply for the attainment of the degree of B.A. that residence is obligatory. Every Coll., Hall, and Society, however, has its own rules with regard to both residence and the entry for examns. A candidate for the degree of B.A. must (1) reside at the Univ. as a matriculated member during 9 terms, unless he is privileged as a member of another Univ. or as a "Service" Student; (2) pass or obtain Honours in the following examns., namely:

* In special circumstances leave to reside in a house which has not been licensed may sometimes be obtained.

(a) *Responsions*. This is the Entrance Examination to the University. It must be passed, or some examn. accepted as equivalent to it, before matriculation. Names of candidates must be entered through an officer of the Society to which they intend to belong. See Appendix I.

(b) *The 1st Public Examn.* This consists of (1) Honour Classical Moderations, (2) Hon. Math. Modns., (3) Hon. Sci. Modns., (4) Pass Modns., (5) Law Modns., (6) Prelim. Nat. Sci., (7) Prelim. Agric., Forestry, and Geography. In order to pass the Examn. a candidate must pass in one of these subjects.

(c) *The 2nd Public Examn.* This consists of (a) a Pass School and (b) an Honour School. (a) Contains a large variety of subjects, and candidates taking it are required to pass in 3 of these, of which one must be a language-subject other than English. There is also a homogeneous course in *Forestry*. (b) Includes the following, a class in any one of which is sufficient: Literæ Humaniores (Philos. and Ancient Hist.); Maths.; Nat. Science (Phys., Chem., Physiol., Zool., Bot., Geol., Astron., or Engin.); Jurispr.; Mod. Hist.; Theol.; Oriental Studies (Sanskrit, Arabic, Hebrew, Persian, or Egyptian); Engl. Lang. and Lit.; Mod. Langs. (French, Ger., Ital., Span., Russ., or Mediæval and Mod. Greek); Philos., Politics, and Econ. (Modern Greats); Geog.; Agric.

Under certain conditions, members of other Univs. and officers not under 21 yrs. of age who have held for not less than 3 yrs. a Commission in H.M. Regular Forces, and been seconded or specially relieved from active duty by the Admiralty, War Office, Air Ministry, or India Office for the purpose of attending an academic course of not less than 2 yrs., may be admitted to the status of "Senior Student" and "Service Student" respectively, and obtain exemption from Responsions, and, under further conditions, from the 1st Public examn., as well as a remission of 3 terms of the necessary residence (v. App. I). Analogous concessions are made in favour of Probationers for Forest Services in the British Empire who have obtained an approved degree at an approved Univ. and been admitted to the status of "Imperial Forest Service Student."

ADVANCED STUDY AND RESEARCH. The DEGREES B.LITT. and B.Sc., instituted in 1895 in order to encourage special study and research, are granted upon the satisfactory completion of an approved course of special study or research pursued under supervision and for the most part at Oxford and of at least 6 terms' residence. Application to enter upon such a course may be made by any person who produces sufficient evidence of his ability and (1) is a member of the Univ. who has passed the examns. for the degree of B.A., or (2) has taken an approved degree at an approved Univ., or (for the B.Litt.), not being a member of the Univ. of Oxford, (3) has obtained an Oxford diploma with distinction, or is held by the Board of the Faculty to be fully qualified to engage in research. Applications must in all cases be made to the Secy. of Faculties through an officer of the Society to which the candidate belongs or desires to belong. Residence as a member of the Univ. for 6 terms is a necessary condition for either degree. A candidate for the B.Litt. must first undergo a course of training in research methods and then do a special piece of research work and write a thesis, and may be required to pass a written examn. For the B.Sc., which is confined to the Faculties of Science and Medicine, no probationary period is prescribed.

Of a similar nature, but of a much higher standard, is the degree of DOCTOR OF PHILOSOPHY instituted in 1918 (v. p. 13).

The higher degrees, D.LITT. and D.Sc., instituted in 1900, are awarded to graduates of Oxford for published work of outstanding merit.

THEOLOGY. The B.D. degree is open to candidates of over 26 yrs. of age

who have passed a Qualifying examn. in Christian Theology, pursued a course of study therein extending over 6 terms, resided for 6 terms, and submitted a thesis of sufficient merit in some branch of the subject. No candidate may present a thesis until he has passed the Qualifying examn., which is open to Oxford M.A.'s, to persons who have, not less than 5 terms previously, passed all examns. for the Oxford B.A., and, under certain conditions, graduates of other Univs. First-class honrs. in School of Theol. exempts from this examn.

The degree of D.D. is open to those who have been admitted to the Oxford degree of B.D., subject to certain conditions of standing, provided they have submitted a thesis, or published work, of sufficient merit in some branch of Christian Theology.

LAW. The examn. for the B.C.L. degree is open either (1) to B.A.'s of the Univ. or (2) under certain conditions (including residence for 6 terms) to graduates in Arts, Philos., Science, or Law of other Univs. The subjects are Jurispr., Roman, Engl., Roman-Dutch, and Internat. Law.

MEDICINE. The B.M. degree is open only to B.A.'s of the Univ. who have passed certain examns. in Med. and Nat. Science. The total period of study for the degree (including the scientific subjects studied in the Arts course) is generally about 7 or 8 yrs., of which 2 or 3 are usually spent in London in preparation for the more strictly professional subjects of the 2nd B.M. examn. The M.Ch. degree is open to candidates who have passed all the examns. for the B.M. and B.Ch., and either are members of the Surgical staff of a recognized hospital or have acted in such a hospital as Dresser or House Surgeon for 6 months. A candidate for the D.M. must be a B.M., and have entered on the 30th term from matricn. and had his name on the books of some Coll. or Hall or Society for 20 terms.

Senior Students may be exempted from the preliminary examn. in Physics, Chemistry, Zoology, and Botany, in consideration of equivalent examns. passed at their previous Universities.

MUSIC. The degree of B.Mus. is open to candidates who *either* (a) have been admitted to the degree of B.A. or (b) have (1) passed Responsions or an equivalent Examn., (2) pursued at the Univ. a course of musical study extending over at least 2 yrs. All candidates must also pass 2 examns. in Music (and compose a Musical Exercise) under conditions laid down by Statute. Residence for 6 terms is required, and the examn. may be completed in 6 terms as in the case of the Degrees of B.Litt. and B.Sc. A B.Mus. may qualify for the degree of D.Mus. by submitting a musical composition for approval and passing a further examn. in Music, but cannot submit a composition until the 9th term after his admission to the Baccalaureate.

DIPLOMAS. Most of these are open to persons who are not members of the Univ. Minimum courses and addresses of Secretaries from whom particulars can be obtained:

Geography, 1 yr., The Director, School of Geog., Mansfield Rd.

Education, 1 yr. (or Vacation course, v. *infra*), Director, Department of Education, 15 Norham Gardens.

Economics and Political Science, The Secy., Committee for E., University Registry.

Public and Social Administration, The Secy., Committee for E., University Registry.

Anthropology, 1 yr., The Secy., Committee for A., University Museum.

Forestry, 1 yr., The Professor of F., School of F. Open to graduates of Oxford or other Univs.

Rural Economy, 1 yr., the Professor of R.E., School of R.E.
Classical Archaeology, 1 yr., Secy. to Committee on C.A., Ashmolean Museum.

Theology, 1 yr., Secy. of Faculties (open only to members of the University).

Comparative Philology, 1 yr., the Prof. of C.P., Worcester Coll.

Ophthalmology, Dean of the Medical School, University Museum. Open to Registered Medical Practitioners and to approved Bachelors and Doctors of Med. of Univs. outside the U.K.

Certificates: General and Regional Geog. (minimum course, 1 term), Director, School of Geog.; Physical or Cultural Anthropology, 3 months, the Secy., Committee for A., University Museum; Training for Social Work, the Secy., Social Training Committee, Barnett House. Public Administration, the Secy., Committee for E., University Registry. Proficiency in Estate Management, the Professor of R.E., School of R.E.

COMMISSIONS IN BRITISH (REGULAR) OR INDIAN ARMIES (v. Appendix IV. 1). Candidates must have resided for 3 yrs. at the Univ., be over 21 and under 24, be of pure European descent and a British subject, be unmarried, be in possession of a degree, and obtain a satisfactory attachment (4 or 8 weeks) report with a Regular unit. (a) An Honours degree second class entitles the holder to have his name submitted to the War Office for a scholarship, on gaining a commission, of £50 for 5 yrs. (b) Antedates of 18 months, subject to the recommendation of the Delegacy for Military Instruction and approval of the War Office, are granted to accepted candidates. Office of the Secy. to the Delegacy for Military Instruction—H.Q.O.T.C., Manor Road.

AVIATION. Membership of the University Air Squadron is granted by selection to members of the University after interview by a Selection Committee. All candidates must obtain parental and College permission to join, and must be up to the full medical standard of the Royal Air Force. There are no fees for entrance, medical examination, or flying instruction, but a small annual subscription is imposed for Club purposes. Every member undertakes to obtain the Squadron Certificate of Proficiency by the end of his second year in the Squadron. This involves passing an examn. in four ground subjects, and it qualifies the holder to fly solo in term time. The Squadron is limited to 75 members, and in consequence there is great competition for membership. Students from overseas are advised to bring parental consent to join the Squadron with them before they sail for England.

INDIAN CIVIL SERVICE. Studies of selected candidates are superintended by a Delegacy.

The DEPARTMENT OF EDUCATION (address—15 Norham Gardens), established in 1919, is under the general direction of a Delegacy. For staff, see under Education. For the Univ. Dipl. in Educn. there is a 1 yr. post-grad. course, theoretical and practical. Undergraduates are admissible on certain conditions. One or, under certain conditions, two terms may be spent in practical work at a secondary school or, by special permission, abroad at an approved European Univ. Students are also accepted for a 4 yrs.' course (v. Appendix IV. 21).

A *vacation course* of 4 weeks (fee £7:10s.) is held from time to time in Aug. and will again be held in 1938. The whole or part of this course is open without restriction to men and women, and University graduates with not less than 7 yrs.' full-time experience as teachers in schools approved by the Delegacy may, under certain conditions, take the Examn. for the Univ. Diploma in Education after attending the full Vacation Course of four weeks.

SCHOLARSHIPS AND FELLOWSHIPS. College Entrance scholarships are very numerous and valuable. The Univ. scholarships and fellowships are usually open only to members of specified standing. Of those open to graduates, 16, of the aggregate value of £1130 p.a., are for Engl., Greek, and Latin; 1 (£100) is for Ment. and Mor. Philos.; 2 (£80) for Maths.; 8 (£1340) for Med. and Nat. Science; 4 (£440) for Law; 3 (£300) for Theol.; 13 (£760) for Oriental Studies. The Univ. offers a number of *Research Scholarships and Studentships*, e.g. a Biological scholarship (annually, £200 for 1 yr.) tenable at the Zoological Institute, Naples; the George Webb Medley Scholarships (2 annually, £80 to £300 p.a. for 2 yrs., renewable for not more than 3 yrs.), for Economics and Polit. Sci.; the Scott Scholarships (2 annually, c. £95 for 2 yrs.), "for the furtherance of physical science"; the Beit Senior Research Scholarship (on terms decided by the Bd. of Management of the Beit Fund, up to £250 in any yr.), for Colonial History; the Henry Francis Pelham Studentship (biennially, £100 or less for 1 yr.), tenable at the British School of Archaeology at Rome; a Research Studentship (occasionally for 1 yr.), for Greek Lit.; the Bryce Research Studentship (annually, £240 for 1 yr.), for History.

There are also *Travelling Scholarships and Studentships*, e.g. the Derby Scholarship, for classical scholarship (incl. palæography and philos.), offered annually (£200-£300 for 2 yrs., of which at least 8 months must be spent abroad); the Heath Harrison Travelling Scholarships (13 annually, £75 usually for 1 yr.), for study of a modern lang. abroad; the Zaharoff Travelling Scholarships (1 or more annually, £150 for 1 yr.), for promotion of French studies; the de Osma Studentship (annually, the net income from £2110 odd Funding 4 per cent. Stock), for not less than 6 weeks' study at the Instituto de Valencia de Don Juan, Madrid; the George Herbert Hunt Travelling Scholarship (every other yr., c. £100), for Medicine.

The Colls. have power to elect persons distinguished in Science or Literature to Senior Research Fellowships on condition of prosecuting some definite work; they have also power to elect from time to time Junior Research Fellows for limited periods, usually after examn.

There are certain funds, such as the Craven and Ireland, from which grants for the furtherance of particular studies may be made.

For open post-graduate Scholarships and Fellowships, *see* App. II.

The Rhodes Scholarships were founded in 1902 under the will of the late Cecil John Rhodes. The value of each is £400 a yr., tenable at the Univ. of Oxford, and may be held for 3 yrs. Appointments are made for 2 yrs. in the first instance, and a Scholar wishing to remain for a third year must present a definite plan of study for that period satisfactory to his College and to the Rhodes Trustees.

Rhodes Scholars may, if the conditions are approved by their own College and by the Oxford Secretary to the Rhodes Trustees, either postpone their third year, returning after a period of work in their own countries, or spend their third year in post-graduate work at a Univ. of Gt. Britain, and in special cases at a Univ. on the continent of Europe, in the overseas Dominions, or in the United States, but not in the country of their origin. The conditions of the competition in each country or community are fixed from time to time by the Trustees.

In his will, Mr. Rhodes expressed the wish that "in the election of a student to a Scholarship, regard shall be had to (1) his literary and scholastic attainments; (2) his fondness for and success in manly outdoor sports, such as cricket, football, and the like; (3) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindliness, unselfishness, and fellowship; and (4) his exhibition during school-days of moral force of

character, and of instincts to lead and to take an interest in his school-mates."

The Dominions and Colonies. An annual Scholarship is assigned to each Province* of the Dominion of Canada; to each State of the Australian Commonwealth; to the Dominion of New Zealand (2); in South Africa to the Province of Natal, the Transvaal, the Orange Free State, the Cape Province, the S.A. College School in Cape Town, the Diocesan College School of Rondebosch, the Boys' High School, Stellenbosch, and the St. Andrew's College School at Grahamstown, in alternate years to the Eastern Province, and not more than three annually to Rhodesia. The Colonies of Jamaica, Newfoundland, and Bermuda have each an annual Scholarship. A single Scholarship was for the first time allotted to the Island of Malta in 1921, and is awarded once in 3 yrs.

In founding these Scholarships, Mr. Rhodes stated that he did so because he believed that the education of young Colonists at one of our residential universities will "broaden their view," "instruct them in life and manners," and "instill into their minds the advantage to the Colonies as well as to the United Kingdom of the retention of the unity of the Empire."

United States of America. 4 Scholarships are assigned annually to each of 8 regions, of 6 States each, which are awarded among candidates sent forward from each State in the region. The reason given by Mr. Rhodes for founding the American Scholarships is his "desire to encourage and foster an appreciation of the advantages which I implicitly believe will result from the union of the English-speaking people throughout the world, and to encourage in the students from the U.S. . . . an attachment to the country from which they have sprung, but without I hope withdrawing them or their sympathies from the land of their adoption and birth." *The American Oxonian*, the official magazine of the Alumni Assn. of American Rhodes Scholars, is published quarterly by George E. Barnes, 6376 City Line Avenue, Philadelphia.

Germany. Two annual German Rhodes Scholarships of £350 a year each are tenable at Oxford for 3 yrs. The reason given by Mr. Rhodes for founding the German Scholarships is "that an understanding between the three great powers will render war impossible and educational relations make the strongest tie."

Number actually in residence, 1936-37 (whole or part), 185; (93 from the Brit. Empire, 86 from the U.S.A. and 6 from Germany)—Studying Law, 29; Nat. Sc. and Med., 56; History, 17; Econs. THE BODLEIAN LIBRARY, founded by Sir Thomas Bodley in 1602, which is also the general library of the Univ., contains over 1,400,000 vols. (representing more than 2,800,000 separate literary pieces) and 40,000 MSS. Persons other than graduates of the Univ. are admitted on presenting a recommendation from some one in a responsible position in Oxford or elsewhere, knowing the applicant personally. The *Readers' Manual* (obtainable from the Librarian) contains full information about the contents and catalogues of the Library; the *Visitors' Guide* (on sale at the Library, 3d.) gives a short history and a list of the chief exhibits. The chief books relating to it are: Macray, W. D., *Annals* (Clar. Press, 1890, 25s.); Clark, A., *Guide for Visitors* (Clar. Press, 1906, 1s. 6d.); Gibson, S., *Some Oxford Libraries* (Clar. Press, 1914, 2s. 6d.); Madan, F., *The Bodleian Library* (London, Duckworth, 1919, 2s. 6d.); *The Bodleian Quarterly Record* from 1914 (1s. quarterly, obtainable from the Libn.).

There are the following dependent libraries of the Bodleian:

The Law Library (law of English-speaking countries) at the Examination Schools.

The Radcliffe Science Library at the Univ. Museum, about 200,000 vols., consisting largely of books and periodicals on Mathematics, Natural Science and Medicine.

The Indian Institute Library, devoted to Oriental studies. There is also in the Indian Institute a museum illustrating Indian antiquities and Indian life.

Rhodes House Library (history of the British Empire and the U.S.A.).

THE TAYLORIAN LIBRARY (Modern Languages and Literature), 120,000 vols., comprises the chief philological, literary, and historical works of the principal European languages and nearly all respective Reviews, Literary periodicals and publications of Continental Societies of importance.

COLLEGE LIBRARIES. Modern History and Law, at All Souls (The Codrington Library); Political Economy and Science, also at All Souls (The Brand Library). Other important collections include Russian and Slavonic books, at Queen's; History and Literature MSS. of 17th cent., at Worcester; Music and Early Scandinavian collections, at Christ Church. The MSS. in the College Libraries are described in Coxe's Catalogue, published at the Clarendon Press, 1852.

There are also: the Nettleship Library, 1 Jowett Walk (Librarian—M. C. Draper); the English Library (Examination Schools) (Librarian—J. L. N. O'Loughlin, M.A., St. Edmund Hall); a Geographical Library (c.

14,000 vols. excluding periodicals) and Maps (c. 17,000) at the School of Geography, Mansfield Rd. (Librarian—J. N. L. Baker, M.A., B.Litt. Jesus); and Social Studies Library at Barnett House.

MUSEUMS. *The University Museum* includes collections and laboratories with the following depts.: Med. and Public Health, Human Anat., Pathol., Pharmacol., Chem. (Dyson Perrins Lab. and Old Chem. Dept.), Geol. and Palæontol., Mineral., Engin. Science, Physics, Physiol., Biochem., Zool. and Comparative Anat., Zool. (Lepidoptera collection illustrating mimicry, etc.), Experimental Philos.

The Ashmolean Museum (Keeper—E. T. Leeds, M.A. B.N.C.), contains, in addition to a Library of Art and Archæology, the Parian and other marbles, Egyptian and Oriental, Classical, Prehistoric, Anglo-Saxon, and local antiquities, 60,000 coins and medals (published catalogue of Mohammedan coins), and a special collection of Drawings and Engravings by Ruskin.

The Museum of the History of Science (Curator—R. W. T. Gunther, M.A. Magd.) in the Old Ashmolean building illustrates the history of scientific studies, especially in Oxford, by contemporary instruments, engravings, and books.

The Pitt-Rivers Museum (Curator—Prof. H. Balfour, M.A. Exe.) has an anthropological collection illustrating the evolutionary history of material arts.

LABORATORIES: Electrical; Clarendon (chiefly for study and research in Heat, Optics, and Acoustics); Chemistry, Organic and Inorganic (several Colleges have labs. of their own, e.g. Ch. Ch.—Analyt. Chem.; Ball. and Trin.—Phys. Chem.; Jes.—Inorganic; Physiology; Biochemistry; Zoology; Entomology, with extensive Collections and Library; Botany (Garden with Collections and Library); Geology (special equipment for study of fossils by serial sections); Mineralogy (special facilities for research in Crystallography); Engineering; Forestry (expl. plantations and forest garden); Human Anatomy; Pathology and Bacteriology; one *Observatory*.

THE IMPERIAL FORESTRY INSTITUTE (Director—J. N. Oliphant, M.A., Dipl. For.) was founded in 1924 as a result of a resolution of the British Empire Forestry Conference held in Canada in 1923. It is at present financed mainly by Colonial Governments, the Forestry Commission, certain Provinces of India and Burma: it provides post-graduate training and refresher courses for forest officers of the Empire and others, undertakes the structural examination and identification of woods and the identification of trees, and carries out research on biological and economic problems bearing on forestry. The Institute is controlled by a Univ. Committee on which the Government Depts. contributing to its support are represented. Address: Sec., Imperial Forestry Institute, Parks Rd., Oxford.

THE SCHOOL OF RURAL ECONOMY is the Department of the University responsible for teaching in Agriculture. There is an *Institute for Research in Agricultural Economics* and an *Institute for Research in Agricultural Engineering*. There is a farm in connexion with the School and the Institutes for demonstration and experimental purposes. The School and the Institutes are mainly financed by grants made by the Ministry of Agric. to the Univ. for this purpose. (See App. III. A. I. (e), (g).)

THE NUFFIELD INSTITUTE FOR MEDICAL RESEARCH, founded 1935. Director—J. A. Gunn, M.A. Edin. and Ox., M.D., D.Sc. Edin., F.R.C.P. (Nuffield Prof. of Therapeutics). Asst. Director—K. J. Franklin, M.A., D.M. Or. The Institute is housed in the old Radcliffe Observatory which, with its surrounding

grounds, was purchased by Lord Nuffield from the Radcliffe Trustees and presented to the Univ. to be converted for its present purpose. It is intended that the work done in the Institute should afford a bridge between the research done in the Univ. pre-clinical laboratories and that done in the Radcliffe Infirmary. At present the laboratory is specially equipped for Experimental Therapeutics and for X-ray Cinematography.

THE INSTITUTE OF STATISTICS, founded 1935, works under the Social Studies Research Committee. It is a centre for statistical research in economics and social studies and for the teaching of statistical methods. The Institute provides facilities for research: books and periodicals, expert advice in the use of statistical sources, and calculating machines. Director—J. Marschak, M.A.. Secretary and Librarian—H. E. Caustin, B.A. Address: 74 High Street.

INSTITUTE OF EXPERIMENTAL PSYCHOLOGY, founded 1936. Temporarily housed in St. Giles School, Banbury Rd. Director—W. Brown, D.Sc. Lond., D.M. Ch.Ch., F.R.C.P. (Wilde Reader in Mental Philos.); Asst. Director—W. Stephenson, M.Sc. Durh., Ph.D. Durh. and Lond., M.A. C.C.C.

SOCIETIES APPROVED FOR HIGHER STUDY AT OXFORD. The following have been approved as Societies for higher study at Oxford, the members of which may have their names entered in the Univ. Register of Diploma students although they are not members of the Univ.:

Barnett House, 34-35 Beaumont St. (1915). President—The Warden of All Souls. Vice-President—Prof. D. H. Macgregor, M.A.

The Social Studies Committee of Barnett House, which has, for a number of years, been responsible for the operation of the Univ. Social Training Course, is prepared to provide for the tuition and arrangement of work of students, where such provision is not made for them by their own colleges. The cost is at the rate of £6 a term for full-time, and £3 a term for part-time students who propose to take the Diploma course in 2 yrs. Special provision is made for the observational work required in connexion with the subject of Public and Social Administration. A bursary is sometimes offered in reduction of tuition fees. Further particulars from the Secretary for Social Training (Miss C. V. Butler, M.A.).

Catholic Workers' College (1921). Principal—Rev. L. O'Hea, S.J., M.A. Subject to accommodation being available, any adult working-class student is admitted provided that the fees are guaranteed, the College regulations accepted and references supplied in proof of good character. The Principal must also be satisfied of the candidate's aptitude as a student. Period of residence, 1 or 2 yrs. Fee, £100 p.a., covering board, lodging, lectures and tuition. Particulars of available scholarships may be obtained on application to the Principal.

Ruskin College, Walton St. (1899). Principal—A. Barratt Brown, B.A. Lond., M.A.

A residential college for Adult Education, open on equal terms to men and women students. Foreign students must produce evidence of sufficient knowledge of English to enable them to follow the courses. Fee, £100 p.a., covering board, residence and tuition. Students are also admitted for less than a year; fee, 2 terms £75, 1 term (of 11 weeks) £40, 1 month £15. A list of scholarships available will be supplied on application to the Secretary.

THE OXFORD AND CAMBRIDGE SCHOOLS EXAMN. BOARD, established 1873, examines or inspects and reports on the work of schools which provide educa-

tion of the highest grade. It also holds yearly examns. and awards certificates—Higher, School and Lower. The two former exempt the holder, under certain conditions, from Responsions and the Previous Examination, the Matricn. examns. of London, the Northern and other English Univs., and the Preliminary examns. of various professional bodies, etc. The Regulations of the Board are published by the Ox. and Camb. Univ. Presses (post free rs. 3d.). Secretaries: at Oxford—C. H. Wilkinson, M.A., 74 High St.; at Cambridge—T. G. Bedford, M.A., 10 Trumpington St.

LOCAL EXAMINATIONS are held in July and Dec. at Oxford and elsewhere. Successful candidates in the School Certif. or in the Higher School Certif. Examn. are on certain conditions exempted from Responsions, the Cambridge Previous and various matricn. examns. The Regulations may be obtained from the Secretary of Local Examinations, Merton St. All the examns. are open to persons of both sexes. The Higher School Certif. Examn. is held in July only.

In December 1936 the School Certif. Examn. was held at 211 Centres (of which 9 were overseas) and the Junior Examn. at 58 Centres (of which 5 were overseas). The total number of Candidates was 3758, viz. School Certif., 3388, Junior 370.

In July 1937 the Higher School Certif. Examn. was held at 145 Centres, the School Certif. Examn. at 448 Centres (of which 10 were overseas), and the Junior Examn. at 185 Centres (of which 4 were overseas). The total number of candidates was 15,101, viz. Higher School Certif., 682, School Certif., 12,054, Junior, 2365.

EXTRA-MURAL STUDIES. There is a Department for the non-vocational education of adult persons beyond the limits of the Univ. The Delegacy for Extra-mural studies may recommend the admission of adult students to the Univ. without the necessity of passing Responsions. The Delegacy controlling the Dept. has three Committees, one for Univ. Extension Lectures, one for Univ. Tutorial Classes, and one for promoting adult education in Oxon, Berks, and Bucks.

Univ. Extension Lectures. The system begun in Camb. was adopted by Ox. in 1878. Up to the end of the session 1936–37 the number of persons attending courses was 717,830, and the number of students examined 30,967; 29 summer meetings had been held. Reading University partly owes its origin to extension work. The following certs. are issued under the sanction of the Delegacy: Terminal, on courses of 10 or 12 lectures; Sessional, on 24; Sessional in Honours, implying distinction and a special essay. Further information can be obtained from the Secy. to the Delegates for Extra-mural Studies, Rewley House, Wellington Square, Oxford (C. R. Morris, M.A.).

Tutorial Classes are held in working-class districts under the supervision of the Tutorial Classes Committee. Students pledge themselves to a 3 yrs.' course. The classes meet once a week for 2 hrs. from Sept. to April, and each student writes an essay about once a fortnight. The Organizing Secy. is E. S. Cartwright, M.A., Rewley House, Wellington Square, Oxford.

Oxon, Berks and Bucks Committee, formed in 1924 for promoting adult edn. in the villages and small towns of those three counties. In the session 1936–37 there were 75 courses held in 57 centres.

The Oxford Summer Meeting is held biennially, and will take place in August 1939. A Vacation Course for foreign students will be held in August 1938.

EXPENSES. "It is not possible to make any general estimate of the cost of a University course, which varies at different colleges, and depends upon the student's own means and tastes. It must suffice here to enumerate certain items common to all undergraduates, and to recommend persons anxious for further details to consult the authorities of the Society which they wish to join. . . . The total cost of living in college might perhaps be estimated at from £70 to £80 a term for a man who exercises reasonable care in his expenditure."—Extract from *General Information* pamphlet mentioned in preceding paragraph. The items specified are:—(1) Annual: Univ. dues, £6; College tuition fee, £24 to £33; room rent, £21 to £24; hire of furniture, £6; College clubs, £6; rates and taxes on the rooms occupied, College dues and establishment charges and servants' wages, kitchen and buttery bills, fuel, laundry, lighting, etc. (amounts not separately estimated). (2) Initial: matricn., £5; College admission fee (usually £5); College caution-money, £10 to £30 (returned when name is removed from the books, and often in part on taking a degree). (3) Occasional: examn. fees, about £9 for B.A. (exclusive of Responsions, £3); degree fees (B.A., B.Litt., or B.Sc., £7 : 10s.). More detailed information about College expenses is contained in the *Handbook to the University of Oxford*, mentioned in the previous paragraph.

THE YEAR 1936-37

BENEFACTIONS. Lord Nuffield made the following benefactions: (1) £2,000,000 to widen the scope of the Univ. Medical School, including the Nuffield Institute for Medical Research; (2) £100,000 for charitable purposes for promotion of higher studies in the Univ. The Rhodes Trustees, £100,000 to the Higher Studies Fund. To Ashmolean Museum: Sir Michael Sadler, £100 for the purchase of drawings; the National Art Collections Fund, picture, design and drawing; Mrs. T. F. R. Weldon, bequest of 51 paintings and 34 drawings. The Rockefeller Foundation, grant of £3400 to the Social Studies Research Committee for research on trade cycles. Dr. G. C. Druce, bequest of £1000 to the Bodleian Library and to the University certain property and moneys for housing and maintaining a Herbarium and Library. Lady Firth gave to the Bodleian Library a collection of ballads, broadsides, etc., forming part of the library of the late Sir Charles Firth. Friends of the late Jane Willis Kirkaldy, £300 to found a scientific prize in her memory. Lincoln Coll. presented to the Univ. a collection of anthropological, entomological and zoological museum specimens gathered from the upper waters of the Amazon by Major R. H. Thomas.

NEW BUILDINGS. Extensions to the Depts. of Biochemistry and Zoology and Comparative Anatomy.

NEW POSTS. Nuffield Professorships of Surgery, Clinical Medicine, Obstetrics and Gynaecology, Anæsthetics, Orthopædic Surgery, and Therapeutics; Readership in Bacteriology.

LEGISLATION. A Statute has been passed raising the stipends of all Modern Language Professors to £1200 p.a. The Statute concerning the Committee for Advanced Studies has been revised. A Statute has been passed further extending the facilities for taking degrees in absence. Legislative effect has been given to arrangements by which students from either Oxford or Cambridge will be allowed to keep residence in the other University while taking special courses of study. The privilege of incorporation has been extended to M.B.'s, M.D.'s and Masters of Surgery of Cambridge University. A Statute has been passed establishing an Honour School of Agriculture, and a Certificate of Proficiency in Estate Management. The Statutes concerning elections to Professorships and leave of absence for Professors have been revised.

OTHER DEVELOPMENTS. Demolition of the Broad Street houses to make way for the new Bodleian Building, work on which has begun. Plans for a new Lecture Theatre for the School of Geography have been approved. Further extensions of the Ashmolean Museum and the Taylor Institution on the St. Giles' front have been begun. Extensions to the Radcliffe Infirmary are in hand to provide for the activities of the newly appointed Nuffield Professors. The erection of a new Clarendon Laboratory has been authorized. Plans for an extension of the Department of Human Anatomy have been approved.

BRITISH DAIRY INSTITUTE (occupying a building on the University site and controlled by a committee representing the British Dairy Farmers' Assocn. and the University). Lecturer in Dairying—A. Todd. 1 Instr., 1 Asst. Instr.

THE NATIONAL INSTITUTE FOR RESEARCH IN DAIRYING, Shinfield, near Reading, established by the Ministry of Agric. and Fisheries in 1912, forms part of the Univ. (Director—H. D. Kay, O.B.E., Ph.D.Camb., D.Sc. Manc.). It is governed by a Board consisting of representatives of the Ministries of Agric. and Health, R.A.S. of England, British Dairy Farmers' Assocn., Nat. Farmers' Union, etc. It has five Depts.—Dairy Bacteriology, Dairy Chemistry, Dairy Husbandry, Physiology, and Dairying. *See also* App. III. A. I. (d).

GENERAL INFORMATION

The University was established by Royal Charter, March 17, 1926. For early history, see *Yearbook* for 1929.

LIBRARY, 65,000 vols., including Overstone collection (7500 vols.) of books on Polit. Econ. (pubd. before 1850), English and French thought during eighteenth century, and topography (especially Northamptonshire); 18,300 pamphlets. 300 periodicals are received. MUSEUMS: Zool. and Hist. and Archæol. LABORATORIES: Bacteriol., Bot., Chem., Geol., Mech., Physics, Psych., Zool. Fine Art Studios. School of Music. Agricultural Machinery Hall. Two farms (359 and 380 acres) and Horticultural Station.

FACULTIES: (1) Letters, (2) Science, (3) Agric. and Horticulture (associated with which are the National Inst. for Research in Dairying and British Dairy Inst.).

DEANS: (1) Prof. R. Dewar (Eng. Lit.); (2) Prof. H. L. Hawkins (Geol.); (3) Prof. H. A. D. Neville (Agr. Chem.).

SCHOOLS: Art, Music.

DEPARTMENT: Domestic subjects.

ADMISSION. *See* Appendix I. Entrance examn. for Diploma courses in Commerce, Agric., Dairying, Hortic., Landscape Architecture, Domestic subjects.

DEGREES. B.A., M.A., D.Litt.; B.Sc., M.Sc., D.Sc.; B.Sc. (Agric.), B.Sc. (Dairying), B.Sc. (Hortic.); Ph.D. The M.Sc. and D.Sc. are obtainable in the Faculty of Agriculture and Horticulture as well as in the Faculty of Science. The Senate may decline to admit to a degree course a person whose

place of residence during term is at too great a distance from Reading, and the degree of Bachelor may not be granted to a candidate whose record as a student of the University is not deemed satisfactory.

The Charter provides that degrees representing proficiency in technical subjects shall not be conferred without proper security for testing the scientific or general knowledge underlying technical attainments.

An oral examination forms part of the Final examn. for a B.A. degree with honours, except in Mathematics, and, at the discretion of the Examiners, may form part of the Intermediate or of the Final Examn. for a Pass B.A. degree, or of the Intermediate or Final Examn. for the B.Sc. In the Final Examn. for the B.Sc. candidates are examined upon either a general course of study (3 subjects) or a special course; honours can be obtained in either case. The Final Examn. (Special) is ordinarily taken after passing the Final Examn. (General). The course for the degree with honours extends over 4 years in Agriculture and in certain cases in Arts and in Science.

UNIVERSITY DIPLOMA COURSES are as follows: 1 yr. (post-grad.)—General Bacteriol., Education. 2 yrs.—Agric., Commerce, Dairying, Domestic subjects, Hortic. 3 yrs.—Landscape Architecture, Fine Art, Music, and for Diplomas with distinction in Agric., Dairying, Domestic subjects, or Hortic.

OTHER COURSES for Univ. Certifs., Agric., Poultry Husbandry, Commerce, Domestic subjects, Hortic. (1 yr.); Secretarial subjects (1 yr. post-graduates); Jewellery and Enamelling, Wood Carving, Woodwork, Embroidery, Leather Work, Writing and Illuminating (2 yrs.); British Dairy Farmers' Assn. exams. (6 months.); L.R.A.M., A.R.C.M., etc.

TUTORIAL SUPERVISION. Every student following one of the organized day courses or a specially arranged day course involving frequent attendance at the Univ. for at least 2 terms is placed under the supervision of a tutor.

A RESEARCH BOARD promotes research and original work in the Univ. (apart from the National Institute for Research in Dairying). It administers funds entrusted to it for the purpose, and issues an annual record and report.

TERMS. 3, each of 10 weeks, the first beginning on the first Friday in October. Vacations of 4 weeks at Christmas and 5 weeks at Easter.

RESIDENCE. All students following full courses of day study, unless residing with parents or guardians, are ordinarily required to reside in a University Hall of Residence. There are two Halls for men, Wantage (Warden: J. B. Passmore, M.C., M.Sc.), St. Patrick's (Warden: R. L. Pearson), and four for women, St. Andrew's (Warden: Dorothy Mack Smith, B.Sc.), Wessex; (Warden: Evelyn M. Wiseman, M.A.), St. George's and Ashdown (Warden: Isobel A. Turner, M.B.E., B.Sc.). Full-time day students living in recognized houses, or at home in or near Reading, are associated in St. David's Hall, a non-residential club. For Expenses, *v. infra*.

SCHOLARSHIPS OPEN TO GRADUATES. Offered annually by the Univ.—£100; "Ernest Ridley"—£50 plus tuition fees, for one year, renewable for a second year.

FEEs. For Tuition: Ph.D. course—£5 or £7 p.a.; M.A. course—£5 p.a.; M.Sc. course—£7 p.a.; Bachelor's Degree course—Arts, £30 p.a.; Sc. or Agric. or Dairying or Hortic., £35 p.a.; Diploma course—Commerce, £25 p.a.; Agric. or Hortic. or Landscape Architecture or Domestic subjects, £30 p.a.; Dairying, £35 for 1st, £41 for 2nd year; General Bacteriol. (post-grad.), £35 p.a.; Fine Arts, £21; Certif. courses—£21 to £30. Tuition fees are in most cases reduced by 25 per cent to students from neighbouring counties, under certain conditions.

EXPENSES. Total average necessary yearly expenses (excluding travelling, clothing, and personal laundry) about £120 p.a., namely: (i.) Registration, matriculation, cap and gown, tuition, examination, and graduation, average £38 p.a. for a degree student; for diploma or certificate student somewhat less. (ii.) Maintenance, including board and lodging in Halls or lodgings and sanatorium fee, maximum for 30 weeks about £77 for a man and £69 for a woman student. (iii.) Personal, including subscription to Union (3 gs. p.a.), and cost of books and stationery, widely variable, say £6 p.a.

Courses of lectures open to the public are ordinarily charged for at 15s. per term (30s. per session) for each subject (one hour per week).

APPOINTMENTS. The Registrar.

STUDENT ORGANIZATIONS. Students' Union and Representative Council. An Old Students' Association meets annually at the Univ. at Whitsuntide.

UNIVERSITY EXTENSION, ETC. Agriculturists are helped by correspondence, visits, local lectures, examination of diseased plants, etc. Evening classes are held in Mech. Engineering, Building, and most of the subjects in which Day courses are provided. Tutorial classes are held in connexion with the W.E.A.

PUBLICATIONS. *Calendar* (Sept.), 2s.; *University Gazette*; General Prospectus (including illustrations and plans); Departmental Prospectuses (Degree courses, Education, Commerce and Secretarial, Agriculture, etc., Fine Arts and Handicrafts, Music, Domestic subjects); Scholarships and Studentships; Guide to Evening Classes, 2d.

THE YEAR 1936-37

BENEFACTIONS. Donations amounting to £9881 received towards fund for proposed new Hall of Residence for Women Students.

NEW POSTS. Asst. Lectr. in Zoology. Asst. Lectr. in Agricultural Chemistry. Asst. in German.

CHANGES IN REGULATIONS. Additions to Regulations for Matriculation.

EXTRA-MURAL WORK. Two three-year Tutorial Classes. One University Extension Course.

RETIREMENTS. J. Golding, Research Chemist and Head of Dairy Chemistry at National Institute for Research in Dairying. P. R. Scrivener (Music).

RESIGNATIONS. Prof. F. A. Cavenagh (Education), on appointment as Prof. of Education, King's College, London; Dr. W. H. Semple (Latin), on appointment as Hulme Prof. of Latin, Univ. of Manchester; Dr. W. K. AFFILIATED INSTITUTIONS

BARNSELY MINING AND TECHNICAL COLLEGE, SCUNTHORPE CENTRAL EVENING TECHNICAL SCHOOL, LINCOLN TECHNICAL COLLEGE, AND CHESTERFIELD TECHNICAL COLLEGE. Students proceeding from "Affiliated Institutions" to the Univ. to take courses for an Honours degree or Associateship in the Facs. of Engineering or Metallurgy may receive certain concessions.

GENERAL INFORMATION

University College, Sheffield, incorporated by Royal Charter in 1897, was in 1905 merged in the University of Sheffield constituted by Royal Charter in that year. The city being an important centre of steel, electro-plate, glass, and other manufacturing industries, and in the heart of an extensive coal-mining area, students of Engineering, Metallurgy, Mining, Fuel Technology, and Glass Technology have exceptional opportunities.

LIBRARY (Arts, Pure Science, and Medicine), 147,000 vols. and pamphlets, including collections of books on alchemy and early history of chemistry (J. Spear Parker's), facsimiles of Greek papyri (J. H. Moulton's), literature relating to Polychæte worms (A. T. Watson's), and seventeenth-century tracts, plays, etc. (Sir Chas. Firth's); 556 current periodicals. **LIBRARY** (Applied Science), 8000 vols. and pamphlets. Also Special Glass Technology departmental collection.

RESEARCH DEPARTMENT LABORATORIES include: *Engineering* (mech., elec., civ., and mining), with steam, gas and oil power plant, high speed engine indicators, air-compressors, refrigerating plant, hydraulic appliances, testing machines, special apparatus for high temperature and repeated stress testing, the testing of cement and concrete, high-speed steel tool-testing lathe, etc., the workshops are specially equipped for the study of modern methods of precision production; Jonas lab. specially equipped for researches in connexion with all physical tests of materials; special apparatus is in use for research on welded joints, lubrication problems, the flow of metals and balancing. The *Electrical Engineering* Department has excellent facilities for research in heavy current elect. engin., radio communication, and magnetism. Included in the machine labs. are a three-phase commutator motor, a 25 kVA motor-alternator-fly-wheel set specially designed for research, and a 25 horse-power induction motor with Scherbius type phase-advancer. The Edgar Allen Research Laboratory, specially equipped for research on magnetism and allied phenomena, contains a wide variety of measuring instruments and testing appliances, including two high frequency Duddell type oscillographs, a cathode ray oscillograph, and a furnace heated by gas and electricity specially constructed for the investigation of magnetic phenomena for a range of temperatures up to about 1200° C. Means are also available for magnetic testing in very strong fields and in particular for the observation of magnetostriction effects as applied to the testing of the quality of steel. Apparatus for the testing for mechanical flaws and for fatigue of colliery and other wire ropes is also part of the equipment of this lab.; *Civil Engineering*, lab. facilities for investigation of properties and behaviour of materials of construction; models of civ. engin. structures and a wide range of surveying instruments and apparatus relating to topographical, cadastral, astronomical, and hydrographic surveys, including a 36-inch tunnel transit. Practical field classes are held during the Easter vacation; *Mining*, research labs., specially equipped for the study of mine safety and general problems including: machine mining, preparation of coal for the market (sizing, wet and dry cleaning), treatment of ores, mine lighting and gas testing, the use of electricity in mines, mine ventilation, mine surveying and mining subsidence, and for the conduct of researches on practical problems arising in the coalfield; practical field classes in Mine Surveying and Geology held each session. *Metallurgical*, with plant for experimental melting of steel, including $\frac{1}{2}$ -ton electric arc furnace, Ajax-Northrup high-frequency induction furnace, crucible steel-melting house, cupola for melting iron, and a complete equipment for practical foundry work, laboratory equipped for heat treatment of steels and other metals, and equipment for thermal, dilatometric micrographic, X-ray

electron-diffraction, spectroscopic, and other physical investigations; specially equipped lab. for electro-deposition of metals; lab. with rolling mill draw bench and drawing press for research on cold-working of steel; Non-Ferrous, equipped for the lighter Sheffield trades; *Glass Technology*, electric, gas, and oil-fired furnaces for melting glass in quantities from the minute scale up to 120 lbs.; several research labs. for the physico-chemical, thermal, electrical, mechanical, spectrographic, and general optical properties of glass; *Fuel Technology*, coke-testing apparatus and specially equipped labs. for research on coal, coke, and gaseous explosions.

OBSERVATORY with 6½" equatorial telescope and 2½" transit instrument. HOSPITALS available for clinics include 2 general (840 beds), 3 special (1561 beds), and Mental Hospital (2000 beds).

FACULTIES. (1) Arts, (2) Pure Science, (3) Medicine (including the Dental Dept.), (4) Law, (5) Engineering (Depts. of Mech., Elec., Civ., and Mining E., Fuel Tech., Glass Tech.), and (6) Metallurgy (Ferrous, Non-Ferrous, and Founding). *Deans*: (1) Prof. J. D. Craig (Latin), (2) Prof. R. N. Rudmose Brown (Geog.), (3) Prof. G. A. Clark (Physiol.), (4) Prof. D. Browne (Law), (5) Prof. H. W. Swift (Engin.), (6) Prof. J. H. Andrew (Metall.). There is a Univ. Training Coll. Dept. for Teachers for elementary and secondary schools. *Dept. of Glass Technology*: The Dept. was the first and still remains the best known of the scientific instns. in the world devoted to the study of glass, v. also *supra*. *Faculty of Metallurgy*: The courses in Metallurgy include, in addition to the ordinary subjects of a metallurgical training in Ferrous and Non-Ferrous Metallurgy, special instruction in Foundry Metallurgy and in the use of semi-large scale plant. Post-graduate courses are arranged for graduates in Pure Science or in Metallurgy.

ADMISSION. See Appendix I.

DEGREE COURSES. 3 yrs.—B.A. (with Honours in Archit.—5 yrs., including time spent in an Architect's office), B.Mus., B.Sc., LL.B., B.Met. (3 yrs.' evening courses may under certain conditions be taken by students of 20 yrs. of age in lieu of the 2nd and 3rd yrs.' day courses), B.Eng. ("Sandwich" course 4 yrs.), B.Sc.Tech. ("Sandwich" course 4 yrs.); B.Eng. Honours and B.Sc.Tech. Honours, 3 yrs. after passing Intermed. Examn.; 5½ yrs. (including 3 in the Univ.)—M.B., Ch.B.; 5½ years—B.D.S. Graduates of a Univ. of the U.K. who wish to qualify for special degree of B.A. or B.Sc. with Hons., B.Mus. or LL.B., need, under certain conditions, only attend courses for 2 yrs., if they have pursued a course for 2 yrs. at some approved instn. Graduates of a Univ. of the British Empire who wish to qualify for B.Met., B.Eng., or B.Sc.Tech. with Honours need, under certain conditions, only attend courses for 2 years (for B.Eng. or B.Sc.Tech. pass degree, 1 or 2 yrs.; B.Met. pass degree, 2 yrs.) if they have pursued a course for 2 years at some approved institution.

General Honours B.A. and B.Sc. degrees are conferred (v. p. 7).

Attendance on approved courses at a Univ. or Coll. recognized for the purpose may be accepted as equivalent to such courses in the Univ. The Univs. of Paris, Caen, Besançon, Grenoble, Lyons, Poitiers, Berlin, Heidelberg, Leipzig, Freiburg, Göttingen, Tübingen, Giessen, and Innsbruck have been recognized in the Faculty of Arts, and the Univ. contributes towards expenses of undergraduates spending a term there.

A Secondary Schools Council, including, in addition to members of the Univ. staff, representatives of local education authorities and school staffs, keeps the Univ. in touch with secondary educn.

HIGHER DEGREES. Obtainable by Bachelors of the Univ. of 1 yr.'s stand-

ing—M.A., M.Sc., LL.M., M.Eng., M.Sc. Tech., M.Met.—in each case a candidate must present a thesis approved by the Faculty concerned and, except for LL.M., pass an oral examn. Under certain conditions graduates of other Univs. may become candidates for these degrees. M.D.S. on the results of an examn. written, viva and practical; 3 yrs.' standing—M.D., Ch.M.; 4 yrs.' standing—LL.D.; 5 yrs.' standing—Litt.D., D.Mus., D.Sc., D.Eng., D.Sc.Tech., D.Met.; Ph.D., v. p. 13.

DIPLOMAS. Archit., 5 yrs. (including time spent in an Architect's office); Educn. (after graduation), 1 yr. (special facilities for Pedagogical research); Certif. in Biol., 2 yrs.' pt.-time study; Public Administration, 2 yrs.' Evg. study; L.D.S., 4 yrs.; Glass Technology, 3 yrs. (for those with 2 yrs.' practical experience, 2 yrs.); Associateship in Engin., 3 yrs. (Works Pupils and Evening students, 4 yrs.); Associateship in Iron and Steel or Non-Ferrous Met., 3 yrs. (evening students, 4 yrs.); Mining, 3 yrs.' full-time course or 4 yrs.' "Sandwich" course (1st year, full-time at the Univ., Oct. to June inclusive; other years 6 mos. in Colliery and 6 in Univ.; exemption from first yr. obtainable through examn. The Dipl. enables a student to sit for the examn. for a colliery manager's certif. after 5 yrs. and 3 mos. total training, including the time spent in the Univ.). Associateship in Fuel for Evening Students, 4 yrs.

Certificates, Architecture (3 yrs.); Works Pupils in Engin. (3 yrs.); Glass Technology (4 yrs., Saturday or Evening Students).

FEES. Matricn. £2. Registr. 21s. p.a. Diploma courses (except L.D.S.) or 25s. p.a. Degree courses (except M.B., Ch.B., and B.D.S.). Tuition for degree courses (approximate): B.A. and B.Mus., £26:13:4 p.a.; B.Sc., £35 p.a.; LL.B., 15 gs. p.a.; B.Eng., B.Met., B.Sc.Tech. (Glass or Fuel), £41:10s. p.a.; "Sandwich" course for B.Eng., 4 yrs., £31:5s. p.a.; M.B., Ch.B., £238 for 5½ yrs.' course, including hospil. fees; B.D.S., £250 for 5½ yrs.' course, including Mech. Dent. Examns. Intern. and 1st B.Mus., £2; Final Pass Degree, £2; Final General B.A., £2:10s.; Final Honours, B.Mus. and General B.Sc., £3; M.B., Ch.B., B.D.S., L.D.S., for each of 1st, 2nd, 3rd, and Final examns., £6. Bachelor's Degree fee, £6 (except M.B., Ch.B., £5; B.D.S., £1).

SCHOLARSHIPS, ETC., FOR GRADUATES. Sorby Research Fellowship (administered by Royal Society), v. App. II. 17; Ironmongers' Company Research Fellowship and Research Scholarships, v. App. II. 4; Alfred Tongue Scholp., £80 for 1 yr. for research in Engin., Met., or Chem.; George Senior Fellowships, £125 p.a., 2 offered annually for research, one in Engin. and one in Met.; several Robert Styring Research Scholps., £100 p.a. for research in ferrous and non-ferrous metals; Cutler's Company Scholp., £100 p.a. for 2 yrs.; 2 Glass Research Fellowships, £150 p.a.; Mechanics Institute Scholp., £50 p.a. for 1 yr., together with fees for courses taken by the holder, for research in one of the Depts. of the Univ.; Frederick Clifford Scholp., £50 p.a. for 2 yrs., for research in one of the Depts. of the Univ.; Ezra Hounsfield Linley Post-graduate Scholp., £75 to £100 p.a. for 1 yr., for research in Fac. of Engin. or Fac. of Met. or Physics or Chem.; Town Trustees Fellowship, £75 p.a. for 1 yr., for research in one of the Depts. of the Univ.

GENERAL INFORMATION

The Univ. was founded by Charter, 1893. As the result of an inquiry held by a Royal Commission in 1916–1918, a Supplemental Charter was granted to the Univ. in 1920, which introduced many important changes. For outline of changes, see *Yearbook*, 1929. A further Supplemental Charter was granted in 1932 providing *inter alia* for the institution of the Welsh National School of Medicine as a School of the Univ., and for the recognition of Schools of Theology at the Collegiate centres. The teaching for initial degrees is undertaken by the constituent and associated Colleges and by the Welsh National School of Medicine, and matriculation in the Univ. is open only to students of those institutions; in the case of an associated Theological College, only to students who are graduates of an approved University. The Technical College, Cardiff, is associated for the purpose of providing courses of study for the degree of B.Pharm. The Univ. prescribes conditions under which it awards initial degrees to students of the Colleges and of the School of Med. and conducts the final exams. An Academic Advisory Committee deals with the conditions on which School Leaving certificates are accepted by the Univ. for matriculation, and as relieving a student from repeating in College work done in Secondary Schools, and with other matters lying in the borderland between School and Univ.

ADMISSION. See Appendix I.

DEGREES. B.A., M.A., D.Litt.; B.Sc., M.Sc., D.Sc.; B.Tech.; B.Mus., M.Mus., D.Mus.; LL.B., LL.M., LL.D.; M.B., B.Ch., B.Pharm., M.D., M.Ch.; B.D., D.D.; Ph.D. (in Arts, Science, Law, Medicine).

For a first degree 3 yrs. of study are required. The degree in Med. is only open to a graduate in Arts or Science of some British or approved colonial or foreign Univ.; the period of qualification is 6 yrs., of which the last 3 may be spent in an approved School of Med. in the U.K. or in one of the Univs. of Paris, Berlin, Vienna, or the Johns Hopkins Univ. The degree of B.D. (3 yrs.' course) is post-graduate; study is pursued in one of the Associated Theol. Colls. or at the Schools of Theol. of the University Coll. of N. Wales, Bangor, and the University Coll. of South Wales and Monmouthshire, Cardiff, respectively (*v. supra*). Study for an Honours degree in Arts, Science, Music, or

Law ordinarily covers 4 yrs. The M.A., M.Sc., and LL.M. may be awarded to graduates of other Univs. approved for this purpose who pursue a scheme of research for at least 2 yrs. in one of the constituent Colls. As regards Ph.D., see p. 13.

DIPLOMAS. Education, 1 yr. postgraduate; Public Health (D.P.H.), 1 yr. subsequent to attainment of registrable qualification; Tuberculous Diseases (T.D.D.), 2 yrs. subsequent to attainment of registrable qualification (including 12 mths.' resident appointment in Tuberculosis Hospital and attendance at approved courses of instruction); Agricultural Science or Forestry, 1 yr. for graduates and others with equivalent qualifications; Theology, 3 yrs.; Agriculture, 3 winter sessions of two terms and approved practical work.

FEES: Matricn., £3; examns. qualifying for Bachelor degree, from £6:15s.; Master, £8; Ph.D., £12; higher Doctorates, £20.

POST-GRADUATE SCHOLARSHIPS, ETC. The Univ. has funds amounting to over £5000 p.a., including the income of a capital sum of £20,000 given by the late Dr. Samuel Williams of Llanelly, Carms., for the encouragement of research. In addition to 6 Fellowships (annual value £200 each), one of which is a Dr. Samuel Williams Fellowship, tenable for 2 yrs., it awards 20 or more studentships (4 named Dr. Samuel Williams Studentships), on the nomination of the Colls. to students who after graduation engage in work preparatory to research for 2 yrs. Grants to assist research into Welsh language, institutions, etc., are made, preferably to members of the Univ., from the T. Ellis Memorial Fund (capital £1574). See also Appendix II. 16.

PRIZES. *The Roberts Welsh Reading Prize* (bound books value £2); *The Sir Samuel Evans Prize* (c. £40) for the most proficient student in the Hons. examns. in Law; *The Prince Llywelyn ap Gruffydd Memorial Prize* (a bronze medal and bound books value £2:10s.) for the best M.A. dissertation on a subject relating to the hist. of Wales or the Welsh Marches; *The Brough Prize in Logic and Psychology* (about £40) for the best M.A. dissertation on a subject within the province of Logic or Psychol.; *The John Maclean Prize* (silver medal and bound books, value £2:10s.) for the most proficient student in the degree examns. in Obstetr. and Gynæcol.; *The Willie Seager Prizes* in Medicine, Surgery, and Pathology and Bacteriology (a gold medal and books value £4), for the most proficient students in the degree examns. in Med., Surg., and Pathol., and Bacteriol. respectively; *The Hywel Dda Prize* (£20), awarded to the person who has by work published within the preceding 5 calendar yrs. done most to advance the study of ancient Welsh law and custom, or thrown most light upon its origins and history; *The Sir Ellis Griffith Memorial Prize* (books value £5 and a money prize of £10), awarded to the person who has by work published within the preceding 3 calendar yrs. produced the best work dealing with Welsh Lit., the arts and crafts of Wales, or with artistic work produced by Welshmen.

ASSOCIATED INSTITUTIONS

TECHNICAL COLLEGE, CARDIFF. Principal, J. C. Jones, B.Sc. Lond.

SOUTH WALES AND MONMOUTHSHIRE SCHOOL OF MINES, TREFOREST.
Acting Principal, Robert James.

Both Institutions join with the University College in granting Diplomas, *v. infra*: College Diplomas.

GENERAL INFORMATION

Opened in 1883 and incorporated by Royal Charter in 1884, this is now one of the constituent Colleges of the Univ. For early history, see *Yearbook*, 1929.

A Supplemental Charter was granted to the College on Jan. 21, 1931, and a Charter of Incorporation to the Welsh National School of Medicine on Feb. 5, 1931.

Medical students pursue their preliminary medical studies at the Coll. and their clinical studies at the Welsh National School.

LIBRARY: Drapers' Company's, 85,477 vols. MUSEUMS: Anat., Zool., Agric. The National Museum of Wales (Art, Archæol., Zool., Geol., Bot.) is located in an adjoining building. LABORATORIES: Physical Research, with liquid-air plant, etc.; Engineering (including 100-ton testing machine); and usual Science and Medical teaching and Research labs.

FACULTIES. Arts, Science, Theology. *Departments*: Music, Applied Science and Technology, Teachers' Training; Training College of Domestic Arts; Advisory and Research Dept. in Agric.; Law.

COLLEGE DIPLOMAS. Engin., Metalliferous Mining, Metallurgy; Lang., Lit., and Hist. of Wales; Econ. and allied subjects; Music; Social Study and Training. In the Applied Science subjects the qualifying scheme of study covers 3 years; in the other subjects, 2 yrs. A Diploma in Biology and a Diploma in Palæography and Allied Subjects awarded after a one-year's course. A Joint Diploma in Coal Mining is granted by the Coll. and the S.W. and Monmouthshire School of Mines, 4 yrs.' residence being required. After a 4 yrs.' course students who desire to specialize in certain subjects can take a post-diploma course. A Joint Diploma in Mech. Engin. or Marine Engin., or Architecture or Commerce, is granted by this Coll. and the Cardiff Tech. Coll. after a 3 yrs.' course, and a Diploma in Chem. Engin. after completion of a post-diploma course extending over at least 1 yr., under approved regulations.

SCHOLARSHIPS (Prospectus obtainable from the Registrar). One of £60 is offered for research by a woman in any faculty, one of £50 for Science research. *See also* under Univ.

FEES. Annual Composition for tuition—Arts, £15; Science, £20; Music, £15; Applied Science, £20 (Non-associated Counties, £30); Medical (first 3 yrs.), £25 to £35; Research, 6 to 10 gs.; Domestic Arts, £35 (Non-associated Authorities, £60); Registration, 1 g. p.a.

RESIDENCE. 5 Hostels for women. Sessional Fees, £55 to £72. Board and lodging in the City can be obtained at about £1: 10s. per week.

PHYSICAL WELFARE OF STUDENTS. There is an Asst. Lectr. in Physical Training who also acts as College Adviser in Physical Training and Games.

PUBLICATIONS. *Calendar* (Feb.), 2s.; *A Short History of the College*, 2s. 6d.; *Students' Handbook*; *Cap and Gown*. Information regarding Courses and Careers open to Students of Science.

THE YEAR 1936-37

BENEFACTIONS. £5738:5:2 for Appeal Fund for £250,000. £332:0:6 for Scholarships and Prizes.

NEW BUILDINGS. Extensions are being carried out to Aberdare Hall, involving erection of a new wing and provision of a domestic block, at an estimated cost of £14,000.

GENERAL INFORMATION

Incorporated by Royal Charter, dated Jan. 21, 1920, the College was made a constituent College of the Univ. of Wales by a Supplemental Charter to the Univ. on Aug. 13, 1920. The administrative offices, assembly hall, common rooms, and refectory, in addition to some of the Science departments, are accommodated in a mansion in Singleton Park, presented, together with 19 acres of land surrounding it and 15 acres for playing-fields, by the Corporation of Swansea, which also gave £50,000 towards the cost of Science buildings. Extensive laboratories have been erected in the Park, on a site adjacent to the main College building, for the departments of Metallurgy, Engineering, Chemistry, and Physics, and a building to accommodate the Arts Departments and Library.

Situated in the heart of a district possessing a long and interesting metallurgical history and presenting an unrivalled variety of present-day metallurgical practice, the College offers exceptional advantages for preparation for professional careers in the metallurgical industry. The manufacturers of the district, who contribute largely to the support of the College, give the staff and students ample opportunities of keeping in close practical touch with manufacturing processes in the works. To ensure the closest possible co-operation with the local industries, Advisory Committees in Metallurgy and Engineering have been set up. All the College laboratories (Physics, Chem.,

Geol., Biol., Metall., Engin.) are well equipped and include fine experimental plant for instruction and research in combustion engineering.

FACULTIES. Science and Arts. Departments: Metallurgy and Engineering, and Training of Teachers (men and women) for Elem. and Sec. Schools.

COURSES FOR DEGREES, ETC. Courses for the degrees of the Univ. in Pure and Applied Science and Arts (3 yrs.); also for the College diplomas in Metall. or Engin. (3 yrs.), Mathematical Physics (final Hons. yr. and 1 postgrad. yr.); and complete Prelim. Science Course for medical students and classes in Law for articulated clerks. Engineering students are expected, and, where necessary, helped, to obtain practical experience in works during the greater part of the summer vacation. Afternoon visits to works are arranged frequently throughout the session. Occasional lectures are given by experts on the business, administration and managerial side of industrial undertakings.

FEES. For tuition in Pure or Applied Science, £20; Arts, £15; Registration, £1: 1s. p.a.; for Research, from 6 to 10 gs.

RESIDENCE. Beck Hall of Residence for women students (Warden: Miss M. K. Wilkinson, M.A.), fee, £49: 7s. p.a. A list of Registered Lodgings is kept by the Registrar.

THE YEAR 1936-37

BENEFACTIONS. Donations from £12: 2: 6 to £1200 for general purposes, research, etc. Annual Subscriptions, £3587: 12: 5. Contribution to New Library Fund, £369: 15s.

NEW DEPARTMENT. A Dept. of Economics established in the College from beginning of session 1937-38.

VISITS OF TEACHERS FROM OTHER COLLEGES. Prof. G. W. Robinson (Bangor), "Soils" (2 lectures); Prof. T. Campbell James (Aberystwyth), "Stereoisomerism in Unsaturated Compounds" (4 lectures); Prof. E. J. Wood (Aberystwyth), "The *Ars Poetica* of Horace" (3 lectures); Mr. Ifan ap Owen Edwards (Aberystwyth), "Mechanical aid to the teaching of Language."

RESIGNATIONS. Dr. R. E. Stedman, on apptment. as Independent Lectr. in Philosophy at University Coll., Dundee; Dr. T. G. Cowling, on apptment. as Lectr. in Maths. at University College, Dundee.

UNIVERSITY EXTENSION WORK. 25 University Tutorial Classes, 6 Preparatory Classes, and 3 University Extension Courses, with 644 students, and 1 One-Year non-grant-earning Class with 33 students. Many single lectures were given by members of the College staff in Swansea and elsewhere.

STUDENTS. Full-time: 629, including 108 graduates. Part-time: 26, including 3 graduates.

DEGREES OBTAINED. B.A., 72; M.A., 5; B.Sc., 52; M.Sc., 9; Ph.D. 4.

GENERAL INFORMATION

The Welsh National School of Medicine originated in the institution of Depts. in Anat. and Physiol. at the Univ. Coll. of S. Wales and Monmouthshire, Cardiff, in 1893. The Dept. of Mat. Med. and Pharmacol. was instituted in 1898, and the Chair of Pathol. and Bacteriol. in 1910. The David Davies Chair of Tuberculosis and the Mansel Talbot Chair of Prev. Med. were endowed in 1921, and in that year Medical and Surgical Units and a Dept. of Obstet. and Gynæcol. were instituted. On Feb. 5, 1931, a Charter of Incorporation was granted to the School by H.M. the King in Council.

While the Courses of instruction are designed to meet the Regulations for the Degrees in Medicine and Surgery of the Univ. of Wales, they are also recognized as satisfying the Regulations of the Univ. of London and of the Con-joint Board Examinations for the R.C.P. and R.C.S., and of other Examining Bodies.

Every candidate who proposes to pursue the courses appropriate to the second year of study for Med. Students, viz.: Organic Chem., Anat., and Physiol., shall, prior to his admission to first-year courses in Physics, Chem., Bot., and Zool., present a certif. showing that he has passed the Matric. Examn. of the Univ. of Wales, or an examn. recognized by the Univ. of Wales as equivalent thereto; and, if the certif. does not show that he has passed at the Matricn. standard in *two* of the following subjects: Physics, Chem., Bot., Zool. Biol. (one of which must be *either* Physics *or* Chem.), he shall present a supplementary certif. or certifs. showing that he has passed an examn. of Matricn. standard in these subjects.

No candidate will normally be accepted for admission to the Depts. of the second year of the Med. course unless he has completed, at one and the same time, an examn. leading to a Univ. degree in all the four first-year courses, Physics, Chem., Bot., and Zool. This regulation may be relaxed at the discretion of the Joint Academic Committee of the Univ. College, Cardiff, in certain cases where only *one* of the four first-year courses named above is outstanding.

Note.—An approved Second School Leaving Certif. Examn. will be recognized, subject for subject. as equivalent to an examn. leading to a Univ. degree.

GENERAL INFORMATION

Founded 1850 ; opened as the Hartley Institution, 1862. Incorporated as the Hartley University College under a scheme of the Board of Education, 1902.

The Library, 48,571 vols., of which 6500 are unbound, includes the Cope collection of Hampshire books, pamphlets, and broadsheets.

The Cotton Collection of Birds is housed at the College. This collection is unique, and represents many types of birds unprocureable for any collection at the present day.

The College provides courses in Arts, Science, Commerce, Engineering (Civ., Mech., Elec., Aeronautical), Music and Law in preparation for the External degrees of the Univ. of London ; for entrance into the Civil Service and for first yr. studies in Medicine, Pharmacy, Surveying, etc. It is recognized as a Training College for Teachers. The Department of Law (instituted in 1923) is recognized as a Law School under the Solicitors Act. The School of Navigation is recognized by the Board of Trade. There is special provision for aeronautical instruction (5 ft. wind tunnel) ; aircraft manufacturing firms in district provide opportunities of keeping in close touch with practical aircraft construction.

Special courses in English (Phonetics, Conversation, Composition, Translation, Modern English Literature, Commercial and Economic Knowledge, History of British Institutions) are provided for foreign students leading to the Certificate of Proficiency in English issued by the University of Cambridge. Minimum course of study one term, but students are strongly recommended to devote 2 or 3 terms to the course. Supervisor of Foreign Students : Dr. S. Potter.

Through its evening classes (attended by about 1000 students) the College performs the function of a Senior Technical Institute.

The Associateship of the College (Assoc. U.C.S.) implies, unless honorary, attendance during 2 yrs. (4 yrs. for evening and part-time students).

There are special courses in Social Studies for graduates and others, and diplomas and certificates are awarded.

ADMISSION. Candidates aged 16 (though students are advised not to enter below 18) are admitted provided they (1) produce a satisfactory testimonial of good conduct from a headmaster, headmistress, or some other responsible person; (2) have either (a) passed or obtained exemption from a matricn. examn. of the Univ. of London, or (b) passed the Entrance Examn. of the Coll.; or (c) hold such qualifications as Senate from time to time may recognize. Each full-time student is placed under the supervision of a member of the Staff, who acts as his Tutor.

Part-time students may in special circumstances be admitted to separate courses without passing the Entrance Examn.

FEES. The sessional fee is £25 for Courses in Arts, Commerce, and Music; £32 for Courses in Science and Engineering; and £30 for the Teachers' Diploma Course. Students whose parents are ratepayers within County Borough, Southampton—£18: 15s., £22: 10s., and £24 respectively.

Students' Union, composite fee, £2: 10s. p.a.

EXHIBITIONS AND SCHOLARSHIPS. The Coll. offers annually 10 open Exhibitions (free tuition); 7 open Scholarships; the Seymour J. Gubb Scholarship; the Alex Hill Memorial Scholarship; and the John Scott-Montagu Scholarship, all tenable for 3 yrs.

All Scholarships are of the value of £70 p.a. for students coming into residence, and £40 for non-residential students. The holders are required to pay tuition fees.

SCHOLARSHIPS FOR GRADUATES. Post-graduate Research Scholarships. See Appendix II. 1 and 10. Loan fund for senior students.

RESIDENCE. All full-time students must ordinarily reside in one of the Halls of Residence unless they are living with their parents or legal guardians. Halls for men: South Stoneham (Warden: Prof. A. A. Cock, B.A.), Connaught (Warden: Rev. F. C. Tindall, B.D.); for women: Highfield (Warden: Miss E. U. Lightbody, M.A.). Fees, £65-£75 p.a.

APPOINTMENTS BOARD. Chairman—F. E. Wentworth-Sheilds. Secretary—R. Casson. M.A.

EXTRA-MURAL WORK. Extension classes are organized through the Extension Committee of the Extra-mural Board of the Coll. Courses of lectures are given by members of the Staff and other approved lecturers. Tutorial classes in connexion with the Workers' Educational Association are organized by a Joint Committee in the usual manner.

PUBLICATIONS. *Calendar* (Sept.), free; Halls of Residence Prospectus free; *Students' Magazine*, 6d.; *Wessex Magazine* (June), 1s. 6d. annually.

THE YEAR 1936-37

BENEFACTIONS. Donations during the Session amounted to £19,286.

THE SCOTTISH UNIVERSITIES

ST. ANDREWS
GLASGOW

ABERDEEN
EDINBURGH

REPRESENTATIVES IN PARLIAMENT, *see* p. 18.

IN CONSTITUTION these 4 Universities have, under the operation of the Univs. (Scotland) Acts 1858 and 1889, been to a great extent assimilated. By the former Act 2 new bodies, called the Univ. Court and General Council, were instituted; by the latter a Committee of H.M.'s Privy Council was constituted, and an Executive Commission was created with extensive powers, which it continued to exercise till the end of 1897. These Commissioners issued ordinances, *inter alia*, for degrees, for the instruction and graduation of women, for special study and research, and for the constitution of a Students' Representative Council with power to petition the *Senatus Academicus* and the Univ. Court.

The *Chancellor* is elected (for life) by the General Council, of which he is President. He is empowered to nominate a *Vice-Chancellor*, who may confer degrees in his absence, but cannot discharge any other of his duties. The *Vice-Chancellorship* is at the present time held in each Univ. on the Chancellor's nomination by the *Principal*, who is appointed to the *Principalship* by the Crown (except in Edinburgh) and is President of the *Senatus Academicus*, and, in the absence of the Rector, of the Univ. Court. The *Rector* is elected every 3 years by the matriculated students. He is the official President of the Univ. Court.

The *University Court* consists of the Rector, Principal, the Lord Provost of the City (in St. And. the Provost of St. Andrews and Lord Provost of Dundee), and Assessors appointed by the Rector, Chancellor, *Senatus*, General Council, and (except in St. Andrews) Town Council. In St. Andrews the Principals of St. Mary's Coll. and Univ. Coll., Dundee, are also included in it. There is provision for the representation of other affiliated Colleges. The Court, a body corporate with full power to administer the property belonging to the Univ., is a Court of Appeal from the *Senatus*, and has power, since the expiration of the powers of the Commrs. under the Act of 1889, to found new chairs with the approval of the Univs. Committee and make other ordinances with the approval of H.M. in Council. It has, *inter alia*, powers to appoint professors whose chairs are in the patronage of the Univ., examiners and lecturers; to define the nature and limits of a professor's duties under his commission; and to recognize for graduation purposes the teaching of any College or individual teacher, under the regns. providing for such recognition.

The *Senatus Academicus*, consisting of the Principal, the whole of the Profs., and certain elected Readers and Lecturers, is entrusted with the regulation and superintendence of the teaching and discipline of the

Univ. The administration of the Libraries and Museums is entrusted to Joint Committees elected two-thirds by the Senatus and one-third by the Court.

The *General Council* consists of the Chancellor, the members of the Univ. Court, the Profs., such Lecturers and Readers as have held office for a year, and the Graduates of the Univ. It meets twice a year and may hold special meetings at the instance of the Chancellor. Proposed improvements in the arrangements of the Univ. must be submitted to the Council for their consideration.

The General Councils of the four Universities elect three *Members of Parliament*.

FACULTIES. In all the Univs.—Arts, Science, Divinity, Medicine. In all except St. Andrews—Law. In Edin.—Music (Glasgow has a department and offers degrees in Music). In Glas. and Aberd.—Engineering (Edin. and St. And. have departments and offer degrees in Engineering, although not a separate Faculty).

TERMS. The academic year is divided into three terms—Oct. to Christmas, Jan. to March, April to June or early July.

ADMISSION. See Appendix I.

DEGREES and courses leading thereto (v. also p. 4 ff.). The *M.A.* (ordinary) course (there is no *B.A.*) extends over 3 yrs. and includes (for ordinary degree) subjects from 3 of the 4 departments of the Faculty, namely Lang. and Lit., Ment. Philos., Science, Hist. and Law. (There are further restrictions at St. Andrews and Edinburgh.) A candidate for the degree must not only have regularly attended, but also have duly performed the work of the classes in the qualifying courses. The first 2 yrs. may be taken in any of the Scottish Univs. The Senatus may accept attendance given and examns. passed at other Univs. specially recognized for the purpose, if qualifying courses for at least 2 yrs. (St. And. and Edin., 1 yr.) are attended and the Degree examns. are passed in the Univ. granting the degree. For the purpose of reckoning duration of study an academic yr. is constituted by attendance on at least 1 course (Glas. and St. And., 2 courses) of study in each of the 3 terms. For *M.A.* (Hons.) 4 yrs.' study is generally required.

The *B.Phil.* and *B.Litt.* are conferred only by St. And. A candidate for either of these degrees must take the *M.A.* either before or along with it. The standard of the Final examn. is that of the *M.A.* Honours.

The *B.Com.* conferred by St. And., Aberd., and Edin. may be taken, under conditions as to place of study similar to those for the *M.A.*, after courses covering at least 9 terms.

The *B.Ed.* or *Ed.B.* involves a 2 yrs.' course subsequent to the first 3 yrs. of study for a previous degree, in addition to professional training or experience as a teacher.

The practical part of the training of students preparing for the Teaching Profession is provided by the several Provincial Committees, which likewise recognize attendance at Univ. classes as qualifying in part for their certificates.

The B.Sc. in Pure Science. The course for the ordinary degree covers 3 yrs. (Edinburgh 4 yrs.) and includes from 6 to 9 courses, of

which 4 or 5 (St. And., 2) must be taken in the Univ. which is to grant the degree. The other courses may be taken in other Univs. or Institns. approved, or under teachers recognized for this purpose, by the Univ. Court. The degree with Honours, which may be taken in any of the various branches, requires 4 yrs., and is of a standard not less high than that required for M.A. (Hons.).

The B.Sc. in Applied Science can be obtained as follows : Engineering (St. And., ord. and hons., 3 yrs. ; Edin., ordinary and honours, both 3 yrs. ; Glas., 4 yrs., the branches in which honours are obtainable being Civ., Mech., Elec., Mining, and Chemical E., and Naval Archit. ; Aberd., Civ., Mech., Elec., ordinary and honours, 3 yrs.). Mining Engineering (Edin., ordinary and honours, 4 yrs.). Applied Chemistry (Glas., honours, 4 yrs.). Technical Chemistry (Edin., ordinary and honours, 4 yrs.). Architecture (Glas., honours, 4 yrs.). Agric. (Aberd., Edin., and Glas., ordinary, 3 yrs. : honours, 4 yrs.). Forestry (Aberd., ordinary, 3 yrs. ; Edin., ordinary, 3 yrs. ; honours, 4 yrs.). Pharmacy (Glas., 4 yrs.). Public Health (Glas., 2 yrs. after graduation in Med.). Vet. Sc. (Edin., 4 yrs.).

Higher Degrees in Arts and Science. The D.Sc. in Pure Science, in Engin. (Edin., Glas., St. And.), Pub. Health (Glas.), Mining (Edin.), Tech. Chem. (Edin.), Agric. (Edin.), Forestry (Edin.), and Vet. Sc. (Edin.), and the D.Litt. are open to graduates of 5 yrs.' standing. A thesis is required and, except in the case of a graduate of a Scot. Univ. with an Honours degree (St. And., an Honours graduate of the Univ. granting the degree), research under supervision extending over 2 yrs. in the Univ. which is to grant the degree. These degrees are never granted *honoris causa*.

Divinity. The B.D. examn. of any of the Univs. is open to a graduate in Arts of a Scottish or other approved Univ. or the holder of any Univ. Degree or Diploma recognized as an equivalent by the Univ. Court who has completed his Theol. course (3 yrs.), of which not less than 2 yrs. has been in the Univ. in which he proposes to take the B.D. All the examns. must be passed at the Univ. granting the Degree. The D.D. is honorary. The Gifford Lectures in Natural Theology are open to the general public.

Law. The B.L. course (3 yrs.) is open to students who have passed the Prelim. or its equivalent. Candidates for the degree must produce evidence of a sufficient knowledge of Latin before entering the Class of Civil Law. The LL.B. (3 yrs.) is open to graduates in Arts of a Univ. of the U.K. or any other specially recognized.

Of the B.L. course 1 yr. and of the LL.B. 2 yrs. may be spent in any specially recognized Univ. or School of Law.

St. And. does not at present provide full courses for or grant these degrees.

The LL.D. is honorary.

Medicine. Three of the requisite 5 yrs. of medical study for the M.B. and Ch.B. may be spent in any Univ. of the U.K. or other Institn. specially recognized for the purpose or under a teacher recognized by the Univ. A candidate who has at any such Univ. completed a course and passed an examn. in Chem., Physics, or Biology qualifying for a

degree in Science, Arts, or Med. may be exempted by the Senatus from the corresponding part of the M.B., Ch.B. exams. Aberd., Edin., and St. And. extend this concession to courses and exams. in Anatomy and Physiology qualifying for a degree in Science (St. And.—or Arts or Med.; Edin.—or Med.).

A graduate in Medicine of at least 24 yrs. of age who has, subsequent to graduation, been engaged for at least 1 yr. in attending the Med. (or Surg.) wards of a hospl., or in scientific work bearing directly on his profession, or in the Naval, Milit., Colonial (Aberd., Edin., Glas.), or, for the M.D. (St. And.—M.D. or Ch.M.), Pub. Health Med. Services, or 2 yrs. in practice not restricted to Surg. (or Med.), and passed the prescribed examn. and submitted a satisfactory thesis, may be admitted M.D. or Ch.M. as the case may be.

Dentistry. See under St. Andrews.

Ph.D. See p. 13.

Previous to the institution of a Ph.D. degree (Aberdeen, 24 March 1921, Edinburgh, 25 November 1919; Glasgow and St. Andrews, 18 August 1919), a Doctor of Philosophy degree, D.Phil., was conferred.

FEES. See under the separate Universities.

RESEARCH OR SPECIAL STUDY may be prosecuted in a Univ. under supervision by persons suitably qualified, whether graduates or not, admitted by the Senatus. Access to and the use of the Univ. laboratories, etc., may be obtained on such conditions as to payment and otherwise as the Univ. Court may determine. The title of Research Fellow may be conferred with or without a stipend on specially distinguished research students.

SCHOLARSHIPS. Adequate provision is made for affording Univ. instruction and maintenance to students of small means in Scotland. Besides the Carnegie Trust benefactions (v. *infra*) and the numerous bursaries, etc., awarded by the Universities and the Trustees of unattached educational endowments, all Scottish Education Authorities make provision in their Bursary Schemes for assisting duly qualified persons resident in their areas, and needing such assistance, to attend a University, Training College, Central Institution, etc. The sum so spent by Education Authorities in the financial year 1936-37 was £94,956.

Scholarships, etc., for Graduates. The following are open to graduates of all the Scot. Univs.: (1) Carnegie Scholarships (£150) and Fellowships (£250) and grants in aid of Research. Application forms supplied by the Carnegie Trust, 22 Hanover St., Edinburgh. (2) Ferguson—six of £110 each for 2 yrs. for graduates in Arts. Ferguson Bequest Fund, 94 Bath St., Glasgow. (3) M'Cunn—four of £200 for 1 yr., for medical research. M'Cunn's Trustees, 160 West George St., Glasgow. (4) Shaw Philosophical—£215 for 3 yrs. for graduates in Arts (in the Patronage of Edinburgh Univ.). (5) Black—in Greek, £196 for 1 yr. for graduates in Arts distinguished in the B.D. exams. (6) Hume Brown—in Scottish History, £90 for 1 yr. for graduates in Arts; managed by the Univ. of Edin. (7) Maclean (Semitic Languages), £175 for 1 yr. for graduates in Arts preparing to enter the Ministry

of the Church of Scotland; managed by the Univ. of Glasgow. (8) Crombie (Biblical Criticism), £50 for 1 or 2 yrs. for graduates in Arts with First Class Hons. in Classics; managed by St. Andrews. (9) Shaw Macfie Lang, £200 for 2 yrs., for Hons. Graduates in various Faculties in rotation; (10) 7 Richard Brown, £64 for 1 yr., for graduates or undergraduates of any Univ., in various Faculties in rotation; managed by Edinburgh.

Exchange Scholarships. Stevenson Exchange Scholarships, founded by Sir Daniel M. Stevenson, Bt., LL.D. (1) In German, founded 1932, two scholarships covering board, lodging and tuition (but not travelling expenses) at a German University for one session. Open to undergraduates of any Faculty and graduates of not more than 25 yrs. of age, men and women, of any Scottish University. Applications in special cases will be considered from candidates up to 35 yrs. of age and from candidates who have not yet matriculated but who intend to take a degree in a Scottish University. Forms obtainable from, and applications to be sent not later than May 15 to, the Secretary of any one of the four Universities. (2) In French, founded 1935, two scholarships value £75 tenable at a French University for one year. Other conditions as for German Scholarships. (3) In Spanish, founded 1935, two scholarships value £75, tenable at a Spanish University for one year. Other conditions as for German scholarships.

Two scholarships offered by the Akademischer Austauschdienst of Berlin, representing the German Universities, tenable for 1 yr. from the middle of Oct. to the middle of Aug., covering free tuition and either board and lodging or an allowance during the 10 months' tenure (the decision resting with the German University authorities). Open to graduates of not more than 3 yrs.' standing and to students graduating during the current year, in any Faculty, men and women. Applicants should state the German University they prefer, but no guarantee can be given that they will be sent there. Applications by May 31. Forms, etc. as under (1) above.

CARNEGIE TRUST FOR THE UNIVERSITIES OF SCOTLAND. Offices at Merchants' Hall, 22 Hanover Street, Edinburgh. Secretary, Jas. Robb, LL.D.; Treasurer, Jas. Davidson.

The annual income of the Trust is about £125,000, one half of which is devoted to (A) the improvement and expansion of the Universities of Scotland in the faculties of Science, Medicine, History, and Mod. Langs., and extending opportunities for scientific study and research, and Technical or Commercial Univ. education; the other half to (B) assisting Scottish students in the payment of Univ. class fees. Any surplus not required for (B) in any year is to be devoted to (A) (v. App. II. 1). Instns. in Scotland recognized by the Executive Committee of the Trustees as preparing students for graduation or as providing technical or commercial edn. of Univ. level are entitled to participate as regards (A) and their students as regards (B). Any surplus not required for (A) or (B) may be devoted to Univ. Extension work.

The Regulations for Assistance in the payment of Class fees provide,

inter alia, that applicants should hold the Leaving Certif. of the Scottish Educn. Dept. with a minimum of three higher grade passes and bearing evidence of such preliminary education as is required by the Univs. for their respective graduating curricula. Where for satisfactory reasons such Leaving Certif. has not been obtained, the Exec. Committee may accept instead what they deem equivalent evidence of attainments, provided that no applicant will be eligible who has not obtained three higher grade passes or who has to pass any further prelim. examn. before beginning his graduating curriculum. Class Fees paid for 1936-37 : St. Andrews—£4100 : 5 : 9 for 274 beneficiaries ; Glasgow—£26,823 : 18s. for 1879 ; Aberdeen—£8644 : 16s. for 543 ; Edinburgh—£12,228 : 9 : 6 for 838.

The annual report of the Executive Committee contains reports of experts on the work of beneficiaries under the Research Scheme and lists of papers published by them. Research Fellowships, Scholarships, and Grants awarded for 1936-37 : St. Andrews—30, value £4393 ; Glasgow—37, value £4531 ; Aberdeen—26, value £2774 ; Edinburgh—34, value £4762. Total—127, £16,460.

Under a Seventh Quinquennial Scheme of Distribution for the period from Oct. 1, 1935, to Sept. 30, 1940, there has been allocated a sum of £257,300, distributed thus : St. Andrews centre—£43,400 ; Glasgow—£79,000 ; Aberdeen—£56,500 ; Edinburgh—£78,400. Of these amounts £10,000 has been granted to Glasgow, £10,500 to Aberdeen and £9500 to Edinburgh for Extra-Mural Institutions. The purposes on which these amounts were to be expended are : for libraries, £38,750 ; for Buildings and Permanent Equipment, £177,550 ; and for the Endowment of Teaching and for other general purposes, £41,000.

ROBERT GORDON'S TECHNICAL COLLEGE. Under the Aberdeen Educa-
 tional Endowments Scheme, 1934, the Governors, in continuation and develop-
 ment of the College, provide, maintain, furnish, equip, administer and conduct
 schools of Engineering, Mathematics and Physics, Chemistry, Pharmacy,
 Navigation, Art (including Drawing, Painting, Design, Sculpture, Architecture,
 Building and Surveying), Domestic Science, Commerce and such other subjects
 connected with education in science, art and technology as they think fit.
 The School of Art is known as Gray's School of Art. The Court of the Univ.
 and the Governors of the Coll. co-operate in the provision of day courses
 leading to the degree of B.Sc. (Eng.) of the Univ. and to the Diploma of
 Associateship of the Coll. in Eng.—Civ., Mech., and Elect. The courses in
 Mech. and Elect. Engin. are recognized under the schemes for the award
 of National Diplomas. Classes in Agric. Engin. are provided in con-

GENERAL INFORMATION, v. also pp. 341 ff.

The "University and King's College of Aberdeen," founded under a Papal Bull in 1494, and the "Marischal College," founded in 1593 by George Keith, Earl Marischal, were reconstituted in 1860 as "The University of Aberdeen." Certain of the original buildings remain, notably the Chapel (A.D. 1500).

The LIBRARY, founded in 1500, has 250,000 vols. and 200 *incunabula*, some unique. It is especially rich in Celtic literature, and books bearing on the history, topography, and antiquities of the Scottish Highlands, and Classical Archæology. It also contains the McBean Jacobite collection, reputed to be the largest in the world outside the British Museum. Annual budget about £3500. MUSEUMS: Anthropological (illust. cat. 1s.), Surgical (2500 specimens and 600 instruments), etc. Besides the usual LABORATORIES there is the Rowett Institute of Research in *Animal Nutrition* near Bankhead, with depts. of Physiol., Bio-Chem., Bacteriol. and Pathol., and attached Animal Husbandry section for practical experiments in feeding, etc. (v. App. III. A. I. (d)). It is under the management of a joint committee of the Univ. and the N. of Scotland College of Agric. Hospitals available for clinics: Infirmary, 500 beds; Woodend Hospital, 180; Children's, 150; Fever, 350; Mental Hospital, 900; Maternity Hospital, 32; Ophthalmic Institution, 5.

FACULTIES. Arts, Science, Divinity, Law, Medicine. *Deans*: Profs. A. S. Ferguson, J. R. Matthews, A. Fyfe Findlay, T. M. Taylor, D. Campbell. Departments: Commerce, Education.

GENERAL INFORMATION, v. also pp. 341 ff.

Originally the "Town's College," founded in 1583 by the Town Council under general powers granted by Royal Charter, April 14, 1582. The Old College on the site of "Kirk o' Field," the scene of the murder of Lord Darnley, was designed by Robert Adam, and completed in 1838. Newer buildings include the Medical Buildings and the McEwan Hall (1888-97), which holds 2600 and has a great electric organ ; and "The King's Buildings" (commenced in 1920) for Chemistry and other Science Depts. The Medical School of this Univ. has been famous for many generations ; specially ample provision exists also for instruction and research in Theology (post-grad. school instituted 1919), Agric., For., Engin., Mining, and Vet. Sc. Edinburgh is the seat of the Scottish Supreme Courts of Law.

LIBRARY, founded in 1580, about 500,000 vols., 8000 MSS., includes special collections—Shakespearean (Halliwell-Phillipps), Persian and Arabic MSS., Economics (Hodgson), Math. tables by E. Sang, transactions of Engin. Societies in Great Britain and America, the Laing Charters (A.D. 854-1837), the Laing manuscripts, the Abercromby collection of 2500 vols. on archæology, ethnology, etc. ; the Blackie collection of modern Greek books, the Bruce collection of books on oceanographical subjects, the Cameron and Mackinnon collections of Celtic literature. MUSEUMS : Nat. Philos., Fine Art, Geol., Nat. Hist., Chem., Forestry, Agric., Entom. and Forest Zool. (Waterhouse collection of Coleoptera), Anat. (founded with the Monro collection in 1800 ; numerous specimens of Cetacea and human crania), Physiol., Mat. Med. (notable collections of medicinal and food substances, including those of Duncan and Christison), Forensic Med., Practice of Physic, Surg., Obst. (Simpson collection), Music and Musical Instruments. The Prof. of Botany is Regius Keeper of the *Royal Botanic Garden* ; the Prof. of Astronomy is Astronomer Royal for

Scotland and gives practical courses at the *Royal Observatory*. The LABORATORIES are especially well equipped for research in Anatomy, Anthropology, Bacteriology, Chemistry (the Labs. at King's Buildings, completed 1924, have accommodation for about 400 students), Zool., Mining, Engin. (notably Hydrs., Strength of Materials, Elec. Engin.), Mat. Med., Path., Physics, Physiol., Psych., Pub. Health. The Jane Findlay Thomson Commercial Laboratory facilitates the training of B.Com. students in practical business methods. The Univ. has a table at the Millport Marine Station. HOSPITALS: the Royal Infirmary adjoining the Univ. provides over 900 beds for clinical teaching, in addition to the Children's, Maternity, and Fever Hospls., the Royal Mental Hospl., the Royal Victoria Hospl. for Tuberculosis, and the Municipal Hospls. Over 50 resident posts in these are given annually to Med. graduates.

FACULTIES. (1) Arts, (2) Science (including Engineering, Mining, and Metallurgy, Technical Chemistry, Public Health, Agriculture, Forestry, and Veterinary Science, as well as Pure Science), (3) Divinity, (4) Law, (5) Medicine, (6) Music. Deans: (1) Prof. W. M. Calder (Greek), (2) Prof. Sir T. Hudson Beare (Engin.), (3) Prof. W. A. Curtis (Biblical Criticism), (4) Prof. J. Mackintosh (Roman Law), (5) Prof. Sydney Smith (Forensic Med.), (6) Prof. Sir D. F. Tovey (Music).

There are 6 Directors of Studies in the Faculty of Arts, 5 in the Faculty of Science, and 1 for those combining studies in the Faculties of Science and Medicine.

ADMISSION. See Appendix I.

GENERAL INFORMATION, v. also pp. 341 ff.

Founded by a Papal Bull in 1451, after the model of Bologna, the Univ. was reconstituted by a Charter of King James VI. of Scotland in 1577. For early history see *Yearbook*, 1929.

The LIBRARY, founded in the 15th century, contains 255,000 vols., including 300 books printed before A.D. 1500. Among its important collections are the Ewing, distinguished for the value and variety of its Bibles; the Hamilton, rich in philosophical works; and the Ferguson, containing rare books on the history of chemistry. The HUNTERIAN MUSEUM, founded in 1783, contains most valuable MSS. and early printed books and pictures and important collections of coins, anatomical preparations, zoological and mineral specimens, etc. Large new departments with spacious LABORATORIES have been erected for Engin., Bot., Nat. Philos., Chem., Physiol., Anat., Path., Mat. Med., Forensic Med., Pub. Health, and Zoology. There are BOTANICAL GARDENS and an OBSERVATORY. As Glasgow stands at the centre of the shipbuilding, engineering, mining, and industrial area of Scotland, it offers unique opportunities for technical training. Three large general HOSPITALS are available for clinics, besides special institutions (including Consumption Sanatoria).

FACULTIES. (1) Arts, (2) Science, (3) Medicine, (4) Law, (5) Divinity, (6) Engineering. Depts. of Applied Science—Engineering (Civ., Elec., Mech. Mining, Naval Archit., Chem.), Applied Chem., Agric., Architecture, Public Health, Pharmacy. Deans: (1) Profs. J. D. Mackie (Scot. Hist.), (2) J. Walton (Bot.), (3) C. H. Browning (Bacteriol.), (4) A. D. Gibb (Law), (5) Rev. G. H. C. Macgregor (Biblical Crit.), (6) W. J. Goudie (Heat Engines).

ADMISSION, v. Appendix I.

DEGREES, ETC., v. pp. 342 ff. Applications by Overseas students for remission of part of the class attendance for B.Sc. in branches other than Engineering will be considered sympathetically. *Diploma* in Education, 1 yr. course, for graduates (the first yr. of the Ed.B. course); D.P.H. (1 yr. course) for legally qualified med. practitioners. *Certificates* of Proficiency in Engineering Science and in Mining Engin., 3 yrs.' courses, of which first yr. may be taken in Roy. Tech. Coll.; no prelim. examn.

The list of extra-academical teachers whose courses in certain subjects are recognized as qualifying *pro tanto* for graduation includes several resident outside the United Kingdom, namely, in Cape Town (in Nat. Philos., Chem., Bot., Zool.), Grahamstown (Physics, Chem., Bot., Zool.), Johannesburg (Zool. and Chem.), and Stellenbosch (Bot., Chem., Physics).

For detailed information regarding POST-GRADUATE study and research in any Faculty application should be made to the Dean. A Post-graduate Medical Assocn. organizes demonstrations for Med. Practitioners; fee for series, Nov. to May, 3 gs.; programme obtainable from the Secy., P.-G. Med. Assocn., Dr. James Carslaw, 9 Woodside Terrace, Glasgow, C.3.

FEES (v. also Carnegie Trust, p. 345). Matriculation, $2\frac{1}{2}$ gs. p.a. Inclusive tuition fees for M.A. (Ord.), 45 gs., (Hons.), 60 gs.; LL.B., 40 gs.; B.L., 30 gs.; B.Sc. (Pure or Applied Science), 90 gs.; M.B., Ch.B., about £250 for 5 yrs. Combined M.A. and B.Sc., $112\frac{1}{2}$ gs. Examination: M.A., $7\frac{1}{2}$ gs.; B.D., $7\frac{1}{2}$ gs.; LL.B., 9 gs.; B.L., $7\frac{1}{2}$ gs.; B.Sc., 9 gs.; M.B., Ch.B., 33 gs.; Doctorates, 10 to 20 gs.

SCHOLARSHIPS. Graduates (v. also pp. 344-45): about 76 of from £30 to £280 p.a., most of them open only to graduates of Glas. There are also 5 Foundations for res. scholarships and studentships.

For undergraduates there are 480, varying in value from £10 to £50 or more p.a., chiefly in the Faculty of Arts, in addition to Bursaries of from £5 to £25, awarded by the Provincial Committee for the training of teachers.

Travelling for study or research is encouraged by: Bryce Mathematical Fellowship (£280 p.a. for 4 yrs.), Faulds Fellowship (£200), J. R. K. Law Scholarship (£100 p.a. for 2 yrs.) for Applied Science tenable at an approved *Overseas University* or other scientific institution in *Canada, U.S.A., or France.*

RESIDENCE. Two Halls of Residence for men—the Maclay Hall (Warden: F. M. Urquhart, LL.B.) and the MacBrayne Hall (Warden: J. C. Watson, M.A.); and one for women—Queen Margaret Hall (Warden: Miss M. B. Kirkpatrick) with Robertson Annexe. The average cost of residence in the Halls is £17:10s. per term, with a reduction for those resident for three terms. Lodgings or board with private families with use of 2 rooms, generally obtainable in neighbourhood of the Univ., for from 35s. to 50s. per week. A few students' hostels or settlements, of limited accommodation, where the charges are lower, are run by private committees or bodies of students and graduates.

THE APPOINTMENTS COMMITTEE (for men and women). Secretary (J. Thomson, M.A., B.Sc., Ph.D.), Office of Adviser of Studies, The University.

LOCAL ADVISER TO INDIAN STUDENTS. R. M. Brown, D.Sc., Ph.D., M.I.M.E.

SOCIETIES. Glasgow Univ. Club, London. Hon. Secs.—J. M'Clure, M.D., F.R.C.S., 62 Harley House, London, N.W.1; H. L. P. Myles, LL.B., 27 Abingdon St., London, S.W.1. Glasgow Univ. Women Graduates' London Assn. Hon. Sec.—Miss L. Buist, M.A., 31 Birchington Road, Crouch End, London, N.8.

UNIVERSITY EXTENSION. An Extra-mural Education Committee, equally representative of the Univ. and working-class organizations, is prepared to supply classes, short courses, and single lectures to groups of students in Glasgow and the West of Scotland, so far as its resources will permit; a compendium of classes and lectures for the session is obtainable from the Organizing Secy., W.E.A., 177 Hill Street, Garnethill, Glasgow, C.3. Fortnightly and occasional free public lectures by profs. and others during the winter session.

PUBLICATIONS. *Calendar*; *Glasgow Univ. Magazine*, weekly during winter session; *Examn. Papers*, Prelim. and Degree, 6d. per set; *Annual Handbook* for matriculated students; *Handbook* for Overseas students and graduates; *History of the University of Glasgow* (Coutts); *Roll of Graduates* (1726-1896) (Addison); *Matriculation Albums* (Addison).

GENERAL INFORMATION

Anderson's College, founded in 1796, the College of Science and Arts (1823, the first "Mechanics' Institution"), and the Atkinson Institution (1861) were amalgamated in 1886 under the title of the Glasgow and West of Scotland Technical College, which was changed in Feb. 1912 to the Royal Technical College. The College was affiliated to the Univ. of Glasgow in March 1913.

The College building, comprising over 7 acres of floor space, cost, with equipment, £400,000. Qualifying courses are provided in the subjects named above for Degrees of the Univ. in Engin., Applied Chem., Pharmacy and Archit., and for the Diploma of the College in Civil, Mech., Elect., Chemical and Mining Engin., Naval Archit., Chem., Sugar Technol. (Chem.), Sugar Technol. (Engin.), Dyeing, Metallurgy, Building and Textile Manufacture. There are also Departments of Navign. and Bakery, as well as numerous evening classes in other subjects, mainly technological. The courses for the Diploma cover 3 yrs.; for the Associateship in any of the Diploma subjects, attendance during 4 yrs. is required. The evening lecturers are not included in the above lists; some of their work is, however, of university and even post-graduate standard. Much research work, for the prosecution of which a development fund of about £100,000 has been raised, is carried on at the College. The Andersonian Library, so named to commemorate the founder of the College, Prof. John Anderson, includes the library formed by him and the James Young collection of early alchemical, metallurgical, and chemical books.

The Glasgow School of Architecture is maintained by the College and the Glasgow School of Art working in co-operation through a Joint Committee under whose authority its Diplomas (5 yrs.' course) are issued.

The College has an athletic ground, and within the College buildings a well-equipped gymnasium.

FEES for tuition: diploma, 25 gs. p.a.; degree, 90 gs. for course.

ADMISSION, v. Appendix I.

DEGREES, ETC., v. also pp. 342 ff. Courses for graduation in Arts and Science are given both in the United Coll., St. And., and in Univ. Coll., Dundee, some being given in both places, some—Greek, Hebrew, Hist., Moral Philos., Psychol., Pol. Econ.—only in St. And., some—Engineering—only in Dundee; Medical, after the first two yrs., and Dental solely, in Dundee, where facilities for clinical instruction are available. Here also are provided courses in Scots Law and Conveyancing.

The M.A. Course includes a General and a Special examn. The former, which must be completed before proceeding to the Special, embraces at least 5 subjects, of which Latin or Greek must be one, another must be either Maths. or Philos., at least two must be linguistic, and at least one scientific. *Senatus* can, on recommendation of the Fac. of Arts, allow another subject or subjects to be taken in lieu of Lat. or Greek. *Foreign students* may take Arabic or Hebrew in lieu of Latin or Greek. In the Special examn. two cognate subjects must be taken, the whole examn. being passed at one time.

The B.Sc. Ordinary degree in Pure Science involves a 3 yrs.' course, embracing at least 4 subjects with a 1st examn. (4 subjects) and a 2nd (2 subjects); the Honours degree involves a 4 yrs.' course (the last year being devoted exclusively to advanced study in the Hons. subject) with 2 examns.—a 1st in 4 subjects and an Honours in one.

ASSOCIATED COLLEGES

MAGEE COLLEGE, LONDONDERRY, for first three years of B.A. course.

CHURCH OF IRELAND TRAINING COLLEGE, KILDARE PLACE, DUBLIN. The two years' course of training for teaching in elementary schools is conducted partly at Trinity College, Dublin, and counts towards the Dublin B.A. subject to the candidate qualifying in Latin and a modern foreign language before proceeding as "Sophister" (3rd year).

GENERAL INFORMATION

Trinity College was founded and incorporated by Royal Charter in 1592 as "Mater Universitatis," but no other College has been founded, so that "Dublin Univ." and "Trinity College" are practically interchangeable terms. The Corporation of the College was put on its present basis by Letters Patent in 1637. Letters Patent of 1911 transferred the powers of making statutes from the Crown to the Corporation, subject to the consent of a majority of the Fellows and the approval of the Visitors. The general government of the Univ. is in the hands of the Board of Trinity College, which consists of the Provost, Senior Fellows, 2 representatives of Junior Fellows, and 2 representatives of the non-Fellow Profs. The Univ. Council, formed by representatives from the Board and various Faculties and Schools, has the right of nomination to most Professorships, and in conjunction with the Board can make changes in the curriculum, but otherwise has only advisory functions.

The College occupies a large site in the middle of the city, with ample grounds for the athletic clubs.

THE LIBRARY of Trinity College has enjoyed since 1801 the privilege of receiving a copy of every book published in the United Kingdom. It contains over 434,477 printed books, amongst which there is in the Fagel Library a group of early pamphlets relating to the Dutch and English East and West India Companies. The MSS. are over 2000 in number, and include an important collection in Irish. A General Catalogue of the MSS. was published in 1900, and a Revised Catalogue of the Irish MSS. in 1921. A Catalogue of Printed Books in the library in 1872 was published in 1887 and distributed to the world. There is a Lending Library, which includes 6000 vols. bequeathed by the late W. E. H. Lecky; and smaller libraries in the Schools of Mod. Langs., Hist., Med., Maths., Nat. Scs., Geog., and Philol.

MUSEUMS. The scientific museums include Zool. and Comp. Anat., Geol. and Mineral., Surg. and Med., Path., Mat. Med., Anthropom., Engin. Models, Nat. Philos. The Zoological is among the best collection in the country. The series of vertebrate osteology is extensive. Attached Laboratories offer all facilities for research work. The collection of Geological and Mineralogical specimens is also extensive.

LABORATORIES. Anat., Anthropol., Bio-Chem., Bot., Chem., Geol., Histology, Mat. Med., Mech. Engin., Pathology, Physical (Iveagh), Physiol., Zool.

HERBARIUM (rich in plants of N. America, India, S. Africa, and Australia). BOTANIC GARDENS, 8 acres.

The Astronomical Observatory of Trinity College is at Dunsink, 5 miles from the College.

Ample facilities for clinical studies and many appointments for graduates are available in numerous HOSPITALS, including the well-known Rotunda. The Irish High Court is situated within a short distance of the College.

PROFESSIONAL SCHOOLS. Divinity, Law, Physic, Engin., Indian and Home Civil Service, Agric., Forestry, Music, Edn., Comm. Registrars: *Law*—G. A. Duncan, M.A.; *Physic*—G. L. Allen, M.A.; *Engin.*—H. Thrift, M.A.; *Music*—G. H. P. Hewson, Mus.D.; *Civil Service*—E. H. Alton, Litt.D.; *Edn.*—R. J. Fynne, M.A.; *Agric.*—H. Thrift, M.A.; *Comm.*—H. W. Parke, M.A., Litt.D.

ADMISSION. See Appendix I.

DEGREES. Every student must take the B.A. before proceeding to any other degree, except those in music and B.Sc., M.Sc., B.Litt., Ph.D. The course lasts 4 yrs., but it is only necessary to keep 2 out of the 3 terms in each, or 8 in all. It is also possible to complete the course within 3 yrs. from entrance by taking the final examn. of the 1st yr. at the time of entering and keeping all 3 terms of the 2nd yr. However, all students not in a professional school or taking the B.Sc. course are required to attend Arts lectures in every term, unless specially exempted (e.g. those earning their living by teaching). If exempted they are permitted to keep all of their 8 terms by examn. instead of by attendance.

For the first 2 yrs. (Junnr. and Senr. Freshman) all subjects are compulsory: Algebra, Geom., Trig., Mech. or Physics or Chem., Logic, Engl. Essay, Latin, Greek or French or Italian or Spanish or Irish or German. After the examn. ("Little-Go") at the end of the 2nd yr. wide freedom of choice is allowed of subjects for the remaining (Junior and Senr. Sophister) yrs., and exemption from one subject is granted to Law, Engin., Comm., and Div. students. For Med. students there is a specially reduced Arts course throughout.

Pass Arts teaching, mainly given by the Tutor Fellows, is partly of a catechetical nature. Every student must choose one of the Tutor Fellows (see list above) as his Tutor and should apply to him for all information before and after entrance.

The *Honours* B.A.—known as a *Moderatorship*—can be taken in 12 different groups (viz. 1 Math., 2 Class., 3 Ment. and Mor. Sc., 4 Exp. Sc., 5 Nat. Sc., 6 Hist. and Pol. Sc., 7 Mod. Lit., 8 Leg. Sc., 9 Eng. Sc., 10 Celtic, 11 Oriental Lang., 12 Econ. and Pol. Sc.), and undergraduate honours in the same subjects (except Nos. 9 and 11) can be obtained in each academic year and in most subjects in each term. The course lasts four years in the case of Nos. 1, 2, 3, 4, 5, 6, 7, 8, 10, 12, three years in No. 9. Instruction in these Honour courses is given partly by the Profs. and partly by the Tutorial staff.

A B.A. of three years' standing may be admitted M.A. There is no examn. for this, nor is a thesis required.

The B.Litt. is obtained by a thesis, and candidates must have at least one yr.'s standing as B.A. They must also, except by special permission of the Board, be graduates with Honours in Classics, Philosophy, History, Modern, Celtic, or Oriental Languages, Legal Science, or Economics, of Dublin or of an approved univ.

The B.Sc. is obtained by a 4-year course consisting of 12 terms of lectures and 4 examns. In the first two years English, French, German, Mathematics, Physics, and Chemistry are compulsory. In the last two years the student studies 3 subjects chosen from Physics, Chem., Bot., Zool., Physiol., Geol., Anat.

A B.Sc. with hon. is obtained by passing an examn. identical with Moderatorships (see above) in Experimental or Nat. Science.

The B.D. is obtained by an examn. open to all grads. in Arts, the D.D. is open to any B.D., eight years after taking B.A., and is awarded on a thesis or published Theol. work.

The LL.B. course covers 2 yrs.; the M.B., B.Ch., and B.A.O., 5 yrs.;

B.Dent.Sc., 4 yrs. ; B.A.I., 3 yrs. (optional 4th yr. in Elec. and Mech. Engin.) ; Agr.B. or Agr. (Forest) B., 4 yrs., of which 3rd and 4th are taken in Univ. Coll. (N.U.I.) ; B.Comm., 3 yrs. The M.Sc. and Ph.D. (v. p. 13) involve post-graduate study and research for 1 yr. and 2 yrs. respectively.

A candidate for the Sc.D. or Litt.D. must have at least 3 yrs.' standing as B.A., and submit important original work ; for LL.D. must be of M.A. standing—a thesis or a published work is required ; for M.D. must have taken the M.B. degree and be of M.A. standing ; for M.Ch. must be a B.Ch. of 3 yrs.' standing ; for M.A.O., a B.A.O. of 2 yrs.' standing ; a thesis or examn. is required for M.D., an examn. for the M.Ch. or M.A.O. A candidate for M.Dent.Sc. must be a B.Dent.Sc. of 3 yrs.' standing, and pass an examn. ; for M.A.I. must have practised his profession for 3 yrs. after graduating as B.A.I.

The Mus.B. is granted after an exercise or practical test and 2 examns., the Mus.D. after an exercise and examn.

DIPLOMAS in Agric., Educn. (Primary and Higher), Econ. and Comm. Knowledge, Elec. Engin., Gynæc. and Obst. (1 yr.'s course), D.P.H., Psych. Med., Geog., Religious Knowledge (women), Social Studies, Hist. of European Painting, Biblical Studies.

GENERAL DESCRIPTION

[Contributed by A. Stanley Mackenzie, late President of Dalhousie Univ. An account by President Walter C. Murray, of the Univ. of Saskatchewan, of "University Development in Canada," is to be found in the *Trans. Roy. Soc. Can.*, Third Series, 1922, vol. xvi. See also his article on "State Support and Control of Universities in Canada," in *Trans. R.S.C.*, Sect. II., p. 19, 1925. See also "American Influence on the Higher Education of Canada," *Trans. R.S.C.*, Sect. II., 1930, by Sir Robert A. Falconer, President of the Univ. of Toronto, and by the same author, "Higher Education in Canada," in the *Book of Canada*, published by the Canadian Medical Association, Toronto, 1930, pp. 139-151.]

The word "university" is used very loosely in Canada, and in the following sketch a number of institutions which are in reality Colleges will be referred to. In this book twenty-one are listed, twenty-three in the *Canada Year Book*. It is probably not true to say that Canada has evolved a distinctive type of Univ.; and yet Canadian higher institutions of learning differ in many ways from the corresponding institutions in the British Isles and in the United States. One might divide Canadian Univs. into (1) those which are supported and controlled by a religious group: Laval, Montreal, Ottawa, St. Francis Xavier, St. Joseph's, by the Roman Catholics; King's, Bishop's, Trinity, by the Church of England; Mount Allison, Victoria, by the United Church of Canada (a union of former Congregationalists, Methodists, and part of the Presbyterians); Acadia, McMaster, by the Baptists; (2) those that receive State support and are subject more or less to State control: New Brunswick, Toronto, Manitoba, Saskatchewan, Alberta, British Columbia; and (3) those that are independent of Church and State and depend upon private benefactions: Dalhousie, McGill, Queen's, Western Ontario. In order to understand, however, the great diversity among the various universities, even among those in any one group, some reference to the history of the rise and growth of university education in Canada must be made.

All the older colleges, with the exception of Dalhousie and McGill, were established by the Churches, to meet the obvious need for native ministers and teachers in a new and far-flung country. The next step was an appeal to the State, often to both the Local Government and the

Home Government, for a grant-in-aid, which was usually made. As in practically all political divisions, except Quebec, there were other strong religious bodies besides the one to receive this grant, there was before long in the nature of things resentment by these other bodies, and religious and political strife was engendered. In many cases the College Question was inextricably mixed up with the struggle of the people for responsible government, for democratic rule instead of oligarchical Councils. The changes in the Universities run parallel in the main with the political development of Canada.

THE FRENCH COLLEGES. The oldest University in Canada is Laval, in Quebec City, growing out of the founding of a Seminary there in 1663. It is modelled after the French universities, and is a group of professional and graduate schools, and has wide degree-granting powers. There was for many years a branch of Laval in Montreal, but in 1920 it became a separate entity under the name of the University of Montreal. It, like Laval, is intimately associated with the Church, in the firm belief that education cannot be dissociated from religion. Both receive State aid, but are not under State control. The undergraduate work preliminary to these two universities is done by twenty-four Classical Colleges scattered through the Province of Quebec. These give the Bachelor degree. These institutions have altered little in their general character with the changes in the political life of the Dominion. Ottawa combines the University and the Classical College. Closely akin to the Classical Colleges of Quebec, but not necessarily associated with Laval and Montreal, is a group of Maritime colleges: St. Joseph's and St. Thomas' in New Brunswick, St. Mary's and St. Anne's in Nova Scotia, and St. Dunstan's in Prince Edward Island. St. Francis Xavier and Mt. St. Vincent, Halifax, recently chartered, are the only Roman Catholic colleges not of the French type, being more like the non-Catholic institutions.

THE KING'S COLLEGES. The next stage in the development of higher education in what is now Canada was due to the arrival of the Loyalists from the American colonies. These people belonged mainly to the Established Church of England, and, though intensely loyal to the Mother Country and intolerant of republicanism, were yet imbued with advanced ideas of independence and democracy, and immediately made their presence felt. They wanted not only educational advantages for their children, but they wanted educational institutions which would be under the Church of England, believing that loyalty to Britain was almost a monopoly of those of that faith. There was thus introduced a political factor into the educational movement which had far-reaching consequences. The coming of the Loyalists led to the founding of what are called the King's Colleges. The first of them, and the only one which retains the name, was King's College, which was established at Windsor, Nova Scotia. In 1923 it removed to Halifax, and is intimately associated with Dalhousie. The nature of the association is that students in the Faculty of Arts and Science must register as students of the University, but may enrol as members of King's College, where they enjoy a corporate life similar to that of a college of Oxford. The students of the two institutions are a unit for instructional purposes

(except for certain subjects of the freshman year, where the King's students form a section by themselves), and the teaching staffs paid from the funds of each institution form a common Faculty. The University grants all degrees. The Faculty of Divinity of King's has no part in this association. The second King's College was established in 1800 as the College of New Brunswick, at Fredericton. On receiving a royal charter in 1828, it took the name of King's College (*v. infra*). The third, King's College, Toronto, received a similar charter in 1827. The precursor of these three colleges was undoubtedly King's College, New York, which, since the Revolution, has borne the name of Columbia University. All these Colleges were closely modelled after Oxford. The three Canadian King's Colleges practically all received grants, either in lands or money, or both, from the Imperial and Provincial Governments. In order to understand the cause of the educational struggles which took place in the first half of the nineteenth century it must be pointed out that their charters gave the control of these colleges to a Board composed mainly of officials of the Crown and adherents of the Church of England. The Church had accordingly a controlling voice in the College, and claimed exclusive privileges. The College was in reality a private institution receiving State aid, and those who were not members of the Church of England, and they were far in the majority, were thus taxed to support it and were cut off, in some cases entirely, from equal educational privileges. It is not difficult to see that this must inevitably have led to bitter controversy and strife. As the Governing Boards of the Colleges were largely identified with the oligarchical governing Councils of the Provinces, it is evident also that the educational and political causes would be inextricably mixed in the struggle of the many against the exclusive rule of the few.

THE SCOTTISH COLLEGES. The third stage was ushered in by the insistence of other religious denominations upon equal rights with the Church of England in the control of colleges already established, or upon being allowed to have colleges of their own with government grants as in the case of the King's Colleges. The lead was again taken in Nova Scotia. Dr. Thomas McCulloch, a Scot and a Presbyterian, had instituted at Pictou early in the nineteenth century Pictou Academy, which, though without degree-granting powers, acquired a high reputation for the scholarship of the men who were trained there (one was Dawson, the great Principal of McGill University). He was such a bonny fighter that, in spite of the bitter opposition of Governor and Council he received a provincial grant for Pictou Academy in 1819. Similar attacks on the existing state of affairs were made by Scotsmen in New Brunswick and Ontario. About this time Lord Dalhousie entered the arena, and, by the founding of Dalhousie College, broke for all time the ring of King's Colleges. He was another Scot, one who had experience as a General in the Napoleonic wars. During the war with the United States in 1812-14, the Province of Nova Scotia, of which he was then the Lieutenant-Governor, became possessed of a sum of about £11,000, which he used to found a college which was to be a direct protest against sectarianism and special privilege. By its Charter

it was to be "open to all occupations and sects of religion." It was also to be "on the same plan and principle as that of Edinburgh." Its founding in 1818 marks, therefore, one of the most important points in the development of Canadian higher education, the introduction of the Scottish type of university, where learning and scholarship were accented rather than the fine art of living, and where residential life was not looked upon as essential. Lord Dalhousie made one great mistake; he placed his infant college in the hands of some of the same officials as were the Board of King's College, and they kept its doors shut for twenty years. Their hands were forced, however, in 1838, and Thomas McCulloch became its first President. On his death, in 1843, the college was again closed, as the necessary financial support was not forthcoming, and it remained closed until 1863, when the spirit of union was taking hold of Canada in educational as well as political matters. The early history of McGill University is very similar to that of Dalhousie. It received its first charter, a Provincial one, in 1801, as the Royal Institution for the Advancement of Learning. As McGill College, it received a Royal Charter in 1821, subsequent to a bequest of land and the sum of £10,000 by James McGill, a Scottish resident of Montreal. It was also non-sectarian and modelled on Edinburgh, and for a number of years had a very precarious existence, and was not able to live up to the hopes of its founder. With the appointment of Dawson as its Principal in 1855 began its rapid and brilliant career. Queen's (*v. infra*) is the third of the Canadian universities of the Scottish type.

THE SECTARIAN COLLEGES. There followed in rapid succession the establishment of purely denominational colleges, and it is interesting to note that it was during the period of most intense political strife. Baptists founded Acadia, at Wolfville, N.S., in 1838; Methodists, Mount Allison, at Sackville, N.B., in 1858; Scottish Roman Catholics, St. Francis Xavier, at Antigonish, N.S., in 1855; French Roman Catholics, St. Joseph's, at Memramcook, N.B., in 1864; not to mention others which have since lost their identity. All these are in the Maritime Provinces. In Ontario were founded Victoria, at Cobourg, by Methodists, in 1841; Queen's, at Kingston, by Kirk Presbyterians, in 1842; Knox, at Toronto, by Free Presbyterians (now purely a Divinity School), in 1843; McMaster, at Toronto, by Baptists, in 1857; Trinity, at Toronto, by Anglicans, in 1851; and Ottawa, by Roman Catholics, in 1849. In Quebec we find Bishop's College, founded in 1843, by the Anglicans. These denominational colleges demanded, and in most cases received, a share of State aid. In time the obvious wastefulness of this use of State money led to its discontinuance, and also led to efforts to find a better basis for higher education.

THE ATTEMPTS FOR UNION. From 1841, when the union of Upper and Lower Canada took place, to 1867, when the Dominion of Canada was formed, the spirit of union was abroad, and following this period we see a uniting of various subdivisions of Presbyterians and again of Methodists. Efforts to unite groups of colleges are much in evidence during this period. Efforts to unite Dalhousie and King's in Nova Scotia, which had begun in 1823, and which had been renewed many

times, always failed (but *v. supra*). The co-operation of Presbyterians and Congregationalists who closed their own small Arts Colleges, enabled Dalhousie to reopen its doors in 1863. Several attempts to bring about a federation of the colleges in Ontario begun in 1843 failed until 1887.

THE LONDON UNIVERSITY TYPE. One of the many schemes of union proposed was the foundation of universities on the model of the University of London, with only examining and degree-conferring powers, which powers the constituent colleges were to hold in abeyance. An effort to initiate such a university in Toronto, in 1853, failed. So did the proposed founding of the University of Halifax, in 1876, fail. A similar effort in Winnipeg succeeded. The University of Manitoba, thus established, passed from being a "paper" university to the giving of instruction, first in Science, then in some departments of Arts also, then to the possession of professional schools, and finally to the full status of a State University.

THE TORONTO FEDERATION. A brief sketch of the history of the University of Toronto may serve to bring out the various stages through which the Canadian problem of higher education passed, and show the interesting form of federation which has proved so successful there. As stated above, King's College, Toronto, was given a Charter in 1827. It received a grant of land and was purely sectarian, Church of England. In 1837 its Charter was amended by modifying in some degree this Church control. Then followed the foundation of Victoria, Queen's and Knox (*v. supra*). King's was opened in 1843. Protests from other denominations brought about its secularization in 1849, its name being changed at the same time to the University of Toronto, and its control vested in the State. The Faculty of Divinity was abolished, and all denominational colleges were to be admitted to affiliation only as Divinity Schools. This refusal to recognize religion in education led to the founding of still more colleges (Trinity by the Anglicans, in 1851, St. Michael's by the Roman Catholics, in 1852, and McMaster by the Baptists, in 1857, all in Toronto),¹ and to the continued opposition of Queen's and Victoria. In 1851 another change was made, using the University of London as a model. All teaching work was withdrawn from the University, this being relegated to affiliated colleges. For this purpose a new body was formed, University College, and the Faculty of Arts transferred to it, and the Faculties of Law and Medicine discontinued. The University was to manage the finances, conduct examinations and confer degrees. The teaching was to be done by Federated Colleges, of which University College was to be the first. It was to be undenominational. The denominational colleges did not enter into the scheme, and it failed to bring about the federation which was hoped for. Various causes led to the federation of 1887. In the first place, the Government withdrew in 1868 its grants to the denominational colleges. In the second place, the growth of science and the introduction of the conception of research and post-graduate work into the universities increased enormously the cost of maintaining educational institutions. The University of Toronto (and University College) felt the pinch equally

¹ McMaster removed to Hamilton, July 1930.

with the denominational colleges, for its only source of revenue was from the Crown lands with which King's had been originally endowed. It accordingly applied to the Legislature for a grant from the Provincial treasury. Naturally the competing denominational colleges strenuously objected to this. But the spirit of union in Canada, which showed itself in the political union of 1867, was called upon, and not in vain, for in 1887 a scheme of Federation was accomplished. The essence of the scheme is a group of Arts or Divinity Colleges gathered about a central University, supported and controlled by the State, the University conducting examinations, conferring degrees (except in Divinity), and giving the instruction in those branches of learning which are costly to conduct, or are taken by only a few students, or are professional in character. The division of subjects between the constituent Colleges and the University was set forth in the Act of 1887, but provision was made for change as future needs should dictate. Provision was also made for the affiliation of purely Divinity Schools like Knox and Wycliffe. All these constituent Colleges and Divinity Schools were given representation on the governing bodies of the University. Victoria and St. Michael's and Trinity entered the Federation, the former moving from Cobourg to Toronto in order to do so; but Queen's and McMaster elected to remain independent. The University is operating to-day under the Act of 1906. The only change from the Act of 1887 which need be referred to in this sketch is that the University is no longer administered through a department of Government, but by an independent Board of Governors appointed by the Lieutenant-Governor in Council. Moreover, academic appointments can be made only on the nomination of the President of the University. By these means the University was removed from the suspicion of political and sectarian interference, and a high character in its academic staff assured.

THE WESTERN UNIVERSITIES. It remains to deal in general with the State University, that is, the type of university supported and controlled by the State. The oldest of these is the University of New Brunswick, chartered as King's College, Fredericton, in 1828, under the control of the Church of England. It received its present name in 1859, when it was secularized and put under the direct control of the Department of Education of the Government of the Province, and, at the same time, given very modest financial support. The form of State University developed in Ontario has already been described. The four Western Universities are, however, those which have carried to its completion the State University Idea. This idea is that the State must provide and support university education for all its people, irrespective of the part which may be played by private interests, whether ecclesiastical or otherwise. The idea carries the corollary of State control. It is a natural extension of the idea of free schools, which were established in Nova Scotia in 1864 and in Ontario in 1871, and carries to its logical conclusion the doctrine of democratic government, that all its citizens must be educated. Closely associated with the idea of the State University is the conception that the University must return service to the State. The governments expect to call for and to receive guidance

and expert advice from the academic staff of the University, and look to them for the study and investigation of the natural resources of their Provinces. The Universities also carry the knowledge so acquired to every portion of the Province through a highly organized form of Extension service. This attitude is obviously not of British origin, but came to Canada from the United States. In the four Western Provinces, Manitoba, Saskatchewan, Alberta, and British Columbia, the respective governments have carried the idea to its logical conclusion by confining to the State University the power of conferring degrees. The constitutions of these four Universities are modelled so largely upon that of Toronto that it is unnecessary to refer to them in detail. Manitoba University is very like Toronto in that it has constituent Arts Colleges, as well as affiliated Divinity and Junior Colleges; the same thing is taking place in the other three. Notwithstanding the youth of these Universities (Alberta opened in 1908, Saskatchewan in 1909, Manitoba in practically its present form in 1900, and British Columbia in 1915), they have all grown to be strong, vigorous institutions serving well their constituencies.

As the years have gone by, all these institutions, while maintaining their individuality and evidences of their original form, have tended to uniformity in many important regards. Thus, they all require four years for the Bachelor (Pass) degree in Arts or in Science. Again, they have a common standard of preliminary education for admission to the courses leading to these degrees. This standard is that attained by a satisfactory completion of three years of a High School Course superimposed on eight years in the Common Schools. This standard is called Junior Matriculation. If a pupil has successfully completed the fourth year of the High School Course in the proper subjects, or passes the equivalent Senior Matriculation examination, he can enter the second year and complete the course for the degree in three years. This practically amounts to saying that High Schools or Collegiate Institutes which have a fourth year course give in that year about the same work as is done in the first year of the Univ. course for the Pass degree. In Ontario the High School Course leading to Junior Matriculation standard covers four years instead of three.

JUNIOR MATRICULATION. Students can satisfy the Entrance requirements of the Univs. by the presentation of a satisfactory certificate of the results of examinations conducted either by Universities or by Provincial Departments of Education, provided such certificate shows a Pass in the Required Subjects of matriculation. These required subjects differ somewhat from one Univ. to another. Most of the Univs. require for the B.A. degree the following six subjects: (1) English, (2) History, (3) Algebra (through quadratics), (4) Geometry (at least four books), (5) Latin, (6) a second foreign language. There is in nearly every Univ. a seventh subject; it is usually a science (in some cases specified, in others elective), but in many cases a third foreign language is accepted instead.

Where a course in Pure Science is given leading to the degree of B.Sc. the requirements are as above, except that the two foreign languages are French and German.

There is much more variation in the requirements for entrance to the courses in Applied Science or Engineering; but the best schools of Applied Science require in addition to Junior Matriculation at least a year in Arts and Science.

The curriculum for students of Medicine has been undergoing a change in all the Canadian Schools. In general the course of study requires 7 years following on Junior Matriculation. In some of the Univs. 6 of these years must be taken in the Medical School. In others the first 2 years (which are largely Pure Science) may be taken in any recognized Arts College.

There has been a similar advance in the standard of preliminary education required of students seeking admission to the study of Law. In the chief schools at least 2 years of Arts is required. At all the Schools the Law course proper extends over 3 years.

The standard of preliminary education required of students entering upon the study of Dentistry is the equivalent of 2 years in Arts and Science, and is practically identical with that for Medicine.

ARTS COURSE. Speaking very generally, one can say that about one-half of the course for the degree of B.A. is prescribed and the other half elective; but these elective subjects are commonly to be distributed among certain broad groups of allied subjects in a specified way, varying with the individual Univs. The prescribed work includes English, History, two foreign languages, one of which is usually Latin (British Columbia and Manitoba require only one), Philosophy, Mathematics, and Science. In the case of the B.Sc. degree in Pure Science the two foreign languages required are French and German.

A feature of Canadian Univs. which distinguishes them from the typical Univs. of the United States is the provision made for the ambitious student and the student who wishes to specialize during his course for the Bachelor degree. This is accomplished by the provision of the system of Honour courses. In this system a student who shows the necessary aptitude is permitted to take special classes, which in some instances are in extension of the regular classes, and in other cases are restricted to Honour students. In some Univs. the Honour classes are confined to the third and fourth years of the course; in others, as in the case of Toronto, they are given in all four years, and there is also a special Honour matriculation. In general, also, the number of prescribed classes is reduced, so that the student not only goes more deeply into each subject, but specializes to a greater extent than the Pass man is allowed to do. On the completion of an Honour course the student receives a degree with Honours. No small measure of the academic success of Canadian students in post-graduation work in home and foreign Univs. is to be attributed to this system.

By a proper combination of studies a student can complete a combined course for the degree in Arts or Science and that in a professional faculty in a year (in some cases, two years) less than the sum of the years required for each.

LENGTH OF SESSION. The Canadian Univs. open about the end of September and close in May or early in June. The average length of

the session is $32\frac{1}{2}$ weeks for all faculties, except those of Medicine and Dentistry, which are 4 weeks longer. Of the $32\frac{1}{2}$ weeks, 26 are given up to actual lecturing, and the remainder to vacations, examinations, and closing exercises.

CONSOLIDATION OF THE COLLEGES IN THE MARITIME PROVINCES. During the last few years a great deal of attention and consideration has been given to this question, which in one form or another is a century-old problem (see article by Murray referred to above). It has come prominently to the fore now because of the impossibility of so many small institutions (mostly sectarian) in a region containing only a million people being able to keep pace with the financial demands of modern education. The Carnegie Foundation for the Advancement of Teaching was invited to send experts to make a survey of the situation. They did so, and made a report, in which they advised that all these institutions should move to Halifax and join with Dalhousie, already there, in forming a strong central University. Each constituent was to maintain its name, identity, individuality, organization and funds, but give up its examining and degree-granting powers (except in Divinity) to the Univ. The Colleges should not teach the scientific subjects nor those subjects for which there would be a small demand, which should be given by the Univ. In general, the Colleges should restrict themselves to the Humanities. The Univ. would conduct all professional schools. The Colleges were to be residential. It will be seen that the scheme was something between that of Oxford and that of Toronto. It was a fair inference to be drawn from the report that, if the various institutions in question would get together, and the governments concerned make a grant-in-aid to the central Univ., the Carnegie Corporation of New York would give the scheme very generous aid. Representatives of the educational institutions and interests held many conferences and agreed upon a scheme of consolidation, and the Carnegie Corporation promised a gift of \$3,000,000. At this stage the scheme was halted, for the time being at least, by the refusal in succession of the Univ. of New Brunswick (non-sectarian), St. Francis Xavier's College (Roman Catholic), and Acadia College (Baptist) to enter it. In the meantime, King's College (Anglican) moved from Windsor to Halifax, and entered into a close association with Dalhousie Univ. (non-sectarian). The students of both institutions are taught as one body by the combined staffs, except in certain freshman classes (and in Divinity). King's holds in abeyance her degree-granting powers (except in Divinity), and the Univ. conducts all exams. and grants degrees. On the understanding that King's would raise the sum of \$400,000 for the erection of the necessary residential buildings, the Carnegie Trustees undertook to provide \$600,000 to be used as an endowment for the payment of an instructional staff for the combined students. The necessary sum was raised and the buildings erected. Mount Allison Univ. (United Church) has recently decided to remain at Sackville (N.B.). The original scheme of confederation having thus failed, the Carnegie Corporation offer has lapsed. There is no degree-granting educational institution in the adjoining colony of Newfound-

land, but the various interests there are very favourable toward the general scheme of a confederation of the educational forces of Eastern Canada. They have organized a Junior College at St. John's for the first two years of the work for the Arts degree. The Carnegie Corporation made a grant-in-aid for a period of five years.

DEGREES IN DIVINITY FOR STUDENTS BELONGING TO THE ANGLICAN CHURCH IN CANADA. The Church Universities and Theological Colleges in Canada have entered into an agreement to adopt a uniform standard for degrees in Divinity. All such degrees are now conferred only in accordance with Canon X of the General Synod of Canada, and only on examn. by a Joint Board, including the Archbishop of Rupert's Land (Chairman), and representatives of the Univs. of King's, Bishop's, and Trinity Colleges, Montreal Diocesan, Wycliffe (Toronto), Huron (London, Ont.), St. John's (Winnipeg), Emmanuel (Saskatoon), St. Chad's (Regina), Anglican Theol. Coll. of B.C.

NOVA SCOTIA TECHNICAL COLLEGE, HALIFAX. This institution represents the principal direct effort of the province in education of University grade. It is supported entirely from provincial revenues. Through a co-operative agreement, a uniform engineering course covering the work of the first, second and third years is carried out in the Univs. of Acadia, Dalhousie, King's, Mount Allison, St. Francis Xavier, St. Mary's College, and Memorial Univ. Coll., Newfoundland. On successful completion of this course, the student proceeds to the Technical College without examn. for the professional work of the last two years of the 5 yr. course. Here the studies are differentiated and the student selects either Civ., Elec., Mech., or Mining Engineering. The degree given is that of B.E. The Technical Coll. confines its attention entirely to the work of the last two years. It is equipped principally for teaching the engineering courses and commercial testing of industrial materials and natural resources, and incidentally for scientific research. Tuition fees: \$75 p.a. for British citizens, \$150 for those of other origins. Twenty county scholarships of \$75 p.a. are available for Nova Scotians. The buildings and equipment represent a provincial investment of about \$600,000.

THE CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING, 522 Fifth Avenue, New York City. The object of the Foundation, which was established in 1906 with resources which now amount to 30 million dollars, is to provide retiring allowances and pensions, and, "in general, to do and perform all things necessary to encourage, uphold, and dignify the profession of the teacher and the cause of higher education." It operates both in the U.S.A. and in Canada. The list of those eligible to receive retiring allowances and pensions in institutions associated with the Foundation includes the following classes of persons: (1) A person in an institution on the associated list who (a) is 65 years of age and has served not less than 15 years as professor, or not less than 25 years as instructor or as prof. and instr., or (b) has served 25 years as prof. or 30 years as instr. or as prof. and instr., and who is shown by medical examn. to be entirely unfitted by disability for continuing the work of teacher; (2) a widow who has for 10 years been the wife of any teacher of class (a) or (b). The direction of the Foundation is entrusted to a board of 25 trustees, mostly university and college presidents.

The list of associated institutions includes ALBERTA, BRITISH COLUMBIA, DALHOUSIE, MCGILL, MANITOBA, QUEEN'S, SASKATCHEWAN, and TORONTO. Up to June 1937, 2621 allowances and pensions had been granted, including 143 in Canada and 5 in Newfoundland.

In addition to its work in connexion with the payment of pensions the Board of Trustees has undertaken the issue of various publications and their

free distribution. Among these are bulletins on Medical Education in Europe, Education in the Maritime Provinces of Canada, Games and Sports in British Schools and Universities, and the Quality of the Educational Process in the United States and Europe.

THE NATIONAL COUNCIL OF EDUCATION, Canada, was organized at a Conference on Education in relation to Citizenship held in Winnipeg in 1919. With the co-operation of Universities and Departments of Education the Council is developing a Bureau of Education, and has organized a system of National Lectureships whereby eminent lecturers are brought from Great Britain to Canada. The Bureau facilitates exchange of information between the provincial depts. of Education, the diffusion in Canada of ideas and information from outside the Dominion and *vice versa*. Triennial Conferences on Education are held, the next of which will be in Toronto in 1938. Executive Secretary, Major Fred. J. Ney, M.C., LL.D., 43 St. George St., Toronto (now headquarters for Canada); other offices at 411 Power Building, Winnipeg, 70 Sun Life Building, Montreal.

NATIONAL CONFERENCE OF CANADIAN UNIVERSITIES. President for 1937-1939—Chancellor H. P. Whidden, B.A., D.D., LL.D., D.C.L., F.R.S.C.

The Seventeenth Conference was held in Queen's University, Kingston, Ont., on May 31-June 1, 1937. Fifteen Universities, six Colleges, the National Research Council and the National Association of State Universities were represented. The subjects discussed were: Is the Arts Course losing ground?; The Effect of Summer Schools on the Standards of Faculties of Arts; Safeguarding Matriculation Standards; The Necessity of Compulsory Latin for Arts Matriculation; Can University Statistics be improved?; The Differentiation and Distribution of Academic Work among Canadian Universities; The Workers' Educational Association; Honours Courses: From the Universities' Standpoint—From the Schools' Standpoint.

The next meeting will be held in May 1939.

The Reports of the Conferences may be obtained from the Secretary, Dean K. P. R. Neville, University of Western Ontario, London, Ontario.

STATISTICAL TABLES relating to Canadian Universities and Colleges are published by the Dominion Bureau of Statistics, Ottawa, in its Annual Survey of Education in Canada, price 50c.

GENERAL INFORMATION

Founded in 1838 by the N.S. Baptist Educational Society, Acadia College was incorporated in 1840 by Act of the N.S. Legislature, with the powers of a University and the name changed to Acadia University by an Act of Legislature in 1891. In 1896 an endowment of \$100,000 for the Theol. Dept. was received under the will of G. P. Payzant. The Board of Governors is appointed by the Baptist Convention of the Maritime Provinces, but the students are subject to no religious tests.

THE PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART, Calgary, operates directly under the authority of the Dept. of Education. Affiliated May 13, 1926. Principal—W. G. Carpenter, B.A., LL.D. McM.

GENERAL INFORMATION

For the early history of the University, created by Act of the Legislative Assembly (Alberta), 1906, see *Yearbook* for 1929. In 1919-20 the large post-war increase in the number of medical students necessitated the construction of a new Medical Building. In the same session the creation of the office of Director of the School of Pharmacy completed the evolution of the School from a Dept. under the Fac. of Medicine to an independent unit. Similarly in 1928-1929 Commerce and Household Economics were raised to the status of Schools and provision made for a School of Education, the latter taking over from the Provincial Normal Schools the professional training of Univ. graduates. The

Provincial Legislature has established a close relationship between the Univ. and the Professions, and the Senate has jurisdiction over the educational standards of Architects, Chartered Accountants, Dentists, Engineers, Land Surveyors, Lawyers, Pharmacists, Physicians and Surgeons, Registered Nurses, Optometrists, and Veterinary Surgeons.

The Univ., whose property covers 637 acres, is situated in the city of Edmonton, the capital of the Province of Alberta. The grounds run along the wooded southern bank of the Saskatchewan river and afford ample room for playing fields and the expansion of the building scheme.

LIBRARY, 62,000 vols. **LABORATORIES** for all scientific courses; museum (vertebrate palæontology); herbarium; farm; agricultural experimental plots.

FUEL TESTING LABORATORY. For the detailed study of the chemical and physical properties of Alberta coals; also for investigating industrial problems such as coking, carbonizing, briquetting, combustion, storage and purification of coal.

RESEARCH LABORATORIES OF DEPARTMENT OF FIELD CROPS. These laboratories have been developed during the past 10 years for the investigation of special problems underlying crop production in Western Canada. Progress has been greatly facilitated by grants-in-aid of special researches received from the National Research Council. The programme of investigation covers such important problems as the nature of resistance to frost, drought, and disease; methods of eliminating false wild oats; and factors affecting the milling and baking qualities of wheat.

FACULTIES. Arts and Sciences (incl. Schools of Household Econ., Pharmacy, Commerce, and Education); Applied Science (Civil, Mining, Chemical, and Electrical Engineering and Architecture); Medicine (including Dentistry and Nursing); Law; Agriculture.

MATRICULATION exams. are conducted in June and Aug., under control of High School and Univ. Matricn. Exams. Board of the Province. Equivalent exams. by recognized authorities in the British Dominions are accepted *pro tanto* for admission.

DEGREE COURSES. 3 yrs. (honours, 4 yrs.)—B.A., B.Com., B.Sc. in Arts; B.Sc. in Household Econ., B.Sc. in Pharmacy; 4 yrs.—B.Sc. in Engin. UNION COLLEGE OF BRITISH COLUMBIA, Vancouver (United Church of
Canada)—Principal, Rev. J. G. Brown, M.A., D.D.; and THE ANGLICAN
THEOLOGICAL COLLEGE OF BRITISH COLUMBIA, Vancouver—Principal, Rev.
H. R. Trumppour, M.A., D.D. Tor. Both Colls. were affiliated in 1922.

GENERAL INFORMATION

The University of British Columbia was incorporated by an Act of 1908.
For early history, see *Yearbook* for 1929. The University site consists of 548
acres on the headland of Point Grey, 300 feet above the sea. Here a group of
buildings constructed at a cost of nearly \$2,000,000 was opened in Oct. 1925.

The Board of Governors consists of the Chancellor, elected by Convocation,
President, and 9 persons—3 elected by the Senate and 6 appointed by the
Lieut.-Govr. in Council. The Senate consists of the Chancellor, President (as
Chairman), Deans, and 2 Profs. of each Faculty, 3 nominees of the Lieut.-Govr.
in Council, principals of normal schools, one member elected by high school

principals and assts., one by each affiliated Coll. in the Province, 15 by Convocation, one by the B.C. Teachers' Federation.

The Univ. is an integral part of the public educational system of the Province, and its function is to complete the work begun in the public and high schools. It is the policy of the Univ. to promote education in general and, in particular, to serve its constituency through three channels—teaching, research, and extension work. It furnishes instruction in the various branches of a liberal education, and in those technical departments which are most directly related to the life and industries of the Province. The people of the Province are informed of the results of special work by the staff of the Univ. through the Department of University Extension.

The LIBRARY has 106,000 vols. and about 15,000 pamphlets, and regularly receives 680 periodicals. It is one of the three Canadian Depositories of the Library of Congress Catalogue, and has recently been the recipient of the Carnegie Corporation Music Set. LABORATORIES available for all courses. A Forest Products Lab. was established in 1918 by the Forestry branch of the Dept. of the Interior as a permanent branch of the F.P. Labs. of Canada, v. App. III. B. 1. HERBARIUM, 16,000 sheets native flora, 200 water-colours B.C. Fungi. BOTANICAL GARDENS, Arboretum and economic section, 5 acres.

FACULTIES. Arts and Science (including Commerce), Applied Science (Civil, Elec., Mech., Forest, Geological, Metallurgical, Mining, and Chemical Engineering, Chemistry, Nursing and Health), Agriculture (including Dairying and Horticulture).

PENSION SCHEME. In 1924 a contributory plan of retiring allowances for members of the teaching staff was adopted, contracts being placed with the Teachers' Insurance and Annuity Assocn. of America. The same year the Univ. was associated with the Carnegie Foundation for the Advancement of Teaching, v. p. 434.

MATRICULATION examns., Junior and Senior, are arranged by the High School and Univ. Matricn. Board of the Province, consisting of members appointed by the Dept. of Education and by the Univ. Every student is submitted to a physical examn. on entrance to the University.

DEGREE COURSES. B.A., 4 yrs. (3 from Senior Matricn.). B.Com., 4 yrs. B.A.Sc. in Applied Science, 5 yrs. (4 from 1st yr. in Arts or Senr. matricn.). B.S.F. (Forestry). B.S.A., 4 yrs. from Junr. matricn. Double course, B.A. and B.A.Sc., 6 yrs. Courses for the M.A., M.A.Sc., and M.S.A.

OTHER COURSES. Short courses in Agric. at the Univ. and elsewhere. 1 yr. course in Public Health for graduate nurses. Occupational course of 1 yr. in Agriculture; Social Service, 3 yrs., leading to diploma. Evening Courses, with summer excursions, in Botany.

SUMMER SESSION. In 1922 the summer school for teachers became the summer session. Teachers and others with full Matricn. standing may pursue Univ. courses and receive credit therefor towards the B.A. degree.

FEES, inclusive for tuition, \$125-\$175 per session. Graduation, \$15.

SCHOLARSHIPS FOR GRADUATES. Two of \$500, one in Chemistry and one in Geology. One each of \$200, \$150, \$125, \$100, \$50. One of 10,000 francs for study in France.

RESIDENCE. Board and lodging in vicinity of the College from \$25 upwards p.m.

PUBLICATIONS. *Requirements for Matriculation*; *Calendar* (April); *Summer Session Announcement of Courses*.

THE YEAR 1936-37

NEW DEVELOPMENTS. Credit allowed for Music in the Faculty of Arts and Science. Work in Forestry extended.

CHANGES IN REGULATIONS. Courses in Second and Third Year, Applied Science (Engineering) revised and requirements for admission to Second Year raised.

VISITS OF TEACHERS FROM OTHER UNIVERSITIES. Dr. Percy M. Barr (Division of Forestry, Univ. of California), Special Lectr., Sept.-Dec., 1936.

UNIVERSITY EXTENSION. The Department of University Extension, developed as a result of the Adult Education activities of the institution and was organized in the session 1936-37. 300 Extension lectures were given by members of the staff at over 100 centres, some of which had to be reached by boat and some after almost a week's journey by rail and automobile.

Facilities for visual education and for the use of study and drama groups have been developed and a start made in the use of radio for University purposes. Attendance at evening classes reached a total of 300, indicating a growing public interest in this extra-mural side of the Univ. Two short courses in the drama were given at Invermere in the Rockies and at Duncan on Vancouver Island, respectively. One short course for study-group leaders was given in June, 1937.

Public forums were encouraged and the Vancouver Institute remains a useful platform for popular exposition of topics of scientific interest.

Extension Library, over 1000 vols. ; in addition to lanterns and equipment there are now more than 80 sets of lantern slides in the loan collection.

Plans are being made for the use in Extension activities of the Carnegie Corporation Music and Art sets.

RESIGNATIONS. Prof. H. F. G. Letson (Mech. and Elect. Eng.) ; Prof. E. G. Cullwick (Elect. Eng.) ; R. England, Director of Univ. Extension and Assoc. Prof. Econ.

GENERAL INFORMATION

Opened in 1789 at Windsor, N.S., the College was established with full University powers by Royal Charter in 1802. In Sept. 1923, the Univ. removed to Halifax and became associated with Dalhousie Univ. (*see* p. 433). The staffs in Arts of the two Univs. are combined in one faculty. The first year courses are given independently to the students of Dalhousie and of King's; but with this exception students of both institutions follow on equal terms the same courses leading to the same degrees. King's holds in abeyance her degree-conferring power in Arts and Science, but retains complete control of her Divinity School as well as of her present endowments, administration of residences, etc. Under the terms of the agreement between Dalhousie and King's, the College was established in Halifax by means of public and other subscrip-

tions and with the financial aid of the Carnegie Corporation. The new buildings, value \$450,000, were opened for the session 1930-31. The Univ. is governed by a Board consisting of the Bishops of the dioceses of Nova Scotia and Fredericton and the President of the Univ. *ex officio*, together with 10 members elected by the Alumni Assocn. and 8 elected by each of the diocesan Synods.

Students from the JAMAICA CHURCH THEOLOGICAL COLLEGE who, after a residence of six terms there, pass the required exams. in the subjects of the Divinity course at King's, may receive the diploma of L.S.T.

PUBLICATION. *Calendar* (June).

ANNEXED OR AFFILIATED INSTITUTIONS

["Annexion" implies absolute control by the Univ. of the programmes of study and of the nomination of the staff. "Affiliation" or—in the case of an institution outside the province of Quebec—"agrégation" involves control by the Univ. of examinations.]

ÉCOLE D'ARPENTAGE ET DE GÉNIE FORESTIER (Surveying and Forestry). Founded by Govt. and affiliated to the Faculty of Arts. Director, Avila Bédard, Prof. of Forestry. 16 other Profs.

ÉCOLE AGRICOLE DE STE. ANNE DE LA POCATIÈRE, affiliated. Director, Prof. H. Bois. 23 other Profs.

ÉCOLE SUPÉRIEURE DE CHIMIE. Affiliated to the Faculty of Arts. Director, Rev. A. Vachon. 13 other Profs.

ÉCOLE NORMALE SUPÉRIEURE. Affiliated to the Faculty of Arts. Director, Mgr. Camille Roy. Section of Letters, 6 Profs.; Section of Sciences, 11 Profs.

ÉCOLE DE MUSIQUE. Affiliated to the Faculty of Arts with a special Dept. for Sacred Music, and 60 affiliated Schools. Director, R. Talbot. 23 other Profs.

ÉCOLE DE PHARMACIE. Affiliated to the Faculty of Arts. Director, J. A. Marquis. 7 other Profs.

ÉCOLES DE GARDES-MALADES. 13 Schools affiliated.

ÉCOLE DE SCIENCES SOCIALES. Director, A. Robert, 14 other Profs.

ENSEIGNEMENT MOYEN COMMERCIAL (2 Sch. affil.); ENSEIGNEMENT CLASSIQUE (5 Sch. for Girls affil.; Sch. for Boys: 16 affil. and 2 agrégées). Numerous institutions are affiliated to the Univ. under conditions providing for complete preparation for the Baccalauréat ès Arts (B.A.).

ENSEIGNEMENT CLASSIQUE, 1st degree (*High School*), 6 Schools affiliated.

ÉCOLE DE COMMERCE. 1 School affiliated.

ENSEIGNEMENT PÉDAGOGIQUE. 2 Schools affiliated.

ENSEIGNEMENT PRIMAIRE. 67 Schools affiliated.

GENERAL INFORMATION

The Univ. was founded by the Seminary of Quebec in 1852 under a Royal Charter. A general supervision of teaching and discipline is exercised by the Archbishop of Québec as Visitor and Chancellor Apostolic and President of the Conseil Supérieur of Archbishops and Bishops of the Province, except those of the ecclesiastical province of Montreal. The Profs. of the Faculty of Theology are nominated by the Visitor, those of other Faculties by the Conseil de l'Université, composed of the Directors of the Seminary of Quebec and 3 Senior Profs. of each Faculty.

LIBRARIES, General, 221,322 vols.; others, 473,676 vols. MUSEUMS AND DIRECTORS: Paintings, Mgr. F. Pelletier; Ethnology and Religion, G.-E. Demers; Numismatics, A. Aubert; Physics, R. Benoit; Geology and Mineralogy, W. Laverdière; Botany, A. Robitaille; Zoology, R. Dolbec; Ornithology, G. Laugelier; Entomology, G. Maheux; General Anatomy, P. Garneau; Pathological Anatomy, A. Vallée; Forestry, A. Bédard; Conchyliology, R. Dolbec; Coins, A. Aubert. LABORATORIES: Chem., Phys., Bact., Biol., Physiol., Anat., Pathol., Clinic., Physio-pathol., Bio-Chem., Botany, Mineral, Geology, Optic.

FACULTIES. Arts (with Schools of Surveying and Forestry, Chemistry and Training for Teachers, etc., annexed), Theology, Law, Medicine, Philosophy.

DEGREES, DIPLOMAS AND TEACHING ACTIVITIES. The Univ. perpetuates the stages by which a Degree was, and still is, reached in the Univ. of Paris. The Baccalauréat (B. ès A., etc.) is not the equivalent of any of the English Degrees, but is an official certificate (recognized by the Govt.) that the student has successfully completed his literary and scientific studies, and is entitled to begin his professional studies in law, medicine, or applied science, or the Higher studies. It is obtained before he leaves the affiliated Institute, Seminary, or College at which he has studied. Students who reach a certain standard in both letters and Sciences obtain the B. ès A. After the B.A. the student may proceed to the Baccalauréat in Theology (3 yrs.); in Philosophy (2 yrs.); in Civil Law (3 yrs.); in Music (2 yrs.); in Pharmacy (3 yrs.); in Surveying (2 yrs.); in Agriculture (3 yrs.); in Medicine (2 yrs.); in Commerce (2 yrs.); in Applied Sciences (4 yrs.). The course for the Licence covers 3 yrs. in Philos.

(L. en Ph.); 2 yrs. in Letters (L. ès L.); 3 yrs. in Sciences (M.A.); 3 yrs. in Law (L. en Dr.); 4 yrs. in Theol. (L. en Th.); 2 yrs. in Music. To obtain the Doctorate it is necessary to support successfully in public a thesis and propositions as in French Univs. The D. en M. or M.D. is granted after examn.

The Diploma in Forestry implies 3 yrs.' study in the Sch. of Surveying and Forestry.

The École de Chimie provides a 4 yrs.' course leading to the Baccalauréat in Applied Sciences, or to a Licence and to a Doctorate in Sciences.

The Faculty of Arts includes instruction for the following: doctorate, licence, baccalauréat, and diplomas and certificates of the secondary (College of Arts, High School) and the primary degree, with a view to promote among all classes of the population a desire for learning and an encouragement to proceed from lower to higher degrees.

The Univ. has granted affiliation to about 70 private schools for boys and girls. At the age of 12 yrs. the children may choose between the primary course with three levels: middle (*moyen*, 2 yrs.); upper (*supérieur*, 2 yrs.) and *supplementary* (1 yr.), a certificate being granted, after univ. examn., for each level; and the classical course of the first degree (High School, 4 yrs.), with a certificate of proficiency after the first, the second and the third year, and a diploma of matriculation at the end of the fourth year. The main difference between the two courses is the teaching of Latin, and the advanced teaching of mathematics and of history, in the High Schools.

The High School course is given in Schools limited to such course, or in Colleges and "Séminaires," which give, after the High School course, the teaching usual in Colleges of Arts. In these last Institutions Greek is taught for 4 yrs.; philosophy (theory, history, essays) for 2 yrs.; Latin for 6 yrs.

RECOGNITION of the B. ès A. of Laval is accorded by the Univs. of Rome, of France and of Louvain, and by Canadian Univs., and some of those of the U.S.A.

FEES for tuition, \$100 to \$185 p.a., with an extra charge for students other than Canadian.

SCHOLARSHIP OPEN TO GRADUATES. \$400 p.a. for 2 years.

PUBLICATIONS. *Annuaire général* (July), *Special Calendars*, for Law, Medicine, Chemistry, Forestry, Pharmacy, Philosophy, Nursing, Music, and École Normale Supérieure; *Le Canada Français* (Literary Review), *Le Laval médical*, *Le Bulletin de la Société de Géographie*, *Le Naturaliste Canadien*. Students' weekly paper, *Hebdo-Laval* (Oct. to May).

THE YEAR 1936-37

ATTENDANCE at lectures at the Univ. or Macdonald or Affiliated Coll. is indispensable.

DIPLOMA COURSE IN AGRICULTURE. The Diploma Course in the Faculty of Agriculture consists of two sessions of five months each (November to March inclusive). This course is intended to provide a general education for boys who intend to farm, and equip them with such a technical knowledge of agri-

culture as will enable them to deal with the problems arising in connexion with their work. The work is so arranged that students may choose subjects that definitely relate to the type of farming in which they are most interested. A third session, leading to an Advanced Diploma is also available for students of high standing, emphasis being placed upon the problems of rural leadership.

Closely connected with this extension is the "old country boy" project, under which boys from the British Islands are encouraged to take up this diploma course at Macdonald College so as to fit them for the work of farming, and every effort is made to give them, not only the theoretical education that is needed, but also the practical. Since this plan was put into effect in 1926 about 300 boys, from English public and secondary schools, have been placed on selected farms.

GENERAL INFORMATION

Established 1877, the Univ. was reconstituted in 1900 and 1917. For early history, see *Yearbook* for 1929. The Univ. has the sole power of conferring degrees in Arts, Science, Law, Med., Engin., Pharmacy, Agric., and Archit. in the province. It received in 1898 from the Dominion Govt. a land grant of 150,000 acres.

The buildings of the Junior Division in Arts and Sci. and the Med. buildings are in the city of Winnipeg, which, with adjacent municipalities, has a population of over 300,000. The site of the Senior Division in Arts and Sci., the Fac. of Agric. and Home Economics, the Fac. of Engin. and Archit., and the Fac. of Education, is in the municipality of Fort Garry, 7 miles from the centre of Winnipeg. Two Arts and Sci. buildings were erected there in 1932 at a total cost of \$1,163,000.

UNIV. LIBRARY, 71,563 vols. ; 493 periodicals received. There are also 4000 mounted plates, the gift of the Carnegie Corpn. of New York for the use of the Dept. of Architecture. The Med. College has a library of 11,334 vols., and receives 225 periodicals. LABORATORIES : Anat., Bact., Bot., Chem., Engin. (Material testing—200,000 lbs., Cement, Elec.), Geol. and Mineral., Path., Physics, Physiol., Zool. MUSEUMS : Anat., Embry., Bot., Geol., Path. HOSPITALS available for clinics : 2 general (1000 beds) and several special, including tuberculosis. FARM (676 acres).

FACULTIES. (1) An Arts and Science Faculty providing instruction in all subjects of undergraduate courses in Arts (except 5 options), Science, Pharmacy and Commerce. (2) Medicine. (3) Engineering and Archit. (4) Agriculture and Home Economics. (5) Education. Other subjects of Arts course are taught in the affiliated Colls. Law is taught in the Manitoba Law School, which is under the direction of trustees jointly appointed by the Univ. and the Law Society of Manitoba.

MATRICULATION examn. is conducted in June by the Examn. Board of Manitoba, also a limited Matricn. in Sept. Matricn. subjects for Arts or Sci. courses: English, Hist., Maths., Latin or Greek or French or German; a second language or 2 of the following—Physics, Chem., Genl. Science, Biol.; a third language or 2 sciences not already taken, or 1 science not already taken with Home Econ. or Indust. Arts or Music or Agric. or Comm. work. Exemption from examination is allowed in the subjects of Grades IX. and X. Matricn. to pupils of the Collegiate Institutes of the province, or of the Preparatory schools in connexion with the affiliated Colleges, who are recommended for such exemption by their school principals, and also exemption from examn. in the subjects of Grade XI. Matricn. (Arts and Sci.) to recommended pupils of approved schools under certain conditions. Entrance requirements for Medicine are clear standing of two pre-medical years in Arts and Science; for Law of 2nd year in Arts, with Latin to the end, at least, of the 1st yr.; for Engineering standing of one pre-engineering year in Arts and Science, and for Architecture one pre-architectural year in Arts and Science. Members of any British or approved Univ. may be admitted *ad eundem statum* or *gradum* without Entrance examn.

DEGREE COURSES. 4 yrs.—B.A., B.Sc., B.Sc. (C.E. or E.E.), B.Sc. (Phar.), B.Arch., LL.B., B.S.A., B.Sc. (H.Ec.), B.Com.; 5 yrs., following 2 pre-medical yrs.—M.D.; 5 yrs.—B.A. (Hons.), B.Sc. (Hons.). Graduates in Med. of at least 2 yrs.' standing with certain prescribed training and experience may obtain Ch.M. on passing written, oral, and practical examn., and presenting a satisfactory thesis. A course involving research and governed by spec. regns. leads to the degree of B.Sc. (Med.). M.A., M.Sc., M.Arch., 1 or 2 yrs.' post-grad. course. B.Ed., 2 yrs.' post-grad. course; M.Ed., 1 yr. after B.Ed.

A UNIT SYSTEM has been adopted in the Arts and Science Faculty, the unit being "a body of work to which is assigned for instructional purposes one hour of lecture or other class-room exercise per week or one continuous laboratory period of 2 or 3 hours per week, throughout an entire session, or the equivalent." 40 units of credit in the "Junior Division" (work normally done in first two sessions) and 32 in the Senior General Division (for Honours, 48 in the Senior Honours Division) are required for the degree. Subjects are placed in groups, from each of which selection is made in accordance with definite regulations. For the B.A.—English (1 yr.), a foreign language (2 yrs.), Maths. (1 yr.), and a second yr. of English or a second foreign language are compulsory.

The M.A. may be obtained by candidates possessing the Honours B.A. of Manitoba, or an equivalent degree, by an extra year of full-time study under the direction of a committee of instructors. Candidates for the M.A. possessing the General Course B.A. of Man., or an equivalent degree, must first obtain 16 units of credit in Honours Courses. A thesis is required as well as examn.

The M.Sc. requirements are at least one yr.'s grad. work in one or more of the Sc. depts. of the Univ. (incl. Maths.) or in the dept. of Civil Engin. or that of Elect. Engin., an examn. and a thesis. Candidates for the M.Sc. possessing the General Course B.Sc. of Man., or an equivalent degree, must first obtain 16 units of credit in Honours Courses. While taking the LL.B. course a student may simultaneously obtain the Law Society's qualification for practice. An extra-mural course in Law may be taken by students residing in Manitoba elsewhere than in Winnipeg or environs. The LL.D. is honorary.

In the B.Sc. Engin. courses a thesis is required in the 4th yr. A summer thesis may be presented for credit by students entering the 2nd, 3rd or 4th yr. 2 yrs.' service in an Architect's office following graduation (B.Arch.) will qualify for licence to practise,

DIPLOMAS. Pharmaceutical Chemistry (2 yrs.' course); Agriculture (2 yrs.); Education (1 yr.). Associate in Music, Man. (A.M.M.) and Licentiate in Music, Man. (L.M.M.). In Dentistry the Univ. is the sole examining body in the province. The Univ. conducts examns. for admission to the Man. Assoc. of Graduate Nurses, to the practice of Accountancy and membership of the Inst. C.A. of Manitoba, to the practice of Architecture and membership of the Man. Association of Archts.; also qualifying examns. for the Man. Civil Service.

GENERAL INFORMATION

An appropriation of 500,000 acres of land for the support of 4 grammar schools and a Univ. in Upper Canada was made in 1798, and a Royal Charter was granted in 1827 for a "King's College" with the privileges of a Univ., but it was not until 1843 that the College was inaugurated. For early history, see *Yearbook*, 1929.

LIBRARY, 339,261 vols. and 131,909 pamphlets. 3670 periodicals and serials received. The (Science) Library of the Roy. Can. Inst. is housed in the same building. MUSEUMS : The Royal Ontario Museums—Archæology, Geology, Mineralogy, Palæontology, and Zoology ; departmental museums ; Trinity has a Nat. Hist. and Archæol. Museum of its own ; the Agric. and Vet. Colleges, Knox, and the Faculty of Dentistry have each one.

UNIVERSITY MATRICULATION BOARD. A Board created by the Univs. of Toronto, Queen's, McMaster, W. Ont., and Ottawa conducts and controls their annual Matricn. examns. The Dept. of Educn. of Ontario provides the machinery for holding these examns., and the Registrar of the Dept. is Secy. of the Board. A report signed by all members of the staff of the school concerned as to the standing of their candidates is considered in determining the results of the examn.

The subjects of Pass and Honour Matricn. are (1) Latin, (2) Engl., (3) Hist., (4) Maths., (5) Greek, (6) French, (7) German, (8) Spanish or Italian, (9) Physics and Chem., or (10) Agric., (11) Zool. and Bot. (Hon. Matric. only), (12) Music. For admission to Arts it is necessary to pass in (1) to (4) and any two of (5) to (10) with honour standing in at least 5 specified subjects, (2) and either (1) or (4) being compulsory. To obtain this honour standing a student must spend at least one yr. at school after completing Pass Matricn. In certain cases foreign students may substitute their native lang. for Greek or French or German. Music is accepted as an option for Ancient Hist. (the subject of one of the two Hist. papers, the other being Canadian Hist.).

For admission to Med. the requirements are (1) to (4), (9) or (10), and any one of (5) to (8), with honour standing in (2), (4), (6) or (7), and (9) or (11) ; to Applied Sc.—(2), (3), (4), and any three of (1) and (5) to (10), with honour standing in (2), (4), (9) or (10), and one of (1), (5) to (8) ; in Household Science—(2), (3), (4), three of (1), and (5) to (10), with honour standing in at least 5 specified subjects ; in Forestry—(2), (3), (4), and any three of (1) and (5) to (10), with honour standing in (2), (4), one of (6) or (7), and (9) or (11) ; in Music—(2), (3), (4), and three of (1) and (5) to (9) ; in Dentistry—(1), (2), (3), (4), (9) or (10), and one of (5) to (8), with honour standing in (2), (4), and one of (6) or (7), and (9) or (11).

Minimum age for admission to the Faculty of Arts, 16 ; Med., 17 ; Appl. Sc., 17 ; House. Sc., 16 ; Educn., 19 ; Forestry, 17 ; Dentistry, 16.

DEGREE COURSES. 2 yrs.—Phm.B. ; 3 yrs.—Pass B.A., Mus.B. ; 4 yrs.—Honour B.A., B.Com., B.A.Sc., B.Sc. (Med.), B.Sc. (Dent.), B.H.Sc., B.Sc.F., B.S.A. and B.V.Sc. (at Guelph) ; 5 yrs.—B.Arch., D.D.S. ; 6 yrs.—M.D. Combined courses : B.A. and M.D.—8 yrs.

Students from the British Isles will be admitted to Medicine or Applied Sc. on submitting certificates of registration with the General Medical Council of Great Britain or the Institution of Civil Engineers.

The B.Sc. (Med.) may be obtained by Med. students who, after the 4th or subsequent year of Med. study, having maintained therein a prescribed standard

of proficiency, spend a year in an approved course of study, and show facility in reading one modern language besides English.

A student who has already graduated in the Faculty of Arts, Med., or Sci. of a Canadian or other recognized Univ. may complete the course in Dentistry in 4 yrs. instead of 5, provided he has covered certain prescribed subjects during his undergrad. course; and persons holding the L.D.S. of one of the Med. authorities of Great Britain or the B.D.S. of approved Australian Univs. may be admitted to the Fac. of Dentistry without further examn., and to the final D.D.S. examns. on completing one full session in the Fac. of Dentistry.

Higher Degrees. M.A., obtainable by approved course of graduate study extending over 2 yrs. or, in the case of a B.A. in an Honours course, 1 yr.; Ph.D., open to a graduate in Arts (or, on special conditions, another Faculty) of this or another recognized Univ. by pursuing in the Univ. of Toronto an advanced course of study for 3 yrs., exemption from 1 of which may be given in consideration of the candidate having already pursued such a course for 1 yr. A thesis embodying the result of an original investigation is required.

B.L.S. (Bachelor of Library Science), 1 yr. course open only to Univ. graduates.

M.S. obtainable after 2 yr. course open only to graduates in Med. of a recognized Univ. The D.P.H. course (for Med. graduates) covers 11 months — 1 winter and 1 summer session.

The M.A.Sc. may be obtained by a B.A.Sc. graduate of this Univ. or one who holds an equivalent degree from some other Univ. who pursues a course of advanced study in the Faculty for 1 yr., presents a satisfactory thesis, and passes such examns. as may be prescribed.

The M.Arch. may be obtained by one who holds the degree of B.Arch. or B.A.Sc., or an equivalent degree, under the same conditions as the M.A.Sc. degree.

The professional degrees, C.E., M.E., Mech.E., E.E., Chem.E., Met.E., are open to candidates who, after obtaining the B.A.Sc. or diploma of the Faculty, spend 3 yrs. in the actual practice of one of these branches of engineering, present a satisfactory thesis, and pass examns.

The F.E. may similarly be obtained by one who holds the degree of B.Sc.F., and the M.Sc.F. in 2 yrs.

The B.Pæd. is open to candidates holding an approved degree in Arts, Sci., Agric., Engin., or Comm., and a certif. as teacher valid in one of the Provinces of Canada and issued after a regular course in an approved training school or the equivalent of such certif. and course of training. They must attend the Ontario Coll. of Education during two regular Coll. sessions or three summer sessions, with certain exceptions.

The D.Pæd. is open to graduates in Arts, Science, Agric., Engin., or Comm., of any British Univ. who hold the B.Pæd. degree and a teacher's certif. valid in one of the Provinces of Canada and pass prescribed examns. A thesis is also required, and the candidate must have attended one regular session or a summer course.

The M.S.A. is open to grads. who have obtained the B.S.A. degree or its equivalent.

The M.Sc. (Dent.) is open to grads. of the Fac. of Dentistry of Univ. of Toronto or those with equivalent standing. It involves at least 2 years' work.

The M.V.Sc. or the D.V.Sc. is open to grads. who have obtained the B.V.Sc. degree or its equivalent.

The Mus.D. is open to a Mus.B. of this or another Univ. of 3 yrs.' standing.

The Univ. publishes annually an announcement of *Graduate Courses*. *All communications on the subject must be addressed to the School of Graduate Studies.*

TRAINING OF TEACHERS. Courses are provided for Teachers' certificates of several grades, including the Household Science and the Physical Culture Teachers'. The Educn. Dept. of Ontario grants certifs. on the completion of the prescribed courses, entitling the holders to teach in the High Schools. All teachers for High Schools and Collegiate Institutes must spend at least 1 yr. in the College of Education.

FEES. Students proceeding to the B.A. and enrolled in one of the Colleges of the Univ. attend lectures of Univ. Profs. and Lectrs. in the Fac. of Arts without payment of fees except for lab. supplies. The College Fees, which entitle students to attend lectures in their respective Colleges, are \$125 p.a.; B.Com., \$165 p.a. Medical students pay for tuition, lib., lab. supply, hospital and annual examn., 1st yr., \$175 p.a., 2nd and 3rd yrs., \$250 p.a., 4th, 5th and 6th yrs., \$275 p.a. GENERAL INFORMATION

Incorporated by an Act of the Provincial Legislature in 1878 as the "Western University of London, Ontario," in connexion with the Church of England, the Univ. has become, under the provisions of amending Acts of 1908 and 1923, absolutely undenominational in its government, which is under provincial and municipal control. It consists of 3 Instns., the Coll. of Arts (University College), the Medical School, and the Institute of Public Health.

FACULTIES. Arts, Medicine, Public Health.

DEGREE COURSES. 4 or 5 yrs. (from Junr. Matricn.), B.A.; 5 yrs., B.Sc. (in Nursing); 1 or 2 yrs.' graduate work, LL.B., M.A., M.Sc.; 6 yrs., M.D. Attendance on part of the classes (other than Med. and Sci.) may be dispensed with by the Senate, but all students must have attended lectures in the Univ. for at least 2 yrs. before they can graduate.

DIPLOMAS AND CERTIFICATES. Diploma in Business Administration; Diploma of Public Health (D.P.H.). Certificate of Public Health Nurse, (C.P.H.N.); Certificate of Instructor in Nursing (C.I.N.); Certificate of Hospital Administration (C.H.A.); courses each 1 yr., for graduate nurses.

FEES. Annual: Arts, \$125; Medicine, \$225; Public Health, \$140.

THE LIBRARIES contain c. 130,000 vols. and several thousand pamphlets. The Barnett collection contains many rarities dealing *inter alia* with Canadian and American history. The Shakespeariana number c. 1500 vols. and several thousand pamphlets.

PUBLICATIONS. *Calendar* (May); *Report of Faculty of Public Health* (May); *Medical School Announcement* (May); *Univ. Gazette*, twice a week during term.

THE YEAR 1936-37

GENERAL DESCRIPTION

[Revised in 1931 and 1936 by Professor J. T. Wilson, M.A., LL.D., M.B., Ch.M., F.R.S., St. John's College, Cambridge, representative of the University of Sydney on the Universities Bureau, and one of two members representing Australia on the Executive Council of the Universities Bureau, and further revised for this edition by the Australian Vice-Chancellors' Committee.]

EACH State of the Commonwealth of Australia possesses a University in its capital city. Geographically they are by no means near neighbours. Those most widely separated—at Brisbane and Perth respectively—are effectively not less than 3000 miles apart; whilst to visit even the nearest sister University involves in each case a journey of some 500 miles.

Nevertheless these Universities form a relatively homogeneous group owing to their general similarity of origin and constitution and to their relationship to the communities which they serve. All of them owe their establishment to Acts of the State Legislatures carried through in response to popular demands. They are not, however, "State Universities" in the American sense, but, like the British Universities generally, are, by statute and Royal Charter, self-governing academic corporations.

Underlying this general uniformity of type there are not a few individual differences and variations. These may be referred to several factors: differences in dates of foundation (1850-1911) necessarily determine more or less the stage and degree of academic development actually reached; also, the academic ideas current at different foundation periods have undoubtedly impressed themselves on the academic structure and development of both older and younger Universities. Further, another obviously important differentiating factor has been that of inequality of material resources available, both from private endowment and from State subsidy—the latter being naturally dependent in large measure on the extent of the population of the State concerned.

RESIDENTIAL COLLEGES. A residential University of the traditional Oxford and Cambridge type was without doubt the ideal in the minds of the founders of the first Australian Universities. But they recognized clearly that the accepted secular basis of the civil government precluded the attempt at its full realization. Accordingly, a compromise was effected by the establishment of more or less independent Colleges by some of the larger religious denominations to provide for residence and religious supervision of matriculated students of the University. In some cases (*e.g.* Sydney) these Colleges are defined as

" within the University " and an allocation of areas of the University domains for their buildings and grounds was effected by statute, as well as some endowment of the Headship of the College.

Colleges of essentially similar character have since been set up in all the later founded Universities. In addition, residential Colleges for women have been founded in connexion with the Universities of Melbourne, Sydney and Queensland.

The Colleges generally, whether under denominational control or not, are open to all matriculated students, without religious test.

The Colleges and Halls of residence thus far established are :

SYDNEY—St. Paul's (1854, C. of E.) ; St. John's (1857, R.C.) ; St. Andrew's (1867, Presb.) ; The Women's College (1890, Undenom.) ; Wesley (1910, Meth.) ; Sancta Sophia (1929, R.C. for women).

MELBOURNE—Trinity (1872, C. of E.) ; Ormond (1879, Presb.) ; Queen's (1888, Meth.) ; Newman (1916, R.C.) ; University Women's College (1937, Undenom.) ; Associated with Trinity and Newman respectively are Janet Clarke Hall (1886) and St. Mary's Hall, for women students.

ADELAIDE—St. Mark's (1925, C. of E.).

QUEENSLAND—Emmanuel (1912, Presb.) ; St. John's (1912, C. of E.) ; King's (1912, Meth.) ; Women's Coll. (1914, Undenom.) ; St. Leo's (1917, R.C.) ; Duchesne Coll. (1936, R.C. Women).

WESTERN AUSTRALIA—St. George's (1931, C. of E.).

TASMANIA—Christ College (1933, C. of E.).

All the Colleges possess their own independent governing bodies. In those under denominational control both clerical and lay elements are represented, frequently in definite proportions.

Even in the older Universities of Sydney and Melbourne, where the College system is most strongly developed, only a comparatively small minority of the students are members of Colleges. Owing to the concentration of population in the capital cities of Australia, together with the fact that University students are largely drawn from the urban and suburban elements, the majority of the undergraduates reside in their own homes. In Sydney, and probably also in Melbourne, the collegiate students form only about fifteen per cent of the whole undergraduate body. Nevertheless, the influence of the Colleges on the general life of the University, intellectual, social, and athletic, is much more real and effective than their numbers would suggest.

CONSTITUTION OF UNIVERSITIES. A. *Governing bodies.* In their statutory constitution the governing bodies of all the Australian Universities present a generally similar composite character, whilst differing in the proportions of the component elements. Their membership varies in number from 18 to 31. In every case there is a substantial proportion of representatives elected by the general body of graduates, varying from one-third to more than one-half of the total membership, but only in two cases (Adel. and W.A.) does it form the preponderant element. In every University there is now a more or less direct representation of the State on the governing body, either by nomination by

the Governor-in-Council or by election by the Houses of Parliament, and in two cases by *ex officio* representation of the State Department of Education. In the more recently founded Universities the representation of the State Government is strong; in one instance it is equal to the academic, and in another it is even slightly preponderant.

The academic representative element invariably includes representatives of the teaching staff, though only in Sydney, Melbourne and Tasmania by independent statutory right. In most cases their number is by ordinance limited to three, elected as part of the general representation of the academic body by the graduates.

The Melbourne University Act of 1923 introduced certain novel provisions, namely, that the Government nominees shall include representatives not only of Parliament but of manufacturing, commercial, agricultural, and industrial interests, as well as a representative of the technical schools; it also provided that two Heads of Colleges and two elected representatives of the undergraduate body shall have seats on the governing body.

The governing body in the Australian Universities is designated either the "Senate" (Syd., Queens., W. Aust.), or "Council" (Melb., Adel., Tas.).

B. Graduate academic body. As in the British Universities generally, there is in each of the Australian Universities another statutory academic body, consisting in the main, though not in all cases exclusively, of the general body of graduates (usually of at least three years' standing). In Queensland the Governor-in-Council may appoint as members of this body one representative of "any commercial, industrial, scientific, professional, or educational society, institution, or association within Queensland." In the University of Western Australia the "Guild" of undergraduates has the right of electing one member of this body.

In those Universities in which the governing body is entitled "Senate" the graduate body is called either Convocation or Council. Where the governing body is styled "Council" the graduate body is called either Senate or (in Melb. since 1923) Convocation.

Whilst the main effective function of this body is its electoral choice of its own representatives on the governing body, it has also, in several Universities, powers of deliberation, approval, and confirmation in respect of matters submitted to it and in some instances of suggestion, but in no case of initiation of University legislation.

C. Other administrative bodies. The general routine of studies and discipline is usually controlled by a "Professorial Board," whilst the special curricula of studies are the immediate concern of the Faculties and special boards of studies. Matters of discipline are in one or two instances dealt with by a special Proctorial Board or Board of Discipline.

ADMISSION. Attempts are being made to devise a common matriculation. The difficulty lies in difference of policy as to the part to be taken by entrance examination as a qualifying test, and as to requisite subjects. Generally speaking, matriculation requirements include passing a recognized examn. (school-leaving, matricn., etc.) in English, another approved language (at Sydney, *e.g.*, Latin, Greek, French,

German, Italian, or Japanese), Mathematics, and one or more other subjects. Special facilities are offered for matriculation in some Univs. and in some faculties to persons who have attained the age of 25 yrs. (in Western Australia, 23 yrs.). In Queensland (all Faculties) and Western Australia (Arts) such persons are admitted on passing a special Adult Matriculation Examn. Owing partly to isolation by distance, migration of students from one University to another is not common. It would occur still more rarely were it not for the fact that several of the younger and smaller Universities do not yet provide opportunities for professional training in every direction, particularly in medicine. Hence it becomes necessary for some students, after one or two years' study in the University of their own State, to betake themselves to one of the older and larger Universities in order to prosecute their studies along definitely professional lines.

Although the requirements for entrance at the various Universities are not completely uniform, all possible reciprocity is exercised in the matter of such interchange of students, whether from Australian or British Universities.

THE ACADEMIC YEAR. Undergraduate status is ordinarily defined in terms of academic years of study, *e.g.* "first year," "fifth year," etc.

The academic year begins in March and ends in Nov. or Dec. It is subdivided into Terms, usually three, which may or may not include special examination periods. The Universities of Melbourne and Tasmania have each four Terms, but the fourth Term in these cases is devoted to examinations.

Although the inclusive dates of the terminal periods show some discrepancy in the different Universities, arrangements have been made to secure the coincidence of two of the inter-term vacations.

PERIODS OF STUDY. The Univ. requires not less than 3 yrs.' study for a B.A. or B.Sc.—4 yrs. if the B.Sc. is taken with Honours. The curriculum for the first degree in Med., formerly 5 yrs., has been lengthened to 6. The time needed to graduate in law varies; the Melbourne, Sydney and Queensland courses take 4 yrs., but Western Australia and Tasmania allow Arts graduates to do their law in 3 yrs. For information regarding other degrees and periods of study therefor, *see* under the several Universities.

FEES AND COST OF LIVING. The cost of living varies a good deal in different parts of Australia. A student will probably not notice much difference between Sydney and Melbourne in this respect. But anywhere he will find that £200 a year gives him quite sufficient means, for the climate is benign and good food is plentiful. The style of living everywhere is unostentatious. Decent board and lodging should not cost more than 35s. a week. Meals at the cost of 6d. to 2s. 6d. can generally be obtained at the University by members of "Unions" and others. Sydney Univ. Union has a Refectory seating 450, and one-half of it is open to all members of the University and their guests. Adelaide Univ. has a Refectory seating 400, and Melbourne has a Union building and separate dining-rooms seating upwards of 700. Western Australia is at present using one-half of dining-rooms which could accommodate

about 200. A developed Union at an Australian University also provides all the comforts of a non-residential Club for about £1 a year. Rowing, football, cricket, and other games may be had in the Sports Clubs on correspondingly easy terms.

Residence at a College is optional. College fees for residence and tuition range from 60 to 120 gs. per annum. Thus Wesley College, Sydney (Methodist), charges 28 gs. a term for resident students; Ormond, Melbourne (Presb.), from 110 to 120 gs. a year for residence during terms, according to the course being taken. St. John's, Queensland (Anglican), has fees of £21 per term, and the rates at the other Queensland Colls. are practically the same. The fees at St. Andrew's and at St. Mark's College, Adelaide, range from 102 to 114 gs. per annum. St. George's, Western Australia, charges £90 per annum, and Christ College, Tasmania, £60 per annum. Special arrangements can always be made for residence during vacations; for an example, Ormond then charges 2 gs. a week. Many men live in College on a total income of not more than £150 a year; it is doubtful if any will spend double that amount. There are few rich students and no tradition of expensive living among College men, no charming but costly ancient customs. The assistance from Scholarships and Bursaries is generous.

For University fees *see under* the several Universities below.

CURRICULA AND COURSES OF UNIVERSITY STUDIES. In general it may be said that the character and range of studies in the Australian Universities correspond fairly well with those of British Universities of comparable size and organization. There is, however, one notable exception: in accordance with the exclusively secular character of the Universities of Australia a Faculty of Theology is lacking in all of them, and no degrees in Divinity are obtainable in any Australian University. In the case of Sydney amending legislation passed in 1936 removed the exception of degrees in Divinity and Theology and it is likely that degrees in Divinity will be established in the near future. More or less associated with this situation is the absence of any courses of study in Oriental languages or literature, with the exception of Japanese, a Professorship for which exists in Sydney and in connexion with which lectures on Oriental history are also delivered. (A certain amount of teaching in Oriental languages is provided in Theological schools maintained by some of the religious denominations.) There is an Institute of Modern Languages at the Queensland University which provides courses up to Senior (School Leaving) Examination standard. The courses available in 1936 were Chinese, Dutch, French, German, Hebrew, and Italian. The University of Melbourne has Instructorships in Dutch, Japanese, Italian, Russian, Spanish and Scandinavian Languages. For the benefit of theological students Biblical Literature will become an optional subject of the Faculty of Arts from the beginning of 1938.

Subdivision of University studies into groups, under Faculties and Boards of Studies, has been carried further than is usually the case in British Universities. There has thus been a considerable accession of new Faculties beyond those traditionally recognized. The general

principle has been largely, though not consistently, adopted that any definite and distinct curriculum leading up to the award of a distinctive degree or degrees, warrants the creation of a separate and distinct Faculty as a Board for the regulation of the studies and examinations in such a curriculum.

Concurrently with this development there has been a marked tendency to the specialization and multiplication of distinctive degrees, so that in some cases we find that even within the limits of a single Faculty several distinctive degrees are obtainable along more or less differentiated lines of study. A conspicuous instance of this is seen in the Faculty of Engineering in Melbourne, in which no fewer than ten different degrees may be awarded as Bachelors and Masters of different branches of Engineering Science, Civil, Mechanical, Electrical, Mining, and Metallurgical, besides a Doctorate of Engineering Science. As many as thirteen different Faculties are found among the various Universities with a maximum number in Melbourne of twelve. In Sydney there are ten Faculties and in Adelaide nine, if the Board of Studies in Commerce be included. The establishment of Faculties of Law, Medicine, and Veterinary Science at the beginning of 1936 brought the number in Queensland up to nine.

Each University possesses Faculties of Arts, Science, and Engineering (designated "Applied Science" in Adelaide), and also of Law. All except Tasmania have Schools of Agriculture, although in Western Australia it is not a separate Faculty, but is included in the Faculty of Science. Sydney and Queensland have Schools of Veterinary Science organized as separate Faculties, Western Australia teaches Veterinary Science only as part of the Agricultural course. The course in Veterinary Science is at present suspended in the University of Melbourne, and students desiring to qualify for a degree must proceed to Sydney after the completion of their first year. In N.S.W. and W. Australia the law requires such qualifications as practically involve the Univ. curriculum in Veterinary Science.

The subject of Economics is represented by separate Professorships in each University, except in Queensland, where there is a joint chair of History and Economics. In Sydney there is a special Faculty of Economics, but, as there is no Faculty of Commerce, it includes all the various branches of both Economic and Commercial Studies. In Melbourne, Queensland, and Tasmania there are Faculties of Commerce, and in Adelaide and Western Australia Boards of Commercial Studies, under all of which the subject of Economics finds its primary orientation along with the various branches of Commercial theory and practice. Economics, however, is ordinarily included also as a subject which may be taken for an Arts degree.

In Sydney there is a fully organized Faculty of Architecture, and in Melbourne a Faculty of Architecture with a teaching school, but as yet no chair in that subject. There is a degree course in Surveying and a diploma course in Architecture in Queensland, both in the Faculty of Engineering.

Melbourne and Adelaide have each a Faculty of Music with a full Professorship and a Conservatorium. In Sydney there is a Conserva-

torium entirely independent of the University. Tasmania has a course of lectures leading to the degree of Bachelor of Music ; the course is at present conducted under the Faculty of Arts. In Queensland Music may be taken as a subject of the first year of the B.A. course.

Melbourne alone has a separate Faculty of Education granting University degrees of Bachelor and Master of Education. The Faculty contains several representatives of the State Department of Education. In all the other Universities the subject of Education comes under the Faculty of Arts and enters into the composition of such alternative curricula for the Arts degrees as are specially adapted to the requirements of the professional training of teachers. Sydney, Melbourne, and Western Australia have Professors of Education who are also heads of the State Training Colleges. Special Diplomas in Education are obtainable in the Universities of Sydney, Adelaide, Queensland, and Tasmania by University graduates or by students who have qualified for a degree (W. Aust.) and have had approved practical experience of teaching.

PROFESSIONAL SCHOOLS AND RESEARCH INSTITUTES. Each of the three older Universities, of Sydney, Melbourne, and Adelaide, possesses well organized and equipped professional schools under their Faculties of Medicine and Dentistry. These schools have long been, and are now, mainly responsible for the training of the medical and dental professions in Australia, whilst not a few of their graduates may be found occupying responsible positions outside Australia. The teaching and research staffs of these schools are also now largely recruited from the ranks of their own more distinguished graduates, but they are continually being reinforced by other teachers of distinction from outside Australia. Faculties of Dentistry and Medicine were established in Queensland in 1935 and 1936 respectively.

The relationship of the Medical Schools to the great general hospitals is intimate and effective. There is thus secured an extensive and varied clinical field, not only for undergraduate training, but in increasing measure for more advanced and specialized post-graduate study and research in conjunction with the scientific laboratories of the Universities and other Research Institutions. Such post-graduate work in various departments of specialized study now finds manifold guidance, and receives full official recognition, in connexion with the Diplomas awarded after appropriate courses of study. Amongst these may be specified the Diplomas in Psychiatry and Radiology at the University of Sydney and the Australian Diplomas in Public Health, Tropical Medicine and Tropical Hygiene from the Federal School of Public Health and Tropical Medicine in the University of Sydney, and more or less corresponding courses in the University of Melbourne, which also grants Diplomas in Ophthalmology, Laryngology and Otology, in Gynæcology and Obstetrics, in Therapeutic and Diagnostic Radiology, and in Psychological Medicine.

A Biophysics Section was established in Queensland in 1937 to manufacture radon and to carry out other work in connexion with the treatment of cancer.

The University of Adelaide established in 1925 an important centre for research in agricultural and allied subjects at Glen Osmond, three miles from the city. (See under Waite Agricultural Research Institute, p. 568) and Appendix III. B. 2.

There are various University and associated Research Institutes in Adelaide, Melbourne, and Sydney, where investigation is carried on into problems of Pathology, Bacteriology, Pharmacology, Radiotherapy, Cancer Research, Animal Nutrition, Entomology, etc.

DIPLOMAS. Numerous University Diplomas are now obtainable in various branches of study in the Universities of Australia. They may be classed under three categories : (a) those obtainable by graduates as supplementary qualifications in particular subjects after special courses of study. To this group belong the post-graduate medical diplomas already mentioned and also certain Diplomas in Education ; (b) Diplomas obtainable by non-graduates after shorter or less comprehensive courses of study than those required for a University degree covering the same subject. This group includes certain Diplomas in Commerce, Public Administration, Agriculture, Engineering, and Music ; (c) Diplomas in subjects, usually of limited range, for which no special University degree is available, *e.g.* Journalism, Pharmacy and Anthropology.

EVENING LECTURES. Full University courses of evening lectures in Arts, and in some cases in Science, Commerce and Law, subjects are provided by the Universities of Adelaide, Melbourne, Sydney, Queensland, and Western Australia to enable a degree in those Faculties to be obtained by persons whose occupations preclude their attendance at the University during the day. In Tasmania a number of lectures are given between 5 P.M. and 8 P.M. In Queensland the evening classes, generally of one hour duration, are held between 8 P.M. and 9 P.M.

EXTERNAL STUDENTS. Under the Regulations of the Universities of Melbourne, Queensland, and Western Australia attendance at lectures is not compulsory except in specified subjects. (These naturally include most scientific subjects which require laboratory facilities.) It is therefore possible, though not common, to obtain an Arts degree as a purely external student. In Western Australia correspondence classes for the benefit of external students are carried on by the University.

In the Universities of Adelaide, Sydney, and Tasmania exemption from some of the lectures of a course may be granted in special cases in which reasonable cause is shown.

In all the Universities there is provision for the recognition, for degree purposes, of various courses of instruction in affiliated institutions such as Technical Schools and Colleges.

UNIVERSITY EXTENSION LECTURES were instituted at Sydney Univ. in 1886 and at Melbourne in 1891. In 1913 Workers' Educational Associations were formed in all the States to give effect to a movement for bringing the Univs. into closer relationship with the masses of the people. The movement was fostered by State grants and grew rapidly. Each Univ. co-operates with the W.E.A. in the formation of a joint

committee, which appoints tutors and supervises the work with the help of a Univ. officer—the Director of Tutorial classes. A federal W.E.A. for Australia has its central office in Melbourne. The total number of students throughout Australia is about 6000, the greater number taking three-year courses. In addition to these courses a great many preparatory classes, study circles and summer schools are organized by the Assocn., numerous courses of public lectures are delivered, educational conferences promoted, and an extensive book service is carried on. A correspondence study department has been inaugurated in connexion with the W.E.A. activities in Queensland. In Western Australia provision has been made for extension lectures in Perth and suburbs and in country centres.

FREE PASSAGES TO EUROPE. The following free first-class passages are granted annually to Australian and New Zealand Univs. for graduates proceeding to Europe to continue their studies: Adelaide, 3; Melb., 4; Queensland, 3; Syd., 4; Tasm., 2; W. Aust., 3; N.Z., 4; available by any of the following Lines: Aberdeen, Blue Funnel, Orient, P. & O., and, for N.Z. graduates only, N.Z. Shipping and Shaw, Savill & Albion.

CONFERENCE

After a conference held at Sydney in May 1920 the Australian Univs. established a Standing Advisory Committee to deal with matters of common interest. The present headquarters of the Committee, now known as the Australian Vice-Chancellors' Committee, are Melbourne University. The Vice-Chancellor of Melbourne Univ. acts as Chairman of the Committee, the secretary being Mr. J. F. Foster, M.A., LL.M. The Committee now meets twice a year (usually in each February and August). At intervals of two or three years a general Universities Conference is also held. The Conference which took place in Adelaide in February 1937 was attended by a New Zealand delegation as well as by about seventy representatives of the Australian Universities. The following were amongst the topics discussed: Universities and Life; Problems of the English-Speaking University World; Residential Colleges, Student Advisers; Appointments Boards; Adult Education; the Commonwealth Government's grant of £30,000 p.a. to the Universities for research. The published Proceedings of the Conference were edited by the Librarian of the University of Adelaide.

STATISTICS of University teachers, students, and finance are published annually by the Commonwealth Bureau of Census and Statistics in the official Year-Book.

GENERAL INFORMATION

The University was established by Act of the Provincial Legislature in 1874 with endowments of £20,000 each from Sir W. W. Hughes and Sir Thomas Elder and a land grant of 50,000 acres (subsequently repurchased by Govt. for £40,000), as well as a site of 5 acres in the city. The original site was increased to 8 acres in 1920, to 14 acres in 1927, and in 1929 an addnl. 13 acres adjoining were vested in the Univ. The Govt. also provides an annual subsidy of 5 per cent on endowments; the subsidy is limited to £30,000. In 1911 the State Parliament sanctioned an addnl. annual grant, and took power to appoint five addnl. members of the Council, which, until then, consisted of 20 elected by the Senate. The grants have been increased by the State Parliament from time to time and now amount to £41,600, excluding a grant of £14,500 to the Waite Agric. Research Inst.

ENDOWMENTS. In addition to the private endowments mentioned above the Univ. has received the following benefactions: Sir T. Elder, £75,000 in 1897; the Hon. J. H. Angas, £10,000; Mr. R. Barr Smith and the members of his family, £20,000 for the Library, and Mr. T. E. Barr Smith, £34,000 for a Library building. Mr. Peter Waite bequeathed extensive estates, including a mansion and approximately £55,000; Mrs. Jane Marks, £30,000; Mrs. A. M. Simpson and Miss A. F. Keith Sheridan, £20,000; Mrs. Elizabeth Macmeikan, residuary estate at present valued at £16,099; Ronald Lindsay Johnson, city land valued at £12,000. The Hon. Sir Langdon Bonython has provided sums amounting to £52,329 for a Great Hall, and £20,000 for the Chair of Law. The family of the late John Darling has provided £25,000 for buildings; Mrs. G. A. Jury, £12,000 for a Chair of English Literature; Sir Joseph Symon, £9500 for the Lady Symon building, the women's portion of the University Union, and Sir George Murray £10,000 for the men's portion; Sir John Melrose, £10,000 for the Chemical Laboratory at the Waite Institute. Mrs. R. F. Mortlock and J. L. Mortlock, £25,000 for research in soil erosion and the regeneration of pastures; Miss M. T. Murray bequeathed the residue of her estate, £45,000 (estimate) for general purposes, and Edward Neale, £27,785 for medical research. In 1936 Miss Edith Bonython, Norman Darling and Mr. T. E. Barr Smith each contributed £5000 towards the building and equipping of an Institute of Medical Science. The total value of the endowments is £770,932 and the income in 1936 was £115,307.

LIBRARY. Over 107,000 volumes. **LABORATORIES,** Anat., Bio-Chem., Botany, Chem., Geol., Histol., Pathol., Physics, Physiol., Pharmacol., and Zool. The Univ. includes the *Elder Conservatorium of Music*, which has a staff of 18; it also controls the work of the Observatory and appoints representatives on the Board of Management of the Public Library, Museum, and Art Gallery.

SPECIAL RESEARCH DEPARTMENTS. (1) The Waite Agricultural Research Institute, established at Glen Osmond for the purpose of furthering the cause of education and research in Agriculture and allied subjects (*see* App. III. B. 2). (2) The Animal Nutrition Institute within the University Grounds (*see* App. III. B. 2). (3) Field laboratory at Koonamore for investigation of plant regeneration in arid areas. (4) The Sheridan Medical Research Foundation for the support of medical research. In 1922 Mrs. A. M. Simpson and Miss A. F. Keith Sheridan bequeathed property (value, £20,000) for the establishment of this foundation. (5) The Animal Products Research Foundation, which conducts investigations in regard to the problems of animal nutrition, *see* Staff List *supra*. (6) The Board of Anthropological Research engaged

in Anthropological investigations concerning the aboriginals of South Australia. (7) The Anti-Cancer Campaign Committee directs research into the cause and cure of cancer. (8) Institute of Medical Science at the Adelaide Hospital.

COLLECTIONS OF INTEREST TO SPECIALIST SCHOLARS. Collection of Australian endoparasites. Prof. J. B. Cleland's collection of the higher Australian fungi (Basidiomycetes), by far the largest of its kind, is available for study by mycologists and forest pathologists. Collection of representative specimens from all the Australian opal fields. Anthropological collection of Australian skeletons. Collections of marsupial material.

GENERAL INFORMATION

The Univ. was founded in 1853 by Act of the Victorian Legislature. In 1923 a new University Act was passed, increasing the annual endowment for general purposes to £45,000, providing an additional grant of £8500 for Univ. Extension, a Department of Commerce, and Research, and making constitutional changes. The Council is now composed of 32 members—10 elected by graduates; representatives of the teaching staff (5), of affiliated colleges (2), undergraduates (2); 8 appointed by the Govt. (3 being members of Parliament, the others representing business interests and technical schools); 3 *ex officio*; and 2 co-opted members. The legislative functions of the old Senate were transferred to a Standing Committee which, in addition, may submit any matter it pleases for the consideration of the Council. Recognition was accorded in the Act to the Professorial Board and the Faculties. The grounds, 104 acres, include four 10-acre College sites surrounding a recreation ground of 16 acres.

LIBRARY, 100,000 vols. MUSEUMS AND LABS., Anat., Biol., Engin., Geol., Path. (15,000 specimens), Vet. LABORATORIES, Agric., Bact. (investigations undertaken for Govt. Hospitals and Med. practrs.), Chem., Dent., Metall. and Mining (with 3 head stamp battery), Physics, Physiol. VET. RESEARCH INSTITUTE. WERRIBEE RESEARCH FARM. GENERAL INFORMATION

The Univ. was established by an Act of the local legislature in 1909. The entire management and control are in the hands of a Senate of 20 members, of whom 10 are appointed by the Government and 10 are elected by the Council (consisting of all members and past members of the Senate, masters, graduates of the Univ. of 3 yrs.' standing, persons appointed by the Govt. as representatives of Commercial, Industrial, Scientific, etc., Assocns., benefactors, etc.). The annual grant from Govt. was £10,000 until 1917, when it was raised to £15,000. In 1922 it was raised to £20,000. In 1923 a further £2000 was voted by the Government, and the amount of £22,000 p.a. was contributed until 1931. In that year, in keeping with general reductions throughout Australia, the Govt. grant was reduced to £19,240 p.a. In 1935 the State Govt. voted a further sum of £1000 p.a. towards the Faculty of Dentistry establd. in that year. On the 1st July, 1936, the Govt. restored reductions in endowment to the extent of £4000 p.a. and at the same time granted an additional amount of £5000 p.a. for the establishment of Faculties of Medicine and Veterinary Science. Endowment at the rate of £1013 p.a. was granted as from Jan. 1, 1937, for use in connexion with the newly-established courses in Architecture, Education and Surveying. The total amount of endowment now being received from the State Govt. is therefore £30,735 p.a. Under the will of the late Sir Samuel McCaughey the Univ. received an annual income of about £11,000 until the end of 1931. Owing to the lower rates of interest being earned by investments in Govt. loans, as a result of the conversion arranged in 1931 and reduction of other interest, the income from this source has fallen to approximately £8500 p.a.

Up to 1931 the grounds and buildings facing the Brisbane River and adjoining the Botanical Gardens included, in addition to the main building and recreation grounds, 6 floors of three blocks of the Central Technical College buildings. The remainder of these blocks had to be taken over by the University in 1932, in order to accommodate the increased number of students.

The present site belongs to the Central Technical Coll. and is used only temporarily for Univ. purposes. The permanent site of the Univ. consisting of 223 acres, is situated on the Brisbane River in the suburb of St. Lucia. It has a river frontage on three sides, and was the gift of Dr. and Miss Mayne, Brisbane. The State Govt. announced in 1935 its intention to provide the funds necessary for the erection of buildings on this site.

LIBRARY, 42,500 vols. LABORATORIES: Anat., Agric., Biol., Biophysics, Chem., Applied Chem., Engin., Geol., Metallurgy and Assaying, Physics, Physiol., Psychol.

HIGHER DEGREES. Open to Bachelors of 2 yrs.' standing: M.A., M.Com., LL.M., M.Sc., M.App.Sc., M.S.; of 3 yrs.' standing: M.Agr.Sc., M.E., M.D.,

D.V.Sc. ; of 4 yrs.' standing : D.D.Sc. ; of 5 yrs.' standing : D.Agr.Sc. ; of 7 yrs.' standing ; D.Econ., D.E., Litt.D. Open to Masters of 5 yrs.' standing : LL.D., D.Sc. These higher degrees are obtained by examination and/or submission of a thesis, but in some cases certain specified outside experience is required in addition.

OTHER COURSES. Diplomas : Mech. and Elect. Engin., 4 yrs. (may be followed in any approved Coll. or Instn.) ; Architecture, 4 yrs. ; Journalism, 2 yrs. for persons with 3 yrs.' practical experience ; Education, 1 yr. post-graduate. Certificates : Education, 4 yrs. ; Accountancy, 2 yrs. ; Architecture, 2 yrs.

EVENING LECTURES AND EXTERNAL STUDENTS. In the courses which are available to them, evening and external students are permitted to spread their studies over a longer period than that prescribed for day students, and pay a proportionate amount of fees each year. By completing 5 yrs.' evening work at the Univ. or at approved institutions, exemption from the first 2 yrs. of the B.E. course may be obtained.

Persons who, having matriculated, are unable to attend lectures at or in connexion with the Univ., may pursue by correspondence certain courses in the Faculties of Arts, Commerce and Law, under the guidance of the Director of External Studies. They may thereby, provided they pass the usual degree examns. (which may be held at local centres), qualify for degrees.

ADULT MATRICULATION. Candidates who have attained the age of 25 yrs. may be admitted to matricn. in all the Faculties upon passing a special examn.

FEES. Matricn., £1 : 1s. ; admission *ad eundem statum*, £1 : 1s. ; Lecture Fees for single subject per Term, £2 : 2s. ; Composition Fees for complete Degree Course in the Facs. of Arts and Comm., 12 to 18 gns. p.a. ; Law, £22 : 10s. p.a. ; Science (Pure), 20 gns. p.a. ; Science (Applied), Engineering, and Veterinary Science, Dentistry and Medicine, £40 p.a. ; General Purposes Fee, 2 gns. to 4 gns. p.a. ; Examn. Fees, 1 gn. to 2 gns. ; Graduation Fees—Bachelor, 3 gns. to 10 gns. ; Master, 5 gns. ; Doctor, 10 to 20 gns.

SCHOLARSHIPS, ETC., FOR GRADUATES. 2 gold medals offered by Govt. for distinction at graduation ; £100 p.a. for 2 yrs. for Original Research ; £200 for 1 yr. for Engin. work ; £250 p.a. for 2 yrs. for study outside Australasia ; £500 p.a. for 3 yrs. (W. and E. Hall Foundation), of which 2 to be spent abroad in Engin. Research ; £450 p.a. for 2 yrs. in Econ. Biol. With the exception of the two last mentioned, the award of these scholarships has been discontinued, pending an improvement in the economic position.

RESIDENCE. Undergraduates are required to reside with their parents or approved friends or a tutor or in a recognized Residential Coll. or other instn. approved by the Senate. Fees in any of the Colleges, including residence, commons, and tuition, amount to approx. 60 gs. a year.

PUBLIC EXAMINATIONS are held by the Univ. annually in Nov. and Dec. : Junior (divided into 6 sections, viz.—General, Art, Commercial, Home Sc., Agric. and Industrial) and Senior. For matricn. the corresponding public examns. of the other Australian Univs. are treated as equivalent to these.

MUSIC EXAMINATIONS. Under a joint scheme, controlled by the Australian Music Examns. Board, which is representative of the Universities of Queensland, Melbourne, Tasmania, Adelaide, and Western Australia, and the State Conservatorium of Music of New South Wales, examns. in Music and Art of Speech are held throughout the Commonwealth twice a year, in May and September.

PUBLICATIONS. *Calendar* (Jan.), 2s. (postage 6d. extra); *Manual of Pub. Examns.*, 2s. (postage 3d. extra); *Music Manual*, free, postage 3d.

THE YEARS 1936, 1937

BENEFACTIONS. (1937) Post-Graduate Committee of the British Medical Assn. (Queensland Branch), for the purchase of a micro-projector, £100; the late Mrs. E. J. Youngman of Brisbane, for research in connexion with tropical diseases, £100; Lord Nuffield (England), for use in connexion with the Faculty of Medicine, £3250; the late William Robertson of Brisbane, to further the objects of the Chair of Agriculture, £20,000.

NEW BUILDINGS. Owing to the decision to proceed with the erection at an early date of the permanent university buildings at St. Lucia, and because of the State Commercial High School's urgent need of additional accommodation, the Univ. has been allotted and has moved into only a portion of the new two-storey building referred to under the heading of "New buildings" in the 1937 *Yearbook*. New Veterinary Science School building at Yeerongpilly completed, Dec. 1937; new Medical School building at Herston will be ready for occupation about the end of 1938; building of new School of Dentistry and Dental Hospital in Turbot Street commenced, Sept. 1937.

NEW DEPARTMENTS AND POSTS. As part of development of new Facs. of Law, Med. and Vet. Sci. new posts were created: in Law, 3 pt.-time Lectureships, 1 Tutorship; in Med., 3 pt.-time Lectureships—Med., Surg., Psychiatry; in Vet. Sci., Lectureship in Zootechny and Preventive Med. In Fac. of Commerce, pt.-time Lectureship in Statistics and Statistical Method. In order to provide degree course in Surveying and certif. and diploma courses in Architecture and Education, the following: Lectureship in Education and Experimental Psychol., in Architecture, Asst. Lectureship in Surveying. In addition, Lectureship in Indust. Chem., Asst. Lectureship in French, Tutorship in Philos. A Lecturer in Biophysics was apptd. to carry out X-ray and other similar work under joint scheme between Univ., Brisbane and S. Coast Hospitals Bd. and Queensland Cancer Trust.

EXTRA-MURAL WORK. An Institute of Modern Languages has been established to provide for the study, under expert guidance, of foreign languages up to the Senior Public Examination, *i.e.* matriculation, standard. Classes were held during 1937 in Dutch, French, German, Hebrew, Italian and Russian.

OTHER ACTIVITIES. (a) *Teaching:* During 1937 special post-graduate courses in Anatomy and Physiology were arranged by the Fac. of Medicine for candidates preparing for the examns. for higher degrees in Surgery, and for the F.R.C.S. By arrangement with the College of Pharmacy (a separate institution) a special course in Physiology was conducted for pharmacists. (b) *Research:* Under a 5-yr. scheme sponsored and financed by the Commonwealth Govt., through the Commonwealth Committee for Scientific and Industrial Research, the Australian Univs. will each be allotted a certain sum each year for the next 5 yrs., commencing in 1937, for the purpose of carrying out approved research work. The Univ. of Queensland's share of the grant for 1937 is £4200. The following researches are in progress: native stocks for cultivated plants; the taxonomy, biology, ecology, and distribution of Australian Trypaneidæ (fruit flies); the collection and study of fossil insects from Mount Crosby, studies in vacuum evaporation; chemical investigations concerning fruit and wool; a survey of Queensland plant products; a survey of the productive capacity of Queensland; the geological structure of the Queensland

portion of the Great Artesian Basin ; study of soils in south-eastern Queensland ; the geological structure of the far west of Queensland ; seismic studies ; movements of air masses as climate controls in Queensland ; methods of glue testing ; hydraulic flow of slurries ; and methods of measurement in surveying. In addition three research scholarships have been granted—one in palæontology and two in industrial chemistry.

VISITING LECTURER. In June, 1937, the Macrossan Lectures for 1936, which were unavoidably postponed, were delivered by Mr. Justice Evatt, of the High Court of Australia—subject, "The Overthrow of Bligh."

GENERAL INFORMATION

Founded by Act of the N.S.W. Legislature in 1850, the Univ. was granted a Royal Charter in 1858. Its development has been largely due to private benefactions: notably those of J. H. Challis—£250,000—in 1880; T. Fisher—£30,000 for Library—in 1885; P. N. Russell—£100,000 for School of Engineering, etc.—in 1896 and 1904; W. O. Watt, £78,354, 1925–1928; and G. H. Bosch, £249,000, 1927–1928. Under the will of Sir S. McCaughey it receives an annual income which amounted in 1930 to £23,020. In 1912 the Statutory endowment was raised from £10,000 to £20,000, with provision for further automatic increases, and at the same time the constitution of the governing body, called the Senate, was altered so as to include 6 noninees of the Govr. and Parliament (one-fourth of the whole number). In 1917–18 the Statutory endowment was further increased to £32,000, including £2000 for the new School of Archt. In 1919 the State provided £50,000 a year for 6 years for additional buildings. The Faculties were, in that year, increased from 4 to 10. The grounds, which include the sites of the Colleges grouped round an oval, cover 140 acres.

Provision was made by Act of Parliament soon after the foundation of the Univ. for endowing such Colleges as might be established within it, to the extent of £20,000 in aid of building and £500 p.a. towards the Principal's salary.

The FISHER LIBRARY, endowment £30,000, 225,000 vols., receives about 1800 serial publications. MUSEUMS: Nicholson collection of Egypt., Greek, Roman and Medieval Antiq. (4000 specimens); Macleay Nat. Hist.; Anat., Geol., and Zool.; Obstetric, Materia Medica. LABORATORIES: Schools of Med., Engin. and Archt. (atelier), Bot., Chem. (including Metall. and Research), Geol. (with rock analysis Research), Phys., Zool. There is a MARINE BIOLOGICAL STATION at the entrance to Port Jackson with a small auxiliary yacht for biological and oceanographical research under Prof. Dakin. The ROYAL PRINCE ALFRED HOSPL., erected on the Univ. grounds as a general hospl. and school, has 518 beds. Gladesville mental hospl. recognized by Camb. for clinical work for Dip. Psych. Med.

FACULTIES. (1) Arts, (2) Law, (3) Medicine, (4) Science, (5) Engineering, (6) Dentistry, (7) Vet. Science, (8) Agriculture, (9) Economics, (10) Architecture.

DEANS—(1) Prof. H. T. Lovell (Psychol.), (2) Prof. The Hon. Sir John B. Peden (Law), (3) Prof. H. R. Dew (Surg.), (4) Prof. W. J. Dakin (Zool.), (5) Prof. Sir H. E. Barracough (Mech. COMMONWEALTH SCHOOL OF PUBLIC HEALTH AND TROPICAL MEDICINE: The School acts as the teaching and examn. centre for the Univ.'s Diplomas of Public Health, Trop. Medicine, and Trop. Hygiene. In addition a course in Preventive Med. is given, and lectures in School Hygiene for the Diploma in Education. Short courses are also given in Architectural Hygiene, Social Hygiene, and Trop. Hygiene. The School is financed by the Commonwealth Health Dept., but all teaching is directly controlled by the Univ. and the Fac

of Med., together with all matters concerning diplomas, syllabuses, fees, examns., etc. An Advisory Council, under the Chairmanship of the Director-General of Public Health, Commonwealth of Australia, deals with all matters of policy. The staff consists of a Director (also Prof. of Preventive Med.), 4 Med. Officers (incl. 2 Deputy Directors), and a number of Visiting Lectrs.; 1 Entomologist, 4 Tech. Assts., and 3 Clerks. The D.P.H. requirements are those of the General Medical Council of Gt. Britain, the D.T.M. corresponds to similar courses at the London School of Hygiene and the Liverpool School of Tropical Medicine. The main divisions of the School are those of Chem. and Physics, Bacteriol. and Pathol., Parasitol., Entomol., Indust. Hygiene. An excellent Library, especially in Trop. Med. and Hygiene, is available. Adequate accommodation is available for research students.

DEGREE COURSES. 3 yrs.—B.A., B.Sc.; 4 yrs.—Honours B.Sc., B.Sc. in Agric., B.Ec., LL.B., B.D.S., B.E. (in Civil Engineering, Mechanical and Electrical Engineering, Mining and Metallurgy, or Engineering Technology); 5 yrs.—B.V.Sc., B.Arch.; 6 yrs.—M.B., B.S.; 2 yrs.' advanced study or research (after full 3 yrs.' course at another Univ.)—B.A. or B.Sc. The LL.B. qualifies conditionally for admission to the bar. Law students usually take the B.A. first, selecting Law subjects in 3rd yr., and complete combined course in 6 yrs., thereby gaining concessions in regard to periods of studentship and service as articulated clerk. **HIGHER DEGREES.** Obtainable by bachelors of 2 yrs.' standing—M.A., M.Ec., LL.D., M.D., M.S., M.Sc., M.D.S., M.Sc.Agr.; 3 yrs.—D.Sc., M.E.; 5 yrs.—D.Sc. Eng.; D.Dent.Sc.; D.V.Sc., D.Sc.Agr. **DIPLOMAS.** Educn. (for graduates in Arts or Sc.), 1 yr.'s course; Com., 3 yrs.; D.P.H.; D.T.M.; D.T.H.; Psychological Medicine; Radiology; Anthropology; Public Administration; Pharmaceutical Science.

RECOGNITION OF STUDIES ELSEWHERE. A considerable portion (in Med. 3 yrs.) of the curriculum for a Degree must be taken in Sydney. Holders of the Honours Diploma of the *Hawkesbury Agricultural College* or any college of similar standing who have passed the Intermediate Certificate Examn. in matriculation subjects may be admitted as matriculated students in Vet. Sc. or Agriculture.

FEES. Matricn., £3; Degree in Arts, Econ., Sci., Agric., or Vet. Sci., £3; M.D. and M.S., £20; other Degrees, £10; Degree Courses in Arts, 3 yrs., £75; Econ., 4 yrs., £96; Law, £90 (Arts subjects additional); Med., £234 (excluding Hospl. Attendance, 21 gs., and practical Midwifery, 5 gs.); Dent., 4 yrs., £150 (excluding Dent. Hospl. £15 p.a.); Science, 3 yrs., £99; Engin., 4 yrs., £154 (Mining and Metall., £168); Agric., 4 yrs., £118; 10s.; Vet. Sci., 5 yrs., £145; Archit., 5 yrs., £182.

SCHOLARSHIPS, ETC., FOR GRADUATES. Junior Demrs. are appointed annually in each Scientific Dept. with the obligation to carry out research under the direction of the Prof.; 6 post-grad. Scholarships of from £150 to £200 each are awarded annually for scientific study and research in the Univ.; 4 Macleay Fellowships of £400 p.a. each are tenable by B.Sc.'s; 4 others of £300 p.a., and 2 Schol'ps. of £250 p.a., tenable for 2 yrs., are awarded annually for further study and research at Syd. or abroad.

RESIDENCE. The four denominational Colls. (v. *supra*) provide accommodation for about 260 students; the Women's Coll. for about 70, and Sancta Sophia College for 50 R.C. women students.

UNIVERSITY EXTENSION LECTURES are given in courses of from 3 upwards in Sydney and numerous local centres. *Tutorial Classes* are provided, as prescribed by the Act of 1912, under the superintendence of a Joint Committee

of the Univ. and Workers' Educl. Asscn. of N.S.W. In 1936 the Govt. grant for this purpose was £4126; 57 classes were at work, including 1705 effective students.

PUBLICATIONS. *Calendar* pubd. in August, 4s., with annual report and list of publicns. of Univ. Staff; Reprints of Scientific Papers by members of the Staff; *Hermes*, an undergrads.' mag., 5s. p.a. (3 issues); The *Union Recorder* (weekly during Term).

THE YEARS 1936, 1937

BENEFACTIONS. The Carnegie Corporation of New York, \$25,000 for research work in the scientific depts. The Commonwealth Government of Australia, a grant of £7500 p.a. for 5 years to enable the Univ. to appoint research scholars and fellows.

NEW DEVELOPMENTS. A Board of Studies in Divinity established and By-laws providing for award of degrees of B.D. and D.D. approved.

VISITS OF MEMBERS OF STAFF TO OTHER UNIVERSITIES. The following were granted leave of absence during 1937 to visit other Univs. in Gt. Britain and the U.S.A.: Profs. E. R. Holme (English Lang.), J. C. Earl (Organic Chem.), W. A. Miller (Civil Engin.).

NEW EDUCATION CONFERENCE. During August 1937, the New Education Fellowship Conference was held at the Univ. The following were admitted to the degree of M.A. *ad eundem gradum*: Pierre Bovet, Director, J. J. Rousseau Institute for Educational Sciences, Geneva; Herbert Russell Hamley, Prof., Institute of Education, Univ. of London; Ernest Gideon Malherbe, Director, National Bureau of Education, Pretoria, S. Africa; Cyril Norwood, President, St. John's Coll., Univ. of Oxford.

DENTAL CONGRESS. The Ninth Congress of the Australian Dental Assn. opened at the Univ. on Aug. 16, 1937 by H.E. the Governor, Lord Wakehurst.

RETIREMENTS AND RESIGNATIONS. H. V. D. Baret (Medicine); W. J. Bradley (Commerce); I. Clunies Ross (Veterinary Science); W. Moppett (Cancer Research); Professor T. G. B. Osborn (Botany); E. D. Roper (Law); Professor W. J. Woodhouse (Greek).

STUDENTS (1937). Matriculated, 2951; post-graduate, 55; non-matriculated, 402; less duplications, 30.

DEGREES. B.A., 152; M.A., 13; B.Ec., 35; LL.B., 41; B.Sc., 76; M.Sc., 6; D.Sc., 2; B.E., 32; M.E., 1; B.Arch., 7; B.Sc.Agr., 8; M.Sc.Agr., 2; D.Sc.Agr., 1; B.V.Sc., 30; D.V.Sc., 1; M.B., 84; B.S., 75; M.D., 4; M.S., 2; Ch.M., 6; B.D.S., 17; D.D.Sc., 2.

CONSTITUENT COLLEGES

UNIVERSITY OF OTAGO, DUNEDIN; CANTERBURY COLLEGE, CHRISTCHURCH;
AUCKLAND UNIVERSITY COLLEGE; VICTORIA UNIV. COLLEGE, WELLINGTON.

ASSOCIATED COLLEGES

CANTERBURY AGRICULTURAL COLLEGE, LINCOLN; MASSEY AGRICULTURAL COLLEGE, PALMERSTON NORTH.

This University, an examining body, was founded in 1870. Its constitution, defined by the N.Z. Univ. Act., 1908 as amended in 1912, 1914, 1915, and 1926, vests the Government of the Univ. in a Senate of 23 members, assisted, as regards schemes of study, etc., by an Academic Board representing the College Professorial Boards and a University Entrance Board, of which the Vice-Chancellor is the President, and on which there are representatives of the Academic Board, the Department of Education, and the Secondary Schools. The Senate consists of 4 members nominated by the Governor, 8 appointed by the College Governing Bodies, 5 by General Court of Convocation, 3 by the Academic Board, 1 by the Senate itself, and the Director of Education. The Chancellor, Pro-Chancellor, and Vice-Chancellor are elected by the Senate; the first (or, in his absence, the second) presides at meetings of the Senate. Under the New Zealand University Amendment Acts of 1926 and 1928 and the Massey Agricultural College Act, 1927, Canterbury Agricultural College, Lincoln, and Massey Agricultural College, Palmerston North, were given representation on the Academic Board, and the expression "Professors of the University" includes Professors on the staffs of the two Agricultural Colleges as well as Professors on the staffs of the four Constituent Colleges. The governing bodies cannot make any appointment to a chair without the prior approval of the Senate. There are no University buildings: the offices are at Wellington.

MATRICULATION. Candidates must pass in 5 subjects, including English, Maths., and one language. A candidate who does not pass in Latin or

Greek must pass in Physics or Chemistry (or Home Science), or Botany or Agriculture. Not more than two of these sciences can be taken; in the syllabus prominence is given to their practical aspect. The examn. is held in Dec. Special provision is made for exemption of persons not under 21 years of age and students from other Univs.

TERMS. A student presenting himself for a Univ. examn. for which the keeping of terms is required must have passed the College examn. in the subjects he offers at the corresponding stage. The terms are: Autumn (March-May), Winter (June-Aug.), and Spring (Sept.-Oct. or Nov.). The subjects in which terms must be kept are: all those of the B.A., B.Sc., B.Sc. in H.Sc., M.B., Ch.B., B.D.S., B.Agr.Sc., B.For.Sc., B.Arch., and LL.B. degree courses; of the 1st and 2nd Groups of the B.Com. course; of the Engineering Intermediate examn.

Any student who is on the books of a constituent College, and who has passed its annual examn., is deemed to have kept the terms of the year if he has attended the prescribed courses, *or*, being resident more than 10 miles from College or engaged in acquiring a profession or trade or earning a livelihood, has been thereby prevented from attending, *or* objects on grounds of religious scruples to such attendance.

DEGREE COURSES: 3 yrs.—B.A., B.Sc., B.Mus., B.Agr.Sc. (including practical work on farm), B.For.Sc.; 4 yrs.—B.Sc. in Home Science, B.Arch. (including 18 mos.' practical work), LL.B., B.E. (Mech., Elec., Civ., Mining, Metall., including from 9 to 18 mos. in shops, mines, or surveying), B.Com., B.Vet.Sc.; 4½ yrs.—B.D.S.; 6 yrs.—M.B., Ch.B., B.Med.Sc.

HIGHER DEGREES. M.A., M.Sc., LL.M., M.Com., M.S.; Litt.D., D.Sc., LL.D., M.D., D.D.S., D.Mus. For the Mastership examn. and thesis are required. The Doctorate may be taken by a Bachelor of 5 yrs.' (in Med. 3 yrs.) standing who offers suitable original work and, if in Arts, Sc., or Law, has already obtained the Mastership or equivalent degree, or, if in Med. or Music, passes a prescribed examn.

DIPLOMAS. Public Health. (9 mos.' course); Journalism, Education, Social Science, Banking, Insurance, Fine Arts. *Certificate* of Proficiency in Dental Surgery, Shipping Officers' *Certificate*.

PROFESSIONAL AND TECHNICAL SCHOOLS. *Law and Commerce* at all the constituent Colls.; *Medical and Dental and Home Science* at Otago; *Engineering* (Civil, Electrical, and Mech.) at Canterbury and Auckland; *Mining and Metallurgical Engineering* at Otago; *Music* at Auckland, Canterbury, and Otago; *Agric.* at Lincoln and at Palmerston N. (Massey College); *Architecture* at Otago and Auckland; *Fine Arts* at Canterbury.

"AD EUNDEM" RECOGNITION. Courses completed, or partially completed, at any British chartered or other approved Univ. are accepted *ad eundem*.

SCHOLARSHIPS FOR GRADUATES. In almost every subject of the B.A. or B.Sc. syllabus and in Law, Medicine, Dentistry, and Engineering—£70; Travelling Schol'ps. in Arts, Science, French, Law, Architecture—£200 (2 yrs.) each, in Engin. and Med.—£150 each; Macmillan Brown Research Schol'p. in Agr. (biennial)—£200 (2 yrs. possible). Four National Research Scholarships (£100) are offered annually to graduates of the N.Z. University or other approved persons; also Shirlcliffe Fellowship for Research, £250 p.a. for 2 yrs.; Shirlcliffe Research Scholarship, £100 (1 yr.); Shirlcliffe Graduate Bursary, £75 (1 yr.). 2 Carnegie Fellowships in Education.

Four first-class return passages to England are granted annually to graduates proceeding to Europe to continue their studies.

ADULT EDUCATION. Classes are conducted under the control of the Council of each College through an Executive Committee on which the Council and the W.E.A. are represented. The Government granted £4569, divided equally among the Constituent Colleges for general or specific purposes.

PUBLICATIONS. *Calendar* (Oct.), 3s. (incl. postage); *Minutes of Prods. of Senate*, free; *Examn. Papers*, 6d. or 1s. a set.

THE YEAR 1936

No annual grant has been paid by the Govt. for the last seven years.

CHANGES IN REGULATIONS. Revision of law course.

GENERAL INFORMATION

Founded by Ordinance of the Provincial Council in 1869 with power to grant degrees in Art, Medicine, and Law, the Univ. was opened in 1871. The Law School originated in 1873, the Medical in 1874, the School of Mines in 1878, the Dental School in 1907, the Accountancy Lectures and the Home Science Dept. in 1911. Between 1869 and 1877 the Univ. received grants of land exceeding 220,000 acres. It is entirely unconnected with any religious denomination except that the right of nomination to certain Chairs endowed by the Presbyterian Church rests with the Board of Church Property, subject to the approval of the Synod. It receives annual Government grants of approximately £20,000.

By an agreement effected in 1874 the Univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of N.Z.

GENERAL INFORMATION

Canterbury Agricultural College, Lincoln, was founded by an ordinance of the former Provincial Government in 1870 and subsequently established by the Canterbury College and Canterbury Agricultural College Act of 1896, which placed the School of Agriculture under an entirely separate management. The new Board of Governors came into office on Jan. 1, 1897. In 1913 a university degree in agriculture was granted and the College was recognized as a School of Agriculture by the University of New Zealand. A series of amending Acts were passed between 1922 and 1927 and by the legislation passed in the latter year the College became a Constituent College of the University.

Farm of 2000 acres. Diploma course, 2 yrs., fees, 50 gs. p.a.; degree course, 4 yrs., fees, 55 gs. p.a.—both inclusive of board and tuition. LABORATORIES: Biology, Chemistry. The Wheat Research Institute (v. App. III. B. 3.). LIBRARY.

GENERAL INFORMATION

The College was establd. under the New Zealand Agricultural College Act in Sept. 1926 as the result of an agreement between Victoria Univ. Coll., Wellington, and Auckland Univ. Coll. to amalgamate their respective Schools of Agric. and to establish the new Coll. in the Palmerston North-Marton area. On July 29, 1927, an amending statute, the Massey Agricultural College Act, was passed, and the Coll. finally establd. under its present title and constitution. It is therefore "a College in connexion with the Univ. of New Zealand," and it is "deemed part of the Victoria Univ. Coll. and of the Auckland Univ. Coll."

The College Buildings consist of the Main Building, containing lecture rooms, teaching and research laboratories, library, assembly hall, studies, common rooms, etc.; the Administration Building; the Refectory and the Students' Residence.

The Coll. includes a modern dairy factory, with separate rooms for all dairy processes, etc., and equipped with small units of the latest designs of dairy factory machinery. The farm is c. 960 acres in extent, with a wide range of soil types and is devoted to sheep and dairy farming. There is also a nursery establishment for plant breeding and selection, and another devoted to research on *Phormium tenax* (N.Z. hemp).

DEGREE COURSES, etc. Courses are given for the B.Agr.Sc. and M.Agr.Sc., of the Univ. of N.Z. College Diploma courses in Dairy Farming, Sheep Farming, Poultry Farming, and Dairy Manufactures, the latter carrying the title of Associate of the Coll. There are also courses in Herd Testing and Wool Classing, and short courses in Sheep Farming and Dairy Farming.

RESEARCH. The College is the major centre for research in wool problems and the improvement of *Phormium tenax* (N.Z. hemp). The Dairy Research Institute (N.Z.) is located at and the Grasslands Division of the Plant Research Bureau (Dept. of Scientific and Industrial Research) is adjacent to, the College. (v. App. III. B. 3).

FEES. B.Agr.Sc., £88 (4 yrs.); Research students, £10 : 10s. p.a.; Farming Courses (including board), £65 p.a.; Dairy Manufactures, £10 per term; Herd Testing, £3 : 3s. per course; Wool Classing, £10 per course; short courses in Sheep Farming and Dairy Farming, £2 : 10s.

Boarding Fees for other than Farming Course students, £10 : 14s. per term.

SCHOLARSHIPS. Various Govt. and Univ. Scholps. are open to students.

THE YEAR 1937

BENEFACTIONS. From estate of the late Mrs. M. N. Moginie, about £3000 for provision of accommodation for students and/or facilities for research. From Carnegie Corporation of New York, \$500, being first of four annual grants for purchase of books for library.

STAFF ABSENT ABROAD FOR RESEARCH. C. P. McMeekan, B.Agr.Sc., Asst. Lectr. in Dairy Farming, continued study at the School of Agriculture, Cambridge.

RESIGNATION. D. O. Williams (Agric. Econ.), on appointment as a Director of the Bank of New Zealand.

STUDENTS. Full-time : 66, including 1 graduate. Part-time : 117.

HISTORICAL SUMMARY (originally contributed by Professor Ritchie of Cape Town and revised by Sir Carruthers Beattie, Vice-Chancellor of the University of Cape Town). The history of higher education in S. Africa covers but a comparatively short period of time. It may be said to have had its beginnings when, in 1829, the S. African College (now incorporated in the Univ. of Cape Town) was founded, as a proprietary institution, by a number of progressive citizens of Cape Town, assisted by subscribers from various parts of the country. This institution was, at its inception and for a long time afterwards, not much more than a higher-class school, but it had within it the possibilities of growth and started with very high aims. It had a very chequered history for some time, and was on more than one occasion in danger of extinction, but it gradually acquired a stronger position on ceasing to be a proprietary institution and receiving support from the public funds. For 20 years it remained the only educational establishment in S. Africa which aspired to anything beyond the range of elementary education, but in 1849 a rival College (the Diocesan) was started under the ægis of the Episcopalian Church at Rondebosch, a suburb of Cape Town. A few years later, in 1855, a somewhat similar College, St. Andrew's, was founded in Grahamstown, in the eastern part of the Cape Colony. Under the Governorship of Sir George Grey there was founded, in 1855, the Grey College at Bloemfontein in the Orange Free State, the first attempt at higher education beyond the borders of the then Cape Colony. None of these Colleges was well equipped, and most of the work done by them was school work rather than Univ. work, but they gradually acquired a growing influence and formed centres at which development was only a question of time. A very strong impetus in the direction of higher education was given in 1858 by the establishment of a Board of Examiners in Literature and Science. This Board had in view in the first instance the testing by means of examination of the competency of candidates for the Civil Service and public offices, but it soon extended its scope and started examinations on more distinctively Univ. lines, corresponding roughly to Matricn., B.A., and M.A. The competition between the existing Colleges caused by these examns. had undoubtedly a strong influence on the growth of these Colleges and the greater attention paid to subjects beyond the mere school range. This Board continued to exist until 1873, when a successful attempt was made to institute a Univ. for S. Africa. The Univ. of the Cape of Good

Hope, which was then founded, continued to exist until the beginning of 1918, when it was transformed into the Univ. of S. Africa, with its administrative seat at Pretoria. This Univ. was modelled on the lines of the London Univ., as then existing, as a purely examining body. It was governed by a Council, half of whose members were nominated by the Government, half elected by the members of Convocation. It had no constitutional connexion with the Colleges which prepared students for its examns., but the members of the Council who were elected by Convocation tended gradually to be almost entirely members of the teaching staffs of the various Colleges. In this indirect fashion the Colleges had a considerable influence on the development of the Univ. and the extension of the range and scope of its examns. Almost at the same time as the founding of the Univ. of the Cape of Good Hope there was passed by the Cape Parliament a Higher Education Act, which gave definite salary grants to the professors at recognized Colleges. This Act, together with the new impulse given to higher education by the new Univ., had a very marked influence on the development of the Colleges, which now began to increase in staff and numbers of students. The new College of Stellenbosch (afterwards the Victoria College and now the Univ. of Stellenbosch) was founded in 1874, and grew very rapidly, until it was a formidable rival of the older College at Cape Town. Other Colleges were founded also at Somerset East (Gill College) and Port Elizabeth (Grey Institute), but these had only a very short term of life. At a considerably later period, as S. Africa grew in population and wealth, other Colleges sprang into existence. A College for women (the Huguenot College) was founded at Wellington in 1898. In 1904 St. Andrew's College at Grahamstown separated its College department from its school, and the former became incorporated as the Rhodes College. In the same year a School of Mines which had been founded in 1896 at Kimberley was transferred to Johannesburg, and afterwards developed into a College for higher education generally, which is now the University of the Witwatersrand. In 1908 a Univ. College was founded at Pretoria, and in 1909 a similar College was instituted at Pietermaritzburg, Natal.

In 1904 there began a movement for the institution of a teaching, in place of the examining, Univ., and the controversy regarding the rival claims of a federal and a single-college Univ. continued for a number of years. An Inter-Colonial Conference on Univ. Education in 1908 reported in favour of a federal scheme, but nothing came of its decision. A new factor in favour of a teaching Univ. was introduced by the munificent gifts for this purpose of Mr. Alfred Beit, his brother, Mr. (now Sir) Otto Beit, and Sir Julius Wernher. In consequence of these gifts, various attempts were made by the Government to solve the knotty question of reconciling claims of the existing Colleges with the institution of one or more teaching Univs. A parliamentary committee deliberated on the subject in 1913, and a Commission was appointed in the same year and, after taking evidence, issued its report in 1914. This Commission proposed two Univs., one consisting of a federation of the S. African College and the Victoria College, the other of a federation of the remaining Colleges (Rhodes College being allowed

the choice of joining whichever federation it pleased), but the proposal led to no practical result, chiefly owing to the objection on the part of the two oldest and strongest Colleges, at Cape Town and Stellenbosch, to the loss of their independence. The problem was at length solved in 1916 by giving charters to both the S. African College and the Victoria College, and by the reincorporation of the old Univ. of the Cape of Good Hope as a federal Univ. embracing all the other Colleges under the name of the Univ. of S. Africa.

The three Acts passed by the Union of S. Africa in 1916 were to the following effect :

I. The Univ. of the Cape of Good Hope became the Univ. of South Africa, with its administrative seat at Pretoria.

II. The South African College became the Univ. of Cape Town, with which is incorporated the S. African College. Its seat is upon the Groote Schuur estate on the eastern slopes of Table Mountain.

III. The Victoria College, Stellenbosch, became the Univ. of Stellenbosch, with its seat in the division of Stellenbosch in the Province of the Cape of Good Hope.

The Faculties of the Univ. of Stellenbosch were specified originally as—Arts, Science, Education, Agric., Law, Theology, Commerce ; of the Univ. of Cape Town as—Arts, Science, Medicine, Law, Engineering, Education, to which have been added subsequently Commerce, Music, Fine Art (and Architecture). Of the Univ. of South Africa the Faculties are not defined, but permission is given to each of the constituent Colleges to establish such faculties or depts. as it may deem fit ; provided that it shall not, without the consent of the Govr.-General, apply towards the maintenance of a faculty or dept. not established at the commencement of this Act any money granted to the College from public funds. The three University Acts referred to above also made provision for the establishment of a Joint Matriculation Board and a Joint Committee for Professional Examinations, the functions of which are indicated below.

In 1922 the teaching institution at Potchefstroom was admitted as a constituent College of the University of South Africa under the name of the Potchefstroom University College.

In 1921 Parliament passed a further Act, which has the effect of incorporating, with effect from March 1, 1922, as " The University of the Witwatersrand, Johannesburg," the University College, Johannesburg (formerly the S. African School of Mines and Technology, and one of the constituent Colleges of the University of S. Africa). Its Faculties are defined as Arts, Science, Medicine, Law, Engineering, Commerce, and Dentistry.

In 1923 the South African Native College at Fort Hare, established primarily for the benefit of the native races of South Africa, was incorporated under the Higher Education Act of 1923.

In 1930 Parliament passed an Act incorporating the Transvaal University College, Pretoria, as " The University of Pretoria " as from 10th October 1930. Its faculties are specified as Arts, Science, Agriculture, Law, Theology, Commerce and Public Administration, Veterinary Science, Education, Music.

Each of the five Univs. is governed by Council, Senate, and Convocation. The Senate of the Univ. of South Africa consists of the Professors and Lecturers of the constituent Colleges who are heads of such departments as are recognized by the University Council; the Senates of the Univs. of Stellenbosch, the Witwatersrand, Pretoria, and Cape Town consist in each case of the Principal or Rector, the Vice-Chancellor, two additional members of the Council appointed for a prescribed period, and the Professors. At the Univ. of the Witwatersrand two Assessor members are elected annually by the Lecturers.

A word may be said here about these five Universities in general. The single college Universities and the individual University colleges are rapidly differentiating, some into institutions predominantly English speaking and others predominantly Afrikaans speaking. Every institution does what it can to advance the knowledge of the second language, Afrikaans or English as the case may be, and on the whole the Universities are helping the spread of bilingualism.

There are two Faculties of Medicine, one in Cape Town, the other in Johannesburg; three of Engineering, in Cape Town, Johannesburg, and Durban; two of Agriculture, at Pretoria and Stellenbosch; at Pretoria there is also a Veterinary Science faculty, and at Stellenbosch in 1932 a Forestry course was started; there are theological faculties at Stellenbosch and Pretoria.

The training of secondary teachers has been left to the Universities, and all the institutions endeavour to carry out this training. The training of primary teachers is to a much smaller extent provided for in the Universities, the main work in this instance being carried on in training colleges under the provincial Departments of Education.

Legal and commercial training is given in all the Universities, so is the teaching of the subjects usual in a Science and in an Arts Faculty.

Schools of African Life and Languages have been established at four of the Universities, and a considerable amount of valuable work has been done.

The Universities and University Colleges have together over 6000 students, almost entirely European. The coloured student is beginning to appear, but the native has so far found no place in South African Universities except as an external student. The South African Native College is not yet a constituent College of any of the Universities of South Africa, and students taught there take degrees externally.

SCHOLARSHIPS. Open to graduates of all South African Universities: 1851 Exhibition and Beit Fellowships, v. App. II. 17. H. B. Webb, maximum £200 p.a. for 3 yrs. Open to graduates of the Universities of Cape Town, South Africa and Stellenbosch: Croll Memorial, Porter, George Grey, Queen Victoria, Donald Currie, Union, each £225 p.a. for 2 years.; Ebdon, £300 p.a. for 2 yrs. at Cambridge; W. Hiddingh, £266 p.a. for 3 yrs.; Maynard, £90 p.a. for 2 yrs.

Elsie Ballot Scholarships, £400 p.a. for 2-3 yrs., tenable at Cambridge; basis of selection as for Rhodes Scholarships. Further information from the Joint Trustees (The Secretary, Ballot Scholarships, University

Registry, Cambridge, and Barclay's Bank, D.C.O., (Trustee Department), Box 434, Pretoria).

For Rhodes Scholarships, see p. 272.

See also under the separate Universities.

TERMS. The academic year is usually divided into 4 terms, beginning in Feb. or March and ending Nov. or Dec. At Cape Town, Stellenbosch, Pretoria, and the Witwatersrand there are two Semesters or terms, beginning end of Feb. and end of July.

VICE-CHANCELLORS' COMMITTEE. The Vice-Chancellors of the Univs. acting as a Joint Committee (known as *The Vice-Chancellors' Committee*) have, in the exercise of powers conferred by the above-mentioned Acts, made joint statutes and regulations relating to the Joint Matricn. Board, the Joint Committee for Professional Examns., the administration of the Joint Scholarship Funds of the five Univs., the admission of registered students of any one of the Univs. to any of the others, and a minimum period of attendance and minimum fees for the Degree of Bachelor. They have power to formulate regulations dealing with any other matters of common interest. The committee met twice in 1932, and dealt among other things with post-graduate scholarships awards, regulations for certain prize essays, and the nomination of South African candidates for Carnegie Corporation grants made by the Universities Bureau of the British Empire. The address of the Secretary (who is also Registrar, Univ. of Cape Town) is P.O. Box 594, Cape Town.

CONFERENCE. Representatives of the Univs. and Univ. Colleges in South Africa met for the first time in conference in Cape Town in 1923 to discuss matters of common interest and to promote co-operation and mutual consultation. Similar meetings have since been held from time to time. Two conferences were summoned by the Minister of Education in 1931 and 1932 to consider respectively the Financial Control of the Universities and the questions of bilingual instruction and external degrees.

The **JOINT MATRICULATION BOARD** consists of representatives of the five Univs., the Departments of Education of the Union, the four Provinces, S. Rhodesia and S.W. Africa, and the Secondary Schools (public and private) of the four Provinces. Its function is to control and conduct the Matricn. Examn. of the five Univs., and to deal with all applications for exemption therefrom. Revised Regulations introduced Dec. 1931 require candidates to take: (i.) One of the official langs. (Higher Grade); (ii.) Latin or Greek or French or German, or the second official lang. (Higher or Ordinary Grade); (iii.) a Science subject or Maths.; (iv.) a subject chosen from (ii.) not already taken, or Maths. (if not taken under (iii.)), or Italian or Portuguese, or Spanish, or Hebrew, or Xosa, or Zulu, or Tswana, or Sotho, or History, or Geography, or History-and-Geography; (v.) and (vi.) any two subjects (not already taken) selected from the prescribed list of approved subjects, provided that not more than four languages are taken by any candidate. School-leaving certificates are also issued by the Board, the syllabuses and examn. papers

being the same as for the matricn. examn., with a wider choice of subjects.

Examinations exempting (i.) *wholly*, or (ii.) *subject for subject*, from the *matriculation examination* of the South African Univs. : (i.) Entrance examns. of Univs. recognized by the Joint Board, St. Andrews L.L.A., Teachers' First Class Certificate (S. Africa), Technische Hoogeschool of Delft Diploma examn., including Latin, French, or German, and, subject to certain conditions, Transvaal Secondary School Certif. (in or after 1921), Cape Province Senior Certif. (in or after 1923), National Senior Certif. of the Union Education Dept. (after 1931).

(ii.) Provided that candidates have passed, with at least 4 subjects chosen in accordance with the regulations for a matricn. certificate of the Board, an entrance examn. of any Univ. recognized by the Board, Senior Certificate of the Univ. of the Cape of Good Hope or School-leaving Certificate of the Board, Second Class Teachers' Certificate (Transvaal and Natal Province), Eindexamen in Holland of Gymnasium or Hogere Burgerschool, Diploma in Switzerland of "École Supérieure de Jeunes Filles," Abiturienten-examen or Maturitäts-Prüfung in Germany or Switzerland at a gymnasium, Hoofdakte-examen in Holland, any British Higher School Certificate, or School Certificate *with credit*. Dynamics of the Scottish Universities preliminary examn. and Mechanics of the Senior or School-leaving Certificate (S. Africa) are accepted in lieu of a matricn. science subject.

Non-matriculated candidates over the age of 25 who desire to proceed to a degree course or to some professional qualification and are not eligible for exemption under the ordinary regulations may, under certain conditions, be specially exempted from matricn. on the recommendation of the Univ. or other authority concerned.

The address of the Secretary (who is also Registrar of the Univ. of S.A.) is P.O. Box 392, Pretoria.

THE JOINT COMMITTEE FOR PROFESSIONAL EXAMNS. (Address—P.O. Box 392, Pretoria), consisting of 2 representatives of each of the 5 Univs. (one for Law and one for Survey) and 5 persons appointed by the Govr.-General (of whom at least 2 must be for Law and 2 for Survey), controls and conducts : (1) Attorneys' Admission Examn., (2) Civil Service (Lower and Higher) Law Examns., (3) Examns. in Theory of Land Surveyng, and (4) Examn. for Patent Agents. It also conducts in certain cases on behalf of the Supreme Court the Advocates' Admission Examn. in Roman-Dutch Law and the Statute Law of the Union.

GENERAL INFORMATION

The University of Cape Town, with which is incorporated the South African College, created by Act 14 of 1916, came into legal existence on April 2, 1918, when the Council took over a bequest by Sir Julius Wernher of £250,000 and a donation of equal amount from Sir Otto Beit, who added £50,000 to a lapsed bequest by Mr. Alfred Beit. For early history, see *Yearbook* for 1930 and Introductory Chapter above.

A site for the University was provided by Government at Groote Schuur, Rondebosch. An appeal for funds in commemoration of the centenary of the S.A. College in 1929 realised over £70,000.

LIBRARY, 30,000 vols. Access to S.A. Public Library, 100,000 vols., specially well equipped in Bot. and Zool. Depts. Also Bolus Bot. Library and (for students of Teaching) the Library of the Educn. Ritchie (2 vols.; Maskew Miller, Cape Town); *The S.A. College and the University of Cape Town, 1829-1929*, by Prof. E. A. Walker.

THE YEAR 1936

On the accession of His Majesty King Edward VIII to the throne he relinquished the office of Chancellor, which he had held since the inauguration of the University in 1918. An address was presented to His Majesty thanking him for his services.

BENEFACTIONS. The Carnegie Corporation of New York, \$45,000 for carrying out research under the auspices of the Univ. The approved programme includes: the marine ecology of the South African coast, a linguistic, ethnographical and demographic survey of the Langa native location, growth and storage of deciduous fruit, and a social survey of Cape Town. Under the will of Mrs. Helen Brunt, £5000 for establishment of scholarships under a James Owen Brunt Endowment Fund. The trust established by the late Mrs. Marais for establishment of Jacobus Stephanus Marais Scholarships and for research in surgery amounted to £24,617. Under the will of the late G. A. Reynolds, the Univ. becomes the ultimate legatee to a sum of over £9000 for G. A. Reynolds Scholarships.

NEW DEVELOPMENTS. Steps taken to procure apparatus with a view to testing the value of employing films as an adjunct to teaching in various depts.

of the Univ. Arrangements made in conjunction with the Cape Hospital Board for institution of a joint committee for discussion of matters arising from time to time in connexion with the hospital training of medical students in view of completion and approaching occupation of new Groote Schuur Hospital. An interesting development provided by institution of a seminar course in education for teachers, specially designed to meet the requirements of teachers wishing to study present-day theories and practice in the field of education under Univ. guidance.

NEW POSTS. Chair of Architecture. Lectureships in Bantu Languages, Native Law and Administration, Ethics and Politics, English, Speech-Training and Dramatic Art, Chemistry.

EXTRA-MURAL WORK. Prof. S. Brodetsky (Leeds Univ.), 2 lectures, one to students on the "Auto-gyro," and one of a public character on "Recent Developments in Aviation." Prof. F. E. Lloyd (McGill Univ.), President of the Royal Society of Canada, a lecture on "Carnivorous Plants." Prof. W. J. Talbot, inaugural lecture on "Geography: Its Field and its History." Univ. Extension Lectures, by Prof. E. Batson (six on "Poverty"), and by Dr. H. M. Robertson (four on topics related to "Recent Economic History.") Eight Chamber Music Concerts were given under the auspices of the South African College of Music. Six lecture-recitals by Prof. Harold Samuel, F.R.C.M., who visited South Africa by invitation of the South African Univs. Lectureship Committee, "The Growth of the Pianoforte and its Influence on the Evolution of Keyboard Music."

RESIGNATIONS. Prof. B. F. J. Schönland (Physics), on apptment. as Director of the Bernard Price Institute of Geophysical Research, Johannesburg, after nearly 15 yrs.' service; Prof. E. A. Walker (Hist.), on apptment. to Vere Harmsworth Chair of Imperial Hist., Univ. of Cambridge, after 25 yrs.' service; Prof. H. G. Galbraith (Accountancy), to devote himself to professional work only; Prof. G. H. T. Malan (Ethics), through illness; Prof. D. M. Beach (Phonetics); Prof. J. Wheatley, Director of Michaelis School of Fine Art, who rendered great service in organizing the teaching of fine art and architecture at the Univ. and in helping to establish the National Gallery in Cape Town. He and his wife had been members of the staff for 11 yrs.

DEATHS. Monsignor F. C. Kolbe, one of the oldest of the Univ. alumni, donor of the Kolbe Art Collection in the Michaelis School of Fine Art. Sir Arnold Theiler, D.Sc., veterinary scientist.

HONORARY DEGREE. *M.A. in Architecture*—Mr. F. K. Kendall, A.R.I.B.A., in recognition of his services in working for the enforcement of high standards of professional training and conduct.

STUDENTS. Average attendance for the year: full-time, 1698, including 175 graduates; part-time, 258, including 28 graduates. Total number of individual students enrolled during the year was 2148.

GENERAL INFORMATION

Founded 1910. For early history, see *Yearbook*, 1929, pp. 508-9.

In 1930 the Transvaal University Coll. was incorporated by Act of the Legislature of the Union of S. Africa as an independent Univ. under the title of The Univ. of Pretoria. The Univ. consists of the Chancellor, the Vice-Chancellor, the Rector, the Council, Senate, and Convocation, together with the Professors, other teachers, and students of the Univ. The Rector is *ex officio* Chairman of the Senate.

The Act provides for Faculties or Departments of Theology, Arts, Commerce and Public Administration, Education, Law, Science, Music, Agriculture, Veterinary Science, and such other Faculties or Depts. as the Council may, after consultation with the Senate, with the approval of the Governor-General and subject to the Statutes, from time to time establish.

The Faculty of Agriculture is one of two in South Africa. It is specialized along different lines from the Faculty in Stellenbosch Univ., attention being paid to Animal and Field Husbandry and Citriculture. The Faculty of Veterinary Science was grafted on to the Veterinary Research Laboratory at Onderstepoort (v. App. III. B. 4).

DEGREES. B.A., B.A. (Social Work), B.A. (Admin.), B.Com., B.Sc., B.Mus.—3 yrs. B.Sc. (Agric.), B.Sc. (Agric. Eng.), B.Sc. (Dom. Sci.)—4 yrs. B.Sc.

(Q.S.), B.V.Sc.—5 yrs. Higher degrees: M.A., M.A. (Admin.), M.Com., M.Sc., M.Sc. (Agric.)—not less than 1 yr. after corresponding Bachelor's degree; M.Ed. not less than 1 yr. after B.A. and Higher Dip. in Education or equivalent dip. LL.B., 2 or 3 yrs. after B.A.; B.D., 3 yrs. after B.A. D.Litt., D.Phil. (Arts, Com. and Pub. Admin.), D.Com., D.Mus.—not less than 4 yrs. from Bachelor's degree or 3 yrs. from Master's degree; LL.D., not less than 2 yrs. from LL.B.; D.D., not less than 3 yrs. from B.D.; D.V.Sc., not less than 4 yrs. from B.V.Sc.

DIPLOMAS. Quantity Surveying, 4 yrs.; Music, Commerce, Public Administration, Native Administration, Social Work, 3 yrs.; Native Education, 1 yr.; Higher Education, 1 yr. postgraduate.

COURSES are provided for all degrees and diplomas of the Univ. in Divinity, Arts, Commerce and Public Administration, Law, Science, Agriculture, Agricultural Engineering, Veterinary Science. Course in Librarianship may be taken concurrently with B.A. degree. Sheep and Wool is a recent addition to the list of eleven optional major subjects for B.Sc. (Agric.) degree. Special courses are available for teachers of Agriculture and of Domestic Science. Five-yr. course in Tropical Veterinary Medicine leads to degree of B.V.Sc. Full courses are available in Architecture and Surveying and special provision is made for Bantu Studies.

FEE for full degree course, £18 to £33.

EXTRA-MURAL STUDIES. A special feature of the Univ. is the work done in the Extra-mural Faculties. In a building in the centre of the town three miles from the main buildings lectures are given, out of ordinary business hours, for the benefit of public servants, article clerks, commercial men and teachers. About 300 students are enrolled, practically all for full degree courses: for B.A., Law B.A., LL.B., B.Com., B.A. (Admin.), Masters' degrees, Law Certificate, Banker's Certificate, or Diplomas in Bantu Studies and Native Administration.

HOSTELS. 4 for men, including the Dutch and English Church Hostels and 1 for women. Board and Residence, £54 p.a., plus £3 p.a. laundry fees.

LIBRARY, 100,000 vols. **LABORATORIES:** Applied Maths., Bot., Chem., Entom., Geogr., Geol., Phys., Psychology, Zool., Agric., Bot., Agric. Chem., Agronomy, Vet. Anat., Sheep and Wool, Domestic Science. **ASTRONOMICAL OBSERVATORY.** **CHILD GUIDANCE CLINIC.**

UNIVERSITY EXTENSION. The faculties of Agric. and Vet. Sc. co-operate with the Union Dept. of Agriculture in connexion with the extension training service organized by it. Public Lectures are being organized in Pretoria and surrounding districts.

PUBLICATIONS. *Calendar* (November); bulletins containing result of research by members of staff.

THE YEARS 1936, 1937

BENEFACTIONS. Dr. Hans Merensky, £5000 towards the Univ. Library Building Fund. Proceeds of Fête held in May 1937 in aid of it amounted to more than £3000.

GENERAL INFORMATION

For early history, see *Yearbook* for 1929, p. 512. The University was formally opened on April 2, 1918. By Act No. 45, 1926, which came into force on October 1, 1926, the Faculty of Agric. (whilst remaining for academic purposes a faculty of the Univ.) was amalgamated with the Elsenburg School of Agric., situated in the division of Stellenbosch, to form the "Stellenbosch-Elsenburg College of Agric. of the Univ. of Stellenbosch." This closer co-operation with the Dept. of Agriculture aims at the better co-ordination of resources "for the promotion of agricultural science and the development of agriculture within the Union." In the main the scientific activities are centred at the University and the practical experimental and extension work at the Elsenburg Experiment Station (2600 acres).

The College of Agriculture is in charge of the Cereal Experiment Station "Langgewens" (1150 acres) in the division of Malmesbury. Principal—Prof. P. A. van der Byl.

THE UNIVERSITIES OF INDIA

UNIVERSITIES were first established in British India as a result of the great parliamentary inquiry into the condition of India which preceded the confirmation of the Company's Charter in 1853. It was resolved to create a properly articulated system of education from the Primary School to the University. The London University, at that time a purely examining body, which admitted to its tests only the students trained in affiliated institutions—the latest device of educational statesmanship—was taken as a model. "It had been suggested, in London, by conditions which resembled those of Bengal. . . . Its defects were not yet apparent, though it was to be profoundly modified by London itself four years later. It had the advantage of costing very little. It enabled all the existing collegiate institutions, whether Government or missionary, to be worked into the same scheme, and promised to provide a quite impartial mode of testing the qualifications of students for Government service. Above all, it gave freedom to the non-Government Colleges—all, at that date, mission colleges—to carry on their work in their own way, and offered them help from public funds for the secular side of their work" (*Report of the Calcutta University Commission, 1917-19*). In pursuance of this policy, Universities were founded in 1857 at Calcutta, Bombay, and Madras. The framers of the policy, while contemplating that the ordinary subjects of study should be dealt with by the Colleges, did not intend that the Universities should have no teaching functions, but in point of fact until about 1914 they concerned themselves solely with examinations. In 1882 and 1887 the Universities of the Panjab and Allahabad were established on similar lines. A Commission was appointed in 1902 to examine the working of the system, and the Universities Act of 1904 was designed to give effect to its recommendations as to reorganization of the government of the Universities, their assumption of teaching functions, and more effective supervision by them of the Colleges, as well as more exacting conditions of affiliation. University Professorships, Readerships, and Lectureships have accordingly been constituted in the above-named Universities, but mainly for advanced (post-graduate) courses and, except in Calcutta, only on a very small scale. Benares (Hindu), Mysore, and Patna Universities were established in 1916 and 1917. The Osmania University, Hyderabad, Deccan, was also established in 1918, though actual tuition began only in Aug. 1919.

The foundation, structure, aims and efficiency in working of institutions for higher education in India have been subjected to exhaustive re-examination by the Calcutta University Commission, 1917-19. In the University of Calcutta itself but little progress has been made towards giving effect to the far-reaching and fundamental changes recommended by this body, but their recommendations have to a great extent determined the lines on which a number of new Universities were established in 1920 and following years. Aligarh, Dacca, Lucknow,

and Allahabad may be described as unitary, teaching and residential Universities; and the University of Agra was created under an Act of the United Provinces of 1926 for the purpose of affiliating all the colleges previously associated with the University of Allahabad which had not been transferred to the Nagpur University (*see* below). Delhi has constituent colleges which are not wholly controlled by the University and may perhaps be described as residential and "semi-unitary." Patna approaches them in type. The Patna University Act of 1917 was amended by an Act in 1932 so as to make the constitution correspond with existing conditions. Part of the teaching in Delhi is carried on by the Univ. itself. The Nagpur University was established by legislation in 1923 and took over a number of colleges previously affiliated to Allahabad, to which have been added an Agricultural College. The University itself carries on the teaching of law. In 1926 an Act of the Madras Legislative Council provided for the establishment of an affiliating University at Bezwada (the Andhra University). The headquarters of Andhra University have been moved to Waltair. Bombay University was reorganized in 1928, and the new Act came into force in 1929. The report of the Bombay University Reform Committee (published 1925) recommends the establishment of a University at Poona. The latest addition to the universities of India is the Annamalai University of Annamalainagar in Southern India, established by an Act of the Madras legislature of 1928 as a unitary, resident and teaching University, and made possible by the princely generosity of the Hon. Raja Sir Annamalai Chettiyar.

The *Review of Growth of Education in British India* * by the Auxiliary Committee on Education appointed by the Indian Statutory Commission (generally referred to as the Hartog Report) gives an account both of recent progress in University education in India and of some of its main defects. In the smaller colleges and residential Universities the old system of mass teaching has been supplemented by valuable tutorial work, especially for Honours students. Research work, which barely existed in Indian Universities when the Islington Commission reported in 1915,† now finds its place in all the Indian Universities and the character of the staff in the unitary Universities and in central organizations of the affiliated Universities has been largely transformed. The laboratories and libraries have been greatly improved; "but the majority of University libraries are inadequate and all need great additions." There are signs that the University and College authorities are beginning to realize more fully the value of corporate life and social activities.

The Universities are turning out large numbers of graduates who cannot find employment. According to the Hartog Report "they are overcrowded with men who are not profiting either intellectually or

* Interim Report of the Indian Statutory Commission, 1929; Cmd. 3407. H.M. Stationery Office.

† See Note by the Earl of Ronaldshay, Sir V. Chirol, and Mr. H. A. L. Fisher in Report of Royal Commission on the Public Services in India, vol. i. p. 109; Cd. 8382. H.M. Stationery Office, 1917.

materially by their university training"; and it is suggested that students who now go to Universities without being really fitted for higher work should be diverted in large numbers at an earlier stage to careers better suited to their capacity; and that if this were done money would be set free for more profitable educational uses, and the training of the best men could be appreciably improved.

CONSTITUTION. (a) The Universities of Calcutta and the Panjab are still governed by the constitution framed under the Act of 1904.* But in its application to Calcutta the Act of 1904 is modified by Acts II. of 1905, XI. of 1911, and VII. of 1921; and the University has, under its existing powers, created important Post-graduate Councils in Arts and in Science, each with an Executive Committee. The Academic Council recently instituted by the Panjab University has been invested with important powers subject to the general control of the Senate. The constitution of the University of Madras was modified by local Acts, VII. of 1923 and XII. of 1929, with a view to establishing a teaching and residential University at Madras, while enabling the University to continue to exercise due control over the quality of the teaching given by colleges which are to constitute the University or are affiliated to it (Preamble to Act of 1923). Under these Acts there were constituted an Academic Council, Faculties, and Boards of Studies. A Council of Affiliated Colleges established in 1923 was abolished in 1929. The University of Bombay is governed by Act IV. of 1928, amended in detail by subsequent Acts, especially Act XV. of 1930. The Senate comprises the Chancellor, the Vice-Chancellor, and other Fellows, the executive government being vested in a Syndicate of 18 or 19 members, including the Vice-Chancellor and the Director of Public Instruction, and members (largely College teachers) elected by the Senate or the Faculties. There are also an Academic Council and a Board of Post-graduate Studies. The constitution and abolition of Faculties rests with the Senate.

(b) The new Universities in British India have a constitution modelled generally on that recommended for Calcutta by the Calcutta University Commission: (1) A large body called the Court, on which are represented the chief interests of the community either by election or by nomination, and including a number of ex-officio members, makes statutes and makes recommendations on the financial accounts and the annual report submitted by the Executive Council; (2) the Executive Council of some 15-20 members, elected partly by the Court, partly by the Academic Council, and including ex-officio members, is the executive authority in regard to finance and University appointments, and exercises all residual powers; (3) the Academic Council, which consists almost entirely of University teachers, is responsible for the regulation and maintenance of standards of education and examination within the University, and for the initiation of all changes in academic matters. The executive officers of the new Universities are, as under the older constitution, the Chancellor, the Vice-Chancellor, and the Registrar, but

* A Commission has been appointed to report on University education in the Panjab.

the Governor-General is now in nearly all cases introduced as the Visitor or Lord Rector, with powers of inspection.

ADMISSION TO THE UNIVERSITIES. Most of the Indian Universities admit students who have passed the Final Examn. of the High Schools, and 4 years are spent at a College affiliated to the University before the student is qualified to sit for the Bachelor's Degree Examn., namely, 2 years before the Intermediate Examn. and 2 after. The Universities of Allahabad, Aligarh, Dacca, Lucknow, and Agra regard the pre-Intermediate years not as part of, but as preliminary to, University study.

Applications for **AFFILIATION** are generally submitted by the Syndicate, which must be satisfied as to the managing agency, teaching staff, provision for residence of students, equipment, financial resources, suitability of fees, etc. If granted, the courses in respect of which the College is affiliated are specified. Affiliated Colleges must comply with requisitions by the Syndicate for information, submit themselves to inspection under the Syndicate's orders, and take such action as may be ordered consequent upon such inspections. In Calcutta and Panjab Universities affiliation questions are dealt with by the Senate. The powers of affiliation by the University can in some Universities only be exercised subject to the approval of Government.

TERMS. University examns. are, with few exceptions, held between March and June. Admissions are made as a rule in June or July, though in many cases regular work does not commence till Sept. or Oct.

DEGREE COURSES. In *Arts and Science* a 2 yrs.' course leading to an Intermediate examn. is followed by a further 2 yrs.' course for the Bachelor's degree. English is generally a compulsory subject for the B.A., and in some cases for the B.Sc.; and is generally the medium of examination in all Universities except Osmania, where the medium is Urdu. Aligarh, Allahabad, Andhra, Annamalai, Benares, Dacca, Lucknow, Madras and Mysore give Honours degrees in Arts and Science requiring an additional year of study. Elsewhere the Honours degree is generally given on papers additional to those for the Pass. Agra and Osmania give no Honours degrees.

The Intermediate courses are under the control of the Universities except at Agra, Allahabad, Dacca, and Lucknow, where they are controlled by Boards of Intermediate Education.

Agriculture. For the B.Ag., Bombay, Nagpur, and Panjab give a 4 yr. course subsequent to matriculation. For the B.Sc. (Ag.) Madras gives a 3 yr. course, and Agra and Allahabad a 2 yr. course after an Intermediate examn. in Agriculture.

Commerce. The B.Com. course offered at Agra, Allahabad, Calcutta, Dacca, Lucknow, and the Panjab is generally a 3, in some cases a 2 yr., course after passing the Intermediate examn. in Arts. In Bombay it is a 4 yr. course after Matriculation.

Education and Teaching. Degrees and Diplomas are given at the Universities of Aligarh, Andhra, Benares, Bombay, Calcutta, Dacca, Madras, Mysore, Nagpur, Osmania, Panjab, and Patna. The titles given

for approximately equivalent qualifications differ in different Universities.

A degree open to graduates in Arts and Science after a 1 yr. course is called the B.T. at Aligarh, Benares, Bombay, Calcutta, Dacca, Mysore, Nagpur, and the Panjab, B.Ed. at Andhra, L.T. at Madras, Dip.Ed. at Osmania and Patna. At Patna the course for the B.Ed. extends over 2 yrs. after graduation. Lucknow gives a Diploma in Teaching to women graduates after a 1 yr. course. At Dacca and Calcutta the L.T. is not a degree, but a diploma open to undergraduates, after one and two years' training respectively, subsequent to the passing of an Intermediate examn. The Calcutta regulations are under revision.

Engineering. For B.Sc. (Engineering) Benares gives a 5 yr. course after Intermediate examn. in Science; for the B.E. or B.Sc. (Engineering) or B.C.E., Calcutta, Madras, Mysore, Osmania and Patna have a 4 yr. course, and Bombay a 2 yr. and two terms course after Intermediate examn. in Science or equivalent examn. Benares gives a B.Sc. (Engineering) in Mining and Metallurgy after a 4 yr. course.

Law. The LL.B. (or B.L.) course covers 2 yrs. (Calcutta and Dacca, ordinarily 3 yrs.) after graduating in Arts or Science. Degrees in Law are not at present given at Andhra, Annamalai, and Mysore.

Medicine. The M.B., B.S. course generally covers 5 yrs. (Bombay, $4\frac{1}{2}$ yrs., Calcutta, 6 yrs., Patna, $6\frac{1}{2}$ yrs.), starting from an Intermediate examn. in Science or some equivalent examn. Besides the M.B., B.S. course an L.M. and S. course is given by Osmania, of 5 yrs. after Matricn., and an L.M.P. course, by Mysore, of 4 yrs. after Matriculation. Medical degrees are given in the Andhra, Lucknow, Madras, and Panjab Universities, as well as in those above referred to.

HIGHER DEGREES. The M.A. and M.Sc. (for which there are in some Universities two examns.) can generally be taken by bachelors after a 2 yrs.' course, or after 1 yr. by bachelors who have taken a 3 yr. honour course. In Mysore a 2 yrs.' course is compulsory for all candidates. Madras gives an "M.A. in research" and an M.Sc. degree, by thesis. In Madras the M.A. degree was formerly conferred on Honours graduates after a certain interval; and Annamalai follows the same procedure.

In Arts, the D.Litt. degree may be taken by thesis at Allahabad by M.A.'s of 3 yrs.' standing (at Panjab by M.A.'s of 2 yrs.' standing), by thesis, after an advanced course of study of 2 yrs. At Benares it may be taken by thesis by M.A.'s of 2 yrs.' standing. At Lucknow and Mysore the degree is honorary.

The Ph.D. degree may be taken by thesis by M.A.'s of 3 yrs.' standing at Calcutta, Dacca, Lucknow, Madras, Nagpur, and Patna.

Allahabad gives a D.Litt. in Economics under conditions similar to the D.Litt. in Arts.

The D.Sc. may be taken by M.Sc.'s (in some cases, by M.A.'s in Science) of 3 yrs.' standing, by thesis, at Allahabad, Calcutta, Dacca, Lucknow, Madras, Nagpur, and Patna; at Benares and Panjab by M.Sc.'s (or M.A.'s) of 2 yrs.' standing. At Mysore the degree is honorary.

A degree of M.Ag. may be taken, by thesis, at Bombay by a B.Ag.

or L.Ag. of 3 yrs.' standing. A degree of M.Sc. (Ag.) may be taken by thesis at the Panjab by a B.Sc. (Ag.) of 2 yrs.' standing.

A degree of M.Com. may be taken at Bombay by a B.Com. of 2 yrs.' standing.

A degree of M.T. may be taken by thesis at Dacca by a B.T. of 2 yrs.' standing; and a degree of M.Ed. may be taken, similarly, at Andhra and Patna by a B.Ed. of 2 yrs.' standing.

The LL.M. (or M.L., as the case may be) of Allahabad, Benares, Bombay, Dacca, Lucknow, Madras, and the Panjab may be taken by graduates in Law of 2 yrs.' standing; in Delhi and Nagpur by those of 3 yrs.' standing. No interval is prescribed at Aligarh, Calcutta, or Patna. The LL.D. (or D.L., as the case may be) is generally given by thesis and open to LL.M.'s (or M.L.'s) of prescribed standing: at Delhi and Lucknow, 5 yrs.; Dacca, Nagpur, and the Panjab, 3 yrs.; Benares, Calcutta, Madras, and Patna, 1 yr. At Allahabad the LL.D. is given by thesis to LL.M.'s who have had 5 yrs.' professional practice.

The degrees of M.D. and M.S. (Master of Surgery) may be taken by graduates in Medicine and Surgery after intervals varying in different Universities of from 1 to 5 yrs. after graduation, mostly by examination, but in some cases by thesis; varying requirements in regard to hospital and professional practice are imposed. Bombay gives the degrees of Bachelor of Hygiene (after a 1 yr. course) and of Doctor of Hygiene (after a further 2 yr. course) to medical graduates; Madras gives a Bachelor of Sanitary Science after a 1 yr. course, and Calcutta and Lucknow give a D.P.H. after a prescribed course of study, to medical graduates.

Bombay gives a Diploma in Ophthalmology, Calcutta gives the degree of Master of Obstetrics, and Madras gives a Diploma in Midwifery to medical graduates.

At Bombay, the degree of Master of Engineering is given by thesis or examn. to Bachelors (or Licentiates) of Engineering who have practised their profession for 3 yrs. after graduation. At Calcutta, a D.Sc. in Engineering is given by thesis.

Oriental Learning. Besides courses for degrees in Arts in classical oriental languages and literatures (Sanskrit, Arabic, and Persian) and in vernaculars, conducted more or less on Western lines, there are degrees in Oriental Learning given in some Universities with English titles, in others with oriental titles, in some with both. The Panjab has a 2 yrs.' F.O.L. course subsequent to Matricn., followed by a 2 yr. B.O.L. (Bachelor of Oriental Learning) course and a 1 yr. M.O.L. course. A D.O.L. is open by thesis to M.O.L.'s of 1 yr.'s standing. The University also gives diplomas and "Literary Titles" in Oriental Learning. Andhra, Annamalai and Madras give "Titles" and certificates of proficiency, and offer a degree of M.O.L., by thesis, to candidates possessing certificates of proficiency. Benares has a Faculty of Oriental Learning which confers a first degree *Madhyama Pariksha* after a 3 yrs.' course, a second degree of *Shastri*, after a further 3 yrs.' course, and the degree of *Shastracharya* by thesis, 2 yrs. after the second degree.

Theology. Five different degrees in Hindu theology are awarded by the University of Benares, open only to Hindus after courses extending over a large number of years. Aligarh awards the degrees of Bachelor,

Master, and Doctor in (Islamic) Theology, and Osmania has a 6 yr. course leading up to the B.A. in (Islamic) Theology, and a 2 yr. course for the M.A.

COST OF LIVING. The cost of living varies in different Universities. The total cost (according to the *Handbook of Indian Universities*), including tuition, residence, food, etc., is as follows in certain residential Universities: Aligarh, Rs. 28 to Rs. 35 p.m.; Benares, Rs. 35 to Rs. 50 p.m.; Dacca, Rs. 20 to Rs. 22 p.m.; Osmania, about Rs. 180 per annum. Exclusive of tuition, the cost of living (*i.e.* of food and residence) is stated to be in Bombay about Rs. 50 p.m.; in Calcutta, Rs. 21 to Rs. 30 p.m.; Delhi, Rs. 15 to Rs. 30 p.m.; Mysore, Rs. 200 for 9 months; Osmania, Rs. 180 per annum.

[*Note.* 1 Rupee = 1s. 6d. approximately.]

STATUS OF THE NEW UNIVERSITIES. The Universities of Aligarh, Benares, Dacca, Delhi, and Patna have been incorporated by Acts of the Indian Legislature, and those of Annamalai, Andhra, Agra and Lucknow by Acts of provincial legislatures. Their degrees and exams. are recognized by the Government of India to be equal in value to those of the older Universities for the purpose of admission to public services.

Mysore and Osmania were established by local legislation in Indian States, and are not within the jurisdiction of the Government of India. The degrees of Mysore have been recognized by the Universities of Bombay, Calcutta, the Panjab, and Madras, and most of the new Universities, and by the Government of India. Osmania and Mysore degrees have been recognized by the Government of India as equivalent to those of the Universities established by law in India.

Professor Karve's scheme for an Indian University for women with headquarters at Poona has organized there, and, through affiliated institutions, elsewhere, instruction through the Indian vernacular languages adapted to the special needs of women. It is on entirely independent lines.

NUMBER OF STUDENTS in March 1935 in the 328 Arts and Professional (including 101 Intermediate and 2nd Grade) Colleges was 112,808, including 5512 women.

RESIDENCE. In 1934-35 32,167 students (including 1073 women) of Arts and Professional Colleges were accommodated in approved hostels or boarding-houses.

CONFERENCES. In April 1920 a Committee was formed for drafting an outline of the functions and constitution of an Association of Indian Universities. The project was further advanced at the Congress of Universities of the British Empire at Oxford in July 1921, and at a Conference of Indian Universities held at Simla in May 1924.

INTER-UNIVERSITY BOARD. This Board was formed in accordance with a resolution passed by the Simla Conference of May 1924. Chairman, 1937-38: Mr. C. R. Reddy, M.A., D.Litt., M.L.C., Vice-

Chancellor of Andhra University. Secretary: Prof. N. K. Sidhanta, M.A., Lucknow University. Meetings, 1937, at Nagpur and Allahabad ; 1939, at Bombay.

PUBLICATIONS. *Handbook of Indian Universities* (1936, Rs. 2 or 3s.) ; *Bulletin of the Inter-University Board* (contains information about important changes in staff, courses of study, researches, etc., at the Univs.), half-yearly.

The VICEROY'S GOLD MEDAL, instituted in 1926 by Lord Irwin, is open for competition, annually, to undergraduates of any University incorporated by law in British India. It is awarded for the best essay on some practical problem of the day.

INDIAN STUDENTS AT THE HOME UNIVERSITIES. The Education Department of the Office of the High Commissioner for India, India House, Aldwych, London, W.C.2 (Secretary : Thomas Quayle, M.A., D.Lit. Educational Officers : P. K. Dutt, M.A., M.Sc., A.I.C. ; R. M. J. Knaster, B.A. ; V. I. Gaster, B.A. ; N. B. Ker, M.A., LL.B. ; Miss C. H. Bose, M.A.), furnishes information and advice on educational and kindred matters to Indian students who come to this country to complete or supplement their education. There are Local Advisers at the University of Manchester (J. K. Wood, D.Sc., College of Technology, Whitworth Street), and at Glasgow (R. M. Brown, D.Sc., Ph.D., M.I.M.E., Engineering Department, The University). At Edinburgh, J. E. Mackenzie, Ph.D., D.Sc. (King's Buildings, The University), is the University's Adviser to Indian students. At Oxford Indian students may secure information and advice from H. S. Williamson, M.A., Indian Institute, Broad Street, Secretary to the Delegacy for Oriental Students, and at Cambridge, from R. B. Whitehead, M.A., 22 Fitzwilliam Street, Secretary to the Inter-Collegiate Indian Students Committee.

Indian students who propose to proceed abroad for further study are strongly advised to consult the University Bureau or Advisory Committee of their Province, where they can obtain full information about British and foreign universities. The names and addresses of the secretaries are as follows : Ajmere—Superintendent of Education, Delhi and Ajmere-Merwara, Students' Advisory Committee, Rajputana, Delhi ; Aligarh—S. A. Jalil, M.Sc., Information Bureau, Muslim University, Aligarh ; Allahabad—The Director of Public Instruction, Allahabad ; Bombay—Khan Bahadur F. M. Orgill, M.A., I.E.S., University Students' Advisory Committee, Peshawar, N.W.F.P.

The High Commissioner for India is prepared at the request of parents and guardians in India to make arrangements for the supervision of the studies and personal welfare of a limited number of Indian students, and for the administration of funds remitted to him for the purpose. The Secretary to the Oriental Delegacy at Oxford, the Secretary to the Inter-Collegiate Indian Students Committee at Cambridge, the University Adviser at Edinburgh, and the Local Advisers to Indian Students at Manchester and Glasgow, act on behalf of the High Commissioner in the case of students proposing to study at those centres. Inquiries may be addressed either direct to the addresses given above or through the Office of the High Commissioner for India, Education Department. The Department publishes the *Handbook for Indian Students—a Guide to the Facilities for University and Professional Studies and Training in the United Kingdom*, the Eighth Edition of which was published early in 1938. An annual Report on the work of the Department is also published, copies of which may be obtained from the office of the High Commissioner or through the agents for the sale of Government of India publications.

The Hyderabad Government has a Scholarship Committee to regulate the grant of scholarships and give necessary information to students proceeding out of India, and has a special paid guardian for Hyderabad students (B. C. McEwen, M.C., B.Sc. Lond., Brandon House, Rowfant, Crawley, Sussex) to look after and report about their progress whilst in Europe.

Note

The arrangement of Oriental names in the directory sections has been adopted for convenience of reference and for indexing purposes.

GENERAL INFORMATION

Act VIII. of 1926 of the United Provinces Legislature, which received the assent of the Governor-General on Oct. 20, 1926, provides for the establishment of a university "for the purpose of affiliating the colleges associated with the University of Allahabad . . ." so as to set it free to function as a unitary, teaching, and residential institution. It empowers the Agra University to affiliate colleges in the United Provinces, Rajputana, Central India, and Gwalior, except within the limits of the Universities of Allahabad and Lucknow, or within a radius of ten miles from the Benares Hindu University or from the Aligarh Muslim University. To supplement the work in affiliated colleges the University may institute teaching posts at selected centres.

Five categories of persons are to be eligible, subject to prescribed conditions, for degrees and other academic distinctions : (a) candidates who pass the University's examinations after pursuing an approved course at an affiliated college ; (b) teachers who pass the University's examinations ; (c) inspecting officers in the Department of Education who pass the University examinations ; (d) research workers ; (e) women who have carried on private study. Lectures and instruction may be provided by the University for, and diplomas may be granted to, persons other than students of an affiliated college.

The supreme governing body of the University is the Senate, the other principal authorities being the Executive Council, Academic Board, Board of Inspection, and Faculties of Arts, Science, Law, Commerce, and Agriculture. The Vice-Chancellor, an honorary officer elected by the Senate, is the principal executive and academic officer.

Students are not eligible for admission to a degree course unless they have passed the Intermediate Examination of the Board of High School and Intermediate Education of the United Provinces, or of an Indian University incorporated by law, or an equivalent examination.

The Act came into force on July 1, 1927, and all the constituent bodies of the Univ. have been formed. The Univ. held its first exams. in 1928.

GENERAL INFORMATION

The Mahomedan Anglo-Oriental College, founded in 1875, became, under the Aligarh Muslim University Act of 1920, a unitary residential University, with Univ. School and Intermediate College attached as separate institutions. The Intermediate Coll. was abolished in 1932, the Intermediate classes being absorbed in the Univ. proper. The Univ. receives Rs. 3,00,000 annually from the Govt. of India, Rs. 1,52,012 from the Local Govt., Rs. 60,000 from H.E.H. the Nizam of Hyderabad, and contributions from other Indian States. Although the governing body is composed of Mahomedans, and special attention is paid to Muslim Theology, it is open to all, without distinction of sex, race, creed, or class. In the grounds, comprising several square miles, are halls and hostels sufficient for the accommodation of all the students and some of the staff. LIBRARY, 36,000 vols., besides a collection of MSS. on Oriental Lit. LABORATORIES : Physics, Chem., Botany and Zoology.

The Muslim UNIV. SCHOOL is a feeder to the University and a practising school for the TRAINING COLLEGE. The Univ. also maintains the Muslim University City High School run on less expensive lines, and a Tibbiya College to impart instruction in indigenous medicines of Muslim origin.

COURSES. For students who have passed the High School or Matricn. Examn. of an Indian Univ. a 2 yr. Intern. course in Arts or Sci. KAYASTHA PATHSHALA UNIVERSITY COLLEGE, Allahabad. Principal—Tara Chand, M.A., D.Phil. Ox. 7 Tutors.

AGRICULTURAL INSTITUTE, Naini, Allahabad. Principal—S. Higginbottom, Ph.D.

GENERAL INFORMATION

Founded in 1887, the Univ. concerned itself mainly with examinations, having no teaching staff (except that of its School of Law) until 1914. Thereafter it established Chairs and Readerships, etc., for research work in Economics and Modern History for graduate students. In Jan. 1922 was passed an Act (which came into operation in July 1922) for the reorganization of the Univ. as a unitary, teaching, and residential institution, with control, however, over the quality and character of the teaching in "Associated" colleges. In 1926 was passed the Agra University Act, providing for the transfer of the control of these colleges to the Agra Univ. The Univ. now functions as a unitary, teaching, and residential Univ.

ORIENTAL COLLEGES

Seven Oriental Colleges, including two for women only, are recognized by the Univ. for the Oriental Title Exams. and Certificates of Proficiency in Oriental learning.

GENERAL INFORMATION

The Act of the Madras Legislative Council constituting the Andhra Univ. "in and for the Telugu districts of the Presidency of Madras" received the assent of the Governor-General on Jan. 13, 1926, and came into force on April 26, 1926. By a later Act, the area has been narrowed down by the exclusion

of certain districts, leaving the following within the affiliating jurisdiction of the Univ.: Ganjam, Vizagapatam, East Godavari, West Godavari, Kistna, Guntur and Nellore. The Act establishes five categories of colleges: "University Colleges," providing for pass and hons. or post-graduate courses for higher degrees; "First Grade Colleges," providing courses for the ordinary degrees in Arts or Science or Commerce; "Second Grade Colleges," preparing for the Inter. Examn.; "Professional Colleges" providing courses for teaching and medical degrees and "Special Grade Colleges," providing courses for Oriental Titles.

Among the powers of the University specified in the Act are: to promote the development of the study of Telugu, Kanarese, Urdu and Oriya, and their use as media of instruction and examination; to institute professorships and other teaching posts; to maintain colleges and hostels; to erect, equip, and maintain laboratories and libraries; to institute and provide funds for the maintenance of a publication bureau, an employment bureau, students' unions, and University Extension boards. Every student of the University must reside in a hostel or under prescribed conditions.

The supreme governing body is the Senate, by which the Vice-Chancellor, a whole-time salaried officer and principal executive, is elected (for 3 years). The other principal authorities of the University are: an executive body called the Syndicate (comprising 14 members, including the Vice-Chancellor, Financial Secretary to the Local Government, and Director of Public Instruction, Madras); the Academic Council; the Faculties and the Boards of Studies.

FACULTIES. Arts, Science, Teaching, Medicine, Oriental Learning.

ADMISSION to Univ. Courses is by Matriculation examn. and Secondary School leaving certificate examn. (the latter conducted by the Madras Government), or any other examn. recognized as equivalent thereto.

DEGREES. B.A., B.A. Hons.; M.A., M.A. Hons.; B.Sc., B.Sc. Hons.; M.Sc., M.Sc. Hons.; B.Com., B.Com. Hons.; B.Ed., M.Ed.; Ph.D., D.Litt., D.Sc., M.B., B.S., L.M.S., M.O.L.; K.P. (Hon. Doctorate in Oriental Learning).

DIPLOMAS. Titles V.P. and U.P. (4 years' course); Certificates of Proficiency in Oriental Learning; Diplomas in: French, German, Librarianship, Chemistry of Foods, Drugs and Water.

The **EXAMINATIONS** of all Statutory Indian Univs. are recognized as equivalent to the corresponding examns. of the Univ.

PUBLICATIONS. *University Code* (Act, Statutes, Ordinances, Rules, Regns., and Syllabuses); *Annual Register* (Univ. GENERAL INFORMATION

In July 1854 the Court of Directors of the East India Company sent a despatch to the Governor-General of India in Council directing the organisation of the Universities of Calcutta, Madras and Bombay. In pursuance of that despatch the University of Calcutta was incorporated on January 24, 1857, for the purpose of "ascertaining, by means of examination, the persons who have acquired proficiency in different branches of Literature, Science and Art and rewarding them by Academical Degrees as evidence of their respective attainments and marks of honour proportioned thereunto." Modelled on the University of London, then a purely examining body, the functions of the University were limited to the conduct of examinations and the award of degrees. The jurisdiction of the University extended at first throughout practically the whole of northern India. But with the establishment of other Universities the territorial jurisdiction has been limited to the

Provinces of Bengal and Assam (with the exception of a small area under the control of the University of Dacca). In 1864 an Act was passed by which the Universities of Calcutta, Madras, and Bombay were empowered to confer the honorary Degree of Doctor in the Faculty of Law.

In 1902, a Commission was appointed by Lord Curzon to examine the working of the Universities in India, and on their recommendation the Indian Universities Act of 1904 was passed which came into force on September 1, 1904. Under section 3 of Act VIII. of 1904, the University became empowered, among other things, to make provision for the instruction of students, to appoint University Professors and Lecturers, to hold and manage educational endowments, to erect, equip and maintain University libraries, laboratories and museums, and to make regulations relating to residence and conduct of students. Though the bulk of teaching continued to be imparted in the affiliated colleges, teaching in some of the higher branches began to be organised under University management. Assisted by grants from the Imperial Government and by private benefactions, it was possible for the University to arrange for Post-graduate teaching and research from 1909. The organisation of higher teaching and research was made by the Senate mainly on the initiative of the late Sir Asutosh Mookerjee, Vice-Chancellor from 1906-14 and again from 1921-23.

In 1917 a new scheme for Post-graduate teaching and research was brought into operation, providing for the centralisation of Post-graduate teaching in Calcutta within and under the control of the University. The departments of Post-graduate teaching in Arts and Science were placed under two Councils, with two Executive Committees, responsible directly to the Senate. The University now provides for Post-graduate teaching in: (1) English; (2) Sanskrit; (3) Pali; (4) Arabic; (5) Persian; (6) Indian Vernaculars, Bengali, Hindi, Urdu; (7) Comparative Philol.; (8) Mental and Moral Philos.; (9) History; (10) Polit. Econ. and Polit. Philos.; (11) Commerce; (12) Maths. (Pure and Applied); (13) Physics (Pure and Applied); (14) Chemistry (Pure and Applied); (15) Physiol.; (16) Botany; (17) Geol.; (18) Zool. and Comparative Anat.; (19) Experimental Psychol.; (20) Anthropol.

The Department of Post-graduate Teaching and Research in Arts is located in the Asutosh Building. Post-graduate Teaching and Research in the different branches of Scientific studies are carried on in the University College of Science at 92 Upper Circular Road, and 35 Ballygunge Circular Road, where opportunities for research have been provided by the establishment of extensive Laboratories and an up-to-date Workshop. This has been possible mainly through the generosity of the late Sir Taraknath Palit, D.L., the late Sir Rashbehary Ghose, C.S.I., M.A., D.L., Ph.D., and the late Raja of Khaira. The University maintains a staff of whole-time and part-time teachers.

Government grants from 1912 to 1937 amounted to Rs. 89,56,220, including Rs. 9,57,835 for endowed chairs, and Rs. 15,30,024 for Hostels and a Students' Mess Scheme. During the same period private benefactions amounted to Rs. 67,66,787.

The Univ. buildings include a Senate House, the Durbhanga LIBRARY with Law College, Hostel, and Univ. offices, the Univ. Press, the Asutosh Building for post-graduate classes in Arts, post-graduate offices and the Univ. library, three buildings for the teaching of Post-graduate Science courses. LABORATORIES (in Univ. Coll. of Science): Phys. and Chem. (Pure and Applied), Applied Maths., Expl. Psych., Biol., etc. MUSEUMS: Asutosh Museum of Indian Arts and Museums attached to the Anthropological and Commercial sections of the Univ.

RESIDENCE. There are four classes of lodgings for students: (a) Collegiate Hostels; (b) Non-collegiate Hostels under external management; (c) Messes, attached or unattached; (d) Private Lodgings. Licences to Hostels under class (a) are granted by the Syndicate, while licences to the remaining three classes of lodgings are granted by the Students' Residence Committee—a subordinate body under the Syndicate, consisting of six members appointed annually from among the Members of the Senate.

STUDENTS' WELFARE. Principals of Colls. and specialists in physical edn. deal with all matters relating to the health of students, including physical education and organization of games and other forms of recreation. There is a whole-time Univ. Organizer of Physical Education. A Students' Infirmary is maintained, free of cost, for students requiring hospital treatment. Glasses are supplied to students with defective vision at concession rates. Military Training is provided for a Univ. Corps recruited from affiliated colleges. All 1st yr. students in Calcutta Colls. are medically examined.

STUDENTS' INFORMATION BUREAU. The University has established a Bureau in Calcutta for the purpose: (a) of supplying students wishing to pursue their education abroad with all the information, advice, and assistance which they may require; (b) of supplying the foreign Univ. authorities with information regarding the students which will enable them to make their selections from the applications forwarded.

SPECIAL UNIVERSITY PROFESSORSHIPS AND LECTURESHIPS. Tagore Professorship in Law, Rs. 9000; S. N. Ghosh Lectureship in Comp. Religion, Rs. 9000; Kamala Lectureship in Indian Life and Thought, Rs. 2000 and a gold medal; also other lectureships.

SPECIAL LECTURES. With a view to promoting a desire for original investigation and research, eminent scholars from India and abroad are, from time to time, invited by the Univ. to deliver courses of lectures on subjects in

which they have specialised. These lectures, after delivery, are printed and published by the Univ.

LIBRARIES. The University Library is under the management of the Library Executive Committee, subject to the general control of the Syndicate. It is for the use of Resident Fellows, Registered Graduates, Research Scholars, Readers, Professors, Lecturers and students of Post-graduate classes, and Teachers of the Undergraduate classes of this University. It contains over 2,06,000 vols., including pamphlets and periodicals, and a fairly large collection of Bengali and Tibetan MSS, and Rotograph copies of Persian and Arabic MSS. 593 books of the Sung Dynasty Tripailaka presented by the Consul-General for China.

Besides this Library, there are other Libraries attached to the Univ., viz. Law College Library and Libraries of the Departments of Science.

UNIVERSITY PRESS. The Univ. undertakes the publication of specialized lectures delivered by the Univ. THE YEAR 1936-37

BENEFACTIONS. For Scholarship, medals, etc., Rs. 62,200. The amount includes Rs. 25,000 from the representatives of the families of the late Rai Bahadur Mokhrum Kanodia for establishing a laboratory for Communication Engineering and Rs. 10,000 from Sir Praphullachandra Ray for research in Botany and Zoology in memory of the late Sir Asutosh Mookerjee.

OTHER DEVELOPMENTS. Scheme for study of Military Science as optional subject in curriculum of studies for Intermediate, B.A., B.Sc., B.Com., I.E., and B.E. Exams. sanctioned by Government.

TEACHERS' TRAINING DEPARTMENT. On account of paucity of arrangements for the training of teachers for High Schools in Bengal, and particularly to meet the needs for specialized training in teaching subjects under the revised Matriculation Regulations, the Univ. has opened a Teachers' Training Dept. under its own supervision. Arrangements have been made for the following courses for the present: (i.) Short Training Course, (ii.) Vacation Course, (iii.) Geography Teachers' Course, (iv.) Science Teachers' Course. Regular Exams. are held at the end of these courses and certificates are granted to successful candidates. The Dept. also organizes lectures by eminent educationists, of general and public interest on education and allied topics.

APPOINTMENTS AND INFORMATION BOARD. Scheme prepared by the Vice-Chancellor, Mr. Syamaprasad Mookerjee, for a partial solution of un-

employment among Univ. graduates and undergraduates, with co-operation of business houses and different industrial concerns adopted by Senate on Jan. 23, 1937. Its object is to provide these young men with opportunities and facilities for practical training and ultimately for starting independent careers of their own, in the different branches of Trade, Industry and Commerce. Rs. 36,000 has been sanctioned by the Univ. for the purpose and an Appointments and Information Board has been established with a salaried Secretary who is in touch with the various industrial and commercial firms and maintains a Register of unemployed men with details of their qualifications and careers, seeking benefit under the scheme.

CHANGES IN REGULATIONS. Practical examn. in Science subjects for I.A. and I.Sc. Examns. introduced. Practical training in Astronomy for B.A. and B.Sc. Mathematics (Hons.) introduced. Syllabuses for I.A., I.Sc., B.A. and B.Sc. in Zoology and for M.A. and M.Sc. Examns. in Pure Mathematics, and for M.A. in Pali revised. Age restriction for Matriculation Examns. abolished. Changes effected in academical costumes.

ASSOCIATED COLLEGE. Teachers' (Govt.) Training College, Dacca. The Principal and teachers are recognized teachers of the Univ. and the College students read for the L.T. and B.T. in accordance with regns. prescribed on that behalf.

GENERAL INFORMATION

This Univ. was established in 1921 under an Act of 1920, which provides for the constitution of Faculties of Arts, Science, Law, Agriculture, and Medicine. Special attention is devoted to Islamic Studies and to the needs of the Musalman community, but the Univ. is open to all, without distinction of sex, race, creed, or class. It is a unitary and residential Univ., with a constitution resembling in many respects that of the modern English universities. The Authorities of the Univ. include a Court, an Executive Council, an Academic Council, and Faculties; and the Teaching Staff has the main responsibility for all matters

connected with teaching and examns. The students (other than those living under specially approved conditions) reside in Halls and Hostels, and the Univ. teachers in houses erected for them, in the Univ. domain. The domain consists of about a square mile of fine park land, including over 100 acres of playing fields. It is adjacent to the Civil Station of Dacca and to a park called the Ramna, and lies from 1 to $1\frac{1}{2}$ miles north-west from the centre of Dacca City. It is provided with electric light and power.

The chief buildings for teaching and administrative purposes include : Central buildings, containing about 200 rooms (area 94,000 sq. ft.), used for Class-rooms and Library ; Chemical and Physical Laboratories (area 26,500 sq. ft.) ; the Curzon Hall (which accommodates about 2000 persons) ; the Dacca Hall residence for 160 students ; the Jagannath Hall for 200 students ; and the Salimullah Muslim Hall for 296 students.

LIBRARY, 76,000 vols., and about 20,418 MSS. in Sanskrit, Bengali, Urdu, Persian, and Arabic. Annual Library grant, Rs. 20,000. The University MSS. Committee (Bengali and Sanskrit Section) have already collected c. 20,487 valuable Sanskrit and Bengali MSS. The Arabic, Persian, Urdu, and Punthi MSS. Committee have collected 418 rare and valuable MSS.

LABORATORIES. Physical, with metal and wood workshops ; Chemical, with special arrangements for training in commercial analytic methods ; and Psychological.

FACULTIES. Arts, Science, Law.

GENERAL INFORMATION

The three constituent colleges, formerly affiliated to the Univ. of the Panjab, were united to form a teaching and residential Univ. (Govt. of India Act, No. VIII. of 1922), with effect from May 1, 1922. Subsequently four Intermediate Colleges, three for boys and one for girls, were recognized as Constituent Colleges of the Univ., namely: The Anglo-Arabic, Ramjas Intermediate, Commercial, and Indraprastha (girls'). The Anglo-Arabic Coll. was recognized in 1930, the Commercial Coll. in 1932 and the Indraprastha Girls' Coll. in 1937, for teaching up to the B.A. (Pass) degree in certain specified subjects. The authorities of the Univ. are a Court, an Executive Council, an

Academic Council, and Faculties and Boards of Studies. The Univ. does not itself hold a Matricn. Examn. As a temporary measure, it admits students who have passed the matricn. examns. of other Indian Univs. and recognized Boards.

FACULTIES and Deans : Arts, Dr. T. G. P. Spear ; Science, Dr. B. D. Laroia ; Law, Rai Bahadur Ram Kishore.

OTHER DEVELOPMENTS. In connexion with the general scheme of reconstruction of higher and secondary education proposed by the Govt. of India, and in pursuance of the Scheme of Federal Univ., the Univ. has accepted the principle of a 3-yr. B.A. and B.Sc. Course (Pass and Honours) on certain conditions, chief of which are : (i.) that adequate facilities for further education on vocational lines on completion of a shortened secondary course be provided by Govt. ; (ii.) that schools adequately staffed and equipped and separately organized for a 3-yr. higher secondary course be provided for pupils desirous of admission to a 3-yr. degree course in the Univ.

GENERAL INFORMATION

This Univ. was founded in 1916 with two constituent Colleges, the Central Coll., Bangalore, and Maharaja's Coll., Mysore, which had for 25 yrs. been affiliated to the Univ. of Madras. To these have since been added the Women's and Professional Colleges mentioned above. There are also four Intermediate Colleges, two for men at Mysore and Bangalore, two for women, one at Bangalore and the other at Mysore, and a Medical School at Bangalore. The capital cost of all the Univ.'s buildings amounts to Rs. 13,59,643.

LIBRARIES. Univ., 25,463 vols.; Colleges, 68,121 vols.; Sansk. and Oriental, 16,132 vols. and 10,609 MSS.

FACULTIES. Arts, Science, Medicine, Engineering and Technology.

TERMS: June to Oct., Nov. to March.

ADMISSION to B.A. or B.Sc. courses is normally by Intermediate examn. in English, a second language, and three other subjects. Candidates prepare for this by two years' study in Intermed. Colleges after the ordinary High School course. Admission to the B.E. course is given under certain conditions to Intermed. Sci. holders or B.Sc.'s with Physics, Chem. and Maths. as optional subjects and to the M.B., B.S. course if they have undergone the Pre-Medical course and passed the Pre-Medical examn. The B.Com. course suspended for the present.

DEGREE COURSES. 2 yrs.—B.A. or B.Sc.; 3 yrs.—B.A. or B.Sc. (Hons.); 4 yrs.—B.E. (successful candidates are eligible to take the degree after a year's practical course in a recognized works or firm); 5½ yrs.—M.B., B.S.; graduate course for Master's Degree—1 yr. for Hons. grads. and 3 yrs. for Pass grads., for B.T. 1 yr. after the B.A. or B.Sc. The D.Litt., D.Sc., and LL.D. are Honorary.

DIPLOMA COURSE. L.M.P., 4 yrs. after High School.

RECOGNITION OF DEGREES AND EXAMNS. OF OTHER UNIVERSITIES. See *Yearbook* 1935, Nos. 1-13 (deleting No. 10). In addition the following:

(1) The Cambridge School Certificate Examn. is recognized as qualifying for admission to the Intermed. course if passed with credit in English, Second Language, Elementary Maths. and one of the following—Hist., Geog., Physics, Chem., and Biol., and the whole examn. passed at one and the same time.

This Examn. is considered as a qualification only for admission to the Intermed. Course or the L.M.P. Course and not to any higher course.

In either case it is provided that the subjects taken at the examn. are cognate to those offered for the Univ. course and that the candidate is certified by the Univ. teacher concerned to be able to follow the instruction in the Second Language offered.

(2) The I.M.M.T.S. Dufferin Passing Out Certificate (Engineering branch and executive branch) is recognized as qualifying for admission to the Intermed.

course of this Univ. under Ordinance 8, Clause (ii.) provided that the rules of differential minima prescribed in Ordinance 9 are satisfied and that a candidate seeking admission as above shall satisfy the head of the institution in which he seeks admission as to his competency to follow the instruction in the Second Language.

(3) The Matriculation Examination of the Calcutta Univ. is recognized as qualifying for admission to the Intermediate Course in this Univ. on a basis of reciprocity.

RECOGNITION BY OTHER UNIVERSITIES. See *Yearbook* 1935. In addition the following :

The M.B., B.S. Degree of Mysore Univ. has been recognized as a registrable degree by the Govts. of Madras and Bengal.

The Govt. of Bombay have recognized the M.B., B.S. Degree of Mysore Univ. for Medical Registration in Bombay.

The examns. of Mysore Univ. are recognized as equivalent to the corresponding examns. of the Univ. of Madras.

For recognition by British Univs., see Appendix I.

INSPECTION OF INTERMED. COLLS. not forming parts of Constituent Colls. is made by Profs. deputed by the Council.

GENERAL INFORMATION

Established in 1882, the University confined its activities, until 1919, mainly to examinations, the control of affiliated institutions and the provision of instruction in its Oriental and Law Colleges. It has since 1919 undertaken the maintenance of Professors and Readers and co-ordination of higher teaching in other subjects. Honours Schools in Hist., Botany, Zool., Chem. and Physics have been established in Lahore. Post-graduate teaching in Econ., Arabic, Sanskrit, Persian, Maths. and Polit. Sci. has been arranged. Senior teachers in the local colleges, partially relieved of routine work, have supplemented the teaching of Univ. Profs. and Readers. Three improved types of Honours Papers have been instituted in English, Maths., Econ., Philos., Hist., Sanskrit, Arabic, Persian, Physics and Geol.

LIBRARY, 90,800 vols., including MSS. (arranged on Dewey Decimal system). Departmental and Seminar LIBRARIES: Botany, Zoology, History, Economics, and Physics. Chemical LABORATORY. Astronomical OBSERVATORY.

GENERAL INFORMATION

The Univ. was incorporated in 1911 and formally opened in 1912. For early history, see *Yearbook* for 1929. The buildings, including class-room accommodation for 500 students, six hostels, laboratories, etc., together with playing-fields, occupy an area of 36 acres. In 1919 were opened the Schools of Physiology, Tropical Medicine, and Pathology presented by three Chinese gentlemen. "The root idea of the Univ. is to provide a place for Higher Education where Chinese youths can remain under the influence of their own parents and guardians . . . subject to the strong control which Chinese opinion exerts upon young men, instead of being adrift in a foreign country where a liberty unknown to students in the East is allowed to undergraduates" (*Calendar*, 1919-20).

The Court is composed of life, *ex-officio*, and nominated members; the Council is composed of the Chancellor, the Vice-Chancellor, the Treasurer, certain Government officials, the Chinese members of the Legislative Council, Deans of Faculty, and two representatives of the commercial community, with power for the Governor to appoint two additional members. The Senate consists of the Vice-Chancellor, the Director of Education, the Professors and Readers.

LIBRARY. General Library, c. 42,480 vols. The Fung Ping Shan Chinese Library includes 4734 sets of books and 41,105 vols. In 1933 the University bought from the Hankow Club a unique collection of some 3000 vols. written in English, French, and German dealing with China and things Chinese.

MUSEUM of Pathology and Trop. Med. **LABORATORIES:** Anat., Bact., Biol., Chem., Histol., Path., Physics, Physiol., Surgery, Trop. Med.; Applied Mechanics, Materials, Elec. Tech., Power House, Hydraulics, Steam, Elec. Machinery, Elec. Traction, Engin. and Carpentering workshops. **HOSPALS.** in the vicinity available for clinics, 400 beds; Govt. Bacteriological Inst. and Mortuary.

FACULTIES. Med., Engin., Arts. The Arts Faculty includes a department of Chinese.

TERMS. Sept.-Dec.; Jan.-March; April-June.

ADMISSION. Matriculation Examination: Candidates are required to satisfy the Examiners at one and the same examn. in five subjects and to obtain a minimum aggregate of marks in the subjects taken together: (i) English; (ii) Chinese; (iii) Higher Chinese; (iv) Latin; (v) French; (vi) Portuguese; (vii) Urdu; (viii) any other approved classical or modern language; (ix) Elementary Mathematics; (x) Mathematics (more advanced); (xi) Physics; (xii) Chemistry; (xiii) Botany; (xiv) History; (xv) Geography; (xvi) Biblical Knowledge. All candidates must satisfy the Examiners in (i), in a language other than English, any one of (ii) to (viii), and in one of (xiv), (xv) or (xvi); also *either* in one of the mathematical subjects (ix) or (x), *or* in one science, (xi), (xii) or (xiii). Not more than two languages other than English or two sciences may be offered.

Special Regulations for Entrance to Faculties and Courses of Study: To qualify for admission into the Faculty of Medicine, a candidate must have satisfied the Examiners in Mathematics (either (ix) or (x)), and either in (xiv) or (xv).

To qualify for admission into the Faculty of Engineering or into any Univ. course or subject involving the study of advanced maths. (pure or applied), a candidate must have satisfied the Examiners either in (ix) or in (x). A candi-

date offering (ix) must have satisfied the Examiners that he possesses an adequate knowledge both of geometry and trigonometry.

A candidate who satisfies the Examiners in (i), (ii), (iii) and in any two of (xiv), (xv), (xvi) shall be held to have qualified for admission into any of the three courses now prescribed for the Dept. of Chinese in the Faculty of Arts, viz. : for Study Groups, 6, 7 and 8.

DEGREES. B.A., B.Sc. (Eng.), M.A., M.Sc. (Eng.), M.B., B.S., M.D., M.S. The standard aimed at is that of the Univ. of London. To qualify for admission to the Bachelor's degree examns. residence for 12 (in Med.—15) terms is necessary; the medical course is 6 yrs. including one year devoted to the pre-medical sciences, physics and chemistry and to biology; 3 yrs. are devoted to clinical work subsequent to passing an examn. in anatomy and physiology.

The examn. for the Master's degree (except M.D.) may be taken at the end of 2 yrs. after graduation as Bachelor. For the M.A. or M.Sc. a thesis is required; for the M.S., evidence of special post-graduate experience. The examn. for the M.D. may be taken 5 yrs. after graduation, or at the end of 2 yrs. if evidence is produced of special post-graduate experience.

Graduates of other Univs. who wish to become candidates for the M.A. or M.Sc. degree must work under the direction of the Fac. concerned for at least 1 yr.

The Degree of B.A. may be obtained in any one of 4 Depts. under 7 "groups" of studies: (a) *Pure Arts and Science*: Group 1, Letters; Group 2, Experimental Science; Group 3, Social Science. (b) *Training of Teachers*: Group 4 (a), Science and Maths.; 4 (b), General. (c) *Commerce*: Group 5, Commercial Training. (d) *Chinese Studies*: Group 6, Chinese and English; Group 7, Chinese Studies.

FEES. The tuition fee is \$400 a year; the hostel fee, which includes board and lodging, is \$300 a year. Students who are allowed to live in hostels during a vacation—some have to because of their work, e.g. medical students, and others because their homes are too far away—pay vacation fees at the rate of \$8 a week, each. When a student joins he is required to deposit caution money to the extent of \$25 and to pay a registration fee of \$5. The entrance fee to the University Union is \$25 and the annual subscription is \$20; this annual fee covers the annual subscription to practically all the athletic clubs. The graduation fee for Bachelors' degrees is \$25; for Masters' degrees, \$100. Probably about \$1400 represents the minimum amount which, at present prices would cover a student's annual expenses including vacations.

RESIDENCE. All students must reside in the quarters provided, or in hostels founded by religious bodies and conducted under regns. approved by the Council.

THE YEAR 1936-37

NEW DEVELOPMENTS. The School Certificate Examn. which was held by the Univ. has been discontinued. The Education Dept. of the Government of Hong-Kong will conduct an annual School Certificate Examn. to be held the year previous to the completion of the full school course. The University will in future conduct a Matriculation Examn. which will be distinct from the School Certificate Examn. referred to.

RETIREMENT. Sir William Hornell, C.I.E., M.A., LL.D., Vice-Chancellor, 28.10.37.

STUDENTS (Dec. 31, 1936). Full-time: 402 (including 69 women students). Part-time: 11.

COLLEGE MANAGED BY THE UNIVERSITY AND ITS
STAFF

INTERMEDIATE COLLEGE, MANDALAY

Principal—A. D. Marshall, M.A. Ox., with 6 Lecturers and 4 Tutors.

GENERAL INFORMATION

The proposal to found a University in Burma was first made in 1892 as a result of the expansion of Rangoon and Judson Colleges. In 1878 the Rangoon High School was giving instruction to enable pupils to appear for the First Arts Examination of the University of Calcutta. In 1884-85 a College Dept. of the Rangoon High School was affiliated in Arts to the Univ. of Calcutta under the name of Rangoon College. This College in 1885-86 was controlled by the now defunct Educational Syndicate until 1904, when Government assumed direct management. Judson College, known until 1904 as the American Baptist Mission College, first gave "Intermediate" instruction in 1894. Both Colleges developed rapidly and provided instruction up to the Bachelor's degree, pass and honours standards in a limited range of subjects, viz. English, Pali, Philosophy, Mathematics, History, Chemistry and Physics, and in Burmese Composition to the Intermediate standard only.

In 1910, representations elicited an announcement that the Government of India hoped to establish a separate University for Burma as part of their general policy in higher education. Draft Rules to constitute a University were submitted by the Government of Burma to the Government of India in 1913 and again in 1916. After the war the Government of India wished to defer the scheme until the Royal Commission on Calcutta University had made its report, but the Lieut.-Governor of Burma was urged to establish a University as soon as possible. The main lines of the present University organization were then laid down. In June 1918 Mr. (later Sir) Mark Hunter was appointed

Director of Public Instruction with a view to drafting the University Constitution. This was slightly modified in the light of the Commission's Report and of the Dacca University Bill. The University of Rangoon Act was passed by the Burma Legislative Council in September 1920 and received the assent of the Governor-General in Council on 24th October, 1920. The Act was amended by the Legislature in 1924.

The Government College, Rangoon, and Judson College were incorporated in the University as the first Constituent Colleges of the University. In 1925 an Intermediate College was opened at Mandalay by Government. This College is managed by the University. In 1930 a Constituent College for the teaching of Medicine and Surgery and another for the Training of Teachers were established in the University.

The Calcutta University Commission laid down four essentials for a modern University, namely, that provision should be made for teaching and studies along the most approved lines and for the social life of the students in a centralized residential University; that there should be provision in the Constitution of the University for the disposal of purely academic matters by purely academic bodies and for an adequate representation of academic and non-academic interests in the Supreme Governing Body of the University; that there should be an adequate distribution and co-ordination of powers and functions amongst the various University agencies; administrative and academic, and that University affairs should be regulated, under Government protection, on a self-governing basis.

These essentials are adequately secured in the Rangoon University. Its organization does not satisfy all the tests of the Calcutta University Commission, but it is an organization adapted to the peculiar needs of Burma. It is not a unitary University of the type of the Dacca University. In the Rangoon University there is in general no hard and fast line between the University and the Colleges. The teaching staff are attached to colleges, but the work is done under University supervision and control. For administrative purposes the relation between the University and the Constituent Colleges is closer than the relation between the University and affiliated colleges in Indian Universities. There is real University control over the colleges on the one hand while on the other hand each Constituent College is represented on the Legislative and the Executive Bodies of the University.

The University is governed by a widely representative Council consisting of not more than 70 members, which exercises its functions through an Executive Committee of 12 members. As the Supreme Governing Body it has power to review the action of other authorities of the University. It is also empowered to sanction the annual financial estimates of the University. The Senate (the academic body of the University) consists of the Vice-Chancellor, the Director of Public Instruction, Burma, the Principals of the Constituent Colleges, the Professors, three members of the Council and not less than ten lecturers in Constituent Colleges. Its executive duties are discharged by a Standing Committee.

The Constituent Colleges are controlled by Governing Bodies and the Principals are assisted in the internal administration of the Colleges by advisory bodies of teachers.

The University and its Constituent Colleges are housed in buildings situated on an estate of about 450 acres adjoining the Victoria Lake. The total cost of land and buildings was approx. Rs. 1,65,00,000.

SPECIAL FEATURES. Courses in Burmese; in old Mon (Talaing); in Burmese Epigraphy leading to the M.A.; course in Far Eastern History with emphasis on Chinese and further Indian studies; special courses in Burmese

History. The University has access to a comprehensive collection of MSS. of Pali Pitakas with commentaries and Talaing MSS. in the Bernard Free Library and is engaged in the collection of similar materials.

LIBRARIES. University, 20,344 vols. This Library is devoted primarily to Burmese and Far Eastern Studies. University College, 36,697 vols.; Judson College, 20,925 vols.; Medical College, 1696 vols.; Training College for Teachers, 11,100 vols.; Intermediate College, 2740 vols.

GENERAL INFORMATION

The University was opened on April 1, 1925, by Lord Balfour, as a group of research institutes. It is provisionally registered under the Law of Societies of Palestine. A Faculty of Humanities was established in 1928, a Faculty of Science in 1935.

LAND AND BUILDINGS. The University site is located on Mount Scopus. The land held by or for the Univ. now exceeds 220 dunams (55 acres). The Univ. Buildings comprise a building for the Depts. for Biological and Colloidal Chem., Genl. Chem., Parasitol., and Hygiene and Bacteriol., the Wattenberg Building for the Institute of Mathematics, and the Monness Shapiro Building for the Institute of Physics, which is, for the present, being used also for the Depts. of Botany, Zool., Geol.; the Library (Wolffsohn House), which also houses the Institute of Oriental Studies and the Archæological Collection; three service buildings (offices, power house, workshop); an animal house for medical experimentation; and the Open-Air "Minnie Untermeyer Memorial Theatre." The Cancer Research Laboratories have provisionally been installed at the Jerusalem Health Centre.

LIBRARY (NATIONAL AND UNIVERSITY), over 320,000 vols. Includes the Goldzieher Collection of books and periodicals on Arabic and Oriental Lit., the mathematical library of the late Felix Klein of Göttingen, and the Jarcho Medical Library. Among its manuscripts are the original of Einstein's Theory of Relativity and the Schwadron Collection of autographs and likenesses of Jewish men and women of distinction. The Schocken Collection of Hebrew Incunabula now contains 64 out of the 103 existing Hebrew Incunabula. The Library issues a bibliographical quarterly, *Kiryat Sefer* (Editor, I. Joel, Ph.D.).

FACULTIES, ETC. *Faculty of Humanities:* Dean, J. N. Epstein. *Faculty of Science:* Dean, Ch. Weizmann; Acting Dean, A. Fraenkel.

Institutes and Departments: Institute of Jewish Studies, Chairman of the Council—Chief Rabbi Dr. Hertz, of London. School of Oriental Studies—Director, L. A. Mayer. General Humanities (Philos., Hist., and Letters). Maths., Physics, Chemistry (Physical, Inorganic, Organic, Biological), Bot., Zool., Geol., Meteorol., Parasitol., Hygiene and Bacteriol., Physiol., Cancer Research Laboratories.

DEGREES. M.A. (4 yrs.), M.Sc. (4 yrs.), Ph.D. (2 post-graduate yrs.).

SCHOLARSHIPS: about 25; 5 Research Fellowships. For Lord Plumer Fellowship, £100, in Arabic Studies, *see* App. II. C. 25.

PUBLICATIONS. Information for Students (Hebrew), pubd. May. General Information (Hebrew, English), pubd. March. The Hebrew Univ. Press publishes *Tarbitz*, a Quarterly Review of the Humanities; *Kiryat Sefer*, a Bibliographical Quarterly; and has published books and pamphlets on Jewish Studies, Archaeology, Philosophy, Botany of Palestine, International Relations, a series (at present 18) of Hebrew translations of philosophical classics, as well as a series of inaugural and other University lectures.

THE YEAR 1936-37

BENEFACTIONS. Mark Shawzin Legacy, £4500.

NEW BUILDINGS. A "Medical Centre" is being erected in the vicinity of the Univ., to consist of the Nathan Ratnoff Medical School Building, the Rothschild-Hadassah-University Hospital and the Henrietta Szold Nurses' School.

NEW POSTS. Chair of Principles of Education; Chair of Social Philosophy.

EXTRA-MURAL WORK. Extension courses and public lectures in Jerusalem, Tel-Aviv, and various agricultural settlements throughout the country.

GENERAL INFORMATION

The College is administered as an integral part of the Department of Agriculture of the Colony. The cost of the building (opened Jan. 1925) and equipment was £14,000. Experimental fields and farms cover 60 acres. Laboratories provide accommodation for research in Chemistry, Entomology, Botany, Mycology, Physics, and Sugar Technology. Athletic grounds are attached to the College.

A 3 yrs.' course leads to the Diploma of the College. Short courses in the inter-crop period are provided for estate employees and special courses for agricultural and sugar-house chemists. The exams. of the City and Guilds of London Institute in sugar technology are held at the College.

The College year begins in April.

Minimum age for admission, 18. Entrance Examn. in English, French, Chemistry, and Maths. Holders of Matric. certificate of any British University are excused those subjects which appear on their matric. certificate.

Tuition fee for British subjects not natives of Mauritius, £20 p.a.

GENERAL INFORMATION

The Coll. is a Government institution, partly endowed by public subscription, managed by a Council of Govt. officials and private members, with the Director of Medical and Health Services as President, advised by a Senate composed of the professors and lecturers with the Principal as Chairman. Since its foundation 277 licentiates have passed out. It owes its name to a large donation from a King Edward VII. Memorial Fund, which enabled the Council in 1913 to endow a Chair of Physiology.

The *Diploma* in Medicine, Surgery, and Midwifery was recognized by the General Medical Council in 1916. The Course extends over 6 yrs.

Admission qualifications: (1) The Cambridge School certificate, with English (special Malayan paper), another language, and Maths. as compulsory subjects, and two of the following—Hist., Geog., Chem., Physics, Bot., Expl. Sc., Applied Maths.; or (2) certificates of equivalent standard, e.g. London Matric., recognized by the General Medical Council as qualifying for registration as Med. students. Candidates must be of good physique.

TERMS. Trinity—June 1 to Aug. 31; Michaelmas—Oct. 1 to Dec. 20; Lent—Jan. 3 to March 31.

DENTAL SCHOOL. The School was started in 1928. The course covers 5 yrs. The Diploma in Dental Surgery is registrable in Malaya.

PHARMACY COURSE. A course for the training of Pharmacists was started in Oct. 1935. The course covers a 3 yrs.' pupilage under an approved Pharmacist and 1 yr.'s course of systematic lectures and practical classes in the College. The Diploma in Pharmacy is registrable in Malaya.

TUITION FEES. \$300 p.a.

RESIDENCE, ETC. Hostels for 148 students. There is a Students' Union.

GENERAL INFORMATION

This is a non-Government institution, endowed partly by the Straits Settlements and some of the Malay States and partly by public subscription, managed by a Council of Government officials and private members and advised by a Senate composed of the Professors, with the President as Chairman. It was opened in June 1928.

ADMISSION. Students are admitted to the College only after they have reached the age of seventeen, although exceptions may be made for students who have reached the age of sixteen and can furnish a special recommendation from their schools.

Before admission all students must be examined as to physical fitness, and will be accepted only if their standard of health is good. To qualify for admission, students must submit a certificate of character from their last school, and must have passed one of the following examinations: (a) The Malayan Cambridge Certificate or the ordinary Cambridge Certificate examination, with a pass with credit in English and three of the following subjects: Hist., Geog., Latin, Elem. Maths., Additional Maths. (if a credit pass has been obtained in Elem. Maths.), Chem., Physics, General Sci., Bot., Art, any

approved language; (b) The Final Examination for a degree in Arts or Science in any University of the United Kingdom or British Dominions; (c) The Matriculation Examination of any University in the United Kingdom or British Dominions; (d) Any other examination specially approved by the Senate of Raffles College.

Persons not members of the College may be admitted, with the approval of the President, to attend a course of lectures on any subject.

Diplomas are given to students who successfully complete a 3 yrs.' course at the College. The standard of instruction aimed at is that of the first degrees in Arts and Science at the Univ. of London. Students may, if they desire, study for the external degrees of B.A. or B.Sc. of that Univ.

TERMS. Trinity—June 16–Aug. 25; Michaelmas—October 6–December 15; Hilary—January 5–March 16.

FEES for tuition, \$300 p.a. (\$1 = 2s. 4d.); board and lodging, \$300 p.a.

RESIDENCE. There are Halls of Residence for 100 male students.

SCHOLARSHIPS. One post-graduate scholarship, £500 p.a. for 2 yrs., to enable a student of Chinese race or descent to visit and continue his studies at any Univ. or Univs. in Gt. Britain or Ireland approved by the President. The John Anderson Scholarship, awarded from time to time to British subjects of any race or creed of either sex born in the Straits Settlements or Federated or Unfederated Malay States, to enable the scholar to study at Raffles College. The scholarship is awarded for 3 yrs. Two other scholarships, the Singapore Bar Committee Scholarship and the Kelantan Scholarship, will be awarded when the accumulated funds permit. There are awarded annually by the College ten entrance scholarships of \$720 p.a. tenable for 3 yrs., and a number of Exhibitions tenable for 1 and 2 yrs.

GENERAL INFORMATION

Incorporated in Sept. 1921 and reincorporated by Royal Charter on Nov. 23, 1926, the College aims at promoting the study of and conducting research in tropical agriculture in suitable surroundings and creating a body of British expert agriculturists well versed in the knowledge of the cultivation of land in the tropics, of chemists, and of scientific advisers possessing an intimate knowledge of the means of combating pests and diseases. The College buildings are at St. Augustine, near St. Joseph, Trinidad, on land granted by the Govt. of Trinidad and Tobago. The Imperial Dept. of Agric., which was founded in 1898 and was amalgamated with the Coll. on April 1, 1922, is now known as the Agricultural Advisory Dept. of the College, and is administered by the Commissioner of Agriculture. The post of Commissioner of Agriculture was separated from that of Principal of the Coll. as from April 1, 1927. The Commissioner serves as a liaison officer between the Coll. and the several island govts. He supervises the botanic and experiment stations located at St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts-Nevis, and the Virgin Islands. The College acts in a consultative capacity to the Govts. of Jamaica, British Guiana, Trinidad, British Honduras, the Bahamas, and Bermuda in agricultural matters, including the teaching of agric. in schools. The staff was strengthened by the appointment on July 1, 1929, of an Asst. Commissioner of Agriculture. The headquarters of the Dept. were transferred to Trinidad in Sept. 1922.

The foundation stone of the new buildings and laboratories was laid by Sir Samuel Wilson, Governor of Trinidad and Tobago, on January 14, 1924. An Instructional and Experimental Sugar Factory, towards which British sugar machinery manufacturers contributed plant worth £20,000, was opened in 1925. A Low Temperature Research Station for work on bananas and other tropical fruits was completed in September 1929. An Agricultural Field Office, and a new Chemical Block, in which the Dept. of Sugar Technology is also housed, were completed in August 1929. The Milner Hostel and College Dining Hall were completed in 1927. A Cacao Research Scheme was inaugurated in 1930. This is financed by contributions from the main cacao-growing Colonies and from some of the more important British cocoa and chocolate manufacturers. A Plant Quarantine Station to serve the British West Indies, British Guiana and British Honduras was completed in 1933.

The income of the College is derived from contributions by the principal West Indian colonies, Nigeria, the Gold Coast, Sierra Leone, the Imperial Government, the Empire Cotton Corporation, and the British Cotton Growing Association.

The academic year extends from October 1 to June 30.

COURSES. (1) A 3 yrs.' course leading to a *Diploma* (Dip. Agric. I.C.T.A.) either (a) in Agriculture or (b) with special qualifications in Sugar Technology; designed primarily to give instruction in West Indian agriculture; admission is limited to students from the Caribbean area, save in exceptional circumstances.

(2) A one-year course leading to the *Associateship* of the College, open to post-graduate students and to Colonial Office cadets selected for the Colonial Agricultural Service.

(3) A one-year course leading to the *Associateship* with special qualifications in Sugar Technology, open to post-graduate students with previous training in Sugar Technology.

(4) Refresher and other courses by arrangement.

POST-GRADUATE RESEARCH. Facilities are provided for work in connexion with problems arising in tropical agriculture, and more especially those connected with entomology, plant pathology, agronomy, physiological botany, and sugar technology.

TUITION FEES. Diploma Courses, £50 p.a., but a limited number of students from contributing Colonies and industries are admitted, on the nomination of the respective local Govts. and industries, without the payment of tuition fees; other students from contributing Colonies, £25 p.a.; Foreign Students, £100 p.a. Associateship and Refresher courses, £75 p.a.

EXPENSES. The following figures are given as an approximate estimate for students coming from a country to which they cannot return for the long vacation: Living, \$60 (£12:10s.) per month (1st and 2nd yrs. 12 months), each £150; 3rd yr. 9 months (£112:10s.). Subscriptions, say £5 p.a. Books, tours, pocket money, etc., a minimum of £60 (1st yr.), £75 p.a. (2nd and 3rd yrs.). To these must be added the College fees above set out, and also cost of passage to Trinidad in the first, and from it in the third year. In the case of students attending the College for one year, the expense will be approx. that of the third year, with the cost of return passage added.

STUDENTS FROM INDIA AND FOREIGN COUNTRIES. Applications from Indian students for admission to post-graduate and special courses should be submitted through the High Commissioner for India.

The Academic Board will consider applications from students who are not British subjects on their producing evidence of having attained a standard equivalent to that prescribed by the regulations and of possessing an adequate knowledge of English. Such applications should be made through a British Consul, whose recommendation should also be obtained.

PUBLICATIONS. *Prospectus*; *Principal's Report*; *Tropical Agriculture* (monthly); *Memoirs and Reports*.

THE YEAR 1936-37

EXTRA-MURAL WORK. Visits of College officers to neighbouring colonies in the Caribbean area.

STUDENTS. Full-time, 44; graduates, 11; preparing for diploma, 31; special course, 1. Refresher course, 1.

QUALIFICATIONS FOR ADMISSION TO A FIRST DEGREE IN THE UNIVERSITIES OF GREAT BRITAIN AND IRELAND

GENERAL OUTLINE

This Appendix relates only to the admission of students proposing to take full courses for a First degree.* A comparison of the university regulations regarding admission discloses a general agreement in principle, with divergencies in application. Before inserting a student's name *in matricula* all Univs. exact evidence that the applicant's intellectual equipment fits him to undertake a course of study for a degree. This is tested either by a matric. examn. held by the Univ. or group of Univs. concerned, or by the candidate's performance in an equivalent examn. Many of the Oxford and Cambridge Colleges make the passing of Responsions or the Previous or equivalent examns. a condition of admission to the College. Bristol has discontinued its matricn. examn. as superfluous in view of the institution of the School Certificate and Higher Certif. examns., and the admission to them of candidates not presented by schools. Durham has followed Bristol's example so far as the Newcastle Division is concerned. Reading holds neither school examns. nor, except for candidates of mature years (23 or over), a matriculation examn., accepting, instead, credentials required by London or the Northern (English) Universities Joint Board.

A Matriculation Examination for persons of mature years has been instituted by the above-mentioned Joint Board, and by London, Durham (King's College), Belfast, and Reading (*see* thereunder).

SCHOOL EXAMINATIONS.—ENGLAND AND WALES. A scheme originated by the Board of Education in consultation with all the Univs. of England for co-ordinating Secondary School examns. came into operation in England in 1918 and in Wales in 1920. Under this scheme the following are recognized by the Board—

I. As approved "First Examinations," suitable for pupils about the age of 16, the standard being such that a Pass with Credit in a certain number of subjects (generally 5) in the three main groups of School

* For conditions regulating the recognition of study at other Universities and admission for Higher degrees *see* pp. 7-14 and under the several Universities.

Students desiring to study in a University without intending to graduate are generally admitted if they satisfy the authorities that they are qualified to profit by the course of study they propose to take, and if accommodation is available for them. *See also* pp. 64 and 267.

subjects (English subjects, Foreign Languages, Mathematics, and Science) would entitle a candidate to admission to a Univ. :—

School Certificate examns. of the Oxford and Cambridge Schools Examn. Board, of the Oxford Delegacy for Local Examns. and the Cambridge Local Examns. Syndicate (formerly known as Senior Local examns.), of the Univs. of Bristol and Durham, and of the Northern (Birm., Leeds, Liv., Manc., Sheff.) Univs. Joint Matricn. Board; the General School examn. of London; and the School Certificate examn. of the Central Welsh Board.

In addition to the three groups of subjects above mentioned, First Examinations include a fourth group of optional subjects, such as Music, Drawing, Manual Work, Needlework, Housecraft. Excellence in these subjects will not exempt a candidate from the necessity of reaching a minimum standard in each of the other groups.

II. As approved Second Examinations, suitable for pupils about 2 years older, framed on the assumption that the candidate has, after the stage marked by the first examn., followed a more specialized course :—The Higher Certificate examns. of the Oxford and Cambridge Schools Examns. Board, Bristol, Durham, the Northern Univs. Joint Board, London, Oxford (Delegacy for Local Examns.), Cambridge (Syndicate for Local Examns.), and the Central Welsh Board.

With a view to securing equality of standard and the acceptance of the certificates by Univs. and Professional Bodies, the Board of Education exercises a co-ordinating authority with the help of a Secondary School Examinations Council composed of 22 representatives of the Examining Bodies, County Councils Assocn., Assocn. of Municipal Corporations, Assocn. of Education Committees, and Teachers' Registration Council under a Chairman appointed by the Board of Education. The Examinations Council keep in close touch with the Examining Bodies and conduct a regular scrutiny of their statistics, regulations, and syllabuses. In addition a detailed investigation of the methods and standards of award is held from time to time. Provision is made for ensuring that teachers in the Schools are brought into touch with the Examining Bodies; that a School is examined, if it so desires, on its own syllabus, unless the Examining Body considers it inadequate; and that estimates of the merits of their candidates in each of the subjects offered by them, if submitted by Head Masters and Head Mistresses, are taken into account in the award of certificates.

Schools are not required as a condition of recognition for grants from the Board of Education to take these examns., but Schools on the grant list entering pupils for them under conditions approved by the Board receive an additional grant in respect of the examn. fees of each pupil so entered. The entrance of pupils attending grant-earning secondary schools for any examination below the stage of a First Examn. is closely restricted.

Among the functions of the Secondary School Examns. Council is negotiation with Univs. and Professional Bodies for the acceptance of the examn. certificates as exempting the holders from certain other examns. They are now accepted, subject to various qualifications, by all English Univs. and by a number of professional bodies (*see*

Appendix IV.), as exempting from entrance examns. The Second Examinations are also recognized by many Univs. for exemption from Intermediate Examns. and for admission to Honours courses, etc.

The Higher School Certificate qualifies for exemption from the Intermediate degree examns. in the faculties of arts, pure science, and applied science, subject to certain conditions, at Durham and Bristol; also from the pre-registration examn. in physics and chemistry in the Faculty of Medicine at Durham; in science and engineering and in chemistry and physics for first B.D.S. (Parts A and C) at Liverpool; in arts, science, engineering, and metallurgy at Birmingham; from certain courses in arts at Manchester and Leeds; and from the external and internal degree examns. in arts, science, economics, and commerce of London Univ., either in whole or in part, according to the subjects taken; at Reading, for exemption or partial exemption from the Inter. Examns. in the faculties of letters, science, agriculture, and horticulture, subject to certain conditions; at Sheffield exemption from the Preliminary Examn. in Chemistry and Physics for medical students and Pre-Registration Examn. in Chemistry and Physics for dental students may be obtained by students who have satisfied the examiners in Chemistry, theoretical and practical, and Physics, theoretical and practical, taken as two full group subjects in the Higher School Certificate Examn. (*See below under each Univ. or group of Univs.*)

WALES. The School Certificate of the Central Welsh Board showing a pass with credit at one and the same examn. in all the required subjects of the matricn. examn. is accepted by the Univ. for matricn.; so, also, are certifs. of other First Examns. (*See below.*)

SCOTLAND. On December 31, 1918, there came into operation Ordinance No. 70 (General No. 3) of the University Courts of the four Scottish Univs. as to Admission for purposes of graduation. This defines the normal test of fitness as "the production of evidence duly attested by a competent authority of the satisfactory completion of a suitable course of secondary education," and sets up an Entrance Board to regulate the application of this principle. This Board has provided by General Regulations for the recognition of Group Certifs. of the Scottish Education Dept. and, in the case of Schools in Scotland not regularly presenting candidates for these certifs., other evidence of completion of suitable courses. It has similarly provided for the recognition of Leaving or other certifs. in the case of applicants from outside Scotland. The admission of applicants who, owing to exceptional circumstances, have not been able to fulfil the normal conditions is provided for by Special Regns. (*See below.*)

IRELAND. The Leaving Certificate of the Dept. of Education of the Irish Free State or the Senior Certificate of the Ministry of Education of Northern Ireland is accepted by the Univ. of Dublin and the National Univ. of Ireland, subject for subject, in lieu of their matricn. examns., and (subject to special conditions in respect of Maths.) by Belfast. Belfast and the N.U.I. also accept, subject for subject, certain other certificates. (*See below.*)

ADMISSION OF STUDENTS FROM THE KING'S DOMINIONS OVERSEAS AND FROM FOREIGN COUNTRIES. As regards a student educated in another country the regulations are drafted on the understanding that the application of the ordinary entrance tests might be inappropriate owing to these tests having been framed with reference to secondary education curricula different from those which obtain in his own country, or to the student having reached a stage in his education at which the passing of ordinary entrance tests would involve a wasteful repetition of preparatory studies. They accordingly provide for the acceptance from such a student of other evidence of academic qualifications: ordinarily, *certifs.* (*e.g.* Dominion Matriculation examns., Abiturienten-examen, Baccalauréat), which would entitle to admission to a Univ. in the student's own country, together with such further evidence as may be necessary to ensure that no student shall be admitted to a course of study for a degree without a reasonable prospect of his being able to pursue it to graduation; in particular, if the student be one whose mother tongue is not English, evidence that he has a sufficient mastery of this language to enable him to follow courses of instruction conducted in English. When certificates are in a foreign language they should ordinarily be accompanied by a certified English translation. Unless the certificate shows on its face that it would admit the holder to a Univ. in his own country it should be accompanied by an authenticated declaration by a Government official, or Official of an Embassy, Legation or Consulate of the country to which the applicant belongs, testifying that the certificate would entitle the holder to enter on a regular course of study in a Univ. or Technical Coll. affiliated to a Univ. in that country. Intending students should apply for information to the Registrar of the Univ. in which they desire to be matriculated. The regulations are summarized below under each Univ. or group of Univs.

SCHOOL EXAMINATIONS IN OTHER COUNTRIES are also recognized for admission to the Univs. of the United Kingdom. (*See* below under each Univ. or group of Univs.)

SPECIFIC CONDITIONS

Candidates for admission to a University in Great Britain or Ireland, unless they are graduates of a recognized University, must have passed the appropriate Matriculation Examn. of that Univ. or they must have passed an alternative exempting examn. The exempting examns., indicated by a number in this Appendix, are as follows:

Matriculation. 1, 2, 3, 4, 5, 6, 16, 18, 21.

In addition certain Universities, *e.g.* those grouped under the Joint Board (No. 6 above), and Durham University, have special regulations for individual faculties (as to the subjects to be taken at the qualifying Entrance Examn.). The Scottish Universities have regulations as to subjects taken at the Entrance Examn. which affect admission to specific classes. The Universities also include certain examns. other than those enumerated above as qualifying for admission. These examns. and the conditions affecting them are referred to in the text below under each University or group of Universities.

THE NORTHERN (ENGLISH) UNIVERSITIES JOINT BOARD

BIRMINGHAM, LEEDS, LIVERPOOL, MANCHESTER, AND SHEFFIELD

The examns. held at each of these Univs. (School Certif. and Higher School Certif. in July, also School Certif. and Higher School Certif. Subsidiary subjects in September) are conducted by a Joint Board. Further information may be obtained from the Secy. (J. M. Crofts), 315 Oxford Road, Manchester 13.

I. A candidate is qualified to enter upon a degree course at one of the five Univs. if he holds : (a) A School Certif.*, and (b) *either* (i.) a Higher School Certif., *or* (ii.) a certifying letter that he has passed at one and the same Higher School Certif. Examn. in four approved subjects at or above the Subsidiary standard.

II. The School Certif. Examn.* and the Higher School Certif. Examn. of the following bodies are accepted in addition to those held by the Board :

* Certificates awarded on a lower standard of pass in Group II. or in Group III. are not accepted.

- (i.) The Oxford and Cambridge Schools Examn. Board.
- (ii.) The Oxford Local Examn. Delegacy.
- (iii.) The Cambridge Local Examn. Syndicate.
- (iv.) The Univ. of London.
- (v.) The Univ. of Durham.
- (vi.) The Univ. of Bristol.
- (vii.) The Central Welsh Board.

III. A Certificate of having passed any one of the following examns., 1, 2, 3, 4, 5, 16, 17, 18, 19, 21 (v. *supra*, paragraph headed "Specific Conditions") will be accepted in lieu of a School Certif. under I. above. The Examn. for Trained Certificated Teachers and the Intermediate Certif. Examn., Dept. of Education, Irish Free State, are also accepted for this purpose.

IV. Alternative to the requirements set out in I. above, a candidate is entitled to enter upon a degree course if he holds any one of the following :

- (i.) A degree conferred by an approved Univ. after examn.
- (ii.) A Certif. of having passed an Intermediate Examn. of the Univ. of London.
- (iii.) The Leaving Certif. of the Scottish Education Dept. under certain conditions.
- (iv.) The Leaving Certif. of the Dept. of Education, Irish Free State, under certain conditions.
- (v.) The Matriculation Certif. of a British Overseas Univ.
- (vi.) A Certif. of having passed at one and the same examn. the Intermediate Examn. in Arts, Science or Medicine of an approved Indian Univ.
- (vii.) The Matriculation Certif. of the Palestine Board of Higher Studies.
- (viii.) The Secondary Education Certif. Part II. of the Egyptian Ministry of Education.
- (ix.) A foreign examn. certif. which entitles him to enter on a Degree course in all Faculties of a recognized Univ. of the country in which the certificate was issued.
- (x.) A certificate showing that the holder is a Barrister or a Solicitor having passed the Final Examn. of the Law Society (Faculty of Law only).
- (xi.) The Special Army Education Certif. at the Advanced Standard, duly attested.

V. Until November 30, 1942, candidates will be admitted to a Degree course in Law (LL.B.) or in Architecture (B.Arch.) if they fulfil the requirements for a Matriculation Certif. or for a certif. of exemption as defined by the Board's Regulations for the award of School Certifs. and Matriculation Certifs., 1937, and provided also that they have satisfied any special requirements demanded by the Faculty concerned.

VI. For candidates who may not be able to satisfy any of the foregoing conditions a Special Examn. will be held ; candidates must be 17 years of age on or before July 31 of the year of examn. and must satisfy the examiners in English Language and in five other subjects. Entries will be received up to April 25.

VII. An examn. for candidates of mature years (age 23 or over on

May 1 of year of application) will be held. Applications will be received up to May 1.

VIII. An examn. for candidates who have been engaged in industry (age 19 or over on July 31 of year of application) will be held. Applications will be received up to April 25.

Candidates who hold Matriculation or other certificates awarded before December 1, 1937, which qualify them to enter upon a degree course under regulations in force at the date of award, will still be eligible to enter upon such a course.

N.B. —Birmingham. Applications from overseas students must be received on or before June 1.

Leeds receives applications from persons resident outside the United Kingdom up to May 31.

At *Liverpool* the Senate, after report from the faculty concerned, determines before registration whether the applications of foreign, Egyptian, or Indian students shall be accepted. Applications for registration from such students must be received before Oct. 1 in each year, and must be accompanied by detailed references certifying as to character and educational qualifications. Students, except candidates for the School of Architecture, who cannot present a Certificate issued by an approved Institution in their country of origin or by another approved Institution, stating that they are able to use English for the purpose of their work, will be required, before admission to courses of study in the Univ., to submit themselves to a test in the language. Such students must submit their applications for admission not later than Oct. 1 in each year.

Special Regulations for Entrance to Faculties

BIRMINGHAM. Candidates entering the *Arts* faculty, except those taking a degree in Music, or an Honours degree in German, Geography or Economics, must have passed in Latin (or Greek) and a Modern foreign language at subsidiary Higher School Certif. standard. (b) Nos. 1, 2, 3, 6, 15. Candidates must show either (i.) Passes in 5 subjects at one and the same examn., or (ii.) Passes in 6 subjects at not more than two examns.

(c) Nos. 7 (a), 8 (a), 9 (a), 10 (a), 11 (a), 12 (a). These examns. are recognized only for one or two additional subjects passed at a

subsequent examn. in accordance with (a) (iii.) and (iv.) and (b) (ii.) above.

(d) No. 22. Same conditions as under (b) above.

Foreign and Colonial—Foreign or Colonial students must produce evidence that they have passed in their own country an examn. of the requisite standard, and in approximately the same subjects as would have been required had they taken one of the recognized examns. ; and further, in the case of foreign students, that they have sufficient proficiency in English to enable them to follow a course of study with profit.

India—For Indian students no qualification lower than that of the Intermediate Examn. of an Indian Univ. will be considered, except that holders of the Diploma of the Thomason Engineering College, Roorkee, will be considered on their merits. Candidates proposing to proceed to a degree in Applied Sc. (Civil, Mech., Marine or Elect. Eng., Naval Arch., Mining or Metall.), who present the Intern. Certif. of an Indian Univ. must have completed that examn. in Maths., Physics, and Chem. All applications from Indian students other than those from Hyderabad, Deccan, must be made through the High Commissioner for India, Education Dept., India House, Aldwych, London, W.C.2.

Special Exemptions

(i.) Candidates educated chiefly in Scotland holding such qualifications as would admit them to a faculty in a Scottish Univ. will be admitted to the corresponding faculty in the College.

(ii.) Candidates who have attained the age of 19 and produce evidence satisfactory to the College that they have been engaged in technical or professional pursuits or in business in the United Kingdom for a period of approximately two years since reaching the age of 16, may be permitted to matriculate on passing the Special Entrance Examn., instead of one of those mentioned above. Details from the Registrar.

(iii.) Candidates of 23 or more years of age whose native language is English may be permitted to matriculate if they produce satisfactory evidence of educational attainments, but may be required to pass the Special Entrance Examn.

(iv.) In special circumstances not provided for above, candidates may apply for exemption from ordinary requirements. Such candidates may be required to pass part or all of the Special Entrance Examn.

Special Regulations for Entrance to Faculties

Arts (except Architecture) or *Law*. Candidates must pass with credit in Latin under (a) above or have passed in Latin under (b), (c), or (d) above.

Architecture. Candidates for a degree in Architecture must have passed with credit in Maths. under (a) above, or in Maths. under (b) or (d) above.

Pure Science, if Maths. or Physics is intended to be taken in degree course, and *Applied Science* in Engin., Elect. Engin., or Naval Architecture. Candidates must have passed with credit in Maths. under (a) above, or have passed in Maths. under (b) or (d) above.

Pure Science, if Maths. or Physics is not intended to be taken in

degree course, and *Applied Science* in Mining, Metallurgy, or Agriculture. Candidates must have passed in Maths.

The Medical School

The Univ. holds no matricn. examn. for the Medical School, but recognizes School Certif. and other matricn. examns. if certain subjects are passed in the prescribed manner, and at not more than any two periods of examination. The subjects include English, Maths., an ancient language, a modern language, and a fifth subject to be chosen from a list of 15. Credits must be obtained in English, Maths., and in two out of the other three subjects. Further particulars from the Dean of Medicine.

Exempting Examinations

Great Britain and Ireland—Matricn. in the Fac. of Med. of any Univ. in Gt. Britain and Northern Ireland or the Irish Free State, provided that the subjects include those required in the Fac. of Med. of this Univ. and by the General Medical Council for registration of medical students; or a degree in Arts or Science of any Univ. in Gt. Britain and Northern Ireland or the Irish Free State.

Dominions and Colonies—Matricn. in the Fac. of Med. of any Univ. in the British Crown Colonies or Dominions, provided that the examn. passed satisfies the General Medical Council for registration of medical students; or a degree in Arts or Science of any Univ. in the Dominions or British Crown Colonies.

India and Malaya—Students from India and the Malay States may be accepted for matricn. if they have passed certain approved examns. in those countries; copies of the regulations for such students are obtainable from the Dean of the Medical School.

Foreign Students—Matriculation in the Fac. of Med. of an approved Univ. provided that the examn. passed satisfies the General Medical Council for registration of medical students; or a degree in Arts or Science of an approved Univ.

LONDON

The University conducts three examns. qualifying for matriculation :

- (1) The Matriculation Examn.
- (2) The General School Examn.
- (3) The Special University Entrance Examn.

(1) Three times a year in London, and twice a year in certain Provincial centres, the University holds a Matriculation Examn. open to all persons of 16 years of age and upwards. To pass, a candidate must at one and the same examn. satisfy the examiners in English, Elementary Maths., and 3 of the following : (a) Latin, (b) Greek, (c) Botany, (d) Chem., (e) Heat, Light, and Sound, (f) Mech., (g) Elect. and Magnetism, (h) General Biol., (j) Zool., (k) Geol., (l) French, (m) German, (n) Spanish, (o) Italian, (p) Russian, (q) Welsh, (r) New Testament Greek, (s) any other approved language, (t) History—Roman, or Greek, or English, or European, or of the British Empire, (u) Geog., (v) Logic, (w) Drawing—geometrical and mechanical, (x) Maths.—more advanced, (y) Music—theory, (z) Econ., (aa) Religious Knowledge. One of

the 8 subjects (a) to (n) must be included except in the case of certain Asiatic or African students or Jewish students (resident in Palestine), who may be permitted to offer one of the following in this section : Arabic, Chinese, Classical Hebrew, Pali, Persian, Sanskrit, Classical Syriac ; and one of the subjects offered must be a lang. other than English. Candidates may present two special Oriental langs. under certain conditions. At the Intermediate Examn. in Arts it is compulsory to offer (a) or (b), whether taken at the Matricn. examn. or not. Law students are advised to offer (a) and English History.

This examn. may also be held in any of the British Dominions or Colonies, and certain Protectorates and Mandated Territories and at centres outside the Empire upon the application of His Majesty's Representative in the countries concerned.

(2) The Examinations for School Certificates are held only in Schools inspected by the Univ. or under other approved inspection ; the course of study in the school must also be approved. The examns. are of 2 grades : I. Higher, II. General ; for I. the Higher School Certif. and for II. the General School Certif. respectively. These Certifs. are not awarded until the pupil leaves school. The examn. fees are £3, Higher ; £2 : 5s., General. At the General candidates may qualify for exemption from Matricn., and at the Higher for exemption from Intern. Examns. (Arts, Sci., Comm., Econ., Engin., First Medical), extra fees being payable. The combination of subjects that may be taken at the General School examn. offers greater variety than is the case in the Matricn. examn., and a pupil who reaches the necessary standard at one and the same examn. in a combination required for Matricn. is entitled on payment of the registration fee of £2 : 2s. to be registered as a Matriculated student of the Univ., if or when he has attained the prescribed age. A candidate who obtains a General School Certif. but fails to reach Matricn. standard at that Examn. may still qualify for Matricn. if he afterwards obtains a Higher School Certif.

(3) The Special University Entrance Examination is open to :— I. Persons aged 19 yrs. or over holding (a) Certifs. of Matricn. in Colonial and Dominion Univs., or (b) Indian or Foreign Certifs. from an academic or other educational authority which in the opinion of the Principal indicate a standard equivalent in their own country to that required for matricn. in this Univ. The *Palestine Matricn. Certif.* is included under this head. II. Persons over 23 yrs. of age. The Examn. is usually held in March, May, Sept., and Dec., and consists of 4 or 5 subjects, of which English and either Maths. or Logic are compulsory. English-speaking candidates are required to offer a lang. other than English. No candidate is admissible unless it is his *bona fide* intention to proceed to a degree or diploma in the Univ. All candidates must attend in London for both the written part (which lasts 2 days) and the oral part of the examn. No syllabus is published. The fee is 5 gs.

Full information regarding all these examns. may be obtained from the Secretary, Matriculation and School Examinations Council, University of London.

Exempting Qualifications

Exemption may be obtained by (1) graduates of any of the Univs. of

the U.K. and the following overseas Univs.: In Canada—Acadia, Alb., Br. Columbia, Dal., King's, Laval, McGill, McMaster (B.A. only), Manitt., Montr., New Bruns., Nova Scotia Tech. Coll., Queen's, Saskatchewan, Tor., Vict. (Tor.), W. Ontario; Australasia—Adel., Melb., Qld., Syd., Tas., W.A. (Arts, Sc., Agr., Eng.), N.Z.; S. Africa—Cape, Cape Town, S. Afr., Stell., Witw.; India—Agra, Aligarh, All., Andhra, Annamalai, Benares, Bom., Calc., Dacca, Delhi, Lucknow, Mad., Mys., Nagpur, Panj., Patna, Rang.; Hong-Kong; Malta; certain Univs. in countries outside the British Empire; (2) subject to certain conditions, persons who have passed the examns. numbered 2, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15; (3) persons who hold the Adelaide Leaving Certif., Melbourne School Leaving Certif., Queensland Senr. Public Examn., Tasmanian Public Leaving Examn., W. Australia School Leaving Certif., Matric. Examn. Certif. of the Joint Matric. Board of S. Africa, Secondary School Senior Certif. of the Dept. of Public Education, Cape of Good Hope, Transvaal Secondary School Certif., provided that the student has reached a specified standard at one and the same examn. in English, Maths., and 3 other prescribed subjects, of which one must be Latin or Greek or French or German or Spanish (Cape of Good Hope—not Greek) or a Science.

The regns. relating to exemption from the Matric. Examn. have been amended so that any School Certif. together with any Higher School Certif., obtained in or after 1937, of the following approved Examining Bodies will be accepted for the purpose of exemption from Matric.: Bristol Univ., Cambridge Local Examns. Syndicate, Central Welsh Bd., Durham Univ., Northern Univs. Jt. Matric. Bd., Oxford Local Examns. Delegacy, Oxford & Cambridge Schools Examn. Bd.

The introduction of these regns. does not exclude the existing regn. which permits a candidate to qualify for Matric. at the School Certif. Examn. providing he obtains the necessary credits required under the regns.

OXFORD

Admission to the Univ. ("Matriculation") is without respect of sex, age, nationality, or creed, and follows upon admission to a Society, *i.e.* a College or Hall or Society. No one can become a member of the Univ. unless he first becomes a member of one of these Societies. An application for admission must therefore be addressed, not to any officer of the Univ., but to the proper officer of the Society to which admission is desired, *e.g.* Balliol—The Tutor for Admissions; St. Catherine's Society—The Rev. the Censor; in other cases—The head of the Society. (*See* Colleges, etc. under Oxford Univ.) It should be made, if possible, a year or more before residence is contemplated, especially if rooms within the College are desired. Except for certain classes of persons the passing of an entrance examn. is a condition of admission to matric.

The Colleges and Halls and Societies require certain qualifications of character and intellectual attainment in which the passing of *Responsions* or some equivalent examn. is necessarily included.

Responsions comprises: I. (a) Latin, (b) Greek; II. (a) Holy Scripture, (b) English, (c) French, (d) German, (e) Italian, (f) Spanish; III. (a) Maths., (b) Natural Science. To pass, a candidate must have satisfied the examiners *either* in both subjects from Group I. and in

both subjects from Group III., or in at least one from each group and in 4 subjects in all; he must also have passed in 2 languages other than English, and either have passed in all 4 subjects at one examn. (in which case special merit in one or more subjects may compensate for comparative weakness in any one) or in 3 at one examn. and in a fourth at a subsequent examn.

Exempting Examinations

Great Britain and Ireland, etc.—Exemption may be obtained :

A. By persons accepted for admission as Service Students or Imperial Forest Service Students or Special Students or Senior Students, or as candidates for the degree of B.C.L. under certain conditions, or as Advanced Students, or as candidates for the Degree of B.Litt. or of B.Sc., or who hold a degree at another Univ., such degree and such Univ. having been approved by the Hebdomadal Council, or as Students of Mature Years recommended by the Delegates for Extra-mural Studies under certain conditions. Exemption may also be claimed by anyone who has pursued a course of study extending over 2 yrs. at a Univ. approved for Senior Status, provided that the applicant has passed all examns. incidental to his course at that Univ. and has submitted a certif. of satisfactory progress signed by a competent authority of that Univ.; and provided further that the required course of study at an Asiatic Univ. has included the study of English and has been pursued subsequently to the Intermed. Examn. or to the corresponding stage at a Univ. which does not hold an Intermed. Examn.

B. Subject, *inter alia*, to passing in 2 of the languages, Latin, Greek, French, German, Italian, Spanish, of which either Latin or Greek shall be one, persons who have passed a School or Higher School Certificate Examn. (7, 8, 9, 10, 11, 12, 13, or 14 (b)) or gained a class in the Final Senior Freshman Examn. of Dublin or a Scottish Preliminary Examn. Certificate, or passed any of the examns. numbered 2, 3, 4, 5, 6, 15, 17, or the Intermediate Arts or higher examn. of Birmingham, Durham, Leeds, Liverpool, London, Manchester, Sheffield, or Bristol.

Dominions and Colonies—Exemption may be granted to any person who has obtained (1) a certificate of having passed either (a) the matriculation examn. of the Joint Board of the South African Universities, or (b) the Secondary School Certificate Examn. of the Education Dept. of the Transvaal or (Senior Certif.) of the Cape Province, provided that it shows that he has obtained at least 60 p.c. in each of two of the languages Latin, Greek, French, German, Italian, Spanish, of which Latin or Greek must be one; or

(2) A certificate or certificates of having passed one of the following, provided he has satisfied the examiners in two of the said languages, of which Latin or Greek must be one :

Univ. of McGill Matricn., or First Year in B.A. course; Ontario Educn. Department's Middle School Examn.; Univ. of Toronto Senior Matricn., or First Year; Council of Higher Education, Memorial Univ. Coll., Newfoundland, First Year Examn.; Brit. Columbia Sen. Matricn., Brit. Columbia Jun. Matricn. (60 per cent in each of the two cases);

Univ. of Adelaide Public (Leaving) ; Univ. of Melbourne School Leaving (Class B) ; Univ. of Tasmania Public Leaving ; Univ. of W. Australia School Leaving ; New South Wales Educn. Department's Leaving Certif. ; Univ. of Sydney Matricn. (the two necessary languages at the Higher Standard) ; Univ. of Queensland Sen. Publ. Examn. ;

New Zealand Matricn. or Entrance Scholarship ;

Univ. of Malta Matriculation ;

Univ. of Hong-Kong Matriculation Examn.

India—See A above.

Palestine—Exemption will be granted to any Palestinian student holding a scholarship from his Govt. to enable him to pursue a course of study at the Univ., provided that he holds the Matricn. Certif. of the Palestine Board of Higher Studies, showing that he passed with credit in English (Syllabus A), and in one of the languages, Latin, Greek, French, German, Arabic, or Hebrew (Syllabus A).

Foreign Students—Exemption may be granted to any person who has obtained a certificate or certificates qualifying him for admission to a univ. in Austria, Belgium, Czecho-Slovakia, Denmark, Finland, France, Germany, Holland, Hungary, Italy, Norway, Poland, Sweden, Switzerland, or Yugoslavia, or a Certificate of Part I. of the Baccalauréat de l'Enseignement Secondaire in France, provided it shows that he has satisfied the examiners in either Latin or Greek.

Natives of Asia, Egypt, or the Sudan, born of non-European parents, can apply for permission to offer a substitute for Latin or Greek in Responsions.

Admission to Privileged Standing : " Senior Status."

The following may be admitted to the status and privileges of a Senior Student :

(1) Any person who has obtained a Degree at another Univ., such Degree and such Univ. having been approved by the Hebdomadal Council,* provided that he shall have pursued a course of study extending over 3 yrs. at the least at a Univ. or Univs. so approved, or, should the Hebdomadal Council in his case approve, partly at a Univ. so approved and partly at another or other Univs.

(2) Any person who, having been a student at a Univ. in a European country, where there is no Degree in any way equivalent to that of Bachelor of Arts but where there are State or Univ. examns. at approximately the same stage as the examns. for the Degree of Bachelor of Arts, has passed such State or Univ. examn., such examn. and such Univ. having been approved by the Hebdomadal Council, provided that he shall have pursued a course of study extending over 3 yrs. at the least at a Univ. or Univs. so approved.

(3) Any person who has obtained a Degree at another Univ. and has also been selected to come to Oxford by some Body approved, for the purposes of this Sectio by the Hebdomadal Council.

* The Hebdomadal Council will not approve any Degree of an Indian Univ. under this clause unless the course of study leading to it has extended to 3 yrs. subsequently to the Intermed. Examn. In most cases a First Class is required either in B.A. Honours or B.Sc. Honours or M.A. or M.Sc.

(4) Any person who, though not eligible under sub-clause (1) or (2) or (3), has satisfied the Hebdomadal Council that he is particularly well qualified to be admitted as a Senior Student.

(5) Any medical student of a Univ. in the British Dominions or Colonies or in Gt. Britain and Northern Ireland may be admitted to the status and privileges of a Senior Student ; provided that the Univ. shall have been approved by the Hebdomadal Council and that he shall have pursued at that Univ., or, should the Hebdomadal Council in his case so approve, at more than one Univ., for at least 3 yrs. a course of study leading to a degree in Medicine and shall have passed all examns. incidental to that portion of the course.

A Senior Student : (a) may reckon his 1st term as his 4th ; (b) is not required to pass Responsions or any part of the 1st Public Examn. ; (c) is entitled to supplicate for the Degree of B.A. after having kept statutable residence for 6 terms, and having (i.) obtained a place in the Class List of an Honour School of the 2nd Public Examn., or been allowed "aegrotat," or, if disqualified by standing from obtaining Honours, shown such merit as would otherwise have entitled him to a place in the Class List ; or (ii.) satisfied the Examiners in the 2nd Public Examn. in the Final Honour School of Nat. Sci. in Chem., Pt. I ; or (iii.) passed the Preliminary Examn. in Agriculture, Forestry and Geography and the Final Examn. in the School of Forestry.

No Senior Student will be entitled to supplicate for the Degree of B.A. except as above.

Incorporation. Admission of members of the Univs. of Cambridge and Dublin to incorporation. See p. 267.

(d) Persons who, being at least 23 years of age, have passed a special examn. held by the Univ. "for approved candidates of mature years." In exceptional circumstances the Senate may accept other evidence of previous education and attainments.

WALES

The Matriculation Examn., the passing of which is a condition of matriculation for students of the constituent Colleges who have not passed an equivalent examn., is held at each of these Colleges and at

certain approved Adult Schools about the end of Jan. and the end of June each year. The subjects are (a) English, (b) Welsh Lang. and Lit., (c) Latin, (d) Greek, (e) New Testament Greek, (f) Welsh, (g) French, German or other approved language, (h) History, (i) Scripture, (j) Music, (k) Art, (l) Geography, (m) Economics, (n) Maths., (o) Mechanics, (p) Physics, (q) Chemistry, (r) Botany, (s) Biology, (t) Geology, (u) Practical Plane and Solid Geometry, (v) General Science. A candidate must pass at one and the same examn. in 5 subjects, including (a) or (b), one of (c), (d), (e), (n); and at least in one language in addition to English or Welsh Lang. and Lit., and either (n) or (l), or one of (o) to (v). No candidate may offer more than one of (v), (j), (k) or both (b) and (f), or both (d) and (e), or both (e) and (i), or both (r) and (s), or both (l) and (t). A candidate who wishes to offer Economics must offer (n), or one of the subjects (o) to (v). A candidate who wishes to offer General Science may not offer one of the subjects (o) to (u).

Exempting Examinations

Great Britain and Ireland—(a) Nos. 3, 6, 16, 19, 21.

(b), 7 (b), 8 (b), 9 (b), 10 (b), 11 (b), 12 (b), 13, 14 (b), 15 (Higher Grade), 17, 20, 22, with credit at one and the same examn. in each of the subjects required by the Welsh Matricn. Regulations.

Note. The certificates of candidates desiring exemption must in general comply with the conditions of exemption in force at the time of the award of the certificate.

Dominions and Foreign—Candidates who have qualified by examn. for a degree of an approved Univ. or College, or have passed the Matricn. examn. of the South African Univs. or of the Swiss Univs., or of the Palestine Board of Higher Studies (Syllabus A), or the secondary school certif. examn. of the Transvaal or Cape Province Education Dept., or the Egyptian Secondary Education Certificate Examn. Part II., in the subjects required by the Univ. matricn. regulations, or, if certified by a constituent Coll. as possessing sufficient knowledge of English to profit by a degree scheme of study, the Intermediate Examn. in Arts or Sci. of an approved Indian Univ., may matriculate without further examn.

Special Exemptions

Candidates of 23 or more years of age after a written and *viva voce* examn. conducted by a constituent College may be exempted on the recommendation of the constituent College.

Candidates of not less than 20 years of age who have been full-time pupils of an approved adult school during not less than 2 yrs. may pass the matricn. examn. in 4 subjects provided they satisfy the authorities of the adult school in a fifth subject.

Candidates for Diplomas of the constituent Colleges who are not less than 20 yrs. of age and who have been for at least 1 yr. full-time students at a constituent Coll. may pass the matricn. examn. in 4 subjects provided that they satisfy the Coll. in a fifth subject.

Special Regulations for entrance to the Faculty of Medicine

No candidate for the degrees of M.B., B.Ch. will be accepted, unless he has passed, prior to admission, the matriculation examn. or an examn.

recognized by the Univ. of Wales as equivalent thereto and has passed the matriculation or equivalent examn. in two of the following subjects, *of which one shall be either Physics or Chemistry*, viz.—Physics, Chem., Bot., Zool. and Biol. This regulation will not apply to persons holding a degree of a British Univ.

No candidate is accepted for admission to the Depts. of the *Second Year* of the medical course until he has pursued and completed by examn. at one and the same time, the four first year courses. This regulation may, however, be relaxed at the discretion of the Joint Academic Committee of University College, Cardiff, in certain cases where only *one* of the four first year courses named above is outstanding.

SCOTTISH UNIVERSITIES

Qualifications for admission to degree courses in Scottish Universities

I. Scottish Education Dept.'s Group Leaving Certificate showing passes (including at least two on the Higher Standard) in at least 4 of the following subjects: (i.) English (including Literature and History); (ii.) Maths., Dynamics, Physical Sci.; (iii.) Latin, Greek, French, German, Italian, Spanish, Gaelic; (iv.) Nat. Sci., Art, Music, Applied Sci., provided (a) the passes must include one from each of the groups ii. and iii.; (b) unless they include three on the higher standard the Certificate must show either (1) passes in Latin (or Greek) and in Maths., or (2) a pass on the Higher Standard in Latin (or Greek) or in Maths., and all the four passes must be in subjects taken from groups (i.), (ii.), and (iii.); but the Board will accept a pass in Higher Nat. Sci. as one of the four passes.

II. Other certificates affording evidence of a satisfactory secondary education on lines above specified.

III. Preliminary Examination under the Entrance Board in 4 subjects selected from the following, including at least one from each of the first 3 groups: (i.) as under Clause I.; (ii.) Maths., Physical Sci., Dynamics; (iii.) as under Clause I., or other approved language; (iv.) Nat. Sci. (any 2 of Chem., Bot., Zool., Geog.). Proviso (b) applies (except as regards the limitation to passes from subjects in Groups (i.), (ii.) and (iii.)), and candidates are ordinarily required to reach the pass standard in English. The only subjects in this examination in which lower standard passes can be obtained are Latin, Greek, and Maths. Candidates submitting both Physical and Nat. Sci. may select questions in the Chemical Section of one only of these branches. Examns. held March and Sept.

The holder of a degree obtained otherwise than *honoris causa tantum* in any British or foreign Univ. is exempt from all Prelim. examination.

Exempting Examinations

Great Britain and Ireland—A. Nos. 1, 2, 3, and any School or Local Examn. conducted under the auspices of the Univs. of Oxford or Cambridge which are accepted as exempting from (1) and (2) respectively.

B. Such qualifications as would admit a candidate to the Faculty of Arts or the Faculty of Science in a Univ. in England, Wales, or Ireland, provided he has been educated chiefly in one of those countries.

Dominions and Colonies—Candidates from the British Dominions or Colonies may be exempted from the Preliminary Examn. if they have passed examns. which would admit them to a course qualifying for graduation in Arts or Science in Univs. or Technical Colleges affiliated to a Univ. in the Dominion or Colony from which they come, provided their knowledge of English is sufficient to enable them to follow the courses of instruction with profit. Those whose native language is other than English are required to pass an examn., oral and written, in English, including set books.

India—Students from India are admitted subject to the condition that they have obtained a first class in an Intermediate Examn. in Arts or Science in a recognized Indian Univ., and have at some stage of their course passed in English and Maths. or Science.

Hong-Kong—The Matriculation Certif. of the Univ. of Hong-Kong will be accepted.

Burma—Students from Burma must have passed the Intermediate Examn. of the Univ. of Rangoon and have passed at some stage of their course in English and Maths. or Science.

Palestine—The Matriculation Certificate of the Dept. of Education of the Government of Palestine will be accepted, provided the candidate has passed with credit in English according to Syllabus A, and has obtained a pass with distinction in one subject at least and passes with credit in three other subjects, one of which may be English.

The Intermediate Examn. for the Arts and Sci. Diploma of the Palestine Board of Higher Studies will be accepted.

Foreign—Certifs. entitling the holder to enter upon a regular course of study leading to a degree in Arts, Pure Sci., or Med. in any of the Univs. or Colls. approved by the Assocn. of American Univs. (*see* Appendix VIII.) are recognized for exemption from the Prelim. examn.

The B. ès L. and B. ès Sc. and similar "certifs. of Maturity or Grades, entitling the holder to enter upon a regular course of study in the Univs. of his own country," are accepted subject to the above-mentioned conditions as to knowledge of the English language. Argentine Certificates giving admission to the Univ. of Buenos Ayres, the B.A. degree of St. John's, Shanghai, the first-class certificates of the Anglo-Chinese College, Amoy, and, if including Arabic, English, and Maths., the Egyptian Secondary Education Certificate, have been recognized as exempting from the Prelim. examination.

Applicants of Chinese birth who have passed the Entrance Examn. entitling them to enter upon a course leading to a degree in Arts or Pure Science or Medicine in one of the recognized Chinese Univs. will be granted the Board's Certif., provided they pass the Special Examn. in English for foreign students.

N.B.—In each Univ. the Senatus may for any particular class, attendance on which for a specified period is necessary in order to qualify for graduation, determine the conditions of admission to such qualifying attendance.

Application to the Secretary of the Scottish Universities Entrance Board, 81 North Street, St. Andrews, should be made by all overseas students seeking admission to Scottish Univs.

Special Exemptions

The Board has a general dispensing power in regard to applicants of not less than 21 yrs. of age who satisfy it as to their fitness.

Full information as to the regulations for examinations and for exemptions can be obtained from the Secretary, Scottish Universities Entrance Board, 81 North Street, St. Andrews.

Exemption from Courses in Medicine and Surgery

Subject to certain conditions 3 yrs. or 9 terms of medical study may be spent in attendance on courses of instruction in the subjects of the curriculum at any Univ. of the U.K., or at such Dominion, Indian, Colonial or foreign Univ., or at such medical schools, or under such teachers as may be recognized for the purpose.

Special Regulations for Entrance to Classes

Aberdeen. In the case of Greek, Hebrew, Arabic, Syriac, and Mathematics, a student shall be admitted to attendance on the classes qualifying for graduation if he has the subject of the class as one of the subjects either of his Group Leaving Certificate or of the University Preliminary Examination. Where a student desires to attend a course qualifying for graduation and does not satisfy the above condition, he shall inform the Secretary to the University of Aberdeen not later than one week before the commencement of the class, and a written examination or other test will be provided to determine his fitness to attend the class.

Edinburgh. Certain preliminary passes are required for entrance to certain classes. If a student intends to take a curriculum containing a class which requires a special qualification, it is desirable that he should have included this qualification in his Leaving Certif. (or its equivalent), but failing this he may take the subject in the Univ. Preliminary Examn.

Preliminary Qualifications Necessary for Attendance at Certain Classes

Arts and Commerce. Ordinary classes in Latin, Greek, French, German, Italian, Spanish, Celtic.—A pass in the lang. on the higher standard in the Leaving Certif., or some equivalent evidence of proficiency.

Second Ordinary, Intermediate Honours, and Honours Classes in English, and Interm. and Hons. Classes in French, Italian, Spanish.—A pass in Latin on at least the lower standard in the Leaving Certif. (on the higher for Hons. English), or some equivalent evidence of proficiency.

Sanskrit.—A knowledge of the Devanagari characters and the mode of transcription described in Perry's *Sanskrit Primer*.

Hebrew.—A knowledge of Hebrew grammar (as in Davidson's *Introductory Hebrew Grammar*), and ability to read simple prose, such as the Book of Ruth, or the narratives of Genesis.

Arabic.—A knowledge of Arabic grammar, and ability to read a simple Arabic text.

Music.—A pass in Music in the Leaving Certif., or some equivalent evidence of proficiency.

Maths., Natural Philos. (Physics).—A pass in Maths. on the higher standard in the Leaving Certif., or some equivalent evidence of proficiency.

Chemistry.—A pass in an Admission Examn., unless the student has a pass in Physical Sci. (incl. Chem.) in the Leaving Certif., or other evidence of proficiency accepted as equivalent.

The Ordinary Classes in Ancient (Gk. and Roman) Hist., Gen. European Hist., Ecclesiastical Hist., and Roman Law, and Hons. Classes in British Hist., Constitutional Law and Const. Hist., and Scottish Hist.—A pass in Latin on at least the lower standard of the Leaving Certif., or some equivalent evidence of proficiency.

Accounting and Business Method.—A pass in an Admission Examn. in Book-keeping (L. C. Cropper, *Book-keeping and Accounts*, pp. 1-132), or evidence of a sufficient practical training in an office or otherwise.

Science. Maths., Technical Maths., Physics (Nat. Philos.), Chem.—As for Arts.

Engineering.—A pass in Higher Maths. in the Leaving Certif. (or its equivalent).

As Maths. or Physics is a class included in every type of curriculum for the Ordinary degree in the Dept. of Pure Sci., Higher Maths. should be included in the Leaving Certif. (or its equivalent). Every student who wishes to attend the courses in Technical Maths. must also sit an Entrance Examn. on the first Monday of the Autumn Term.

Similarly, Tech. Maths. or Physics is included in the curriculum for a degree in the Depts. of Engin., Mining, Tech. Chem., Agric., and Forestry.

Law. Civil Law.—A pass in Lower Latin in the Leaving Certif. or some evidence of a sufficient knowledge of the language.

Medicine. A student before commencing the study of Med. must have passed (1) an examn. in Gen. Knowledge recognized by the Entrance Board,* and (2) the Pre-Registration Examn. in Physics and Chem. of the Univ. or a recognized equivalent examn.†

Students taking Examn. (1) in a form which includes Chem. and Physics as an essential part of the examn. must take a separate Pre-Registration Examn. in these two subjects subsequently.

Recognition of Institutions and Teachers Outside the United Kingdom

(a) Students may apply for exemption from one (not the final) year of the course for M.A. or for B.Com. and from attendance on classes in and examn. in two subjects for the Ordinary Degree. Applications will be considered separately on their merits.

(b) For some of the courses for the B.Sc.: Madras Coll. of Agric., Colls. affiliated up to B.A. and B.Sc., and Engin. Colls. affiliated to the Indian Univs., Univs. and Polytech. Sch. supported and regulated or recognized by Govts. in Europe.

* Any student holding a certif. admitting him to an English, Irish, or Welsh Univ. will be exempted by the Entrance Bd. from Examn. (1).

† Applications for exemption should be addressed to the Dean of the Faculty of Medicine.

(c) For admission as graduate in Arts to the LL.B. examn.: the Univs. of All., Calc., Mad., v. also (f).

(d) For 2 of the 3 yrs.' study for LL.B.; McGill Univ., Madras Law Coll., Law Coll., Trivandrum, Ripon Coll., Calc., Rangoon Univ.

(e) For 3 of the 5 yrs. of Med. study: recognized teachers in Singapore (in Physiol. and Practice of Med.) and Wellington, S. Africa (in Chem.).

(f) Graduates of other institutions are admitted to study for the Ph.D. degree; each application is considered separately.

Glasgow. I. For the following classes, namely: Latin (Ordinary), Greek (Ord.), French (Ord.), German (Ord.), Italian (Ord.), Spanish (Ord.), Russian (Ord.), Hebrew (Senior), Arabic (Ord.), Celtic (Ord.), attendance shall not, except as hereinafter provided, qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in the subject of the class on the Higher Standard (where different grades exist); but any student not so qualified, if for special reasons he shall have been admitted to any of these classes by the Head of the Dept. and shall have passed in the subject of the class on the Higher Standard in March of the same academic year, may make application to the Senate for the recognition of such pass, and on such recognition being granted his attendance and class record may be allowed to qualify for graduation.

II. (a) For all Higher Ordinary classes in Arts—attendance on a Higher Ordinary class shall not qualify for graduation on the Higher Ordinary Standard unless before admission to the class the student has obtained a pass on the Ordinary Standard in the subject in which he is taking a Double course.

(b) For all second year classes of Double course subjects in Science: attendance on a second year class of a Double course subject shall not qualify for graduation on the Double course Standard unless before admission to the class the student has obtained a pass on the Single course Standard in the subject in which he is taking a Double course.

III. For the following classes, namely: English (Higher Ordinary or Hons.), French (Higher Ord. or Hons.), German (Higher Ord. or Hons.), Italian (Higher Ord. or Hons.), Spanish (Higher Ord. or Hons.), Hebrew (Higher Ord.), Celtic (Hons.), Hist. (Higher), Hist. (Hons.), Scottish Hist. and Lit. (Hons.), Constitutional Law and Hist. (Higher Ord.), attendance shall not normally qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in Latin or Greek on the Higher or the Lower Standard.

IV. (a) For the following classes in Arts and Pure Science, namely: Maths. (Ord.), Nat. Philos. (Ord.), Astronomy (Ord.), attendance shall not, except as hereinafter provided, qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in Maths. on the Higher Standard; but any student not so qualified, if for special reasons he shall have been admitted to any of these classes by the Head of the

Dept. and shall have passed in Maths. on the Higher Standard in March of the same academic year, may make application to the Senate for the recognition of such pass, and on such recognition being granted his attendance and class record may be allowed to qualify for graduation.

(b) For the following classes in Applied Science and Engin., namely : Maths. (First Course for Engineers), Applied Physics (Ord.), attendance shall not normally qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in Maths. on the Higher Standard, or that he has diligently attended a non-qualifying course in that subject ; but the Head of the Dept. shall have power to accept such evidence of proficiency in Maths. as he may deem equivalent.

V. For the following classes, namely : Logic (Hons.), Moral Philosophy (Hons.), attendance shall not normally qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in Latin or Greek on the Higher or Lower Standard, or in Maths. on the Higher Standard.

VI. For the following class, namely : Civil (or Roman) Law, attendance shall not normally qualify for graduation unless before admission to the class the student has graduated in Arts, or has produced evidence that for the Entrance Certif. or otherwise he has passed in Latin on the Higher Standard.

VII. For the following classes, namely : Hebrew (Hons.), New Testament Greek (Biblical Criticism, Junior), attendance shall not normally qualify for graduation unless before admission to the class the student has produced evidence that for the Entrance Certif. or otherwise he has passed in Greek on the Higher or Lower Standard, or that he has diligently attended a non-qualifying class in Greek.

VIII. For the following class, namely, Hebrew (Junior), attendance shall not normally qualify for graduation unless before admission to the class the student produces evidence to the Head of the Dept. that he possesses a sufficient knowledge of Elementary Hebrew Grammar.

IX. For the following class, viz., Music (ordinary), attendance shall not normally qualify for graduation unless before admission to the class the student has (a) passed in Music on the higher standard in the Leaving Certif. Examn., or (b) attended and satisfactorily performed the work of the elem. class.

In cases I. and III.-IX. either the Head of the Dept. or the Faculty concerned shall have power to accept such other evidence of fitness to profit by attendance on the class as may be deemed sufficient.

St. Andrews. In the Faculty of Arts, students who propose to attend a graduating course in Latin or Greek, or Hebrew, or French, or German, must produce evidence of having passed the Leaving Certificate Examn. in the language on the Higher Standard or some equivalent qualification, or must (in the case of Latin and Greek) have attended a Junior Class in the Univ. and duly performed the work of that class for one session. Students who wish to attend a graduating course in Maths., Applied Maths., or Nat. Philos. must show that they have passed the

Leaving Certif. in Maths. on the Higher Standard or obtained some equivalent qualification.

In the Faculty of Science, the above rule applies to the classes of Maths., Applied Maths., and Nat. Philosophy.

BELFAST

The Matriculation Examn. comprises English, Mathematics, and 3 of the following: (a) Greek, (b) Latin, (c) French, (d) German, (e) Italian, (f) Spanish, (g) Modern History, (h) Physics or Mechanics, (j) Geog., (k) Chem., (l) Bot., (m) for Faculties of Arts, Commerce, Applied Science, and Technology—Celtic, (n) for Science, Medicine, or Applied Science or Technology—Mechanical Drawing; for Commerce—(o) Elementary Economics, and (p) Accounting; for Faculty of Arts (q) Music. For Arts, Science, or Medicine one language other than English must be taken; for Commerce—French or German or Spanish; for Applied Science or Technology—one of the languages (a)-(f).; for Faculty of Law—Higher standard required in English, History and Latin. Candidates for Faculty of Arts may, under certain conditions, take Latin or Greek instead of Maths.

A candidate who has passed in at least 3 subjects, but failed to pass the examn. as a whole, is allowed to complete his matricn. at the next subsequent examn.

Exempting Examinations

Candidates who have passed any of the following examns. are admitted as matriculated students, provided that if they have not passed in all the subjects required by the Univ. for matriculation in the respective faculties they shall be required to pass in the additional subjects at one and the same Matricn. Examn.

Great Britain and Ireland—A. 1, 2, 3, 4, 5, 6, 8 (a),* 8 (b),* 9 (a),* 9 (b),* 10 (a),* 10 (b)* (provided in the case of 8 (b), 9 (b) and 10 (b) that at the same or any separate examns. the candidate has passed in 5 subjects recognized by the Univ. for matriculation and obtained credit in at least four), 11 (b), 13, 15 (subject to certain conditions), 16, 17, 19, 20.

B. Graduation examn. of a British Univ.

Dominions—The Matricn. Examn. of the Joint Matriculation Board of the Univs. of South Africa; the Matricn. Examn. of the Univ. of New Zealand.

The Secondary School Certificate of the Transvaal Education Dept. provided that the student has passed in the subjects required by the faculty he desires to enter and that he has passed with credit in at least 3 of these subjects.

* Candidates who have partially fulfilled the conditions of these examns. and who wish to offer a combination of the results of these examns. as a qualification for matricn. or to combine 8 (b), 9 (b), or 10 (b) with the Matricn. Examn. should forward their application to the Secretary for consideration.

Candidates who have passed in Physics and Chem. as one subject in 8 (b) will be allowed to count this as two out of five, provided they have passed in an additional subject.

India—The Intermediate Examn. of the following Indian Univs. : Aligarh, Allahabad, Benares, Bombay, Calcutta, Dacca, Delhi, Lucknow, Madras, Mysore, Nagpur, Panjab, Patna, Rangoon.

Palestine—The Matricn. Examn. of the Palestine Board of Higher Studies, provided that the student has passed with distinction in English.

Special Exemptions

Students of mature age (not less than 23) may be admitted without passing the ordinary Matricn. Examn. Applications are dealt with by a special committee of the Academic Council, who may submit candidates to such tests of their fitness to profit by the courses of the Univ. as they may consider necessary in each case. Applications must be submitted on or before July 1 in each year.

Special Regulations for Entrance to Faculties

Arts. Candidates for the Faculty of Arts who intend to enter an Honours School must pass in Greek or Latin at Matricn.

Medicine. Candidates must have passed an examn. in Latin of at least Junior Certificate (Northern Ireland) Standard, and a pre-registration examination in Physics and Chem. recognized by the General Medical Council.

Law. A higher standard at Matricn. Examn. is required in English, History and Latin.

Engineering. There is a special Matricn. Examn. comprising English, Maths., Further Maths., Greek or Latin or French or German or Italian or Spanish, Physics or Chem., Mod. Hist. or Geography.

DUBLIN

Arts. The Matricn. Examn. held six times a year, comprises English Composition, Maths., English Hist. and Modern Geog., Latin, and one of: Greek, French, German, Irish, Italian, Spanish.

Science. The Matricn. Examn. comprises English Composition, Maths., French or German, and one other language.

Exempting Examinations

Great Britain and Ireland. Candidates who have passed the Examn. for Leaving Certificates held by the Dept. of Education in the Irish Free State, or the Examn. for Senior Certificates held by the Ministry of Education in Northern Ireland, or any other examn. including 6 (a), 6 (b), 7 (a), 7 (b), 8 (a), 8 (b), 9 (a), 9 (b), 10 (a), 10 (b), regarded by the Senior Lecturer as equivalent thereto, are qualified for Entrance to Trinity Coll. on passing, if required to do so by the Senior Lecturer, a further examn. in those subjects, if any, of the Trinity Coll. Entrance Examn. which are not included in those which they have already passed.

South Africa. A student who has passed the Matricn. Examn. of any S. African Univ. including English, Maths., Latin, and one other approved language is admitted without further examn. and, if a Med. student, is excused the special Prelim. Examn. in Arts.

Admission to Advanced Standing

Special regulations provide for the grant of credit for previous academic attainments at the Univs. of Oxford and Cambridge, while students or graduates of the following Univs., Aberdeen, Belfast, Birmingham, Bristol, Edinburgh, Glasgow, Leeds, Liverpool, London, Manchester, St. Andrews, Sheffield, Wales, and the National Univ. of Ireland, may be allowed credit *pro tanto* for the first two years in the examn. held at their expiration; but every such student must keep at least 2 yrs. at Trinity Coll. : and further, no medical degree can be taken without at least 3 yrs.' attendance.

Dominions (other than S. Africa), *India*, and *U.S.A.* Certain privileges in Arts are granted to approved students of the following Univs. and Colls. : Adel., Agra, All., Annamalai, Bom., Cal., Dacca, Lucknow, McGill (Montreal), Madras, Melbourne, Nagpur, New Brun., N. Zeal., Panj., Patna, Rangoon, Syd., Tas., Tor., King's Coll. (Halifax, N.S.), and Univs. and Colls. in the U.S.A. approved by the Assn. of American Univs.

South Africa. Medical students are given credit for lectures and examns. in Zool., Bot., Chem., and Physics of any S. African Univ., and also for lectures and practical work in Anat. and Physiol., but not for the examn. in these last two subjects.

A student who has passed the Interm. Examn. of any S. African Univ. is permitted to present himself at the Final Freshman examn., with exemption from those subjects in which he has already passed at the Interm. Examn.

A student who has passed the B.A. examn. of any S. African Univ. is allowed credit for the first two collegiate years and for the Final Freshman examn.

In keeping terms students from S. Africa may present Dutch as their language.

Note. Medical students from Dominion and other approved Univs. may be granted concessions similar to, but in no case greater than, those at present given to South African students. Each case is to be decided, as regards Arts by the Lecture Committee, and as regards Medical Courses by the Committee of the School of Physic.

For further information application should be made to the Registrar of the School of Physic.

NATIONAL UNIVERSITY OF IRELAND

The Matricn. Examn., held twice a year, comprises six groups of subjects : (a) Irish, (b) Latin or Greek, (c) any modern lang. approved by the Senate, (d) English, (e) Maths., (f) Latin, Greek, any modern language approved by the Senate, Hist., Geog., Applied Maths. or Physics, Chem., Agric., Commerce, Music, Bot., and (for women candidates only) Physiol. and Hygiene. Candidates must pass in 5 subjects, but may present 6, if they so desire.

Those born in Ireland, whose home residence has not been outside Ireland during the 3 preceding years, must pass in Group (a). Others may present in lieu of Irish either a second language or a second Science

subject ; they will be expected to attend a course in Irish Lit. and Hist. before obtaining a degree in the Univ.

Exempting Examinations

Candidates who have passed in not less than 4 of the subjects prescribed for Matricn. at any of the following examns. may, provided such examn. has been passed as a whole, complete their matricn. by passing the fifth supplementary subject at the Matricn. Examn. of the Univ.

A. *Great Britain and Ireland*—Passes in the Senior Grade of Intermediate Board or the Leaving Certificate Examn. in any of the subjects recognized for matricn. are accepted as equivalent to passes in these subjects at the Matricn. Examn., even though the former examn. was not passed as a whole. Provided that the subjects required have been passed, the Univ. accepts the following in lieu of their own Matricn. Examn. : the examns. numbered 1, 2 (Parts I. and II.), 3, 4 (except in Maths.), 5, 6, 8 (a), 9, 10, 15 (Higher), 16, 17.

Dominions—The Senior Public Examns. of Adelaide and Queensland, and the Matricn. Examns. of Sydney, Melbourne, Queensland, and New Zealand, and of the Matricn. Board of S. Africa. The Matricn. Examns. of other Univs. in the British Empire overseas (excluding India) are recognized only in combination with an Intermediate Examn. in Arts or Science.

Foreign—The Jaffa Gymnasium Maturité. The Matricn. Certif. of the Univs. of Switzerland, with (a) Latin and Gk., Mod. Langs. and Maths. or Nat. Sci., (b) with Mod. Langs., Maths. or Nat. Sci. and with an endorsement that Latin has been taken at a subsequent date.

B. Graduation in Arts or Science in any Univ. of the Dominions and Colonies (except India).

Special Regulations for Entrance to Faculties

Students entering for degrees in (1) Arts, Philosophy, and Celtic Studies, (2) Law, (3) Med. or Dentistry, (4) Science, Commerce, Agric., Dairy Science, Engn., must take : (1) subjects in the Matricn. groups (a), (b), (d), (e), (f) ; (2) Latin, and subjects in (a), (d), (e), (f) ; (3) Latin, (a), (d), (e), and a fifth subject, but if already registered by the General Medical Council, students may take the subjects prescribed for any other faculty ; (4) one from each of (a), (b) or (c), (d), (e), and one other from (f).

Information as to the provision made by the several Universities and other learned institutions for the promotion of advanced study and research by the offer of scholarships, fellowships, etc., limited to their own graduates or members, will be found under the heading "Scholarships, etc." in the sections of the *Yearbook* relating to those Univs. and institutions. Particulars of other aids to British students for advanced work, not so limited, are given in this Appendix.

The assistance given by way of scholarships, etc., by different types of instn., whether Govts., Univs., scientific societies or separate foundations, will be found by reference to the General Index under their several titles.

The reduction, under the stress of present economic conditions, in the number of available scholarships and of other provision for research, referred to in previous issues of the *Yearbook*, unfortunately still continues.

A useful *List of International Fellowships for Research* is pubd. by the International Federation of University Women (*q.v.*).

A. GREAT BRITAIN AND IRELAND

1. GENERAL

BRISTOL UNIVERSITY. *Michael Hiatt Baker Scholarship*, value £200 p.a. Tenable by a graduate from New Zealand and normally held for 2 yrs., but may be renewed for a 3rd yr. The holder will normally be expected to spend 2 yrs. in research in the Univ. for a higher degree, but, with the approval of the Profs. concerned, may be allowed to spend some

period elsewhere. The scholarship may be held in any subject and is in the appointment of the Vice-Chancellor on the nomination of the Univ. of New Zealand.

BRITISH FEDERATION OF UNIVERSITY WOMEN, Ltd., Crosby Hall, Cheyne Walk, London, S.W.3. (i.) International Residential Scholarship at Crosby Hall, value £100 for 1 yr., for research or other post-graduate work. Open to all members of the Internat. Fedn. Applications to be received by Jan. 1.

(ii.) A Junior British Scholarship, value £75 or £100, subject and place of study optional, is offered from time to time to British women grads. not over 25.

Several other "occasional" post-graduate scholarships are also offered through the Fedn. Further particulars from the Secretary.

BRITISH INSTITUTE IN PARIS, 6 rue de la Sorbonne, Paris (V.). *Edward Esmond Scholarship*, at the rate of £100 p.a. for 1 yr. or less, with possible renewal beyond a yr. Open to graduates of British Univs. to attend courses in Paris approved by the Educational Committee of the Institute. Three Scholarships of £150 each, granted by the Leverhulme Trustees, tenable at the Institute. Nominations for appointment are made by the Vice-Chancellors of all British Univs. before March 30, to B. S. Townroe, 1 Old Burlington St., London, W.1.

CAMBRIDGE UNIVERSITY. *Bartle Frere Exhibitions*, for study or research in any branch of knowledge relating to any part of the British Empire except the U.K. and India. Tenable for 1 yr. but may be prolonged for a 2nd yr.

CAMBRIDGE UNIV.: CHRIST'S COLLEGE. A Research Studentship, £200 p.a. paid quarterly, for 2 yrs., prolonged for a 3rd yr. in exceptional circumstances, will be awarded at end of July 1938. Open to men who will have graduated before 1 Oct. 1938 at some Univ. other than Cambridge and who have not commenced residence at Cambridge at time of election. Candidates must be not more than 26 yrs. of age on 1 Oct. 1938. Each must declare that he intends, if elected, to proceed to the Ph.D. degree in the Univ. and either before or shortly after appointment must obtain permission to enter as a Research Student. Nominations must be made by and applications sent through, the head of the candidate's Univ. addressed to the Master, Christ's College, and should reach him before 1 July 1938.

CAMBRIDGE UNIV.: CLARE COLLEGE. *Denman Baynes Studentship*, £100 p.a., held usually for 2 yrs., open to grads of any Univ., with pref. to those of Cambridge and members of Clare Coll. Applications to the Tutor.

CAMBRIDGE UNIV.: EMMANUEL COLLEGE. Research Studentship, maximum value £150 p.a. for 2 yrs., with possibility of renewal. Open to a male graduate of any Univ. other than Cambridge or other qualified student beginning research at Cambridge, with a preference to one who has already done one but not more than 2 yrs.' research. The Studentship may be held by a student already endowed from other sources, if he can show that further assistance is necessary. Applications should reach

the Master not later than June 30, and should be supported by two certificates of character, a birth certificate, brief account of career, with names of professors or teachers under whom applicant studied, precise statement of proposed course of research, and any evidence of general ability and of special fitness for proposed research. A studentship of the same value is open to graduates of the College.

Rooms in the College are assigned to the Lionel de J. Harvard Memorial student nominated by the President of Harvard Univ.

CAMBRIDGE UNIV. : ST. JOHN'S COLLEGE. (i.) *Strathcona Research Studentships* in any branch of study. £200 for 1 yr., renewable for a 2nd yr. Open to graduates of any Univ. Applications to the Senior Tutor not later than June 1.

(iv.) *Fishmongers' Company Studentship* providing a free course of study each year for the Diploma in Public Health.

(v.) *Avebury Memorial Fund*. Income approximately £80 p.a. for the creation of studentships or the making of grants for special research work in the subject of Entomology.

(vi.) *Andrew Balfour Memorial Fund*. Income approximately £40 p.a. available for the granting of two free studentships in Part II of the course of study for the Diploma in Tropical Medicine and Hygiene.

Further particulars from the Secretary of the School.

THE MEDICAL RESEARCH COUNCIL, 38 Old Queen Street, Westminster, S.W.1. *Junior Fellowships for Research in Tropical Medicine* are awarded to medical graduates for 2 yrs.' training at home and 1 yr. in the tropics; £300, £400, and £500 p.a. in successive years, with additional allowance while abroad and necessary expenses; up to 3 annually. *Senior Fellowships* are available for candidates who have held Junior Fellowships or have otherwise obtained equivalent experience; tenable for 3 yrs., mainly in the tropics; £600-£750 p.a., with additional allowance while abroad and expenses. Senior Fellows become eligible for permanent research appointments under the Council.

Tuberculosis

LIVERPOOL UNIVERSITY. For *Ridgway Research Scholarships*, see under Diseases of Children.

THE MEDICAL RESEARCH COUNCIL, 38 Old Queen St., Westminster, S.W.1. *Dorothy Temple Cross Research Fellowships*, usually £400 p.a., plus travelling expenses, tenable normally for 1 yr., are given for study of tuberculosis at approved centres abroad. Up to 5 awarded annually.

WALES, UNIV. OF: WELSH NATIONAL SCHOOL OF MEDICINE. *Cecil Prosser Research Scholarship* in Tuberculosis, £250 for 1 yr. Open to graduates of any approved Univ. or qualified med. practitioner. Applications to the University Registry, Cathays Park, Cardiff.

17. SCIENCE (General)

BEIT FELLOWSHIPS FOR SCIENTIFIC RESEARCH. Founded by the late Sir Otto Beit, Bart, K.C.M.G., F.R.S., in 1913 for advancement of Science by means of research. At present £240 p.a. for 2 yrs. subject to report at end of first year. Tenable at Imperial College of Sc. and Tech., London, under supervision of a Prof. Fellows are required to devote their whole time to their research and to hold no appointment, paid or unpaid, without sanction of the Trustees. Open to men or women under 25 yrs. of age, of European descent by both parents, who have taken a degree in any Univ. in the British Empire, or Diploma or Associateship of any College approved by the Trustees. Not open to holders of any other Scholarship or Fellowship. Elections, advertised 3 mos. in advance, are made annually in July. Applications should give full information as to qualifications, previous career, general character of proposed research, whether applicant has private means sufficient to carry on the research for 2 yrs. without aid of Fellowship, names of not more than 3 referees, including one on the staff of the Univ. or College or a College of the Univ. at which the degree, etc., was obtained. Testimonials should not be sent. Capacity for research, personal record, and importance of proposed research will be taken into consideration. Inquiries may be addressed to the Rector of the Imperial College, South Kensington, London, S.W.7.

BELFAST, QUEEN'S UNIVERSITY. *Musgrave Research Studentships*, 5 of £200 each, open to British subjects, graduates of at least one year's standing in a Univ. of the British Empire, for research in *Pathology*,

Biology, Chemistry, Physics, Physiology. Latest date for applications (10 copies and not more than 2 testimonials as to fitness for research)—June 1.

BIRMINGHAM UNIVERSITY. *Caroline Harrold Research Fund* (to assist research in the Faculties of Science and Medicine).

(a) Grants from this fund are made from time to time by the Faculty of Science to assist the Professors in their researches by the appointment of senior research workers.

(b) Grants may be made to registered medical practitioners (with preference for past students of the Birmingham Medical School) for research work in the Univ. or one of the associated hospitals.

Persons receiving grants either in Science or Medicine may be given the title "Caroline Harrold Research Fellow."

BRITISH FEDERATION OF UNIVERSITY WOMEN, LTD, Crosby Hall, Cheyne Walk, London, S.W.3. *Johnstone and Florence Stoney Studentship*, value £250, for research in biological, geological, meteorological or radiological science, to be carried out in Australia, New Zealand or S. Africa. Open to women graduates, or to those with equivalent of a degree, of the Univs. of Gt. Britain and Ireland born in the British Isles of British-born parentage who are members of the British or Irish Fedns. of Univ. Women (such membership is open to all women grads. or those with equivalent of degree). Candidates must be under 27 on Jan. 1 of year of award. Will be offered for 1939-40 and 1940-41. Further particulars and form of appln. from the Secretary.

CAMBRIDGE UNIVERSITY. *Gordon Wigan Fund*, £300 p.a., for scientific educn. or research.

CARNEGIE TRUST FOR THE UNIVERSITIES OF SCOTLAND. *See under General.*

THE DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH (16 Old Queen St., London, S.W.1) maintains a number of research stations, particulars of which are given in Appendix III.

The Department also makes grants to individual research workers, engaged mainly in Univs. and Colls., under the following headings: (a) Maintenance allowances to students to enable them to undergo training in research; (b) Senior Research Awards (strictly limited in number) to enable young investigators of exceptional promise and proved capacity to devote their whole time to original research; (c) Grants to investigators of acknowledged standing to enable them to develop lines of research of exceptional timeliness and promise.

During the academic year 1936-37 the numbers of grants made in these categories were (a) 121, (b) 14, (c) 59, of which 81, 4, and 43 respectively were new grants. The scheme is intended to supplement and not in any way to supersede existing provision, national or local, for post-graduate research. The grants are restricted in all cases to British subjects resident in Gt. Britain. Full particulars in the pamphlet, *Notes on Grants to Research Workers and Students*, obtainable from H.M. Stationery Office, Adastral House, Kingsway, London, W.C.2, price 2d.

Particulars of the existing Industrial Research Associations estab-

lished in co-operation with the Dept. are given in Appendix III. These include the Industrial Research Council of the National Federation of Iron and Steel Manufacturers and the Research and Standardization Committee of the Institution of Automobile Engineers, which, though not having the legal status of a research association, are regarded as equivalent to research associations.

Information as to the work of the Department will be found in the Annual Report for 1936-37 (Cmd. 5647) published by H.M. Stationery Office, price 3s.

EDINBURGH UNIVERSITY. *Richard Brown Scholarship*, see under General.

THE LADY TATA MEMORIAL TRUST. Founded by the late Sir Dorabji Tata of Bombay as a memorial to his wife, the late Lady Tata. Provision is made for the award of research scholarships, prizes, or grants. The Trustees are advised by a Scientific Advisory Committee having its headquarters in London and by an Indian Committee in India. One-fifth of the net annual income is earmarked for the encouragement of scientific research by Indians in India or abroad, and the rest is to be used to assist research on diseases of the blood, with special reference to leukaemia: the assistance may take the form of grants, scholarships, or prizes, and the awards are open to persons of any nationality, including India. Further particulars from the Secretary of the Trust, Bombay House, Bruce Street, Fort, Bombay, or from the Secretary of the Scientific Advisory Committee, 138 Bedford Court Mansions, London, W.C.1. Candidates for the special awards to Indians should apply direct to Bombay.

LONDON UNIVERSITY. (i.) *Dixon Fund for assisting Scientific Investigations*. Income available for grants—about £310. Applications receivable by the Principal (from whom further particulars can be obtained) between April 1 and May 15. Full information required as to nature and objects of research proposed, estimated amount required (detailed estimate to be given), any previous grant received for same object, any apparatus of permanent value needed. Names of two referees to be given. Grants are made from the fund annually by the Senate for purchase primarily of apparatus and materials of a special nature to be used in scientific investigation. Instruments and specimens of permanent value purchased out of grants to be returned to the Univ. Published results of researches must contain a reference to the Fund, and 10 copies be supplied to the Univ. Preference given to applicants who are graduates of the Univ. or who undertake to work in a Dept. or School of the Univ. or other Instn. connected therewith.

(ii.) *Keddey Fletcher-Warr Studentships* for Post-graduate Research in Science to be conducted in the British Isles or other approved place. Value not less than £200 p.a. for 3 yrs., renewable. Open to men and women of European descent who are graduates of some British Univ. or have qualified for such graduation, but preference is given, other things being equal, to a graduate of London of small or no private means. Awardable from time to time as notified in the public press. Further particulars from the Academic Registrar, Univ. of London, W.C.1.

NOTTINGHAM UNIVERSITY COLLEGE. Three post-graduate scholarships in Pure and Applied Science up to the value of £100 each, together with a grant covering tuition fees and tenable for 1 or 2 yrs., may be awarded each year to suitable candidates. Open to graduates of any approved British Univ. Applications must be made not later than July 21.

THE ROYAL COMMISSION FOR THE EXHIBITION OF 1851 offers: (i.) *Science Research Scholarships to Overseas Universities*, to enable selected students who have already completed a full University course and given sufficient evidence of capacity for scientific investigations to devote themselves for 2 yrs. to research work under conditions most likely to equip them for practical service in the scientific life of the Empire. Value, £250 p.a., with supplements in certain cases. Tenable ordinarily for 2 yrs., and in exceptional cases for 3 yrs., at any institution approved by the Commrs., but not, except in very special circumstances, in the country in which the scholar has received his scientific education; open to British subjects of age (except in very special circumstances) under 26 yrs. At present not less than 9 (Canada 3, Australia 2, S. Africa, N.Z., Irish Free State and India, 1 each) are offered annually, recommendations receivable (South Africa, Irish Free State, India, May 1) (Australia, N.Z., Canada, June 1) from the following Univs.: Alb., B.C., Dal., McG., Manit., Queen's (Ont.), Sask., Tor., and any of the Univs. of Australia, N.Z., S. Africa, the Irish Free State and India possessing post-graduate departments of science. A Scholar is not permitted to hold any position of emolument likely to conflict with the devotion of his whole time to the objects of the Scholarship, nor to accept any additional emoluments without the previous consent of the Commrs.

(ii.) *Senior Studentships*, at present 5 in number, each of £400 p.a. with supplements in certain cases, for 2 yrs. or, in special cases, for 3 yrs.; open to British subjects not (except in very special circumstances) more than 30 yrs. of age, on recommendation, receivable up to May 1, by Profs. and Heads of Depts. through the executive authorities of such Institutions as may be invited by the Commrs. to nominate; tenable at any Institn. at home or abroad approved by the Commrs. The student is not permitted to undertake any work likely to conflict with the devotion of his whole time to the objects of the studentship, but a limited amount of time may, with the approval of the Commrs., be spent in delivering an advanced course of lectures. He is not debarred from holding another position of emolument, but in such cases the Commrs. may modify the value of the studentship. Women are eligible for all the above.

Address of the Secy. to the Commrs., 1 Lowther Gardens, Exhibition Rd., London, S.W.7.

THE ROYAL SOCIETY, Burlington House, Piccadilly, London, W.1.
(i.) *Foulerton Research Fund*. (a) Research Professorships, with stipend £1400-£1500 p.a. *Duties*: To conduct, in a place approved by the President and Council of the R.S., such original researches in medicine or the contributory sciences, on lines approved of by the President and Council, as shall be calculated to promote the discovery of the causes

of disease and the relief of human suffering. The Professors shall devote the whole of their time to research. Tenable for 5 yrs. in the first instance, the appointment being thereafter renewable for further periods of not more than 5 yrs. at a time. (b) Research Fellowships of £700 p.a., restricted to British subjects. *Duties*: To conduct researches in medicine or the contributory sciences, under the supervision and control of the Foulerton Research Fund Management Committee, to whom the Fellows will be required to report from time to time on the progress of their work. Tenable for 2 yrs. and renewable from year to year, with a maximal total tenure of 5 yrs. from the first award. Incumbents: (a) Prof. A. V. Hill; (b) Dr. C. S. Hallpike.

(ii.) *Yarrow Research Professorships* for research (whole-time) in Math., Physical, Chemical, or Engineering Sciences. Value, £1000-£1400 p.a. Tenable at a University or other place to be approved by the President and Council of the Royal Society for a period of 5 yrs., the appointments being renewable for further successive periods of 5 yrs. Incumbents: Prof. G. I. Taylor, and Prof. O. W. Richardson.

(iii.) *Mackinnon and Moseley Research Studentships*. Each of the value of £350 p.a. Tenable in the first instance for 2 yrs., but renewable in exceptional cases from year to year, total length of tenure not to exceed 5 yrs. The *Mackinnon Studentship* is for "furthering Natural and Physical Science, including Geology and Astronomy, and . . . original research and investigation in Pathology." Incumbent: Dr. G. W. Brindley. The *Moseley Studentship* is for "the furtherance of experimental research in Pathology, Physics, and Chemistry, or other branches of science, but not in Pure Mathematics, Astronomy, or any branch of science which aims merely at describing, cataloguing, or systematizing." Incumbents: Dr. W. Cawood, Dr. B. Woolf.

(iv.) *Smithson Research Fellowship* in Natural Science. The Royal Society hold the capital of the Fund in trust. The income is administered by a Joint Committee of the Society and the Univ. of Cambridge. The Fellowship, £800 p.a. (which may rise to £850 in 3rd and 4th yr. and thereafter to not more than £900), with superannuation provision, is open normally to British subjects of either sex, including subjects of the Dominions, Colonies, and Indian Empire; but the Committee may, in special circumstances, invite a foreigner of scientific distinction to apply. Preference to candidates not over 35 yrs. of age. The holder will work in the Univ. of Camb. if appropriate laboratory accommodation is available. Appointment (from Jan. 1, 1936) for 4 yrs. in first instance, may be renewed annually up to maximum period of 8 yrs. Incumbent: Dr. E. C. Bullard.

(v.) *Sorby Research Fellowship* for original Scientific research. The income, about £600, is devoted to maintaining a Fellowship tenable ordinarily in the Univ. of Sheffield for 5 yrs., renewable for further periods. No permanent duties outside the research work may be undertaken. Appointments are made by a Committee composed of 4 persons appointed by the Council of the R.S. and 3 appointed by the authorities of the Univ. of Sheffield. Incumbent: Dr K. Mellanby.

For all the above appointments applications are invited by public advertisement.

(vi.) *E. Alan Johnston and Lawrence Fellowship* (income about £500 p.a.) for increasing the knowledge of the causes of disease and conditions of healthy life. Incumbent : Dr. J. Michael.

(vii.) *Warren Fellowships* (income £700 p.a.) in Metallurgy, Engineering, Chemistry and Physics. Incumbents : Dr. A. J. Bradley and Dr. W. Hume-Rothery.

(viii.) *Scientific Relief Fund* (income about £700 p.a.) to aid scientific men or their families requiring assistance.

(ix.) *Minor Funds* : Tyndall Mining Research, income about £40 p.a. for a studentship ; Gunning, about £35 p.a. ; Joule, about £70 p.a.

(x.) *Government Grants for Scientific Investigations*. The conditions are notified annually in time for applications to be received by March 31. Only British subjects are eligible.

(xi.) *Medals*. Copley, for philosophical research (any country) ; Rumford (biennial), for useful discovery in Light or Heat, in any part of Europe ; Royal (2), for advancement of Natural Knowledge ; Davy for Discovery in Chemistry in Europe or Anglo-America ; Darwin (with grant of £100, biennial), for work in Darwinian field ; Buchanan (with money grant, quinquennial), for service to Hygienic Science or Practice ; Sylvester (with money grant, triennial), for Mathematical Research ; Hughes (with money grant), for discovery in Physical Sciences, particularly Electricity and Magnetism. The last four are open to foreigners as well as to British subjects.

18. SCIENCE (Special Subjects)

Bio-Chemistry

LIVERPOOL UNIVERSITY. *Johnston Colonial Fellowship* in Bio-Chemistry, £100, tenable for 1 yr., offered annually. Failing a candidate in Bio-Chem., the Profs. of Pathol. and Physiol. shall be invited to nominate a candidate. Open in the first place to members of Colonial Univs. and Med. Schools (without, however, excluding Colonials who may possess British qualifications). Applications to be sent to the Dean of the Fac. of Med. not later than May 31.

LONDON UNIV. : LISTER INSTITUTE OF PREVENTIVE MEDICINE, Chelsea Bridge Road, London, S.W.1. *The Grocers' Company Research Studentship*, in Bio-Chemistry, £250 p.a., tenable for 1 yr., with possible extension for 2nd yr. Open to British subjects. Vacancies advertised in appropriate journals.

LONDON UNIV. : UNIVERSITY COLLEGE. *Bayliss-Starling Memorial Scholarship*. See under Physiol. below.

Biology (Animal Morphology)

CAMBRIDGE UNIVERSITY. (i.) *Balfour Studentship* in Biological research, especially in Animal Morphology, £300 p.a. for 3 yrs.; student need not be a member of the Univ., but must study in it for at least 3 terms. Offered triennially or as casual vacancies occur.

(ii.) *Balfour Memorial Fund*. Grants may be made from this fund

for original research in Biology, especially Animal Morphology, to the Balfour Student or to any other person engaged in such research.

Biometrics

OXFORD UNIVERSITY. *Weldon Memorial Prize* (endowment, £1000), awarded once in 3 yrs., for contribution in 6 preceding yrs. to Biometric Science. Last award 1935.

Botany

CAMBRIDGE UNIV.: GIRTON COLLEGE. *Ethel Sargant Studentship* for research in Botany, value £100. Offered annually. Usually open to women graduates of any Univ.

MANCHESTER UNIVERSITY. *Grisedale Scholarship for Biological Research*, £200 annually in either Botany or Zoology, for 1 yr., renewable for a 2nd yr. Open to persons who have studied Bot. or Zool. in Manchester Univ. or in some other approved instn. Next offer, 1938. (Prof. to Botany.) Last date for applns. June 1.

Chemical Engineering

LONDON UNIV.: UNIVERSITY COLLEGE, Gower St., London, W.C.1. *Leverhulme Studentships* in Chemical Engineering, two, value £250 each for 1 yr., renewable for 2nd yr. Candidates must be holders of a good Univ. degree with Chem. or Engin. as principal subject and must either be engaged in or be definitely preparing to enter the chem. industry and have adequate knowledge, practical or otherwise, of factory or business conditions. The holders may take the ordinary course of study for the Coll. Dipl. in Chem. Eng. or a special course in the subject, or carry out orig. research. Applications not later than May 31 to the Secretary.

Chemistry

CHEMICAL SOCIETY. The Research Fund of the Chemical Society was establd. in 1876 to assist investigators by defraying the cost of expensive materials. The income from the Fund, incl. that from the donation of the Goldsmiths' Company and from the Perkin Memorial Fund, amounts to about £700 a yr. The Committee meets in November to consider applications for grants. The income from the Goldsmiths' donation is mainly devoted to the encouragement of research in Inorg. and Metallurgical Chemistry, and that from the Perkin Memorial Fund for investigations connected with the Coal Tar and allied industries. The grants made during 1937 amounted to £653.

DURHAM UNIV.: KING'S COLLEGE, Newcastle-upon-Tyne. *Johnston Chemical Studentship* (£95) and *Prize* (£5), for 1 yr., awarded on the results of an examn. in Chem. with Crystallography or Mineralogy or Bio-Chemistry, tenable at the College, involving at least 24 hours per week throughout the session. Open to B.Sc. of any British Univ. of not more than 3 yrs.' standing from graduation. Evidence of previous training and ability to conduct an original Chem. investigation is required. Applications to Registrar.

INSTITUTE OF CHEMISTRY. *Pedler Research Scholarship* in Chemistry. See App. IV. 7.

MANCHESTER UNIVERSITY. *Sir Clement Royds Memorial Scholarship* in Chemistry, £200 for 1 yr., offered annually. Open to British subjects of Brit. descent born in, or inhabitants of, Lancashire, with preference to candidates born in, or inhabitants of, Rochdale. Next award 1938. Last date of appln. June 1.

RAMSAY MEMORIAL FELLOWSHIPS. The Trustees (Chairman, Sir Robert Waley Cohen, K.B.E.; Secy., C. O. G. Douie, University College, London, Gower St., London, W.C.1) award from time to time 3 Fellowships, value £300 a yr. for 2 yrs., for Chemical research. They can be held in any Univ. or other place in the U.K. possessed of the requisite facilities for research; also in exceptional circumstances in other parts of the British Empire, and, by special permission of the Trustees, elsewhere. One is limited to candidates nominated by the Univ. and the Royal Technical College, Glasgow. Fellowships are also provided in connexion with the following Dominion and Foreign countries: Canada, Czechoslovakia, France, Greece, Holland, Italy, Japan, Spain, and Switzerland. The value is normally £300 a year.

Mathematics

See Arts (Special Subjects)

Metallurgy

BIRMINGHAM UNIVERSITY. *William Gibbins Research Fellowship* in Metallurgy, £250 p.a., usually for 2 yrs. but renewable; tenable in the Dept. of Metallurgy. Candidates should be graduates who have had at least 1 yr.'s experience of post-grad. research. Established to encourage research into copper, brass, and non-ferrous alloys.

Physics

BRISTOL UNIVERSITY. (i.) *George Wills Research Associateships* (3), minimum value, £300 p.a. Open. Vacancy unlikely for several years.

(ii.) *Arthur Prince Chattock Research Studentship*, minimum value, £150 p.a. Open. Date of next vacancy unknown.

Further particulars from the Secretary and Registrar.

CAMBRIDGE UNIV.: PEMBROKE COLLEGE. *Gabriel Stokes Studentship* for research in Physics, about £425 p.a. for 3 yrs., renewable for a term not exceeding 5 yrs. Open to graduates (preferably of Cambridge) of from 23 to 28 yrs. of age. Last award, 1937.

MANCHESTER UNIVERSITY. *John Harling Fellowship* for research in physical science. £200 and occasionally more; renewable for 2nd and possibly 3rd yr. Open to all persons who can furnish satisfactory evidence of ability to pursue research. Next award not fixed.

Physiology

LIVERPOOL UNIVERSITY. *Garrett International Fellowship*, see p. 859.

LONDON UNIV. : UNIVERSITY COLLEGE, Gower St., London, W.C.1.

(i.) *The Bayliss-Starling Memorial Scholarship* in Physiol. and/or Bio-Chemistry (founded 1929) value about £120 p.a. with exemption from tuition fees, tenable for 1 to 3 yrs. Candidates must be graduates of the Univ. of London or any other Univ. approved by the College Committee for the purpose, or undergrad. of the Univ. of London or any other approved Univ. as aforesaid of suitable standing in Sci. or Med. Applns. to the Secretary of the Coll. early in May.

(ii.) *Sharpey Physiological Scholarship*, value about £112 for 1 yr., renewable from yr. to yr. In addn. to marked ability and superior knowledge, candidates must have skill and address in preparing microscopic demonstrations and in experiment, with reasonable aptitude and inclination for teaching. Facilities afforded for research in Anat., Histol., or Physiol. Further particulars from the Secretary.

MANCHESTER UNIVERSITY. *Robert Platt Scholarship* for research in Physiology, £90 for 1 yr., renewable for 2nd and possibly 3rd yr. Open to candidates between 18 and 25 on Jan. 1 in year of award, without further restrictions. Next award 1938. Applns. by June 20.

Zoology

MANCHESTER UNIVERSITY. *Grisedale Scholarship for Biological Research*. See under Botany above.

ZOOLOGICAL SOCIETY, Regent's Park, London, N.W.8. The Society offers a research fellowship in Comparative Pathology, value £650 p.a., of unlimited duration, awarded in 1928 to Lt.-Col. A. E. Hamerton, C.M.G., D.S.O., late R.A.M.C. An Anatomical Research Fellowship (£400 for 5 yrs.) and an Aquarium Research Fellowship (£200 for 3 yrs.) are in abeyance.

19. THEOLOGY

CAMBRIDGE UNIVERSITY. *Hort Memorial Fund*, £65 p.a., for grants to persons engaged in Biblical, Hellenistic, or Patristic research, or undertaking connected therewith.

EDINBURGH UNIVERSITY. *Richard Brown Scholarship*, see under General.

LONDON UNIV. : KING'S COLLEGE, Strand, London, W.C.2. Theological Exhibitions and Bursaries, six of £50 p.a. Open to grads. of any Empire Univ. or members of the Faculty who have passed the Intermed. B.D. Examn. Candidates must send in their names to the Dean on or before June 20 in each year.

NATIONAL CHURCH LEAGUE, Dean Wace House, Wine Office Court, London, E.C.4. *Grafton Scholarship*, value £65, to be awarded annually on the result of an examn. to be held each Sept. at Dean Wace House. Tenable at an Evangelical Theological College to be approved by the Ordination Candidates' Committee of the National Church League. Open to grads. of British (including Irish) Univs. who have not already entered a Theological Coll. Full particulars from the Secretary.

B. DOMINIONS

20. CANADA

THE BANTING RESEARCH FOUNDATION, Toronto, was founded in commemoration of the discovery of insulin by Dr. F. G. Banting and Mr. C. H. Best. The income from the capital sum of approximately \$700,000 is available to aid in the work of the Banting and Best Department of Medical Research and also to make grants in aid of the solution of such problems of medical research as the Trustees consider should be supported. The grants may take the form of living expenses or of monies for the purchase of animals, apparatus and other materials necessary for the solution of the research. The Trustees have adopted the principle of not making grants for research which is to be carried out elsewhere than in Canada. From \$14,000 to \$15,000 are distributed in this way per annum to various workers usually attached to university laboratories. Joint Honorary Secretary-Treasurers: Dr. V. E. Henderson and Dr. D. T. Fraser.

MCGILL UNIVERSITY, Montreal. The *A. A. Browne Memorial Fellowship* (endowment, \$10,000), open to graduates of any recognized medical school. Special preference given to obstetrics and gynaecology.

NATIONAL RESEARCH COUNCIL, CANADA, Ottawa. In order to develop a corps of highly trained research men for the Univs., industries, and technical depts. of Dominion and Provincial Govts., the Council awards bursaries (value \$500), studentships (value \$600), fellowships (value \$700) and Special Scholarships (value \$750 and \$1000) for post-graduate training in Science. For a fellowship demonstrated ability to carry on independent research is required. *See also* Appendix III., B. i.

The Council also makes research grants to research workers in the Univs. and other research laboratories for specific investigations. (For further information, *see Canada Yearbook*, 1932, pp. 866-70.)

QUEEN'S UNIVERSITY, Kingston, Ont. (i.) Two Fellowships in Arts, \$500 each, for 1 yr. Open to men and women, B.A. in Hons. at Queen's Univ. or with an equivalent degree elsewhere. One of these may be awarded as a Travelling Fellowship, otherwise tenable at the Univ.

(ii.) Four Fellowships in Arts, \$500 and one or two of smaller value, for 1 yr. Open under same conditions as above. Applications not later than April 1 to the Registrar.

(iii.) *Milton Hersey Fellowship* for research in Chemistry, \$400 for 1 yr. Open to graduates of all Univs. and technical colleges. Applications up to May 1 to the Registrar. If no appointment made, further applications up to Sept. 2.

TORONTO, UNIVERSITY OF. (i.) Two open War Memorial Fellowships, value \$500 each, to be awarded to grads. of any approved Univ. in the Dominion of Canada enrolled or intending to enrol on the School of Graduate Studies for the purpose of proceeding to a degree in any dept. of the Univ. Particulars from the Secretary-Treasurer, Alumni Federa-

tion, 43 St. George St., Toronto 5. Applications to be made before March 1.

(ii.) Eight Special Open Fellowships of \$500, one of \$250 (three with free tuition), in the School of Graduate Studies, for students proceeding to the degrees of M.A. and Ph D.

(iii.) *The Alexander Mackenzie Research Fellowship*, two of \$500 each, for research in the depts. of Political Sci. and Hist.

(iv.) *The McCharles Prize*, value \$1000 in money, awarded from time to time for : (1) The invention or discovery of any new and improved process for the treatment of Canadian ores or minerals of any kind, after such process has been proved to be of special merit on a practical scale ; or (2) for any important discovery, invention, or device that will lessen the dangers and loss of life in connexion with the use of electricity in supplying power and light ; or (3) for any marked public distinction achieved in scientific research in any useful practical line. Open to any Canadian (*i.e.* any person Canadian born who has not renounced British allegiance), student or otherwise. In the case of (1) domicile in Canada is an essential condition.

(v.) *The James H. Richardson Research Fellowship* in Anatomy, value \$500 p.a., tenable for 1 yr., with possible renewal for not more than 2 addnl. yrs. Open to grads. in Med. of the Univ. and of such other Univs. and Med. Schools as may be approved by the Nominating Committee and to students in the Univ. who shall have completed the 3rd yr. of med. course. The holder must devote his whole time to investigation under the Prof. of Anat.

(vi.) *Charles Mickle Fellowship*. Endowment (\$25,000) awarded annually to that member of the medical profession who is considered by the Council of the Fac. of Med. of the Univ. to have done the most during the previous 10 yrs. to advance sound knowledge of a practical kind in medical art or science.

(vii.) *The Alexander McPhedran Research Fellowship* in Clin. Med., value \$1200 p.a., tenable for 1 yr., renewable. Open to grads. in Med. of the Univ. and of such other Univs. and Med. Schools as the Fac. of Med. may approve. The holder must devote his whole time to investigations under the direction of the Prof. of Med., to whom applications for nominations should be forwarded not later than May 1 of each yr.

(viii.) *The Nipissing Mining Company Research Fellowship* in Mining Engin., annual value \$1100. Open to grads. of any Univ.

(ix.) *The Ramsay Wright Research Scholarship* in Zoology, value \$600, for grad. work at the Univ. of Toronto.

Travelling

THE CANADIAN FEDERATION OF UNIVERSITY WOMEN has founded a Scholarship enabling a woman graduate of a Canadian Univ. to study at a Univ. of any other country represented in the Internat. Federation. In general, preference will be given to those candidates who have completed at least 1 or 2 yrs. at graduate study and have a definite course of study or of research in view. Further information obtainable from

Miss Mabel Patrick, University of Alberta, Edmonton. Appln. to be made by letter not later than Feb. 1.

IMPERIAL ORDER DAUGHTERS OF THE EMPIRE. The I.O.D.E. award post-graduate scholarships for study in Britain. The list of post-graduate students for the session 1937-38 includes 2 girls and 7 men who come from British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, New Brunswick, Nova Scotia, Quebec, and Prince Edward Island. Address of the Order—182 Lowther Avenue, Toronto 4. *Cables*—Iode, Toronto.

QUEEN'S UNIVERSITY, Kingston, Ont. For Travelling Fellowship, *see above*.

ROYAL SOCIETY OF CANADA FELLOWSHIPS FUND, Ottawa. Ten annual Fellowships (with possible renewal) each of the value of \$1500 have been endowed for a period of 5 yrs. by the Carnegie Corporation to enable Canadian students of recognized and proven competence to prosecute investigations which promise to make important contributions to knowledge. Open on equal terms to men and women, ordinarily under 35 on Jan. 1 of year of appln. Save in exceptional circumstances, the work must be carried on at an institution outside of Canada. 1 Fellowship is open to a French, and 1 to an English, student of Lit., Hist., Anthropol., Sociol., Pol. Econ., or an allied subject, 1 in the Mathematical, Physical or Chemical Sciences, 1 in Geological Sciences, 1 in Biological Sciences; 5 distributed at discretion of the Board. A candidate should be a grad. of a Canadian Univ. or Coll., or have received an equivalent training in a Canadian instn. possessing adequate facilities in his particular subject; should, except in special cases, hold the Master's degree or its equivalent, or, preferably, have completed one or more years' work beyond that degree. Applications with all supporting papers must be in the hands of the Secretary not later than Feb. 1. Further particulars from the Secretary.

21. AUSTRALIA

AUSTRALIAN COUNCIL FOR EDUCATIONAL RESEARCH, 145 Collins St., Melbourne, C.I. (Cable address: Aceres). The only permanent educational establishment in Australia devoted to the purely professional interests of education and embracing all States. Being quite independent of existing organizations and having no administrative functions, it is able to express impartial opinions on ednl. problems. It also acts as a clearing-house of information on ednl. developments. It has been endowed for a period of 10 yrs. by the Carnegie Corporation of New York. Since its foundation in 1929 it has given financial support totalling £15,300 to 135 investigations and has published 50 reports. It advises teachers and administrators going abroad. Good progress is being made in supplying tests of attainments in the chief school subjects as well as tests of general intelligence. Library, c. 900 vols., freely available to all teachers. In Aug.-Sept. 1937 the Council organized an educational conference under the auspices of the New Education Fellowship. There were 21 speakers from 10 different countries. Meetings were

held in all seven capital cities. Total memberships were about 9000. Executive Officer : K. S. Cunningham, M.A., Ph.D.

AUSTRALIAN SCIENCE AND INDUSTRY ENDOWMENT FUND. Under the Science and Industry Endowment Act, 1926, the Commonwealth Government has established a capital fund, the income from which is to be used to provide assistance (a) to persons engaged in scientific research, and (b) in the training of students in scientific research. Secretary, G. Lightfoot, M.A., 314 Albert Street, East Melbourne, C.2, Victoria, Australia. (Cable and Telegraphic Address : Coresearch, Melbourne.)

22. NEW ZEALAND

NEW ZEALAND DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH, WELLINGTON, C.1, N.Z. (Telegraphic Address : Research, Wellington). Two National Research Scholarships, tenable for one year, and of a value of £100, plus £25 for apparatus, books, etc., are awarded each year to Univ. graduates proposing to specialize in some branch of industrial research. These scholarships may be renewed for a further year.

THE ROYAL SOCIETY OF NEW ZEALAND (formerly the New Zealand Institute established in 1867), Wellington, administers several memorial funds from which awards are made at intervals for distinguished scientific work. From one, the Hutton Memorial Fund, grants for research work in natural history subjects are made. It publishes an annual volume of Transactions and Proceedings ; quarterly parts available at 10s. each.

NEW ZEALAND COUNCIL FOR EDUCATIONAL RESEARCH, Southern Cross Building, Brandon St., Wellington. An independent organization was founded in 1934 on a 5 yrs.' grant from the Carnegie Corporation of New York for the purpose of conducting and supporting research in education. It is one of the avenues through which applns. for Visitors' Grants pass to the Carnegie Corporation and it administers the Art Galleries and Museums Fund given by the Corporation in 1936. Director, C. E. Beeby, M.A., Ph.D.

23. SOUTH AFRICA

CAPE TOWN UNIVERSITY. (i.) *Smartt Memorial Scholarship* for research in subjects bearing upon Agriculture. Approx. £200 p.a. for 2 yrs., but may be extended for a third year at the discretion of the Univ. Council. Tenable at the Univ. of Cape Town or at such other place in S. Africa as may be approved by the Senate. Open to candidates who possess an approved univ. degree. The next award will be made at the end of 1939 or 1940. Particulars and copies of the regns. governing the award of the scholarship may be obtained from the High Commissioner for the Union of South Africa, South Africa House, Trafalgar Square, London, W.C.2.

(ii.) *Jacobus Stephanus Marais Memorial Research Fund*. A post-grad. scholarship for research in Surgery, £450 p.a. for 2 yrs., with possible renewal for 3rd yr. The scholar must be of European descent

and Protestant denomination and must conduct his research work in S. Africa at, or under the direct control of, the Univ. of Cape Town. In any publication of the results of the research acknowledgment must be made of the fact that the work was carried out as Jacobus Stephanus Marais Memorial Research Scholar in the Univ. of Cape Town. First award 1937. Next award in 1939 or 1940. Further particulars from the High Commissioner for the Union of S. Africa, address as above.

DEPARTMENT OF AGRICULTURE AND FORESTRY, Union Buildings, Pretoria. £2500 for £200 p.a. and £50 p.a. scholarships in Agric., tenable overseas and locally, for grads. and undergrads. respectively. Further information obtainable from the Secretary for Agriculture and Forestry.

THE RESEARCH GRANT BOARD OF THE UNION OF SOUTH AFRICA. P.O. Box 7137, Johannesburg, deals with the following:

Oversea Scholarships for Study of Commerce and Industries. These scholarships are of the value of £250 per annum for periods of 2 or 3 yrs. Since its inception and up to 1929 the Board has allotted 10 of these scholarships. Since that year the award of these scholarships has been in abeyance.

University Research Grants and Scholarships. Since 1934 funds have been provided annually by the Union Dept. of Education for the award of University Research Grants and Scholarships. These have been administered by the Research Grant Board. Their primary object is to encourage the *training* of research workers in the Universities of the Union. 49 Scholarships and 39 Grants were awarded by the Research Grant Board during 1934, 1935-36 and 1937.

Carnegie Corporation of New York. The Board, on the invitation of the Carnegie Corporation assisted in the distribution and administration of funds contributed by the Corporation in support of research in South Africa. The programme for a period of five years, from 1928 to 1932 inclusive, included, in addition to grants for research purposes, travelling allowances for men and women based on the plan of the Guggenheim Fellowships of the United States of America. The Carnegie Corporation then placed a further sum at the disposal of the Research Grant Board for the support of research in S. Africa during the five years 1933 to 1937 inclusive.

RHODES UNIVERSITY COLLEGE, Grahamstown. Two scholarships, value £200 each, open to male British subjects, grads. of a British Univ. preferably under 25, to enable them to take Diplomas in Education to qualify for teaching in S. Africa. Applns. in writing to reach the Appointments Bd. of the candidate's Univ. by July 1, 1938. Residence at the College to commence Feb. 1939. Further particulars from the Secretary, Rhodes Trust, 17 Waterloo Place, London, S.W.1.

SIR HERBERT BAKER SCHOLARSHIP in Architecture, about £400 for 1 yr. Awarded at intervals. Open to British students of Architecture under 33, who have had at least 6 yrs.' architectural training, not less than 4 of which have been spent in S. Africa. Tenable in Europe for about 12 months, the greater part at the British School at Rome. Applns. to the Trustees, c/o The Registrar, Institute of S.A. Architects, P.O. Box 7322, Johannesburg.

NOBEL PRIZES, founded by Alfred Nobel (d. 1896), awarded for contributions to the common good by workers in (a) *Physics*, (b) *Chemistry*, (c) *Medicine or Physiology*, (d) *Literature*, (e) *the Preservation of Peace*. The prizes, worth from Kr. 115,000 to Kr. 171,750 (1932) each, are awarded for (a) and (b) by the Swedish Academy of Science, for (c) by the Stockholm Faculty of Medicine, for (d) by the Swedish Academy of Literature, and for (e) by a committee elected by the Norwegian Storting. Among the categories of persons qualified to propose candidates for prize (e) are Univ. Professors of Political Science and Law, of History, and of Philosophy. Particulars can be obtained from Nobelstiftelsens Styrelse, Sturegatan 14, Stockholm, Sweden. Among prize-winners of past years the following have a special interest:

Physics: 1904, Lord Rayleigh; 1906, J. J. Thomson; 1907, A. A. Michelson; 1915, W. H. Bragg and W. L. Bragg; 1917, Ch. G. Barkla; 1923, R. A. Millikan; 1927, A. H. Compton and C. T. R. Wilson; 1928, O. W. Richardson; 1930, Sir Venkata Raman; 1933, P. A. M. Dirac; 1935, J. Chadwick; 1936, C. D. Anderson; 1937, C. J. Davison and G. P. Thomson.

Chemistry: 1904, Sir Wm. Ramsay; 1908, E. Rutherford; 1914, T. W. Richards; 1921, F. Soddy; 1922, F. W. Aston; 1929, A. Harden; 1932, Irving Langmuir; 1934, H. C. Urey; 1935, M. and Mme. Joliot-Curie; 1937, W. N. Haworth.

Medicine or Physiology: 1902, Sir Ronald Ross; 1912, Alexis Carrel; 1922, A. V. Hill; 1923, F. G. Banting and J. J. R. Macleod; 1929, Sir F. Gowland Hopkins; 1932, Sir Chas. S. Sherrington and E. D. Adrian; 1933, Th. Hunt Morgan; 1934, G. H. Whipple, G. R. Minot, and W. P. Murphy; 1936, Sir Henry H. Dale.

Literature: 1907, Rudyard Kipling; 1913, Rabindranath Tagore; 1923, W. B. Yeats; 1925, G. B. Shaw; 1929, Thomas Mann; 1930, Sinclair Lewis; 1932, John Galsworthy; 1936, E. O'Neill.

The Preservation of Peace: 1903, Sir W. R. Cremer; 1906, Theodore Roosevelt; 1912, Elihu Root; 1919, W. Wilson; 1925, Sir Austen Chamberlain and General Ch. G. Dawes; 1926, Aristide Briand and Gustav Stresemann; 1929, Frank B. Kellogg; 1932, Miss Jane Addams and Dr. Nicholas Murray Butler; 1933, Sir Norman Angell; 1934, Arthur Henderson; 1936, K. von Ossietzky; 1937, Viscount Cecil of Chelwood.

32. UNITED STATES OF AMERICA

THE INSTITUTE OF INTERNATIONAL EDUCATION, 2 West 45th Street, New York, has published a pamphlet entitled, *Fellowships and Scholarships open to Foreign Students for Study in the United States*, 1936 edition, which gives a very full list of such aids to advanced study. They are classified as follows: (i.) Unrestricted as to subject or nationality of holder; (ii.) for study in prescribed subjects, unrestricted as to nationality, and (iii.) for students from prescribed places.

In class (i.) there are more than 150 Fellowships for advanced study and research offered by 26 different Universities, and varying in value from free tuition to \$1500 a year. A number of Colleges and Universities (7) also offer student assistantships in various subjects open to qualified students of foreign birth. In class (ii.) there are several hundred Fellowships principally for research offered by the chief Universities and other learned bodies. In class (iii.) Fellowships for Research are offered to *Canadian* students by the American Library Association, the National Research Council, the Social Science Research Council, the Canadian Federation of Univ. Women, and the Pacific Coast Gas Assn. Fellowships for advanced study and research are offered to students in *Great Britain* by the American Association of Univ. Women, the Commonwealth Fund and the Rockefeller Foundation, as well as several of the large Univs. The list from which the above information is taken may be consulted at the Universities Bureau or at the American University Union, 1 Gordon Square, London, W.C.1.

Practically all the larger American Univs. offer scholarships and fellowships of \$200 to \$1000, which are open to foreign students in competition with American students for work of a graduate character. Most American Univs. close their scholarship lists about March 1. Bulletin of the Nat. Research Council, Washington, D.C., No. 94, 1934, price \$1, contains a list of fellowships and scholarships for advanced work in Science and Technology. The principal foundations offering Fellowships to British subjects for which application can be made in England are briefly described below.

THE AMERICAN ASSOCIATION OF UNIVERSITY WOMEN, 1634 I Street, Washington, D.C., offers annually an International Fellowship, value \$1500, to enable a graduate to carry on 1 yr.'s research in some country other than her own. Open to members of any one of the 34 Nat. Fedns. belonging to the Intern. Fedn. of Univ. Women. Further information from the Secy., British Federation of University Women, Ltd., Crosby Hall, Cheyne Walk, S.W.3; or from the above. Applns. from British grads. must reach the office of the B.F.U.W. in October of the previous year.

CHOATE MEMORIAL FELLOWSHIP, \$2300. Awarded on nomination and recommendation of the Vice-Chancellor of Cambridge to a British subject coming from Camb. to study in any dept. of Harvard Univ. Failing a candidate from Camb. the Vice-Chancellor may select and appoint a candidate from any other Univ. in the U.K. Holder, 1934, 1935: G. L. Stagg, B.A. Trin. Hall.

COMMONWEALTH FUND FELLOWSHIPS, established 1925. Twenty-six awarded annually. Value about \$3000 each p.a., tenable for 2 yrs. in one of the 27 institutions belonging to the Association of American Universities (*see* list in Appendix VIII.) Candidates (who must be unmarried men and not over 30 years of age) are nominated by universities in Great Britain and Northern Ireland, and the final selections made by a Committee of Award, of which Sir Walter H. Moberly is Chairman. Among other conditions of tenure is a requirement that 3 months must be spent in travel in the U.S.A. at the close of the first year of study. Address of Committee—35 Portman Square, London, W.1.

ENGLISH-SPEAKING UNION'S SCHOLARSHIPS. For British men and women teachers. *Page Travelling Scholarships*, £50 each and complete hospitality in the United States for one month at any period of the year desired; Senior Page Scholarship for two months, women only, £100. Similar Scholarships given by the A.A.M., N.U.T., and I.A.A.M. (for members of those Assns only), value respectively £50 each. Two scholarships, also for women only, at the Chautauqua Institution, hospitality and free courses for 6 weeks. Applications receivable up to Feb. 19 by the E.S.U., Dartmouth House, 37 Charles St., Berkeley Sq., London, W.1.

ROSE SIDGWICK MEMORIAL FELLOWSHIP. Established by Americans in memory of a member of the British Educational Mission which visited the U.S.A. in 1918, in recognition of her service in the cause of Anglo-American friendship. Administered by the American Assocn of University Women. Value \$2000 (providing tuition and residence during term for 1 yr, and about \$400 in cash towards travelling expenses and incidental fees); tenable at any approved College or Univ. in the U.S.A. Open to women graduates who should be not more than 35 years of age and who are natives of Gt. Britain. Awarded biennially. Next award for 1938-39. Applns. by Jan. 1. Particulars from Secy., British Federation of Univ. Women, Ltd., Crosby Hall, Cheyne Walk, London, S.W.3.

UNION THEOLOGICAL SEMINARY, Broadway and 120th Street, N.Y. City. *The Mills Fellowship* in Theology, \$1000 for 1 yr, and the *Hugh Black, Jarvie and Sewickley Fellowships* in Theology, \$1200 each for 1 yr., for advanced post-graduate work. The Mills Fellowship open to theol. students of high grade, graduates of the English and Welsh Univs., the remainder to graduates of Scottish Univs. of similar standing. Applications for the Mills Fellowships to Dr. W. B. Selbie, 174 Banbury Rd., Oxford, for the remaining three to Prof. G. S. Duncan, St. Mary's College, St. Andrews.

CENTRES OF SCIENTIFIC RESEARCH

I. BOTANY AND AGRICULTURE.

Some description is given under this head of the principal centres in the U.K. for advanced study and research in Agricultural Science and the cognate pure sciences, but much fuller information will be found in a brochure published by the Ministry of Agriculture and Fisheries at the instance of the Imperial Agricultural Research Conference, 1927, entitled *Facilities for Advanced Study and Research in Agricultural Science and Cognate Pure Sciences in the United Kingdom*. 1929. Price 1s. net. Post free.

(a) *Soils and Crops (England and Wales)*

1. ROYAL BOTANIC GARDENS, Kew, afford to botanists, especially from the Colonies, facilities for carrying out scientific investigations in the Library, Herbarium, Economic Museums, and the Jodrell Laboratory. The principal work carried out is systematic and economic botany within the British Empire. Plants of economic importance are grown in the gardens and sent out to various parts of the Empire. Information is also supplied on botanical matters to all parts of the Empire. Research work is carried out on matters relating to Economic, Systematic, and Phytogeographical Botany and also in Mycology. Botanists should apply to the Director (Sir Arthur W. Hill, K.C.M.G., M.A., Sc.D., D.Sc., F.R.S.) for permission to work at Kew.

2. IMPERIAL MYCOLOGICAL INSTITUTE, *see* p. 913.

3. THE NATIONAL INSTITUTE OF AGRICULTURAL BOTANY, Huntingdon Road, Cambridge, was established in 1919 to improve the yield and quality of farm crops by discovering and encouraging the use of better

varieties and better seeds. The two main branches of the work are (a) Crop Improvement, covering field trials of farm crops at six regular sub-stations in England and Wales, and occasionally at other centres, the distribution of seed of improved varieties, and at the Potato Testing Station, Ormskirk, the official trials of potatoes for immunity from wart disease, virus disease investigations, and general potato trials; (b) Official Seed Testing Station for England and Wales at Cambridge, which makes laboratory tests of the purity and germination of seed samples, and undertakes research work on seed problems. In approved cases facilities would be given for post-graduate research. Reports of work done are issued in the Institute's *Journal*. Periodical meetings of Fellows of the Inst. are held for discussion, etc. A course and examn. in the theory and practice of seed testing is usually held each alternate summer; fee for course (four to five weeks), £5 : 5s.; for examn., £1 : 1s. *Director*, Inquiries to be addressed to the Secretary.

4. THE ROTHAMSTED EXPERIMENTAL STATION, Harpenden, Herts., founded in 1843, is controlled by the Lawes Agricultural Trust (Endowment Fund, £100,000), with which the Incorporated Society for Extending the Rothamsted Experiments (founded 1904) co-operates. Annual grants are received from the Ministry of Agriculture, which also gives capital funds for approved purposes. The Station is organized into the following 10 depts.: Bacteriol., Bot., Chem., Fermentation, General Micro-Biol., Insecticides and Fungicides, Physics, Plant Pathol. (mycology), Plant Pathol. (entomology), Statistics. The station owns an area of over 500 acres of land for the purpose of farm and experimental fields, and a library of 25,000 vols.

Subject to certain conditions, the Station receives post-graduate students, scholarship holders, and others on leave from agricultural depts. overseas, some of whom work for higher research degrees in agric. or pure science. No fees are charged to voluntary workers for the supervision of their work, but a charge will be made for the supply of apparatus, chemicals, etc.

Director, Sir E. John Russell, D.Sc., F.R.S. All inquiries in the first instance should be addressed to the Secretary.

The WOBURN EXPERIMENTAL STATION now forms part of the Rothamsted organization; it consists of 138 acres of land, mainly light soil, Laboratory, Pot Culture, and Meteorological Stations.

In May 1929, as a result of the Imperial Agricultural Research Conference held in London in 1927, the IMPERIAL BUREAU OF SOIL SCIENCE was set up at Rothamsted as a central clearing house of information on soil problems throughout the Empire. Publication: List of publications relating to Soils and Fertilizers (monthly).

5. RESEARCH INSTITUTE OF PLANT PHYSIOLOGY, Imperial College of Science and Technology, South Kensington, London, S.W.7. The work of the Institute is mainly directed to the elucidation of the plant physiological processes underlying crop yield in the field and in glass houses. It works in close association with the Research Institutes at Rothamsted, Cheshunt, and East Malling. It is available for research

in general plant physiology, chemical physiology, and the physiology of fungi. The laboratories are well equipped on the chemical and electrical sides and also for experiments on the growth of plants under artificial light and controlled temperatures. Requests for admission, together with a full account of academic qualifications and training, should be sent to the Director (Prof. V. H. Blackman, M.A., Sc.D., F.R.S.).

For names of staff, v. p. 168.

6. PLANT BREEDING INSTITUTE, School of Agriculture, Cambridge. The main work of the Institute is connected with the problems of breeding improved types of the plants cultivated as farm crops in this country. Most progress has been made with cereal crops, but preliminary work on improving many other crops is being carried out, including brassicæ and the leguminous fodder crops. Work on virus diseases is carried out in a special station under the direction of Dr. R. N. Salaman. There are facilities for research work in plant breeding, genetics and cytology. The experiment grounds are equipped with bird-proof cages for the protection of the more important hybrid cereals, with greenhouses, storage rooms, and a small machine room.

The IMPERIAL BUREAU OF PLANT GENETICS, for crops other than herbage plants, has been established at the School of Agriculture for the collection and dissemination of information on this subject throughout the Empire. Publication: *Plant Breeding Abstracts* (quarterly).

Inquiries to be addressed to the Director of the Inst. (H. Hunter, M.A., D.Sc.).

7. WELSH PLANT BREEDING STATION, University College, Aberystwyth. This Station conducts researches related to plant breeding especially for farmers in high rainfall districts, at high elevations, and generally under conditions of low fertility. Chief attention is therefore given to herbage plants, with a view to producing high yielding, persistent, and leafy strains of certain grasses and clovers. Oats is the only ordinary arable crop receiving serious attention. The station is well equipped for research in the foregoing directions. There is a 2 yrs.' course for graduates studying for the Ph.D. degree. Members of staffs of research or teaching institutions and of the Govt. Departments of Agriculture are admitted for shorter periods. Applications should be addressed to the Director (R. G. Stapledon, C.B.E., M.A.), Agricultural Buildings, Alexandra Road, Aberystwyth, as long as possible in advance of proposed entry.

In accordance with the recommendation of the Imperial Agricultural Research Conference held in London in 1927, the IMPERIAL BUREAU OF PASTURE AND FORAGE CROPS has been established at the Institute for the collection and dissemination of information on this subject throughout the Empire. The Bureau issues *Herbage Abstracts*, *Reviews*, and *Bulletins*.

Besides the Agricultural Depts. of the Univs. in Gt. Britain and N. Ireland, and agricultural colls. which are constituent parts of Universities, such as the South-Eastern Agricultural College, Wye (Univ. of London), the following independent colls. undertake research work.

8. HARPER ADAMS AGRICULTURAL COLLEGE. Newport, Shropshire, provides facilities for research workers in Agriculture, or in Chemistry, Mycology, Entomology, Veterinary Science, Dairy Bacteriology or Economics in their application to Agriculture. THE NATIONAL INSTITUTE OF POULTRY HUSBANDRY is located at the College, and provides extensive facilities for poultry research. Reports are published in the form of separate bulletins as well as in journals, such as the *Journal of Agricultural Science*, *Bio-Chemical Journal*, and *Annals of Applied Biology*. Inquiries to be addressed to the Principal (Charles Crowther, M.A., Ph.D.).

9. MIDLAND AGRICULTURAL COLLEGE, Sutton Bonington, Loughborough, Leicestershire. Visitors admitted for research work in the Chemistry or Bacteriological Laboratories, or in dairying or costings, at 63s per week, including board and lodging. Reports on experiments and small matters of research are issued from time to time. Prospectus free; apply to the Principal (H. G. Robinson, M.Sc.).

10. SEALE-HAYNE AGRICULTURAL COLLEGE, Newton Abbot, Devon. On the College Estate of 339 acres, a farm of 315 acres is maintained. Research work is being carried out in connexion with insect and fungus pests, soil problems, plant breeding work with broccoli, economic investigations, dairy bacteriology and certain specific animal diseases, such as Johnes disease, mammitis, and contagious abortion. The college farm specializes in the production of Certified milk. Experts from overseas proposing to visit the College will be welcome, and arrangements can be made for them to work there temporarily. Results of experiments are published from time to time in pamphlets. Inquiries to be addressed to "The Principal" (W. Henderson Hogg).

Soils and Crops (Scotland)

Persons wishing to avail themselves of the resources of any of the following centres (a) 11-16, (c) 7, (d) 5-7, should call in the first instance for suggestions and advice on the Department of Agriculture for Scotland, York Buildings, Queen St., Edinburgh, 2.

11. MACAULAY INSTITUTE FOR SOIL RESEARCH, Craigiebuckler, Aberdeen. The Institute, which was established through the generosity of Mr. T. B. Macaulay of Montreal, consists of laboratories and experimental grounds at Craigiebuckler, Aberdeen, and an experimental farm on peat land at Arnish Moor, Island of Lewis. It is the national soil research station for Scotland, and is under the management of a Joint Committee nominated by the three Scottish Agricultural Colleges, the University of Aberdeen, and the Department of Agriculture for Scotland. The main lines of work at the Institute are: Soil classification and surveys; advisory work; soil fertility investigations; the study of the poorer classes of soil, including peatland, of forest soils, of soil drainage; special investigations. Work carried out at the Institute under the supervision of the Director qualifies for the degrees of Ph.D. and D.Sc. at Aberdeen Univ. Facilities for research are offered and applicants are invited to communicate with the Director.

12. THE SCOTTISH SOCIETY FOR RESEARCH IN PLANT BREEDING (Station at Corstorphine, Edinburgh 12) was established to promote the discovery and the creation of improved races of crop plants adapted to Scottish conditions. Applications from voluntary workers to the Director of Research will receive consideration.

13. SEED TESTING AND PLANT REGISTRATION STATION AND PLANT PATHOLOGY SERVICE (Dept. of Agriculture for Scotland), East Craigs, Craigs Road, Corstorphine, Edinburgh, 12. This is the official Seed Testing Station for Scotland. In addition tests are carried out of varieties of agricultural plants, particularly potatoes and cereals, with a view to the official registration of new improved varieties. The Plant Pathology Service is provided for the investigation of, and research into various diseases of plants. Overseas students desiring further information should apply to the Secretary of the Dept. of Agriculture. *See* p. 886.

14. EDINBURGH AND EAST OF SCOTLAND COLLEGE OF AGRICULTURE, 13 George Square, Edinburgh, 8. Facilities are provided for post-graduate research work in soil science, agricultural bacteriology, and agricultural botany. Experimental Farm. Workers possessing the requisite qualifications may be entered for the Ph.D. degree of Edinburgh University. For staff, *see* p. 366.

15. NORTH OF SCOTLAND COLLEGE OF AGRICULTURE, 41½ Union St., Aberdeen. Experiments on farm crops on the college farm at Craibstone, near Aberdeen; research work in entomology, grassland management and agricultural economics: results of experiments and research published in bulletins. For staff, *see* p. 352.

16. THE WEST OF SCOTLAND AGRICULTURAL COLLEGE, 6 Blythswood Square, Glasgow, C.2. Applications by experts in the service of the Government, Universities and Colleges, and from agriculturists and others interested in agriculture and its allied branches in the British Empire overseas for permission to visit the College or for copies of bulletins will receive attention. For staff, *see* p. 379.

Soils and Crops (Northern Ireland)

Persons wishing to avail themselves of the resources of any of the following centres (a) 17-19, (c) 8, (d) 8-11, should call in the first instance for suggestions and advice on the Ministry of Agriculture for Northern Ireland, Stormont, Belfast; and of centre (f) 1 and 2 on the Dept. of Scientific and Industrial Research, 16-18 Old Queen St., London, S.W.1.

17. CHEMICAL [AND ANIMAL NUTRITION] DIVISION (Ministry of Agriculture, N. Ireland), The Queen's University, Belfast. Research work falls into two main sections: (i.) Animal Nutrition (*see* (d) 8 below); (ii.) Soil and fertilization problems. There is an Agricultural Research Station for crops and stock with a farm of 500 acres at Hillsborough, Co. Down.

18. PLANT BREEDING RESEARCH DIVISION (Ministry of Agriculture

N. Ireland), Stormont, Strandtown, nr. Belfast. The Division is concerned with the production of improved varieties of the agricultural crops of N. Ireland. Hitherto most time has been devoted to oats and flax.

19. SEED-TESTING AND PLANT DISEASE DIVISION (Ministry of Agriculture, N. Ireland), The Queen's University, Belfast. The chief investigations of this Division relate to (i.) the diseases and pests of oats, potatoes, flax, fruit, and vegetables, and (ii.) the problems concerned with seeds mixtures, grass land management, strain in grasses, and weeds.

(b) *Horticulture*

1. LONG ASHTON FRUIT RESEARCH STATION (Univ. of Bristol), Long Ashton, nr. Bristol. The work of the Station is the investigation of problems relating to (i.) fruit culture; (ii.) diseases of horticultural crops, especially fruit crops; (iii.) fruit preservation and production, incl. cider-making and the storage of fruits; (iv.) willow cultivation and the utilization of osiers. The Station is also an advisory centre on these subjects. Adjoining the Station is a farm of c. 262 acres, about one-half of which is suitable for experimental work. At the associated CAMPDEN RESEARCH STATION, Chipping Campden, Glos., the main research is the investigation of problems relating to the commercial canning of fruits and vegetables. Intending workers at the Long Ashton Station should apply to the Director (Prof. B. T. P. Barker, M.A.), Long Ashton Research Station, nr. Bristol, and at the Campden Station, to the Director (F. Hirst, M.Sc.) of the latter Station, stating subject of work proposed and probable length of study.

2. EAST MALLING RESEARCH STATION, Kent. (The Kent Incorporated Society for Promoting Experiments in Horticulture.) Research work is being carried out in pomology, hop culture, plant pathology, physiology, bio-chemistry, entomology, insecticides and fungicides, and statistics. Besides issuing an Annual Report, the Institute publishes most of the results of its investigations in the quarterly *Journal of Pomology and Horticultural Science*. From time to time facilities are offered to graduate students for gaining experience in research in these problems, both in the field and laboratories. The Research Station is accepted by the Univ. of London as an instn. at which teachers may be recognized for the instruction of students pursuing courses of advanced study and research. Applications, with full details of qualifications and subjects of study proposed, to be addressed to the Director (R. G. Hatton, C.B.E., M.A., D.Sc.).

In accordance with the recommendation of the Imperial Agricultural Research Conference held in London in 1927, the IMPERIAL BUREAU OF FRUIT PRODUCTION has been established at the Station for the collection and dissemination of information on this subject throughout the Empire. A quarterly journal, *Horticultural Abstracts*, is issued dealing with deciduous, tropical and sub-tropical fruit, and other perennial crops.

3. HORTICULTURAL RESEARCH STATION (Camb. Univ.), University

Farm, Huntingdon Road, Cambridge. The Director of the Station (D. Boyes, M.A.) is assisted by an Advisory Committee which includes members of the National Farmers' Union. The work of the Station is mainly concerned with the breeding of improved varieties of vegetables and with the pathology and chemistry of the more important vegetable crops. In addition, investigations are being carried out on the manuring of vegetables.

4. EXPERIMENTAL AND RESEARCH STATION, Turner's Hill, Cheshunt, Herts. In the centre of the Lea Valley Glasshouse district. The aim of the Station is to investigate the many problems connected with the commercial cultivation of glasshouse crops. Advisory work is an important feature. Research workers are admitted to the laboratories for short periods when space is available. Reports are widely circulated. All inquiries should be addressed to the Director (W. F. Bewley, C.B.E., D.Sc.).

5. HORTICULTURAL COLLEGE FOR WOMEN, Swanley, Kent, conducts investigations into insect pests and fungus diseases of cultivated garden plants. Students on leave from other countries are welcome. Inquiries to be addressed to the Principal (Miss K. Barratt, C.B.E., D.Sc., A.R.C.S.).

6 THE BOARD OF GREENKEEPING RESEARCH, St. Ives Research Station, Bingley, Yorkshire. Founded in 1929 by the British Golf Unions' Joint Advisory Council and supported by voluntary subscriptions from Clubs in membership of the Unions and by limited support from other sports such as Bowls, Croquet, Lawn Tennis, etc. Investigations are being carried out on turf grasses from all aspects, with particular reference to the bents and fescues which make the best type of turf for fine lawns, for golf, etc. Experiment grounds, 18 acres. Extensive advisory bureau for use of supporting clubs. A limited number of voluntary workers admitted at any time during the year to whom laboratory facilities are available. Application to be made to the Director (R. B. Dawson, M.Sc., F.L.S.). Publications: Annual Report; *Journal* (half-yearly) 2s. 9d. post free; occasional pamphlets.

(c) *Animal Pathology (England and Wales)*

1. THE BROWN ANIMAL SANATORY INSTITUTION, 149 Wandsworth Road, London, S.W.8. (See p. 161.)

2. RESEARCH INSTITUTE IN ANIMAL PATHOLOGY (Royal Veterinary College, London), Great College St., Camden Town, N.W.1. The aim of the Institute is to extend knowledge regarding the diseases of farm animals. The principal work undertaken hitherto has been concerned with contagious abortion in cows and mares, joint-ill in foals, John's disease, mastitis in cows, parasitic gastritis in ruminants, anaerobic disease of sheep, the infectious diseases of young calves. The work is organized in three divisions: Pathology (Morbid Anatomy), Bacteriology and Parasitology. Inquiries to be addressed to the Director (F. C. Minett, M.B.E., D.Sc., M.R.C.V.S.).

3. INSTITUTE OF ANIMAL PATHOLOGY (Camb. Univ.), Cambridge. It has laboratories and a field station in Milton Road, Cambridge. The Institute is working almost entirely on the diseases of farm animals. Special attention has been given to a variety of sheep diseases. Arrangements are made for courses of advanced study and research for Colonial veterinary officers and others who may desire them. Provision is also made for visitors to carry out specific investigations. *Director*—Prof. T. Dalling, M.R.C.V.S. Applns. should be addressed to the Secretary, School of Agriculture, Cambridge.

4. VETERINARY LABORATORY (Ministry of Agriculture and Fisheries), New Haw, Weybridge, Surrey. This Institution is now divided into two sides—a routine side, dealing with questions of diagnosis and the preparation or testing of certain biological products, and a research side which includes sections of bacteriology, pathology, parasitology, biochemistry, and poultry disease. The laboratory has excellent facilities for experimental work on the larger farm animals and on poultry. A limited number of post-graduate workers can be received.

THE IMPERIAL BUREAU OF ANIMAL HEALTH set up in accordance with the recommendation of the Imperial Agricultural Research Conference held in London in 1927, for the collection and dissemination of information on this subject throughout the Empire is housed in this institution. The Bureau publishes monthly a Journal of abstracts, the *Veterinary Bulletin*, and quarterly a full index of current literature relating to animal disease, *Index Veterinarius*.

The Foot-and-Mouth Disease Station, limited to experiments on that disease and providing accommodation for work with both small and large animals, is at Pirbright, some 10 miles from New Haw.

Director of the combined institutions (to whom communications should be addressed), W. Horner Andrews, D.Sc., M.R.C.V.S.

5. THE MOLTEÑO INSTITUTE OF BIOLOGY AND PARASITOLOGY, Downing St., Cambridge. *Telegrams*—Cambridge, 4577. This Institute was founded by Mr. and Mrs. Percy A. Molteno for the advancement of knowledge of parasitology in all its branches. Opened in 1921. There are 16 research rooms, a museum, special library, photographic room, accommodation for smaller animals, etc., and, if required, facilities for work on parasitic affections of larger animals may be obtained at the Univ. Field Laboratories. It is also well provided with apparatus and appliances for research upon general biology, chemotherapy, and the biology and morphology of parasites. The extensive collections of parasites (Vermes, Insecta, Acarina, Protozoa, Fungi) are accessible for study, the most notable being the Nuttall collection of Ticks, which, besides being rich in types, is one of the largest existing.

The scope of the work carried on is broadly biological, extending beyond the limitations set by professional schools, either medical or veterinary, in zoological and botanical laboratories, or in conjunction with agriculture and fisheries. Purely scientific as well as practical problems are dealt with.

Research workers, including those coming from the outside, may be admitted on application to the Director of the Institute (D. Keilin, M.A.,

Sc.D., F.R.S., Quick Prof. of Biology). The ordinary fee for research students is five gs. a term and two and a half gs. during six weeks of the Long Vacation (total £18 : 7 : 6 p.a.).

6. INSTITUTE OF AGRICULTURAL PARASITOLOGY (London School of Hygiene and Tropical Medicine), Winches Farm, Hatfield Road, St. Albans, Herts. The Institute specializes in the morphology, life histories, and bionomics of the internal parasites of domesticated animals, farm stock, poultry, and fur animals, and of the allied eel-worms which infest plants of economic importance. Facilities for advanced study and research are available for workers in associated depts. of the London School of Hyg. and Trop. Med. *Director*, R. T. Leiper, D.Sc., M.D., F.R.S. Applications for detailed information should be made to the Secretary, London School of Hyg. and Trop. Med., Keppel Street, London, W.C.1.

In accordance with the recommendation of the Imperial Agricultural Research Conference held in London in 1927 the IMPERIAL BUREAU OF AGRICULTURAL PARASITOLOGY for the collection and dissemination of information on this subject throughout the Empire has been established at the Institute.

Animal Pathology (Scotland)

7. ANIMAL DISEASES RESEARCH ASSOCIATION, Moredun Institute, Gilmerton, Midlothian, and a suite of bio-chemistry laboratories at the Royal (Dick) Veterinary College, Edinburgh, 9. Research has been principally directed to the diseases of sheep. Investigations are also in progress on grass sickness in horses, contagious bovine abortion, milk fever and lactation tetany in cows. Visiting workers are expected to defray the cost involved in any special work.

Animal Pathology (Northern Ireland)

8. VETERINARY RESEARCH DIVISION (Ministry of Agriculture, N. Ireland), Stormont, Belfast. Research is carried on into abortion and sterility in cattle, anti-tuberculosis vaccination, pneumonia in pigs, and diseases of poultry and sheep.

(d) Animal Husbandry, including Animal Breeding (England and Wales)

1. ANIMAL NUTRITION RESEARCH INSTITUTE (Camb. Univ.), School of Agriculture, Downing Street, Cambridge. Field work is carried out at the Animal Research Station on the University Farm, Huntingdon Road. The work of the Institute falls under two main heads : (i.) nutrition proper ; (ii.) the physiology of reproduction and growth. Members of the staffs of teaching institutions or of Govt. Depts. of Agriculture are admitted for short courses. The full course covers two or three yrs. Applications should be directed to the Secretary, School of Agriculture, Cambridge, as long as possible before proposed arrival.

2. NATIONAL INSTITUTE OF POULTRY HUSBANDRY (Harper Adams Agricultural College, Newport, Shropshire). (See (a) 8 above.) The

Institute carries out large-scale experimental work on the breeding, feeding, management, and housing of poultry and other small live stock. Inquiries to be addressed to the Principal of the College.

3. NATIONAL INSTITUTE FOR RESEARCH IN DAIRYING (Univ. of Reading), Shinfield, near Reading, was established in 1912. It is concerned on the one hand with the fundamental problems of bovine nutrition, of the breeding of dairy cattle, of lactation and of the chemistry and micro-biology of milk and milk products, and on the other with the more immediate problems of the dairy industry, agricultural, chemical, bacteriological, and mechanical, arising during the production, handling, and distribution of milk, and during the manufacture of dairy products. The work is organized in four main departments: (a) dairy husbandry; (b) dairy bacteriology; (c) dairy chemistry; (d) physiology and bio-chemistry. In addition to laboratories and the Stenhouse Williams Memorial Library (opened 1934), the Institute possesses an experimental farm and a dairy in close proximity to the laboratories. No. of research staff, 33. A limited number of post-graduate workers can be received for a 2 or 3 yrs.' course of advanced study and research leading to higher degrees of the Univ. of Reading, etc. Voluntary workers may be admitted for shorter periods. Applications for admission should be addressed to the Director of the Institute (Prof. H. D. Kay, O.B.E., Ph.D., D.Sc.).

4. SMALL ANIMAL BREEDING RESEARCH INSTITUTE (Camb. Univ.), Storey's Way, Cambridge. Part of the field work is carried out at the Animal Research Station, Huntingdon Rd., Cambridge. The work includes genetical problems relating to rabbits and poultry. A limited number of applns. could be considered from visiting research workers who wished to spend a short period working in the Inst. (*Director*, Prof. R. C. Punnett, M.A., F.R.S.) Applns. should be addressed to the Secretary, School of Agriculture, Cambridge.

Animal Husbandry, including Animal Breeding (Scotland)

5. ROWETT RESEARCH INSTITUTE, Bucksburn, Aberdeen. The Institute is devoted to research on the chemistry and physiology of nutrition and allied subjects, including nutrition in relation to disease, and the application of nutrition in stock feeding and in human dietetics. There is laboratory accommodation for between 30 and 40 workers. Attached to the Institute is an experimental farm of 600 acres, with buildings designed for feeding experiments. *Director*, Sir J. B. Orr, D.S.O., M.C., M.A., D.Sc., M.D., F.R.S.

THE IMPERIAL BUREAU OF ANIMAL NUTRITION is centred at the Institute and acts as the clearing-house for information on the subject of nutrition.

Under the joint supervision of the Imperial Agricultural Bureaux Council, the Medical Research Council, and the Reid Library, which is attached to the Institute, there is published quarterly the *Journal Nutrition Abstracts and Reviews*.

Post-graduate research workers are admitted, and work at the Institute is recognized for doctorate degrees at Aberdeen Univ. Ad-

joining the Institute is Strathcona House, the headquarters of a residential club known as the Strathcona Club. Workers and overseas visitors are eligible for membership of the Club and Dominion visitors are given a prior claim to bedroom accommodation.

6. HANNAH DAIRY RESEARCH INSTITUTE, Kirkhill, nr. Ayr. This Institute was established in 1928 for the study of problems relating to the production and distribution of milk, and to the manufacture of dairy products. At present work is being concentrated along biological lines, particularly as regards the physiology of milk secretion, the nutrition of the dairy cow, and the study of bovine disease. Work is also being undertaken on problems connected with the processing of milk and of milk products.

The Institute possesses laboratory accommodation for workers in physiology, bio-chemistry, pathology, and bacteriology, while opportunity for investigations in animal husbandry is available on the Institute's dairy farm. Opportunity is also available to post-graduate students to study for higher degrees of the Univ. of Glasgow. Applications for permission to work in the laboratories should be addressed to the Director.

7. INSTITUTE OF ANIMAL GENETICS (Edinburgh Univ.), King's Buildings, West Mains Road, Edinburgh, 9. The Institute aims at securing and disseminating knowledge relating to the physiology of reproduction and of inheritance, with special ref. to animals of economic importance. The equipment comprises an Experimental Farm near Edinburgh with dairy cattle and pigs. At the Institute itself accommodation is provided for small animals. Facilities are available for graduates proceeding to a higher degree at Edinburgh Univ. and for officers of the Colonial Agricultural and Veterinary services. Senior research workers may work at their own problems. Owing to the expense of work with larger farm animals an additional fee is charged to students requiring such material, and this fee may be increased if the cost of the projected study is not covered by such a fee. *Director*, Prof. F. A. E. Crew, D.Sc., Ph.D., M.D. Applications for admission should be made to the Secretary to the Institute.

In accordance with the recommendation of the Imperial Agricultural Research Conference held in London in 1927, the IMPERIAL BUREAU OF ANIMAL GENETICS was established at the Institute of Animal Genetics for the collection and dissemination throughout the Empire of information bearing on this subject. Publication: *Animal Breeding Abstracts* (quarterly).

Animal Husbandry (Northern Ireland)

8. [CHEMICAL AND] ANIMAL NUTRITION DIVISION (Ministry of Agriculture, N. Ireland), The Queen's Univ., Belfast. (*See* (a) 17 above.) The Division is working on problems concerned with the nutrition of farm animals. Particular attention is being paid to pig nutrition and a study of the mineral metabolism of laying pullets is in progress. Poultry nutrition work is also being carried out in collaboration with the

Rowett Research Institute and the Poultry Depts. of the Scottish Agricultural Colleges. An experimental plant for poultry nutrition has been established at Hillsborough, Co. Down, in connexion with the work of the Division.

9. [CROP AND] ANIMAL HUSBANDRY RESEARCH DIVISION (Ministry of Agriculture, N. Ireland), Agricultural Research Institute of N. Ireland, Hillsborough, Co. Down.

10. AGRICULTURAL RESEARCH INSTITUTE, Hillsborough, Co. Down. The Institute consists of (a) an experimental farm of 500 acres mainly devoted to work in animal nutrition; (b) a poultry plant with a capacity for 3000 birds devoted to research work in nutrition. The Institute is under the management of a Board of Trustees representative of the Ministry of Agriculture, the Queen's University Faculty of Agriculture, the Ulster Farmers' Union, and the Ulster Agricultural Organization Society.

11. DAIRY BACTERIOLOGY DIVISION (Ministry of Agriculture, N. Ireland), The Queen's Univ., Belfast. The main work of this Division falls under two heads: (i.) Graded milk; (ii.) Control of Creameries. The Division is devising methods for the control of butter and cream manufacture in creameries. It also affords advisory services in connexion with general bacteriological problems.

(e) *Agricultural Economics*

AGRICULTURAL ECONOMICS RESEARCH INSTITUTE (Oxford Univ.), Parks Road, Oxford. The work of the Institute embraces fundamental research in Agricultural Organization and the investigation of the problems of Farm Management, the distribution of Farm Produce, and Supplies and Prices. The Institute is open to post-graduate students with a standing entitling them to read for the B.Litt., B.Sc., or D.Phil. of Oxford Univ. and who intend to study for one of these research degrees. *Director*, C. S. Orwin, M.A. Inquiries should be addressed to the Secretary.

(f) *Food Preservation and Transport*

1. LOW TEMPERATURE STATION FOR RESEARCH IN BIO-CHEMISTRY AND BIO-PHYSICS (Dept. of Scientific and Industrial Research in conjunction with Camb. Univ.), Cambridge. (See V. 7 below.) The work in progress falls under the following heads: (i.) Plant problems; (ii.) Animal problems; (iii.) Fungal and bacteriological problems; (iv.) Canning problems; (v.) Engineering problems; (vi.) Problems of salting and smoking. *Superintendent*, F. Kidd, M.A., D.Sc.

2. DITTON LABORATORY (Dept. of Scientific and Industrial Research), East Malling, Maidstone, Kent. Research is carried out on the storage and transport of fruit and vegetables and on cognate problems in engineering. The laboratory includes an experimental refrigerated ship's hold with a capacity of 120 tons. *Superintendent*, C. West, D.Sc.

3. THE BIOLOGICAL FIELD STATION (Imperial College of Science and

Technology), Hurworth, Slough, Bucks, was established in 1929 by grants made by the Empire Marketing Board, for the conduct of research on the scientific problems underlying the importation of stored products of all kinds. It has since been developed for the training of advanced students in research and biological field work and comprises several laboratories for research in entomology, physical chemistry basis to biology, plant pathology and insect and plant ecology. Twenty-five acres are available for field collecting and for experimental plot work. The field station comprises insectaries, constant temperature rooms, glass-houses, a special laboratory with refrigerator, and fumigation chambers, including one for work on a commercial scale. *Director*, Prof. J. W. Munro, M.A., D.Sc. For names of staff, *see* p. 168.

(g) *Agricultural Engineering*

INSTITUTE FOR RESEARCH IN AGRICULTURAL ENGINEERING (Univ. of Oxford), 10 Parks Road, Oxford. The aim of the Institute is to undertake research in all depts. of agricultural engineering. These include : (i.) The intensive use of machinery on the farm (Power Farming), with special attention to sources of power (tractors, etc.), and to modern methods of farming (combine harvester-thresher, etc.) ; (ii.) Implements ; (iii.) The use of electricity on the farm ; (iv.) Field drainage. The Institute also conducts tests under the Ministry of Agriculture's Testing Scheme and has an extensive advisory service. Inquiries to be addressed to the Director (S. J. Wright, M.A.).

II. FORESTRY.

IMPERIAL FORESTRY INSTITUTE, Oxford, *see* p. 275.

III. FISHERIES AND PRESERVATION OF FISH.

Persons wishing to avail themselves of the resources of any of the following centres 4, 5, and 7 should call in the first instance for suggestions and advice on the Ministry of Agriculture and Fisheries, 43 Parliament St., London, S.W.1 ; for centres 9 and 10 on the Fishery Board for Scotland, 101 George St., Edinburgh ; and for centre 11 on the Dept. of Scientific and Industrial Research, 16 Old Queen St., London, S.W.1.

1. MARINE BIOLOGICAL ASSOCIATION. A number of research tables at the Plymouth Laboratory are provided free of cost on the nomination of Governors (among others the Univs. of Oxford and Cambridge) and Founders of the Marine Biological Assocn. of the United Kingdom. *The Ray Lankester Fund* provides for the payment of £100 to an Investigator to be appointed from time to time by the trustees on condition of his spending at least 5 months in carrying on researches at the Laboratory. There is a post of Student Probationer open to Honours graduates, tenable for 2 yrs. at £200 p.a. For full particulars application should be made to the Director and Secretary to Council (S. Kemp, Sc.D., F.R.S.), Citadel Hill, Plymouth, Devon.

2. DOVE MARINE LABORATORY, Cullercoats, Northumberland. The

Laboratory is the property of King's College, University of Durham, and is well fitted for research in marine zoology and botany and in physiology. Application for tables should be made to the Director, Professor A. D. Hobson, Zoological Department, King's College, Newcastle-on-Tyne. Special facilities for post-graduate research.

3. MARINE BIOLOGICAL STATION, PORT ERIN, Isle of Man (Dept. of Oceanography, Liverpool Univ.). *Director* (Acting for the Prof. of Oceanogr.), R. J. Daniel, D.Sc. This seaboard station for biological research includes 2 large class-rooms or laboratories; a well-equipped biochemical laboratory, 14 small working rooms, library, dark-room and stores, workshops; an aquarium and small museum; and a fish-hatchery and open-air ponds. Accommodation is provided for both undergraduate students and investigators at all times in the year. Application for work-places should be made to Mr. J. R. Bruce at the Station. A limited number of research (post-graduate) students can also be accommodated at the Dept. of Oceanography at the Univ. Application to be made to the Registrar.

Accommodation for students and researchers in Marine Biol., particularly on the bio-chemical side, is provided at the Station. Applns. as above.

4. FISHERIES LABORATORY, Lowestoft. The main Laboratory of the Fisheries Department of the Ministry of Agriculture and Fisheries, well equipped for deep sea research. A research trawler and a motor-vessel are kept in commission during the greater part of the year. There is no special provision for outside workers, but duly accredited persons interested in fishery research will be given facilities on application to the Director.

5. FISHERIES EXPERIMENT STATION, Castle Bank, Conway. Equipped by the Fisheries Department (Ministry of Agric. and Fisheries) for shellfish research, especially in connexion with sewage pollution and artificial breeding. Accommodation for outside workers is limited. Application should be made to the Director.

6. FISHERIES RESEARCH DEPT., UNIVERSITY COLLEGE, Hull. A Fisheries Research section is conducted under the directorship of Prof. A. C. Hardy, M.A., in the Dept. of Zoology and Oceanography, with a staff of six research biologists, one of whom is a Leverhulme Fellow in Fisheries Research. A scheme of research, which concerns the distribution of plankton in relation to that of fish, particularly the herring, is being carried out in co-ordination with the researches of the Ministry of Agriculture and Fisheries and the Fishery Board for Scotland. An Oceanographic Laboratory, a sub-section of the Dept., has been opened at Leith, with Mr. A. E. Lucas in charge, to carry out the investigations in more northern waters. The cost of maintenance is borne largely by the Development Commission with grants in aid from the Viscount Leverhulme Trustees, the Fishmongers' Company and the Hull Fishing Vessel Owners' Assn. Facilities are offered to post-graduate research workers. Applications to the Registrar.

7. FISHERIES RESEARCH STATION, Alresford, Hants. A small

laboratory on the river Itchen, maintained by the Fisheries Department (Ministry of Agric. and Fisheries) for work on freshwater ecology in relation to pollution. Accommodation for outside workers is very limited.

8. THE FRESHWATER BIOLOGICAL ASSOCIATION OF THE BRITISH EMPIRE. The Laboratory of the Association is in Wray Castle on the west shore of Windermere. There is a resident staff of a Director and 4 Assistant Naturalists. The Laboratory is equipped for general biological and hydro-biological work on the lakes, reservoirs, rivers and streams of the Lake District. There is a specially equipped launch for work on Windermere itself. Visiting research workers may make use of the facilities of the Laboratory and Library, and accommodation (both board and lodging) is provided in Wray Castle. A number of research tables at the Laboratory are provided free of cost to workers on the nomination of subscribing Univs. During each Easter vacation a course is conducted on the principles and practice of freshwater biology. Applicants should write to the Director, Wray Castle, Ambleside, Westmorland.

(Scotland)

9. FISHERY BOARD FOR SCOTLAND. The Marine Laboratory, Wood St., Torry, Aberdeen, and the Marine Aquarium, Bay of Nigg, Aberdeen, are Govt. fishery and marine biology establishments. Two vessels fitted with modern apparatus are in commission for the greater part of each year: (a) the steamship *Explorer* engaged in deep-sea work (incl. trawling) in Scottish and North Atlantic waters, and (b) the motor-boat *Kathleen* employed in surveying coastal areas. One or two outside research workers may be accommodated, but no special provision for such exists. The Board's Scientific Supt. is R. S. Clark, M.A., D.Sc., F.R.S.E.

10. SCOTTISH MARINE BIOLOGICAL ASSOCIATION, Millport, Scotland, admits students and research workers: table space rental, subscribers, 10s. 6d., non-subscribers, £1 : 10 : 6, per week, including loan of microscope and use of ordinary reagents, library and reference collections, boats and collecting appliances when available. Trade dept. for sale of specimens. For full particulars apply to the Director, Marine Station, Keppel Pier, Millport, Buteshire.

Preservation of Fish

11. TORRY RESEARCH STATION (Dept. of Scientific and Industrial Research), Aberdeen. (See V. 7 below.) Research is carried out on the transport and storage of fish and on fish by-products. *Officer in Charge*, G. Reay, M.A., B.Sc., Ph.D.

IV. TIDES AND METEOROLOGY.

LIVERPOOL OBSERVATORY AND TIDAL INSTITUTE. The work carried on is as follows: (1) The continuous prosecution of scientific research

into all aspects of knowledge of the tides and of kindred geophysical subjects; (2) the analysis of tidal observations and the preparation of tide-tables; (3) the taking of meteorological and seismological observations, together with the supplying of information on these subjects; (4) the maintenance and firing of the Time-gun; (5) the testing of chronometers and navigational instruments. Students in research or in the routine of tidal work may be admitted on appln. to the Director of the Institute (Prof. J. Proudman, M.A., D.Sc., F.R.S.), The University, Liverpool.

V. INDUSTRIAL.

DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH, 16 Old Queen St., London, S.W.1.

(i.) Research Stations, Nos. 1-8.

Persons wishing to avail themselves of the resources of any of these centres are advised to call on the Dept. in the first instance for suggestions and advice. Research workers from overseas are not accommodated in these stations unless sent by Dominion or Colonial Governments by arrangement with the Department. Visitors from the Dominions or Colonies making inquiries on subjects falling within the scope of the various stations will, however, be supplied with such information as is available for communication.

1. THE NATIONAL PHYSICAL LABORATORY, Teddington, Middlesex, was founded in the year 1901 as a public institution for standardizing and verifying instruments, testing materials, and for the determination of physical constants. The Laboratory comprises the following main depts.: Physics; Electricity; Radio; Metrology; Engineering; Metallurgy; Aerodynamics; William Froude Laboratory. *Director*, W. L. Bragg, O.B.E., M.A., Sc.D., F.R.S., F.Inst.P., N.L.

2. THE FUEL RESEARCH STATION, Blackwall Lane, Greenwich, London, S.E.10, carries out investigations on the nature, preparation, and utilization of fuel of all kinds. The equipment of the Station includes large-scale plant for the carbonization, gasification, hydrogenation, cleaning, and briquetting of coal, boiler installations, and internal combustion engines for testing liquid fuel, as well as laboratories for small-scale investigations. *Director*, F. S. Sinnatt, C.B., M.B.E., D.Sc.

3. THE GEOLOGICAL SURVEY OF GREAT BRITAIN AND MUSEUM OF PRACTICAL GEOLOGY, Exhibition Road, South Kensington, London, S.W.7, assists students and others doing research as follows: (a) Palæontology, Petrology, and Mineralogy; the collections of British fossils, rocks, and minerals are always available under the guidance of the officer in charge. If sufficient reason is shown specimens may be lent out. Microscopes and all necessary apparatus are provided in the Survey's laboratories. (b) Mapping and field work. In the library large-scale maps of all parts of Britain which have been geologically surveyed are open for reference, and often the officers who made the maps are at hand to explain points of difficulty. (c) The library is especially rich in foreign surveys and in British geological literature. The public are

admitted freely. See also A. IX. 2 below. *Director*, E. B. Bailey, M.C., M.A., D.Sc., F.R.S.

4. THE FOREST PRODUCTS RESEARCH LABORATORY, Princes Risborough, Aylesbury, Bucks, is concerned with the general study of forest products, especially timber, with a view to their more efficient conservation and economical use. *Director*, W. A. Robertson.

5. THE BUILDING RESEARCH STATION, Bucknall's Lane, Garston, nr. Watford, Herts, is concerned with general research into building materials and methods of construction. *Director*, R. E. Stradling, C.B., M.C., D.Sc., Ph.D., M.Inst.C.E.

6. THE CHEMICAL RESEARCH LABORATORY, Teddington, Middlesex, undertakes research on Corrosion of Metals, High Pressure Problems, Tars, Chemotherapy, Synthetic Resins, Water Pollution, Dental Materials, Microbiology. *Director*, Sir Gilbert T. Morgan, O.B.E., D.Sc., F.R.S., F.I.C.

7. THE FOOD INVESTIGATION STATIONS of the Department are concerned with research on the storage and transport of foodstuffs. The LOW TEMPERATURE RESEARCH STATION, Downing Street, Cambridge, is concerned mainly, but not exclusively, with fruit and meat; the DITTON LABORATORY, East Malling, Maidstone, Kent, with fruit; the TORRY RESEARCH STATION, Aberdeen, with fish. See above, *passim*. *Director of Food Investigation*, E. Barnard, D.S.O., 16 Old Queen St., London, S.W.1.

8. ROAD RESEARCH LABORATORY, Harmondsworth, West Drayton, Middlesex, is concerned with research into road materials and processes for road-making. *Director*, R. E. Stradling, C.B., M.C., D.Sc., Ph.D., M.Inst.C.E.

(ii.) Research Associations, Nos. 9-30.

Applications relating to these centres and to Nos. 31-36 should be made direct.

9. THE INSTITUTION OF AUTOMOBILE ENGINEERS, RESEARCH AND STANDARDIZATION COMMITTEE (Headquarters—12 Hobart Place, London, S.W.1. Research Laboratory—Great West Road, Brentford, Middlesex. Standardization Dept.—83 Pall Mall, London, S.W.1). The object of the Committee is to promote research in connexion with the British motor trade, to eliminate needless repetition and overlapping of expenses by pooling resources. Outstanding research has already been carried out on such subjects of general interest as cylinder wear and valve seat materials. The plant and the information collected by the late Research Assn. of British Motor and Allied Manufacturers has been placed at the disposal of the Committee. An important feature of the Committee's activities is the collection and classification of information of value to the industry and the monthly publication of abstracts from the English and Foreign Technical Press. The Research reports are, in general, confidential to Affiliated Manufacturers and Affiliated Operators of the Institution. The Society of Motor Manufacturers and Traders in conjunction with the Committee deals with the whole work of standardization for the Motor Industry. *Director*

of *Research and Standardization*, C. G. Williams, M.Sc. Inquiries to be addressed to the Secretary at the Headquarters of the Institution.

10. THE BRITISH BOOT, SHOE, AND ALLIED TRADES RESEARCH ASSOCIATION, 19 Bedford Square, London, W.C.1, conducts research into problems that arise in the manufacture in bulk quantities of footwear, in its distribution to the general public, and during its wear. The researches cover a wide field, embracing methods of measuring feet, statistical studies of the distribution of different types of feet, the design of lasts to suit different types of feet, the properties of shoe materials, the care of them and their economical use, and the chemical and other effects that may arise in the wear of shoes. A certain amount of work is carried out in collaboration with factories and technical colls. Students have from time to time been admitted to the Association's laboratories. The research reports are in general confidential to members of the Association and to certain Government Depts., but some are published, generally in the *Journal of the International Society of Leather Trades Chemists*. Membership of the Assocn. consists principally of boot and shoe manufacturers, but it also includes a number of manufacturers and suppliers of various shoe materials, such as textile fabrics, textile threads, shoe polishes, cleaners, dressings, and a few engineering firms who manufacture shoe machinery. *Director*, H. Bradley, B.Sc., D.I.C., A.R.C.Sc.

11. BRITISH CAST IRON RESEARCH ASSOCIATION, 21-23 St. Paul's Square, Birmingham, of manufacturers of pig iron, grey iron, and malleable castings of all kinds, for research in the constitution, methods of production, and after-treatment of these and auxiliary materials, such as refractories, sands, fuels, slags, fluxes, etc. Their Central Laboratory is in Birmingham and an auxiliary laboratory in Falkirk, but other research work is carried out at university and other research laboratories and at the National Physical Laboratory. Investigators interested in any phase of research work on cast iron may use the Association's Information Bureau, and the Director (J. G. Pearce, M.Sc., M.I.E.E.) is prepared to co-operate in planning investigations. Bulletin of abstracts and information on current metallurgical literature published six times a year.

12. THE BRITISH COLLIERY OWNERS RESEARCH ASSOCIATION, General Buildings, Aldwych, London, W.C.2. This is an Association whose members are representatives of the various district colliery owners' associations constituting the Mining Association of Great Britain.

Though the Association conducts directly a certain amount of research work into mining problems, generally speaking it finances approved items of research work to be conducted on its behalf. Its reports are, in general, confidential to members of the Association, but from time to time reports on specific items of work are published for general circulation.

13. THE BRITISH ASSOCIATION OF RESEARCH FOR THE COCOA, CHOCOLATE, SUGAR CONFECTIONERY, AND JAM TRADES, 22 Buckingham

Gate, London, S.W.1; Laboratories, 2 and 4 Dalmeny Avenue, Holloway, London, N.7, conducts research into problems connected with the manufacture of these products, though occasionally some portions of an investigation may be conducted in a factory. The research reports are issued to members and certain Govt. Depts. only, and, with a few exceptions, are confidential. Some reports, particularly those dealing with analytical investigations, are pubd. in scientific or trade journals. *Director*, T. Macara, F.I.C., F.C.S. Inquiries to be addressed to the Secretary

14. THE BRITISH COTTON INDUSTRY RESEARCH ASSOCIATION, Shirley Institute, Didsbury, Manchester, does not admit students to work in its laboratories. Its research results are communicated to its members, and the papers released for open publication are issued in the *Journal of the Textile Institute*, 16 St. Mary's Parsonage, Manchester. A special Silk Research Dept. has been established to take over the work formerly carried on by the British Silk Research Assn. *Director*, Sir Robert H. Pickard, D.Sc., Ph.D., F.R.S., F.I.C. Communications to be addressed to the Association.

15. THE BRITISH ELECTRICAL AND ALLIED INDUSTRIES RESEARCH ASSOCIATION, 15 Savoy Street, London, W.C.2, is supported by all sections of the electrical industry, manufacturers, suppliers and users, and its annual income approximates to £80,000. It arranges programmes of research applicable to all matters pertaining to the electrical and allied industries. Many of these are carried out at the Association's own laboratory or in the field, but others are carried out with the help of the National Physical Laboratory, manufacturers' laboratories, the Universities and Technical Colleges (sometimes under contract with members of staffs or students) and in Power stations. The Association aims at securing co-ordination of research work and realization of maximum benefits from it. In general it devotes its work to researches for the benefit of the industry at large, leaving to manufacturers research work which is primarily for their own benefit. Most of its reports are confidential to members but some are published, usually in the *Journal of the Institution of Electrical Engineers*. *Director and Secretary*—E. B. Wedmore, M.I.E.E., F.Inst.P.

16. THE RESEARCH ASSOCIATION OF BRITISH FLOUR MILLERS, 40 Trinity Square, London, E.C.3; Laboratory: Old London Road, St. Albans, Herts., conducts research into problems connected with the manufacture and use of wheat flour and other products of wheat. The researches are carried out mainly at the laboratories of the Association, under the supervision of the Director of Research. Practical industrial applications of the laboratory scale work are studied in the mills of constituent firms. Reports of scientific work are, in general, confidential to members of the Association, but some are released from time to time for publication in the scientific or technical press. A library of scientific and technical books and periodicals bearing directly on flour milling and baking problems has been developed, and is an "outlier" of the Central Library for Students. It is accessible to students and others

interested. Students as a rule are not admitted to work in the Association's laboratories. *Director*, E. A. Fisher, M.A., D.Sc., F.I.C., F.Inst.P.

17. THE BRITISH FOOD MANUFACTURERS' RESEARCH ASSOCIATION, 22 Buckingham Gate, London, S.W.1; Laboratories, 2 and 4 Dalmeny Avenue, Holloway, London, N.7. This Association was originally intended to include branches of the food industries not covered by the Association for the Cocoa, Chocolate, Sugar Confectionery, and Jam Trades, but the membership consists mainly of manufacturers of sausages, cooked meats, and other meat products, preserved fish, and also bacon and ham curers.

The researches into problems connected with these products are conducted in the Association's laboratories, and occasionally parts of the investigations may be carried out in factories. The reports are confidential, and are issued to members and certain Government services only. So far only reports of general interest to chemists have been published in scientific or trade journals. *Director*, T. Macara, F.I.C., F.C.S. Inquiries to be addressed to the Secretary.

18. BRITISH IRON AND STEEL FEDERATION (Industrial Research Council), Caxton House, Tothill St., London, S.W.1, was formed on Jan. 1, 1929, to work in conjunction with the Dept. of Scientific and Industrial Research. The Council directs a wide range of research activities concerned with iron and steel practice, various aspects being controlled by 31 committees, sub-committees, and panels of the Council. Problems of production are investigated by technical committees. Of these the Blast Furnace Committee is concerned with researches on coke, blast furnace practice, refractories and slags, while the fundamental aspects of blast furnace phenomena are being studied by sub-committees and panels controlling research activities both in the laboratory and in the field.

A similar policy has been adopted by the Open Hearth Committee, which examines problems of steel production, and by the Rolling Mill Committee, which is concerned with the production of finished steel.

A group of four committees working in co-operation with the Iron and Steel Institute is examining—largely from the scientific side—problems of steel quality, *e.g.* heterogeneity of ingots, corrosion, steel castings, and alloy steels.

Committees of the Council are also studying problems of sheet and tinplate production, use of steel sheets in building construction, and problems of smoke prevention.

Research work for the industry is done under the direction of these committees at the National Physical Laboratory, at the British universities, at works research laboratories, and in some cases at centres established for specific research purposes. Full co-operation is maintained with research workers of the industry and their investigations (financed by the individual firms and not from the funds of the Research Council) are placed freely at the disposal of the Council in the interests of the industry as a whole.

Effective co-operation exists between the Government and other

research associations in this and other countries engaged in research of a similar nature to that of the Council.

Inquiries to be addressed to the Secretary.

19. THE BRITISH LAUNDERERS' RESEARCH ASSOCIATION, 16 and 17 Lancaster Gate, London, W.2 ; Laboratory : Hill View Gardens, Hendon, N.W.4, was formed to promote research and other scientific work in connexion with the laundry and cleaning trades or industries. In addition to the Research and Analytical Laboratories, Engineering Dept., and Library, a full scale Experimental Laundry is provided. The work carried out includes the investigation and development of suitable washing, drying and finishing processes for the laundering of all types of washable fabrics, the examination of detergent materials and the study of the performance of laundry plant. Fundamental research on the properties of detergent solutions is at present in progress. Members are entitled to technical advice on any matters pertaining to the laundry industry. Courses of instruction are conducted at the laboratories, and lectures are given in various parts of the country. Publications : *The Technology of Washing* (1935) ; *The Chemistry of Laundry Materials* (1931). *Director*, F. Courtney Harwood, B.Sc., F.I.C., M.I.Chem.E.

20 THE BRITISH LEATHER MANUFACTURERS' RESEARCH ASSOCIATION, Offices, 8 St. Thomas St., Laboratories at 18-20 St. Thomas St., London, S.E.1, conducts research in regard to the manufacture (tanning, currying, and dressing) of leather and the raw materials of the Industry. The research reports are generally confidential to members of the Association and to certain Government services, but a number of papers are printed in scientific or trade journals or separately for more general circulation. *Director*, Miss D. Jordan-Lloyd, M.A., D.Sc., F.I.C.

21. THE LINEN INDUSTRY RESEARCH ASSOCIATION, Lambeg, Co. Antrim, N. Ireland, with Botanical Section at the Flax Research Institute, Flitcham Abbey, nr. King's Lynn, Norfolk. The work includes the investigation of problems arising in flax cultivation, fibre preparation, flax spinning, linen weaving, bleaching, dyeing, finishing and in the use of linen goods. There is scope for much original research in economic botany, agriculture, bio-chemistry, and physics, particularly the properties of colloids. The results of researches are frequently published in scientific journals. A scheme of training in Industrial Science for Research Students is in operation. This enables students to obtain a special B.Sc. degree and at the same time to acquire practical experience in industrial research. Senior Research Awards of the Ministry of Education of N. Ireland are tenable at the Research Institute. A scholarship of £240 spread over 3 yrs. tenable at the Research Institute, Lambeg, has been instituted by The Honourable The Irish Society. This is limited to students educated in certain schools in Co. Derry. A similar scholarship is offered by the Association open to all students. These enable the holders to secure a Univ. degree while doing research. *Director*, W. H. Gibson, O.B.E., D.Sc., F.I.C., F.Inst.P. Communications to be addressed to the Secretary.

22. THE BRITISH NON-FERROUS METALS RESEARCH ASSOCIATION,

Regnart Buildings, Euston St., London, N.W.1 (Telegrams—Metresch, Norwest, London), aims to cover the whole field of the non-ferrous metals and their alloys. Membership of the Association is open to individuals and companies in any part of His Majesty's Dominions who have industrial interests in non-ferrous metals whether as smelters, manufacturers, or users. The researches of the Association were carried out in approved academic and other institutions, or in works from 1920–1930, but a central Headquarters has now been established in London, where Research, Development, and Information Depts. operate together. The results are in the first instance reserved to members, although much is being published. So far as possible, the Association will be pleased to inform scientific workers from the Overseas Empire of the work it has undertaken or already published. *Director*, H. Moore, C.B.E., D.Sc., Ph.D., F.I.C., F.Inst.P.

23. THE RESEARCH ASSOCIATION OF BRITISH PAINT, COLOUR, AND VARNISH MANUFACTURERS, Tavistock House (South), Tavistock Square, London, W.C.1; Paint Research Station, Waldegrave Road, Teddington, Middlesex, founded 1926, conducts researches into problems relating to the treatment of the raw materials and the fabrication and application of the finished products of the industries suggested by the title as well as the allied industries of printing ink, linoleum, and artificial cloth manufacture. The researches are mainly of a fundamental nature and are wholly prosecuted in the laboratories at the Paint Research Station.

The research reports are, in general, confidential to members. Annual reports and bulletins are issued from time to time. The Association also issues bi-monthly a Review of Current Literature relating to the Paint, Colour, Varnish and Allied Industries, which embraces about 3000 abstracts per annum. This Review is now available to interested persons or Companies both in Gt. Britain and abroad, price £2 : 2s. p.a. *Director*, A. L. Jordan, D.Sc., A.R.C.S., F.I.C.

24. THE BRITISH POTTERY RESEARCH ASSOCIATION, offices at Federation House, Stoke-on-Trent (Telegrams—Technic, Stoke-on-Trent). Incorporated in 1937 to undertake research work into problems of the pottery industry and allied trades. The branches primarily concerned are: the Earthenware, Glazed Tile, China, Fine China, Sanitary Fireclay, Sanitary Earthenware, Electric Porcelain, Jet and Rockingham sections. In addition to investigating manufacturing problems the Association does a certain amount of fundamental work on the raw materials used in the industry. Bulletins containing the results of investigations are published periodically and circulated confidentially to members. The research work is at present being carried out in laboratories belonging to the North Staffordshire Technical College, but it is expected that a move to more commodious premises will soon be made. *Director of Research*, M. Francis, B.Sc., Ph.D., F.I.C.

25. THE PRINTING AND ALLIED TRADES RESEARCH ASSOCIATION (Registered 1930), Patra House, 10 Robin Hood Court, London, E.C.4, conducts research on technical problems in the printing, papermaking, inkmaking and allied trades. Works problems from members are also

investigated. The Association is supported by individual firms, employers' and employees' trade organizations and a grant from the Dept. of Scientific and Industrial Research. Research reports are issued confidentially to members, although some information on matters of general interest is published from time to time in Trade Press. Lectures on technical subjects are also arranged. *Director*, G. L. Riddell, Ph.D., A.I.C.

26. THE BRITISH REFRACTORIES RESEARCH ASSOCIATION, Drayton House, 30 Gordon St., London, W.C.1, conducts investigations designed to improve the manufacture, quality, and methods of using the heat-resisting materials of which high-temperature installations, including coke-ovens, gas-retorts, and blast and other metallurgical furnaces are constructed. Whilst having its own special field of work, many of its investigations prove of fundamental interest to the clay industries generally, fuel technologists, and metallurgists. Research headquarters—known as the Mellor Laboratories—are at Shelton, Stoke-on-Trent, and one branch of its work is carried out at Sheffield Univ. Bulletins containing the results of investigations are published periodically, and issued confidentially to members of the Research Assn. Occasional special Bulletins are released for general circulation, and Reports are published from time to time at the discretion of the Council in the appropriate technical journals. *Director*, A. T. Green, F.I.C., F.Inst.P.

27. THE RESEARCH ASSOCIATION OF BRITISH RUBBER MANUFACTURERS, 105/107 Lansdowne Road, Croydon, Surrey, has research and testing laboratories, together with a technical library and information bureau to deal with inquiries from its members, Government Departments, and scientific workers in the Dominions. Carries out research, chiefly of a confidential nature, through its own staff. Publications issued monthly to members and subscribers include a *Journal and Summary of Current Literature*, containing original papers and abstracts of technical and scientific publications relating to all branches of the rubber industry, a *Rubber Patent and Trade Mark Review*, and *Rubber Economic Intelligence*. *Director*, B. D. Porritt, M.Sc., F.I.C., F.Inst.P.

28. THE BRITISH SCIENTIFIC INSTRUMENT RESEARCH ASSOCIATION, 26 Russell Square, London, W.C.1 (Telegrams—Promores, Westcent, London), conducts research into problems pertinent to the manufacture and use of scientific instruments, including optical, surveying, nautical, and electrical instruments, and electro-medical and X-ray apparatus, and also into optical glass. It has headquarters laboratories at 26 Russell Square, and researches are prosecuted in universities, technical colleges, works laboratories, and works. Students are not admitted to work in the Association's laboratories. The research reports are, in general, confidential to members of the Association and to certain Government services, but some are published from time to time, either in scientific journals or separately for general circulation. The annual reports of the Association are distributed to certain public libraries, etc., at home and abroad, but otherwise are

available only to members. Among the institutions receiving them are : the Research Council Library, Parliament Buildings, Ottawa, Canada ; Council of Scientific and Industrial Research, 314 Albert St., East Melbourne, Australia ; Advisory Board of Industry and Science of the Union of S. Africa, New Law Courts, Johannesburg ; Survey of India, 15 Wood St., Calcutta ; National Research Council, 1201 Sixteenth St., Washington, D.C. ; the Library, Dept. of Agriculture, West Block, Ottawa, Canada. In London : the Australian Book Co., 16-20 Farringdon Avenue, E.C.4 ; Patent Office Library, 25 Southampton Buildings, W.C.2 ; The Science Museum, and the Imperial Institute, both at South Kensington, S.W.7. *Director of Research*, A. J. Philpot, O.B.E., M.A., B.Sc., F.Inst.P.

29. THE SCOTTISH SHALE OIL SCIENTIFIC AND INDUSTRIAL RESEARCH ASSOCIATION, 53 Bothwell St., Glasgow, C.2. The research work of the Association is now being carried on in the Central Laboratories of Scottish Oils, Ltd., in the shalefields. There are no special facilities for research students, those engaged on the work coming from the organizations of the companies engaged in the industry.

30. THE WOOL INDUSTRIES RESEARCH ASSOCIATION, "Torridon," Headingley, Leeds 6 (Telegrams—Woolira, Leeds). By arrangement with the Univ. of Leeds, post-graduates proceeding to higher degrees can carry out their research work at the Association's laboratories. The results of research carried out at the headquarters of the Association are published in the Journal of the Textile Institute, the Journal of the Society of Dyers and Colourists, Bio-Chemical Journal, Journal of Agricultural Science, etc. Other reports are retained in the first instance for private circulation to members of the Association, but may subsequently be released for general circulation. *Director of Research*, B. H. Wilsdon, M.A., B.Sc. Communications to be addressed to the Secretary.

Other centres of Industrial Research.

31. THE SAFETY IN MINES RESEARCH BOARD, Dean Stanley Street, Millbank, London, S.W.1. This Board is composed of scientific and mining members appointed by the Secretary for Mines to conduct and co-ordinate research into the causes of mining dangers and the means for preventing such dangers.

The work is financed chiefly by endowment and grants provided from the Miners' Welfare Fund, and is carried out mainly by the Board's own staff at its large-scale experimental station at Buxton, its laboratories at Sheffield, and at the Royal School of Mines in London. Grants for the maintenance of approved research are also made by the Board, e.g. to workers at Edinburgh University.

Researches are in progress into the prevention of coal-dust explosions, fire-damp explosions, and the spontaneous combustion of coal ; the safety and safe use of electricity, explosives, and safety lamps ; the prevention of accidents from falls of ground and haulage operations ; the improvement of wire ropes and mine rescue apparatus, and the ventilation of deep and hot mines. The falls-of-ground research includes, in addition to laboratory work on the design and strength of roof supports,

a comprehensive scheme of underground experimental work at collieries, carried out in co-operation with the branches of the Instn. of Mining Engineers, and the haulage research is being carried out on similar lines. Work is also in progress on the design and use of protective clothing for preventing injuries to head, hands, eyes and feet. The results of the researches are published in the Board's own technical papers and *Annual Reports* (which are on sale through H.M. Stationery Office) and in scientific journals.

The Board, in addition to its research activities, engages in safety propaganda among mine workers. Experimental demonstrations are given at the Buxton Research Station to miners, mine officials, and mining teachers from colliery districts, and a special series of illustrated booklets is published under the title, *What Every Mining Man should Know*. Propaganda is also carried out by means of films.

Arrangements are made for co-operation with the principal mining research organizations abroad.

32. MINING RESEARCH LABORATORY, Imperial College of Science and Technology, Royal School of Mines, South Kensington, S.W.7. (Director, J. Ivon Graham, M.A., M.Sc., F.I.C.) The work and the staff of the Laboratory previously at the University of Birmingham were transferred as from March 31, 1937, to the Imperial College. The expenses of the staff and some of the researches are covered by a grant from the Mining Assn. of Gt. Britain through the British Colliery Owners' Research Assn. The expenses of other investigations are covered by grants from the Safety in Mines Board (Miners' Welfare Fund). The Laboratory is solely engaged in researches on problems connected with mining, partly physical, partly chemical, and partly physiological. At present the main problems under investigation are the control of underground temperature, the physiological effects of heat, the control of spontaneous combustion underground, mine lighting, the reduction of dust in underground operations, and silicosis.

The results of the work are published in various technical journals but mainly in the Transactions of the Institution of Mining Engineers. Much of the work is done at mines throughout the country, but based on the Laboratory.

33. THE BRITISH MUSEUM LABORATORY, 39 Russell Square, London, W.C.1, is devoted to investigations on the best methods of preserving and restoring museum exhibits of any kind and of every age. Three reports published by H.M. Stationery Office, 1921, 1923, and 1926: Articles contributed to *Museums Journal* and *British Museum Quarterly*. See also *The Preservation of Antiquities* and *The Conservation of Prints, Drawings and Manuscripts*, by H. J. Plenderleith (both pubd. by the Oxford Univ. Press). Inquiries to be addressed to the Director (A. Scott, D.Sc., Sc.D., F.R.S.).

34. THE POST OFFICE RESEARCH STATION, Dollis Hill, London, N.W.2, deals with the development of any matters appertaining to the science of electrical communication and problems arising out of the day-to-day operation of the telephone, telegraph and postal services. Courses

of training in the specialized work of the Engineering Dept. are given in the schools attached to the Research Station.

35. LONDON, MIDLAND, AND SCOTTISH RAILWAY RESEARCH DEPARTMENT. Director of Scientific Research, Sir Harold Hartley, C B E., M.C., M A, F.R.S. Research Manager, T. M. Herbert, M.A. (Euston Station, N.W.1). The Research Laboratory at Derby comprises the following. A Metallurgical Section, dealing with investigations relating to the selection and behaviour of metals and their manipulation by casting, forging, heat treatment, and welding; an Engineering Section, dealing with research on designs and performance of engineering details of machines and structures, aerodynamical problems, etc.; a Textile Section; a Paint Section. Chemical Laboratories are maintained at Derby, Crewe, Horwich, Glasgow, and Stonebridge Park. There is also a Physics Section which deals with problems of ventilation, acoustics, refrigeration, etc.

36. NATIONAL INSTITUTE OF INDUSTRIAL PSYCHOLOGY, Aldwych House, Aldwych, London, W.C.2. Principal—C. S. Myers, C.B.E., M.D., Sc.D., F.R.S. General Director—T. G. Rose, M.I Mech.E., M.I.P.E., F.I.I.A. The Institute is a non-Government body founded in 1921, and controlled by a council of scientists, industrial employers, and Trade Union leaders. It exists to supply psychological and physiological knowledge of the human element in occupational life, its aim being to ensure that energy is applied in the most economical possible way, and not wasted through inefficient methods or unsuitable working conditions. Its scope includes fatigue- and movement-study, and study of the effect on efficiency of different incentive systems, working hours, rest pauses, lighting and ventilation systems, etc.; also study of large-scale organization questions, such as planning, progressing, lay-out, internal transport, and distribution. Investigations are carried out on behalf of industrial firms and research work is conducted in its laboratories.

On its vocational side the Institute also carries out research and applies mental and physical tests to determine the fitness of individuals for particular types of work. Tests are devised and standardized for the use of industrial firms in selecting employees, and in the laboratories of the Institute or in schools individuals are tested and advised on the choice of an occupation.

The Inst., in conjunction with the London School of Economics, gives lectures and practical courses suitable for the requirements of the Academic Diploma in Psychol. of London Univ. It also offers facilities for research in those subjects, and organizes Training Courses for school teachers in the principles and methods of vocational guidance. It organizes courses on the administration of the Binet-Simon tests of intelligence. *Occupational Psychology*, quarterly; *N.I.I.P. News*, monthly; *Ann. Reports*, free on appln. *Special Reports*.

VI. PURE SCIENCE.

I BRITISH MUSEUM (NATURAL HISTORY), Cromwell Road, London, S.W.7. Director, T. C. Forster Cooper, M.A. Camb., F.R.S. Depart-

ments: Zoology, Entomology, Geology (Palæontology), Mineralogy, Botany. In addition to the specimens exhibited in the public galleries, much larger series are contained in the study-collections, which can be consulted or used for purposes of research by duly qualified workers. The function of the Museum is primarily to preserve representatives of the animals and plants (including fossils) of the entire world and of such inorganic natural productions as minerals, rocks, and meteorites. The systematic determination, description, and classification of this material constitute the principal research-work of the scientific staff (65 members) and other helpers (46). This forms the basis of further scientific research carried on either inside or outside the Museum, such as the study of variation, methods of organic evolution, geographical distribution of animals and plants, correlation of strata, chemical and physical properties of rocks and minerals, study of crystals. All these branches of science may in turn be applied to the solution of practical problems.

Publications: Scientific Catalogues and Monographs, etc.; Guide-books, etc.

2. DAVY FARADAY RESEARCH LABORATORY, The Royal Institution, 21 Albemarle Street, London, W.1. The research work of the Royal Institution is now mainly carried on in the Davy Faraday Laboratory, which is housed in a building adjoining the Institution, presented by the late Dr. Ludwig Mond. There is room for about 20 research workers. The laboratories are open to anyone who wishes to carry on researches in connexion with physics and chemistry provided the subject and the worker are approved by the Committee of Management and the accommodation permits. No fees are charged. At the present time, the main subject of investigation is that of the physical properties of organic substances in relation to their structure. *Director*, Sir William Bragg, O.M., K.B.E., M.A., D.Sc., Pres.R.S. Inquiries to be addressed to The General Secretary, Royal Institution.

3. CAMBRIDGE OBSERVATORY, Madingley Road, Cambridge. Every effort is made to give research students facilities for carrying out investigations. Applications should be made to the Director (Sir Arthur S. Eddington, M.A., D.Sc., F.R.S.).

4. THE SOLAR PHYSICS OBSERVATORY, Madingley Road, Cambridge. The laboratory contains spectroscopic, photometric, and other apparatus for experimental research and many photographic records of spectra. Facilities are offered to research students for carrying out special researches or for taking a share in the regular work of the Observatory. Applications should be made, in writing, in the first instance, to the Director (Prof. F. J. M. Stratton, D.S.O., O.B.E., T.D., M.A., D.L.).

5. LONDON UNIVERSITY OBSERVATORY, *see* p. 162.

6. THE SCOTT POLAR RESEARCH INSTITUTE, Lensfield Road, Cambridge. This Institute was founded in 1921 in memory of the late Captain Robert Falcon Scott, C.V.O., R.N. The purpose of the Institute is to provide information about, and facilities for research on, polar topics, and to give assistance towards the publication of the

results of expeditions. The collections of the Institute include a polar library, maps, photographs, and pictures, specimens of travelling equipment, and a collection of original records of past expeditions. Publication: *Polar Record* (Jan. and July). The Inst. is open to the public from 10 A.M.-1 P.M. and (except on Saturdays) from 2-4 P.M. Application should be made to the Director (Prof. F. Debenham, O.B.E., M.A.) for information as to the use of the research rooms

7. FRANCIS GALTON LABORATORY FOR NATIONAL EUGENICS, *see* p. 142.

8. JOHN INNES HORTICULTURAL INSTITUTION, Mostyn Road, Merton, London, S.W.19, is engaged in research on plant genetics, cytology and biochemistry. It affords exceptional opportunities for the study of fundamental problems in cytology. The study of the laws of inheritance in various horticultural plants, particularly fruit, receives special attention. Post-graduate short course every 2 yrs. Qualified persons desirous of conducting work coming within the scope of the Institution are given facilities. Biological and chemical labs., experimental gardens and greenhouses. *Director*, Sir Daniel Hall, K.C.B., M.A., LL.D., D.Sc., F.R.S.

9. OXFORD UNIVERSITY, BUREAU OF ANIMAL POPULATION (*Director*, Charles Elton, M.A.; address: University Museum, Oxford; headquarters, Department of Zoology and Comparative Anatomy). For research upon the ecology of wild animal populations, with special reference to mammals and game-birds. Clearing-house for literature and other information; also does field censuses, and laboratory studies on breeding, behaviour, food, pathology, etc. Staff: 4 full-time and 3 part-time research workers, and a secretary. Investigations in 1936-1937 included: Canadian snowshoe rabbit enquiry (10-year cycle in N. American wild life); Canadian Arctic wild life enquiry; vole fluctuations in Great Britain in relation to natural disease and to forest damage; Game Research (partridge, grouse, rabbit, hare); census methods on wild rodents

VII. MEDICAL.

THE MEDICAL RESEARCH COUNCIL, 38 Old Queen St., Westminster, S.W.1.

(i.) Centres 1-4 are under the direction of the Council.

1. THE NATIONAL INSTITUTE FOR MEDICAL RESEARCH, Hampstead, London, N.W.3 (*Director*: Sir H. H. Dale, C.B.E., M.D., F.R.S.). This is the central research institute of the Medical Research Council (*see* App. II. 15), and is primarily a place of work for members of the Council's permanent scientific staff. A few well-qualified attached workers can be received by special arrangement to follow approved lines of inquiry. There are no courses of instruction, but periods of research work at the Institute may be accepted for the purposes of higher degrees in the University of London. Research is done under the following heads: (a) bio-chemistry and pharmacology; (b) experimental patho-

logy, bacteriology, and protistology; (c) microscopy and physical methods; and (d) biological standards. Parts of the work are done at the associated FARM LABORATORIES at Mill Hill.

2. THE NATIONAL COLLECTION OF TYPE CULTURES (Curator: R. St. John-Brooks, M.D.), at present housed at the Lister Institute, London, S.W.1. Type cultures of pathogenic and other micro-organisms are maintained and researches into systematic and cultural problems undertaken.

3. THE STANDARDS LABORATORY, Oxford (Hon. Director, A. D. Gardner, D.M., F.R.C.S.). The laboratory is maintained for the production of standard diagnostic suspensions and sera for enteric, dysenteric, and some other infections, and for related research work. It is at present placed within the Dunn Institute of Pathology, University of Oxford.

4. THE DUNN NUTRITIONAL LABORATORY, Cambridge (in charge, L. J. Harris, D.Sc., Ph.D.). Maintained by the Council at the University Field Laboratories, Milton Road, for researches into problems of human nutrition, in association with the University departments for the various medical sciences.

(ii.) Centres 5-7 are maintained jointly by the Medical Research Council and the institutions within which they are placed.

5. DEPARTMENT OF CLINICAL RESEARCH, University College Hospital Medical School, London, W.C.1 (Director: Sir Thomas Lewis, C.B.E., M.D., D.Sc., F.R.S.). The dept. is engaged in clinical researches, especially into the cardio-vascular system in health and disease. Attached workers may be received by arrangement with the Director.

6. CLINICAL RESEARCH UNIT, Guy's Hospital Medical School, London, S.E.1 (Director: R. T. Grant, M.D., F.R.S.). Attached workers may be received by arrangement with the Director.

7. NEUROLOGICAL RESEARCH UNIT, National Hospital, Queen Square, London, W.C.1 (Director: E. A. Carmichael, M.B., Ch.B., F.R.C.P.). Attached workers may be received by arrangement with the Director.

Other centres of Medical Research.

8. ROYAL COLLEGE OF SURGEONS, RESEARCH LABORATORIES (Director: J. Beattie, M.D., D.Sc.), form two units, (a) the Bernhard Baron Laboratories, in the College buildings, Lincoln's Inn Fields, London, W.C.2, and (b) the Buckston Browne Research Farm, Downe, Kent. The laboratories are equipped for morphological, pathological, and experimental work. The researches of the workers are not confined to problems of direct surgical application. In addition to the regular staff and research scholars suitably qualified persons can be accommodated in either of the two units. Applications for laboratory facilities should be addressed to the Director at the College. For Museum, *see* XI. 1 below.

9. THE WELLCOME BUREAU OF SCIENTIFIC RESEARCH, 183 Euston

Road, London, N.W.1 (Telegrams—Welscience, Norwest, London), to which are affiliated the Wellcome Chemical Research Laboratories, the Wellcome Physiological Research Laboratories, Langley Court, Beckenham, the Wellcome Entomological Field Laboratories, Claremont, Esher, the Wellcome Historical Medical Museum and the Wellcome Museum of Medical Science (*see* XI. 4 below), was founded by Sir Henry S. Wellcome, for the purpose of research, especially in subjects connected with tropical medicine and hygiene. There are departments of bacteriology, pathology, chemotherapy, protozoology, helminthology, and entomology. Regular teaching is not undertaken, but a limited number of research workers who wish to follow some particular line of investigation may be given accommodation and facilities for carrying out their work. No charge is made for this, and all material is supplied, unless it is of a very special nature.

Director-in-Chief, C. M. Wenyon, C.M.G., C.B.E., B.Sc., M.B., B.S., F.R.S.

10. THE STRANGWAYS RESEARCH LABORATORY, Hills Road, Cambridge, is an independent institution mainly devoted to the study of tissue culture *in vitro* and to the application of that technique to biological problems. Work at present in progress includes the cinematography of living cells, investigations on the growth and differentiation of early embryonic tissue, and studies on the effect upon living cells of X-rays and radium.

The Laboratory provides facilities for a limited number of workers who wish to investigate some specific problem involving the tissue culture technique. Further information may be obtained from the Director (H. B. Fell, D.Sc., Ph.D.), Strangeways Research Laboratory, Hills Road, Cambridge. Letters should be marked "via Cherryhinton."

11. LISTER INSTITUTE OF PREVENTIVE MEDICINE. *See* p. 213.

12. THE NUFFIELD INSTITUTE FOR MEDICAL RESEARCH. *See* p. 275.

13. THE IMPERIAL CANCER RESEARCH FUND, under the direction of the R.C.P. London and the R.C.S. England, was constituted in 1902 to promote investigations into all matters bearing on the causes, prevention, and treatment of cancer and malignant disease. It possesses two Research Laboratories and a staff consisting of the Director (W. E. Gye, M.D.) and 7 scientific assistants. It publishes a general report annually and scientific reports from time to time. Total capital, £296,106. *Address*—8-11 Queen Square, London, W.C.1, and Stroud Laboratory, The Ridgeway, London, N.W.7.

CENTRES OF SCIENTIFIC INFORMATION

VIII. BOTANY AND AGRICULTURE.

(*England and Wales*)

1. ROYAL BOTANIC GARDENS. Information is supplied on botanical matters to all parts of the Empire. (*See also* I. 1 above.)

2. IMPERIAL INSTITUTE OF ENTOMOLOGY. Head Office at—British Museum (Natural History), Cromwell Road, London. S.W.7. Director : Sir Guy A. K. Marshall, C.M.G., D.Sc., F.R.S. An information and identification bureau to assist economic entomologists throughout the Empire. The Institute has now been recognized as the international centre for the accumulation and correlation of all information regarding the movements and breeding of locusts in Africa and Western Asia, and it issues periodical summaries of this information to all the Governments concerned. The Director of the Institute is also in charge of the field investigations being carried out under the authority of the Committee on Locust Control appointed by the Economic Advisory Council. The publications include the *Review of Applied Entomology*, Series "A" (Agricultural) and Series "B" (Medical and Veterinary); the *Bulletin of Entomological Research*; and the *Zoological Record*, part "Insecta." A large lending library is available at the Publication Office, 41 Queen's Gate, London, S.W.1 (Dr. S. A. Neave). Parasite Laboratory: Farnham House, Farnham Royal, Bucks (Dr. W. R. Thompson).

3. IMPERIAL MYCOLOGICAL INSTITUTE, Ferry Lane, Kew, Surrey. Director: S. F. Ashby, B.Sc. Mycologists from overseas are admitted to its laboratories to the extent to which space is available. A large lending library of pamphlets is maintained. *Review of Applied Mycology*, published by the Institute monthly, contains detailed abstracts in English of all work published in any part of the world.

The following Bureaux Nos. 4-9, and 13, 14 inclusive, were instituted in 1929 as the result of the Imperial Agricultural Research Conference held in London in 1927. They are maintained from a fund provided by contributions from the Governments of the Empire, and are controlled by an Executive Council appointed by those Govts. Address: 2 Queen Anne's Gate Buildings, London, S.W.1. The Bureaux do not undertake research; they assist research workers in the Empire by acting as clearing-houses of information and by arranging meetings.

4. IMPERIAL BUREAU OF SOIL SCIENCE, Rothamsted Experimental Station, Harpenden, Herts, a central clearing-house of information on soil problems throughout the Empire. (See I. (a) 4 above.)

5. IMPERIAL BUREAU OF PLANT GENETICS, Plant Breeding Institute, Cambridge University. This Bureau collects and disseminates information on crops other than herbage plants throughout the Empire. (See I. (a) 6 above.)

6. IMPERIAL BUREAU OF PASTURE AND FORAGE CROPS, Welsh Plant Breeding Station, Aberystwyth. This Bureau collects and disseminates information on herbage plants throughout the Empire. (See I. (a) 6 above.)

7. IMPERIAL BUREAU OF FRUIT PRODUCTION, East Malling Research Station, Kent. (See I. (b) 2 above.)

8. IMPERIAL BUREAU OF ANIMAL HEALTH, Veterinary Research Laboratory, Weybridge. (See I. (c) 4 above.)

9. IMPERIAL BUREAU OF AGRICULTURAL PARASITOLOGY, Institute of Agricultural Parasitology, Winches Farm, Hatfield Road, St. Albans, Herts. (See I. (c) 6 above.)

10. LONG ASHTON FRUIT RESEARCH STATION, Nr. Bristol. (See I. (b) 1 above.)

11. EXPERIMENTAL AND RESEARCH STATION, Cheshunt. (See I. (b) 4 above.)

12. INSTITUTE OF AGRICULTURAL ENGINEERING, Oxford. (See I. (g) above.)

(*Scotland*)

13. IMPERIAL BUREAU OF ANIMAL NUTRITION, Rowett Research Institute, Aberdeen. (See I. (d) 5 above.)

14. IMPERIAL BUREAU OF ANIMAL GENETICS, Institute of Animal Genetics, Edinburgh. (See I. (d) 7 above.)

IX. INDUSTRIAL.

(*England and Wales*)

1. IMPERIAL INSTITUTE, Imperial Institute Road, S. Kensington, London, S.W.7 (Director, Sir Harry A. F. Lindsay, K.C.I.E., C.B.E.). One of the objects of the Institute is to promote the utilization of the raw materials of the Empire, and the investigations carried out in its laboratories are primarily directed to this end. The work includes the examination of all kinds of plant and animal products and minerals. Valuable information relating to the composition, properties, etc., of raw materials of all kinds has been accumulated in the course of the work; and the Institute will be glad to assist overseas research workers dealing with such materials by supplying any available information regarding particular products in which they are interested. Arrangements can be made in special cases for workers from overseas to carry out investigations in the laboratories of the Institute.

Special departments of the Institute deal with inquiries relating to the sources, production, uses, and marketing of raw materials and with the collection and dissemination of general and statistical information concerning them. A Reference Library, containing a wide range of works of a scientific or technical character, is available for the use of visitors. The Public Exhibition Galleries contain comprehensive collections illustrating the natural resources, industries, scenery, and life of each country of the Empire overseas, and these are supplemented by lectures and daily film displays in the Institute's Cinema. The publications include the quarterly *Bulletin of the Imperial Institute*, an annual volume of *Mineral Statistics*, monographs on economic minerals and products of plant and animal origin, and other publications.

2. THE MUSEUM OF PRACTICAL GEOLOGY, Exhibition Road, South Kensington, London, S.W.7, to which is attached a valuable library of

standard works and geological maps, serves as the laboratory of the Geological Survey of Great Britain (*see* V. 3 above). In the library large-scale maps of all parts of Gt. Britain which have been geologically surveyed are open for reference, and the officers of the Survey are ready to explain points of difficulty. The library is also specially rich in foreign surveys. The Museum is open free on week-days (except Good Friday and Christmas Day), 10-6 P.M., and on Sundays, 2.30-6. The library is available for reference on week-days, 10-5.

3. THE SCIENCE MUSEUM, Exhibition Road, South Kensington, S.W.7 (Director, Colonel E. E. B. Mackintosh, D.S.O.), which is the National Museum of Science and Industry, was established in 1856, and its collections now occupy 200,000 sq. ft. of exhibition space. Its purpose is to illustrate science and the application of science to industry, at the same time to show the gradual development of the modern efficient types from earlier and more simple ones.

The Museum is open free on Mondays, Tuesdays and Wednesdays 10 A.M. to 6 P.M., Thursdays, Fridays, Saturdays and Bank Holidays (except Boxing Day) 10 A.M. to 8 P.M., Sundays 2.30 to 6 P.M. It is closed on Good Friday and Christmas Day.

Pure Science is represented by the Collections of instruments and apparatus used for study and research in the phenomena of various branches of physics, electricity, heat, light, acoustics, etc., as well as in astronomy, chemistry, geodesy, and the measurement of time.

The application of science to industry is illustrated by extensive collections of machinery and apparatus relating to Mech. Engineering, Railway Engineering, Road Transport, including Mech. Transport of all kinds; Aeronautics, Ship and Boat Construction, Marine Engines, Elect. Engineering, including all forms of Telegraphy, Telephony, and Radio-communication. Many groups of Industrial Engineering are also represented, as: Textile Machinery, Hand Tools and Machine Tools, Printing, Glass Technology, Agric. Implements and Machinery, as well as Mining, Metallurgy, and Ore Dressing. A special Children's gallery is also included.

The number of visitors during 1937 was 1,271,599.

The Science Library which forms part of the Museum contains 271,000 vols. relating to all depts. of science, pure and applied, except medical science, including 15,000 scientific periodicals. These may be issued on loan to scientific institutions and industrial organizations for the use of their members on requisition. The information service is based on a collection of 40,000,000 bibliographical references, from which lists of papers on specific subjects are supplied on request. The library is not open on Sundays.

4. HOME OFFICE INDUSTRIAL MUSEUM, 97 Horseferry Rd., Westminster, S.W.1. Director, D. R. Wilson, C.V.O., C.B.E. (H.M.C.I. of Factories). A permanent exhibition of methods, arrangements, and appliances for promoting safety, health, and welfare of industrial workers. Open free of charge every week-day 10-4. Persons under 18 not admitted except in parties for instructional purposes.

(Scotland)

5. THE ROYAL SCOTTISH MUSEUM, Edinburgh, 1. *Technological Department*. The collections illustrate the more important Scottish industries and the sciences upon which those industries are based. Mining, Oil Production, Metallurgy, and Mechanical, Electrical, and Civil Engineering, being of primary importance, have received preferential treatment, but other industries of a more specialized nature, such as Shipbuilding, Transport, Aeronautics, Papermaking, Printing, etc., are also illustrated. *Director*, T. Rowatt. (See also X. 8 below.)

X. PURE SCIENCE.*(England and Wales)*

1. ROYAL BOTANIC GARDENS, Kew. (See I. (a) 1 above.)

2. BRITISH MUSEUM (NATURAL HISTORY). The various departments of the Museum (see VI. 1 above) contain, besides the specimens in the public galleries, much larger series in the study-collections which are available for consultation or research by qualified workers. Attached to the Museum is an important library of scientific works intended primarily for the use of the staff, but also available to a limited extent to students with tickets for the study of the natural history collections.

3. MUSEUM OF PRACTICAL GEOLOGY. (See IX. 2 above.)

4. SCIENCE MUSEUM. (See IX. 3 above.)

5. NATIONAL MUSEUM OF WALES, Cardiff, South Wales. A centre of scientific information on the geology, botany, zoology, archaeology, folk culture, and industry of Wales. The collections include the "David Davies" collection of fossil plants, the "Griffith J. Williams" collection of minerals, collections illustrating Welsh life, sixteenth-nineteenth centuries, Swansea and Nantgarw porcelain, and the De Winton collection of Continental porcelain. *Director*, Sir Cyril Fox, Ph.D., F.S.A.

6. BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE, Burlington House, Piccadilly, London, W.1. Research Committees of the Association conduct researches and prepare reports. Committees of the Sections consider, *inter alia*, the financing of proposed researches by such Research Committees. The Association administers for this purpose a fund, providing an income of about £350 annually, given by the late Sir James Caird of Dundee in 1912, and certain other special research funds; any surplus from subscriptions in excess of administrative expenses is also devoted to research. Total grants in aid of research normally exceed £850 p.a. The Association welcomes the attendance of University students at its annual meetings, and has a special class of "student membership" at reduced fees for duly qualified persons. Meeting, 1938, Cambridge; 1939, Dundee. *President*, 1938, Rt. Hon. Lord Rayleigh, F.R.S.

7. THE SCOTT POLAR RESEARCH INSTITUTE. (See VI. 6 above.)

(Scotland)

8. THE ROYAL SCOTTISH MUSEUM, Edinburgh, 1. *Art and Ethnographical Department.* The ethnographical collections include specimens illustrating the culture of backward races all over the world. The collections are in two sections, one arranged geographically, the other on the comparative system. A reference library, containing a large number of books and periodicals relating to ethnography, is available for the use of visitors.

Natural History Department. In addition to a wide range of exhibited specimens dealing with most branches of Natural History, the department has large scientific collections of great value. The most famous is the collection of fossil fishes, chiefly from Scotland. There is also a large collection of bird skins, both British and Foreign, and an extensive collection of insects. A reference library containing many books on natural history, as well as many current periodicals, is available for visitors.

Geological Department. The Geological collections include a valuable series of rocks, fossils and maps illustrating the status and progress of the geological survey of Scotland; also a fine general collection of minerals and the famous Heddle-Dudgeon collection of Scottish Minerals.

XI. MEDICAL.

1. THE MUSEUM OF THE ROYAL COLLEGE OF SURGEONS, Lincoln's Inn Fields, London, W.C.2, consists of the collection of John Hunter, which was handed over to the care of the College in 1799. The Collection has been added to considerably and now consists of extensive human osteological, anatomical, and pathological collections with comparative pathological and anatomical specimens. The Histological Collection was assembled mainly by Queckett (1853-61). Historical, odontological, and surgical instrument collections are housed in separate rooms. In 1921 the War Office collection of pathological and other specimens was entrusted to the College. The Museum is open to members of the medical profession and to other persons on application to the Conservator (J. Beattie, M.D., D.Sc.) or to the Secretary. Stamped and addressed envelope must be sent. For Research Laboratories, see VII. 8 above.

2. THE BUREAU OF HYGIENE AND TROPICAL DISEASES, Keppel Street, Gower Street, London, W.C.1, is under the general control and direction of an honorary Managing Committee appointed by and responsible to the Secretary of State for the Colonies. The Bureau's main function is to collect, from all sources, information regarding hygiene and tropical diseases; to collate, condense, and, where necessary, translate this information, and make it available by means of its two publications, viz. the *Tropical Diseases Bulletin* and *Bulletin of Hygiene*, issued monthly. The Bureau is housed with the London School of Hygiene and Tropical Medicine, and its valuable library is incorporated with that of the School. The joint library contains 26,000 vols., and is open to accredited post-graduate research workers.

The Bureau is officially recognized by the Colonial Office as an institution which receives and answers inquiries from the Colonial Empire on matters relating to hygiene and tropical medicine on which information is not locally available. Such inquiries should be addressed to the Director (H. Harold Scott, C.M.G., M.D., F.R.C.P., D.P.H., D.T.M. & H.).

3. THE MUSEUM OF THE LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE (incorporating the Ross Institute), Keppel St., Gower St., London, W.C.1, is divided into three sections, *i.e.* Tropical Medicine, General Hygiene, and Sanitary Engineering.

The Tropical Medicine Museum deals generally with tropical diseases and with the subjects of bacteriology, entomology, helminthology, and protozoology in their relation to tropical medicine.

The General Hygiene Museum has exhibits relating to foodstuffs, especially milk, and gives a graphic display of the ordinary communicable diseases, including methods for their control. There are also sections dealing with maternity and child welfare, personal hygiene, port health administration, and other branches of hygienic activity.

The Sanitary Engineering Museum embodies an exhibition of water supply, conservancy, town-planning, building construction, sanitary appliances, as well as the more primitive methods of sanitation in the tropics.

4. THE WELLCOME MUSEUM OF MEDICAL SCIENCE, 183 Euston Road, London, N.W.1 (open Monday to Friday 10 A.M. to 5.30 P.M., Saturday 10 A.M. to 12.30 P.M.), presents a new system of visual teaching. The purpose and plan of the Museum is to give a general survey of human disease from every aspect. The causation, pathology, symptomatology, treatment, and prevention of disease are demonstrated by means of pathological specimens, models, paintings, photographs, etc., in such a way that they convey a graphic picture of the more important features. Associated with each disease a short summary is set forth of the important points; there is also a file containing abstracts with regard to all the more recent work.

The microscopic side of morbid anatomy is dealt with by means of colour photo-micrography, many of the photographs being shown in special illuminated cases. Thus an attempt has been made to provide a continuous demonstration of disease which will fix itself on the attention and memory of those who visit the Museum.

The Museum of Medical Science is open free of charge to all medical men, Health Officers, and students, also to laymen interested in medicine, provided they are introduced by a registered medical practitioner. Teachers of medicine are invited to give demonstrations to their classes in the Museum and special attention is called to its value as a centre for post-graduate study. *Director*, S. H. Daukes, O.B.E., B.A., M.D., D.P.H.

5. THE NATIONAL COLLECTION OF TYPE CULTURES (v. p. 911).

6. THE PARKES MUSEUM of the Royal Sanitary Institute, 90 Buckingham Palace Rd., London, S.W.1, contains various sanitary

appliances and exhibits relating to health and hygiene. Open free daily, 10-5, Sat. 10-1.

B. IN THE DOMINIONS, COLONIES, AND DEPENDENCIES

CENTRES OF SCIENTIFIC RESEARCH AND INFORMATION

I. CANADA

AGRICULTURE.

NATIONAL RESEARCH COUNCIL, *see infra under* Scientific and Industrial.

DOMINION EXPERIMENTAL FARMS SYSTEM. The main activities of this large branch of the Federal Government service are experimental and research work in almost all fields of agricultural production. The Central Experimental Farm at Ottawa is the administrative headquarters, where a large volume of work in many fields is conducted. Further information from the Director (E. S. Archibald, B.A., B.S.A., LL.D., D.Sc.).

There are 29 branch Stations, many of these devoting their sole attention to special regional problems, such as researches in fruit production, ranch improvement, silver fox breeding, horse breeding, tobacco production, and the like, while the balance cover a wider field of investigational problems in two or more agricultural activities. The many specialized Sub-stations deal with urgent regional problems, such as soil drifting, physiological diseases of fruit trees, soil burn outs, cattle hybridization and red water in domestic cattle, and throughout Northern Canada discover the crop-producing possibilities before settlement takes place.

There are, also, 40 district experiment sub-stations and 15 reclamation and regrassing stations engaged in investigations in connexion with the drought problem in the Prairie Provinces.

10 specialized Laboratories, 3 of which are located at and co-operate closely with Univs., deal with the major plant disease problems in intensive research towards the creation of control measures.

Experimental research is divided into 12 divisions: (i.) Animal Husbandry; (ii.) Bacteriological investigations; (iii.) Botany investigations include researches in diseases of trees and crops and studies of economic medicinal and poisonous plants; (iv.) Cereal investigations and the testing of new varieties as to their suitability throughout Canada; (v.) Horticultural investigations, including researches as to soils, fertilizers, and production, and protective measures and the creating and testing of fruits and vegetables in different parts of Canada; and with associate workers a study of physiological disturbances in production, storage, and marketing; (vi.) Forage Crops investigations—a specialized research Station has been established at the Univ. of Saskatchewan to meet the needs of the Prairies in special problems of Elite Stock Seed production, the creation of superior kinds, varieties, and strains, etc.; (vii.) Poultry investigations; (viii.) Tobacco experimental

work; (ix.) Investigations in fibre plants; (x.) Field Husbandry researches—on many Eastern Stations special attention is devoted to the improvement of pastures, while Western range improvement is also directed by this Division; (xi.) The Divn. of Chemistry co-operates with all the above Divisions, individually, or on specialized committees.

Officials from these various Divisions and Branch Stations and Laboratories are associated with the National Research Council through its joint and associate committees and different Federal and Provincial Committees towards the solution of specific problems and for the general advancement of agriculture.

(xii.) Extensive investigations on the problem of black stem wheat rust and other Field Crop diseases are conducted in co-operation with the National Research Council, while investigations in foot rots and root rots of cereals and diseases of fruits are carried on in co-operation with the Univs. in the Prairie Provinces and with the Univ. of Toronto.

FISHERIES.

NATIONAL RESEARCH COUNCIL, *see infra* under Scientific and Industrial.

FISHERIES RESEARCH BOARD OF CANADA, Ottawa. Fisheries Research conducted under federal authority in Canada is carried on through the Fisheries Research Board of Canada, which is an independent body but under the control of the Minister of Fisheries and is, in effect, the scientific branch of the Department of Fisheries. Four main research centres or stations, and several substations, are operated by the Board, which consists of 2 officers of the Dept. of Fisheries, 4 representatives of the fishing industry, and 9 scientists selected from the staffs of Canadian Universities. The present chairman is Dr. A. T. Cameron (Univ. of Manitoba), and the hon. sec.-treasurer is Mr. J. J. Cowie (Dept. of Fisheries, Ottawa).

Duly qualified research workers may carry on voluntary investigations into approved problems at these centres from time to time. Two of the stations—one on the Atlantic coast at St. Andrews, New Brunswick (Director, Dr. A. H. Leim), and the other on the Pacific coast at Nanaimo, British Columbia (Director, Dr. W. A. Clemens)—are Fisheries Biological Stations concerned with problems related to the culture, conservation, and capture of fish. The other two stations, Fisheries Experimental Stations, carry on investigations and experiments in connexion with the handling, preservation, and marketing of fish. One is situated at Halifax, Nova Scotia (Director, Dr. D. B. Finn), and the second at Prince Rupert, B.C. (Director, Dr. N. M. Carter). Under an arrangement made with the Board by the authorities, students of Dalhousie Univ. proceeding to the degree of B.Sc. in Fisheries take part of their course at the Halifax station. Schools of instruction for fishermen and fishery officers have been conducted by the Board at the Halifax station for some years. A sub-station of the Board at Cultus Lake, B.C., is concerned with studies on the life history of the sockeye salmon (*Oncorhynchus nerka*), with a view to determining

the efficiency of artificial as compared with natural propagation. A second sub-station, at Ellerslie, Prince Edward Island, deals with the life history of the Atlantic coast oyster (*Ostrea virginica*), and with commercial oyster culture or "oyster farming." Another Fisheries Experimental Station was established in 1936 at Grand Riviere on the Gaspé Peninsula (Director, Dr. A. Labrie).

Major work recently being carried on by the Board has included study of the effects of refrigeration on fish muscle, improvement of methods of smoking fish, investigation of methods for improving the preparation of fish meals and the purification of fish oils by hydrogenation, study of the vitamin content of the body oils and liver oils of various fish, investigation of industrial uses of fish oil, experiments with both sockeye salmon and pink salmon (*Oncorhynchus gorbuscha*) to test the parent-stream theory and the possibility of improving the runs of "off" years, oceanographic studies on both coasts to ascertain the source and distribution of the silica and phosphate contents of the waters as influencing the growth and distribution of plankton, a survey of the fisheries of the Bay of Fundy, and a similar survey in the south shore of Nova Scotia area. Important work in connexion with oyster history and culture has also been done, and, in co-operation with the Government of British Columbia, the Board is carrying on an intensive study of the Pacific coast pilchard and herring fisheries.

Publications issued by the Board are its *Annual Report*, *Journal of the Fisheries Research Board of Canada*, *Progress Reports*, quarterly, and *Bulletins*. An extended summary of the Board's work from year to year is also printed in the Annual Report of the Dept. of Fisheries.

SCIENTIFIC AND INDUSTRIAL.

NATIONAL RESEARCH COUNCIL, Ottawa. This organization was established by the Government of Canada in 1916 to promote the utilization of the natural resources of Canada, to undertake researches with the object of improving the technical processes of industry, to determine standards and methods of measurement, and to standardize materials used by the government and in industry. The Council consists of 15 members, selected for terms of 3 years, from among men prominent in scientific work in Canadian Universities, or in Canadian industry. It meets four times annually. There is a President (Major-General A. G. L. McNaughton), who is appointed for a term of years. He is the chief executive officer and reports directly to the Committee of the Privy Council on Scientific and Industrial Research.

The Government has provided the Council with extensive laboratory facilities at Ottawa, in which the Council now has a scientific and technical staff of about 170 persons. The internal work of the Council is organized in five technical divisions, Biology and Agriculture, Chemistry, Mechanical Engineering, Physics and Electrical Engineering, and Research Information. The biological and agricultural work of the Council has been organized in close co-operation with the Dominion Department of Agriculture. Six joint committees are now active in special fields of agricultural research, with the co-operation of the agricultural

colleges and universities. The Division of Chemistry is engaged in research on asbestos, carbon black, and other products from natural gas, casein, corrosion, distillation apparatus, plant hormones, starch, laundry, dry cleaning, leather, magnesium products, paints, rubber, textiles, etc. The Division of Mechanical Engineering is devoted particularly to aeronautical investigations, in a large wind tunnel, to hydraulics research using a model-testing basin, to engine testing and to fire hazard studies. An aeronautical museum is being established. The Division of Physics and Electrical Engineering undertakes investigations in the general field indicated by that title, including heat, light, sound and electrical studies and also considerable work in metrology. The Division of Research Information is responsible for a general information service, the National Research Library, publications, standardization, and for the general planning of co-operative investigations through committees.

The Council has an extensive system of research and advisory committees, to many of which grants are made for research in university laboratories and elsewhere. The scope of the work undertaken by these committees is indicated by the titles,—aeronautics, asbestos, chemical standards, coal classification, electrical units, engineering standards, field crop diseases, fire hazard testing, forestry, hydraulics, gas, grain, laundry research, leather, magnesium products, market poultry, oceanography, parasitology, potato research, radio, radiology, storage and transportation of food, survey research, smelter smoke, tuberculosis, weeds, and wool.

The Council has since its inception maintained a system of scholarships for post-graduate work in Canadian and foreign universities. A total of 685 such awards has been made to outstanding graduates of Canadian universities.

THE ONTARIO RESEARCH FOUNDATION, 47 Queen's Park, Toronto (*Director*, Dr. H. B. Speakman), was established in 1928 at the instigation of the Prime Minister of the Province. An endowment fund was created from subscriptions made over a period of 5 yrs. from manufacturers, corporations, and private individuals, and from contributions from the Provincial Government on a £ for £ basis. Quarters in Queen's Park were set aside by the Govt. for offices and laboratories.

Researches have been carried out for the benefit of industry and agriculture and to develop the natural resources of the Province. Soil surveys of sections of the Province have been continued, and a study was made of the disease which had attacked the oat crop in certain areas. It was observed that the infected grain was confined to one type of soil which was heavily infested with nematodes. As no economical and effective method for destroying this pest was found it was recommended that farmers rotate their crops in such a way as to limit as much as possible the sowing of oats in the infected areas.

The work on bovine contagious abortion which had been in progress for five years came to an end. The experimental area, comprising farms whose owners agreed to eradicate this disease from their herds, is still under the care of the area veterinarian but no longer under the direct supervision of the Foundation. In view of the satisfactory conclusions

arrived at with regard to this experiment it was felt no further progress could be made in that particular direction, and our attention is being focussed on the bacteriological side of the disease, and on mastitis and other animal diseases.

In the metallurgical field studies have been continued on the properties of white cast iron, the forgeability of metals, and on bearing metals. As a result of these investigations changes have been made in the manufacture of certain articles which are of importance to the industries concerned.

The fellowships supported by industrial concerns have been continued and researches of particular interest to these companies have been carried on. The variety of problems investigated on behalf of manufacturers will be indicated by enumerating a few of them: leather dust, badminton shuttlecocks, sponges, hot-water bottles, vanillin, foil labels, printing inks, concealed radiators, tarnishing of gilt paper, vitamin assays. The solution of these problems represented a real contribution to industrial progress in the Province.

Numerous papers have been published in scientific and trade journals and a report covering the work of the Foundation is issued annually.

THE FOREST PRODUCTS LABORATORIES of Canada are maintained by the Dominion Forest Service of the Dept. of the Interior. The Labs. were started on a small scale in 1913 in Montreal, but have now expanded to 3 well-equipped units: (i.) the *Main Laboratories* at Ottawa, (ii.) the *Pulp and Paper Division* at Montreal, working in close co-operation with the Pulp and Paper Assn. of Canada, (iii.) *Branch Laboratory* at Vancouver. The total staff, scientific, executive, and clerical, numbers about 70, over 30 of whom are univ. graduates in science. The Laboratories operate under the following divisions: (a) Pulp and Paper, (b) Wood Preservation, (c) Timber Mechanics, (d) Lumber Seasoning, (e) Timber Physics, (f) Wood Utilization, (g) Timber Pathology, (h) Markets and Exhibits, (i) Wood Chemistry.

Pulp and paper is now Canada's most important manufactured product, and there is a growing appreciation of the importance of scientific processes in their manufacture. The wood-using industries as a group are among Canada's largest industries, being only exceeded by agriculture and very slightly by mining.

The Laboratories are being increasingly used as a bureau of technical information by the wood-using industries. The data from its own researches or from sources of reference in its library on wood utilization are available. Its technical inquiries number about 3000 each year. Lists of publications are sent on application, some without charge.

Some of the more important problems studied in 1937 included:

(i.) *Main Laboratories, Ottawa.*

Timber Mechanics Division. Strength of glued joints; Logging sleighs; Standard grades for Canadian structural timbers; Strength of Eastern Canadian structural timbers; Strength of dowelled joints; Veneers and plywood; Butter box design; Determination of effect of slant driving on holding power of nails; Efficiency of cement coatings

for nails ; Effect of rate of loading on the strength of timber ; Efficiency and strength of timber connectors.

Wood Preservation Division. Fire retardant treatments ; Service life of treated and untreated timber ; Creosote treatment of spruce ; Experimental treatment of poles at Chalk River Forest Experiment Station ; Service tests of treated and untreated fence posts and untreated saplings at Chalk River Forest Experiment Station ; Preservative value of sodium fluoride and dinitrophenol when applied to the surface of timber as a thin paste ; Mine timbers.

Timber Physics Division. Variability in wood ; Variability of wood with special reference to devising simple methods of selecting timber of high mechanical properties , Measurement of cell dimensions of wood.

Timber Pathology Division. Reference collection of pathological material ; Red stain in jack pine : its development in creosoted and untreated railway ties under service conditions ; Blue stain in soft-woods ; Decay of pulpwood in storage.

Lumber Seasoning Division. Kiln drying ; Equilibrium moisture content of representative Canadian woods ; Air-seasoning studies , The seasoning of timber by the application of salts

Wood Utilization Division. The use of wood for fuel , Use of yellow birch and hard maple for spokes and felloes of artillery wheels ; Wood taint in butter boxes ; Special investigation on wooden tanks

Wood Chemistry Division Hardwood distillation , The use of wood tanks for storage of chemicals ; The use of wood for plastics.

(ii.) Pulp and Paper Division, Montreal, P.Q.

Projects Methods of analysis ; Classification of pulp by selective screening ; Laboratory methods for beating pulps ; Optical properties of paper ; Consistency measurements of pulp suspensions ; Permanence of paper ; Drainage properties of pulp Groundwood studies , Rate of grinding and groundwood quality. Sulphite pulping studies ; Comparison of Canadian and foreign sulphite pulps. Printability of paper. Adsorption of vapour by wood and pulps ; Adsorption of electrolytes by wood and pulps ; Heat of wetting by liquids of wood and pulps ; Dielectric constants of wood and pulps ; Equilibria existing in sulphite liquors ; Density of wood and pulps ; Thermal conductivity of pulp and paper ; Specific heats of wood and pulp.

(iii) Vancouver Laboratory, Vancouver, B.C.

Timber Products. Air seasoning of lumber ; Kiln drying of lumber ; Kiln drying of shingles ; Sawmill waste and its utilization , Utilization of British Columbia hardwoods ; Use of wood and charcoal as a motor fuel ; Effect of colouration on properties of western red cedar and Douglas fir ; Development of stain and decay in lumber during shipment

by water ; Effect of kiln drying upon sterilization of lumber ; Relative durability of British Columbia woods.

Timber Mechanics. Effect of rate of growth upon specific gravity and strength of Sitka spruce ; Effect of shape of the test specimen upon its strength in compression parallel to the grain ; Tests of wax-coated and hot galvanized shingle nails ; Holding power of drift bolts in British Columbia species ; An investigation of one and two-piece box ends ; An investigation of a two-ply wood spring for minimizing damage to apples when packed in standard boxes.

Outside research workers are admitted to the Laboratories. Inquiries should be addressed to the Superintendent, Forest Products Laboratories, Ottawa.

THE MINES AND GEOLOGY BRANCH, DEPARTMENT OF MINES AND RESOURCES, Ottawa, carries on the work of the former Department of Mines. Through its Bureau of Mines, Bureau of Geology and Topography, the branch undertakes scientific technical and other investigations designed to further the development of the mining and metallurgical industries in Canada and publishes reports thereon. It also administers the National Museum of Canada, a national history museum which carries on anthropological, zoological, and botanical investigations.

The Bureau of Mines was formerly the Mines Branch which was created by the Mines and Geology Act, 1907. It carries out field and laboratory investigations of the mineral resources of the Dominion (metallic, non-metallic and fuels), their production, processing, utilization, and marketing. In connexion with this work the following laboratories are maintained :

(i.) *The Ore Dressing and Metallurgical Laboratories*, established in 1910, are equipped for research and investigational work on metallic ores, metals and alloys. The ore dressing laboratories are fully equipped for small scale and for continuous pilot plant tests, and have all types of standard ore dressing machinery. A bulk sampling plant with a capacity up to two tons per hour is operated. There is also a mineralogical laboratory completely equipped for microscopic, microphotographic and spectrographic examinations and research.

Continuous runs can be made in connexion with cyanidation of gold and silver ores and other hydrometallurgical and electrochemical operations in the hydrometallurgical laboratories. Research chemical laboratory facilities are provided with equipment for research work on chemical and hydrometallurgical problems.

Physical metallurgical laboratories are equipped for large and small scale electric furnace work, and include two arc type, one combination arc and resistance type, and two high-frequency induction type furnaces. There is also a heat treating laboratory of commercial proportions. For sintering, roasting and similar investigations, a Dwight-Lloyd sintering machine, a Herreshoff furnace, rotary kiln and muffle type roasting furnace are provided.

Fully equipped mechanical testing and metallographic laboratories are provided.

(ii.) *The Industrial Minerals Laboratories* are equipped for research

and investigational work on problems of production and utilization of industrial minerals and in its Industrial Minerals Milling Laboratory carries on investigations connected with crushing, grinding and purification of industrial minerals.

The Ceramics Laboratories test clays, shales and other ceramic raw materials and endeavours to improve technology of the clayworking industries.

The Road Materials Laboratories test rocks and gravels for road construction and maintenance and study utilization of materials in road building.

The Milling and Ceramics Laboratories carry on trial operations on full plant scale, as well as small scale and semi-commercial work.

(iii.) *The Fuel Research Laboratories*, established in 1910, are equipped for research and investigational work on the chemical and physical properties of fuels and their utilization. The investigations into solid fuels include, as do those of the British Fuel Research Station at Greenwich (see A. V. 2 *supra*), a chemical and physical survey of coal seams *in situ*.

In addition to chemical laboratories and large scale research apparatus, a commercial by-product recovery coke plant, experimental domestic heating plant, commercial-scale pulverized fuel steam-generating plant, large scale coal washing plant, and continuous scale high pressure hydrogenation installation are maintained.

The work is organized in the following sections: (1) Combustion engineering; (2) Coal carbonization, preparation and briquetting; (3) Oil shale and bitumen; (4) High pressure hydrogenation; (5) Oils, natural gas and mine air analyses; (6) Solid fuels analyses.

The Geological Survey, Ottawa, carries on research work in the field and laboratory in connexion with investigations of the general and economic geology of Canada, and publishes maps, and reports on the geology and mineral resources of Canada.

The National Museum of Canada is a natural history museum, which carries on scientific investigations in anthropology, zoology, and botany and publishes bulletins on the results. It has excellent collections of ethnological and archæological material from the Canadian Arctic, and a fair collection of anthropological material from other parts of Canada. There is also a good collection of phonograph records of Indian and French Canadian folk songs. The National Herbarium is maintained by the National Museum, which also has large collections of mammal and ornithological material for study and for loan to responsible scientific institutions. Scientists engaged in special lines of investigation are welcomed. To them a library of 70,000 vols. is open.

Inquiries regarding any of the above may be addressed to The Director, Mines and Geology Branch, Department of Mines and Resources, Ottawa.

MEDICAL.

THE BANTING INSTITUTE FOR MEDICAL RESEARCH, University of

Toronto, was opened in Sept. 1930. It is occupied by the following medical depts.—Path., Bact., Neuro-pathol., Med., Surg., Pathological Chem. These depts. carry on teaching, routine laboratory work in connexion with clinical investigation and research work. The Banting and Best Dept. of Medical Research occupies one floor of the Institute, and is devoted entirely to research work.

THE CONNAUGHT LABORATORIES, University of Toronto, associated with the School of Hygiene, were established to provide facilities in the field of preventive medicine and for the production and distribution of biological products. Distribution has been extended throughout Canada and to numerous British and foreign countries. Farm of over 70 acres. Library. Opportunities for research are offered to suitably qualified students.

2. AUSTRALIA

AUSTRALIAN AND NEW ZEALAND ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE. Headquarters: Science House, Gloucester St., Sydney. Founded in 1887 "to give a stronger impulse and a more systematic direction to scientific inquiry, to promote the intercourse of those who cultivate science in different parts of the Commonwealth of Australia, the Dominion of New Zealand, and in other countries, to obtain more general attention to the objects of science, and a removal of any disadvantages of a public kind which may impede its progress." The Association aims at co-operation between the workers in the various branches of science on the one hand, and between the professional scientist and the general public on the other. Meetings are held within the various States and in New Zealand (usually biennially). Last meeting, Auckland, Jan. 1937. Library, 4000 vols., housed by the Council for Scientific and Industrial Research. Publishes Report.

THE NATIONAL RESEARCH COUNCIL was founded in 1921 to represent Australia in the International Council of Scientific Unions (formerly Internat. Research Council), and also serves as a national academy of pure and applied science (all branches). Address: The Hon. Secretary, National Research Council of Australia, Kelvin House, 15 Castlereagh Street, Sydney.

COUNCIL FOR SCIENTIFIC AND INDUSTRIAL RESEARCH, 314 Albert St., Melbourne (Chief Executive Officer, Sir David Rivett, K.C.M.G., M.A., D.Sc.). Established by the Science and Industry Research Act, 1926, and has taken the place of the former Institute of Science and Industry, which was constituted in 1920, and had succeeded a temporary Advisory Council of Science and Industry created in 1916. The Council consists of 3 nominees of the Commonwealth Government, the Chairman of each State Committee constituted by the Act, and other persons co-opted for their scientific knowledge. Its main functions are: (a) to carry out scientific researches in connexion with the primary and secondary industries of Australia; (b) to train research workers; (c) to make grants in aid of pure scientific research; (d) to carry out the

testing and standardization of scientific instruments and apparatus; (e) the establishment of a Bureau of Information for the collection and dissemination of information relating to scientific and technical matters; and (f) to act as a means of liaison between the Commonwealth and other countries in matters of scientific research. The Council is now concentrating its efforts mainly on 7 major branches, viz.: (a) soil problems, (b) plant problems, (c) animal problems, (d) fisheries problems, (e) forest products, (f) entomological problems, and (g) preservation of foodstuffs, especially cold storage. Divisions of Animal Health and Nutrition, Plant Industry, Soils, Economic Entomology, and Forest Products have been organized. A Section of Food Preservation and Transport and a Section of Fisheries have also been established.

Publications: *Journal* (quarterly); a series of *Bulletins* and *Pamphlets*, 110 of the former and 73 of the latter already published.

The Council maintains or assists the following *Research Stations*.

For *Citriculture*. A Research Station established at Griffith, Murrumbidgee Irrigation area, N.S.W., in 1924, has an area of 57 acres, and is now owned and financed jointly by the Council and the Water Conservation and Irrigation Commission, N.S.W.

For *Viticulture*. The Council maintains a Research Station at Merbein, near Mildura, formerly under the control of the Mildura Vineyards Protection Board.

For *Economic Entomology and Plant Industry*. Laboratories at Canberra for Economic Entomology and Plant Industry have been erected and equipped. They are designed to allow of their incorporation in future with a central administrative block.

For *Animal Health*. The F. D. McMaster Animal Health Laboratory, established in the grounds of Sydney Univ. from a gift of £20,000 by Sir Frederick McMaster, a pastoralist of "Dalkeith," N.S.W., investigates problems relating mainly to the health of sheep. There is a field station at St. Mary's, about 30 miles from Sydney.

A sheep experimental station—the National Field Station, "Gilruth Plains"—is in course of establishment on an area of 40,000 acres at Cunnamulla, Q., made available by the Queensland Govt.; it is financed by the Australian Wool Board.

A new laboratory, mainly for the investigation of dairy-cattle problems, is now complete in Melbourne.

For *Animal Nutrition*. A laboratory has been built in the grounds of the University of Adelaide for fundamental work on animal nutrition problems. This work is linked up with field, calorimetrical, and other work at the Waite Agricultural Research Institute (*see below*) and with field stations in various parts of Australia.

For *Forest Products*. A central laboratory has been established at Melbourne, and work on timber seasoning, timber utilization and preservation, and other forest product problems is now actively in progress.

For *Soils Research*. A laboratory erected from a gift to the Univ. of Adelaide by Mr. J. Darling in the grounds of the Waite Agricultural Research Institute, Adelaide, has been equipped and staffed, and is being maintained by the Council as a Soils Research Laboratory.

For Food Preservation and Transport. A laboratory for this work has been erected in the abattoir building of the Queensland Meat Industry Board, Brisbane. Investigations are also in progress at the Government Cold Stores, Melbourne, and at certain other places. New laboratories and experiment cold chambers are to be erected in Sydney.

Radio Research is in the charge of a Radio Research Board of the Council. The work is financed as to three-quarters of its cost by the Postmaster-General's Dept. and as to the balance by the Council.

Fisheries. A fisheries investigation vessel is being constructed in Melbourne.

The Council is working in close co-operation with the State Government Departments, the Universities, and other institutions. It is also co-operating with the British Dept. of Scientific and Industrial Research, and with similar institutions in other parts of the Empire.

Inquiries to be addressed to the Secretary (G. Lightfoot, M.A.).

THE AUSTRALIAN DAIRY CATTLE RESEARCH ASSOCIATION consists of delegates elected by the various Breeding Societies, through the State branches of the Association, together with veterinarians and others interested in its object. Considerable funds for research have been secured. An investigation into Contagious Abortion has been subsidized and arranged in collaboration with the New South Wales Dept. of Agriculture, and the work is being carried on at the Glenfield Research Station; the investigation of Tick Fever, etc., in Queensland, in collaboration with the Council for Scientific and Industrial Research, and an extensive investigation into the subject of Bovine Contagious Mammitis in Victoria by the State Branch of the Association in conjunction with the Council for Scientific and Industrial Research. Inquiries to be addressed to the Hon. Secretary, Australian Dairy Cattle Research Association, c/o Royal Agricultural Society of New South Wales, 33 Macquarie Place, Sydney.

COMMONWEALTH SCHOOL OF PUBLIC HEALTH AND TROPICAL MEDICINE (formerly the Australian Institute of Tropical Medicine), Sydney Univ. See p. 595.

New South Wales

MARINE BIOLOGICAL STATION, Port Jackson. See p. 595.

Queensland

BUREAU OF SUGAR EXPERIMENT STATIONS, BRISBANE. Chief Laboratories and Office at Brisbane. Stations and other laboratories at Meringa (Cairns), Mackay and Bundaberg. Soil research work and breeding, sugar mill technology, entomological investigations in relation to insects injurious to sugar-cane, and pathological investigations into the control of diseases of sugar-cane in Queensland. At present outside research workers are not admitted. Inquiries to be addressed to the Director (H. W. Kerr).

South Australia

THE WAITE AGRICULTURAL RESEARCH INSTITUTE, Glen Osmond, S. Australia (*Director*, Prof. A. E. V. Richardson), for research in Agric., Agric. Chem., Plant Pathol., Plant Physiol. and Entomol., was founded with a private endowment in 1924 under the control of the University of Adelaide. The Division of Soils, of the Council for Sci. and Indust. Research, is under the control of Prof. J. A. Prescott. The Waite Inst. is carrying out co-operative investigations with the Council for Scientific and Industrial Research on the mineral deficiencies of pastures, on virus diseases, on various entomological problems and on the tobacco plant. Income, £25,000.

For names of staff, *see* p. 568.

KOONAMORE FIELD LABORATORY is also attached to Adelaide Univ. *See* p. 570.

THE INSTITUTE OF MEDICAL SCIENCE at the Adelaide Hospital (*Director*, E. Weston Hurst, M.D., D.Sc., M.R.C.P.). The staff includes a bacteriologist, an assistant bacteriologist, a clinical pathologist, an assistant clinical pathologist, a veterinary pathologist, a bio-chemist and a research assistant, with an adequate technical staff. The new buildings at present under construction will house the Government Laboratory of Bacteriology and Pathology and the depts. of Pathology, Bacteriology and Applied Physiology of the University of Adelaide; in addition they will provide ample accommodation and modern equipment for research in the fields of bacteriology, human and veterinary pathology, biochemistry and clinical science. The Government makes an annual grant (at present £8000 p.a.) towards the upkeep of the Institute. The University contributes materially to the salaries of some members of the staff. The building is on hospital ground adjacent to the University campus.

Western Australia

MOUNT BARKER CO-OPERATIVE LTD., Mount Barker (London Office: Lloyd's Bank Chambers, Henrietta St., Covent Garden, London, W.C.2), started a small experiment station of 8 acres in 1928, one acre planted with year-old trees. The work includes manurial experiments, green manuring, and different methods of planting and cultivation. Another acre of fruit trees was planted for further experiments, including a supply of stocks received from East Malling. The orchard is now coming into bearing and fruit is being marketed. It is also used for instruction to children attending the State school. Outside research workers welcomed

3. NEW ZEALAND

THE DEPARTMENT OF SCIENTIFIC AND INDUSTRIAL RESEARCH, Wellington, N.Z., was established in 1926. (*Secretary*—E. Marsden, C.B.E., M.C., D.Sc.) The New Zealand Council of Scientific and Industrial Research attached to the Department acts in an advisory capacity to the Government on all aspects of research, with the exception of

medical research, and, through the Dept., undertakes specific research work. Investigations are proceeding in connexion with the following : Dairying ; Wheat, Flour, and Bread production ; Seeds and Plants ; Soil Survey and Land Utilization ; Noxious Weeds Control ; Mineral Content of Pastures ; Phormium ; Tobacco ; Wool ; Fuel ; Fruit ; Cold Storage ; Leather ; Geophysics ; Standardization. Wherever possible the investigations are carried out at already established institutions, such as the four University Colls., the two Agricultural Colls., Cawthron Institute, and the laboratories of the Dept. of Agriculture. Each research fund is under the immediate direction of a Committee representative of the industry contributing towards the cost of the work, and of the Council. Funds for research are secured partly from Government grants, partly from amounts provided by the various industries, and, till recently, from the Empire Marketing Board. The expenditure on research for the financial year 1936-37 was approximately £79,340, approximately £13,300 being provided by Industry.

The branches of the Dept. of Scientific and Industrial Research, viz. Dominion Laboratory, Geological Survey Office, Meteorological Office, Dominion Observatory, Christchurch Magnetic Observatory, and Apia Observatory, all undertake a certain amount of research work, and their staffs are available for co-ordinated investigations.

CAWTHRON INSTITUTE, Nelson, founded 1915, is a privately endowed research Institute, normal income £10,000 p.a. plus grants from the N.Z. primary producers, local bodies, and N.Z. Department of Sci. and Ind. Research. The Institute comprises a technical and industrial museum and research departments in entomology, mycology, chemistry, and agriculture. The main line investigations concern soil surveys, mineral deficiency ailments of stock, nutrition of fruit trees, biological control of insect pests and noxious weeds, and studies of fungous diseases and their control. *Director*, Sir Theodore Rigg, K.B.E., M.A., M.Sc., F.I.C., F.R.S. N.Z.

THE STATE FOREST SERVICE (address, Box 1, Government Buildings, Wellington, C.I.). Total area of State forests in March 1937, approximately 8,000,000 acres, nearly 12 per cent of superficial area of the Dominion ; area of exotic State forests, 426,000 acres. The local land-use problem is being studied systematically and an initial demonstration area to be known as Rotoehu State Forest has been selected enclosing within its boundaries dairy farming, grazing, tobacco-culture, the growing of exotic forests and the milling and replenishment of indigenous forests. The primarily significant point is the attempt to weld tobacco-culture, with its slack winter season, into a single unit with exotic afforestation, with a busy winter season. Forest-community planning has therefore become a definite administrative object and a 5-yr. programme has been begun with a view to making it a major activity second only to the development of forest management in the kauri forests of North Auckland, the rimu pole-type forests of South Westland and the beech forests of the Dominion. Coincident with this expanded planning effort an active programme of utilization projects has been initiated and a commencement will shortly be made with the construction of

sawmills, box-factories and creosoting-plants. These will form the nuclei of a number of integrated forest industries supplying ultimately a complete range of forest products from firewood to pulp and paper manufactures. *Director of Forestry*, A. D. McGavock.

THE DEPARTMENT OF AGRICULTURE, Wellington, C.I., undertakes (1) veterinary research at its Wallaceville Laboratory near Wellington, (2) farm management investigations, (3) chemical investigations of all problems connected with agriculture. Applications from outside research workers to be admitted to the laboratories would be considered and dealt with on their merits.

CANTERBURY AGRICULTURAL COLLEGE, Lincoln. An annual Government grant of £3700 for research is made to Canterbury Agricultural Coll., and, as a result, investigations are proceeding on wheat and other cereal crops, grasses and pasture plants, animal nutrition and disease, farm economics and wool production. The WHEAT RESEARCH INSTITUTE is established in association with Canterbury Agricultural College.

MASSEY AGRICULTURAL COLLEGE, Palmerston North. The College is the chief centre for research in problems connected with sheep and wool and the major portion of its activities is concerned with this field of investigation. Among the investigations now being conducted are : Extensive research into breeding problems in sheep, particularly male sterility ; the practical and economic aspects of intensive rotational grazing with sheep, an area of 80 acres being used ; the factors which influence the seasonal numbers of the internal parasites of sheep. Grass breeding and selection is carried on at the Grasslands Division of the PLANT RESEARCH BUREAU adjacent to the College. The DAIRY RESEARCH INSTITUTE, the central dairy research organization in the Dominion, is located at the College. By agreement between the bodies concerned, the Institute staff do both research and teaching work. Post-graduate research students are accepted.

UNIVERSITY COLLEGES AT AUCKLAND AND WELLINGTON, CHRISTCHURCH AND DUNEDIN, undertake research work in a number of different subjects. This work is promoted by outside grants, or by funds specially available to each College, or by research scholarships.

National Research Scholarships. *See* Appendix II. 23.

4. SOUTH AFRICA

THE SOUTH AFRICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE, Kelvin House, corner of Marshall and Hollard Sts., Johannesburg. (All communications to the Asst. General Secretary, P.O. Box 6894.) The objects of the Association are : To promote the intercourse of societies and individuals interested in science in different parts of S. Africa ; to obtain a more general attention to the objects of pure and applied science, and the removal of any disadvantages of a public kind which may impede its progress ; to give a stronger impulse and a more systematic direction to scientific inquiry and research. Financial assistance in the past has aided the variable star observations of Dr. Roberts,

the investigation of the desert plant, *Welwitschia mirabilis*, by the late Prof. Pearson, and a survey of fresh-water fishes of S. Africa by the late Prof. Gilchrist. The annual award of the S. Africa Medal and grant has done much to stimulate competition among investigators and to bring the value of their work prominently before the public. The foundation of the Transvaal Observatory (now the Union Observatory) together with the provision of the 26-inch visual refractor, the Botanic Gardens at Kirstenbosch, the Bureau of Soil Erosion attached to the Dept. of Agriculture, and the better economic exploitation of marine resources were the outcome of its recommendations. A Committee has been appointed to collect authentic data of the early history of scientific endeavour and industrial achievement in S. Africa. The Association has in view the establishment of a National Research Council and the inauguration of a national research policy on lines similar to those adopted in Gt. Britain, the Dominions, and other countries overseas.

THE RESEARCH GRANT BOARD of the Union of South Africa, P.O. Box 7137, Johannesburg, was instituted in 1918. The principal functions of the Board are to advise the Government generally regarding the encouragement of research in the Union and to administer all Government grants in aid of research. It is also the body through which the Union of South Africa is affiliated to the International Research Council. Report covering the period 1918-35 was published in 1936.

For particulars of Research Funds and Scholarships, see Appendix II. 24.

STELLENBOSCH UNIV., DEPT. OF POMOLOGY, for study of deciduous and citrus fruit trees. The systematic study of varieties, survey of farming conditions, and root stock investigations.

Viticultural Dept. for studies in wine and spirit production, table grapes, raisins, etc., new grape varieties, different methods of trellising and pruning, interrelation of stock and scion, etc.

THE EMPIRE COTTON GROWING CORPORATION (see Appendix II. 3 above) maintains an Experiment Station for plant breeding, plant physiology, and the investigation of methods of control of insect pests in connexion with cotton-growing at Barberton, Eastern Transvaal. Director—F. R. Parnell, M.A. Camb. The Station is equipped with new laboratories and an experimental farm. There is also a Cotton Experiment Station at Magut, near Vryheid, Natal, and another in Swaziland.

THE GOVERNMENT OF SOUTHERN RHODESIA AND THE EMPIRE COTTON GROWING CORPORATION maintain jointly a Cotton Experiment Station at Gatooma, (Cotton Specialist—G. S. Cameron, M.C., B.Sc.; Chief Plant Breeder—J. E. Peat, B.Sc.), the principal activities of which are the breeding of improved strains of cotton and the investigation of possible means of control of insect pests.

TOBACCO RESEARCH STATION, Trelawney, Southern Rhodesia. Established by Government and under general direction of a Board consisting of growers' and buyers' representatives and members of the Dept. of Agriculture. Chairman, C. K. Brain, M.Sc., Director of

Agriculture. The Station, which is about 45 miles north-west of Salisbury, is fully equipped for conducting all types of investigations and experimental work on the growing and curing of flue cured tobacco of S. Rhodesian origin. Research Staff: Tobacco Research Officer, Plant Breeder, Plant Physiologist, Plant Pathologist, Chemist and Biologist. Officer in Charge: H. F. Ellis, M.Sc.

Citrus research in S. Rhodesia is conducted by a special technical staff of the British South Africa Company on their Mazoe Citrus Estate. Director: W. J. Hall, M.C., Ph.D., D.Sc., A.R.C.S.

VETERINARY RESEARCH LABORATORY, Onderstepoort, Transvaal (Director—Dr. P. J. du Toit), is amongst the largest Veterinary Research institutions in the Empire. The staff includes about 50 professional officers. The most important subjects of research comprise protozoal, virus, and bacterial diseases, helminthology, entomology, poisonous plants, the pathology of these diseases and special pathological problems, mineral metabolism, and other nutritional problems, sterility in cattle and sheep, and other obstetrical and physiological problems. A number of vaccines and remedies are prepared and issued on a large scale. Moreover, a considerable amount of diagnostic work for stock farmers is done. Publication: *Onderstepoort Journal of Veterinary Science and Animal Industry* (quarterly, 5s.; overseas postage 1s. extra), pubd. by the Govt. Printer, Pretoria.

The Faculty of Veterinary Science of the Univ. of Pretoria associated with the training of veterinarians in the Union has been incorporated in the activities of the Research Laboratory at Onderstepoort.

Inquiries should be addressed to the Director of Veterinary Services, P.O. Onderstepoort. (Telegraphic Address—"Microbe," Pretoria.)

FOREST RESEARCH STATION, Deepwells, Knysna, C.P., maintained by the Union Forest Department for the study of various ecological and biological features of the indigenous forests, the rate of growth of natural regeneration and of plants set out in forests under varying degrees of canopy and kinds of site.

LOW TEMPERATURE RESEARCH LABORATORY, Cape Town. Established in 1926 by the Union Department of Agriculture as a section of the Division of Plant Industry for investigations into the storage and transportation of perishable products. Close contact is maintained with the Low Temperature Research Station, Cambridge, and other Dominion research workers. Inquiries to be addressed to the Superintendent (Mr. Rees Davies), Dept. of Agriculture, P.O. Box 3, Cape Town.

THE FUEL RESEARCH INSTITUTE OF SOUTH AFRICA, Lynnwood Road, Pretoria. Postal Address—P.O. Box 217. Telegrams, "Furesbo." Director—Dr. J. C. Vogel, D.Sc., Dipl. Ing. Established by Union Government Act No. 36 of 1930 (later amended by Act No. 2 of 1933). The Institute grades all coals destined for export through or bunkering at South African ports. Research work includes the detailed investigation of the chemical and physical properties of South African coals; the influence of local conditions on coal cleaning and coal processing

methods ; the production of liquid and gaseous fuels from coal, lignite and oil shale ; the combustion characteristics of local coals ; the production of coke and coal by-products ; the sampling of coal, and such other fuel problems of South African interest as, from time to time, arise. Publications of the Institute may be obtained from the Secretary, Box 217, Pretoria.

THE SOUTH AFRICAN INSTITUTE FOR MEDICAL RESEARCH, Hospital St., Johannesburg. Postal address—P.O. Box 1038. Telegrams, "Bacteria." Director—Sir Spencer Lister, LL.D., L.R.C.P., M.R.C.S. Researches in pathology include tissue culture *in vitro* ; the ætiology of tumours ; studies of the immunity processes in Rous sarcoma ; histology of the normal lung ; investigations into the pathology and histopathology of silicosis and other pneumoconioses and a study of the part played by sericite in the causation of these diseases ; prophylaxis of the pneumonias and other acute respiratory diseases ; comparative immunity of reptiles and the higher animals to bacterial toxins and snake venoms ; active and passive immunity to snake venoms ; detoxication of snake venoms without destroying their antigenic qualities ; the antigenic and other properties of bacterial endotoxins and the use of these substances in the prophylaxis and treatment of various diseases. Parasitological researches in connexion with trematodes and esp. in relation to bilharzial disease, etc. Entomological researches into the bionomics more particularly of anopheline mosquitoes and the fleas of veld rodents. Biochemical investigation in connexion with vitamins, dental caries, calcium metabolism, etc. Publications either by the Institute (including annual report) or in various medical journals.

5. INDIA

AGRICULTURE AND VETERINARY SCIENCE.

Government of India

THE IMPERIAL COUNCIL OF AGRICULTURAL RESEARCH was constituted by a Resolution of the Govt. of India (May 23, 1929) with the following objects :

- (a) The promotion, guidance, and co-ordination of agricultural research throughout India.
- (b) The training of research workers under a scheme of research scholarships or in other ways.
- (c) The collection and dissemination of information in regard to agricultural and veterinary matters generally.
- (d) The publication of scientific papers, etc.

[The information contained in this paragraph has been supplied by the Officiating Vice-Chairman of the Council.]

The Govt. of India have so far made, or, subject to the vote of the Central Legislature, have undertaken to make, the following grants to the Research Council.

- (a) A grant to cover the administrative charges of the Council ;
- (b) An annual grant for research of five lakhs ;
- (c) A lump sum grant of 25 lakhs to form the nucleus of a non-lapsing research fund which would enable the Council to make definite provision for research schemes.
- (d) Grant for sugar research—Rs. 20 lakhs.
- (e) Grant to meet the cost of Provincial Marketing Schemes—Rs. 10 lakhs @ Rs. 2 lakhs p.a. for a period of 5 yrs.
- (f) Grant to meet the expenditure required for the repair of the damage done by the earthquake of January 1934, to the Sugar-cane research Station at Mushari in Bihar—Rs. 33,000.
- (g) A special grant of Rs. 11,36,400 payable in March 1937 for financing certain approved research schemes of an urgent nature.
- (h) Special grant for Sugar schemes from Sugar Excise Fund—Rs. 2,50,000.
- (i) Grant for Cold Storage scheme—Rs. 1,00,000.

The Governing Body is a non-technical body presided over by the Hon. Member of the Viceroy's Council in charge of the portfolio of agriculture, and including as members the 11 Ministers of Agriculture in the provinces, 3 representatives of the Central Legislature, 2 representatives of Commerce, 2 representatives of the Advisory Board, and such addnl. representatives as the Governor-General in Council may appoint, a provision which will allow of the representation of Indian States whenever necessary. The Vice-Chairman of the Governing Body is Vice-Chairman of the Imperial Council of Agric. Research and its principal administrative officer. The Advisory Board is the technical section of the Council, and includes the representatives of provincial agric. and vet. depts., of research institutes, and of assns. organised for research and of univs., a co-operative representative, and addnl. scientific representatives.

The advisory work connected with the Govt. of India's policy towards agricultural matters in general, and those matters such as legislation against diseases and pests and the regulation of imports which are reserved for central legislation and central executive action, is now performed by the Vice-Chairman of the Research Council in consultation with his Expert Advisers. There is the further important development that matters of general importance can be referred by the Govt. of India and by Local Govts. and such Indian States as have joined the new organization to the Imperial Council of Agric. Research as a whole.

The whole-time staff consists of the Vice-Chairman, 3 Expert Advisers, 2 Assistant Experts and the Secretary.

The Council has been registered as a Society under the Societies Act in order that it may possess the financial independence necessary for its work.

The research side of the Society is defined as follows in the Memorandum of Association :

- (a) To aid, develop, and co-ordinate agricultural and veterinary research in India by promoting scientific (including technological) research, instruction, and experiments in the science,

methods, and practice of agriculture (incl. marketing of agric. produce) and by promoting veterinary research and instruction in vet. science by the diffusion of useful information and by such other means as appear calculated to develop agric. and vet. research.

- (b) To act as a clearing-house of information not only in regard to research, but also in regard to agric. and vet. matters generally.
- (c) To establish and maintain a research and reference library, in pursuance of the objects of the Society, with reading and writing rooms, and to furnish the same with books, reviews, magazines, newspapers, and other publications.

In addition to its main objective—the fostering of research work—the Council is charged with the dissemination of information and the encouragement of post-graduate training in the various branches of science and technology as applied to agric. In countries like India, where research workers are necessarily scattered and distances great, there is obviously need for an agric. information bureau, and a start has been made by subscribing to the 8 Imperial Agricultural Bureaux recently established in England on the recommendation of the Imperial Agricultural Conference of 1927 (*see A. VIII. supra*). The Expert Advisers to the Imperial Council of Agric. Research act as official correspondents with the bureaux, but the essence of the new organization is that individual research workers themselves correspond freely with the bureaux. There have already been gratifying indications that the Imperial Council of Agric. Research will receive the whole-hearted support both of agric. workers in India and res. workers in the cognate sciences in their efforts to collect, for supply to other workers in India and for transmission to the Imperial Bureaux, full particulars of work done in India and suggestions for further work to fill in gaps in existing knowledge. The measures necessary to build up in India a more adequate corps of scientific workers for the improvement of Indian agric. are being continuously studied.

The Research Council, though at present mainly financed by the Govt. of India, is free to receive contributions from other sources, and has in fact already received a gift of two lakhs of rupees from the Govt. of H.E.H. the Nizam's Dominions. The Indian States of Mysore, Baroda, Kashmir, Cochin, and Travancore have also each agreed to pay a donation of Rs. 100,000 in 20 annual instalments and the State of Bhopal has agreed to pay a donation of Rs. 50,000 in 20 equal annual instalments. It is hoped that many more contributions from Indian States and private benefactions will be received. The Research Council's power to aid Indian agric. is only limited by its financial resources. It stands in the same relation to all research institutions, whether official or unofficial, central or provincial, and promotes research by grants to existing instns. The research grants so far sanctioned amount to about Rs. 1,18,84,000 (about £891,300).

Inquiries to be addressed to the Secretary of the Council, New Delhi.

IMPERIAL AGRICULTURAL RESEARCH INSTITUTE, New Delhi. This Institute, which was founded in 1904 from a fund given to the Viceroy,

Lord Curzon, by Mr. Henry Phipps, an American philanthropist, was originally located at Pusa in Bihar. But, owing to the damage done by the great earthquake of Jan. 1934, the Government of India decided to transfer the Institute to a site near New Delhi, where it has been reconstructed and has been functioning since Sept. 1, 1936. In its new environment, the Institute has one great advantage, viz. easy accessibility from all parts of India, the lack of which was recognized as a great disability of Pusa. The total area of the new Institute consists of about 800 acres, of which about 300 are under buildings and roads and the rest is agricultural land. There are 6 Sections altogether, 5 of which are at New Delhi, viz. Agricultural, Botanical, Soil Science and Agricultural Chemistry, Mycological, and Entomological. The Sugar-cane Breeding Station is at Coimbatore. At New Delhi there are up-to-date laboratories, scientific library, and herbaria. The research is devoted in the main to problems of all-India importance. Specialized post-graduate courses extending over 2 yrs. are given in agricultural botany with special reference to plant genetics, biometry and field trials, mycology, entomology, agricultural chemistry with special reference to soil science and sugar-cane breeding and cultivation. Post-graduate training in farm organization, farm management and general farm engineering, one year. The Institute also supplies information and advice to inquirers. *Director*, Rao Bahadur B. Viswa Nath, F.I.C.

IMPERIAL VETERINARY RESEARCH INSTITUTE, Mukteswar, U.P., conducts research in diseases and nutrition of domestic animals and poultry. Applications from outside research workers to visit the Inst. should be addressed to the Director.

Telegrams—"Vetex," Mukteswar-Kumaun.

CENTRAL BOARD OF IRRIGATION. A body consisting of all the Chief Engineers (Irrigation) in India: its object is the exchange of information and experience on irrigation and allied subjects among the Irrigation Departments in India. Attached to the Board are a library and an information bureau. The Board, through its bureau, maintains touch with other bodies having similar interests throughout the world. The Board meets annually in November; the Research Committee, in July; the Executive Committee meets two or three times annually. The office of the Board, the information bureau and the library are under the direct control of a permanent technical Secretary. Address: The Secretary, Central Board of Irrigation, "Central Telegraph Building," Simla, India.

Assam

TOCKLAI EXPERIMENTAL STATION, Cinnamara P.O. (*Telegrams*—"Sciencita," Cinnamara) is maintained by the Indian Tea Assn. It is sp. concerned with the improvement of manufacture, and the study of factors influencing crop-production. Outside research workers not received. The staff includes 3 Chemists, 1 Mycologist, 1 Bacteriologist, 1 Botanist. *Chief Scientific Officer*, P. H. Carpenter, F.I.C., F.C.S.

Indore

INSTITUTE OF PLANT INDUSTRY, Indore. Established 1924. Incorporated 1928 as a Society. Many of the States in Central India and Rajputana are members, giving yearly subscriptions and donations. Indian Central Cotton Committee provided buildings and equipment and make annual grants. Objects: (i.) Investigation of all matters relating to the production and improvement of raw cotton in India. (ii.) Agricultural development of the territories of the Princes and Chiefs who are members of the Society. (iii.) Training of nominees of such Princes and Chiefs and of advanced students nominated by the Indian Central Cotton Committee. Occasionally outside research students are accepted.

Is carrying on fundamental research on the botany, genetics, and agronomy of cotton, and practical plant breeding and cultural improvement on the cotton crop of Malwa and neighbouring areas; also on other crops bound up with the agricultural economy of the areas dealt with. The Director (T. R. Low, I.A.S.) is also Agricultural Adviser to States in Central India and Rajputana.

Madras

There are 3 Fruit Stations, at Coonoor, Burliar, and Kallar. Coonoor is investigating varieties of apples, Japanese plums and persimmons, and miscellaneous sub-tropical fruit, especially in relation to climatic conditions. Burliar and Kallar are attacking the problem of propagating the mangosteen. Outside research workers not admitted. Inquiries to be addressed to the Curator, Government Botanic Gardens, Ootacamund.

Mysore

DEPARTMENT OF AGRICULTURE, MYSORE STATE. There are extensive research laboratories in Bangalore for Agric. Chem., Plant Breeding, Plant Pathol., Entomol. investigations, and a Veterinary Serum Institute where research is prosecuted into the diseases of cattle and sheep and sera and vaccines for different cattle diseases are prepared for general supply.

Besides these there is a Coffee Experiment Station near Balehonnur in the Kadur district, where work on coffee disease problems is closely co-ordinated with breeding and grafting work, sp. areas being set aside for testing disease-resisting powers of selections.

The United Planters Association's (S. India) Coffee Scientific Officer is attached to the Station, and is engaged on phytopathological investigation in co-opn. with the Dept. in work on disease resistance in the selections made. Physiol. problems bound up in flower bud production, fruit setting, and fall of partly developed fruit are also being studied, and the root systems of commonly planted types of coffee.

There are a number of other experimental farms for the different crop areas of the State, viz. at Marthur for areca nut and pepper, at Nagenhalli for paddy breeding, at Hebbal for ragi, groundnuts, sugar-cane and paddy, at Hunsur for Kar ragi, at Ganadal for sugar-cane,

and at Babbur for cotton, jola, cocoanut and sugar-cane. Live Stock farms comprise a Cattle Breeding Station for draught cattle at Ajjampur, Sheep farms at Yelachihalli and Hebbal; the Palace Dairy of His Highness the Maharaja of Mysore is under the technical supervision of this Dept. Treatment of cattle diseases is undertaken at numerous Veterinary Dispensaries and through a Mobile Corps of Vet. Surgeons to deal with outbreaks of cattle epidemics.

All these are under the control of the Director of Agriculture, Bangalore, Mysore State, to whom applns. should be made by investigators wishing to work in the laboratories and farms.

Panjab

COTTON RESEARCH LABORATORY, Lyallpur. Maintained jointly by the Panjab Government and the Indian Central Cotton Committee. The chief work is the improvement of both indigenous and American varieties of cotton by methods of selection and hybridization. Several improved strains of these cottons have been evolved. Improvement in cultural operations and ecological and physiological studies of the cotton plant are also a part of the programme. Outside research workers are admitted.

At the Panjab Agricultural College and Research Institute, of which the Cotton Research Laboratory is a part, other cotton research which is financed similarly is also in progress. It deals with insect pests, mycological diseases and physiological and biochemical aspects of cotton growing.

Inquiries to be addressed to the Director of Agriculture, Lahore.

See also under Medicine—Pasteur Inst. of Southern India.

Burma

Under the direction of the AGRICULTURAL DEPARTMENT of the Government of Burma—Secretariat, Rangoon—research is being carried on in the following sections:

Chemical: Analyses mostly in connexion with soils and oil seeds; investigation soils on which the "myitpo" disease of paddy occurs; composition and character of the black cotton soil of the Mandalay area with special reference to its effect on the foundations of buildings—the last two in collaboration with the Forest and Public Works Depts.; survey of fodders and feeds.

Botany and Plant Breeding: Investigations continued into paddy, butter beans, sesamum, chillies, wheat and pulses.

Mycology: Investigation of diseases of paddy, wheat, chillies and betel vine; storage of mangosteens, mangoes, and citrus fruits; cultivation of indigenous mushrooms.

Entomology: Special investigation of Beetle Pest, *Alissonotum impressicolle*, of boll worms on cotton, and of pests on peas and beans in field and store.

Sericulture: Production of superior multivoltine races of worms by hybridization and improvement of mulberry.

Rice: Investigations into the improvement of Burma rice, for quality

and yield, by selection, hybridization, cultivation, and manuring. The principal rice stations are at Hmawbi, Mandalay, Akyab, Myaungmya and Mudon.

Departmental seed farms in 1936-37 numbered 202 and 7328 tons of pure seed were distributed to growers.

Research is also being carried on in sugar-cane, cotton, sesamum, groundnut, pulses, tobacco and stock breeding.

Horticulture : Experiments in methods of propagation and cultivation of indigenous and exotic species of fruits (citrus, mango, mango-steen, litchi, sapota, pineapple, etc.) conducted mainly on upland areas of Hmawbi, Mudon, Myaungmya and Akyab Agric. Stations.

FORESTRY.

Government of India

THE FOREST RESEARCH INSTITUTE, Dehra Dun, U.P. (*President*—Sir C. Gerald Trevor, C.I.E., Inspector-Genl. of Forests), the largest in the Empire, if not in the world, opened Nov. 1929. Dehra Dun has been a centre of scientific forest work since 1878. The building is surrounded by 1150 acres of land, part of which is devoted to experimental gardens and plantations. The Silviculture Branch investigates the principal problems presented by the forests of India and co-ordinates work done throughout the provinces. The Utilization Branch includes sections dealing with timber testing, wood seasoning, wood preservation, wood technology, wood working, minor forest products, and paper pulp. The Chemical Branch deals largely with minor forest products, while the Entomological and Botanical Branches make independent investigations apart from advising the Forest Dept. generally and the Institute in particular. Valuable collections are maintained illustrating the scope of forestry in India. There are two forest colleges attached to the Institute ; the senior college for training men for direct appointment as forest officers has been closed temporarily owing to a reduction of posts by provincial governments ; the junior coll. for training forest rangers provides a 2 yrs.' course including prolonged tours for practical work in the forests of the United Provinces. Inquiries should be addressed to the President, Forest Research Institute and College, Dehra Dun, U.P., India.

INDUSTRIAL.

Bengal

INDUSTRIAL RESEARCH LABORATORY AND BENGAL TANNING INSTITUTE, Calcutta, maintained by the Bengal Government. The Tanning Institute started in 1919 has a research organization. It now combines research with technical instruction in all aspects of the leather trade, including investigations into local tanstuffs. The Industrial Research Laboratory was built on the same site in 1927. It has two depts., Chemical and Engineering. In the former, researches are conducted which have a bearing on the chemical and chemical engineering

problems involved in utilizing the natural resources of the province such as oil seeds for the soap industry, resins for varnishes, shellac, compositions for matches, problems of bleaching and dyeing for textiles, etc. In the Engineering section of the Laboratory, research is confined to the problems of devising improved plant and apparatus for various indigenous industries, such as forged and cast brass and bell metal ware, cutlery, marking and bending of umbrella handles, pottery equipment, and, recently, researches into the problems of drying rice grain before husking, and soap and other articles, in regard to which drying by solar exposure is difficult during the monsoon. No regular provision for research students is made, but honorary workers are from time to time associated with the work in progress. Training classes for instruction are arranged and are at present held in the improved methods of cottage-scale manufacture of brass and bell-metal ware, cutlery, glazed pottery, umbrellas, and washing soap under the auspices of the Laboratory, and boot, shoe, and leather goods under the Tanning Institute. Industrial inquiries to be addressed to the Director of Industries, Bengal, Calcutta

WEAVING INSTITUTE, Serampore, also maintained by the Bengal Government. Instruction is given to male and female students on weaving and dyeing cotton, wool and jute on which researches are also carried on.

Bihar

THE INDIAN LAC RESEARCH INSTITUTE, Namkum, Ranchi, Bihar, formerly maintained by the Indian Lac Association for Research, Royal Exchange, Calcutta, is financed by a cess on the exports of shellac from India. It conducts research into the cultivation of lac and the manufacture of shellac.

This research is important, as the competition from synthetic products is on the increase. It falls under two main heads, entomological and chemical. The former has for its objective, first, the investigation of the morphology, bionomics, and physiology of the lac insect, *Laccifer lacca*, and of the insect parasites and predators affecting it; secondly, the investigation of the host trees on which the insect lives, their growth, insect pests, and methods of cultivation and the relationship between insect and host.

The Chemical research consists in the investigation of improved methods of manufacture, the standardization of the resulting shellac, and the use of shellac in various industries.

The Amended Lac Cess Act of 1936 provides for the control of the Indian Lac Research Institute by a Committee appointed by the Govt. of India, consisting of two bodies—the Advisory and the Governing. The cess collected is spent in research at the three centres: Namkum, London (London Shellac Research Bureau) and New York (Shellac Importers' Assn.).

Training in improved scientific methods of lac is imparted to "Kamdars" (expert Agricultural Supervisors) and others interested in the production of lac. Inquiries to the Director, Indian Lac Research Institute, Namkum, Ranchi.

Bombay

TECHNOLOGICAL LABORATORY, Matunga, Bombay (*Director*—Nazir Ahmad, M.Sc., Ph.D., F.Inst.P.), maintained by the Indian Central Cotton Committee. Opened in Dec. 1924; total cost, £168,142. Its chief work is the making of spinning tests on cottons grown in all parts of India, and the investigation of fibre properties affecting the spinning quality of cotton. The Committee makes grants-in-aid to Provincial Depts. of Agric. for research work on cotton. Outside research workers not admitted as a rule.

United Provinces

HARCOURT BUTLER TECHNOLOGICAL INSTITUTE, Cawnpore, U.P., estd. 1921. This Inst., which is primarily intended to train men for responsible positions in industry, also has facilities for technical research with a view to promote the industrial development of the United Provinces and the country generally. Organized in the following depts.—Oil, and general research. There is also a general workshop, engin. lab., and library. Contact with the requirements of industry is maintained by a Board of Studies and Research. Inquiries to be addressed to the Principal.

[For additional information about many of the foregoing instns., see Handbook of Indian Universities, pubd. by the Inter-University Board, Cawnpore, India.]

PURE SCIENCE.*Bengal*

THE NATIONAL INSTITUTE OF SCIENCES OF INDIA, 1 Park Street, Calcutta, founded Jan. 7, 1935.

Its most important objects are :

(i.) To effect co-ordination between scientific academies, societies, institutions, and Government scientific departments and services.

(ii.) To act as a body of scientists of eminence for the promotion and safeguarding of the interests of scientists in India : and to represent internationally the scientific work of India.

(iii.) To act through properly constituted National Committees in which other learned academies and societies will be associated, as the National Research Council of India, for undertaking such scientific work of national and international importance as the Council may be called upon to perform by the public and by Government.

(iv.) To publish such proceedings, journals, memoirs and transactions, and other publications as may be found desirable.

President, 1938—Prof. M. N. Saha, D.Sc., F.R.S.

THE BOSE RESEARCH INSTITUTE, 93 Upper Circular Rd., Calcutta (*Telegrams*—Bostute), founded in 1917 by the late Sir J. C. Bose, F.R.S., who was also its Director, is concerned with investigations into different branches of knowledge—in Plant and Animal Physiology, in Biochemistry, in Zoology, in Anthropology and in certain modern advances

in Physics. In recognition of its being an international centre of science, it receives a subsidy from the Govt. towards its upkeep.

THE INDIAN ASSOCIATION FOR THE CULTIVATION OF SCIENCE, 210 Bowbazar Street, Calcutta, founded in 1876 by the late Dr. Mahendra Lal Sircar with the object of providing facilities for scientific research in India, is equipped with a Laboratory built and equipped at the expense of the late Maharaja of Vizianagram, Mr. K. Tagore and others, a library, and a lecture hall. Considerable improvements in the Laboratory have been made since then, and it is now well adapted for research in various branches of Physics. The Laboratory is open to qualified workers from all parts of India. Special facilities for work in X-rays, magnetism, spectroscopy and crystallography. The Institute receives a grant of Rs. 18,000 p.a. from the Govt. of India. The Association grants a number of scholarships and stipends. Director, Dr. K. S. Krishnan, Mahendra Lal Sircar Research Professor of Physics of the Assn.

Bombay

THE ROYAL INSTITUTE OF SCIENCE, Bombay, is designed to conduct undergraduate teaching side by side with post-graduate research in the Departments of Chemistry (Physical, Inorganic, and Organic), Physics, Zoology, and Botany. Inquiries should be addressed to the Principal (T. S. Wheeler, Ph.D., F.I.C., F.Inst.P., M.I.Chem.E.).

Mysore

THE INDIAN INSTITUTE OF SCIENCE, Bangalore (*Telegrams*—Science, Bangalore, Code ABC, 5th edn.), established and originally endowed by the late Sir Dorabji J. Tata and the late Sir Ratan Tata, has as its object the promotion of advanced studies and original research with special regard to the educational and economic interests of India. (For staff, v. p. 784). Its total income is now approx. Rs. 5.49 lakhs, towards which the Government of India contributes Rs. 1.5 lakhs, the Government of Mysore Rs. 30,000, the Government of Bombay Rs. 5000, the Government of the Central Provinces Rs. 1500, the Government of Travancore Rs. 3000 and the Govt. of Madras Rs. 5000. During recent years the Dept. of Elect. Technology has been greatly enlarged in order to satisfy the demand for qualified elect. engineers caused by electrical developments in India. Director-in-Charge, Rao Bahadur B. Venkatesachar, M.A., F.Inst.P.

MEDICINE.

Medical research is systematically arranged for by the Government of India, either directly or through local Govts., at central or provincial institutions.

Government of India

THE CENTRAL RESEARCH INSTITUTE, Kasauli (*Telegraphic Address*—"Problem," Kasauli), is the Bacteriological Laboratory and Medical

Research Institute of the Government of India, situated in the Himalayan foot-hills, about 50 miles from Simla. With it is associated the Malaria Survey of India, at present financed by the Indian Research Fund Association until such time as it may be taken over by Govt. The buildings were enlarged and remodelled during the years 1933 and 1934, and the Institute is now thoroughly up to date both in regard to accommodation and equipment.

The functions of the Institute are of an All-India character and only incidentally local. It is the headquarters for basic research, inquiries in the field and other medical research activities connected with the Government of India, and is very closely linked with the Indian Research Fund Association, which maintains a publication office for the *Indian Journal of Medical Research* and *Indian Research Memoirs*, a special library for the assistance of Indian Research Fund Assn. workers in the field, and a store at the Institute. The Inst. also manufactures on a large scale anti-typhoid, anti-cholera, and influenza vaccines and antivenomous serum (antivenin), of which, taken together, about 2 million c.c. are issued annually.

General facilities are given to a certain number of persons to study or gain experience in the laboratories, but the chief outside relations are with researches under the Indian Research Fund Assn., now largely responsible for the conduct of medical research in India.

The Director's office edits the *Indian Journal of Medical Research* and the *Indian Research Memoirs*, in which Journal and Memoirs most of the results of medical research work in India are published. The Malaria Survey of India publishes the *Records of the Malaria Survey of India*, a new series intended for the publication of important malaria papers and memoirs.

Inquiries should be addressed to the Director.

Assam

THE KING EDWARD VII. MEMORIAL PASTEUR AND MEDICAL RESEARCH INSTITUTE, Shillong, was built from part of the proceeds of the Memorial Fund to King Edward VII. It was opened in 1917 and is maintained by the Government of Assam. The staff consists of the Director, who is an officer of the Research Dept., a Military Asst. Surgeon, two Civil Sub-Asst. Surgeons, and one or more additional officers engaged from time to time on special Researches.

The Institute is the headquarters of the Assam Medical Research Society formed to investigate communicable diseases in Assam. The Society is at present mainly concerned with researches on malaria. In addition to being the Provincial Pasteur Institute, the Institute prepares all the cholera and T.A.B. vaccine and therapeutic bacteriophage for the Province of Assam, carries out routine examinations for medical officers, and assists the Public Health Dept. with the investigation of epidemics. The laboratories are well equipped and up to date, and accommodation can generally be made for research workers. Inquiries should be addressed to the Director (Lt.-Col. L. A. P. Anderson, M.A., M.D., B.Chir., D.P.H., D.T.M. & H., I.M.S.).

Bombay

THE HAFFKINE INSTITUTE, Parel, Bombay (*Director*—Lt.-Col. S. S. Sokhey, I.M.S., M.A., B.Sc., M.D.; *Asst. Directors*—Major R. C. Wats, M.D., D.P.H., D.T.M., I.M.S.; P. M. Wagle, M.B., D.P.H.), is the principal centre of Plague research in India. Researches are also being carried on in bio-chemistry of tropical diseases, antirabic inoculation, plague. The last one is carried on under the Indian Research Fund Association. The Institute is the seat of manufacture of Haffkine's plague prophylactic for the East. Antirabic vaccine is manufactured at this Institute and distributed to various centres. It also functions as the principal diagnostic centre for the Bombay Presidency and adjacent Indian States. It is a large and well-equipped laboratory, and supplies facilities for research. Applications may be made to the Director.

Madras

THE KING INSTITUTE OF PREVENTIVE MEDICINE, Guindy, Madras, about 7 miles from Madras, founded 1903 and named after Col. W. G. King, C.I.E., I.M.S., Sanitary Commissioner of Madras, who was chiefly responsible for its inception. *Director*—Lt.-Col. H. E. Shortt, I.M.S. At first its main work was the supply of vaccine lymph to the Madras Presidency, but its activities have been greatly extended. They are as follows: (For the whole Presidency) (1) The only lab. for the manufacture of vaccine lymph; (2) the lab. for the manufacture of all bacterial vaccines except plague, and of sterile solutions and culture media; (3) the main general bacteriological lab. for clinical bacteriological and serological diagnostic purposes; (4) the only Govt. Public Health Lab. for the bacteriological and chemical examn. of water supplies, milk, food, etc. (including the lab. for the Government Analyst); (5) a cold storage and distributing centre for sera for human use; (6) a general clinical and public health research lab. and the centre for mobile investigation units (for all the Madras Hospitals except the Gen. Hospl.); (7) the clinical bacteriological lab.

The Inst. covers several acres of ground and consists of a main building for the bacteriological and chemical work, a new subsidiary block for vaccine lymph work, and many outbuildings. It has its own water and gas supply, runs a large cold store and makes its own ice, and has a set of experimental water filters with storage tanks and sand and mechanical filters. Staff: Director, 2 Asst. Directors, 1 Govt. Analyst, 8 Asst. Surgeons, 3 non-med. gazetted Senr. Assts., 6 Junr. Bacteriolog. Chem. and Vaccine Assts., together with 169 lab. attendants and other subordinates—total, 190.

Important work continues to be done by the *Mobile Investigation Units*.

Recent research includes investigations into vaccine lymph, dysentery and cholera bacteriophages, puerperal sepsis, the purification of water, the growth of vaccine virus in tissue cultures and the chorio-allantoic membrane of chick embryo, research on various protozool. diseases and various viruses and experimental Bore Hole Latrines.

Panjab

PASTEUR INSTITUTE OF INDIA, Kasauli. *Telegrams*—"Pasteur." The Institute exists primarily for the provision of antirabic treatment to persons who are at risk owing to bites from, or contact with, rabid animals. It has also 96 civil and 39 military treatment centres. Total number of patients in 1936, 18,620 (1357 Europeans and 17,263 Indians. Combined percentage death-rate, 0.52. The Institute is at present carrying on two researches, one on the therapeutic aspect of rabies, and one on the aetiology of typhus fever. Inquiries to be addressed to the Director.

Southern India

PASTEUR INSTITUTE OF SOUTHERN INDIA, Coonoor (*Director*—Major K. R. K. Iyengar, I.M.S.). *Telegraphic Address*—Lyssa. Built with a portion of a fund of £30,000 given to the Viceroy, Lord Curzon, by Mr. Henry Phipps, an American philanthropist. In addition to affording antirabic treatment for the whole of Southern India, research work on rabies, malaria, kala-azar, filariasis, and on entomological and other subjects has been carried out by workers at the Institute, and the results have been published in the *Indian Journal of Medical Research*. The following papers, dealing with work done at the Institute, were published during 1934: (1) A Preliminary Note on the Electrical Charge carried by the Rabies Virus; (2) Electrophoresis Experiments with Rabies Virus; (3) Inactivating Effect of Ultra-Violet Light on the Virus of Rabies. Since 1918, accommodation has been given to the workers on nutritional research financed by the Indian Research Fund Association.

During the year 1935, 433 patients underwent the complete course of treatment, and 102, incomplete treatment at the Institute. 14,084½ courses of antirabic vaccine were issued to other centres and 8120 c.c. of 1 per cent and 16,184 c.c. of 5 per cent antirabic vaccine for veterinary use. 2611 specimens were received for clinical and bacteriological examination.

During the year 1936, 493 patients underwent the complete course of treatment and 76 incomplete treatment at the Institute. 15,302 courses of antirabic vaccine were issued to other centres and 64,120 c.c. of 5 per cent antirabic vaccine for veterinary use. 3529 specimens were received for clinical and bacteriological examination.

Burma

PASTEUR INSTITUTE OF BURMA, Rangoon. (*Telegrams*—"Virus," Rangoon.) *Director*—Lt.-Col. G. C. Maitra, I.M.S. Opened 1915, (1) to carry out antirabic treatment, (2) to act as the Govt. Bacteriological Laboratory for Burma. Routine bacteriol. examns. and antirabic work form the greater part of its activities. Research on subjects for which there are facilities undertaken through grants usually obtained from the Indian Research Fund Assn. Subjects hitherto studied include beri-beri, leprosy, leptospirosis, antirabic vaccine, bacteriophage in dysentery and cholera, water bacteriology, distribution of tropical typhus in Burma and serological types of cholera vibrio isolated from cases occur-

ring within the limits of the City of Rangoon. An occasional worker may be given laboratory facilities by arrangement with the Director.

In 1936 (the last complete year for which figures are available) a total of 3702 persons came forward for antirabic treatment from the whole of Burma. Out of those 2175 underwent the full course of treatment, 473 commenced the treatment but absconded before completion of the course; 542 were given partial treatment as the biting animals remained alive and well for 10 days after inflicting the bite and 511 persons were advised that antirabic treatment was unnecessary. One person arrived too late for treatment, developed hydrophobia and died. The mortality among the treated was 0.11 per cent.

THE INDIAN RESEARCH FUND ASSOCIATION, Simla, supported by its grants from the Government of India, assists in financing inquiries by all these institutions, and employs not only Indian Medical Service Officers but also workers outside the Services in studying the most urgent tropical disease problems. The objects of the Association are the prosecution and assistance of medical research, the propagation of knowledge and experimental measures generally in connexion with the causation, mode of spread, and prevention of diseases, primarily those of a communicable nature. All proposals for research under the Association are examined by the *Scientific Advisory Board*, which consists of experts chosen from the Research Institutes of the country as well as from the central medical administration. This Committee is thus able not only to assess the value of proposals, but also to co-ordinate and prevent overlapping, and it is largely on its recommendations that the grants from the Association are made. Apart from grants-in-aid to teachers, bureaux and publications, it has financed numerous researches, the selected results of which are published quarterly in the *Indian Journal of Medical Research* and its *Memoirs*, and in the *Records of the Malaria Survey of India*.

6. BERMUDA

THE BERMUDA BIOLOGICAL STATION FOR RESEARCH, Inc., St. George's West. Established 1903. In 1929 a grant of £50,000 was received from the Rockefeller Foundation for the purpose of developing large-scale oceanographical investigations to be linked up with those of the newly founded Woods Hole Oceanographical Institution, U.S.A. The Govt. of Bermuda provided a site of 12½ acres with an initial grant of £5500, and makes an annual grant of £400 for 10 yrs. towards its maintenance. In 1936 the Development Commission of Gt. Britain made a grant, including a capital sum for a ship and gear and a recurrent sum for salaries of staff and running expenses, for a 5 yr. study of North Atlantic and Gulf Stream problems.

The main building includes living and working quarters for some 30 workers. The Station possesses a 24-ft. launch, 2 small dories, a diving helmet and other equipment for collecting purposes. There is a reference library. Open to research workers from all countries. Applications must be made on the official form to the Director (J. F. G. Wheeler), at

the Station, or to C. O'D. Iselm, Woods Hole Oceanographic Institute, Woods Hole, Mass.

7. CEYLON

RUBBER RESEARCH SCHEME (CEYLON). Established under Government Ordinance for the purpose of conducting research on the production and utilization of raw rubber and financed by the levy of a cess on rubber exports. Income for 1936, Rs. 178,000. The headquarters of the Scheme are at Dartonfield Estate, Agalawatta. The present staff in Ceylon consists of 5 Technical Officers (2 Chemists and 3 Botanists). An Experiment Station (100 acres) is established a few miles from the laboratories for testing budgrafts from high yielding Ceylon trees. Dartonfield Estate (178 acres) was purchased in 1933 and is being utilized for experiments in cultivation, replanting and manufacture. An experimental factory and chemical laboratory were erected in 1934. Research on vulcanization problems, conducted at the Imperial Institute, London, by 3 Technical Officers, is jointly financed by the Rubber Research Scheme (Ceylon) and the Rubber Research Institute of Malaya and is controlled by a Committee representing Producers and Manufacturers. Inquiries should be addressed to the Director (T. E. H. O'Brien) Rubber Research Laboratories, Dartonfield, Agalawatta, Ceylon (*Telegrams*—"Rubrs," Agalawatta), or to the Secretary, London Advisory Committee for Rubber Research (Ceylon and Malaya), Imperial Institute, London, S.W.7.

A **TEA RESEARCH INSTITUTE** was establd. by the Tea Industry in 1926. It is controlled by a Board of Management of 10 members, representative of various interests connected with tea. The Director of Agric. and Colonial Treasurer are also on the Bd. The objects of the Institute are the investigation of all problems relating to tea culture and manufacture and the publication of information relating thereto. Laboratory—St. Coombs, Talawakelle, Ceylon.

8. MALAYA

THE FOREST RESEARCH INSTITUTE, Kepong, Selangor, F.M.S. (Conservator of Forests, Research—T. A. Strong), was opened in 1929 and is maintained by the F.M.S. and the S.S. The building is surrounded by 990 acres of land in the process of being laid out as experimental plantations and arboretum. The Silviculturist advises and co-ordinates the silvicultural work done by the administrative officers and carries out independent research. The Forest Botanist deals with the botanical work of the Forest Dept., with emphasis on the Diptero-carpaceæ. Ecological work will also form part of his activities in the future. Timber research is in the hands of the Wood Technologist, who deals with wood structure, and the Officer-in-Charge of the Timber Research Laboratories, who is in charge of mechanical testing, durability, and wood preservation work.

Education of native subordinates and the local training of officers appointed from Europe and locally is dealt with at the Forest School by the Instructor.

There is a museum illustrating the timbers and minor products of the Peninsula, a collection of wood specimens authenticated by herbarium material, and an extensive herbarium with an unrivalled collection of the family Dipterocarpaceæ.

THE RUBBER RESEARCH INSTITUTE OF MALAYA, Post Office Box 150, Kuala Lumpur, Federated Malay States. (*Telegrams and Cables*—"Searching," Kuala Lumpur.) Estd. 1925 by the Plantation Rubber Industry of Malaya for the investigation of all problems relating to the cultivation of rubber, diseases and pests of rubber, the treatment of latex, and the preparation of raw rubber for the market. The Inst. is managed by a Board consisting of: the Director of the Institute (Chairman); a Financial Officer appointed by the High Commissioner, F.M.S.; the Director of Agriculture, S.S. & F.M.S.; 2 members appointed by the High Commissioner, F.M.S., to represent small-holders; and 5 other members appointed by the High Commissioner, F.M.S., from a panel nominated by Planting Associations. It is financed from the export duty on all raw rubber produced in, and exported from, Malaya. Organization: Director (H. J. Page), Secretary, Botanical, Chemical, Pathological, and Soils Divisions. Experiment Station (approx. 1332 acres), 16 miles from Kuala Lumpur. Facilities for the admission of private research workers by special arrangement with the Board.

London Advisory Committee for Rubber Research (Ceylon and Malaya), c/o The Imperial Institute, London, S.W.7.

Publications. *Journal*, Annual Report, Manuals, Special Bulletins, Leaflets, and Information Cards.

All communications should be addressed to the Director.

INSTITUTE FOR MEDICAL RESEARCH, Kuala Lumpur (*Director*—A. N. Kingsbury), scientific staff of 16. Extensions, completed in 1928, include a lymph preparation dept., Pasteur treatment rooms, etc. The compound, about 25 acres, contains animal houses, insectarium, etc. The Inst. is an integral part of the Malayan Medical Dept., and acts as the laboratory centre for the F.M.S. There is a branch laboratory in Perak. About half the time of the staff is devoted to researches on malaria, tuberculosis, leprosy, tropical typhus, and other diseases. There is a Division of Chemistry which undertakes biochemical and chemical investigations, both research and routine, for the Medical, Police, and other Government Departments. Results are pubd. in *Studies* and *Bulletins*. Space and facilities are available for visiting workers.

9. NEWFOUNDLAND

NEWFOUNDLAND FISHERY RESEARCH LABORATORY, St. John's. A 5-yr. period of research (now extended for a sixth year from April 1, 1936), financed jointly by the Empire Marketing Board and the Newfoundland Government, was begun in 1931, the aim being to survey the marine resources and introduce improved methods of processing of fishery products. The new Commission of Government now finances the laboratory through its Department of Natural Resources. In the

Laboratory, situated in a fishing outport near St. John's, equipment exists for the study of problems relating to canning, cod liver oil testing and refining, fish drying, fish-meal manufacture, general biological studies, etc., and there is a salt-water installation. Provision may be made for the accommodation of outside research workers on application being made to the Director (H. Thompson, M.A., Sc.D.). Telegraphic and Cable Address: Fishlab, Newfoundland. Publications: Reports of the Fishery Research Laboratory, Department of Natural Resources, Nfld.

Note.—The Laboratory was destroyed by fire in the spring of 1937. Its re-establishment is to be considered by the Government.

10. SUDAN

THE WELLCOME TROPICAL RESEARCH LABORATORIES, Gordon Memorial College, Khartoum, founded, equipped, and presented by Dr. Wellcome to the Sudan Govt.

STACK MEDICAL RESEARCH LABORATORIES, now under the ægis of the Sudan Medical Service with Dr. E. S. Horgan, B.A., M.D., B.Ch., B.A.O., as Assistant Director of Laboratory Services in charge.

Purposes: (a) To promote the study, bacteriologically, of tropical disorders, esp. the infective diseases of both man and beast peculiar to the Sudan, and to render assistance to the officers of health, and to the clinics of the civil and military hospitals.

(b) To aid experimental investigations in poisoning cases by the detection and experimental determination of toxic agents, particularly the obscure potent substances employed by the natives.

(c) To carry out chem. and bacteriol. tests in connexion with water, foodstuffs, and health and sanitary matters as may be found desirable.

(d) To undertake the testing and assaying of agric., mineral, and other substances of practical interest in the industrial development of the Sudan.

Private research workers admitted to the Labs. from time to time as far as accommodation permits. Application to the Assistant Director of Laboratory Services.

12. EAST AFRICA

Nyasaland

THE EMPIRE COTTON GROWING CORPORATION (*see also* Appendix II. 3 above) maintain a Cotton Experiment Station at Domira Bay on Lake Nyasa (Chief Officer—H. C. Ducker, B.Sc.), the principal activities of which are the breeding of improved strains suitable to local conditions in different parts of the Protectorate and the investigation of possible means of control of insect pests.

Tanganyika (Mandated) Territory

THE EAST AFRICAN AGRICULTURAL RESEARCH STATION, Amani, *via* Tanga (*Telegrams*—Director, Amani), opened in 1927, is a central research station maintained by the Governments of the East African Colonies and Dependencies (Kenya, Uganda, Tanganyika Territory, Zanzibar, Nyasaland, N. Rhodesia), and working on fundamental problems connected with East African crops in co-operation with the local Departments of Agriculture. The staff consists of the Director (A. G. G. Hill) and 8 scientific officers, as well as subordinate staff. The Station is situated at an altitude of about 3000 feet in the Usambara Hills in the Tanga Province of the Tanganyika Territory, near Muhesa on the Tanga-Moshi railway. In addition to laboratories, experimental plots, etc., a large estate is attached to the Station, on which, with the aid of a grant from the Colonial Development Fund, trials of coffee, cinchona, Derris, and Aleurites are being made on an extensive scale. The immediate environment of the Station is heavy tropical forest.

The Station is primarily devoted to the investigation of problems involving "long-range" and "wide-range" research under the heads of plant pathol., soil science, entomol., plant physiol. and plant genetics. It is not a teaching institution, but facilities exist for the accommodation of a limited number of unofficial research workers, on conditions to be arranged with the Director. A good library is maintained, with a wide range of periodicals dealing with agriculture and the related sciences. The Carnegie Corporation of New York have made a capital grant of £10,000 invested in the names of trustees for the permanent endowment of the library.

C. INTERNATIONAL SETTLEMENT, SHANGHAI

HENRY LESTER INSTITUTE OF MEDICAL RESEARCH, Shanghai (*Director*—H. G. Earle, M.A., LL.D., M.B.). Founded in 1928 under a British Board of Trustees (the Lester Trust) by the late Henry Lester of Shanghai "for the study and teaching in the English language of medical science and surgery."

The work of the Institute is at present organized under three main divisions :

1. *Division of Clinical Research*, with which is associated a Dept. of Experimental Surgery, under Dr. H. Gordon Thompson, M.D., F.R.C.S.
2. *Division of Physiological Sciences*, including Physiology, Biochemistry, and Pharmacology, under Dr. Bernard E. Read, M.S., Ph.D.
3. *Division of Pathological Sciences*, including Bacteriology, Immunology, and Parasitology, under Dr. R. Cecil Robertson, M.D., M.R.C.P., D.P.H.

Facilities are provided for research in all branches of Medical Science. The staff are recruited mainly through the medium of Fellowships and Scholarships open to both Chinese and British candidates. It is hoped that voluntary workers and holders of other Fellowships for medical research will avail themselves of the opportunities presented by the Institute.

All communications to the Director, Henry Lester Inst., 1320 Avenue Rd., Shanghai, from whom full particulars may be obtained, or the London Secretaries, Lester Trust, Empire House, St. Martin's-le-Grand, E.C.1.

IV

PROFESSIONS AND CAREERS FOR WHICH UNIVERSITY STUDIES ARE A FITTING PREPARATION: CONDITIONS OF ENTRY OR OF QUALIFICATION FOR PROFESSIONAL DIPLOMAS OR MEMBERSHIP OF PROFESSIONAL INSTITUTIONS

I.

REGULAR COMMISSIONS IN H.M. FORCES FOR UNIVERSITY CANDIDATES

Regulations issued with Army Orders for September 1934, provide for Commissions being granted in the Cavalry, R.A., R.E., Royal Corps of Signals (not exceeding 4 annually), Infantry Royal Tank Corps, Royal Army Service Corps (not exceeding 11 annually), Ordnance Mechanical Engineers R.A.O.C., Army Educational Corps and in the Indian Army. Nominations of graduates who have certain prescribed qualifications are accepted by the Army Council from the following Universities: I. Oxford, Cambridge, London, Edinburgh, Manchester, McGill, Sydney, Western Australia, Toronto, Queen's, Kingston (Ont.), Alberta; II. The other universities of Great Britain, Northern Ireland, and the Univ. of Dublin. Univs in Group I. have established courses of military study and their candidates will be commissioned as senior to candidates whose qualifications are in other respects equal. The grant of graduate commissions in the Indian Army is limited to candidates from univs. in Great Britain, Northern Ireland, and the Univ. of Dublin. Commissions of accepted candidates will be antedated approximately 18 months according to qualifications as defined in a prescribed scale.

Among the necessary qualifications are: to be within the age limits 21-24, and to be unmarried.

The regulations giving full details of qualifications—general, academic, military, and physical—are obtainable from the Under-Secretary of State, War Office, London, S.W.1.

For the present the Army Council are prepared to accept 100 candidates a year from the Univs.

Permanent Commissions in the General Duties Branch of R.A.F. Permanent commissions in the General Duties Branch of the R.A.F. are granted to university candidates by the Air Council on the recommendation of their Universities. About 15 vacancies annually are available for candidates irrespective of the subject of their academic studies, and in addition about 5 vacancies annually limited to engin. candidates who have reached the standard of an Hons. degree in that subject. Officers

of the General Duties Branch are taught to fly and undertake flying, technical command, and general administrative duties of the R.A.F. They are given opportunities for widely differing types of study and of specialized employment.

Candidates must be recommended by a University in Great Britain or Northern Ireland and must have completed their degree course by the end of the university term in which they are recommended; they must be unmarried and within the age limits 20-25. Recommended candidates are invited to attend before a selection board which sits at the Air Ministry half yearly (normally in January and July). Candidates from Oxford, Cambridge, or London Univs. are recommended to the Air Ministry only after interview by a Board assembled at their Univ. Selected candidates are granted commissions as pilot officers as from the date on which they join a training unit, and, subject to the proviso that a commission will not be antedated to a date earlier than an officer's 20th birthday, the commissions will be antedated so as to give seniority as pilot officers from a date 15 months prior to the date of their effective gazettement to the R.A.F. Candidates who have graduated with either first- or second-class honours may also be granted an additional antedate of 6 months regulated by age, as in the case of the general antedate. In consequence of these privileges, candidates will normally become eligible for promotion to flying officer after 6 months. Promotion to the ranks of flight lieutenant and squadron leader is subject to qualification and suitability. Promotion to the rank of flight lieutenant will normally be made on completion of 4 years' seniority as a flying officer, but as a purely temporary measure to meet the requirements created by the R.A.F. expansion, promotion to flight lieutenant will be made on completion of 2 years' Flying Officer service; to the rank of squadron leader by seniority, but weighted by means of antedates so as to give earlier promotion to officers who have acquired specialist, staff and other service qualifications and to officers who are recommended as exceptionally suitable. The subjects of specialization are aeronautical engineering, signals (including wireless telegraphy), armament, photography, navigation and language study. Higher antedates for promotion are given to officers who have obtained advanced qualifications in aeronautical engineering, signals or armament. Promotion to wing commander and group captain and to air ranks is by selection.

Intending applicants should write for information to the Secretary of the Air Ministry; applicants from Oxford, Cambridge or London should also get into touch with the University Air Squadron. The conditions under which commissions are granted to graduates of certain recognized Universities in the self-governing Dominions can be obtained from the Government of the appropriate Dominion.

Medical Branch of R.A.F. Permanent commissions are given by selection from among officers holding short service commissions as Medical Officers. The number of permanent commissions is regulated by the number of higher posts so as to insure to all permanent officers a satisfactory career and prospects of promotion. Short service commissions are given for 3 yrs. (extensible with the consent of the Air Council

to 5 yrs.) on the recommendation of a selection board which sits at the Air Ministry. Candidates must be fully qualified medical practitioners under 28 (temporarily raised to 31) yrs. of age. Certain advantages are given to candidates holding resident appointments in civil hospitals. Application for further information should be made in writing to: The Secretary, Air Ministry, Adastral House, Kingsway, London, W.C.2.

AGRICULTURE, DAIRYING, HORTICULTURE, ETC.

NATIONAL AGRICULTURAL EXAMINATION BOARD

The Board was appointed by the Royal Agricultural Society of England (16 Bedford Sq., London, W.C.1) and the Highland and Agricultural Society of Scotland (8 Eglinton Crescent, Edinburgh).

An examn. in the *Science and Practice of Agriculture* is held annually for the National Diploma in Agr. (N.D.A.). Qualifications for admission: a certificate from a recognized Agr. College that his attainments in General Bot. and Chem., Geol., Physics, and Mechanics justify the candidate's admission; or evidence of (a) having passed the 1st B.Sc. or Interm. examn. in Science of a British Univ.; or (b) present a School Certif. awarded by a British Univ. Examn. Board and produce evidence that he has continued his study of Science for at least a year and has obtained a certif. in Physics, Chem., and Bot. at the Higher Certif. examn. of a British Univ. Examn. Bd.; or (c) Higher Leaving Certif., including Chem. and Bot., of the Scottish Ed. Dept. Before the first three written papers are taken, candidates must also produce evidence of having resided on a farm for a period (or 2 periods) covering a complete year of farming operations. The subjects of the written papers are Practical Agr.; Farm Machinery and Implements; Land Surveying and Farm Buildings; Agr. Chem., Bot., Book-keeping, and Zool.; Vet. Sc. They may be taken all at one time, or 3, 4, or 5 in one yr. and the remainder at one examn. within next two yrs. *Fee* (non-returnable) for entire examn., 6 gs.

NATIONAL DAIRY EXAMINATION BOARD

The Board consists of representatives of the Royal Agricultural Society of England, the Highland and Agricultural Society of Scotland, and the British Dairy Farmers' Association. *Address*: 16 Bedford Square, London, W.C.1.

An examn. in the *Science and Practice of Dairying* is held annually in England and Scotland for the Nat. Dipl. in Dairying (N.D.D.).

Qualifications for admission : (a) a Diploma course in the subjects of the examn. covering two academic yrs., including at least 6 session months' instruction in practical dairy work at an approved dairy training institution ; also (b) at least 6 months on an approved dairy farm (not concurrent with period mentioned under (a)). Candidates have the option of : (a) Taking the whole Examn. at one time ; or (b) Taking the Examn. in two parts. A candidate taking the Examn. in two parts must take the following subjects at the first sitting : Dairy Farming, Dairy Hygiene, Principles of Dairying, Dairy Factory Management and Dairy Engineering, Practical Cheesemaking and Butter-making ; the remaining 3 papers, Chem. and Physics, Dairy Bacteriol., and Dairy Book-keeping, to be taken at the Examn. in the following year.

The examns. are held in England and in Scotland. A candidate may not enter for the examns. in both countries.

Examn. papers of past years (6d. a set) and a detailed syllabus of subjects of examn. are obtainable from the Secretary.

HORTICULTURE

The examns. for the National Diploma (N.D. Hort.) were established in 1912 by the ROYAL HORTICULTURAL SOCIETY, Vincent Square, London, S.W.1. They are usually held in May and June in London and elsewhere. The *Preliminary* examn. is open to candidates who have received a sufficient general education, who are at least 21 yrs. of age and have served at least 4 yrs. in a public or private garden or nursery, or taken a 4 yrs.' course in an approved Horticultural Institution, or spent 4 yrs. partly in the former and partly in the latter. The *Final* examn. is open to candidates who have passed the preliminary examn. and have been regularly employed in the practice of Horticulture for at least 6 years. The National Certificate in elementary Horticultural Practice was established in 1937 especially for students at Farm Institutes. Other examns. held by the Society every yr. are the Genl. Examn. in Horticulture (for Junrs. and Senrs.) ; the Teachers' Examn. in School and Cottage Gardening (Prelim. and Advanced), and the Examn. for the British Floral Art Diploma (estab. in 1933).

Fuller particulars and entry forms from The Secretary, Royal Horticultural Society, Vincent Square, London, S.W.1.

ROYAL INSTITUTE OF BRITISH ARCHITECTS

Founded 1834. Incorporated by Royal Charters in 1837, 1887, 1909 and 1925. *Address*—66 Portland Place, London, W.1. *Telegrams*—Ribazo, Wesdo, London.

BOARD OF ARCHITECTURAL EDUCATION

The recommendations of the R.I.B.A. in regard to preliminary and professional education imply a course of professional training in schools occupying at least five years, during the last 2 yrs. of which the student would be working part-time in an architect's office—the training being kept under the supervision of the Board of Architectural Education of the R.I.B.A. or its delegates during the whole term.

Enrolment as Probationer, R.I.B.A. (fee 4 gs.). Candidates must produce evidence of good general education. This evidence, except in very special cases, must be (a) a certif. from one of the Schools of Archit. recognized for exemption from the R.I.B.A. examns., to the effect that the applicant has passed, or has received exemption from the School Entrance Examn., or (b) a certif. of having passed one of the public examns. recognized by the R.I.B.A. for the Probationership. All applicants must submit drawings showing that they possess some knowledge of Drawing, except (a) when the applicant submits a certif. of having passed or received exemption from the Entrance Examn. to one of the Recognized Schools of Archit., or (b) when the applicant submits a certif. of having passed one of the recognized public examns. with

credit in Drawing or Art. Candidates who are unable to submit certifs. of general education in accordance with the regns. may make special applications, which will be considered on their merits by the Board of Architectural Education. A list of the Recognized Schools of Archit. is given in the following paragraphs, and particulars regarding them are given in the "Explanatory Pamphlet on Examns.," see below.

The *Intermediate* examn. (fee, 5 gs.) is held in May or June and Nov., and is open to Probationers of at least 19 yrs. of age. It tests their progress while engaged as pupil, improver, or asst. in an office, and passing it qualifies for election as *Student*, R.I.B.A. Exemption from this examn. (but not from the fee) may be granted to Probationers who have attended the necessary courses at one of the following schools: Architectural Assocn., London; Northern Polytechnic, London; The Polytechnic, Regent St., London; Birmingham School of Arch.; School of Arch. King's Coll. (Univ. of Durham); Leeds School of Arch.; The Welsh School of Architecture, Cardiff; Royal West of England Academy, Bristol; The Leicester Coll. of Arts and Crafts; The School of Art, Nottingham; The Municipal School of Arts and Crafts, Southend-on-Sea; Aberdeen School of Arch.; Robert Gordon's Tech. Coll., Aberdeen; Dundee Tech. Coll. and School of Art; Edinburgh Coll. of Art; Glasgow Sch. of Arch.; Univs. of Cambridge, Liverpool, London, Manchester, Sheffield, Nat. Univ. of Ireland (Dublin Univ. Coll.), McGill, Manitoba, Toronto, Melbourne, Sydney, Adelaide, Auckland Univ. Coll., Cape Town, Witwatersrand; other instns.: Sydney Tech. Coll., Gordon Inst. Tech., Geelong, Aust.; Melbourne Tech. Coll.; Bombay School of Art. The R.I.B.A. desires that students within reach of these Univs. and Schools should avail themselves of the opportunities thus afforded rather than submit themselves for the examn. without such recognized training.

The *Final* examn. (fee, 6 gs.) for the *Associateship*, R.I.B.A., is held in July and Dec., and is open to Students of at least 21 yrs. of age. Before admission a candidate must submit for approval designs in answer to 4 problems set by the Board. Exemption from the Final examn. is given to Students who have completed successfully a Dip. or Degree course covering at least 5 yrs. at the Arch. Assn. London, School of Arch., The Polytechnic, Regent St., London, Birmingham School of Arch., Leeds School of Arch., Liverpool Univ., London Univ., Manchester Univ., School of Arch., King's Coll. (Univ. of Durham), Sheffield Univ., Aberdeen School of Arch., Robert Gordon's Tech. College, Aberdeen, Glasgow Sch. of Arch., Edinburgh Coll. of Art, Welsh School of Architecture, Cardiff; Univs. (Overseas): McGill, Manitoba, Toronto, Melbourne, Adelaide, Sydney, Cape Town, Witwatersrand, Auckland Univ. Coll.; Sydney Tech. Coll.

A *Special Final* examn. (fee, 10 gs.) for the *Associateship* is held in July and Dec. It is open to Architects in practice and Assts. not less than 30 yrs. of age whose applns. are approved by the Board.

Candidates for election to the *Licentiate* Class must be British subjects and have been entered on the Register of Registered Architects. They must have attained the age of 30 yrs., and either (a) have been engaged as principals for at least 5 successive yrs. in the practice of

Arch., or (b) have been engaged for at least 10 successive yrs. in the practice or the study of Arch.

A *Licentiate* (L.R.I.B.A.) is a fully qualified corporate member, and is entitled to the designation "Chartered Architect."

Examns. (fee, 3 gs.) qualifying for candidature as *District Surveyor* in London or *Building Surveyor* under local authorities are held periodically.

In July 1931 the Architects (Registration) Act, 1931, was passed, establishing the Architects Registration Council of the United Kingdom, the duty of which is to set up and maintain a register of architects entitled to be registered under the Act, with power to remove the names of all registered persons who apply for removal, and the names of all those who shall have died. The Council also have power to remove the name of any registered person convicted of a criminal offence, or, on the report of a special committee appointed for the purpose, to remove the name of any "person . . . guilty of conduct disgraceful to him in his capacity as an architect." Only registered persons will be entitled to use the name, title, or style of "Registered Architect." Under the Act a Board of Architectural Education and an Admission Committee are appointed annually by the Council, both constituted in accordance with Schedules to the Act.

R.I.B.A. *Allied Societies* and branches thereof exist in 62 towns in the U.K. and Irish Free State; also in Canada at Edmonton, Halifax, Montreal, St. John, Saskatoon, Toronto, Vancouver, Winnipeg; in Australia at Adelaide, Melbourne, Brisbane, Sydney, Hobart, Perth; in New Zealand at Auckland, Christchurch, Dunedin, Hamilton, Invercargill, Napier, Hawera, Wellington; in Africa at Bloemfontein, Cape Town, Durban, Johannesburg, Nairobi, Salisbury; and at Bombay, Singapore, and Kuala Lumpur.

The Royal Institute of British Architects offers a number of Prizes and Studentships, particulars published annually in the *R.I.B.A. Prizes and Studentships Pamphlet*, price 1s. See also under *British School of Archaeology* at Athens, p. 847.

Publications include the *Kalendar*, 3s. 9d. and postage, containing, *inter alia*, a historical sketch, regns. for international and other competitions, and information about the allied societies. *Journal*, in 20 numbers annually, 1s. 6d. each. *Explanatory Pamphlet on Examns.* 1s. and postage. *Past Examns. Questions*, price 1s. and postage.

THE BAR IN ENGLAND AND WALES

The right to practise as a Barrister in the Law Courts of England and Wales is restricted to those who have been called to the Bar by one of the Inns of Court—Lincoln's Inn, Middle Temple, Inner Temple, and Gray's Inn. The consolidated Regulations of these Societies (obtainable from the *Council of Legal Education*, 15 Old Square, Lincoln's Inn, London, W.C.2) provide, *inter alia*, as follows: *Admission of Students*. The conditions include: (i.) having passed any examn. held by any Univ. in the British Dominions or any of the States in India, approved by the Council of Legal Educn., which entitles to a degree, or, provided that one of the subjects in which the Student has passed is Latin, one of certain other examinations approved by the Council of Legal Education; (ii.) satisfactory evidence of good character; (iii.) declaration that the candidate is not and does not "directly or indirectly act in the capacity of a Solicitor, Attorney-at-Law . . . Professional Accountant, Actuary, Land-Agent, Surveyor . . ." or "in any capacity

similar to any of those . . . otherwise than as . . .” The Schedule of approved Prelim. examns. includes those of the standing of Oxford Responsions, Cambridge Previous, and London Matriculation. The Council may add others, and the Masters of the Bench of the Inn of Court concerned may, in special cases, relax or dispense with this requirement, and solicitors admitted in England are exempted from it.

Keeping Terms. This is done by eating dinners 6 days in each of 12 terms (members of Univs. of the U.K. 3 days). There are 4 terms in each year.

Education and Examination. Systematic instruction is provided at the Inns of Court School of Law under the supervision and direction of the Council of Legal Education in Roman, International, Constitutional, and English Law, Legal History, and Equity. Reading in the chambers of a Barrister or Pleader for the purpose of studying the practice of Law is recommended after the Bar Examns. have been passed, but this is not compulsory. Three examns. for Call to the Bar are held each year. Candidates must satisfy the examiners in each of the sections: (1) Roman Law, (2) Constitutional Law (English and Colonial) and Legal History, (3) Elements of the Law of Contract and of the Law of Tort, (4) Elements of Real Property, *or* Hindu and Mohammedan Law, *or* Roman Dutch Law, (5) Criminal Law and Procedure, (6) Common Law, (7) Equity, (8) Company Law and Practical Conveyancing (or a specified alternative), (9) Law of Evidence and Civil Procedure, (10) General Paper on Common Law and Equity. A student who has passed examinations forming part of the qualifying examn. for certain Univ. degrees may be excused some or all of the examn. in Part I. Sections 1 to 4 (constituting Part I.) may be taken separately (fee $\frac{1}{2}$ g. each); 5 to 9 (the Final examn.) must be taken together (fee 2½ gs.) after having passed 1 to 4 and, ordinarily, after having kept at least 6 terms.

The successful students are classified and the names of those in Classes I. and II. of the Final Examination Pass List are arranged in order of merit. A Certif. of Honour is granted to those in Class I. at the Final examn. Prizes of £50 each may be awarded for the best students (age not over 25) in Constitutional Law and Criminal Law, and a Studentship of 100 gs. p.a. tenable for 3 yrs. to the best student (age not over 25) at the Final examination. The Inn to which a student who has obtained a Studentship or Certificate of Honour belongs may, if desired, dispense with any terms, not exceeding 2, that may remain to be kept by him.

Calls to the Bar. Minimum age, 21. In special circumstances the Masters of the Bench may dispense with the keeping of not more than 2 of the 12 terms ordinarily required to be kept by a student before he is called, and special concessions in regard to the keeping of terms or examns., etc., are allowed to Scottish Advocates, Irish Barristers, members of the Bar of New South Wales, Ceylon, the Cape Province of South Africa, New Zealand, Vakils or Advocates who have been on the Roll of Vakils or Advocates of a High Court in India for not less than 3 yrs., certain Civil Servants exercising judicial functions abroad, and to persons who, prior to admission as students, have practised as Solicitors for 5 yrs. subsequent to admission as a solicitor *in England*.

Fees. On admission : application, 1 g. ; stamp duty, £25 ; lecture fee, 12 gs. ; admission fees, £20 or £21. On Call : stamp duty, £50 ; composition for annual dues, £12 ; call fees, £38 (Gray's), £40 (Lincoln's), £50 (Middle or Inner Temple).

SOLICITORS IN ENGLAND AND WALES

Examinations are held by The LAW SOCIETY, Chancery Lane, London, W.C.2. All persons, except some Colonial Solicitors, are subject to Final examn. at or near the conclusion of service under Articles before they can be admitted as Solicitors. Subjects of Foreign States cannot be admitted. English Barristers of 5 yrs.' standing are not required to enter into Articles, but may be admitted after passing the Final examn. Before entering into Articles of Clerkship (under the Solrs. Acts, 1932 and 1936) with a view to admission as Solicitors it is necessary, except for persons exempted, to pass a *Preliminary examn.* (fee, £4) held in London and several provincial towns in Feb., July, and Oct., in English, Elem. Maths., Geog. of Europe, and Hist. of England, Latin, and one or (if Algebra and Elem. Geom. are not taken) two of the following—Latin translation, Greek, French, German, Spanish, Italian. Exemption is allowed to graduates in Arts or Laws and persons who have passed matricn. or other corresponding examns. of certain Univs. of Great Britain or Ireland or examns. approved by the Law Society exempting therefrom ; to Utter Barristers in England ; and to persons who have passed Oxford Responsions or Cambridge Previous Examn. or any examn. exempting therefrom, or, subject to provisos, approved School Certificate or Higher Certificate examns., or certain other examns. After Jan. 1, 1938, Latin must have been one of the subjects passed at such matriculation examn. or exempting examn., including Responsions and the Previous Examn.

Service under Articles (stamp duty, £80) is normally for 5 yrs. This may be reduced to 3 yrs. for graduates in Arts or Laws or Sc. of certain Univs. of the U.K., English Barristers, of less than 5 yrs.' standing, or for members of the Faculty of Advocates, Writers to the Signet and Solrs. in the Supreme Courts of Scotland, or Procurators before any of the Sheriff Courts of Scotland.

An *Intermediate* examn. (fee, £6), which may be taken after completing 12 months' service in the case of 5 or 4½ years' articles, is held in March, June and Nov. Clerks articulated for less than 4½ yrs. may take any Intermed. Examn. after the Registration of articles. Exemption from the Legal portion (but not from the Trust Accounts and Book-keeping portion) is given to those who (i.) before or after entering into Articles have passed the examn. for the B.C.L. or LL.B. at certain of the Univs. of England and Wales or at the Univ. of Dublin or the Queen's Univ. of Belfast ; or (ii.) before entering into Articles have taken Hons. in the Final Honour School of Jurispr. at Oxford or in Part 2 of the Law Tripos at Cambridge.

The *Final* examn. (fee, 10 gs.) is held in March, June, and Nov. Prints of the Questions set at this and at the Preliminary and Intermed. are obtainable from The Law Society.

THE SOLICITORS ACTS, 1932 and 1936. Section 7 (b) of the Solrs. Act 1936, requires that attendance at a Law School under Section 32 of the 1932 Act shall commence within 15 months of the execution of Articles. The latter provides that a person articled to a solicitor after Dec. 31, 1922, shall not be admitted to the Final Examn. unless he satisfies The Law Society that he has, during a period of 1 yr., complied with the requirements of the Society as to attendance at a Law School provided or approved by the Society. This does not apply to any person who (1) has taken a degree at certain Univs. in the U.K., after passing a Final Examn. in law at such Univ. ; or (2) applies to be admitted to The Law Society's Final Examn. after satisfying the requirements of Section 32 (1) (c) (ii.) of the Solrs. Act, 1932 and Section 7 (3) (b) of the Solrs. Act, 1936, and the regulations thereunder dated Oct. 23, 1936. Any person may be wholly or partially exempted from attendance at a Law School if he can satisfy The Law Society that such attendance is for geographical or other reasons impracticable.

Provided and Approved Schools. The Society's Law School in London ; the Univs. of Birmingham (in conjunction with the Birmingham Board of Legal Studies), Bristol, Cambridge, Durham (Armstrong College), Leeds, Liverpool (in conjunction with the Liverpool Board of Legal Studies), London, Manchester, Oxford, Sheffield, Wales (Univ. Colleges, Aberystwyth, Bangor, Cardiff, Swansea), Univ. College, Exeter, Univ. College, Southampton, East Midland Law School (Univ. Colleges of Nottingham and Leicester), Univ. College, Hull, and the Sussex Board of Legal Studies.

SCOTLAND

ADVOCATES

Full information as to admission to the Faculty of Advocates, Scotland, can be obtained on application to the Clerk of Intrans, Advocates' Library, Edinburgh.

The Faculty Examns. proceed upon a remit from the Court, following upon a Petition presented by the Intrans. In the event of the candidate not possessing a degree in Arts, he must either satisfy the Dean and his Council that he has passed an examn. evidencing the same amount of scholarship as that afforded by the degree of Master of Arts of a Scottish Univ., or pass the Faculty examn. in General Scholarship. A knowledge of Scots Law and Conveyancing is essential, and the candidate must have attended classes in these subjects in a Scottish or other approved Univ. The other legal subjects include Civil (Roman) Law, Philosophy of Law and International Law, Constitutional Law and History, and Medical Jurisprudence. The degree of LL.B. of a Scottish Univ., provided it has been obtained after examn. in all the prescribed subjects, exempts from examn. in General Scholarship and Law.

The fees payable on admission vary according to the age of the Intrans and other circumstances.

SOLICITORS (LAW AGENTS)

The generic name for solicitors in Scotland had up till 1933 been "Law Agent," a term synonymous with "Solicitor" in England, but "Law Agent" has now been replaced by "Solicitor" under the Solicitors (Scotland) Act, 1933. The title "Procurator" is also sometimes used. In Edinburgh, where the Court of Session sits, the term "Advocate" is equivalent to "Barrister," though in other parts of Scotland—at least in Aberdeen—certain of the Solicitors or Law Agents may be referred to by that title. In Edinburgh, Law Agents or Solicitors may be members of the Society of Writers to the Signet or of the Society of Solicitors in the Supreme Courts. The former generally use the designation "W.S.," the latter "S.S.C.," after their names, but any solicitor can practise without being a member of either Society provided that he has passed and been admitted "as a Solicitor."

For information regarding the Scottish Law Agents Society, application should be made to the Secretary, Scottish Law Agents Society, Dunblane.

WRITERS TO HIS MAJESTY'S SIGNET

The members of the Senior Society of solicitors in Scotland are called Writers to the Signet, from their having been originally clerks in the office of the King's Secretary. The method of entering the Society of Writers to His Majesty's Signet is by way of Petition to the Keeper and Commissioners of the Signet followed by Indenture, the period being either 5 or 3 yrs. according to the age and qualifications of the applicant. The fees payable on entering into Indenture are £345: 1s., together with other minor charges. Two examns. have to be passed, the first directed both to the theory and to the practice of Law. Upon expiry of the term of apprenticeship and after discharge of the Indenture the Intrant has to pass a second examn. in legal subjects. An applicant who holds a degree in Law of any Scottish University is exempted from all examinations except in Book-keeping and Accountancy provided that the Law of Scotland, Conveyancing, and Civil and Criminal Procedure are included in the subjects in which he has passed for the Degree. The fees payable by Intrants for admission amount to £137: 17s. For further information application should be made to the Substitute Keeper and Clerk of the Society of Writers to His Majesty's Signet, 15 York Place, Edinburgh.

SOLICITORS

An intending Apprentice before commencing his apprenticeship must hold such qualifications as would entitle him to enter on a graduation course in the Faculty of Law of a Scottish Univ. He is required, after his indenture to a Solicitor, to pass three Professional examns. The First Professional examn. consists of Part 1, Book-keeping, Trust Accounts, and Income Tax Law, and Part 2 Constitutional Law. This examn. may be passed at any time after the commencement of apprenticeship. The Second Professional examn. may be passed at any time after the First Professional has been passed, the subjects being, (a) Outlines of Roman Law, and (b) Elementary Jurisprudence. The Third

Professional examn., Part 1 covers the Law of Scotland, Civil and Criminal, excepting the Law of Trusts and Succession. This cannot be taken before passing the Second Professional or sooner than 2 yrs. before the expiry of the apprenticeship. Part 2 of Third Professional includes Conveyancing, Law of Trusts and Succession, Court of Session and Sheriff Court Practice, Criminal Procedure and the Principles of Evidence. This can be taken after the Apprentice has passed Part 1. Attendance at classes of Scots Law and Conveyancing is essential prior to examn. in these subjects. The period of apprenticeship is 5 yrs., but, where the Apprentice holds a degree in Law or Arts of a Univ. in Gt. Britain, and in some other cases, the period is reduced to 3 yrs. The duty for admission to practise before the Sheriff Court is £55 and before the Court of Session, £85. Various fees have to be paid in the course of apprenticeship and for the examns. Any further information may be obtained from George S. Donaldson, S.S.C., 8 Albany Street, Edinburgh.

The above regulations came into force on January 1, 1938.

THE BAR OF NORTHERN IRELAND

Admission to the Bar of N. Ireland is controlled by the Honourable Society of the Inn of Court of Northern Ireland, Royal Courts of Justice, Belfast. The course covers a period of 3 yrs. commencing with Michaelmas Term. A student must have passed a Univ. Matricn. Examn. (incl. Latin). He must keep 3 Terms Commons in one of the 4 Inns of Court in London. Except where expressly provided otherwise he shall attend each yr. a continuous and complete course of lectures at the Queen's Univ., Belfast, and shall pass the examns. connected therewith. In his 2nd or 3rd yr. he may attend the lectures of the Profs. of the Council of Legal Education in London instead of one of the yrs. at the Queen's Univ. A student of an approved Univ. in Gt. Britain and Ireland may, with the approval of the Benchers previously obtained, be given credit for his first yr.'s legal education by attending a complete course for 1 yr. in the Univ. Law School. Before presenting his Memorial for Call he must pass in Sections I., II., III., V., and VI., and in Company Law (Section IV.) of Pt. II. (The Final Examn.) for Call to the Bar held under the Council of Legal Education in England. No student shall be called to the Bar of N. Ireland unless he shall possess an Arts degree or some other Univ. degree which, in the opinion of the Benchers, is equivalent thereto.

Fees. Before admission as student, 1 guinea for Form of Memorial. Upon presentation of Mem., Stamp duty £25, and fee of £25 to the Inn. Univ. Lectures, 15 gs. p.a. Before admission to degree of Barr.-at-Law, Memorial stamp duty £50, fee to Inn £50. On admission, 1 guinea for Certificate of Admission. In addition there are fees upon joining an English Inn and 2½ gs. on entering for Final Examn.

THE BAR OF THE IRISH FREE STATE

Students are admitted into the Honourable Society of the King's Inns and to the degree of Barrister-at-Law under rules adopted by the

Benchers and revised in July 1933 which are obtainable from the Under-Treasurer, The King's Inns, Dublin. A candidate for admission as a student must present a memorial addressed to the Benchers in the prescribed form with a certificate signed by a practising barrister of 10 years' standing. A special form of memorial is required if the candidate is not a citizen of the Irish Free State or of Gt. Britain or Northern Ireland.

Students (other than those who have passed a public examn. at a recognized University or any of the approved examns., or any other examn. recognized by any Univ. in Ireland as equivalent to its matricn. examn. and including Latin, or are students of the Inns of Court in England) are required to pass a preliminary examn. in (a) Irish or English, (b) Latin, (c) Irish History and English History.

Non-university students must complete a course of legal education during 4 yrs., of which the first 2 consist of a course to be taken at one of the Constituent Colleges of the Nat. Univ. of Ireland or in Trinity Coll., Dublin, or in Queen's Univ., Belfast. The second 2 yrs. consist of a continuous course of lectures delivered at the King's Inns, Dublin.

The course for Univ. students is 3 yrs. only, of which 1 yr. is taken at one of the above-named Colleges and the two subsequent yrs. consist of the continuous course of lectures given at the King's Inns. Term examns. are held at the end of each term and Annual examns. at the end of each year. A Final Examn. for admission to the Bar is held at the end of the continuous course.

Students who have been pupils in the chambers of a Barrister in England for 1 yr. may be excused 1 yr.'s course. There are 4 terms of 20 days each. Every student must keep 12 Terms Commons in the Dining Hall of the Society or may substitute for 4 of such Terms, 4 Terms in one of the Four Inns of Court in London. Prizes are awarded at the examns. held at the end of each year of the continuous course.

Students who have passed the Final Examn. may compete for the John Brooke scholarship and other prizes. Every person who was not over the age of 15 yrs. on Oct. 1, 1929, must in order to be admitted to practise in the Courts of the Irish Free State comply with the provisions of the Legal Practitioners (Qualification) Act, 1929, as regards knowledge of Irish.

Solicitors and Writers to the Signet are admitted to the Bar on complying with the provisions of Rule 29.

English Barristers of three years' standing who obtain a certificate from the Attorney-General or Solicitor-General of England may be called to the Irish Bar upon keeping three terms without examn. Irish Barristers may be called to the English Bar upon similar reciprocal terms.

Fees. On memorial, 1 guinea. On admission as a student, Stamp Duty of £25 and fee to the Society, £22 : 10s. Annual fee for education course, £15 : 15s. Fees payable on call to the Bar, Stamp Duty of £50 and fee to the Society, £40.

SOLICITORS IN THE IRISH FREE STATE

With the exception of candidates who have passed certain Univ. and school examns., all intending apprentices are required to pass a prelim.

examn. (held in April and Oct. in each yr.) before being bound under indentures, the course for which is published 1 yr. in advance. Candidates, who must have attained the age of 16, must lodge with the Secretary of the Society, *at least* 3 wks. before the appointed day of the examn., a notice, petition, and memorial, together with baptismal certif. and fee of £10. All intending apprentices who were under the age of 15 on Oct. 1, 1929, must obtain a certif. from the Inc. Law Society of Ireland that he or she has passed a first examn. in Irish, and all apprentices must pass a second examn. in Irish within 1 yr. before being admitted. These examns. in Irish are held by the Inc. Law Society twice yearly. The period of service under indentures varies from 3 to 5 yrs., the reduction being made for graduates of certain Univs.

Apprentices other than those who have been barristers in Ireland must attend two years' lectures by professors of the Society in Common Law, Equity, Real Property Law, and Conveyancing. Fees, 6 gs.

The Intermediate Examn., held in June and Oct., must be taken by all apprentices other than graduates in Laws of Irish and certain British Univs.

The Final Examn., held in April and Oct., fee £10, must be taken by all apprentices before admission as a solicitor. Admission is not granted to candidates under 21 yrs. of age. Fees, £25 stamp duty, and 5 gs. payable to the Society.

Further particulars from the Secretary, Incorporated Law Society, Solicitors' Buildings, Four Courts, Dublin, N.W.8.

B. REGISTRATION OF MEDICAL STUDENTS

The General Medical Council recommend that every medical student at the commencement of his studies should be registered. A memorandum on the procedure to be adopted, with a list of approved Medical Schools, Hospital Fees, etc., may be obtained from the Registrar, 44 Hallam St., London, W.1, price 1s. Students desiring to be registered should apply in the prescribed form, obtainable from any of the Registrars (v. *supra*), submitting evidence of having—(a) attained the age of 17; (b) passed a Preliminary examn. in General Education recognized by the Council; (c) passed also an examn. in *Elementary Physics* and *Elementary Chemistry* conducted or recognized by one of the Licensing Bodies; (d) commenced Medical study at an approved Univ. or Medical School.

As regards (b) the standard of the Preliminary examns. recognized by the Council is approximately that of Univ. Matricn. examns. in the faculties of Arts and Pure Science, and requires in the case of School Certificates which do not exempt from Matricn. that the examn. certificate shall bear evidence that the candidate has passed *with credit* at not more than two sittings in English, Elem. Maths., a language other than English, and an additional subject or subjects as required by the regns. of the particular examn., to be chosen from the subjoined list, viz. Hist., Geog., Physical Sc., Nat. Sc., Botany, Latin, Greek, Hebrew, French, German, or other language accepted by the Univ. for the purpose. Applicants from recognized Dominion or Colonial Univs. must produce evidence that they have passed the complete Matricn. examn. for the faculty of Arts or of Science (Pure) of the Univ. or Coll. from which they come, or an examn. accepted as equivalent thereto, and that the examn.

passed is accepted by one of the Univs. of Gt. Britain or Ireland for similar purposes. Applicants from recognized Indian Univs. must produce evidence that they have passed the Matricn. examn. of the Univ. from which they come, or an examn. recognized as equivalent thereto, and, in addition, the Prelim. Sci. or Interm. examn. in Arts or Sc. of their own Univ. in the four subjects specified above. Applicants from Foreign Univs. should submit their credentials to the Registrar.

As regards (c), this requirement is not dispensed with in cases where *Physics* and *Chemistry* of a Matricn. standard formed part of the (b) examn., but an applicant from recognized Dominion or Colonial Univs. or Colls. is permitted to substitute for it a certificate that an examn. in *Physics* and *Chem.* (and, in addition, *Biol.*, v. *infra*) equivalent in standard to the First Professional examn. in these subjects has been passed by the student. Similarly, in the case of an applicant from one of the recognized Indian Univs. the Prelim. Scientific or Intermediate examn. in Arts or Sc. of his own Univ. will suffice if these subjects are included in his Pass certificate *in addition* to the four subjects required under (b), *supra*.

As regards (d), institutions in which Medical Study may be commenced include all the Univs. and other Bodies throughout the Empire of which the *qualifications* (v. *supra*) have been recognized as entitling to registration in the U.K.

A student who has diligently attended an approved course of instruction in *Elementary Biology* at a Secondary school or other teaching institution recognized by a Licensing Body may be admitted to the Professional examn. in this subject immediately after his registration as a student.

Not all the licensing bodies require students to be registered by the General Medical Council.

C. DENTAL QUALIFICATIONS

Under the Dentists Act, 1921, no person who is unregistered can practise dentistry without rendering himself liable to prosecution.

The Dental Board of the United Kingdom was constituted by the Dentists Act, 1921, and is charged with the duty of dental registration. The address of the Registrar is 44 Hallam St., London, W.1. *Telegrams*—Dentiboard, Wesdo, London.

The following lists show the registrable qualifications obtainable (a) in Great Britain and Ireland, (b) in British Possessions overseas.

D. REGISTRATION OF DENTAL STUDENTS

I. Registration is carried on at the Office of the General Medical Council in London in the same manner as that of Med. students, and is subject to the same regns. as regards age and Prelim. examns., but professional study may commence by pupilage with a Registered Dental Practitioner.

II. Candidates for a Diploma in Dental Surgery should produce certificates of having been engaged in professional studies for at least 4 years, including 3 years at least at a Dental school or schools recognized for professional study by one of the Licensing Bodies, and of having received for not less than 24 calendar months, or for 2000 hours, practical instruction in Dental Mechanics.

III. Two years' or more *bona-fide* apprenticeship with a Registered Dental Practitioner, after being registered as a Dental student, may be counted as 1 of the 4 yrs. of professional study.

IV. The necessary instruction in Dental Mechanics, or any part of it, may be taken by the Dental student either before or after his registration as a student. When he can show evidence of at least 2 yrs.' regular pupilage in Dental Mechanics to a Registered Practitioner, prior to passing the prescribed Prelim. and Sci. examns., he may be allowed to antedate by not more than 1 yr. the passing of these examns.

V. It is recommended that instruction in Dental Mechanics be taken at a recognized Dental Hospital or School. If any part of such instruction be taken by the candidate as a pupil with a Registered Dental Practitioner, the time required to be devoted to it will be at least twice the time required for the corresponding instruction taken at a Dental School.

Schools at which Dental Study may be commenced: Birmingham D. Hospl.; Bristol, Royal Infirmary, Genl. Hospl.; Dublin, D. Hospl. of Ireland; Dundee D. Hospl.; Edinburgh D. Hospl.; Glasgow D. Hospl.; Leeds D. Hospl.; Liverpool D. Hospl.; London, Guy's Hospl.

* Admissible only in the cases of persons who have complied with the Regulations which came into force in 1928.

D. School, King's Coll. Hospl. D. School, London Hospl. D. School, Univ. Coll. Hospl. D. School, Royal D. Hospl. ; Manchester D. Hospl. ; Newcastle-upon-Tyne D. Hospl. ; Sheffield Royal Hospl. ; Roy. Coll. of Surg. in Ireland ; D. Department of any Univ. of the U.K.

Not all the licensing bodies require students to be registered by the General Medical Council.

E. RECIPROCAL RECOGNITION

All the States, Presidencies, Provinces, and Colonies in which the registrable medical qualifications specified under A (b), (c) are granted allow practitioners with qualifications registered in the U.K. to register without further examn. There are other Colonies, e.g. Tasmania, which recognize British qualifications, but in which at present no qualifications are granted.

F. POST-GRADUATE MEDICAL STUDIES

British Postgraduate Medical School

The Athlone Committee of 1921, which was appointed to investigate the needs of medical practitioners and other graduates for further education in medicine in London, reported that the existing provision was widely scattered and lacked adequate organization, and that there was an urgent need for the institution of a post-graduate medical school which should be the centre of a great teaching organization, which would avail itself of London's unique supply of clinical material. In this organization there would be room for all who had a useful contribution to make—the existing special hospitals, medical schools, research institutes and the like.

Later Committees carried on the development of this scheme ; their members including the Presidents of the Royal Colleges of Surgeons and Physicians, representatives of the University of London, of the great London teaching hospitals, of the British Medical Association, and of the Fellowship of Medicine, while among their Chairmen were two successive Ministers of Health, Mr. Neville Chamberlain and Mr. Arthur Greenwood.

The L.C.C. Hospital at Ducane Rd., Hammersmith, was selected as the most suitable for association with the School. The School buildings, which adjoin the hospital, have been provided at the cost of H.M. Govt. The L.C.C. has spent an equivalent sum on those developments and adaptations of the hospital which were considered desirable in view of its association with the School.

The British Postgraduate Medical School receives maintenance grants from H.M. Government. It is a recognized School of the Univ. of London (see p. 211) and the Governing Body is presided over by Sir John Caulcutt, K.C.M.G. A Royal Charter was granted in 1931 and the School was opened by H.M. King George V. on May 13, 1935.

There are at present four Depts. in the School, viz. Medicine, Surgery, Obstetrics and Gynæcology, and Pathology. Each Dept. is in charge of a distinguished Professor and a specialist staff working under his direction.

The School provides for the further education of all Univ. medical graduates and all other practitioners holding qualifications registrable in the United Kingdom.

The hospital has 462 beds. The present School buildings provide the necessary lecture theatres, library and museum. They also include laboratories for research work and for Bacteriol., Morbid Histol. and Biochem. A second block provides laboratories for the Medical, Surgical and Obstetrical Depts. and accommodation for the Professorial staff.

Attached to the hospital is a large Radiological Dept. and accommodation for electrocardiography, and for observations on basal metabolism.

Courses of lectures and demonstrations on special subjects will be provided during the year, but most of the instruction in the School is the ordinary hospital practice. Students have free access to the clinical material of the hospital and attend the daily clinics given by the staff.

Whole time professorial units have been established in all four Depts. of the School, and in addition eminent teachers are invited to give regular clinics and to assume charge of a proportion of the beds.

For post-graduate students who hold qualifications registrable in the U.K. there are a large number of resident posts and, in addition, Clinical Assts. may be appointed from selected students. Facilities will also be provided for graduates who desire to undertake approved research work. An information bureau is maintained at the School and post-graduate medical students can obtain advice and information regarding the opportunities for post-graduate work in London.

Further information may be obtained from the Dean of the School, Ducane Road, Shepherds Bush, W.12.

In London, in addition to the above, the General Hospital Medical Schools provide to a limited extent for qualified practitioners. The *West London Post-Graduate College* at the West London Hospital, Hammersmith, with a staff of regular lectrs. and demrs., the *North-East London Post-Graduate College* at the Prince of Wales' Hospital, Tottenham, and the *London School of Clinical Medicine* at the Seamen's Hospital, Greenwich, as well as certain special hospitals, have arrangements for post-graduate work.

The *Fellowship of Medicine and Post-Graduate Medical Assn.* (1 Wimpole St., London, W.1), formed in 1918, promotes and advertises the provision of facilities for post-grad. med. study in London. In co-operation with 50 London general and special hospitals, post-grad. courses in all the special depts. of med. science are arranged, as well as short intensive courses at regular intervals during the year, including special evening courses for the M.R.C.P. and F.R.C.S. (Final) examns. and personal tuition by a Panel of teachers. Information is given on post-grad. study in Gt. Britain and elsewhere.

Post-graduate courses are also provided elsewhere, notably at Liverpool, Manchester, Edinburgh, and Glasgow.

For information as to open post-graduate scholarships, fellowships, etc., see Appendix II.

ROYAL COLLEGE OF PHYSICIANS OF LONDON AND ROYAL COLLEGE OF SURGEONS OF ENGLAND

Address of the Secy., Examining Board in England, 8-11 Queen Sq., London, W.C.1. Applications for admission to the Board's examns. should reach the Secy. at least 21 days beforehand. Agency for the sale of Books of Questions set in past years (9d. each, post free rod. ; for 1928 and subsequent years, rs., post free rs. 1d.)—Taylor & Francis, Red Lion Court, Fleet St., London, E.C.4.

Examns. for the Diplomas of *Licentiate* of the R.C.P. of London and MEMBER of the R.C.S. of England (L.R.C.P., M.R.C.S.) are held ordinarily in Jan., April, July, and Oct. Candidates must have passed a Prelim. examn. in genl. edn. recognized by the Board, and must have passed, before commencing the 5 years' curriculum of professional study, Part I. of the Pre-Medical examn. in Chemistry and Physics conducted or recognized by the Board. Part II. of the Pre-Medical Examn. (Elementary Biol.) must be passed not later than the completion of the second term of Professional Study. Before admission to the Professional examns. (known as the First and Final) they are required to produce certificates of having pursued the prescribed courses of study and practice. The First Professional examn. (fee, 10 gs.) comprises: Section I., (a) Anat., including Histol. and Embryol., (b) Physiol., including Bio-Chem.; Section II., Pharmacol. and Materia Medica. A candidate who has passed an examn. in the subjects of Section I. or of either part of Section I. and of Section II. in the examn. for the degree in Medicine conducted by a Univ. recognized by the Board will be exempted from further examn. in such subject or subjects. The subjects of the Final Professional Examn. are: Section I. (fee, 4 gs.), Pathol. (including Morbid Anat., Morbid Histol., Clinical Path.), and Bacteriol.; Section II.—Part I. (fee, 10 gs.), Medicine, including Med. Anatomy, Forensic Med., and Public Health; Part II. (fee, 10 gs.), Surgery, including Surg. Anat. and the use of Surg. Appliances; Part III. (fee, 6 gs.), Midwifery and Gynæcol.

Students of recognized Univs. in England, Scotland, and Ireland, who have passed examns. for a degree in Medicine at their Univs. in the subjects of the First Professional Examn., may enter for a Part, or Parts, of the Final at the expiration of 27 months after passing in Anat. and Physiol., but cannot complete until 57 months of professional study, including 33 months clinical work, have been completed after the date of passing in Anat. and Physiol. on production of the required certificates.

Members of certain recognized Indian, Dominion, Colonial, and Foreign Univs. are admissible to the examns. under special conditions, particulars of which are set out in the Regns. of the Board. The Board also grants Diplomas in Public Health, in Psychological Med., in Ophthalmic Med. and Surg., in Tropical Med. and Hyg., in Laryngol. and Otol., in Med. Radiol., in Anæsthetics and in Child Health. Candidates must hold a Medical qualification registrable in the U.K., or be Graduates in Medicine of a recognized Indian, Dominion, Colonial, or Foreign Univ.

Most of the Universities in the U.K., except Oxford and Camb., admit students who have not matriculated but have satisfied the Examining Board requirements to study for the L.R.C.P., M.R.C.S.

For admission to the *Membership* of the R.C.P. (fee, 40 gs., less Licence fee, if any, already paid) the minimum age is 23, and a candidate must satisfy the Censors Board as to his moral character and conduct and pass an examn. of such nature and extent as may be determined by the Board. If he is not a Licentiate of the College, he must have obtained a Univ. degree of Doctor or Bachelor of Med. which is registrable by the General Medical Council of the United Kingdom. A candidate who has attained the age of 30, and can produce testimonials satisfactory to the Board, may submit published work done by himself in any branch of Medical Science or in General Literature, and if the Censors Board decide that such work is of sufficient merit to excuse the candidate the whole or part of the usual Examn. the Board may modify the Examn. as they think fit.

Fellows are elected annually from the ranks of the Members of at least 4 yrs.' standing. (For particulars of the Membership of the R.C.P. application must be made direct to the Secretary, Pall Mall East, London, S.W.1.)

Examns. for the *Fellowship* of the R.C.S. are held twice yearly in May and Nov. Fees, first examn., 8 gs., 2nd, 15 gs., admission to Fellowship (minimum age, 25), 10 gs., for those who are M.R.C.S. Eng. and 30 gs. for those who are not M.R.C.S. The First examn. (in Anat. and Physiol.) is open to M.R.C.S. Eng., and, on production of certain certificates involving work extending over 60 weeks, to (a) candidates who have passed the First examn., Pt. I., for the L.R.C.P. Lond., M.R.C.S. Eng., and (b) members of Univs. recognized under the Regns. of the Board. The Second examn. (in Surgery, including Surg., Anat., and Path.) is open to candidates who have passed the First Examn. and who are *either* (a) Members of the Coll. who can produce satisfactory evidence of having been engaged in the study (or study and practice) of the profession for not less than 6 yrs., *or* (b) Grads. of 4 yrs.' standing in Med. and Surg. in a Univ. recognized by the Council for the purpose. All candidates must have held for not less than 6 consecutive months a post of Resident House Surgeon, or other responsible post in charge of general surgical patients in the wards of a genl. hospital recognized by the Council for the purpose.

All the above examns. and Diplomas are open to Women, subject to the provisions of the Medical Act, 1876, and Bye-laws of the Colleges. (For particulars concerning the Fellowship of the R.C.S. apply to The Director of Examinations, 8/11 Queen Square, London, W.C.1.)

A *Macloghlin Scholarship*, tenable for 5 yrs., value £120 p.a., is awarded annually in July. Open to candidates 16 to 22 yrs. of age qualifying for M.R.C.S. who have not passed a recognized examn. in Chemistry and Physics.

A *Begley Studentship*, tenable for 3 yrs., value £20 p.a., is awarded triennially in April. Next award in 1939. Open to candidates at the examn. in Anatomy and Physiology of the Examining Board in England held in April of the year of award.

Applications to Secretary, Royal College of Surgeons, Lincoln's Inn Fields, London, W.C.2.

ROYAL COLLEGE OF PHYSICIANS OF EDINBURGH,
ROYAL COLLEGE OF SURGEONS OF EDINBURGH,
AND ROYAL FACULTY OF PHYSICIANS AND SUR-
GEONS OF GLASGOW

Joint examns., open alike to men and women, are held in Edinburgh (usually in Oct., Jan., and July) and in Glasgow (usually in March-April) for the *Diplomas in Medicine, Surgery, and Midwifery* of these three bodies. THE INSTITUTE OF METALS

Founded 1908. Incorporated 1910. *Address*—36 Victoria St., London, S.W.1.

Local Sections in Birmingham, Glasgow, London, Newcastle-on-

Tyne, Sheffield, Swansea ; at Manchester, in association with Manchester Metallurgical Society.

The Institute aims at " the advancement of the non-ferrous metals industry and the associated sciences," by the co-operation of manufacturers, users, and scientific investigators. It concerns itself rather with the manufacture and working of metals and alloys and with their properties and modes of treatment and testing than with the production of metals from their ores. The leading features of its work are the holding of sessions in the spring and autumn and an annual " May Lecture " given by some acknowledged master of his subject ; in addition a special " practical lecture " is given annually in the autumn by an expert non-ferrous technician.

Qualifications for Ordinary Membership (M.Inst.Met.) : minimum age, 23 ; occupying a responsible position, being either engaged in the manufacture, working, or use of non-ferrous metals and alloys, or a person of scientific, technical or literary attainments connected with or interested in the metal trades or with the application of non-ferrous metals and alloys. Limits of age for Student Members, 17-26. Entrance fee and annual subsn. for Ordinary Members, 2 gs. and 3 gs. Students, annual subsn., 1 g. (no entrance fee). Assoc. members of local sections pay a nominal subscription and do not receive the *Journal* or have privileges of membership of the parent Institute. *Fellows* (F.Inst.Met.) are limited in number to 12. They are chosen by Council for having rendered eminent service to the Inst.

The *Monthly Journal* contains *Metallurgical Abstracts* and domestic news ; issued to members only. Three bound vols. of the *Journal* are pubd. each year ; price to non-members, £4 for the 3 (post-free).

The *Special Library* contains all the current journals of interest to those concerned with metals.

EDUCATION AND TRAINING OF TEACHERS
IN ENGLAND AND WALES

Courses of training for the teaching profession, recognized and aided under the Regulations of the Board of Education (Whitehall, London, S.W.1), are provided in Training Colleges and in the Training Departments which form part of the work of all Univs. in England and of the constituent Colleges of the Univ. of Wales and the Univ. Colleges of Exeter, Nottingham, Southampton, Hull, and Leicester.

A person who desires to enter a Training College as a *recognized student* or as a *private student* intending to follow a course qualifying him for recognition as a Certificated Teacher must (i.) be over the age of eighteen, or seventeen if he is commencing a four-year course which includes work for a University Degree, on the first day of the Academic year for which he is admitted to the College, or, if that day is the 1st August and the College authorities think fit, within two months thereafter; (ii.) have passed before admission a First Examination for Secondary Schools or some approved examination of at least equivalent

standard (*e.g.* the Matriculation Examination of any Univ. in England or Wales) ; and (iii) satisfy the College authorities as to his character, probable suitability for the teaching profession, and health and physical capacity for teaching. A person who desires to enter as a recognized (*i.e.* grant-aided) student must also (iv.) be a British subject ordinarily resident in England or Wales, unless an exception to this rule is approved ; and (v.) sign a declaration of intention to complete the course of training and thereafter to adopt and follow the profession of teacher in an Approved school.

The principal types of courses at present recognized are : (i.) 4-year, *i.e.* 3 yrs. of study for a Univ. degree, followed by a year of professional training ; (ii.) 2-year, including a period of professional training concurrently with a period of academic study ; this course may, under special conditions for individual students, be extended for a third year or renewed for a year after three years' teaching in approved schools ; (iii.) 1-year, for graduates or Certificated Teachers who have not previously been trained at Training Colleges.

As regards (i.), a student may be admitted to the 2nd, 3rd, or 4th year if he has completed 1 yr., 2 yrs., or the whole of the course for a degree before entering the Training Department. He will not as a rule be certificated as a Teacher unless he has passed a Final examination for a degree.

A course of training extending over not less than 1 yr. at a Secondary School and providing for a systematic study of the principles and practice of teaching may be approved for a person who has obtained a Univ. degree, and a grant may be paid by the Board to the Governing Body of the School.

For studentships for teachers with at least 5 years' teaching experience, *see* Appendix II. 10.

The *College of Preceptors*, Bloomsbury Square, London, W.C.1, grants the following Diplomas to teachers : (1) A.C.P., (2) L.C.P., (3) F.C.P. The A.C.P. and L.C.P. examns. include a written examn. and a practical test of ability to teach. Candidates for the A.C.P. must show that they have reached an approved standard in general education. The L.C.P. examn. is open to University graduates and holders of the A.C.P. Diploma. Candidates must submit evidence of a year's professional experience for A.C.P. and 3 years' experience for L.C.P. The F.C.P. Diploma is granted to candidates who, having already obtained either the L.C.P. Diploma or a degree of an approved Univ. and a teaching diploma of an approved Univ., and having had 5 years' experience, submit a satisfactory thesis on some original research or experimental work in Education.

The *College of Handicraft* (Hon. Registrar, Ivor John, F.Coll.H., M.R.S.T., 124 Belgrave Road, London, S.W.1), a constituent part of the Institute of Handicraft Teachers, incorporated in 1924, grants certificates of competency as Teachers of Handicraft to applicants who satisfy the Bd. of Examiners of the Coll. The standard of examn. for M.Coll.H. is stated to be that of a University Diploma in Education, and for Graduate standard M.Coll.H. (Honours), the examns. are held in Feb. of each year. A necessary qualification is recognition by the Board of Educa-

tion as qualified teacher. A Summer School and a Correspondence Course of Study form part of the College activities, and prizes are awarded for research into the problems of Practical Education. Initials : M.Coll.H., etc. Academic dress may be worn by Members and Fellows.

INTERCHANGE OF TEACHERS

Arrangements exist for the interchange of teachers in Secondary Schools between this country and the Dominions, France, Germany, and the United States, and also as regards teachers in Elementary Schools with the Dominions. The usual conditions of interchange, which is normally for one year, are that the teachers concerned are granted special leave of absence on full pay ; they thus remain during the period of exchange in the service of their home authorities, and the period of interchange counts for salary-increment and pension. The Teachers Superannuation Act of 1937 further makes it possible for a teacher to leave service in a grant-aided school in England, and to serve for a period of 5 yrs., or in certain cases more, in a school overseas without forfeiture of pension rights, provided 10 per cent. of the salary last received in England is paid by the teacher for the period of overseas service.

The *League of the Empire*, Ord Marshall House, 124 Belgrave Rd., London, S.W.1, promotes the interchange of Elementary and Secondary School teachers between the Mother Country and the Dominions on the lines laid down above. Exchanges are also made between Lecturers in Training and Technical Colleges. 199 local authorities in Gt. Britain and Northern Ireland have co-operated, and over 3340 teachers have been exchanged. Canadian, Australian, S. African, Newfoundland, and New Zealand Education Depts. reciprocate. An article on the *Interchange of Teachers Scheme* was printed by the Board of Education in their Report for the year 1925-26. Teachers from any part of the Empire may find housing accommodation at Ord Marshall House. Chairman, Emeritus Prof. E. A. Gardner, M.A., Litt.D. ; Hon. Treasurer, Lord Askwith, K.C.B.

The *Overseas Education League*, under the auspices of the Governments of the Dominion of Canada, Australia, New Zealand, South Africa and Newfoundland, as well as the Education Depts. of the Provinces of Canada, undertakes the organization of official visits of teachers and students to Gt. Britain and other parts of the Empire as well as Europe. Arranges the interchanges of teachers. Organizes Summer Schools in English, French, German, Spanish, Drama, Physical Education, and Folk Dancing. British teachers and students travel through Canada under its auspices. Vice-President and Hon. Organizer, Major Fred. J. Ney, M.C., LL.D., 43 St. George St., Toronto (now headquarters for Canada) ; other offices at 411 Power Building, Winnipeg, 70 Sun Life Building, Montreal.

The *Fellowship of the Maple Leaf* for the supply of British teachers for the Dominions is interested primarily in Elementary Schools, but also places teachers in Private Schools, High Schools, and Universities. Office—63 Tufton St., Westminster, S.W.1.

British Interchange Committee. The organization for the exchange of teachers in secondary and other schools in this country with similar teachers in foreign countries was studied some years ago by the British National Committee of Intellectual Co-operation under the League of Nations. As the result of two Conferences of teachers' organizations, local education authorities, and other bodies interested in the question, a representative national co-ordinating Committee was established with an Executive Committee to co-ordinate and assist the various organizations engaged in promoting the exchange of teachers with foreign countries. The Chairman of the Committee, which is recognized by the British National Committee of Intellectual Co-operation as one of its Sub-Committees, is Mr. R. G. Mayor, C.B., late Principal Asst. Secretary of the Board of Education for England and Wales. Secretary, Mr. A. Farquharson, M.B.E., M.A., 35 Gordon Square, London, W.C.1.

TEACHERS REGISTRATION COUNCIL

Established by Act of Parliament 1907, and constituted by Orders in Council 1912, 1926 and 1937. *Address*—47 Bedford Sq., London, W.C.1.

The Conditions of Registration are : (i.) a degree or other qualification approved by the Council ; (ii.) successful completion of a course of training in teaching for 1 academic year or its equivalent in an institution recognized by the Council for this purpose ; *or* evidence of training service for at least 1 academic year in an approved school, the service being accompanied by a course of study in the methods and principles of teaching ; (iii.) teaching experience in an educational instn. recognized by the Council for this purpose and covering a period of not less than 1 academic year of whole-time or 3 acad. years of pt.-time service.

Condition (ii.) is waived in the case of a teacher who has had not less than 1 academic yr. of experience as Recognized Teacher in Univs. and instns. of Univ. rank approved by the Council for this purpose.

Fee for Registration : The standard fee for Registration and Life Membership of the Royal Society of Teachers is £3, but there is a substantial reduction in the case of those who seek early registration. The fee may be paid by instalments.

ROYAL SOCIETY OF TEACHERS

Executive : The Teachers Registration Council. *President :* Sir Ross Barker, K.C.I.E., C.B. Membership is restricted to those who have satisfied the conditions of Registration, and have been admitted to the Official Register of Teachers maintained by the Council. Initials : M.R.S.T.

LIBRARY FACILITIES AND LIBRARIANSHIP

[Details of University and College libraries are included in the General Information sections under each institution.]

THE NATIONAL CENTRAL LIBRARY, Malet Place, London, W.C.1. (Librarian, Luxmoore Newcombe, M.A., Litt D) Its function is to supply those books which the local library is unable to provide. It does not issue books direct to individuals, but only to the library to which they have access. Every endeavour is made to provide, through its system of Outlier Libraries, any type of educational or vocational book, pamphlet, or periodical (costing not less than 8s., and *exclusive of text-books for examns.*), on any subject, if a copy is not in the local library. Advanced scholars and research students may thus obtain books and periodicals not accessible to them elsewhere. No charge is made for books lent, but postage both ways must be paid by the borrowing library, which accepts full responsibility for the safety and return of the books. The address of the local library, if not known, will be supplied on application to The Librarian of the National Central Library.

A LIBRARY CO-OPERATION INQUIRY OFFICE has been established by the Association of University Teachers with the help of a grant from the Carnegie United Kingdom Trustees and is now supported by subscriptions from the Universities. It endeavours to discover for research workers in what library, if any, any publication or MS. is available, and whether it can be lent. All inquiries must be made through the librarian of a university or college accompanied by a statement as to the libraries already applied to unsuccessfully. Address: The National Central Library, Malet Place, London, W.C.1.

THE ASSOCIATION OF SPECIAL LIBRARIES AND INFORMATION BUREAUX (ASLIB), 31 Museum St., London, W.C.1, was established in 1925. A record of the location and particulars of existing sources of specialized information is maintained and members are helped to get into touch with them. In 1937 the Fourteenth Annual Conference was held at Gonville and Caius College, Cambridge. The Conference Proceedings are published annually, price 5s. In 1928 the Association published in conjunction with the Oxford Univ. Press *The Aslib Directory*, a guide to sources of specialized information in Gt. Britain and Ireland. Price 10s. 6d. Other publications—Aslib Book-list: Quarterly Recommendations of recently published Scientific and Technical Books. Free to members, 10s 6d. p.a. to non-members. Quarterly Bulletin issued free to members. Genl. Secretary, Miss E. M. R. Ditmas, M.A.

Full details of all university and college libraries may be found in *The University and College Libraries of Great Britain and Ireland: a Guide to the Material available for the Research Student*, by L. Newcombe,

Bumpus, 1927. Special reference is made to those collections which are likely to be of value to the research student.

STUDENT ORGANIZATIONS, BUREAUX OF INFORMATION, AND OTHER ASSOCIATIONS

A NATIONAL UNION OF STUDENTS of the Univs. and Univ. Colleges of England and Wales was formed in Feb. 1922 "to represent the students of this country nationally and internationally," and to promote their educational and social interests in entire independence of all political or religious propaganda. It is a federation of Unions, Guilds, and Student Representative Councils. It is affiliated to the *Confédération Internationale des Étudiants* (v. App. X.), through which it has taken an active part in promoting foreign travel of English students and stimulating intercourse with students abroad. A particularly important Dept. is that for Exchange and Tuition Visits which arranges each year many hundreds of exchanges between British and foreign students. The next Annual Congress will be held at Nottingham, April 7-13, 1938.

Similar National Unions exist in Canada, South Africa, Australia, and New Zealand, and there have been two conferences of Student Unions of the Empire, the first held in London and Cambridge in July 1924, and the second in Montreal in Sept. 1929. The purpose of these conferences has been to discuss ways and means of practical co-operation among the students of the Empire and questions of general Imperial interest. As a result of them it is possible to arrange periodic visits of Debating Teams from Gt. Britain to the Dominions and *vice versa*, and among the various Dominions themselves. Large groups of South African students have visited England on many occasions, and such visits have now become annual events. The formation of the Dominion Students' Athletic Union with headquarters in London was a direct outcome of the first Imperial Students' Conference, and the existence of this Union makes it possible to arrange the participation of Dominion Teams in the International University Games and to promote athletic fixtures between teams of Dominion Students resident in England and teams representing the British Universities. *Publication*—"The New University," twice a term, 2d. *Address*—3 Endsleigh Street, London, W.C.1.

THE SCOTTISH NATIONAL UNION OF STUDENTS (S.N.U.S.), formerly known as "The Students' Representative Councils of Scotland," consists of the Students' Representative Councils of the four Scottish Univs., and therefore represents all the students of Scotland—total number approximately 11,000. Principal Secretary and Treasurer, A. S. R. Tweedie, M.A., S.R.C. Office, The University, Edinburgh. Formerly one of the chief features of the S.R.C.S. (as it then was known) was the Annual Conference, at which each Univ. was represented by eight delegates. It was, however, decided at the beginning of 1935 that, as the Annual Conference did not operate satisfactorily, it should be abolished and the business of the S.N.U.S. should in future be conducted by means of:

- (1) An Annual Convention of four delegates from each S.R.C.;
- (2) the

National Executive Committee, consisting of the President and Secretary of each S.R.C., and attended by the Principal Secretary and the Travel Secretary; (3) the Inter-Universities International Academic Committee; (4) other Committees appointed for special purposes; and (5) the Executive Officers. At the same time the alteration in the name of the National Union was effected. The second Annual Convention was held in Aberdeen at the end of Jan. 1937. The S.N.U.S. is federated to the Confédération Internationale des Étudiants (C.I.E.), having applied for readmission to that body at its 18th Annual Congress held in Sofia in Aug. 1936. A separate Department of the S.N.U.S. is devoted to the organization of student travel, reception of foreign students, and exchange and tuition (*au pair*) visits. Communications on these subjects should be addressed to the S.N.U.S. Travel Secretary, S.R.C. Office, Univ. of Edinburgh. The S.N.U.S. also maintains, in conjunction with the National Union of Students of England and Wales (N.U.S.), an "Honorary Academic Consulate." In many Univ. towns throughout the world a Consul has been appointed who will give advice and assistance to British students and graduates visiting his city, and who will introduce them to Univ. circles. The Keeper of the Register of Consuls, from whom cards of introduction to Consuls may be obtained, is Mr. A. S. R. Tweedie (address as above).

THE NATIONAL FEDERATION OF CANADIAN UNIVERSITY STUDENTS, inaugurated Dec. 1926. First Annual Conference held at Univ. of Toronto, Dec. 1927. Last meeting, Univ. of Manitoba, Winnipeg, Dec. 28-31, 1937. Meetings now biennial. Next will be held in Dec. 1939. The Federation has complete charge of all student debating tours including inter-university debates in Canada, receiving of teams from all other countries, and sending teams out of Canada. Over 500 debates arranged since its inception. Officers, 1937-39: President, J. H. McDonald, McGill Univ., Montreal. Secretary-Treasurer, P. G. Davies, B.A., LL.B., Drawer 6, Clyde, Alberta.

THE NATIONAL UNION OF AUSTRALIAN UNIVERSITY STUDENTS was formed at a Student Conference in Adelaide early in 1937. It was there decided that the Australian Union should follow broadly on the lines of the N.U.S. of England and Wales and should seek both to obtain and to give the fullest co-operation with similar bodies throughout the world. It is particularly interested in the exchange of students between the various States of Australia and in developing international exchanges. President, K. Ellis, LL.B. (Sydney). Hon. Secretary, A. G. Crawford, B.A., LL.B., Gosper Lane, Univ. of Sydney, Sydney, N.S.W.

THE NEW ZEALAND NATIONAL UNION OF STUDENTS was founded in 1930. Its constituent organizations are the Student Unions of the 4 Univ. Colls. constituting the Univ. of N.Z. Its Statutes are modelled on those of the English N.U.S. Its activities comprise sports, debating, supply of text-books, travel and foreign relations. Its objects are "to represent the views of past and present students of N.Z. nationally and internationally; to maintain an effective co-operation with students in N.Z. and in other countries; and to promote and maintain the educa-

tional and social welfare of students, entirely independent of political and religious propaganda." It appoints a Univ. graduate as its representative in Europe and is affiliated to the International Confederation of Students. President, A. P. Blair. Secretary, F. D. Christensen, Norwich Chambers, Featherston St., Wellington, C.I.

THE NATIONAL UNION OF SOUTH AFRICAN STUDENTS was formed in 1924. Its members are drawn from most of the Universities and Colleges in S. Africa and its main practical achievements are the Annual Students' Overseas and Inland Tours and the study of National and International problems, through lectures, week-end schools, study circles, national conferences, etc. Since its inception nearly 3000 students have visited numerous countries in Europe, the Near East, Far East, America and Canada, while three parties of overseas students have toured S. Africa under its auspices. Secy., Wanda E. Dobrowsky. All correspondence to be addressed to: The N.U.S.A.A. Office, 148 St. George's Street, Cape Town, S. Africa.

THE JOINT UNIVERSITY COUNCIL FOR SOCIAL STUDIES AND PUBLIC ADMINISTRATION. The Joint University Council for Social Studies was established in 1918, having as object the co-ordination and development of the work of Social Studies depts. in connexion with the Univs. of Gt. Britain. In 1936 it was decided to relate the Council's work more closely to that of degree or diploma courses in public administration. Its membership was enlarged so as to include representatives of the teachers concerned with these courses and its name was altered accordingly. The Council now includes representatives of 16 Univs. and Univ. Colls. Annual affiliation fee, £4:4s. Inquiries to be addressed to the Hon. Secretaries, 50 Romney St., Westminster, S.W.1.

NATIONAL INSTITUTE OF ECONOMIC AND SOCIAL RESEARCH, 32 Gordon Sq., London, W.C.1. The Institute has been established to conduct research, either by its own staff or by other persons temporarily associated with it, into the facts and problems of contemporary human society; to provide assistance and facilities for research to members of Univ. staffs and others; to apply for funds in aid of such research; to collaborate with any similar organizations in other countries; to publish or to assist in publication of results of researches. Director, Prof. N. F. Hall, M.A., A.M.(Econ.). Inquiries to be addressed to the Secretary.

A JOINT STANDING COMMITTEE FOR EMPIRE EDUCATIONAL WORK has been formed under the chairmanship of T. Drummond Shiels, M.C., M.B., Ch.B., as a result of the Conference of Empire Societies called by the Secretary of State for the Dominions in Nov. 1934. Its purpose is to co-ordinate and to develop the educational work of all the non-party Empire Societies in London which include such activities in their programme. Inquiries should be addressed to the Hon. Secretary, Miss Gertrude Drayton, C.B.E., 81 Cromwell Road, London, S.W.7.

THE ANGLO-CANADIAN EDUCATION COMMITTEE has been formed to facilitate the movement of English boys to Canadian Universities. British Committee, Seymour House, Waterloo Place, London, S.W. Joint Chairmen, Rt. Hon. L. S. Amery, M.P., Sir Campbell Stuart, K.B.E. Hon. Secy., K. Lindsay, M.P. Secy., H. E. Rubie. The Committee has recently published a book entitled "The Universities of Canada."

On the Canadian side there is a Committee consisting of well-known educationalists.

VIII

UNIVERSITIES OF THE UNITED STATES OF AMERICA

Students in this country intending to study in the United States are advised to apply to the American University Union, British Division, 1 Gordon Square, London, W.C.1. For Information Bureaux abroad see Appendix VI. The Institute of International Education, 2 West 45th Street, New York City, publishes a *Guidebook for Foreign Students in the U.S.A.* containing information concerning graduate study and other facts of interest to a foreign student, 5th edn., 1937. A useful publication is *American Universities and Colleges*, edited by Clarence S. Marsh for the American Council on Education. (Third edition revised.) Published by Williams and Wilkins Company, Baltimore, Maryland, 1936. Cost \$4.00. Pt. I. is devoted to a general explanation of the organization and operation of higher education, and Pt. II. gives separate statements of the individual colleges and universities arranged alphabetically.

EXPENSES. Annual tuition fees range from a maximum of about \$500 in the large Eastern universities to a minimum of about \$75 in the State universities and small colleges of the Middle West. Living costs vary according to the size of the college or university, and the size of the town in which it is located. In general, living expenses in the South are a little less than in the Middle West, and in the Middle West a little less than in the West and East. The cost of an academic year of nine months may be reckoned at about \$1500 in the most expensive places, and \$650 in the least expensive. Transportation costs about two cents a mile.

INTERNATIONAL HOUSE, Riverside Drive, New York City, opened Sept. 1924, is a residential club for over 500 foreign and American students. Similar houses have been opened at the Univ. of California, and at the Univ. of Chicago. The requisite funds for these three International Houses were provided by John D. Rockefeller, Jr.

SCHOLARSHIPS. For information as to American University and College Scholarships for British students see Appendix II. 34.

AMERICAN DEGREES (non-professional). The following notes are based on a Report presented by a Committee of the American Council on Education to the French Ministry of Public Instruction: The American Colleges, both those which are independent institutions and the colleges of liberal arts within Universities, award the A.B. (or B.S.) degree to students who complete a 4 years' course. Ordinarily the student at the time of admission to the college is about 18 years of age and has completed a 4 years' course in a secondary school. A considerable portion of his work at college belongs, however, to what

in European countries is called secondary education. A peculiarity of the American system of grading, both in secondary and in higher institutions, is the weight attached to the length of time spent under instruction, a degree being attainable by gradual accumulation of a specified number of "credits" (certificates of definite periods of time spent successfully under instruction), which thus largely replace the examinations used in other countries for testing the student's capacity at various intervals. The college graduate who aspires to the degree of M.A. (or M.S.) proceeds to the Graduate School of a University (the professional schools of first grade prefer and in some cases require graduate standing for admission), and there pursues his studies, either general or, if aiming at a subsequent doctorate, specialized, for one year. The Ph.D. requirements are ordinarily "3 years of resident study, beyond the baccalaureate, the presentation of a thesis embodying the results of original research, and the passing of a comprehensive examination testing the candidate's knowledge of his chosen field of learning."

The Report points out that higher education in the U.S.A. is largely autonomous, there being no control by the Federal Government and little control by the political authorities of any State. Such standardization as has been effected has come through the voluntary efforts of groups of institutions having similar ideals and purposes. Conspicuous among these is the Association of American Universities.

The following 30 American Univs. of complex organizations, usually with graduate schools and certain professional and technological schools, are members with voting privileges of the Association :

Brown, California Institute of Technology, California, Catholic Univ. of America, Chicago, Clark, Columbia (including Teachers' Coll. and the International Institute), Cornell, Harvard, Illinois, Indiana, State Univ. of Iowa, Johns Hopkins, Kansas, Massachusetts Institute of Technology, Michigan, Minnesota, Missouri, Nebraska, North Carolina, Northwestern, Ohio State Univ., Pennsylvania, Princeton, Stanford, Texas, Univ. of Virginia, Washington (Missouri), Wisconsin, Yale.

In addition there are many educl. organizations of the first rank which are accredited by the Assn.

In the 1460 Universities, Colleges, Junior Colleges, and Professional Schools which submitted returns for 1931-32 (Bulletin 1933, No. 2—Advance Pages—Government Printing Office, 1935), to the United States Office of Education, there were enrolled in that year 1,154,117 students, about equally divided between men and women. Of these institutions 544 were under public and 916 under private control. Of the total number of students more than 530,000 were listed as undergraduates in arts and sciences and more than 42,000 as graduates in arts and sciences. Professional Schools enrolled nearly 500,000 undergraduates and more than 35,000 graduates. Law students numbered 37,170; medical 24,040; dental 8519; theological 12,350; pharmacy 9782; engineering 77,041.

THE BRITISH LIBRARY OF INFORMATION, 270 Madison Avenue, New York, established Dec. 1919 for the convenience of Americans desiring information on British current affairs, is a branch of the News Depart-

ment of the Foreign Office, from which it is well supplied with official documents and other publications. It has become the recognized centre for information on British Empire affairs. Wherever possible, official documents are lent, on request, to American libraries under the usual inter-library loan conditions. Early copies of documents dealing with matters of general interest, such as foreign affairs, finance, education, social welfare, industrial relations, mineral and oil resources, etc., are received regularly direct from London. The Library also has an important file of documents on Indian affairs, and some of the leading Indian newspapers. It is free to the public, and information is given to all inquirers. The Library is the official agent in U.S.A. for publications of H.M. Stationery Office.

A BRITISH-AMERICAN ASSOCIATION OF PHI BETA KAPPA (founded 1776—a society of American University scholars of distinction) was formed in England in 1924 under the presidency of Lord Balfour. Address: American University Union, 1 Gordon Sq., London, W.C.1.

ADMISSION TO BRITISH UNIVERSITIES. Information as to the conditions of admission of American students to British Universities will be found in Appendix I.

ANGLO-AMERICAN RELATIONS

PROFESSORSHIPS

GEORGE WATSON LECTURESHIP. Founded by Sir W. G. Watson, Bt., who presented £20,000 for the purpose on the occasion of the return of the Prince of Wales from his American tour. Each year's course will usually comprise about 6 lectures by an eminent authority, American or British. The courses will be given in the various British Univs. in rotation. A general Inaugural Lecture was given in London by the late Viscount Bryce, O.M., in July 1921. This and some subsequent lectures have been published in England by the Cambridge Univ. Press. Lecturer, 1938: Prof. H. Hale Bellot. *Subject*: "Recent Advances in the Interpretation of American History." The Foundation is administered by the Sulgrave Manor Board, 37 Charles St., Berkeley Sq., London, W.1.

GEORGE EASTMAN VISITING PROFESSORSHIP, tenable at Oxford Univ. The holder shall be, at the time of his election, a citizen of the U.S.A., eminent in teaching or research, and he shall give instruction in the subject of study in respect of which he is appointed. Appointment—not less than 1 nor more than 5 yrs., but re-eligible. 1938–39—Prof. T. Frank, Ph.D. (Prof. of Latin, Johns Hopkins Univ.).

HAROLD VVYAN HARMSWORTH PROFESSORSHIP OF AMERICAN HISTORY, tenable at Oxford Univ. The Prof. shall be, at the time of his election, a citizen of the U.S.A. Appointment—5 yrs. from date of election, but re-eligible. Salary, £1200 p.a. Present appointment: R. McNutt McElroy, M.A., D.Litt., Fellow of Queen's, to hold office until July 31, 1938.

COMMONWEALTH FUND PROFESSORSHIP OF AMERICAN HISTORY, tenable at the Univ. of London, University College. The Commonwealth Fund of New York has appropriated a sum of \$214,500 to endow a Department of American History at University College, London, including a professorship and assistants. Present holder: Prof. H. Hale Bellot, M.A. Ox. A sum of £4866 was raised in London and New York, the income of which is available for the library of American History at the College, and the library on the same subject at the Institute of Historical Research, Malet Street, London, W.C.1.

The American Universities are constantly inviting distinguished British scholars to lecture on British History and institutions, so that the need for the establishment of special foundations for the purpose has not been felt in the United States.

INTERNATIONAL FEDERATIONS

INTERNATIONAL COUNCIL OF SCIENTIFIC UNIONS (formerly International Research Council). Gen. Secretary—Prof. F. J. M. Stretton, Caius College, Cambridge. This body was constituted in 1919, in pursuance of a resolution adopted in Nov. 1918 at a Conference in Paris at which the principal Allied Academies were represented. Under the auspices of the Council, *International Unions* have been formed for Astronomy, Geodesy and Geophysics, Chemistry, Physics, Scientific Radio, Biological Sciences, and Geography. Next meeting of the Council at Copenhagen in 1940.

UNION ACADÉMIQUE INTERNATIONALE (for co-operation in the advancement of studies by means of collective researches and publications in the fields of Archæology, History, Philology, and Moral, Political, and Social Science). The Union was constituted in 1919 on the initiative of the Académie des Inscriptions et Belles-Lettres. 20 nations of Europe, Asia, and America have each 2 representatives nominated by their Academies. The annual General Assembly is held at Brussels towards the end of May. President for 1938: M. Waldo Leland. Administrative Secretariat, Palais des Académies, Brussels.

MODERN HUMANITIES RESEARCH ASSOCIATION, founded at Cambridge in 1918, is now an international organization with members in 28 countries. Its main object is the encouragement of advanced studies in Modern Languages and Literatures by co-operation, through correspondence, personal intercourse, the interchange of information and counsel and the publication of original research and works of reference. Membership is open to graduates (and persons of the standing of graduate) of all Univs., British and foreign; to other persons, at the discretion of the Committee; and to approved institutions. Publications: *Modern Language Review* (quarterly, 25s. p.a.); *Annual Bibliography of English Language and Literature*, 8s. 6d.; *The Year's Work in Modern Language Studies*, 8s. 6d. Reduced prices to members. All pubd. by the Cambridge University Press. Hon. Secretary, Will G. Moore, M.A., D.Litt., St. John's College, Oxford; Sub-Secretary for America, Dr. L. R. Bradley, 100 Washington Square East, New York City.

INTERNATIONAL INSTITUTE OF INTELLECTUAL CO-OPERATION, 2 rue de Montpensier, Paris, 1^{re}. Director: M. Henri Bonnet. Inaugurated Jan. 1926. The Institute forms part of the International Organization for Intellectual Co-operation, which is itself one of the four technical organs of the League of Nations. Established on the basis of an agreement concluded between the Council of the League of Nations of the one part and the French Government of the other. The Institute is the executive instrument of the Internat. Committee on Intellectual Co-

operation. Its duty is to assure in all countries the carrying out of the decisions and recommendations of the Committee and, under the direction of that Committee, and by every means in its power, to promote, through internat. co-operation, the organization of intellectual work throughout the world. The Institute is open on every working-day. Visitors received by appointment.

Information is given on the following matters :

1. The scientific study of international relations.
2. Certain general questions of intellectual co-operation, *e.g.* : exchanges of correspondence (" Open Letters ") and the organization of " Conversations " between representative leaders of the intellectual world ; the educational rôle of modern means of diffusion (Press, broadcasting, and the cinematograph) ; the internat. problem of documentation ; publication of a collection of ethnographical and historical works on the origins of the American States.
3. Internat. relations : various internat. conventions are being considered. They relate, more particularly, to broadcasting in the cause of peace ; the revision of school text-books ; the protection of national artistic possessions ; and the organization of art exhibitions.
4. Education : internat. collaboration between univs. ; co-ordination of educational documentation and information centres ; meetings of internat. student organizations ; revision of school text-books ; teaching of history ; school questions, such as school broadcasting, internat. school correspondence, internat. travel and exchange of school-pupils, and liaison with the major internat. assocns.
5. Exact and natural sciences : collaboration between science museums ; relations with the Council of Scientific Unions ; co-ordination of scientific terminology.
6. Co-ordination of libraries and archives.
7. Literature : publication of an internat. bibliography of translated works (*Index Translationum*), of an Ibero-American Collection, of a collection of Japanese works.
8. Fine Arts : International Museums Office, International Office of Institutes of Archaeology and History of Art ; folk-arts.
9. Intellectual rights : authors' rights ; scientists' and inventors' rights ; protection of press information.

Methods of Work : 1. Internat. inquiries. 2. Publications (see below). 3. Meetings of permanent or temporary committees of experts.

The Committees of Experts are as follows :

Permanent International Studies Conference ; Committee of Directors of Higher Education ; Committee of Directors of Primary and Secondary Education ; Committee of Library Experts ; Directors' Committee of the International Museums Office ; Committee of Archives Experts ; Committee of International Student Organizations ; Permanent Committee of Arts and Letters ; Directors' Committee of the Office of Institutes of Art ; Committee of Experts on League of Nations Teaching ; International Folk Art Committee ; Committee of Law Institutions specializing in the study of Intellectual Rights ; Publication Committee for the Ibero-American Collection ; Liaison Committee for Major International Associations.

National Committees of Intellectual Co-operation in this and many other countries also work in co-operation with the Institute.

Principal publications of the Institute :

I. Periodicals—*Intellectual Co-operation* : 1929, 1930 *et seq.* ; *Mouvement* : 1927 *et seq.* ; *Informations mensuelles. Index Translationum*, No 1, 1932 *et seq.* ; *Science Museums*, No 1, 1933 *et seq.* ; *Bulletin d'Archéologie et d'Histoire de l'Art*, No 1, 1934 *et seq.* ; *Bulletin de la Correspondance scolaire internationale*, No 1, 1930 *et seq.* ; *Students Abroad*, No 1, 1931 *et seq.* ; *Holiday Courses in Europe*, 1928 *et seq.* (published also in French and German).

II. Volumes—"Cahiers" and an international intellectual co-operation series (classified under the following headings) : Literature, Art, Libraries and Archives, Bibliography, Economic and Political Sciences, Education, Intellectual Rights.

THE BRITISH INSTITUTE IN PARIS, 6 rue de la Sorbonne, Paris V^e.
Director—Harley Granville-Barker, D.Lit., LL.D. A Foundation of the University of Paris.

The work of the Institute is divided into two sections :

(1) French studies for English students. This section assists Univ. graduates from Gt. Britain or the Dominions who are working for higher degrees at the Sorbonne or elsewhere, and gives such classes and courses in the French language and literature as should help students to follow more profitably the courses in French Univs., or to prepare for business careers in France or elsewhere. It organizes for the British Univs. courses of a term's length or longer (from Nov. to June) for groups of students who must come to France for some part of their preparation for a degree in French. It also organizes for the Board of Education, the Univs. and Public Schools, holiday courses of from 1 to 4 weeks in length, at Easter and in July and August.

(2) English studies for French students. This section provides classes and lectures on English language and literature, modern history and social conditions to help in the preparation for degrees in English or to prepare for careers in England or the Dominions. The session, beginning about Nov. 3, is divided into 3 terms of 10 weeks each.

The premises include a library of 9000 vols. and a club-room in which French and English students meet for tea and conversation. The office gives information regarding the various courses in the Univ. of Paris and the addresses of French families where students are received. The Director can usually obtain for research students introductions to professors and men of letters capable of assisting them.

London Office : 1 Old Burlington St., W.1. ; Secretary, B. S. Townroe, M.A.

The CONFÉDÉRATION INTERNATIONALE DES ÉTUDIANTS was formed at Strasbourg in 1919 by official representatives of the National Unions of Students of Belgium, Czechoslovakia, France, Luxembourg, Poland, Roumania, and Spain, and unofficial representatives of students of 10 other countries which had, at that time, no national unions. Congresses have been held as follows : At Warsaw, Sept. 1924, Copenhagen, 1925, Prague, 1926, Rome, 1927, Paris, 1928, Budapest, 1929, Brussels,

1930, Bucharest, 1931, Riga, 1932, Venice, 1933, Nottingham, 1934, Prague, 1935, Sofia, 1936, Paris, 1937. In 1938 the Congress will be held at Athens. The C.I.E. now embraces over 30 National Unions or national representative bodies. The number of students represented is about 850,000. It organized the Internat. Univ. Games at Rome in 1927; at Paris in 1928; at Davos and Darmstadt in 1930; at Bardonecchia and Turin in 1933; at Budapest and St. Moritz in 1935; at Zell-am-See and Paris in 1937. The next International Games, which have now achieved an importance probably second only to that of the Olympic Games themselves, will be held in Poland and Finland in 1939. The Confederation aims at promoting friendship between students and student bodies throughout the world, and the study of international questions relative to higher education and the conditions of student life. President—M. Claude Delorme (France); General Secretary—M. Smets, 83 rue de la Croix de Fer, Brussels.

The INTERNATIONAL FEDERATION OF UNIVERSITY WOMEN was founded in 1919 "to promote understanding and friendship between the university women of the nations of the world, and thereby to further their interests and develop between their countries sympathy and mutual helpfulness." It has branches in 34 countries. The Federation assists travelling members by providing introductions, and by the establishment of club-houses or other special facilities for accommodation in the chief centres of intellectual life. It provides travelling fellowships for women graduates (v. Appendix II.), and promotes the exchange of university and secondary school teachers, librarians, museum curators, archivists, etc., between different countries. Tours of special scientific or other interest are arranged in different countries. Officers (1936-39): *President*, Dean Virginia C. Gildersleeve, Barnard Coll., Columbia Univ., N.Y.; *Vice-Presidents*, Lektor S. Adamowicz, Warsaw; Dr. Karin Kock, Univ. of Stockholm; Prof. Dr. E. Patzelt, Univ. of Vienna; *Treasurer*, Miss J. M. Bowie, London; *Secretary*, Miss Erica Holme, Crosby Hall, Cheyne Walk, London, S.W.3. International Conferences are held triennially, and International Councils yearly between Conferences. The last Conference was held in July 1936 at Cracow. *Crosby Hall* was opened by the British Federation of Univ. Women, as a London residence and club for members of the Internat. Federation at Easter 1927. The residence is intended primarily for graduate students carrying on research or other advanced work in London. Application for accommodation should be made to the Warden, Crosby Hall, London, S.W.3.

THE WORLD'S STUDENT CHRISTIAN FEDERATION is a federation of the National Student Christian movements of 27 countries, and has relations with students in 17 other countries where there are not yet regular national movements. It was founded at Vadstena, Sweden, in 1895, by five students' organizations from N. America, Gt. Britain, Germany, and Scandinavia. It endeavours to unite, and to promote mutual relations among these movements throughout the world, and to collect and distribute information about the conditions of students in all lands from the religious and other points of view. It organizes

international student conferences for the discussion of burning problems, religious, racial, educational, organizational. Publication: *The Student World* (quarterly). Headquarters: 13 rue Calvin, Geneva, Switzerland. Cable Code: Missions Code. General Secretary: Dr. W. A. Vissert' Hooft.

INTERNATIONAL STUDENT SERVICE, founded in 1919, has two different but complementary aims. It works to bring together university people of the most diverse races, religions, and politics, (1) in practical help for those among their community who need it, and (2) in objective study of the issues which tend to divide them. This work is carried out in four depts.: (i.) Relief and Reconstruction. I.S.S. has raised approximately £560,000 to relieve, train, and settle destitute students all over the world. (ii.) International Education. Five or six international University Study-Conferences are organized each year on political, social, economic or cultural issues of the first importance. (iii.) University Research. International inquiries are undertaken into such subjects as Graduate Unemployment, Academic Freedom, etc., and an International University Information Service maintained at Headquarters. (iv.) Social Service and Student Self-Help. This Dept. covers the development of student self-help schemes and work camps for students of all countries.

There is a Co-operating Committee of I.S.S. for England and Wales and Co-operating Committees and individuals in 21 other countries. Chairman: Sir Walter Moberly, D.S.O., D.Litt.; Secretary and Office, Mr. Philip Smith, 49 Gordon Square, London, W.C.1.

The International Headquarters are at 13 rue Calvin, Geneva (Switzerland).

Publications: I.S.S. Bulletin (monthly); Annual Reports, Conference Reports, occasional papers and books.

The STUDENT CHRISTIAN MOVEMENT of Great Britain and Ireland is the British Branch of the World's Student Christian Federation. Publications: *The Student Movement* (monthly during term). Offices: Annandale, North End Road, Golders Green, London, N.W.11.

INTER-UNIVERSITY JEWISH FEDERATION of Gt. Britain and Ireland (federating all Jewish Univ. Societies in the U.K. and Ireland). Hon. Sec.: I. L. Swift, 7 Rosebery St., Prince's Park, Liverpool.
